James J. Apperson
Director

July, 2008

The Honorable Janet Napolitano, Governor of Arizona
and Honorable Members of the Arizona State Legislature:

This annual report on federal programs administered by state agencies was prepared in accordance with A.R.S. § 41-723 and covers the state fiscal year ending June 30, 2007. Forty-eight state agencies reported actual federal revenue or expenditure data for fiscal year 2007 as well as estimates for fiscal years 2008 and 2009. The data contained in the following report is compiled by agencies and submitted to me as the Director of OSPB. Specific questions on the reported information should be directed to the reporting agency.

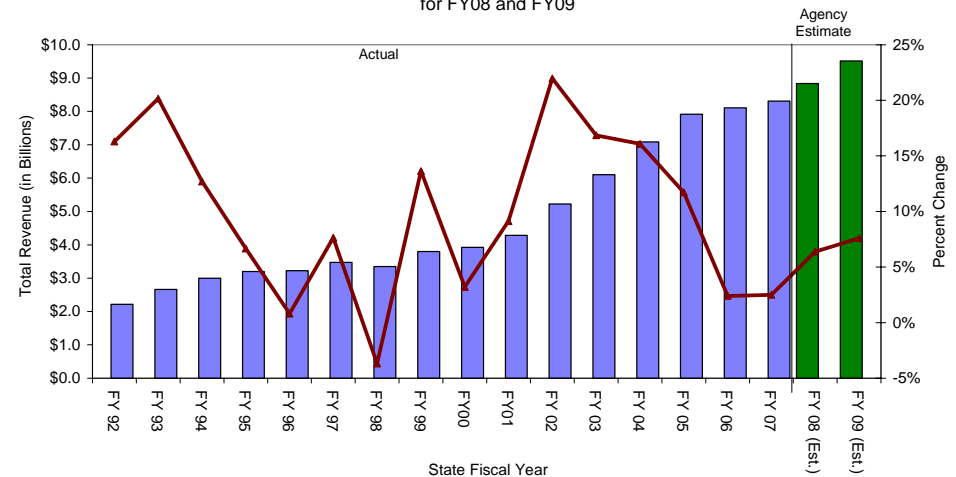

HISTORY

Figure 1 demonstrates the trend in actual federal funds receipts by state agencies since fiscal year 1992 as well as the percentage change in receipts from year to year. It also includes agency-reported estimates for fiscal years 2008 and 2009.

FISCAL YEAR 2007 PICTURE

The \$8.31 billion received in FY 2007 represents a small increase over the \$8.10 billion reported in fiscal year 2006. The largest increase is accounted for by the Arizona Health Care Cost Containment System (AHCCCS) due to a \$104 million increase. This increase in receipts stems from Medicaid caseload and inflationary and capitation growth.

Figure 1
Federal Funding Trend Including Estimates
for FY08 and FY09

In FY 2007, AHCCCS caseloads and inflationary costs brought in \$37 million more for Acute Care, \$70 million more for Long-Term Care, and \$13 million in the Children's Health Insurance Program (CHIP) over FY 2006.

The second largest increase was for the Department of Economic Security at \$36.7 million. The largest components of this increase can be attributed to the Adoptive Maintenance Assistance programs as well as a variety of social service "safety net" programs.

As Figure 2 demonstrates, Health and Welfare constitutes 74.9% or \$6.2 billion of the total amount received by the state from the federal government in fiscal year 2007. Another two primary components of the federal funds total can be attributed to Transportation at 4.8% and Education at 16.6%.

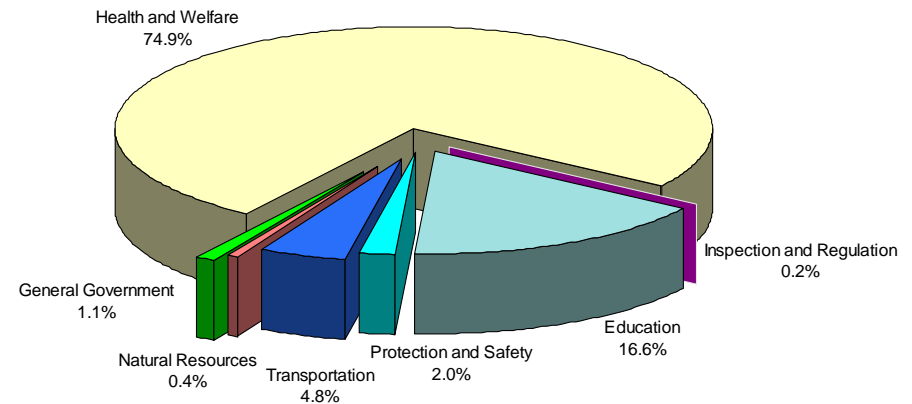

FUTURE OUTLOOK

As part of Governor Napolitano's FY 2009 budget proposal, Arizona will continue to aggressively pursue additional Federal Funds for a variety of programs administered by the state. This activity will look to find areas where Federal Funds are available to leverage state funds and other areas where Federal Funds can augment state dollars to provide needed services to Arizonans.

New federal Homeland Security initiatives should generate more federal dollars for Arizona as the Federal Government partners with Arizona and local governments to secure the international border. The flow of funding continues to evolve and it has yet to be determined how these monies will impact state and local entities. Only time will tell how the Federal Government will administer these funds and how significant the level of funding will be.

While the Federal Government has tightened the eligibility requirements for many entitlement programs and while there has been a slow erosion to the economy through FY 2008, it is not likely that total FY 2008 federal funds for these programs will be much greater than in FY 2007. Also, other programs are funded through capped block grants where changes in caseload will have little impact on the expense of federal funds.

Figure 2
FY 2007 Federal Revenues by
Area of Government

The Honorable Janet Napolitano, Governor of Arizona
and Honorable Members of the Arizona State Legislature
July, 2008

The information contained in this document is compiled from data provided by state agencies through the normal budget process. It is anticipated that more detailed reporting from the data provided by state agencies will be disseminated in future years. Specific grant information is available for review at individual state agencies and at the Governor's Office of Strategic Planning and Budgeting (contact: Norm Selover at 602-542-6198).

Respectfully submitted,

A handwritten signature in black ink, reading "James J. Apperson". The signature is written in a cursive style with a large, looping initial "J".

Summary

Building the Statement of Federal Funds

Preparing the Statement of Federal Funds is based primarily on agency reported information

THE STATEMENT OF FEDERAL FUNDS is required by A.R.S. §41-723. The Director of the Governor's Office of Strategic Planning and Budgeting (OSPB) is designated as the Federal-state Fiscal Research Officer and is **required** to submit to the legislature at each regular session the Statement of Federal Funds. The purpose of this section is to outline the process of collecting federal funds information from Arizona state agencies and how that information is organized in this publication.

Process

The process of collecting federal funds information begins on or before June 1, when the Governor's Office of Strategic Planning and Budgeting issues instructions to guide agencies in preparing their budget requests. Agency requests must be submitted to OSPB by September 1 unless an extension is granted for up to an additional 30 days.

As a part of an agency's budget request, information on federal funds is submitted by each state agency receiving federal assistance. Once the Governor's Office of Strategic Planning and Budgeting collects the information, it is loaded into a database and categorized by revenues and expenditures, area of government, and agency. Currently, there are no reports from the federal government organized in such a fashion to allow for a data integrity process to ensure the accuracy of agency reported information. OSPB will continue to improve the reporting of this information in both content and format.

Format

The Statement of Federal Funds publication is organized into three primary areas. It contains a Summary section, a Federal Operating Budget Detail section organized by area of government, and an Appendix.

The *SUMMARY* section contains the following three areas.

1. Federal Revenues:

- a. Summary of Federal Revenue by Area of Government—provides federal revenue received for fiscal year 2007 by area of government (e.g., General Government, Health and Welfare, Inspection and Regulation, Education, Protection and Safety, Transportation, and Natural Resources).
- b. Summary of Federal Revenue by Agency—provides federal revenue actually received for FY 2007 and estimates for fiscal years 2008 and 2009 by area of government and agency.

2. Federal Expenditures:

- a. Summary of Federal Expenditures by Area of Government—provides federal expenditures for fiscal year 2007 by area of government (e.g., General Government, Health and Welfare, Inspection and Regulation, Education, Protection and Safety, Transportation, and Natural Resources).
- b. Summary of Federal Expenditures by Agency—provides federal actual expenditures for FY 2007 and estimated expenditures for fiscal years 2008 and 2009 by area of government and by agency.

3. Federal Functions

- a. Federal Funds Revenue by Function—provides federal revenue received for fiscal year 2007 and estimates for fiscal years 2008 and 2009 by function of government (e.g., Emergency Management and National Defense, Agriculture – Extension Services, Community and Regional Development, Health – Medicaid).
- b. Federal Funds Expenditures by Function—provides federal expenditures for fiscal year 2007 and estimated expenditures for fiscal years 2008 and 2009 by function of government (e.g., Emergency Management and National Defense, Agriculture – Extension Services, Community and Regional Development, Health – Medicaid).

The *FEDERAL OPERATING DETAIL*, which makes up the majority of the publication, is organized by agency. Each agency section is sorted by Grant/Project in alphabetical order. The detail contains actual funds available and received in fiscal year 2007 as well as estimated revenues for fiscal years 2008 and 2009. Expenditures for fiscal years 2008 and 2009 are not located in this section but can be found in the Summary of Federal Expenditures by Agency in the *SUMMARY* section. Furthermore, this section contains select object level detail for FY 2007 actual expenditures. Please note, fiscal year 2007 expenditures may exceed fiscal year 2007 revenues as carry-forward balances continue to be spent down.

The out year estimates give an idea of whether each grant will increase or decrease in ensuing years. However, state agencies often do not know from one year to the next whether federal funds will be available. As such, some of the out year estimates provided by agencies are speculative due to the lack of reliable information.

Other details in the *FEDERAL OPERATING DETAIL* section include:

1. Grant/Project—name of the federal grant
2. Catalog of Federal Domestic Assistance (CFDA)—the CFDA number is a five-digit number, which identifies a type of federal grant. By using the CFDA numbers, the Governor’s Office of Strategic Planning and Budgeting is able to identify the area of the federal government from which each grant is awarded.
3. Grantor—The acronym or name of the federal agency that awards the grant
4. Description—provides information on the proposed use of the grant money as provided by the agencies

Finally, the *APPENDIX* includes all of the footnotes used in the operating detail section of the publication and a list of acronyms that are used throughout the publication.

Summary of Federal Revenue by Area of Government
FY 2007 Through FY 2009
(Dollars in Thousands)

	Actual FY 2007	Estimate FY 2008	Estimate FY 2009

Agency: Arizona Health Care Cost Containment System

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
CMS Medicaid Health Information Exchange (HIE) Utility Project	93.793	CMS	N/A	292.2	5,728.6	5,728.7	^{2, 14}
<p>AHCCCS received funding to develop and implement a Health Information Exchange (HIE) and a web-based Electronic Health Record (EHR) Utility to achieve the goal of giving all Medicaid providers instant access to beneficiaries' health records via electronic connection at the point of service.</p> <p>Implementing this HIE-EHR utility will transform the AHCCCS Medicaid program and the patient care process. Providing timely patient health information at the point of service will improve the quality, efficiency and effectiveness of Arizona's Medicaid program. Real time health information access will result in reduction of medical errors, reduction of redundant testing and procedures, better coordination of care for chronic diseases, increased preventive interventions, reduction in the inappropriate use of the emergency room, and lower administrative costs. When aggregated, these benefits will save significant state and federal taxpayer dollars (in Medicaid, SCHIP, and IHS) as well as beneficiary and provider frustration.</p>							
HRSA HCG State Planning Grant	93.256	HRSA	N/A	75.5	0.0	0.0	^{2, 8, 14}
<p>To provide market research, analysis, and evaluation as well as the development of creative service delivery options to further Arizona's efforts to expand health care coverage to the uninsured. The grant will enable Arizona to utilize expertise in the following areas: 1) market research; 2) programmatic and actuarial analysis; 3) critical review of successes and challenges of previous and current state efforts; 4) cost effectiveness of various benefit packages; 5) development of specialized delivery systems and additional benefit packages.</p>							
Title XIX - Acute Care	93.779	CMS	N/A	2,173,063.6	2,364,451.6	2,714,010.5	^{2, 14}
<p>To provide Title XIX acute care medical services for the categorically eligible.</p>							
Title XIX - Administration	93.779	CMS	N/A	68,608.9	79,777.4	89,988.7	¹⁴
<p>To provide for the administration of Title XIX medical services for the categorically eligible.</p>							
Title XIX - Long-Term Care	93.779	CMS	N/A	1,139,963.6	1,270,832.8	1,384,055.7	^{2, 14}
<p>To provide Title XIX Long-Term Care services for the categorically eligible.</p>

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
FY 2006 NEA Partnership Grant	45.025	NEA	N/A	628.9	708.4	708.4	⁶
In FY 2006 the agency received \$676.4 in Federal grant money; after making end of year adjustments from the previous year the carry forward was \$46.7 bringing the adjusted beg. balance to \$716.3							
FY2006 Poetry out Loud	45.025	NEA	N/A	8.0	15.0	15.0	²

The Agency was asked to apply for and received a grant in the amount of \$8K (\$16K with state match). There funds were to organize a poetry recitation contest for high school children in the capitol city of each state. The contest was to identify and send the state winner to participate in the Poetry Out Loud National Finals in Washington DC. The agency education staff facilitated the events through the state finals and expended approximately \$8K the agency draw down of these funds was approximately \$4K and took place in the allowed timeframe.

The unexpended portion of this grant does not carry forward into FY07. The Agency has been advised that the NEA will seek application for another POL grant in FY07. It is expected that the funding from that grant will in the amount of \$10,000 and will allow the program to take place beyond the capitol city in two to three other communities in the state which will dramatically expand the number of children and schools engaged in the program.

FY08 -- The POL grant was increased to 15000 and the money is combined in the Partnership Grant

Agency: Arizona Criminal Justice Commission

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
Criminal Justice Records Improvement Program	16.579	US DOJ	N/A	258.4	284.3	290.0	²
To enhance the design, development, and implementation of a criminal justice records system in the state of Arizona that is current, complete, accurate, and reliable. This grant is a portion of the Byrne/JAG grant awarded to the Arizona Criminal Justice Commission. Although no longer mandated by DOJ, ACJC continues to dedicate 5% of the grant funds to records integration efforts.							
DNA Backlog Reduction & Capacity Enhancement	16.560	USDOJ	N/A	613.0	518.3	1,154.1	
Grants are awarded to the state through the National Institute of Justice for the purpose of reducing DNA backlog cases in crime labs as well as building the capacity of these labs to handle DNA cases.							
Drug, Gang, and Violent Crime Control Formula Grant Program	16.579	US DOJ	N/A	638.9	4,832.3	5,050.0	¹
To enhance efforts to deter, investigate, adjudicate, and punish drug and violent crime offenders. The new Byrne/JAG program allows states to earn interest on grant funds and use the funds in the program. All available Byrne/JAG funds available in FY07 were drawn down into an interest bearing account to maximize the funds for the program.							
Governor's Office - AYS ISA	00.000	Az Governor's Office for CYF	N/A	132.1	480.0	0.0	^{1, 2, 10}
The grant is awarded from the Governor's Office Children, Youth & Families Division to support the Arizona Youth Survey administered by ACJC. This grant is a pass thru from the Safe & Drug Free Schools federal grant and funding from the Parents Commission. The AYS is administered every other year therefore there is no funding in odd numbered years.							
High Intensity Drug Trafficking Area - HIDTA	00.000	ONDCP	N/A	6,211.7	11,099.8	10,431.5	^{2, 10}
In FY06, ACJC was contracted as the fiduciary to oversee the financial activities of the Arizona HIDTA grant. As the fiduciary, ACJC is responsible for paying allowable expenses to successfully implement the HIDTA program as well as contract and pay the staff hired by the HIDTA Executive Council.

Homeland Security	00.000	Office of Homeland Security	N/A	353.9	700.0	350.0	^{1, 2, 10}
ACJC received an award from the Arizona Office of Homeland Security for support of the Records Integration efforts in the state. Future funding from OHS is unknown, however, ACJC continues to submit applications for projects that support the state strategic plan for integration.							
Justice Research & Statistics Association (JRSA)	16.550	JRSA	N/A	19.5	9.8	0.0	²
Grant from the Justice Research & Statistics Association (JRSA) for various criminal justice research projects. Recent projects include a Criminal History Records and Sex Offender Study.							
National Criminal History Improvement Program	16.554	US DOJ	N/A	783.4	237.1	430.0	²
To support the development of the National Instant Criminal Background Check System (NICS); to provide financial and technical assistance for the establishment or improvement of computerized criminal history record systems, to ensure that criminal records are accurate, timely and complete and to meet timetable deadlines established by the Attorney General; and to improve data accessibility and support data transmissions to the national NICS system.							
National Forensics Science Improvement Act	16.560	USDOJ	N/A	239.3	175.8	313.6	²
The National Forensics Sciences Improvement Act grants are awarded by formula and discretionary grants. The grant funds are distributed to the state lab at DPS and the local crime labs in the state. Funding distribution is based on a plan submitted to NIJ and individual grant applications from the labs.							
Project Safe Neighborhoods	16.609	US DOJ	N/A	497.2	292.1	404.0	²
Selected by the US Attorney's Office, ACJC is the fiscal agent for PSN grants in the state. As the fiscal agent, ACJC manages federal funds for the PSN Executive Council and monitors the progress and activity of subgrantees. Funds are used to support gun violence reduction programs across the state.							
PSN Anti-Gang Initiative	16.609	US DOJ	N/A	0.0	626.8	733.0	³
The Anti-Gang Initiative is a grant awarded as part of the PSN Initiative. This grant specifically targets gang prevention efforts in Arizona through enforcement, education and community outreach.

--	---------------	---------------	-----	-----	---------	-------	------

The Medicaid Program is a cooperative Federal-State Program established in 1965 for the purpose of providing Federal Financial participation (FFP) to States of that choose to reimburse certain costs of medical treatment for needy persons. It is authorized under title XIX of the Social Security Act, and is administered by each state in accordance with an approved State plan. State have considerable flexibility in designing their programs, but must comply with Federal Requirements specified in the Medicaid statute, regulations and program guidance. FFP is provided only when there is a corresponding State Expenditure for a covered Medicaid service to a Medicaid recipient. Federal payment is based on statutorily-defined percentages to total computable state expenditures for medical assistance provided to recipients under the approved State plan, and the State Expenditures related to the cost of administering the State Plan.

Covered IEP Services for which the school is seeking AHCCCS reimbursement are:: Audiology Services, Speech Therapy, Occupational Therapy, Physical Therapy, Counseling, Health Aide Services, Nurses, and Transportation Services.

Administration on Developmental Disabilities - Basic Support and Advocacy Grants	93.630	DHHS	N/A	1,355.9	1,373.1	1,413.9	

OBJECTIVES - To enable individuals with developmental disabilities to become independent, productive, integrated and included into their communities. Funding under these programs is to assist States in the development of a plan for a comprehensive and coordinated system of services and other activities to enhance the lives of individuals with developmental disabilities and their families to their maximum potential, and to support a system which protects the legal and human rights of individuals with developmental disabilities.

USES AND USE RESTRICTIONS - (1) Allotments under the basic developmental disabilities formula grant program may be used by States for priority area and other activities, including administrative costs, to build capacity, to refocus existing services, and to advocate to better meet the needs of individuals with developmental disabilities. The designated State agency in each State receives, accounts for and disburses funds, and provides for required assurances and other administrative support services on behalf of the State Developmental Disabilities Council, which carries out the priority area activity and other activities under an approved triennial State Plan. This plan and corresponding budget is developed and administered by the State Developmental Disabilities Council. Federal funds may be expended for up to half the cost of the functions of the designated State agency under this program, but may not exceed five percent of a State's allotment or \$50,000, whichever is less. (2) Allotments under the protection and advocacy program may be used to assist States in supporting a system which will have authority to pursue legal and other remedies to protect the rights of individuals with developmental disabilities within the State.

OBJECTIVES - To support analyses, experiments, demonstrations and pilot projects in efforts to resolve major health care financing issues and to develop innovative methods for the administration of Medicare and Medicaid. These awards are in the form of research grants and cooperative agreements; Hispanic health services grants; historically black colleges and university grants. For fiscal years 2006 and 2007, the Centers for Medicare & Medicaid Services (CMS) has identified a number of areas where specific information or experience is necessary to improve program effectiveness or guide decisions anticipated in the near future. These priority areas for CMS' discretionary contracts, cooperative agreements and grants include: (1) protecting and empowering specific populations; (2) helping the uninsured and increasing access to health insurance; (3) understanding health differences and disparities--closing the gaps; (4) preventing disease, illness, and injury; (5) agency-specific priorities.

USES AND USE RESTRICTIONS - Under all authorizations, all applications must meet standards of excellence in research or evaluation design. Funds may not be used for construction or renovation of buildings. Funds authorized by Section 1115 of the Social Security Act are limited to State agencies administering the Medicaid program.

OBJECTIVES - To support the development and testing of innovative programs, services and systems of support that respond to the needs of the nations growing elderly population, to improve knowledge of the problems and needs of the elderly, to help ensure adequately trained personnel in the field of aging, and to demonstrate better ways of improving the quality of life for the elderly.

Arizona Kids with Traumatic Brain Injury	93.234	DHHS	N/A	85.9	140.0	160.0	²

OBJECTIVES - The purpose of the Traumatic Brain Injury (TBI) program is to improve access, availability, appropriateness and acceptability of health and other services for individuals with traumatic brain injury (TBI) and their families.

USES AND RESTRICTIONS - For all HRSA/MCHB TBI State Grants, State and Territorial governments are the only eligible applicants for funding. The application for an Implementation Grant may only come from the State agency designated as the Lead Agency for TBI within the State; the State must show evidence that they either (1) have in place, at the time of application, the Four Core Capacity Components; or, indicate a plan, with a timeline, to put in place the Four Core Components. Only one application from each State or Territory may enter the review process and be considered for an award under the Federal TBI Program per year. The State agrees to make available non-Federal contributions in an amount that is not less than \$1 for each \$2 of Federal funds provided under the grants. Non-Federal funds may be in-cash or in-kind.

AZPOMS (AAA-AZ Perf out measurement system)	93.048	DHHS	N/A	66.2	68.0	70.0
--	---------------	-------------	-----	------	------	------

OBJECTIVES - To support the development and testing of innovative programs, services and systems of support that respond to the needs of the nations growing elderly population, to improve knowledge of the problems and needs of the elderly, to help ensure adequately trained personnel in the field of aging, and to demonstrate better ways of improving the quality of life for the elderly.

USES AND USE RESTRICTIONS - Funds may be used to: (a) demonstrate new methods and practices to improve the quality and effectiveness of programs and services; (b) to evaluate existing programs and services; © conduct applied research and analysis to improve access to and delivery of services; (d) train professionals in the field. Funds may not be used for: (a) construction and/or major rehabilitation of buildings; (b) basic research (e.g., bio-medical experiments); © continuation and/or expansion of existing services, including supportive and nutritional services such as those funded under Title III of the Older Americans Act; (d) medical care, institutional care or income maintenance; (e) projects which do not involve innovative approaches, and whose outcomes do not have the potential for national dissemination and replication; (f) equipment purchases unless the equipment is necessary to carry out a project that is otherwise fundable under Title IV.

To provide a contract between the Arizona Business Enterprise program and the Department of Defense to provide personnel for food services at three Ft. Huachuca dining halls.							
Chafee Education and Training Vouchers Program (Title IV-E)	93.599	DHHS	N/A	595.7	801.0	801.0	²
OBJECTIVES - To provide resources to States to make available vouchers for postsecondary training and education, to youths who have aged out of foster care or who have been adopted from the public foster care system after age 16.							

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - Funds may be used to provide vouchers for postsecondary education and training to youth otherwise eligible for services under the State's Chafee Foster Care Independence Program. Vouchers may also be provided to youth who are adopted from foster care after age 16 and to youth up to the age of 23, as long as they are participating in the program at age 21 and are making satisfactory progress toward completing their course of study or training. Vouchers provided to individuals may be available for the cost of attending an institution of higher education (as defined in section 472 of the Higher Education Act) and shall not exceed the lesser of \$5,000 per grant year or the total cost of attendance as defined in section 472 of the Higher Education Act.

Agency: Department of Economic Security

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
Child Care and Development Fund Block Grant	93.596	DHHS	N/A	106,974.1	107,521.3	112,942.1	

OBJECTIVES - To make grants to States, Tribes, and tribal organizations for child care assistance for low-income families and to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; and (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations.

USES AND USE RESTRICTIONS - Subchapter IV of the Social Security Act appropriates funds (Mandatory and Matching Funds) for the purpose of providing child care assistance. Lead Agencies must use Mandatory and Matching Funds for child care services on a sliding fee scale basis, activities that improve the quality or availability of such services, and any other activity that a Lead Agency deems appropriate to realize the goals of the Child Care and Development Block Grant Act. Lead Agencies must ensure that not less than 70 percent of the total amount of Mandatory and Matching Funds are used to provide child care assistance to families who are receiving assistance under the Temporary Assistance for Needy Families program, families who are attempting through work activities to transition off of temporary assistance programs, and families who are at risk of becoming dependent on temporary assistance programs. Not more than five percent of the aggregate amount of Mandatory and Matching Funds expended by the State (fifteen percent for Tribes or tribal organizations) may be expended for administrative costs incurred by the State to carry out all of its functions and duties. The term "administrative costs" does not include the costs of providing direct services. A State shall use not less than four percent of the Mandatory and Matching funds to improve child care quality and availability including comprehensive consumer education, activities to increase parental choice, and other activities such as resource and referral services, provider grants and loans, monitoring and enforcement of requirements, training and technical assistance, and improved compensation for child care staff. Except for approved construction of child care facilities by tribal grantees, no Mandatory or Matching Funds may be used for the purchase or improvement of land, or for the purchase, construction, or permanent improvement of any building or facility (other than for minor remodeling and for upgrading of facilities to meet State and local child care standards.) No Mandatory or Matching Funds provided directly to child care providers through grants or contracts may be expended for any sectarian purpose or activity, including

sectarian worship or instruction; however, Grantees must give parents the option of receiving vouchers or certificates to allow parents the choice of faith-based or community child care providers. No Mandatory or Matching Funds may be provided for any services provided to students enrolled in grades 1 through 12 during the regular school day; for any services for which such students receive academic credit toward graduation; or for any instructional services which supplant or duplicate the academic program of any public or private school.							
Child Support Enforcement (Title IV-D)	93.563	DHHS	N/A	52,829.9	49,762.5	50,497.4	
OBJECTIVES - To enforce the support obligations owed by absent parents to their children, locate absent parents, establish paternity, and obtain child, spousal and medical support.							

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - States and some tribes provide support enforcement services directly to individuals who are receiving federally-funded Foster Care Maintenance Payments, Medicaid, Temporary Assistance to Needy Families (TANF) (or those who cease to receive TANF), and to individuals not otherwise eligible for such services. TANF, Medicaid, and certain federally-funded Foster Care applicants or recipients must have assigned support rights to the State. Non-TANF individuals other than those who cease to receive TANF and/or who provide authorization to the IV-D agency to continue support enforcement services, must have signed a written application for support enforcement services. The State must provide services to locate absent parents, establish paternity and enforce support obligations.

Child Support Enforcement Access and Visitation	93.597	DHHS	N/A	103.7	103.7	103.7	²

OBJECTIVES - To enable States to create programs which support and facilitate access and visitation by non-custodial parents with their children. Activities may include mediation, counseling, education, development of parenting plans, visitation enforcement and development of guidelines for visitation and alternative custody arrangements.

TYPES OF ASSISTANCE - Project Grants.

USES AND USE RESTRICTIONS - A State to which a grant is made under this section may not use the grant to supplant expenditures by the State for allowable activities, but shall use the grant to supplement such expenditures at a level at least equal to the level of such expenditures for fiscal year 1995.

Child Support Enforcement Research	93.564	DHHS	N/A	43.2	0.0	0.0	^{2, 8}
---	---------------	-------------	-----	------	-----	-----	-----------------

OBJECTIVES - To discover, test, demonstrate, and promote utilization of new concepts which will increase cost effectiveness, reduce welfare dependency, and increase child support collections from absent parents.

TYPES OF ASSISTANCE - Project Grants.

USES AND USE RESTRICTIONS - Grants are awarded for innovative research and demonstrations of regional and national significance that are responsive to program priorities in Child Support Enforcement, and for coordination, administration and provision of services to target populations. All applications must meet standards of excellence in research and evaluation design. Funds authorized under Section 1115 of the Social Security Act are limited to State agencies administering the Child Support Enforcement Program or their umbrella agencies. All applications must outline explicitly the information sought about the administration, or effects of the proposed research and how the activity will be evaluated. Funds may not be used for construction. A Section 1115 waiver of any of the State Plan requirements under Title IV-D of the Social Security Act may be granted in connection with any experimental pilot or demonstration project that will assist in promoting the OBJECTIVES - of the Child Support Enforcement program and meets certain conditions.

Child Welfare Services State Grants (Title IV-B)	93.645	DHHS	N/A	7,824.5	5,590.4	5,669.9	

OBJECTIVES - To establish, extend, and strengthen child welfare services provided by State and local, and Indian Tribal public welfare agencies to enable children to remain in their own homes, or, where that is not possible, to provide alternate permanent homes for them.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - The grants may be used for: cost of personnel to provide protective services to children; licensing of, and standard-setting for private child-caring agencies and institutions; and assisting with costs of homemaker services, return of runaway children, and prevention and reunification services, among other services that meet the purpose of the grants. Funds for foster care maintenance, day care, and adoption assistance under this program are limited.

Community Based Child Abuse Prevention Grants	93.590	DHHS	N/A	347.4	485.5	485.5	^{2, 6}
--	---------------	-------------	-----	-------	-------	-------	-----------------

OBJECTIVES - To assist States to support community-based efforts to develop, operate, expand, and enhance, and where appropriate to network, initiatives aimed at the prevention of child abuse and neglect.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - To receive funds, States must meet eligibility requirements stated in the authorizing legislation and use of funds to develop, operate, expand, and enhance community-based, prevention focused programs and activities designed to strengthen and support families to prevent child abuse and neglect. One percent is set aside for discretionary grants to migrant and tribal populations and an additional amount to fund a national resource center to provide training and technical assistance to State lead agencies.

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
Community Services Block Grant	93.569	DHHS	N/A	4,074.2	4,191.2	4,312.8	

OBJECTIVES - To provide assistance to States and local communities, working through a network of community action agencies and other neighborhood-based organizations, for the reduction of poverty, the revitalization of low-income communities, and the empowerment of low-income families and individuals in rural and urban areas to become fully self-sufficient (particularly families who are attempting to transition off a State program carried out under part A of title IV of the Social Security Act) and (1) To provide services and activities having a measurable and potential major impact on causes of poverty in the community or those areas of the community where poverty is a particularly acute problem; (2) to provide activities designed to assist low-income participants, including the elderly poor, to: (a) secure and retain meaningful employment; (b) attain an adequate education; (c) make better use of available income; (d) obtain and maintain adequate housing and a suitable living environment; (e) obtain emergency assistance through loans or grants to meet immediate and urgent individual and family needs, including health services, nutritious food, housing, and employment-related assistance; (f) remove obstacles and solve problems which block the achievement of self-sufficiency; (g) achieve greater participation in the affairs of the community; and (h) make more effective use of other related programs; (3) to provide on an emergency basis for the provision of such supplies and services, nutritious foodstuffs, and related services, as may be necessary to counteract conditions of starvation and malnutrition among the poor; and (4) to coordinate and establish linkages between governmental and other social services programs to assure the effective delivery of such services to low-income individuals.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - (1) States receive block grants to ameliorate the causes of poverty in communities. The block grant approach gives the States flexibility to tailor their programs to the particular services needs in their communities. (2) States are required to use at least 90 percent of their allocations for grants to "eligible entities" as defined in the Community Services Block Grant (CSBG) Act, as amended; this includes primarily locally-based community action agencies and/or organizations that serve seasonal or migrant farm workers. (2) No more than the greater of \$55,000 or 5 percent of each State's allocation may be used for administrative expenses at the State level.

Cuban/Haitian Refugee Program	93.576	DHHS	N/A	205.6	211.8	218.1	²

OBJECTIVES - To improve resettlement services for refugees. Program OBJECTIVES - include: 1) Providing adequate health assessment activities for refugees; (2) decreasing the numbers of refugees on public assistance and the length of time refugees require such assistance; (3) promoting refugee community and family stability; (4) encouraging placement of refugee families in locations with good job opportunities and lower costs of living; (5) increasing service dollars in areas with good resettlement records; (6) enhancing services to disadvantaged refugee groups; services to promote older refugees access to aging services, assist low income refugees with matching funds for individual development accounts (IDA) and (7) responding to national needs which are not the purview of any particular State services program.

TYPES OF ASSISTANCE - Project Grants.

USES AND USE RESTRICTIONS - The discretionary grant program allocates a portion of formula social service and targeted assistance funds to conduct projects which promote refugee self-sufficiency or address their special needs. Funds may be used only for the purposes set forth in the grant award. In Fiscal Years 2004 and 2005, approximately 15 percent of social service funds not earmarked by Congress were allocated through discretionary programs; and 10 percent of Targeted Assistance program funds were also obligated.

Foster Care Administration (Title IV-E)	93.658	DHHS	N/A	21,990.3	20,926.1	23,445.7	

OBJECTIVES - The objective of the Foster Care program is to help States provide safe and stable out-of-home care for children, who are under the jurisdiction of the administering State agency, until the children are safely returned home, placed with adoptive families, or placed in other planned arrangements for permanency. The program provides funds to States to assist with the costs of foster care maintenance for eligible children; administrative costs to manage the program; and training for staff, foster parents and certain private agency staff.

TYPES OF ASSISTANCE - Project Grants.

USES AND USE RESTRICTIONS - Funds may be used for Federal, State, or local foster care maintenance payments on behalf of eligible children, and for administrative and training costs; and costs related to design, implementation and operation of a statewide data collection system. Funds may not be used for costs of social services provided to a child, the child's family, or the child's foster family which provide counseling or treatment to ameliorate or remedy personal problems, behaviors, or home conditions.

Foster Care Maintenance (Title IV-E)	93.658	DHHS	N/A	41,255.6	34,548.4	40,180.6	²
---	---------------	-------------	-----	----------	----------	----------	--------------

OBJECTIVES - The objective of the Foster Care program is to help States provide safe and stable out-of-home care for children, who are under the jurisdiction of the administering State agency, until the children are safely returned home, placed with adoptive families, or placed in other planned arrangements for permanency. The program provides funds to States to assist with the costs of foster care maintenance for eligible children; administrative costs to manage the program; and training for staff, foster parents and certain private agency staff.

TYPES OF ASSISTANCE - Project Grants.

USES AND USE RESTRICTIONS - Funds may be used for Federal, State, or local foster care maintenance payments on behalf of eligible children, and for administrative and training costs; and costs related to design, implementation and operation of a statewide data collection system. Funds may not be used for costs of social services provided to a child, the child's family, or the child's foster family which provide counseling or treatment to ameliorate or remedy personal problems, behaviors, or home conditions.

Foster Grandparent Program	94.011	Corporation for National and Community Service	N/A	249.8	256.5	263.7	

OBJECTIVES - The Foster Grandparent Program provides grants to qualified agencies and organizations for the dual purpose of engaging persons 60 or older, with limited incomes, in volunteer service to meet critical community needs; and to provide a high quality volunteer experience that will enrich the lives of the volunteers. Program funds are used to support Foster Grandparents in providing supportive, person to person service to children with exceptional or special needs.

TYPES OF ASSISTANCE - Project Grants.

USES AND USE RESTRICTIONS - The grants may be used for: low-income Foster Grandparent stipends, transportation, physical examinations and meals; staff salaries and fringe benefits, staff travel, equipment, space costs, etc. An amount equal to 80 percent of the corporation for National Service's Federal share must be used for Foster Grandparent direct benefits. Assignment of Foster Grandparents to children and youth may occur in residential and non-residential facilities, including preschool establishments and to children living in their own homes. Volunteers are not to supplant hiring or displace employed workers, or impair existing contracts for service. No agency supervising volunteers shall request or receive compensation for services of the volunteers. Volunteers are not to be involved in and funds are not to be used for religious activities, labor or anti-labor organization, lobbying, or partisan or non-partisan political activities. In addition, eligible agencies or organizations may, with a Notice of Grant Award from the Corporation for National and Community Service, receive technical assistance and materials to aid in establishing and operating a non-Corporation funded Foster Grandparent Program project using state, local and private funds.

FUBA Trade Benefits	17.245	DOL	N/A	836.1	1,000.0	1,000.0	²

OBJECTIVES - To provide adjustment assistance to qualified workers adversely affected by foreign trade which will assist them to obtain suitable employment.

TYPES OF ASSISTANCE - Direct Payments with Unrestricted Use; Formula Grants.

USES AND USE RESTRICTIONS - State Workforce Agencies (SWAs) serve as agents of the United States for administering the worker adjustment assistance benefit provisions of the Trade Act. SWAs, through the local offices, provide testing, counseling, and job placement services; job search and relocation assistance; training; and payment of weekly trade readjustment allowances (TRA). State unemployment compensation and extended benefits must be exhausted before TRA is paid to eligible claimants. Trade impacted workers are eligible to receive job search and relocation allowances in addition to the costs of training. They may be paid subsistence and transportation allowances to attend approved training outside the normal commuting distance of a worker's regular place of residence.

Job Service	17.207	DOL	N/A	11,424.3	11,442.7	10,924.4	

OBJECTIVES - To assist persons to secure employment and workforce information by providing a variety of job search assistance and information services without charge to job seekers and to employers seeking qualified individuals to fill job openings.

TYPES OF ASSISTANCE - Formula Grants; Project Grants.

USES AND USE RESTRICTIONS - The Wagner-Peyser Act of 1933 established a nationwide system of public employment offices which is known as the Employment Service. Wagner-Peyser was amended by the Workforce Investment Act of 1998 making the Employment Service part of the One- Stop delivery system. The Wagner Peyser funded activities are an integral part of the One Stop delivery system that provides an integrated array of high-quality services so that workers, job seekers, and businesses can access the services they need under one roof in easy-to-reach locations, with many services also offered through self-service electronic access. These services includes assessment of skill levels, abilities and aptitudes, career guidance when appropriate, job search workshops, and referral to training as appropriate. The services offered to employers, in addition to referral of job seekers to job openings, include matching job requirements with job seeker experience, skills and other attributes, helping with special recruitment needs, assisting employers analyze hard-to-fill job orders, assisting with job restructuring and helping employers deal with layoffs. Additional services may include: 1) a nationwide computerized career information system including an automated job bank of employment vacancies and job seekers resumes, career, and workforce information, and institutions and organizations that provide training; 2) the development and distribution of state and local workforce information which allows job seekers, employers, and providers and planners of job training and economic development to obtain information pertaining to job opportunities, labor supply, labor market or workforce trends, and the market situation in particular industries. Veterans receive priority referral to jobs as well as special employment services and assistance. In addition, the system provides specialized service to individuals with disabilities, as well as, such groups as migrant and seasonal farmworkers, ex-offenders, youth, minorities, and older workers. These Wagner-Peyser-funded programs involve a federal-state partnership between the U.S. Department of Labor (DOL), Employment and Training Administration (ETA) and the state workforce agency. The federal government provides general direction, funding, and oversight. In addition the federal government partners with states to provide for a number of tools and resources such as development and maintenance of the Occupational Information Network (O*NET), America's Labor Market Information System, and

Low-Income Home Energy Assistance Program	93.568	DHHS	N/A	11,932.9	12,276.7	12,631.9	

OBJECTIVES - Energy Assistance Block Grants: To make Low Income Home Energy Assistance Program (LIHEAP) grants available to States and other jurisdictions to assist eligible households to meet the costs of home energy. Supplemental Leveraging Incentive Funds may be awarded to reward States and other jurisdictions that provide additional benefits and services to LIHEAP-eligible households beyond what could be provided with Federal funds. Up to 25 percent of the leveraging incentive funds may be set aside for LIHEAP grantees that provide services through community-based nonprofit organizations to help LIHEAP-eligible households reduce their energy vulnerability under the Residential Energy Assistance Challenge Option Program (REACH). Training and Technical Assistance: To provide training and technical assistance to States and other jurisdictions administering the LIHEAP block grant program.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - Energy Assistance Block Grants: Funds are awarded to States and other jurisdictions, which then make payments directly to an eligible low-income household or, on behalf of such household, to an energy supplier to assist in meeting the cost of home energy. Up to 10 percent of these funds may be used for State and local planning and administration. Up to 15 percent may be used for low-cost residential weatherization. Grantees may request that DHHS grant a waiver for the fiscal year that increases from 15 percent to 25 percent funds that can be allotted for residential weatherization.

Depending upon specific appropriations, DHHS may allocate supplemental LIHEAP leveraging incentive funds to grantees that have acquired nonfederal leveraged resources in order to provide additional benefits and services to LIHEAP-eligible households to help them meet their home heating and cooling needs. Up to 25 percent of leveraging incentive funds may be allocated by DHHS to LIHEAP grantees that provide services through community-based nonprofit organizations to LIHEAP-eligible households to reduce their energy vulnerability, under the Residential Energy Assistance Challenge Program (REACH). Up to \$600,000,000 is authorized as emergency contingency funds to be used to meet additional needs arising from a natural disaster or other emergency. Such funds will be made available only after submission to Congress of a formal budget request for all or part of the funds by the President that designates the amount of the request as an emergency under the Balanced Budget and Emergency Deficit Control Act of 1985. Training and Technical Assistance: the Secretary has authority to set aside up to \$300,000 from each year's appropriation for training and technical assistance relating to the Low-Income Home Energy Assistance Program. These T/TA activities are accomplished through: grants, contracts, or jointly financed

MEDIGAP	93.779	DHHS	N/A	449.6	462.4	475.8	

OBJECTIVES - To support analyses, experiments, demonstrations and pilot projects in efforts to resolve major health care financing issues and to develop innovative methods for the administration of Medicare and Medicaid. These awards are in the form of research grants and cooperative agreements; Hispanic health services grants; historically black colleges and university grants. For fiscal years 2006 and 2007, the Centers for Medicare & Medicaid Services (CMS) has identified a number of areas where specific information or experience is necessary to improve program effectiveness or guide decisions anticipated in the near future. These priority areas for CMS' discretionary contracts, cooperative agreements and grants include: (1)protecting and empowering specific populations; (2) helping the uninsured and increasing access to health insurance; (3) understanding health differences and disparities--closing the gaps; (4) preventing disease, illness, and injury; (5) agency-specific priorities.

TYPES OF ASSISTANCE - Project Grants (Cooperative Agreements).

USES AND USE RESTRICTIONS - Under all authorizations, all applications must meet standards of excellence in research or evaluation design. Funds may not be used for construction or renovation of buildings. Funds authorized by Section 1115 of the Social Security Act are limited to State agencies administering the Medicaid program.

			Available	Received	Est. Rev.	Est. Rev.	
Navigator Project	17.266	DOL	N/A	499.9	495.0	495.0	

OBJECTIVES - The Work Incentive Grants (WIGs) and Disability Program Navigators (DPNs) have been established to increase the labor force participation and career advancement of persons with disabilities by effecting systemic change in the One-Stop Career Centers. These programs support the capacity of the One-Stop Career Center system to achieve integrated, seamless, and comprehensive services for people with disabilities, thereby increasing their employment, retention, and earnings. The competitive WIG Program has been reoriented from a competitive solicitation to the Disability Program Navigator (DPN) cooperative agreement, thereby assuring that the essential goals of the WIGs are achieved in the workforce investment system. The Department of Labor (DOL) and the Social Security Administration (SSA) jointly established a new position, the Disability Program Navigator (DPN), in the DOL's One-Stop Career Centers. The DPN guides the One-Stop Career Center staff in helping people with disabilities access and navigate the various programs that impact upon their ability to gain/retain employment. Complex rules surrounding entitlement programs, along with the fear of losing cash assistance and health benefits, can often discourage people with disabilities from working. Consequently, the DPN initiative was established to better inform beneficiaries and other people with disabilities about the work support programs now available at the DOL-funded One-Stop Career Centers. The major OBJECTIVES - of the DPN initiative are: 1) creating systemic change and transforming the culture of how the One-Stop Career Center system serves customers with disabilities; 2) promoting meaningful and effective access, both physical and programmatic, to the One-Stop Career Center system for all customers, including persons with disabilities; 3) creating attitudinal change about the abilities of people with disabilities to work in a variety of jobs and industries; 4) developing new/ongoing partnerships to achieve comprehensive services to people with disabilities ; 5) expanding and enhancing the workforce development system's capacity to serve customers with disabilities and employers through the implementation of effective DPN strategies and practices; and 6) increasing the number of people with disabilities served under the WIA and achieving quality employment outcomes for jobseekers with disabilities through accessing WIA Title I and Wagner-Peyser Programs.

TYPES OF ASSISTANCE - Project Grants.

USES AND USE RESTRICTIONS - Funds are used for establishing Disability Program Navigators in One-Stop Career Centers and improving the centers' physical and programmatic access for customers with disabilities. All proposed costs should be necessary and reasonable according to the federal guidelines set

OBJECTIVES - To provide statistical data on labor force activities and to provide data for analyzing the effect of current and long-run economic developments on employment trends.

TYPES OF ASSISTANCE - Project Grants (Cooperative Agreements); Dissemination of Technical Information.

USES AND USE RESTRICTIONS - Provide data for: (a) employment and unemployment analysis on the current economic status of workers, based on data from households as well as employment, hours and earnings statistics collected from business establishments; (b) labor force studies, yielding information on such characteristics as educational attainment, work experience, earnings and family relationships; (c) occupational employment statistics, including wages available for a wide variety of occupations, by industry, state and metropolitan area; (d) State and local area labor force employment and unemployment data used for labor market analysis, to identify areas of high unemployment and for allocations of funds under various Federal assistance programs; (e) monthly employment and quarterly wage data for States, MSAs, and counties for workers covered by State unemployment insurance programs for administration of the Unemployment Insurance (UI) system, major inputs to BEA's Personal Income Accounts, and other purposes; (f) Business Employment Dynamics measures of job creation and destruction derived from the UI data; (g) mass layoff and plant closing data; (h) projections of the labor force, economic growth, industry employment, and occupational employment 10 years into the future; and (i) job openings and labor turnover. Funds in the form of cooperative agreements are available to State Agencies designated by the Governor, usually State Workforce Agencies (SWA), for employment, hours and earnings; occupational employment statistics; local area labor force and employment; mass layoff statistics; and quarterly census of employment and wages.

Older Refugee Assistance	93.576	DHHS	N/A	109.9	113.2	116.6	²

OBJECTIVES - To improve resettlement services for refugees. Program OBJECTIVES - include: 1) Providing adequate health assessment activities for refugees; (2) decreasing the numbers of refugees on public assistance and the length of time refugees require such assistance; (3) promoting refugee community and family stability; (4) encouraging placement of refugee families in locations with good job opportunities and lower costs of living; (5) increasing service dollars in areas with good resettlement records; (6) enhancing services to disadvantaged refugee groups; services to promote older refugees access to aging services, assist low income refugees with matching funds for individual development accounts (IDA)and (7) responding to national needs which are not the purview of any particular State services program.

TYPES OF ASSISTANCE - Project Grants.

USES AND USE RESTRICTIONS - The discretionary grant program allocates a portion of formula social service and targeted assistance funds to conduct projects which promote refugee self-sufficiency or address their special needs. Funds may be used only for the purposes set forth in the grant award. In Fiscal Years 2004 and 2005, approximately 15 percent of social service funds not earmarked by Congress were allocated through discretionary programs; and 10 percent of Targeted Assistance program funds were also obligated.

One Stop Labor Market Information	17.207	DOL	N/A	750.8	756.1	778.9	

OBJECTIVES - To assist persons to secure employment and workforce information by providing a variety of job search assistance and information services without charge to job seekers and to employers seeking qualified individuals to fill job openings.

TYPES OF ASSISTANCE - Formula Grants; Project Grants.

USES AND USE RESTRICTIONS - The Wagner-Peyser Act of 1933 established a nationwide system of public employment offices which is known as the Employment Service. Wagner-Peyser was amended by the Workforce Investment Act of 1998 making the Employment Service part of the One- Stop delivery system. The Wagner Peyser funded activities are an integral part of the One Stop delivery system that provides an integrated array of high-quality services so that workers, job seekers, and businesses can access the services they need under one roof in easy-to-reach locations, with many services also offered through self-service electronic access. These services includes assessment of skill levels, abilities and aptitudes, career guidance when appropriate, job search workshops, and referral to training as appropriate. The services offered to employers, in addition to referral of job seekers to job openings, include matching job requirements with job seeker experience, skills and other attributes, helping with special recruitment needs, assisting employers analyze hard-to-fill job orders, assisting with job restructuring and helping employers deal with layoffs. Additional services may include: 1) a nationwide computerized career information system including an automated job bank of employment vacancies and job seekers resumes, career, and workforce information, and institutions and organizations that provide training; 2) the development and distribution of state and local workforce information which allows job seekers, employers, and providers and planners of job training and economic development to obtain information pertaining to job opportunities, labor supply, labor market or workforce trends, and the market situation in particular industries. Veterans receive priority referral to jobs as well as special employment services and assistance. In addition, the system provides specialized service to individuals with disabilities, as well as, such groups as migrant and seasonal farmworkers, ex-offenders, youth, minorities, and older workers. These Wagner-Peyser-funded programs involve a federal-state partnership between the U.S. Department of Labor (DOL), Employment and Training Administration (ETA) and the state workforce agency. The federal government provides general direction, funding, and oversight. In addition the federal government partners with states to provide for a number of tools and resources such as development and maintenance of the Occupational Information Network (O*NET), America's Labor Market Information System, and

Promoting Safe and Stable Families (Title IV-B Part II)	93.556	DHHS	N/A	8,855.6	7,828.8	7,885.1	

OBJECTIVES - To fund family preservation that serve families at risk or in crisis, including the following services: reunification and adoption services, preplacement/preventive services, follow-up services after return of a child from foster care, respite care, services designed to improve parenting skills; and infant safe haven programs; to fund community-based family support services that promote the safety and well-being of children and families, to afford children a safe, stable and supportive family environment, to strengthen parental relationships and promote healthy marriages, and otherwise to enhance child development; to fund time-limited family reunification services to facilitate the reunification of the child safely and appropriately within a timely fashion; and to fund adoption promotion and support services designed to encourage more adoptions out of the foster care system, when adoption, promotes the best interests of the child. A small proportion of appropriated funds is reserved for research, evaluation and technical assistance, which may be awarded competitively through contracts or discretionary grants.

TYPES OF ASSISTANCE - Formula Grants; Project Grants (Discretionary).

USES AND USE RESTRICTIONS - For Formula Grants, a significant portion of funds must be spent on each of the service categories of family preservation, family support services, time-limited family reunification services and adoption promotion and support services. State grantees must limit administrative expenditures to 10 percent of their allotment. Discretionary Grants: Grants are awarded for research, evaluation and technical assistance activities relating to family support, family preservation, time-limited family reunification and adoption promotion support.

Refugee & Entrant Assist - Cash, & Med Assist State Administered Programs	93.566	DHHS	N/A	3,922.4	4,034.8	4,153.3	

OBJECTIVES - To reimburse States for assistance provided to refugees, asylees, Cuban and Haitian entrants, victims of a severe form of trafficking and certain Amerasians from Viet Nam for resettlement throughout the country, by funding maintenance and medical assistance, and social services for eligible designated population. State agencies may purchase training and services from other providers. Refugees in the U.S. may be assisted regardless of national origin.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - Assistance is limited to refugees, asylees, Cuban and Haitian entrants, and certain Amerasians from Viet Nam, and victims of a severe form of trafficking as defined in the authorizing Acts, supplemented by appropriate documentation provided to the refugee from the United States Citizenship and Immigration Services (USCIS), formerly Immigration and Naturalization Services (INS). Federal policy governs other eligibility factors. The scope of services for which funds are available to State and local welfare and health agencies for assistance on behalf of eligible refugees is similar to that in the regular domestic public assistance programs.

Rehabilitation Services - Independent Living Services for Elderly Blind Individuals	84.177	DOE	N/A	449.9	459.0	459.0	

OBJECTIVES - To provide independent living services to individuals aged 55 or older who are blind, whose severe visual impairments make competitive employment extremely difficult to obtain, but for whom independent living goals are feasible.

TYPES OF ASSISTANCE - Project Grants.

USES AND USE RESTRICTIONS - Federal funds are used to improve or expand independent living services. Among the services provided are those to help correct or modify visual disabilities, provide eyeglasses and other visual aids, provide services and equipment to enhance mobility and self-care, provide training in Braille and other services to help older individuals who are blind adjust to blindness, provide teaching services in daily living activities, and other supportive services that enable individuals to live more independently. Funds can also be used to improve public understanding of the problems faced by visual older individuals who are blind.

Senior Community Services Employment Program (Title V)	17.235	DOL	N/A	923.3	950.7	979.1	

OBJECTIVES - To provide, foster, and promote part-time work training opportunities (usually 20 hours per week) through community service activities for unemployed low-income persons who are 55 years of age and older. Other training may include classroom training, other general skills training, and other types of work experience training. To increase individual economic self-sufficiency participants are placed into unsubsidized employment.

TYPES OF ASSISTANCE - Formula Grants; Project Grants.

USES AND USE RESTRICTIONS - Organizations that receive grants use the funds to create and pay for part-time community service training positions for persons age 55 and above whose income is at or below 125 percent of the poverty level. The individuals who are enrolled may be trained in work assignments at local service agencies (e.g., schools, hospitals, day care centers, park systems, etc.). A portion of the funds may be used to provide participants with classroom training and supportive services. No more than 13.5 percent of the federal share of the costs may be spent for administration. (If justified, a waiver to 15 percent may be provided by the Department of Labor.) Participants may not train in projects involving political activities, sectarian activities, nor may participants displace any employed worker or perform work which impairs existing contracts for service. Each local project is required to coordinate its activities with local WIA projects and One-Stop Career Centers and the State Office of the Aging.

Social Security Disability Insurance	96.001	DHHS	N/A	25,730.5	26,502.4	27,297.5	

OBJECTIVES - To replace part of the earnings lost because of a physical or mental impairment, or a combination of impairments, severe enough to prevent a person from working.

TYPES OF ASSISTANCE - Direct Payments with Unrestricted Use; Direct Payments for Specified Use.

USES AND USE RESTRICTIONS - Monthly cash benefits are paid to entitled disabled persons and to entitled auxiliary beneficiaries throughout the period of disability generally after a 5-month waiting period. Costs of vocational rehabilitation also are paid for certain beneficiaries. There are no restrictions on the use of benefits received by beneficiaries, although the right to future benefits is not transferable or assignable. In general, State agencies make initial disability determinations for the Federal Government. The Federal Government gives the States funds, in advance or by way of reimbursement, for necessary costs in making disability determinations under 20 CFR 404 Subparts P and Q. Necessary costs are direct as well as indirect costs as defined in 41 CFR 1-15, subpart 1-15.7 of the Federal Procurement Regulations System for costs incurred before April 1, 1984; and 48 CFR 31, Subpart 31.6 of the Federal Acquisition Regulations System and Federal Management Circular A-74-4, as amended, or superseded for costs incurred after March 31, 1984.

Social Service Block Grant	93.667	DHHS	N/A	40,198.9	33,873.5	34,454.4	

OBJECTIVES - To enable each State to furnish social services best suited to the needs of the individuals residing in the State. Federal block grant funds may be used to provide services directed toward one of the following five goals specified in the law: (1) To prevent, reduce, or eliminate dependency; (2) to achieve or maintain self-sufficiency; (3) to prevent neglect, abuse, or exploitation of children and adults; (4) to prevent or reduce inappropriate institutional care; and (5) to secure admission or referral for institutional care when other forms of care are not appropriate. In addition, special funding was provided to some states in fiscal year 1995 and 1996 for supplemental SSBG grants in support comprehensive of community revitalization projects in 104 federally designated Empowerment Zones (Ezs) and Enterprise Communities (Ecs). The supplemental funding is called "EZ/EC SSBG." The States, through the designated localities, may use the EZ/EC SSBG funds for activities included in each locality's strategic plan for comprehensive revitalization and directed toward goals 1, 2 or 3 listed above. These funds will remain available until December 21, 2004. Information about this component of the SSBG is included below as appropriate.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - Federal funds may be used by States for the proper and efficient operation of social service programs. Except for items (1) and (4) below, for which a waiver from the Secretary may be requested, Federal funds cannot be used for the following: (1) The purchase or improvement of land, or the purchase, construction, or permanent improvement of any building or other facility; (2) the provision of cash payments for costs of subsistence or the provision of room and board (other than costs of subsistence during rehabilitation, room and board provided for a short term as an integral but subordinate part of a social service, or temporary shelter provided as a protective service); (3) the payment of wages to any individual as a social service (other than payment of wages to welfare recipients employed in the provision of child day care services); (4) the provision of medical care (other than family planning services, rehabilitation services or initial detoxification of an alcoholic or drug dependent individual) unless it is an integral but subordinate part of a social service for which grants may be used; (5) social services (except services to an alcoholic or drug dependent individual or rehabilitation services) provided in and by employees of any hospital, skilled nursing facility, intermediate care facility, or prison, to any individual living in such institution; (6) the provision of any educational service which the State makes generally available to its residents without cost and without regard to their income; (7) any child day care service unless such service meets applicable standards of State and local law; (8) the

provision of cash payments as a service; or (9) for payment for any item or service (other than an emergency item or service) furnished by an individual or entity during the period when such individual or entity is excluded pursuant to Section 1128 or Section 1128(A) of the Social Security Act from participation in this program; or at the medical direction or on the prescription of a physician during the period when the physician is excluded based on Section 1128 or 1128(A) from participation in the program and when the person furnishing such item or service knew or had reason to know of the exclusion (after a reasonable time period after reasonable notice has been furnished to the person). A State may transfer up to 10 percent of its allotment for any fiscal year to the preventive health and health services, alcohol and drug abuse, mental health services, maternal and child health services, and low-income home energy assistance block grants.							
Special Education Grants for Infants and Families with Disabilities	84.181	DOE	N/A	9,353.4	9,610.1	9,891.2	
OBJECTIVES - To provide grants to States to assist them to implement and maintain a Statewide, comprehensive, coordinated, multidisciplinary, interagency system to provide early intervention services for infants and toddlers with disabilities, and their families.							
TYPES OF ASSISTANCE - Formula Grants.							
USES AND USE RESTRICTIONS - Funds are used to assist States in implementing and maintaining their Statewide systems of early intervention services. Funding may also be used to provide direct services for infants and toddlers with disabilities aged birth through 2 and their families that are not otherwise provided by other public or private sources, to expand and improve on services for infants and toddlers with disabilities that are otherwise available and to provide a free appropriate public education, in accordance with Subchapter II, to children with disabilities from their third birthday to the beginning of the following school year. The Individuals with Disabilities Education Improvement Act of 2004 amended IDEA to allow states, at their discretion, to continue to serve children with disabilities under this program beyond age 2 until the children enter or are eligible to enter kindergarten or elementary school, if the children are otherwise eligible for services under the Preschool Grants Program (84.173), and previously received services under this program.

Special Programs for the Aging - Family Caregiver Support (Title III-E)	93.052	DHHS	N/A	2,130.1	2,170.4	2,211.8	

OBJECTIVES - To assist States, Territories and Indian Tribal Organizations in providing multifaceted systems of support services for: (1) Family caregivers; and (2) grandparents or older individuals who are relative caregivers. Services to be provided include: information to caregivers about available services; assistance to caregivers in gaining access to the services; individual counseling, and caregiver training to caregivers to assist the caregivers in making decisions and solving problems relating to their caregiving roles; respite care to enable caregivers to be temporarily relieved from their caregiving responsibilities; and supplemental services, on a limited basis, to complement the care provided by caregivers.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - These two authorities are for making grants to States and Territories under Title III-E and to Indian Tribal Organizations under Title VI-C to enable the provision of multifaceted systems of support services for family caregivers; and for grandparents or older individuals who are relative caregivers.

Special Programs for the Aging - Home Meals (Title III-C2)	93.045	DHHS	N/A	2,404.3	2,452.4	2,501.4	²
---	---------------	-------------	-----	---------	---------	---------	--------------

OBJECTIVES - To provide grants to States to support nutrition services including nutritious meals, nutrition education and other appropriate nutrition services for older Americans in order to maintain health, independence and quality of life. Meals may be served in a congregate setting or delivered to the home, if the older individual is homebound.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - Local projects must provide a hot or other appropriate meal which complies with the Dietary Guidelines for Americans and provides one-third of the "recommended dietary allowance" (RDA), at least once per day, five or more days per week, except in rural areas where a lesser frequency is determined feasible, to eligible people aged 60 and over and their spouses.

Special Programs for the Aging - Ombudsman (Title VII)	93.042	DHHS	N/A	221.9	228.4	235.0	

OBJECTIVES - The principal role of this Ombudsman Program is to investigate and resolve complaints made by or on behalf of residents of nursing homes or other long-term care facilities. Ombudsmen also promote policies and practices needed to improve the quality of care and life in long-term care facilities and educate both consumers and providers about residents' rights and good care practices.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - Funds are awarded to States to develop or strengthen service systems through designated State Agencies on Aging, Area Agencies on Aging and other local entities. Funds under this Title and Chapter are included in State aging plan covering 2, 3, or 4 years, with annual revisions as necessary, submitted for approval to the Assistant Secretary for Aging. Funds are used to design and implement programs for the provision of long-term care ombudsman services for older individuals living in long-term care facilities.

Special Programs for the Aging - Supportive Services and Senior Centers (Title III-B)	93.044	DHHS	N/A	6,350.1	6,538.3	6,732.8	

OBJECTIVES - To encourage State Agencies on Aging and Area Agencies on Aging to concentrate resources to develop and implement comprehensive and coordinated community-based systems of service for older individuals via Statewide planning, and area planning and provision of supportive services, including multipurpose senior centers. The objective of these services and centers is to maximize the informal support provided to older Americans to enable them to remain in their homes and communities. Providing transportation services, in-home services and caregiver support services, this program insures that elders receive the services they need to remain independent.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - Funds are awarded to States to develop and strengthen comprehensive and coordinated service delivery systems through designated State Agencies on Aging and area Agencies on Aging. A State plan covering 2, 3, or 4 years, with annual amendments as necessary must be submitted for approval to the Assistant Secretary for Aging. Area Plans also cover 2, 3, or 4 years, and are to be submitted to State agencies for approval. These funds are distributed by intrastate funding formulas to area agencies in States with planning and service areas and directly to service providers in the 13 States designated as single-planning-and-service-area States. In addition to supportive nutrition services, these funds may be used to support other services including the renovation, acquisition and alteration, and construction of multipurpose senior centers.

SSI/SSDI Vocational Rehabilitation	96.001	SSA	N/A	2,168.7	2,359.0	2,560.0	
---	---------------	------------	-----	---------	---------	---------	--

OBJECTIVES - To replace part of the earnings lost because of a physical or mental impairment, or a combination of impairments, severe enough to prevent a person from working.

TYPES OF ASSISTANCE - Direct Payments with Unrestricted Use; Direct Payments for Specified Use.

USES AND USE RESTRICTIONS - Monthly cash benefits are paid to entitled disabled persons and to entitled auxiliary beneficiaries throughout the period of disability generally after a 5-month waiting period. Costs of vocational rehabilitation also are paid for certain beneficiaries. There are no restrictions on the use of benefits received by beneficiaries, although the right to future benefits is not transferable or assignable. In general, State agencies make initial disability determinations for the Federal Government. The Federal Government gives the States funds, in advance or by way of reimbursement, for necessary costs in making disability determinations under 20 CFR 404 Subparts P and Q. Necessary costs are direct as well as indirect costs as defined in 41 CFR 1-15, subpart 1-15.7 of the Federal Procurement Regulations System for costs incurred before April 1, 1984; and 48 CFR 31, Subpart 31.6 of the Federal Acquisition Regulations System and Federal Management Circular A-74-4, as amended, or superseded for costs incurred after March 31, 1984.

Targeted Discretionary Refugee Assistance	93.576	DHHS	N/A	104.4	107.5	110.8	²

OBJECTIVES - To improve resettlement services for refugees. Program OBJECTIVES - include: 1) Providing adequate health assessment activities for refugees; (2) decreasing the numbers of refugees on public assistance and the length of time refugees require such assistance; (3) promoting refugee community and family stability; (4) encouraging placement of refugee families in locations with good job opportunities and lower costs of living; (5) increasing service dollars in areas with good resettlement records; (6) enhancing services to disadvantaged refugee groups; services to promote older refugees access to aging services, assist low income refugees with matching funds for individual development accounts (IDA) and (7) responding to national needs which are not the purview of any particular State services program.

TYPES OF ASSISTANCE - Project Grants.

USES AND USE RESTRICTIONS - The discretionary grant program allocates a portion of formula social service and targeted assistance funds to conduct projects which promote refugee self-sufficiency or address their special needs. Funds may be used only for the purposes set forth in the grant award. In Fiscal Years 2004 and 2005, approximately 15 percent of social service funds not earmarked by Congress were allocated through discretionary programs; and 10 percent of Targeted Assistance program funds were also obligated.

Targeted Refugee Assistance	93.584	DHHS	N/A	896.9	923.8	951.5	²
------------------------------------	---------------	-------------	-----	-------	-------	-------	--------------

OBJECTIVES - To provide funding for employment-related and other social services for refugees, asylees, Amerasians, victims of a severe form of trafficking, and entrants in areas of high refugee concentration and high welfare utilization.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - Assistance is limited to employment-related and other social services for refugees, asylees, Amerasians, victims of a severe form of trafficking, and entrants, as defined in the authorizing Acts, supplemented by appropriate documentation provided to the refugee from the Bureau of Citizenship and Immigration Services (BCIS), formerly INS.

Temporary Assistance to Needy Families	93.558	DHHS	N/A	226,130.6	226,130.6	234,652.8	

OBJECTIVES - To provide grants to States, Territories, or Tribes to assist needy families with children so that children can be cared for in their own homes; to reduce dependency by promoting job preparation, work, and marriage; to reduce and prevent out-of-wedlock pregnancies; and to encourage the formation and maintenance of two-parent families.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - States, Territories, or Tribes have broad flexibility to use the grant funds in any manner that meets the purposes of the program (including providing low-income households with assistance in meeting home heating and cooling costs) and in ways that the State, Territory and Tribe was authorized to use funds received under the predecessor Aid to Families with Dependent Children (AFDC), Job Opportunities and Basic Skills Training (JOBS) and Emergency Assistance (EA) programs. States and Territories may also transfer a limited portion of their assistance grant funds to the Child Care and Development Block Grant (CCDBG) and Social Services Block Grant (SSBG) Programs. Not more than 15 percent of any State grant may be spent on administrative costs, exclusive of certain computerization and information technology expenses. Cash grants, work opportunities and other services are made directly to needy families with children. For Tribal programs, ACF will negotiate a limitation on administrative costs for the first year of the program's operation not to exceed 35 percent, for the second year of the program's operation not to exceed 30 percent, and the for the third and subsequent years of the program's operation not to exceed 25 percent.

			Available	Received	Est. Rev.	Est. Rev.	
Temporary Emergency Food Assistance (Administrative Costs)	10.568	USDA	N/A	1,207.5	1,242.2	1,277.8	

OBJECTIVES - To help supplement the diets of low-income persons by making funds available to States for processing, storage and distribution costs incurred by State agencies and local organizations in providing food assistance to needy persons.

TYPES OF ASSISTANCE - Formula Grants.

USES AND USE RESTRICTIONS - Administrative funds are provided to State agencies to cover administrative costs incurred at the State and local level in the operation of the program. Funds may only be used for approved administrative expenses, and the State agency is required to pass-through at least 40% of the funds to emergency feeding organizations.

APPLICATION AND AWARD PROCESS - Preapplication Coordination

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs."

An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Trade Adjustment Assistance	17.245	DOL	N/A	1,272.4	1,325.0	1,325.0	²
------------------------------------	---------------	------------	-----	---------	---------	---------	--------------

OBJECTIVES - To provide adjustment assistance to qualified workers adversely affected by foreign trade which will assist them to obtain suitable employment.

TYPES OF ASSISTANCE - Direct Payments with Unrestricted Use; Formula Grants.

USES AND USE RESTRICTIONS - State Workforce Agencies (SWAs) serve as agents of the United States for administering the worker adjustment assistance benefit provisions of the Trade Act. SWAs, through the local offices, provide testing, counseling, and job placement services; job search and relocation assistance; training; and payment of weekly trade readjustment allowances (TRA). State unemployment compensation and extended benefits must be exhausted before TRA is paid to eligible claimants. Trade impacted workers are eligible to receive job search and relocation allowances in addition to the costs of training. They may be paid subsistence and transportation allowances to attend approved training outside the normal commuting distance of a worker's regular place of residence.

Unemployment Insurance - Grants to States	17.225	DOL	N/A	26,501.4	27,824.6	28,988.5	

OBJECTIVES - To administer a program of unemployment insurance for eligible workers through Federal and State cooperation; to administer payment of trade adjustment assistance, disaster unemployment assistance, unemployment compensation for Federal employees and ex-service members.

TYPES OF ASSISTANCE - Formula Grants; Direct Payments with Unrestricted Use.

USES AND USE RESTRICTIONS - The states have the direct responsibility for establishing and operating their own unemployment insurance programs, while the Federal Government finances the cost of administration. State unemployment insurance tax collections are used solely for the payment of benefits. Federal unemployment insurance tax collections are used to finance expenses deemed necessary for proper and efficient administration of the state unemployment insurance laws; to reimburse state funds for one-half the costs of extended benefits paid under the provisions of state laws which conform to the provisions of the Social Security Act and the Federal Unemployment Tax Act; and to make repayable advances to states when needed to pay benefit costs. Funds used for benefit payments may not be used for any program administration costs nor for training, job search, and job relocation payments. Disaster Unemployment Assistance (DUA) is paid out of funds provided by the Federal Emergency Management Agency (FEMA). Benefits for former Federal civilian employees, including postal workers, and former members of the Armed Forces are paid out of the Federal Employees Compensation Account (FECA) in the Unemployment Trust Fund, subject to reimbursement by the former employing agency.

Work Opportunity Tax Credit Program	17.207	DOL	N/A	258.8	262.0	262.0	

OBJECTIVES - To assist persons to secure employment and workforce information by providing a variety of job search assistance and information services without charge to job seekers and to employers seeking qualified individuals to fill job openings.

TYPES OF ASSISTANCE - Formula Grants; Project Grants.

USES AND USE RESTRICTIONS - The Wagner-Peyser Act of 1933 established a nationwide system of public employment offices which is known as the Employment Service. Wagner-Peyser was amended by the Workforce Investment Act of 1998 making the Employment Service part of the One- Stop delivery system. The Wagner Peyser funded activities are an integral part of the One Stop delivery system that provides an integrated array of high-quality services so that workers, job seekers, and businesses can access the services they need under one roof in easy-to-reach locations, with many services also offered through self-service electronic access. These services includes assessment of skill levels, abilities and aptitudes, career guidance when appropriate, job search workshops, and referral to training as appropriate. The services offered to employers, in addition to referral of job seekers to job openings, include matching job requirements with job seeker experience, skills and other attributes, helping with special recruitment needs, assisting employers analyze hard-to-fill job orders, assisting with job restructuring and helping employers deal with layoffs. Additional services may include: 1) a nationwide computerized career information system including an automated job bank of employment vacancies and job seekers resumes, career, and workforce information, and institutions and organizations that provide training; 2) the development and distribution of state and local workforce information which allows job seekers, employers, and providers and planners of job training and economic development to obtain information pertaining to job opportunities, labor supply, labor market or workforce trends, and the market situation in particular industries. Veterans receive priority referral to jobs as well as special employment services and assistance. In addition, the system provides specialized service to individuals with disabilities, as well as, such groups as migrant and seasonal farmworkers, ex-offenders, youth, minorities, and older workers. These Wagner-Peyser-funded programs involve a federal-state partnership between the U.S. Department of Labor (DOL), Employment and Training Administration (ETA) and the state workforce agency. The federal government provides general direction, funding, and oversight. In addition the federal government partners with states to provide for a number of tools and resources such as development and maintenance of the Occupational Information Network (O*NET), America's Labor Market Information System, and

To assist States and localities to help move hard-to-employ welfare recipients into lasting unsubsidized jobs and achieve self sufficiency.

Adult Program - To provide workforce investment activities that increase the employment, retention and earnings of participants, and increase occupational skill attainment by the participants. This aims to improve the quality of the workforce, reduce welfare dependency, and enhance the productivity and competitiveness of the nation's economy. This program is designed to increase employment, as measured by entry into unsubsidized employment, retention in unsubsidized employment six months after entry into employment, and wage gain. For cross-cutting goals, the program intends to enhance customer satisfaction for participants and for employers. The employment goals will be measured using Unemployment Insurance Wage Records systems and customer satisfaction goals will be measured by sampling.

Youth Program - To design, with States and local communities, a revitalized, workforce investment system that will help low income youth between the ages of 14 and 21 acquire the educational and occupational skills, training and support needed to achieve academic and employment success and successfully transition to careers and productive adulthood.

Dislocated Workers Program - To provide workforce investment activities that increase the employment, retention and earnings of participants, and increase occupational skill attainment by the participants. This aims to reemploy dislocated workers, improve the quality of the workforce and enhance the productivity and competitiveness of the nation's economy. This program is designed to increase employment, as measured by entry into unsubsidized employment, retention in unsubsidized employment six months after entry into employment, and extent of recovery of prior wage levels. For cross cutting goals, the program intends to enhance customer satisfaction for participants and for employers. The employment goals will be measured using Unemployment Insurance Wage Records systems and customer satisfaction goals will be measured by sampling.

Adult Education - Basic Grants to States

(Continued)

N/A

The Adult Education - Basic Grants to States is a formula grant using a base amount of \$250,000 per State and then additional funds allocated using States' qualifying adult population defined under the law. The purpose of the grant is to provide, on a voluntary basis, adult education and literacy services, in order to: (1) assist adults to become literate and obtain the knowledge and skills necessary for employment and self-sufficiency; (2) assist adults who are parents to obtain the educational skills necessary to become full partners in the educational development of their children; and (3) assist adults in the completion of a secondary school education.

The grant funds are distributed to local projects that provide instruction in reading, numeracy, General Educational Development preparation, and English literacy for adults and out-of-school youths age 16 years and older. The instruction is delivered through public schools, community colleges, libraries, and other public and private nonprofit community-based organizations.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is a Maintenance of Effort provision for the grant monies to be allocated only to those States where spending in the second prior fiscal year was no less than 90 percent of the spending that occurred in the third prior year.

The grant funds also require a match of \$1 federal to \$3 state or local funds. The match can be made by either cash or in-kind contributions. A State must distribute a minimum of 82.5 percent of the grant funds to eligible recipients. Of the remaining 17.5 percent, 12.5 percent can be used for State leadership activities such as professional development; technical assistance; technology assistance; program monitoring and evaluation; curricula development and distribution; and support service coordination. The five percent balance that remains can be used for State administrative costs.

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
Adult Education - Basic Grants to States	84.002	USDOE	N/A	2,183.8	23.2	0.0	²

The grant funds also require a match of \$1 federal to \$3 state or local funds. The match can be made by either cash or in-kind contributions. A State must distribute a minimum of 82.5 percent of the grant funds to eligible recipients. Of the remaining 17.5 percent, 12.5 percent can be used for State leadership activities such as professional development; technical assistance; technology assistance; program monitoring and evaluation; curricula development and distribution; and support service coordination. The five percent balance that remains can be used for State administrative costs.

Advanced Placement Incentive Program	84.330	USDOE	N/A	135.6	0.0	0.0	⁸
---	---------------	--------------	-----	-------	-----	-----	--------------

The Advanced Placement Incentive Program grant is a three-year competitive grant to State education agencies, local education agencies, or national nonprofit educational entities with expertise in providing advanced placement services. The goal is to permit States to give more low-income students the opportunity to take Advanced Placement classes and participate in other challenging programs. The grant monies are for supporting the development, enhancement, or expansion of pre-Advanced Placement courses that are aligned with Advanced Placement courses in mathematics, science, English, and other core academics.

Some examples of how the grant funds can be used include: (1) professional development for teachers; (2) curriculum development; (3) books and supply purchases; and (4) activities directly related to expanding access to and participation in Advanced Placement courses and test for low-income students.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no Maintenance of Effort or match requirement for this grant.

States can administer the program or use the grant funds to award subgrants to local education agencies so they can carry out the grant activities.

Advanced Placement Test Fee Program	84.330	USDOE	N/A	27.2	0.0	0.0	^{2, 8}
--	---------------	--------------	-----	------	-----	-----	-----------------

The Advanced Placement Test Fee Program grant provides funding to States to enable them to pay part or all of the costs of advanced placement test fees for low-income individuals who are enrolled in an advanced placement course. The goal is for low-income students to demonstrate their achievements by taking advanced placement exams after their advanced placement course work. The intended result is an increase in the number of low-income students who receive advanced placement test scores for which college academic credit is awarded.

The grant monies are to supplement, not supplant State or local funding. There is no Maintenance of Effort or match requirement for this grant.

The federal grant monies are to be used only to pay advanced placement test fees for eligible low-income students.

			Available	Received	Est. Rev.	Est. Rev.	
America's Career Resources Network	84.346	USDOE	N/A	29.9	0.0	0.0	^{2, 8}

The America's Career Resources Network grant is a competitive grant in which at least 85 percent of the federal appropriation must be distributed to State entities to support the implementation of statewide, systemic strategies for providing youths and adults with the critical career information resources and the skills they need to make effective education and career decisions throughout their lives. The remaining 15 percent of the federal appropriation is reserved for national activities, including national technical assistance to States and development and dissemination of projects and services.

State entities may engage in a variety of activities that can include research and innovative product development; professional development activities; and development of career information delivery systems. The grant monies also can be used for the development and dissemination of curricula and other learning resources.

There is no Maintenance of Effort or match requirement for these grant funds. The funds are used for outside professional contract services and State operating costs.

Comprehensive School Health Programs	93.938	DHHS	N/A	34.3	194.8	194.8	

The Comprehensive School Health Programs grant is a cooperative agreement for developing and implementing effective health education for human immunodeficiency virus (HIV) and other important health problems for elementary through college-age youth, parents, and relevant school, health, and education personnel. The goal is to help schools and other agencies that serve youth to implement coordinated school health programs to prevent HIV infection and other important health problems.

Through this grant, teachers and other school staff, university staff, and staff of agencies that serve special populations receive training to implement effective health education, including HIV prevention. HIV education materials are produced and disseminated, policies are developed and implemented, and youth are receiving HIV prevention education as a part of community prevention efforts and coordinated school health programs.

The grant monies are used to support personnel, their training and travel, and to purchase supplies and services for planning, organizing and conducting activities directly related to the OBJECTIVES - of this grant. The grant monies also are used for collaborating with organizations to assist in strengthening HIV prevention for college age youth; establishing policies, guidelines, and/or standards to help increase the number of schools providing HIV education; and providing technical assistance to local school districts and schools in implementing HIV education.

Education for Homeless Children and Youth	84.196	USDOE	N/A	0.0	966.0	1,244.9	³
--	---------------	--------------	-----	-----	-------	---------	--------------

The Education for Homeless Children and Youths grant is a formula grant based each State's share of Title I funds. The grant monies support an office for coordination of the education of homeless children and youths in each State. This office gathers comprehensive information about homeless children and youths and the impediments they must overcome to regularly attend school. These grant monies also help States ensure that homeless children, including preschoolers and youths, have equal access to free and appropriate public education. States are required to have an approved plan for addressing problems associated with the enrollment, attendance, and success of homeless children in school. States must make competitive subgrants to local education agencies to facilitate the enrollment, attendance, and success in school of homeless children and youths. This includes addressing problems due to transportation needs, immunization and residency requirements, lack of birth certificates and school records, and guardianship issues. The local education agencies also can use the grant funds to offer expedited evaluations of the needs of homeless children to help them enroll in school, attend regularly, and achieve success.

There is no Maintenance of Effort or match requirement for the federal grant monies.

States must distribute not less than 75 percent of their allocation in subgrants to local education agencies. States may reserve their remaining funds for State-level activities.

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
Even Start - Migrant Education	84.214	USDOE	N/A	37.5	0.0	0.0	⁸

The Even Start - Migrant Education grant is targeted funding for family literacy projects whose participants meet definitions under federal rules for migratory parents and their children ages birth through age seven years. This grant program is one of several programs funded from a six percent set-aside from the Title 1, Part B, Subpart 3 Even Start Family Literacy appropriation. The competition for these grants is held every other year and Arizona's grant award began October 1, 2002.

Local grant recipients are required to assume an increasing share of program costs each year. The increasing share of the program expenses range from 10 percent in the first year to 40 percent in the fourth year. Cost-sharing for years five through eight is 50 percent, and, after the eighth year, the federal share may not exceed 35 percent. The remaining cost may be provided by cash or in kind contributions and may be obtained from any source, including other federal funds under the Elementary and Secondary Education Act. In addition, States must make available non-Federal contributions in an amount that is no less than the federal funds provided under the grant.

Up to six percent of the federal grant amount may be used for State related costs. The six percent is to be split equally at three percent for administration and three percent for technical assistance for program improvement.

---	---------------	--------------	-----	---------	-------	-------	--------------

The Even Start Family Literacy Program grant is a Title I, Part B, formula grant to support family literacy services for low-income parents with low literacy skills or limited English proficiently and their children who are primarily birth through age seven years. The goals are to help parents improve their literacy or basic educational skills; to help parents become full partners in educating their children; and to assist children in reaching their full potential as learners. The monies support intensive, local family literacy projects that combine four core components of family literacy. The four components are early childhood education; adult basic and secondary-level education (including instruction for English language learners); parenting education; and interactive parent and child literacy activities.

Arizona begin in 1991 receiving this grant award, which has required local grant recipients to assume an increasing share of program costs each year. The increasing share of the program expenses ranged from 10 percent in the first year to 40 percent in the fourth year. Cost-sharing for years five through eight is 50 percent, and, after the eighth year, the federal Even Start share may not exceed 35 percent. The remaining cost may be provided by cash or in kind contributions and may be obtained from any source, including other federal funds under the Elementary and Secondary Education Act.

There is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved. In addition, States must make available non-Federal contributions in an amount that is no less than the federal funds provided under the grant.

Up to six percent of the federal grant amount may be used for State related costs. The six percent is to be split equally at three percent for administration and three percent for technical assistance for program improvement.

Johnson O'Malley Grant	15.130	BIA	N/A	387.4	0.0	0.0	

The Johnson-O'Malley (JOM) Grant is a formula grant to provide funds to supplement the regular school program in order to meet specialized and unique educational needs of eligible American Indian students attending public schools. The JOM funds are used for tutoring, academic support, cultural activities, summer education programs, and after school activities. The grant monies also can be used to assist with counseling in higher education and career planning.

Schools are eligible to receive JOM funds for each student, age three years through grade 12, who is a member of, or at least one-fourth degree Indian blood from a descendent of a member of an Indian tribe. The grant monies are distributed based upon the number of eligible Indian students to be served times twenty-five percent of either the State or national average per pupil operating cost, whichever is higher. If there is a shortage of appropriated federal funds, the monies are allotted on a pro rata basis.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match or Maintenance of Effort requirement for these funds.

The bulk of these grant monies are distributed to local education agencies for their supplemental to the regular school program. They also can be used for operational support where such support is necessary to maintain established State educational standards.

			Available	Received	Est. Rev.	Est. Rev.	
Learn and Serve America	94.004	CNCS	N/A	95.6	0.0	0.0	^{2, 8}

The Learn and Serve America grant is distributed by the federal Corporation for National and Community Services created by the National Community Service Trust Act of 1993. The grant funds are for projects that use a service-learning approach to education. This service-learning approach recognizes that working with local community organizations is a way to obtain academic achievement and develop civic skills. The grant monies are to allow schools to work in partnership with local organizations to create, develop, and offer service-learning opportunities for school-age youth from age five years to 17 years. The monies also can be used for teacher training for incorporating service-learning opportunities into the classroom; program evaluation for determining a project's effectiveness; and support for service-learning coordinators.

The goal is to promote academic excellence, foster civic responsibility, and impact communities. An example of a project that have been funded under this grant include Minnesota high school students visiting the St. Louis River as part of a chemistry class to test water quality and initiate local pollution control. A second example is third graders in Indiana spending time with seniors in nursing homes for the purpose of making friends of these long- time community residents and gathering information for writing a book on local history.

There is no Maintenance of Effort requirement for these grant funds. However, the grant award requires cost sharing. The grant's share of the total cost of carrying out a funded program may not exceed 90 percent for the first program year; 80 percent for the second year; 70 percent for the third year; 50 percent for the fourth and any subsequent year.

The bulk of these federal grant monies are distributed to locals in assistance for the cost of the grant projects.

			Available	Received	Est. Rev.	Est. Rev.	
National School Lunch	10.555	USDA	N/A	0.0	134,167.8	172,669.0	^{2,3}

The National School Lunch Program grant is a formula grant to assist States in providing a nutritious nonprofit lunch service for school children. These grant funds are used to reimburse participating public and nonprofit private schools, of high school grade and under, for lunches served to eligible children that meet nutritional requirements prescribed by the Secretary of Agriculture. Public and nonprofit private residential child care institutions also are eligible to participate in this grant program. All participating schools and residential child care institutions schools must agree to operate the program on a nonprofit basis for all children regardless of race, sex, color, National origin, age, or disability.

Lunch is served free to children who are determined by local school authorities to have household income levels at or below 130 percent of income eligibility guidelines adopted annually by the Secretary of Agriculture. Lunch is served at a reduced price to children from households with incomes higher than 130 percent and at or below 185 percent of the income eligibility guidelines. The maximum reduced price charged for lunch is 40 cents.

The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for all Urban Consumers. For the period July 1, 2001 through June 30, 2002, the rates of reimbursement ranged from 20 cents to 23.89 cents per lunch served, depending on the income eligibility category of the child receiving the lunch and the population level of poverty level students attending the school. These cash reimbursement amounts do not take into consideration the value of donated food commodities also distributed by the federal government for this program. The national average value of donated commodities for each lunch was 15.50 cents, for the period July 1, 2001, through June 30, 2002.

Schools that meet eligibility criteria also may be reimbursed for meal snacks served to children enrolled in after school hour care programs. The reimbursement for snacks in after school care programs range from five cents to 57 cents per snack.

This program has no Maintenance of Effort requirement. With regard to match requirements, each State must appropriate from State revenues and use, for program purposes, an amount equal to 30 percent of the federal cash assistance for school lunches that was made available to the State in the 1980-81 school year. This 30 percent match requirement is reduced for lower per capita income States. There are several ways

that States can meet this match requirement, including tracking State-appropriated funds that school lunch operators indirectly applied to the program through transfers from their general funds to their food services funds.

All of these grant funds are distributed to the local entities providing the service.

The National School Lunch Program grant is a formula grant to assist States in providing a nutritious nonprofit lunch service for school children. These grant funds are used to reimburse participating public and nonprofit private schools, of high school grade and under, for lunches served to eligible children that meet nutritional requirements prescribed by the Secretary of Agriculture. Public and nonprofit private residential child care institutions also are eligible to participate in this grant program. All participating schools and residential child care institutions schools must agree to operate the program on a nonprofit basis for all children regardless of race, sex, color, National origin, age, or disability.

Lunch is served free to children who are determined by local school authorities to have household income levels at or below 130 percent of income eligibility guidelines adopted annually by the Secretary of Agriculture. Lunch is served at a reduced price to children from households with incomes higher than 130 percent and at or below 185 percent of the income eligibility guidelines. The maximum reduced price charged for lunch is 40 cents.

The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for all Urban Consumers. For the period July 1, 2001 through June 30, 2002, the rates of reimbursement ranged from 20 cents to 23.89 cents per lunch served, depending on the income eligibility category of the child receiving the lunch and the population level of poverty level students attending the school. These cash reimbursement amounts do not take into consideration the value of donated food commodities also distributed by the federal government for this program. The national average value of donated commodities for each lunch was 15.50 cents, for the period July 1, 2001, through June 30, 2002.

Schools that meet eligibility criteria also may be reimbursed for meal snacks served to children enrolled in after school hour care programs. The reimbursement for snacks in after school care programs range from

			Available	Received	Est. Rev.	Est. Rev.	
Preschool Grants for Children with Disabilities	84.173	USDOE	N/A	3,592.4	2,012.5	2,007.6	⁶

The Preschool Grants for Children with Disabilities grant is a formula grant based on the grant amount received for FY 1997, the State's population of children age three years through five years, and the State's population of three year through five year old children living in poverty. The grant monies are for special education and related services to three-year through five year old children who are eligible under State established criteria because of their development delays. The grant monies can be used for the salaries of special education teachers and the costs associated with related services personnel such as speech therapists and psychologists. The grant funds also may be used for adaptive equipment needed to allow students to access the curriculum, for screening and assessment services, and for transportation costs.

States must distribute the bulk of their grant awards to local education agencies and education service agencies. They may retain funds for State-level activities up to an amount equal to 25 percent of the amount they received for FY 1997 under the Preschool Grants program, adjusted upward each year by the lesser of the rate of increase in the State's allocation or the rate of inflation. The amount that may be used for administration is limited to 20 percent of the amount available to a State for State-level activities. The remaining five percent must be used for State-level initiatives such as in-service training in strategies appropriate for use with young children with disabilities and participation in other State-level programs for preschool children, including statewide early literacy development and enrichment programs.

There is no Maintenance of Effort or match requirement for the funds.

Refugee Children School Impact	93.576	DHHS	N/A	170.5	0.0	0.0	⁸

The Refugee Children School Impact grant is competitive applications grant to offset some of the costs of educating refugee children incurred by local school districts in which significant numbers of refugee children reside. Schools must use the grant to fund activities that will lead to the effective integration and education of refugee children. Some examples of how the monies may be used include: teaching better language skills through English as a Second Language instruction; providing after-school tutorials to help students understand and complete assignments; offering programs to encourage high school completion or to foster understanding among youth from diverse cultures through cultural awareness activities; and paying for bilingual/bicultural counselors.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no Maintenance of Effort or match requirement for this grant.

The bulk of these grant monies are distributed to local education agencies in assistance grants. The State of Arizona retains 15 percent of the grant funds for its administrative costs, including technical assistance.

-----------------------------------	---------------	--------------	-----	------	-----	-----	-----------------

The Robert C. Byrd Honors Scholarships grant is a federally funded, State-administered program designed to recognize exceptionally able high school seniors who show promise of continued excellence in postsecondary education. The grant monies are awarded to State education agencies, which make scholarship awards to eligible applicants for their college expenses. The scholarship recipients receive \$1,500 for each year of study for a maximum of four years. Attendance must be on a full time basis unless a waiver is granted.

The grant monies are distributed to each participating State by using a formula based on their population of youth ages five years through 17 years. All of the grant monies must be disbursed as scholarships to the selected applicants, except States may retain any funds that are subsequently returned or collected in the following award period.

There is no Maintenance of Effort or match requirement for these grant monies.

School Breakfast	10.553	USDA	N/A	(1.6)	0.0	0.0	^{2, 8}

The School Breakfast Program grant is a formula grant to assist States in providing a nutritious nonprofit breakfast service for school children. These grant funds are used to reimburse participating public and nonprofit private schools, of high school grade and under, for breakfasts served to eligible children that meet nutritional requirements prescribed by the Secretary of Agriculture. Public and nonprofit private residential child care institutions also are eligible to participate in this grant program. All participating schools must agree to serve free and reduced price meals to eligible children, and to operate the program on a nonprofit basis for all children regardless of race, sex, color, National origin, age, or disability.

Breakfast is served free to children who are determined by local school authorities to have household income levels at or below 130 percent of income eligibility guidelines adopted annually by the Secretary of Agriculture. Breakfast is served at a reduced price to children from households with incomes higher than 130 percent and at or below 185 percent of the income eligibility guidelines. The maximum reduced price charged for breakfast is 30 cents.

The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for all Urban Consumers. For the period July 1, 2004 through June 30, 2005, the rates of reimbursement ranged from 23 cents to 147 cents per breakfast served, depending on the income eligibility category of the child receiving the breakfast and the population level of poverty level students attending the school. These reimbursement amounts do not take into consideration the value of donated food commodities also distributed by the federal government for this program.

This program has no Maintenance of Effort or match requirements. All of these grant funds are distributed to the local entities providing the service.

Public and nonprofit private residential child care institutions also are eligible to participate in this grant program. All participating schools must agree to serve free and reduced price meals to eligible children, and to operate the program on a nonprofit basis for all children regardless of race, sex, color, National origin, age, or disability.

Breakfast is served free to children who are determined by local school authorities to have household income levels at or below 130 percent of income eligibility guidelines adopted annually by the Secretary of Agriculture. Breakfast is served at a reduced price to children from households with incomes higher than 130 percent and at or below 185 percent of the income eligibility guidelines. The maximum reduced price charged for breakfast is 30 cents.

The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for all Urban Consumers. For the period July 1, 2004 through June 30, 2005, the rates of reimbursement ranged from 23 cents to 147 cents per breakfast served, depending on the income eligibility category of the child receiving the breakfast and the population level of poverty level students attending the school. These reimbursement amounts do not take into consideration the value of donated food commodities also distributed by the federal government for this program.

This program has no Maintenance of Effort or match requirements. All of these grant funds are distributed to the local entities providing the service.

Special Education - Grants to States	84.027	USDOE	N/A	122,632.9	24,857.3	3,994.7	

The Special Education - Grants to States is a formula grant based on the grant amount received for FY 1999, the State's population of children age three years through 21 years, and the State's population of three year through 21 year old children living in poverty. The monies are for ensuring children with disabilities through 21 years of age have available to them a free appropriate public education that provides special education and related services designed to meet their unique needs and to prepare them for further education, employment, and independent living. The grant funds can be used for salaries of teachers and other personnel; contracted services for therapy and other professional services; educational materials; professional development activities; and education-related needs and services (such as special transportation or occupational therapy).

The grant monies are to be used to supplement rather than to supplant State or local funding. There is a Maintenance of Effort requirement for the local education agencies, which requires current year expenditures be no less than the amount in the preceding year. In addition, local education agencies must show they have spent a certain minimum amount for the education of its children with disabilities before using these federal grant monies. The minimum amount that must be spent for the education of children with disabilities is computed under a statutory formula based on prior year expenditures.

States may set aside some of the federal grant monies for State-level activities. The amount is capped at five percent. In general, federal funds allowed for the administration of State and local programs do not have to be matched with State or local dollars. However, in the event the five percent of federal dollars is more than what is required for the administrative costs, the use of those excess federal funds for other purposes specified in law would have to be matched dollar for dollar by State or local dollars.

Special Milk	10.556	USDA	N/A	0.0	170.6	170.6	³

The Special Milk Program for Children grant is a formula grant to provide subsidies to schools and institutions to encourage the consumption of fluid milk by the children served. Schools and institutions are eligible for this subsidy only if they do not participate in a meal service program authorized under the National School Lunch Act or the Child Nutrition Act of 1966.

The grant monies are for children served by eligible public and private nonprofit schools of high school grade and under, public and private nonprofit nursery schools, child-care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children, except Job Corps Centers. The federal Child Nutrition Act was amended in 1986 to expand eligibility in the program to include children in split session kindergarten and pre-kindergarten programs in nonprofit schools and institutions when the children have no access to the federal meal service program operating in schools the children attend. All schools and child care institutions which participate must agree to operate the program on a nonprofit basis for all children without regard to race, sex, color, National origin, age or disability.

The grant monies are disbursed to States on the basis of the number of half pints of milk served to non-needy children, using a reimbursement rate specified by law. Milk served free to eligible needy children is reimbursed at the average cost of a half pint of milk. This rate is adjusted each school year to correspond to the change in the Producer Price Index for Fluid Milk Products published by the Bureau of Labor Statistics.

There is no Maintenance of Effort or match requirement for the federal funds. However, the cost of milk in excess of the federal reimbursement rates must be borne by sources within the States.

All of these federal grant funds are distributed to the local entities providing the service.

State Administrative Expenses (SAE) for Child Nutrition	10.560	USDA	N/A	1,088.9	0.0	0.0	⁸

The State Administrative Expenses for Child Nutrition grant is a formula grant to assist States in providing for its administrative expenses in supervising and giving technical assistance to local schools, school districts and institutions in their conduct of Child Nutrition Programs. These State Administrative Expense (SAE) funds must be used for purposes specified in federal law, consistent with the cost principles and constraints on allowable and unallowable costs, and indirect cost rates as prescribed in Office of Management and Budget Circular No. A-87. These SAE funds may be used, under certain conditions, for the procurement of supplies, equipment, and services.

For each fiscal year 2005 through 2007, each State receives not less than the initial allocation made to the State in Federal Fiscal Year 2004. For the National School Lunch Program, the School Breakfast Program, and the Special Milk Program, funds are allocated on the basis of an amount equal to one percent of the total funds used in the State for these programs during the second preceding year. No State receives less than \$200,000 or the amount it received in Federal Fiscal Year 1981, whichever is larger. In addition, the Secretary has discretionary authority to provide funds to States for program improvement.

There is no match requirement for these funds. However, there is a Maintenance of Effort (MOE) requirement. Any reduction of funds from State sources below the Federal Fiscal Year 1977 level will result in a withdrawal of the federal funds under this grant. As a result, General Fund monies are used for MOE.

Summer Food Service - Meals	10.559	USDA	N/A	2.7	0.0	0.0	⁸

The Summer Food Service grant is a formula grant to assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for low-income children during the summer months and at other approved times, when schools are out of session or are closed for vacation. The grant monies are for disbursing to eligible service institutions (sponsors) which provide free meals to children in areas where at least 50 percent of the children meet the income eligibility criteria in the federal National School Lunch Program Act for free and reduced price lunches. Any service institution that conducts a regularly scheduled program for children from areas in which poor economic conditions exist is eligible to participate in the program.

Meals may be served to children age 18 years and younger, and to individuals over 18 years of age who participate in State approved school programs for persons with disabilities. The grant program generally operates during the months of May through September at site locations where regularly scheduled food services are provided for children. Sites also may participate in the program from September through May if the school is closed because of an emergency situation. Service institutions operating food programs for children on school vacation under a continuous year-round calendar may apply for participation in other months.

The grant monies are disbursed on a per meal reimbursement basis with rates adjusted annually on January 1, to reflect changes in the Food Away from Home series of the Consumer Price Index for All Urban Consumers. The service institutions received reimbursement either for actual costs or for one meal and one snack or two meals per child each day. Camps and sites primarily serving children of migrant workers may be approved to serve up to three reimbursable meals each day. Meals must meet minimum requirements of the United States Department of Agriculture.

This program has no Maintenance of Effort or match requirement. All of these grant funds are distributed to the local entities providing the service.

See the Summer Food Service – Admin Program for more details about this federal grant.

least 50 percent of the children meet the income eligibility criteria in the federal National School Lunch Program Act for free and reduced price lunches. Any service institution that conducts a regularly scheduled program for children from areas in which poor economic conditions exist is eligible to participate in the program.

Meals may be served to children age 18 years and younger, and to individuals over 18 years of age who participate in State approved school programs for persons with disabilities. The grant program generally operates during the months of May through September at site locations where regularly scheduled food services are provided for children. Sites also may participate in the program from September through May if the school is closed because of an emergency situation. Service institutions operating food programs for children on school vacation under a continuous year-round calendar may apply for participation in other months.

The grant monies are disbursed on a per meal reimbursement basis with rates adjusted annually on January 1, to reflect changes in the Food Away from Home series of the Consumer Price Index for All Urban Consumers. The service institutions received reimbursement either for actual costs or for one meal and one snack or two meals per child each day. Camps and sites primarily serving children of migrant workers may be approved to serve up to three reimbursable meals each day. Meals must meet minimum requirements of the United States Department of Agriculture.

This program has no Maintenance of Effort or match requirement. All of these grant funds are distributed to the local entities providing the service.

See the Summer Food Service – Admin Program for more details about this federal grant.

The Summer Food Service grant is a formula grant to assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for low-income children during the summer months and at other approved times, when schools are out of session or are closed for vacation. The grant monies are for disbursing to eligible service institutions (sponsors) which provide free meals to children in areas where at least 50 percent of the children meet the income eligibility criteria in the federal National School Lunch Program Act for free and reduced price lunches. Any service institution that conducts a regularly

Team Nutrition Grants - Training	10.574	USDA	N/A	26.6	0.0	0.0	^{2, 8}

The Team Nutrition Grants are awarded through a competitive process for the purpose of implementing the United States Department of Agriculture's nutrition requirements in school meals. The goal is to improve children's lifelong eating and physical activity habits by using the principles of the Dietary Guidelines for Americans and the Food Guide System. The grant monies are for establishing and enhancing sustainable infrastructures to achieve three behavior-focused strategies: 1) provide training and technical assistance to child nutrition food service professionals to enable them to prepare and serve nutritious meals that appeal to students; 2) promote nutrition curriculum and education in schools through multiple communication channels (i.e., food services initiatives, classroom activities, school wide events, home activities, community programs and events, and media events and coverage) to reinforce positive nutrition messages and encourage students to make healthy food choices as part of a healthy lifestyle; 3) build school and community support for creating healthy school environments that are conducive to healthy eating and physical activity.

This grant has no Maintenance of Effort or match requirement. These grant monies are for both administrative and operating costs of this grant program.

			Available	Received	Est. Rev.	Est. Rev.	
Tech-Prep Education (Vocational Education)	84.243	USDOE	N/A	1.0	0.0	0.0	^{2, 8}

The Tech-Prep Education grant is a formula grant that uses the State's population of different age categories in the prior year to apply statutory established percentages for distributing the funds. The grant funds are for developing and operating Tech-Prep education programs that consist of a planned sequence of study in a technical field beginning as early as the ninth year of school. The educational study extends through two years of postsecondary occupational education or an apprenticeship program of at least two years following the secondary school of study. The students receive an associate degree or a two-year certificate upon completing the study.

The grant monies go to States for awarding grants to the consortia of local education agencies and postsecondary education institutions that provide the services. Approved Tech-Prep programs must have seven elements: (1) an articulation agreement between secondary and postsecondary consortium participants; (2) a two-plus-two or a four-plus-two (only four-or six-year programs are authorized) design with a common core of proficiency in math, science, communication, and technology; (3) a specifically developed Tech-Prep curriculum; (4) joint in-service training of secondary and postsecondary teachers to implement the Tech-Prep curriculum effectively; (5) training of counselors to recruit students and to ensure program completion and appropriate employment; (6) equal access for special populations to the full range of Tech-Prep programs; and (7) preparatory services such as recruitment, career and personal counseling, and occupational assessment.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is a Maintenance of Effort provision that requires non-federal expenditures meet or exceed prior year expenditures. There is no match requirement for the funds.

A State may elect to reserve a portion of the State's grant allocation for reasonable and necessary State administration costs, including supervision and technical assistance to eligible consortia. The amount is not set by law, but generally reasonable and necessary administrative expenses would not exceed five percent of the Tech-Prep grant. Any expenditure for State leadership activities such as curriculum development activities, professional development, or research activities is expressly prohibited under this grant. A State must fund administrative costs, from nonfederal sources, at the same or higher level each year unless the federal government makes less money available for administrative costs then the State can reduce its portion of administrative cost by the same percentage.

Title I, Part A - Improving Basic Programs		(Continued)		N/A			

The Title 1, Part A - Improving Basic Programs grant is a formula grant for local education agencies (LEAs) and schools with high numbers or high percentages of poor children. The purpose of the grant is to improve learning for students failing or most-at-risk of failing through additional academic support and learning opportunities that will help them master challenging curricula and meet State standards in core academic subjects. As an example, the funds can be used to support extra instruction in reading and mathematics, as well as special preschool, after-school, and summer programs to extend and reinforce the regular school curriculum.

There are four statutory formulae that determine the distribution of these federal grant funds. These formulae are based primarily on census poverty estimates adjusted for the cost of education in each State.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

Spending for administrative costs is capped at five percent of the grant. The State's portion of this administrative cap is limited to one percent.

Title I, Part B - Reading First	84.357	USDOE	N/A	4,267.6	0.0	0.0	^{2, 8}
--	---------------	--------------	-----	---------	-----	-----	-----------------

The Title I, Part B - Reading First grant is a formula grant for ensuring all children in America learn to read well by establishing scientifically based reading programs for students enrolled in kindergarten through grade three. The funds also support increased professional development to ensure that all teachers have the skills they need to teach these programs effectively. In addition, the grant supports the use of screening and diagnostic tools and classroom-based instructional reading assessments to measure how well students are reading by measuring their progress. States must apply for the monies, which are allocated to the approved applicants according to the proportion of children age five years to 17 years who reside within the State and who are from families with incomes below the poverty line. The States then award subgrants to eligible local education agencies on a competitive basis.

Up to 20 percent of a State's allocated funds may be reserved for its use. Of this 20 percent in reserved funds, the monies must be used for three purposes in the following maximum allowances: 65 percent for professional in-service and pre-service development; 25 percent for technical assistance to local education agencies and schools; and 10 percent for planning, administration, and reporting.

There is no Maintenance of Effort or match requirement for these funds.

The funds also support increased professional development to ensure that all teachers have the skills they need to teach these programs effectively. In addition, the grant supports the use of screening and diagnostic tools and classroom-based instructional reading assessments to measure how well students are reading by measuring their progress. States must apply for the monies, which are allocated to the approved applicants according to the proportion of children age five years to 17 years who reside within the State and who are from families with incomes below the poverty line. The States then award subgrants to eligible local education agencies on a competitive basis.

Up to 20 percent of a State's allocated funds may be reserved for its use. Of this 20 percent in reserved funds, the monies must be used for three purposes in the following maximum allowances: 65 percent for professional in-service and pre-service development; 25 percent for technical assistance to local education agencies and schools; and 10 percent for planning, administration, and reporting.

There is no Maintenance of Effort or match requirement for these funds.

Title I, Part C - Education of Migratory Children	84.011	USDOE	N/A	521.5	5,477.1	5,477.1	

The Title I, Part C - Education of Migratory Children grant is a formula grant based on each State's per pupil expenditure for education and counts of eligible migratory children, aged five years through 21 years, residing within the State. The purpose of the grant is to support high quality education programs for migratory children and to help ensure that migratory children who move among the States are not penalized in any manner by disparities among States in curriculum, graduation requirements, or State academic content and student academic achievement standards. Funds also ensure that migratory children not only are provided with appropriate educational services (including supportive services) that address their special needs but also that such children receive full and appropriate opportunities to meet the same challenging State academic content and student academic achievement standards that all children are expected to meet.

States use program funds to identify eligible children and provide education and support services through subcontracts with local agencies. These services include: academic instruction; remedial and compensatory instruction; English language instruction; vocational instruction; career education services; special guidance; counseling and testing services; health services; and preschool services.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

The amount of spending for State administrative costs is capped at one percent of the federal grant.

Title I, Part D - Prevention and Intervention Programs (Neglected and Delinquent)	84.013	USDOE	N/A	0.0	1,780.6	1,785.6	³

The Title 1, Part D - Prevention and Intervention Programs (Neglected and Delinquent) provides formula funds for educating children and youths in state-run institutions for juveniles and children who are enrolled in education programs in adult correctional institutions. The grant supports supplemental instruction in core subject areas such as reading and mathematics, as well as tutoring, counseling, and transition services. The purpose of the grant is to allow these youths to make successful transitions to school or employment once they are released. The child or youth must be 21 years of age or younger, entitled to free public education not above grade 12, and enrolled in a regular program of instruction 20 hours per week at either an eligible institution or community day program or 15 hours per week at an adult correctional institution.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

Title I, Part F - Comprehensive School Reform	84.332	USDOE	N/A	1,391.4	0.0	0.0	^{2, 8}

The Title 1, Part F - Comprehensive School Reform grant is a formula grant awarded to States meeting application requirements set in federal law. The grant monies are distributed to States according to what they received the previous year from a Title 1 distribution formula. The purpose of the grant is to increase student achievement by assisting public schools with implementing comprehensive reforms grounded in scientifically based research and effective practices. Monies are targeted toward high-poverty and low-achieving schools to help them accelerate the pace of their reform efforts. States are required to award the grant monies to local education agencies on a competitive basis. A grant award to a school is renewable for up to two additional years of not less than \$50,000 annually.

The federal monies cannot be used to supplant any other funding source that would otherwise be available to carry out the reform activities. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

Up to five percent of the federal award may be used for State related costs. The five percent includes administrative, evaluation, and technical assistance expenses.

Title I, Part H - School Dropout Administration	84.360	USDOE	N/A	521.7	1,341.0	0.0	
--	---------------	--------------	-----	-------	---------	-----	--

To support effective, sustainable and coordinated dropout prevention and reentry programs in high schools with annual dropout rates that exceed their state average annual dropout rate. Middle schools which have students who continue on to these high schools are also supported.

Grant recipients must implement proven strategies for reducing the number of students who drop out before completing secondary school and for assisting youth to reenter school after they have dropped out. Specifically authorized activities include: professional development; reduction in pupil-teacher ratios; counseling and mentoring for at-risk students; and implementing comprehensive school reform models.

Title II, Part A - Improving Teacher Quality State Grants	84.367	USDOE	N/A	21,333.1	21,604.0	968.2	

The Title II, Part A - Improving Teacher Quality State Grants is a formula grant to help schools and school districts ensure that all teachers are highly qualified to teach and principals and assistant principals are highly qualified to lead. The grant monies can be used for professionally developing teachers and principals to ensure they have the necessary knowledge and skills to prepare all students to meet challenging State academic content and student academic achievement standards. The federal grant monies also can be used to recruit, hire, and retain highly qualified teaching professionals.

There is no match requirement for the federal grant monies. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year. In addition, the federal grant monies are to be used to supplement rather than to supplant State or local funding.

A total of 95 percent of the federal grant funds must be distributed to local education agencies. Of the remaining five percent, 2.5 percent is to be for contacts to local partners to assist in providing professional development activities and technical assistance to local education agencies. The other 2.5 percent is for State costs related to reforming certification and re-certification requirements and creating other mechanisms for developing and retaining highly qualified teachers and principals. This 2.5 percent limit on spending for State costs includes a 1.0 percent cap on the amount that can be spent for planning and administrative activities in implementing provisions of the federal grant.

The partnership portion of this grant is under its own AFIS number. See Title II, Part A - Improving Teacher Quality State Grants - Partnership for more information.

Title II, Part B - Math and Science Partnerships	84.366	USDOE	N/A	0.0	3,378.5	3,378.5	³

The Title II, Part B - Math and Science Partnerships grant is a formula grant to approved applicant States, with the size of individual State awards based on student population and poverty rates. No approved applicant State receives less than one half of one percent of the total appropriation. With these funds, each State is responsible for administering a competitive grant competition, in which grants are made to partnerships to improve teacher knowledge in mathematics and science. The partnerships are primarily between high-need school districts and the science, technology, engineering, and mathematics faculty in institutions of higher education. Partners are expected to develop more rigorous mathematics and science curricula that are aligned with State and local academic achievement standards. The goal is to improve the performance of students in the areas of mathematics and science by encouraging institutions of higher education to improve mathematics and science teacher education. The goal also is to be achieved by bringing mathematics and science teachers together with scientists, mathematicians, and engineers to improve their teaching skills.

There is no Maintenance of Effort or match requirement for the federal grant monies. The federal grant monies are to be used to supplement, not to supplant, funds that would otherwise be used for mathematics and science-related activities that the law authorizes. The bulk of these federal grant monies are distributed to eligible partners. The amount that may be used for administrative purposes is not limited in the federal statute, but the general limit for similar grants is five percent of the grant amount.

Title II, Part C - Transition to Teaching	84.350	USDOE	N/A	22.7	336.9	341.4	

The Title II, Part C - Transition to Teaching grant is for supporting the recruitment and retention of highly qualified mid-career professionals, including qualified paraprofessionals and recent college graduates who have not majored in education, to teach in high-need schools and districts through the development of new or enhanced alternative routes to certification. Five-year grants are provided to State and local education agencies, or for-profit organizations, non-profit organizations, or institutions of higher education collaborating with State or local education agencies. Grantees develop and implement comprehensive approaches to train, place, and support teacher candidates whom they have recruited into their programs, which must meet relevant State certification or licensing requirements. Grantees then ensure that program participants are placed to teach in high-need schools and districts and that the candidates get the support they need to serve in these placements for at least three years.

The federal grant monies must be used to supplement, and not to supplant, State and local public funds expended for teacher recruitment and retention programs, including programs to recruit teachers through alternative routes to certification. There is no Maintenance of Effort or match requirement for these grant funds.

Title II, Part C - Transition to Teaching	84.350	USDOE	N/A	22.7	336.9	341.4	

The Title II, Part C - Transition to Teaching grant is for supporting the recruitment and retention of highly qualified mid-career professionals, including qualified paraprofessionals and recent college graduates who have not majored in education, to teach in high-need schools and districts through the development of new or enhanced alternative routes to certification. Five-year grants are provided to State and local education agencies, or for-profit organizations, non-profit organizations, or institutions of higher education collaborating with State or local education agencies. Grantees develop and implement comprehensive approaches to train, place, and support teacher candidates whom they have recruited into their programs, which must meet relevant State certification or licensing requirements. Grantees then ensure that program participants are placed to teach in high-need schools and districts and that the candidates get the support they need to serve in these placements for at least three years.

The federal grant monies must be used to supplement, and not to supplant, State and local public funds expended for teacher recruitment and retention programs, including programs to recruit teachers through alternative routes to certification. There is no Maintenance of Effort or match requirement for these grant funds.

Title II, Part C - Troops-to-Teachers	84.815	USDOE	N/A	268.1	0.0	0.0	

The Title II, Part C - Troops-to-Teachers grant is for State personnel costs related to recruiting eligible members of the Armed Forces to become recipients of monies allocated from the federal grant for educational support. The Secretary of Education transfers funds to the Department of Defense for the Defense Activity for Non-Traditional Education Support to provide assistance, including stipends of up to \$5,000, to eligible members of the armed forces so that they can obtain certification or licensing as elementary school teachers, secondary school teachers, or vocational/technical teachers and become highly qualified teachers by demonstrating competency in each of the subjects they teach. The States also receive monies for helping these individuals find employment in high-need local education agencies or charter schools.

There are no match or Maintenance of Effort requirements for these federal monies.

Title II, Part D - Enhancing Education Through Technology	84.318	USDOE	N/A	0.0	5,346.0	5,351.0	³

The Title II, Part D - Enhancing Education through Technology grant is a formula grant allocated to a State based on its current year proportionate share of funding under Part A of Title I. The grant monies are for improving student achievement through the use of technology in elementary and secondary schools. The goal is to help all students become technologically literate by the end of the eighth grade and, through the integration of technology with both teacher training and curriculum development, establish research-based instructional methods that can be widely implemented.

Local activities include the support of continuing, sustained professional development programs and public-private partnerships. Activities also include the use of new or existing technologies to improve academic achievement, the acquisition of curricula that integrate technology and are designed to meet challenging State academic standards, the use of technology to increase parent involvement in schools, and the use of technology to collect, manage, and analyze data to enhance teaching and school improvement.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

States may retain up to 5 percent of their federal grant allocations for State-level activities. The 95 percent that remains must be distributed for local activities. Of the 95 percent, one-half is to be distributed by formula to eligible local education agencies and the other one-half is to be distributed competitively to eligible local entities.

Title III, Part A - English Language Acquisition State Grants	84.365	USDOE	N/A	3,167.9	13,334.4	0.1	²

The Title III, Part A - English Language Acquisition grant is a formula grant that takes into account the number of immigrant and limited English proficient (LEP) students in each State. The goal is to improve the education of limited LEP children and youths by helping them to learn English. States must develop annual measurable achievement OBJECTIVES - for LEP students that measure their success in achieving English language proficiency and in meeting the same challenging State academic content and achievement standards set for other students.

Schools use the grant funds to implement and reform language instruction educational programs designed to help immigrant and LEP students achieve these standards. The approaches and methodologies used in these enhanced instructional opportunities must rely on scientifically based research.

The grant monies are to be used to supplement rather than supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

The State is allowed to set aside five percent of the federal grant funds for State-level activities. The allowable activities include professional development activities that assist personnel in meeting State and local certification and licensing requirements for teaching LEP students. The five percent also includes State planning and administration costs related to overseeing the federal grant funds and technical assistance provided to local area agencies receiving the grant funds. At least 40 percent of the 5 percent allowed for administration must be used for professional development or technical assistance activities.

Title IV, Part A, Subpart 1 - Safe and Drug Free Schools and Communities	84.186	USDOE	N/A	3,457.0	5.0	0.0	

The Title IV, Part A, Subpart 1 - Safe and Drug-Free Schools and Communities grant is a formula grant based the State's prior year share of Title I funds (60 percent) and enrollment (40 percent). The grant monies are used for a variety of drug and violence prevention activities focused primarily on school-age youths. States are required to distribute 93 percent of funds to local education agencies for drug and violence prevention activities authorized under the federal statute. These activities include developing instructional materials; providing counseling services and professional development programs for school personnel; implementing community service projects and conflict resolution, peer mediation, mentoring and character education programs; establishing safe zones of passage for students to and from school; acquiring and installing metal detectors; and hiring security personnel.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

States may reserve not more than five percent of their total allocation for State-level activities authorized under the federal law. States also may reserve not more than three percent of their total allocation for administrative costs.

Title IV, Part B - 21st Century Community Learning Centers	84.287	USDOE	N/A	211.0	0.0	0.0	⁸

The Title IV, Part B - 21st Century Community Learning Centers grant is a formula grant based on the proportion of each State's share of funds in the previous fiscal year under Part A of Title I of the Elementary and Secondary Education Act. The monies are used to support the creation of community learning centers which provide academic enrichment opportunities to students and their families during non-school hours (before or after school) or periods when school is not in session (including holidays, weekends or summer recess). The community learning center assists students in meeting State and local academic achievement standards in core academic subjects, such as reading and mathematics, by providing the students with opportunities for academic enrichment. The Centers also provide students with a broad array of other activities - such as drug and violence prevention, counseling, art, music, recreation, technology, and character education programs. Community learning centers also must serve the families of participating students, e.g., through family literacy programs.

The grant monies are to be used to supplement rather than supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

Up to five percent of a State's 21st Century federal grant allocation may be reserved by the State for the administrative and support responsibilities associated with implementing the grant program. Of the five percent, no more than two percent can be used for the administrative costs of carrying out the responsibilities under federal law, including establishing and implementing a peer review process for grant applications from local entities. The remaining three percent can be used for technical assistance to eligible and participating grantees.

			Available	Received	Est. Rev.	Est. Rev.	
Title V, Part A - Innovative Programs	84.298	USDOE	N/A	0.0	2,210.9	2,315.9	³

The Title V, Part A - Innovative Programs is a formula grant based on the school-age population of each State. The grant monies are for 27 innovative assistance programs, including instructional and educational materials; technology; school improvement; school and education reform; and the education needs of at-risk and high-cost students.

The goal is to improve the quality of education for all students by supporting and implementing educational reform and school improvement initiatives that rely on scientifically based research. To achieve this goal, the grant monies can be used in a wide variety of ways. Some examples are: (1) Programs to recruit, train, and hire additional teachers so there will be more highly qualified teachers to reduce class size. (2) Professional development activities that give teachers, principals, and administrators the knowledge and skills to provide students with the opportunity to meet challenging academic content standards and student academic achievement standards. (3) Technology activities related to implementing school-based reform efforts, including professional development to assist teachers and other school personnel regarding how to use technology effectively in the classrooms. (4) Programs to improve the academic achievement of educationally disadvantaged elementary school and secondary school students, including activities to prevent students from dropping out of school. (5) Programs to improve the literacy skills of adults, especially the parents of children served by the local education agency, including adult education and family literacy programs. (6) Programs to provide for the educational needs of gifted and talented children. (7) Programs for cardiopulmonary resuscitation (CPR) training in schools. (8) Activities to promote, implement, or expand public school choice. (9) Programs to hire and support school nurses. (10) Initiatives to generate, maintain, and strengthen parental and community involvement. (11) School safety programs, including programs to implement the policy described in federal law and which may include payment of reasonable transportation costs and tuition costs for such students.

Funded programs must be: (1) tied to promoting challenging academic achievement standards; (2) used to improve student academic achievement; and (3) part of an overall education reform strategy.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior

Title VI, Part A Subpart 1 - Grants for State Assessments	84.369	USDOE	N/A	0.0	2,055.2	4,614.3	³
The Title VI, Part A Subpart I - Grants for State Assessments is a formula grant based on student population counts and \$3.0 million in base funding to each State. The grant monies are for paying the costs of developing or subsequently implementing standards-based State academic assessments in reading or language arts, mathematics, and science as required under federal law. When the State has met all assessment requirements, the funds may be used to administer and continually refine and develop better State assessments and standards, including using monies for professional development activities that align with the State student academic achievement standards and assessments.							

There is no Maintenance of Effort or match requirement for this federal grant.

Title VI, Part B - Rural and Low-Income Schools	84.358	USDOE	N/A	0.0	1,075.9	1,075.9	^{2,3}

The Title VI, Part B - Rural and Low-Income Schools grant is a formula grant based on average daily student population counts. The grant monies are for financial assistance to rural districts to assist them in meeting their State's definition of adequate yearly progress toward improving student academic achievement. The local grant recipients may use the grant monies to conduct the following activities:

1. Teacher recruitment and retention, including the use of signing bonuses and other financial incentives;
2. Teacher professional development, including programs that train teachers to use technology to improve teaching and that train teachers of students with special needs;
3. Support for educational technology, including software and hardware, that meets the requirements of the federal Title II, Part D law for technology funding;
4. Parental involvement activities;
5. Activities authorized under the Safe and Drug-Free Schools and Communities State Grants program;
6. Activities authorized under the federal Title I law for improving educational methods for at-risk students; and
7. Activities authorized under the federal Title III law for language instruction for limited English proficient and immigrant students.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

Spending for administrative costs is capped at five percent of the federal grant for State expenses and technical assistance to local grant recipients.

Vocational Education - Basic Grants to States	84.048	USDOE	N/A	0.0	7,463.4	8,484.9	^{2,3}
--	---------------	--------------	-----	-----	---------	---------	----------------

The Vocational Education - Basic Grants to States is a formula grant that uses the State's population of different age categories in the prior year to apply statutory established percentages for distributing the funds. This grant supports State leadership activities, administration of the State plan for vocational and technical education, and subgrants to eligible recipients to improve vocational and technical education programs. To be eligible for a subgrant, an eligible recipient must operate a vocational and technical education program that meets certain requirements, including strengthening the academic, vocational, and technical skills of students participating in vocational and technical education programs, achieved by integrating core academic subjects into vocational and technical education programs through a coherent sequence of courses.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is a Maintenance of Effort provision that requires non-federal expenditures meet or exceed prior year expenditures.

A minimum of 85 percent of the funds must be distributed on the basis of statutory formulae to eligible recipients. Of the remaining 15 percent, 10 percent can be used for State leadership activities such as curriculum development activities, professional development, or research activities and five percent can be used for State administration. There must be a \$1 to \$1 match for any federal dollars used for State administration. In addition, a State must fund administrative costs, from nonfederal sources, at the same or higher level each year unless the federal government makes less money available for administrative costs then the State can reduce its portion of administrative cost by the same percentage.

AD 1.1 1740, NEIEN 04	66.608	EPA	N/A	150.5	599.8	599.8	²
Use of the National Environmental Information Exchange Network (NEIEN) to exchange children's health information related to asthma. The OBJECTIVES - of the grant are to 1) Share and exchange hospital admissions and ambient air quality data published as web services with the Arizona Department of Health Service and other partners. 2) Work towards developing a model for predicting adverse impacts on childhood asthma from forecast air quality monitoring data, and 3) Publish asthma health warnings and alerts as web services using our network node to the public including hospitals, emergency rooms and schools.							
AD 1.1 1750, NEIEN 05	66.608	EPA	N/A	52.6	106.3	106.3	^{2, 6}
Use the agency's node to streamline the reporting of Pollution Prevention (P2) data to EPA and other states. This will further strengthen the department's pollution prevention (P2) program. The grant also supports using its network node to exchange National Emissions Inventory (NEI) data with EPA. Both data flows will require significant upgrades to AZURITE. The grant also supports using the node to exchange water quality and GIS data.							
AD 1.1 1820, OECA 05/OECA STAG	66.709	EPA	N/A	1.2	74.8	74.8	²
Assist the Water Quality Division by enhancing the AZURITE module WCET to be in compliance with new federal data reporting requirements. EPA is in the process of converting its legacy database PCS to a modernized system called ICIS. As part of the ICIS transition, ADEQ will be required to report more detailed data. Enhancements will be necessary to ADEQ's internal systems to accommodate these new requirements.							
AD 1.1 1880, NEIEN 06	66.512	EPA	N/A	14.0	146.5	146.5	²
To use the agency's network node to develop a comprehensive Complaints, Feedback and Notification (CFN) system for ADEQ. The CFN tracking system would enable the public to enter complaints or feedback, and enable regulated facilities to enter notifications. This application will allow ADEQ to respond to public feedback and complaints and track notifications more efficiently. Complaints represent an enormous opportunity for the agency to address environmental issues quickly and improve environmental conditions throughout the state. The grant also supports the exchange of GIS data for homeland security and improving how air quality compliance data is exchanged.

AD 1.1 1890, Arizona Environmental Performance Track Program	66.940	EPA	N/A	11.1	207.3	207.3	
Environmental Policy and State Innovation Grant. The Arizona Environmental Performance Track program will work on the development of guidance and templates, focus on agriculture, improve permitting flexibility and reduced reporting incentives within the state program. This project, which will serve as a model, will encourage continual environmental improvement through commitment, partnerships, systematic management, and thoughtful growth.							
AQ 2.1 0041, Air Pollution Control Program	66.001	EPA	N/A	4,110.9	3,447.2	3,447.2	^{6, 13}
To support air quality planning and management programs pursuant to the federal Clean Air Act: 1) State implementation plan development and management; 2) Non attainment area planning; 3) Collection and analysis of ambient air quality data; 4) Permitting of stationary sources of air pollution. The grant does not provide direct support of implementation programs in the State Implementation Plan, such as the Vehicular Inspection Program, Oxygenated Fuels, or Travel Reduction. The funding was awarded based on demographics. Financial assistance is granted to agencies who are required to do transportation conformity under the Clean Air Act and the Federal Highway Administration. These amounts have been consistent for the past 10 years.							
AQ 2.1 0950, PM 2.5 Monitoring Network	66.034	EPA	N/A	390.9	311.2	311.2	⁶
To develop and implement a nationwide fine particulate monitoring (PM2.5) network. The funding basis of the award was demographics.							
AQ 2.1 1580, CAA Special Purpose Activities - Air Toxics Trends	66.034	EPA	N/A	5.5	24.4	24.4	²
To characterize air toxics data and determine the ambient concentrations of air toxic compounds at the Phoenix Super Site location. The funding basis of the award was demographics.

AQ 2.1 1660, CAA Special Purpose Activities - Joint Air Toxics Assessment Project (JTAP)	66.034	EPA	N/A	80.0	0.0	0.0	^{2, 8}
<p>The Phoenix JTAP is a collaborative effort involving federal, tribal, state and county environmental agencies working to address the threat posed by hazardous air pollutants in the greater Phoenix metropolitan area. Phase I of the project (completed in August, 2003) involved convening a working group of agency representatives, reviewing all existing data, conducting an air toxics monitoring pilot project and planning a comprehensive assessment of hazardous air pollutants in Phoenix. The JTAP working group is now initiating Phase II of the project that will be focused on carrying out the comprehensive assessment and searching for effective emission reduction strategies. JTAP has received EPA funding to support one year of intensive monitoring at seven sites in Maricopa and Pinal counties, including one site in the Salt River Pima-Maricopa Indian Community. Funding basis was based on a competitive application.</p>							
WP 3.1 0070, Hazardous Waste Management Program	66.801	EPA	N/A	1,549.2	1,720.3	1,720.3	
<p>Funding is provided by EPA to ADEQ for delegation of the federal hazardous waste program. Funding levels are determined by the size of the regulated universe in Arizona as compared to other EPA Region IX states which also receive funding. The grant funds are used to support permitting, inspections and compliance, data management, and waste minimization efforts for Arizona hazardous waste generators.</p>							
WP 3.1 1650, Pollution Prevention Grant - Green Schools	66.708	EPA	N/A	56.9	0.0	0.0	^{6, 8}
<p>Funding for specific ADEQ Pollution Prevention Program projects. This grant is competed for within EPA Region IX and awards are based on potential benefits of the project. ADEQ's current grant is being used to promote a Green School program in Arizona; to implement a High Performance School campaign; to assist with individual school project implementation; to provide a template for documentation of toxic use reduction, material and energy conservation; cost savings and publishing data; and case studies on the ADEQ Web site.</p>

WP 3.1 1910, Mitigation and Cleanup Strategy of Solid Waste from Undocumented Migration	66.931	Border Environment Corporation Commission	N/A	0.0	100.0	100.0	³
This Technical Assistance grant will allow the creation of a stakeholders group to inventory border cleanup resources and to help develop a border-wide cleanup strategy for solid waste generated from the movement of undocumented migrants. Border Environment Corporation Commission (BECC) agreement identifying numbers: TAA06-021. PID: 20004. Border 2012. Region 9.							
WP 3.3 0111, Leaking Underground Storage Tank Program	66.805	EPA	N/A	1,133.4	1,125.0	1,125.0	^{6, 13}
To assist the Department in the oversight of the investigation and clean-up of LUST sites performed by the responsible party pursuant to A.R.S. 49-1005; to assist in performing the investigation and clean-up of "orphan" LUST sites by the State Lead Program pursuant to A.R.S. 49-1017 and for the administration of the UST Corrective Action Section.							
WP 3.3 0191, Underground Storage Program	66.804	EPA	N/A	288.1	544.8	544.8	^{6, 13}
Partial funding of ADEQ's UST inspection and compliance program, focused primarily toward personnel conducting UST operational inspections and compliance; installation and closure inspections; UST notification; and financial responsibility compliance. Basis of the funding: A cooperative agreement with EPA to implement the federal UST Program in Arizona to ensure that all regulated USTs meet requirements and standards designed to prevent releases and to detect releases early when they occur.							
WP 3.4 0100, PASI Superfund Consolidated Cooperative Agreement	66.802	EPA	N/A	133.9	46.2	46.2	
The PASI Grant is a part of the ADEQ/EPA Superfund Consolidated Cooperative Agreement. The grant is for the Site Assessment Unit to conduct Preliminary Assessments and Site Investigations, as tasked by EPA Region IX, to identify and determine if sites in Arizona should be listed on the National Priorities List.							
WP 3.4 0161, Superfund Core Program	66.802	EPA	N/A	1.4	0.0	0.0	^{2, 8}
This grant is based on work plans that were negotiated by EPA and ADEQ. Its purpose is to provide funding for the superfund programs' non-site specific activities that are necessary to support the site-specific statewide superfund program activities.

WP 3.4 0240, MSCA Superfund Consolidated Cooperative Agreement	66.802	EPA	N/A	233.9	360.8	360.8	⁶
<p>This grant is based on site specific workplans that were negotiated by EPA and ADEQ. Its purpose is to provide U.S. EPA with hydrologic and project management support for the six National Priorities List (NPL) sites throughout Arizona. The NPL sites include Tucson International Airport Area (TIAA), Apache Nitrogen Products in Tucson, Phoenix Goodyear Airport North, South Indian Bend Wash, Motorola 52nd Street and Hassayampa sites. Use of MSCA funds for activities outside the scope of the negotiated workplans must have prior approval from EPA. This grant provides pass through funds to the Pima County Department of Environmental Quality for private well sampling related to TIAA. Pima County Department of Environmental Quality conducted the original well survey and sampling. They are the most appropriate entity to continue the sampling effort because of their knowledge and experience with these wells.</p>							
WP 3.4 0302, Defense Environ. Restoration Pgm (DOD)	12.113	DOD	N/A	432.8	627.9	627.9	
<p>This grant is based on workplans that were negotiated by the Department of Defense and ADEQ. Its purpose is to provide oversight of environmental restoration activities at fourteen military installations throughout Arizona. The Phoenix office oversees activities at Camp Navajo, Williams Air Force Base, Yuma Proving Ground, Yuma Marine Corps Air Station, Luke Air Force Base, Davis Monthan Air Force Base, 161st Air National Guard, Barry Goldwater Range, Gila Bend Auxiliary Field, Papago Military Reservation, Fort Huachuca, and the Formerly Used Defense Sites (FUDs) sites. The Tucson office oversees activities at Air Force Plant 44 and 162nd Air National Guard. Use of funds for activities outside the scope of the negotiated workplans must have prior approval from the Department of Defense.</p>							
WP 3.4 1520, State and Tribal Response Program	66.817	EPA	N/A	1,093.8	879.7	879.7	⁶
<p>The purpose of this funding is to enhance and expand the Voluntary Remediation Program and to develop the Brownfields Assistance Program. Funds can not be used for administration (including personnel time) for the Brownfields Revolving Loan Fund. Funds to be used for site specific targeted Brownfields assessments are secondary to the primary administrative purpose. Time charged to this grant can not be billed to VRP applicants for site specific activities. This is an on-going grant from EPA, and funds are distributed nationally to both states and tribes based on EPA criteria. None of these funds are distributed to other governmental entities.</p>

			Available	Received	Est. Rev.	Est. Rev.	
WP 3.4 1850, West Cap Grant	66.802	EPA	N/A	13.9	0.0	0.0	⁸
ADEQ entered into a State Superfund Contract (SSC) that provides an estimate of EPA and ADEQ costs for the projected duration of the long term response action (ten years) at West Cap, which is part of the Tucson Airport NPL site. EPA is providing ADEQ with a grant to cover EPA's ninety percent share of the costs. This grant money can be used for activities related to remediation at the site. Grant money will be disbursed to ADEQ annually and ADEQ will provide an annual accounting of these funds.							
WQ 4.1 0810, Performance Partnership Grant (CWA 106, 319 NPS, PWSS)	66.605	EPA	N/A	3,931.7	0.0	0.0	^{8, 13}
To merge Safe Drinking Water, Groundwater, Surface Water and Non Point Source Grants. Funds to be used to promote inspection, permits, enforcement and elimination of water pollution. Implementing a state public water system supervision program and Non Point Source program. Fund will be used to carry out the OBJECTIVES - of the surface water protection programs, nonpoint source pollution control program, and the public water supply supervision program.							
WQ 4.1 0811, Performance Partnership Grant	66.605	EPA	N/A	0.0	5,452.7	5,452.7	³
To merge Safe Drinking Water, Groundwater, Surface Water and Non Point Source Grants. Funds to be used to promote inspection, permits, enforcement and elimination of water pollution. Implementing a state public water system supervision program and Non Point Source program. Fund will be used to carry out the objectives of the surface water protection programs, nonpoint source pollution control program, and the public water supply supervision program.							
WQ 4.2 1330, Nonpoint Source Management Program - Projects XII	66.460	EPA	N/A	75.7	0.0	0.0	^{2, 6, 8}
These funds will be used to support restoration and/or protection of water quality non-point source projects throughout the state. Other government entities may receive a portion of these funds based on expertise needed, competitive price and timely delivery of services. ADEQ is the only designated agency responsible for implementing these federal programs.

Avian Influenza Surveillance	10.025	APHIS	N/A	32.5	50.0	0.0	⁶
Funding proposals submitted by AGFD biologists and selected by USDA APHIS to provide surveillance.							
Bald Eagle Monitoring	20.205	FHWA	N/A	4.0	0.0	0.0	^{2, 8}
Bald Eagle monitoring on Apache Sitgreaves National forest							
Bald Eagle Nestwatch Program	12.800	USAF	N/A	40.0	0.0	0.0	^{2, 6}
Grant proposals written by AGFD biologists are selected by the USAF to protect, administer, manage and conserve the resources of Luke Air Force Range and Davis-Monthan Range.							
Task Orders obtained by AGFD biologists writing proposals for acceptance by the Bureau of Land Management. These projects are to manage wildlife resources on public lands under the control and jurisdiction of the Bureau of Land Management.							
Funding proposals submitted by AGFD biologists and selected by USFS to provide programs for the conservation and management of wildlife resources in the state of Arizona national forests.							
Bald Eagle Surveys	15.BBT	BR	N/A	27.9	52.2	0.0	^{2, 6}
Grants awarded based on competitive applications for projects submitted to the Bureau of Reclamation by AGFD biologists. They provide programs for wildlife surveys, environmental impact studies, and habitat mitigation projects.							
Bark Beetle	10.652	USFS	N/A	8.5	0.0	0.0	^{2, 6, 8}
Funding proposals submitted by AGFD biologists and selected by USFS to provide programs for the conservation and management of wildlife resources in the state of Arizona national forests.							
Bat Survey Cabeza Prieta Abandoned Mines	15.611	USFWS	N/A	1.6	1.2	0.0	^{2, 6}
AGFD grants proposals are submitted and selected by FWS to provide programs for wildlife surveys, environmental impact studies, and habitat mitigation projects.							
Bighorn Sheep at Hoover Dam	20.205	FHWA	N/A	43.8	0.0	0.0	^{2, 6, 8}
Radio telemetry showing bighorn sheep movement and population dynamics in and around the Hoover Dam Bypass Project area.

			Available	Received	Est. Rev.	Est. Rev.	
Black Bear WUI Monitoring Project	10.652	USFS	N/A	42.7	4.8	0.0	^{2, 6}
Funding proposals submitted by AGFD biologists and selected by USFS to provide programs for the conservation and management of wildlife resources in the state of Arizona national forests.							
Boating Infrastructure Grant (BIG)	15.622	USFWS	N/A	7.0	193.0	0.0	
Construct facilities for recreational boaters							
CAP Funds Transfer Program	15.615	FWS	N/A	32.3	250.0	145.3	⁶
AGFD grants proposals are submitted and selected by FWS to provide programs for wildlife surveys, environmental impact studies, and habitat mitigation projects.							
Captive Breeding for Sonoran Pronghorn @ Barry M Goldwater Range	12.300	NAVY	N/A	0.0	22.6	23.3	^{4, 6, 11}
Grant proposals submitted and analyzed by the Navy. Projects are awarded to determine Sonoran Pronghorn productivity and recruitment.							
Chiricahua Leopard Frog Tank Improvement	10.652	USFS	N/A	5.2	0.0	0.0	^{6, 8}
Funding proposals submitted by AGFD biologists and selected by USFS to provide programs for the conservation and management of wildlife resources in the state of Arizona national forests.							
Chula Vista Channel/Nogales Wash	15.608	FWS	N/A	34.7	0.0	0.0	⁶
AGFD grants proposals are submitted and selected by FWS to provide programs for wildlife surveys, environmental impact studies, and habitat mitigation projects.							
Cibola Wildlife Water Developments	12.110	YPG	N/A	0.0	0.0	0.0	^{4, 6, 8}
Cienega Creek Gila Chub Population	15.DAK	BLM	N/A	0.7	0.0	0.0	^{6, 7}
Task Orders obtained by AGFD biologists writing proposals for acceptance by the Bureau of Land Management. These projects are to manage wildlife resources on public lands under the control and jurisdiction of the Bureau of Land Management.							
Clean Vessel Act Program	15.616	USFWS	N/A	54.8	151.5	0.0	²
Construction and/or renovation of sewage pumpout and dump stations for recreational boats and to develop educational programs. Awarded through a competitive application process.

Coal Mine Springs Acquisition	15.615	USFWS	N/A	0.0	750.0	750.0	^{2, 3}
Acquisition of land to secure long term protection of endangered and threatened species. Awarded through a competitive application process.							
Conservation of W/L Camp Navajo	12.110	AZNG	N/A	183.6	232.0	0.0	^{1, 2, 8}
Funding proposals submitted by AGFD biologists and selected by AZNG to provide programs for the conservation and management of wildlife resources in the state of Arizona training areas.							
Cooperative Planning Liaison	15.DAK	BLM	N/A	28.3	30.0	0.0	^{2, 6}
Task Orders obtained by AGFD biologists writing proposals for acceptance by the Bureau of Land Management. These projects are to manage wildlife resources on public lands under the control and jurisdiction of the Bureau of Land Management.							
CWD Surveillance and Management Programs	10.025	APHIS	N/A	105.5	75.0	0.0	²
Conducting surveys to provide information to APHIS regarding Chronic Wasting Disease surveillance and management programs.							
Desert Bighorn Sheep Survey on the Organ Pipe National Monument	15.AAM	NPS	N/A	0.0	7.5	0.0	^{4, 6, 8, 11}
Grants awarded based on competitive applications for projects submitted to the National Parks Service by AGFD biologists. They provide programs for wildlife surveys, environmental impact studies, and habitat mitigation projects.							
Distribution and Prevalence of Parasites of Fish in the Colorado River	15.808	USGS	N/A	25.0	14.5	0.0	^{2, 6}
Projects to monitor the various fish populations of the Colorado and Little Colorado Rivers within Grand Canyon.							
DJ Grant FW100-P	15.605	USFWS	N/A	0.0	7,007.0	9,325.9	³
A Sportfish Restoration Act grant for management of fishery resources, conservation and restoration.							
Grant schedule includes a transfer line for matching fund transfers (reference Title 17-406.C related to matching money for funds received from the Federal Government)

Funding proposals submitted by AGFD biologists and selected by USFS to provide programs for the conservation and management of wildlife resources in the state of Arizona national forests.							
Dynamics of Humpback Chub Colorado River	15.808	USGS	N/A	101.7	0.0	0.0	^{2, 6, 8}
Projects to monitor the various fish populations of the Colorado and Little Colorado Rivers within Grand Canyon.							
Endangered Species E-33 - Section 6	15.615	USFWS	N/A	112.8	69.1	0.0	⁶
Management of the Mexican Wolf program							
Endangered Species E-5 - Section 6	15.615	USFWS	N/A	249.7	284.6	284.6	
Identify and manage listed endangered species of wildlife in Arizona. Funding awarded based on competitive applications.							
F-14-R Statewide Fisheries Research	15.605	USFWS	N/A	478.4	0.0	0.0	⁸
Conduct statewide investigations to develop or enhance fisheries management options. Funding awarded based on demographics and number of licensed anglers.							
F-19-D Boating Access Facilities	15.605	USFWS	N/A	1,125.0	1,210.6	1,438.2	⁶
Provide improvements for boating access to public use waterways. Funding awarded based on demographics and number of licensed anglers and hunters.							
F-20-E Aquatic Resources Education	15.605	USFWS	N/A	333.2	0.0	0.0	^{6, 8}
Provide information and educational services to promote a better understanding of the state's aquatic resources. Funding awarded based on demographics and number of licensed anglers.							
F-21-T Cooperative Interstate Fish Management	15.605	USFWS	N/A	2.7	0.0	0.0	^{2, 8}
Coordinate fisheries activities in the Colorado River basin with state and federal agencies. Funding awarded based on demographics and number of licensed anglers.

			Available	Received	Est. Rev.	Est. Rev.	
F-22-M Hatcheries Operation and Maintenance	15.605	USFWS	N/A	2,222.3	0.0	0.0	⁸
Supervise, administer, and operate department hatcheries to support federal aid sponsored fish management activities. Funding awarded based on demographics and number of licensed anglers.							
F-23-D Urban Fishing Program	15.605	USFWS	N/A	415.0	0.0	0.0	^{2, 8}
Cooperative program with Municipalities to regularly stock fish for angling. Funding awarded based on demographics and number of licensed anglers.							
F-7-M Statewide Fisheries	15.605	USFWS	N/A	2,240.1	0.0	0.0	^{6, 8}
Provide recommendations for Arizona's fisheries management program through various field surveys, creel census. Funding awarded based on demographics and number of licensed anglers.							
Farm Bill 2002 Programs	10.912	NRCS	N/A	14.9	0.0	0.0	^{2, 8}
Proposals are submitted by AGFD biologists on a competitive basis. Once awarded, they function to assist landowners in developing upland wildlife, wetland wildlife, threatened and endangered species, fish and other types of wildlife habitat.							
Flat Tailed Horn Lizard Relocation Study at the Marine Corps Station Yuma Arizona	12.300	NAVY	N/A	0.0	20.7	0.0	^{4, 6, 8, 11}
Grant proposals submitted and analyzed by the Navy. Projects are awarded to determine Sonoran Pronghorn productivity and recruitment.							
Flat Tailed Horn Lizard Study	15.BBT	BR	N/A	29.9	40.0	0.0	^{2, 6}
Grants awarded based on competitive applications for projects submitted to the Bureau of Reclamation by AGFD biologists. They provide programs for wildlife surveys, environmental impact studies, and habitat mitigation projects.							
Flat Tailed Horned Lizard Study	15.BCD	BR	N/A	14.5	0.0	0.0	^{2, 6, 7}
Grants awarded based on competitive applications for projects submitted to the Bureau of Reclamation by AGFD biologists. They provide programs for wildlife surveys, environmental impact studies, and habitat mitigation projects.

			Available	Received	Est. Rev.	Est. Rev.	
Data Base Management - USGS	00.000	USGS	N/A	44.0	46.3	46.3	^{6, 10}
The USGS, under an IPA Personnel Mobility Program, funds .5 FTE of one AZGS scientist to work on creating the National Geologic Map Database. A spinoff is that this allows AZGS to implement the latest technologies in providing digital information to our customers which we could not do otherwise. It has helped propel AZGS into a national leadership role in digital technologies in the Earth Sciences, which is attracting additional resources to Arizona.							
Data Preservation Program	15.808	USGS	N/A	0.0	5.0	0.0	³
Geoscience data and collections constitute a great variety of information and materials. These include collections of physical earth (seismic data, chemical data, well log data); and conventional library collections (books, journals, maps, charts).							
This new program provides an unprecedented opportunity to inventory, archive, and preserve geoscience data and collections gathered by the survey over the years. These data are irreplaceable, critical to the future understanding of our Nation's resources and environment. As the fastest growing state in the nation and the number one mineral producing state, Arizona needs these data to effectively respond to the demands being placed on our natural environment.							
National Park Service Surficial Geologic Mapping in Organ Pipe National Monument, Southern Arizona	00-000	National Park Service	N/A	0.0	99.7	0.0	³
NPS DO 77 and the NPS Strategic Plan prescribe a digital geologic map as one of the essential data sets for parks. To meet this goal the Natural Resources Program Center has undertaken a Geologic Resource Inventory of 270 natural area parks. Organ Pipe National Monument (ORPI) is identified as one of those parks. The Geologic Resources Division administers the inventory program and is charged with providing each park with 1) an evaluation of park geologic resources and issues, 2) an assessment of geologic map coverage and production of digital products, and 3) a compilation of a geologic report with basic geologic information, hazards and issues, and existing data and research relating to the park. As part of an on-going effort to produce geologic map coverage for the state of Arizona, AZGS has been mapping selected areas in the state as funds become available. This Arizona project is made possible through the funding support from NPS.

Post Wildfire Debris Flow Assessment	97-039	DEMA / FEMA	N/A	0.0	25.0	0.0	4, 6, 11

Hazard Mitigation Grant:

The Arizona Geological Survey will analyze post fire debris flow and propose appropriate mitigation measures. Specifically, Pine and Strawberry, Arizona, are wildland urban interface communities located within unincorporated Gila County. These two communities have been identified as high risk for a threat of fire and post-fire flooding and sedimentation. AZGS will assist in addressing the issue of flooding resulting after a wildland fire and provide research necessary for Gila County to implement its Multi-Hazard Mitigation Plan.

StateMap (A component of the National Cooperative Geologic Mapping Program)	15.810	USGS	N/A	185.5	215.7	215.7	
To do original geologic mapping of Arizona at a scale of 1:24,000. Priorities for areas to be mapped are set by a State Mapping Advisory Committee of Arizonans from state agencies and industry, appointed by the State Geologist. Federal funds are provided to carry out state priorities. AZGS has historically been among the top five states in the size of these highly competitive funding awards.

Abstinence Education Program	93.235	DHHS/HRSA	N/A	1,243.1	1,150.9	1,150.9	⁶

The Abstinence Education Program Grant provides abstinence education services to children ages 12 to 19 years (male and female), parents, and adults. Funds are awarded to local community-based organizations in Arizona through a competitive process. The grant currently provides services in five of the fifteen counties in Arizona through seven contracts with community-based agencies, a local health department, and a private counseling office. The purpose of the project is to reduce the rates of out of wedlock pregnancies, births, and Sexually Transmitted Disease (STD). The purpose also is to delay the age of first sexual intercourse through the delivery of an educational program, which stresses abstinence until marriage.

The objective is to implement a program education component, a technical assistance component, and a program monitoring and quality improvement plan component. The grant requires reports for meeting the following national performance measures/goals: (1) Lower the pregnancy rate among teenagers, especially those age 15 to 17 years old; (2) Reduce the proportion of adolescents 17 years of age and younger who have engaged in sexual intercourse; (3) Reduce the incidence of STDs among adolescents; and (4) Lower the birth rate among teenagers, especially those age 15 to 17 years.

This grant is provided through Title V, Section 510 (b) of the Social Security Act using a population-based formula. This formula grant state allocation is based upon the 2000 Census data for children in poverty. There is a required match of \$3 State for \$4 of Federal grant funds. The non-Federal match must be used solely for the activities enumerated under Section 510 and may be State dollars, local dollars, private or Foundation dollars, or in-kind support. The match was provided from State tobacco tax and tobacco settlement funds in previous years. Beginning July 1, 2004, the match requirement was passed through to the contractors on a dollar for dollar basis from in-kind or cash contributions.

There is no Maintenance of Effort requirement for this grant. The Federal funds cannot be used to supplant and must be used for the provision of services consistent with PL 104-193.

This is the same grant that was previously under AFIS Grant Number 098023.

Adult Blood Lead Epi Surveillance	93.197	DHHS/CDC	N/A	27.1	(0.7)	27.7	²

The Adult Blood Lead Epidemiology Surveillance Grant serves the adult residents of Arizona that are victims of lead poisoning. The goal is to eliminate adult blood lead poisoning using the following objectives: (1) enhance the disease surveillance system; (2) assure screening of workers who are potentially exposed to lead and follow-up care for workers who are identified with elevated blood lead levels; (3) assure awareness and action among the general public and affected professionals in relation to preventing adult lead poisoning; (4) expand primary prevention of occupational lead poisoning in high-risk areas in collaboration with other government and community-based organizations; and (5) utilize the Arizona Occupation Lead Poisoning Targeted Screening Plan to maximize the effectiveness of the program in areas throughout the State where workers are at greatest risk for lead poisoning.

There are no match or Maintenance of Effort requirements for this grant. The monies cannot be used to supplant other funds used for adult blood lead activities.

Arizona Child and Adolescent State Infrastructure Grant	93.243	DHHS/SAMHSA	N/A	1,032.9	713.5	873.3	
--	---------------	--------------------	-----	---------	-------	-------	--

Under the leadership of the Governor's Office, the Arizona Department of Health Services and Arizona child serving agencies, propose to use grant funds to expand and sustain the activities that are taking place to further improve Arizona's mental health and substance abuse services for children and adolescents. The goal of the grant is to increase the State's capacity of mental and substance abuse services to children and adolescents, and expand early intervention services to the 0-5 child population, youth in transition, and enhance coordination with families. The Governors Office submitted the grant application.

There is no match or Maintenance of Effort requirement for this grant. (This grant was previously listed under the following title: Child and Adolescent Mental Health and Substance Abuse State Infrastructure Grants.)

			Available	Received	Est. Rev.	Est. Rev.	
Arizona State System Development Initiative (SSDI)	93.110	DHHS/HRSA	N/A	64.4	71.4	67.6	⁶

The Arizona State System Development Initiative Grant facilitates the development of an integrated public health information infrastructure for children in the State of Arizona. Through this grant, Arizona improves linkages between systems of early identification and systems of early intervention to help assure that every child with a genetic or congenital condition, developmental disability, or other special health care need is identified and receives appropriate care. Eventually, these improved linkages between public and private health systems will enhance service delivery and ensure coordinated care that is community-based, culturally competent, and comprehensive.

There is no match or Maintenance of Effort requirement for this grant. (This grant was previously listed under the following title: Development of Integrated Systems for Child Health.)

ATSDR - Health Consultations and Assessment	93.240	DHHS/CDC	N/A	241.4	240.0	241.2	
--	---------------	-----------------	-----	-------	-------	-------	--

The Agency for Toxic Substances and Disease Registry (ATSDR) - Health Consultations and Assessment cooperative agreement is used to conduct environmental health consultations and risk assessments for the communities that are exposed to environmental hazards. Exposure investigations are conducted throughout Arizona at Superfund sites when initiated by requests or complaints. The grant monies are used to conduct site-specific health assessments and health consultations in an effort to identify possible environmental public health hazards; develop health education programs for communities located near Superfund sites; initiate site-specific community involvement activities; and address specific concerns of individuals who live near Superfund sites.

Application for the grant must be made every year. The funds are made available through a competitive application process every five years and a non-competitive process the other four years of the five-year budget cycle. The amount requested is based upon the grant guidance document and the program's needs assessment, both at the program level and at the local departments' level. The grant award is based on total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant.

There is no match or Maintenance of Effort requirement for the grant funds; however, funding is dependent upon minimum existing infrastructures and performance towards pre-set objectives. The grant does not allow for supplanting of State funds.

AZ American Indian Grant Writing Workshop	00.000	DHHS/OMH	N/A	2.5	2.9	2.7	2, 6, 10
<p>The Arizona American Indian Grant Writing Workshop will increase the knowledge of Arizona Native American health programs in the grant writing process to secure funding resources that will ultimately increase the capacity of their health systems/programs to address their community's health disparities.</p> <p>There is no match or Maintenance of Effort requirement for the grant funds.</p>							
AZ Communities that Received Asbestos	00.000	DHHS/CDC	N/A	0.0	(4.3)	0.0	2, 4, 8, 10, 11
<p>The Arizona Communities that Received Asbestos Grant is for a statistical review of health outcome data from two Arizona communities that received, over the years, numerous tons of vermiculite contaminated with asbestos fibers. The contaminated vermiculite originated from the W.R. Grace mine in Libby, Montana.</p> <p>The purpose of the health statistics review is to establish a standardize procedure for analyzing existing health data of the two communities that were near facilities receiving the contaminated vermiculite. The goal is to provide a way to evaluate whether the facilities caused human exposure and any subsequent health effects using available health information.</p> <p>The grant monies are used to pay for the time needed to review the mortality data for Glendale and Phoenix from 1979 through 1998 and calculate standardized morality ratios by gender and age group for selected cancers. The evidence of adverse health effects may be used to justify new Federal funding for cleaning up the two vermiculite-processing sites in Arizona.</p> <p>There is no established start or end date for this one-time expected grant, which is a through a contract with no assigned CFDA number. There also is no match or Maintenance of Effort requirement for this grant.</p>

BiNational Discussion	00.000	DHHS/OGHA	N/A	0.0	(0.6)	47.7	2, 4, 10, 11

The BiNational Discussion Grant is used to address health problems that plague the U.S.- Mexico border region and pose a national concern to both the U.S. and Mexico. An effective response to achieving improvements in health along the Arizona-Sonora border demands a complex partnership of Federal, State and local agencies working closely together. Those currently involved range from county governments, area health education centers, academic institutions, BiNational health councils, community health centers, and hospitals located along the border region. The grant monies are used to address and respond to the Arizona-Sonora border community concerns by focusing on access to care and increasing physical activity, proper nutrition, and injury prevention.

Funding for BiNational Discussion is subject to the availability of funds. The U.S.- Mexico Border Health Commission agrees to pay the Arizona Department of Health Services for its services rendered, costs, and expense incurred under the grant. Grant funds made available under the BiNational Discussion are provided to Arizona-Sonora border communities, agencies, academic institutions, and non-governmental organizations. These entities have a vested interest in whether this grant is funded, given it enhances their efforts in promoting the importance of health promotion and injury prevention activities with their local constituencies.

There is no match or Maintenance of Effort requirement for this grant.

Bioterrorism Hospital Preparedness Program	93.003	DHHS/HRSA	N/A	10,666.5	10,694.7	10,679.8	⁶
---	---------------	------------------	-----	----------	----------	----------	--------------

The Bioterrorism Hospital Preparedness Grant is utilized to serve Arizona hospitals, medical centers, burn and trauma centers, and community health centers. It also is used to assist Emergency Medical Response teams throughout the State of Arizona. The OBJECTIVES - for the program are to increase bed and isolation capacity sufficiently enough to be prepared for at least 500 persons per 1,000,000 population, over and above the current hospital and health center capacities. In addition, the program plans to increase redundant communications and training in the use of personal protection equipment.

The grant money is received by formula distribution based on population and passed on to the hospitals and medical facilities based on a combination of need and emergency room proportions. Use of the grant monies for administrative cost is capped at 20 percent. There are no match or Maintenance of Effort requirements for these grant funds.

Child Fatality Review Program	93.669	DHHS/DES	N/A	0.0	8.0	0.0	^{2, 6}

The Child Fatality Review is funding received through the Arizona Department of Economic Security for reducing preventable child fatalities through systematic, multi-disciplinary, multi-agency, and multi-modality review of child fatalities in Arizona. The program utilizes locally developed multi-disciplinary teams throughout the State to conduct a detailed confidential review of the circumstances surrounding childhood deaths from birth to 18 years of age. The primary mission of the statewide program is to reduce preventable child fatalities by reviewing child death cases and making data driven recommendations using lessons learned from the reviews.

The funding is received based on a quarterly invoice of expenditures for Child Fatality Review activities. There is no match or Maintenance of Effort requirement for these monies.

All expenditures for this grant are being moved from Fund 2000 to Fund 2500 in FY 2005 and future years.

Childhood Lead Poisoning Prevention and Surveillance	93.197	DHHS/CDC	N/A	97.0	107.5	102.4	⁶

The Arizona Childhood Lead Poisoning Prevention Program is a cooperative agreement to eliminate childhood lead poisoning. The OBJECTIVES - of the grant are to: (1) enhance the disease surveillance system; (2) assure screening of children who are potentially exposed to lead and follow-up care for children who are identified with elevated blood lead levels; (3) assure awareness and action among the general public and affected professionals in relation to preventing childhood lead poisoning; (4) expand primary prevention of childhood lead poisoning in high-risk areas in collaboration with other government and community-based organizations; and (5) utilize the Arizona Childhood Lead Poisoning Targeted Screening Plan to maximize the effectiveness of the program in areas throughout the State where children are at the greatest risk for lead poisoning.

Application for the grant must be done yearly. The funds are made available through a competitive application process every three years and a non-competitive process the other two years of the three-year budget cycle. The amount requested is based upon the grant guidance document and the program's needs assessment, both at the program level and at the local departments' level. The grant does not allow for supplanting of State funds.

The AFIS Grant Number was under 098015, 098090 and 099039.

Children's Oral Healthcare Access Program Grant	93.110	DHHS/HRSA	N/A	84.8	75.4	80.1	²
--	---------------	------------------	-----	------	------	------	--------------

The Children's Oral Healthcare Access Program Grant is used to expand the dental public health capacity in local communities by providing resources in the form of personnel and training for implementing already drafted strategic plans. The outcome OBJECTIVES - are as follows: (1) Increase the number of personnel with education in dental public health from five to at least ten. (2) Improve the infrastructure in at least two Arizona communities by increasing the number of staff able to implement community level interventions.

There is no match or Maintenance of Effort requirement for this grant.

Chronic Disease Prevention and Health Promotion	93.283	DHHS/CDC	N/A	1,473.2	1,124.2	1,279.6	⁶

The Chronic Disease Prevention and Health Promotion Grant consists of four components. Each of the four components is described below:

1. Reducing the Burden of Arthritis and Other Rheumatic Conditions

The Reducing the Burden of Arthritis and Other Rheumatic Conditions component is applicable to all ages, but targeted towards Arizona' aging population and primarily those over 65 years of age. The OBJECTIVES - for this component of the grant include: (1) expanding and strengthening active partnerships among individuals, public and private agencies, community organizations, government at all levels, Native American tribes, and local communities throughout Arizona that are concerned with reducing the impact of arthritis; (2) increasing the public awareness of arthritis in regard to its signs and symptoms, early diagnosis benefits, and practices that contribute to the prevention and the effective self-management of arthritis; (3) increasing health care providers knowledge of arthritis and management techniques to promote the development and the utilization of protocols and practices that contribute to the prevention and the effective management of arthritis; (4) increasing and improving programs, policies, and systems that are relevant to the prevention and the effective management of arthritis; and (5) increasing surveillance to promote the utilization of comprehensive, timely, and accurate data for assessing arthritis needs and developing and evaluating arthritis prevention and intervention programs and approaches.

There are no match or Maintenance of Effort requirement for this component of the grant.

2. Nutrition, Physical Activity, and Obesity Program

The Nutrition, Physical Activity, and Obesity Program component consists of programs that are being developed to serve local communities, worksites, schools, and healthcare communities. The OBJECTIVES - for this component of the grant include: (1) reducing the incidence of obesity and chronic diseases by developing and implementing a comprehensive statewide nutrition and physical activity plan; (2) preventing and controlling diseases related to obesity in Arizona residents by improving, maintaining, and evaluating the nutritional intake and physical activity levels of these residents; and (3) identifying and recruiting internal and external partners to work cooperatively in the development and implementation of the statewide plan for reducing the incidence of obesity and chronic diseases.

There is no match or Maintenance of Effort requirement for this component of the grant.

3. Comprehensive State-Based Tobacco Use Prevention and Control Program

The Comprehensive State-Based Tobacco Use Prevention and Control Program component is for building and maintaining tobacco control programs within State and territorial health departments to reduce the burden that tobacco use places on health and health care costs. These efforts are directed at social and environmental changes to reduce the prevalence and consumption of tobacco by adults and young people among all populations, eliminate exposure to second hand smoke, and identify and eliminate the disparities experienced by population groups relative to tobacco use and its effects.

The goals of this grant works synergistically with the overall goals of the Arizona Tobacco Education and Prevention Program (TEPP), which is to develop effective programs for tobacco use prevention and cessation and to promote tobacco-free environments. This grant funding works to fill in the gaps where TEPP dollars are not being spent, which includes funding for the Coalition for Tobacco Free Arizona (goal is to support and maintain the overall operation of the coalition and support four quarterly coalition meetings), and 2 to 3 TEPP positions (i.e. Rural/Ethnic Outreach Coordinator, American Indian Program Administrator, and a possible Health Educator position).

This component of the grant has a match requirement, which fluctuates each year. The match for last year's award was \$1 State to \$1 Federal Funds. The match for this year's award is \$1 State to \$4 Federal funds. There is no Maintenance of Effort requirement for this component of the grant.

4. Behavioral Risk Factor Surveillance System

The Arizona Behavioral Risk Factor Surveillance System (BRFSS) component is an ongoing telephone survey conducted by the Arizona Department of Health Services, Bureau of Public Health Statistics since 1983. Through a series of monthly telephone interviews, States uniformly collect data on the behaviors and conditions that place adults at risk for chronic diseases, injuries, and preventable infectious diseases that are the leading causes of morbidity and mortality in the United States.

CISS - Early Childhood Comprehensive Systems	93.110	DHHS/HRSA	N/A	122.4	121.1	116.4	2, 6
---	---------------	------------------	-----	-------	-------	-------	------

The Community Integrated Services Systems - Early Childhood Comprehensive Systems Grant is a planning grant that focuses on systems related to early childhood. The goal is to create a Statewide Early Childhood Comprehensive Systems Strategic Plan for Arizona that maximizes resources through improved integration of existing systems and services so that children 0-5 years of age will be healthy and ready to learn when they enter school. The following OBJECTIVES - will be used to attain this goal: (1) Complete an environmental scan that will identify gaps in the system and areas for improved integration and coordination; (2) Determine the vision, mission and values that will guide the plan and comprehensive system; (3) Develop the goals, OBJECTIVES - and outcomes for the comprehensive system; (4) Develop the policy recommendations that will support the implementation of the plan; and (5) Identify a set of indicators that will be used to track progress within the early childhood system.

Funds are received from the Federal Maternal and Child Health Bureau on a non-competitive basis with each State receiving \$100,000 per year for two years. These funds are then provided, through an Inter-agency Service Agreement, to the Governor's Office for Children, Youth, and Families to support the work of the School Readiness Board. There is no match or Maintenance of Effort requirement for this grant.

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
CLIA - Clinical Laboratory Improvement Amendments	93.777	DHHS/HCFA	N/A	215.9	218.4	216.3	⁶

The Clinical Laboratory Improvement Amendment (CLIA) program is a Federal government program that regulates all laboratories that test human specimens for the purpose of providing information for diagnosis, prevention, or treatment of any disease. The grant ensures all clinical laboratories in Arizona continue to comply with the Federal CLIA standards and requirements.

CLIA State Agencies (SA) represent the Centers for Medicare and Medicaid Services (CMS) and serve as the local interface for the clinical laboratories that are located in each State. The SA assists clinical laboratories to meet all applicable regulatory requirements through certification surveys, enforcement actions training, and consultation for correction of deficiencies. Functions include assisting laboratory facilities' in obtaining testing certificates; providing any necessary additional regulatory clarification; overseeing investigations of complaints; performing on site surveys and certification activities; and monitoring proficiency-testing results. Surveyors make presentations to the laboratory community regarding CLIA, respond to the CMS Regional Office on reporting and tracking of laboratory activity information, and write and track laboratory survey reports for regulatory compliance.

Finances for the CLIA Grant are from the payment of user fees assessed by CMS. These monies are collected and allocated by CMS to each SA in the form of a CLIA Grant. There is no match or Maintenance of Effort requirement for the grant funds.

CMS Title 18 Medicare Survey and Certification	93.777	DHHS/CMS	N/A	2,931.8	2,162.9	2,544.6	⁶
---	---------------	-----------------	-----	---------	---------	---------	--------------

The Centers for Medicare and Medicaid (CMS) Title 18 Medicare Survey and Certification Grant is used to survey and evaluate the performance of Non-Long Term Care and Long-Term Care suppliers and providers (except laboratories) for Medicare certification. The objective is a comprehensive system of licensing, monitoring, and technical assistance for home health agencies, hospices, hospitals, ambulatory surgical centers, rural health clinics, end stage renal disease centers, portable x-ray services, outpatient rehabilitation facilities, outpatient physical therapy and/or speech pathology services, and nursing care institutions.

The CMS allocates Medicare funds to each state annually. There is no match or Maintenance of Effort requirement for the grant funds.

CMS Title 19 Medicaid Survey and Certification	93.777	DHHS/CMS	N/A	639.8	641.7	634.7	⁶

The Centers for Medicare and Medicaid Title 19 Medicaid Survey and Certification Grant is used to survey and evaluate the performance of Long-Term Care suppliers and providers for Medicaid certification. The objective is a comprehensive system of licensing, monitoring, and technical assistance for long-term care facilities.

The CMS reimburses Medicaid funds to each state annually, with the provision that States obtain the Medicaid state share of Survey and Certification funds. There is a \$1 State to \$3 Federal match, but no Maintenance of Effort requirement for the grant funds.

Commodity Supplemental Food Program	10.565	USDA	N/A	732.5	812.7	772.5	⁶
--	---------------	-------------	-----	-------	-------	-------	--------------

The Commodity Supplemental Food Program (CSFP) provides United State Department of Agriculture commodities to improve the health and nutritional intake of low income children up to their sixth birthday and low income pregnant, breastfeeding, and postpartum women. Their family income must be 185 percent or less of the Federal Poverty Level. Adults over 60 years of age whose income is at 130 percent or less of the Federal Poverty Level also are eligible for the commodities.

A national funding formula is used for allocating the grant funds. Arizona receives its share based upon its maintenance of an assigned caseload level and the availability of growth funds. As a discretionary nutrition program, CSFP is funded annually and, if the funding is not sufficient to meet the caseload needs, eligible CSFP clients are placed on a waiting list.

Federal regulations are very specific regarding the CSFP grant, its use of administrative funds, and reporting requirements. Regardless of the size of the program, the State agency is restricted to \$30,000 for internal administrative expense. There is no match or Maintenance of Effort requirement.

Community Mental Health Block Grant	93.358	DHHS/SAMHSA	N/A	8,009.2	8,052.9	8,047.1	⁶

The Community Mental Health Block Grant is used to establish or expand an organized community-based system of care for providing non-Title XIX mental health services to children with serious emotional disturbances (SED) and adults with serious mental illness (SMI). States are required to submit an application for each fiscal year the State is seeking funds. These funds are used to: (1) carry out the State plan contained in the application; (2) evaluate programs and services; and (3) conduct planning, administration, and educational activities related to the provision of services. The Block Grant is allocated 90 percent for SED children and 10 percent for SMI adults. These funds are allocated on a per capita basis to the five Regional Behavioral Health Authorities who manage service delivery on behalf of the State of Arizona through contracts with the Department of Health Services. Use of the grant for administration is capped at 5 percent.

There is no match requirement for these federal funds. However, this grant requires Maintenance of Effort (MOE) documenting that the State of Arizona has maintained expenditures for community mental health services. The expenditures cannot be less than the average level of such expenditures maintained by the State of Arizona for the two-year period preceding the fiscal year for which the State is applying for the grant. The last compiled MOE report was in April 2004 and the MOE was \$217,682,589. Funding sources for the MOE were the General Fund, Tobacco Tax monies, IGA/ISA Fund, DHS Donations Fund, and Indirect Cost Fund.

Cooperative Agreement to the AZ Outreach Office	93.018	DHHS/OGHA	N/A	205.1	209.7	207.4	⁶
--	---------------	------------------	-----	-------	-------	-------	--------------

The primary goal of Cooperative Agreement is to work toward strengthening and supporting current binational public health projects and programs along the Arizona-Sonora border which supports the Commission's mission of providing international leadership to optimize health and quality of life along the United States-Mexico border. In collaboration with the Arizona Department of Health Services Office of Border Health, the Secretaria de Salud de Sonora, and the USMBHC Arizona and Sonora Delegation Outreach Offices, this work plan will target activities on the following strategic directions: impacting border health access; impacting border health research or data collection; impacting border health promotion.

There is no match or Maintenance of Effort requirement for the grant funds.

Drug and Alcohol Services Information System	00.000	DHHS/SAMHSA	N/A	71.4	(162.8)	51.2	¹⁰

The Drug and Alcohol Services Information System (DASIS) Grant was developed to comply with Section 505 of the Public Health Service Act (42 USC 290aa-4). This Act requires that the Secretary of Health and Human Services collect annual data on the number and variety of public substance abuse treatment programs and the number of individuals seeking treatment through such programs and their demographic characteristics. The data are available electronically on the Federal government website (samhsa.gov) and are made available in an annual report to Congress on the status of the national system of substance abuse treatment programs.

The Arizona Department of Health Services has participated in this national data collection activity since the late 1980s. In particular, the DASIS system supports the role of the Department as the single State agency recipient of the Substance Abuse Block Grant. Specific measurement of a client's well-being and outcome are a required component of the grant beginning in Federal Fiscal Year 2005. The contract also requires that the Department: (1) process and submit quarterly treatment episode data, including participation in annual technical assistance workshops as scheduled; (2) assist in the annual facility survey through a letter of endorsement process and an update of the facility list on-line; and (3) complete an annual questionnaire detailing how facilities are licensed and funded in Arizona.

Funds provided under a revenue contract with Synectics for Management Decisions, Inc., support administrative needs associated with processing and submitting data to the DASIS system. They also support developing internal expertise in substance abuse data collection and reporting. Funds are paid on a quarterly basis to support data processing staff, data collection, and equipment. There is no match or Maintenance of Effort requirement associated with DASIS.

			Available	Received	Est. Rev.	Est. Rev.	
EHDI - Tracking, Research, Integration	93.283	DHHS/CDC	N/A	(1.0)	(1.0)	(1.0)	²
<p>The Early Hearing Detection and Intervention (EHDI) - Tracking, Research, and Integration cooperative agreement is used to assist Arizona in the development and integration of a data system to adequately document, track, assess, and monitor the EHDI system. The goals are to ensure all newborns are screened and hearing loss is identified; infants and their families are not lost to follow-up; the system meets the needs of infants, families, and providers, as well as State agencies and organizations; and the system changes are institutionalized and the knowledge shared.</p> <p>The grant monies support a limited full-time employee in the Arizona Department of Health Services and are passed-through to the Arizona State Schools for the Deaf and the Blind to develop a data system to monitor interventions provided to deaf infants and children and then track their outcomes. The monies also are used by the Department's Children's Rehabilitative Services to assess their data systems and modify them, as necessary, to allow better tracking of interventions and outcomes for deaf infants and children. Also, the funds help to provide technical assistance to hospitals on data capture, storage, and transmission to the Department.</p> <p>There is no match or Maintenance of Effort requirement for this grant.</p>							
Electronic Death Registration Systems	52.242	SSA	N/A	1.1	(14.7)	0.0	²
<p>This grant provides funding to supplement the Vital Records Information Technology Plan. The Social Security Administration's (SSA) goal is to receive electronic death information from 90% of the states within five years. To accomplish this goal, SSA supports the development of the electronic death registry (EDR) process nationally. The funds are used to incorporate the SSA electronic verification of social security numbers that is not currently included in the Vital Records Technology Plan. In addition, funds are used to market the use of the on-line system to end users such as funeral homes, medical certifiers of cause of death, medical examiners, etc.; print all training materials for the new applications, and to conduct statewide training of end users. The results will be measured by the ability to conduct on-line verifications and by the number of partners who use the electronic death system.</p> <p>There is no match or Maintenance of Effort requirement for this grant.</p>

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
EMSC Partnership Grants II	93.127	DHHS/HRSA	N/A	122.2	120.9	120.9	⁶

The overall goal of Arizona's Emergency Medical Services for Children (EMSC) Partnership Grants II project is to decrease deaths of Arizona's children by improving and expanding pediatric emergency care education systems in Arizona and making sure this pediatric focus is solidified within the Arizona Emergency Medical Services (EMS) and Trauma System. These goals are consistent with the direction of the national EMSC Five-year Plan 2001-2005 and the 2002-2005 Arizona EMS and Trauma System Plan.

The primary focus of this grant project is to increase rural pediatric education opportunities in Arizona. This focus is accomplished through a research study of knowledge acquisition and knowledge retention when the Pediatric Education for Pre-hospital Provider (PEPP) course is delivered in a distance-learning format to rural pre-hospital providers. The grant funds provide for the purchase of training equipment and other pediatric information materials for community education and injury prevention.

There is no match or Maintenance of Effort requirement for this grant. (This is the same grant that was previously under AFIS Grant Number 098061.)

Enumeration at Birth - Social Security	00.000	DHHS/SSA	N/A	251.9	(108.9)	185.4	¹⁰
---	---------------	-----------------	-----	-------	---------	-------	---------------

The Enumeration at Birth program enables parents to apply for social security numbers for newborns through the new birth registration process. The Department of Health Services' Office of Vital Records accumulates the birth registration information received from hospitals and sends an electronic file to the Social Security Administration (SSA) containing the data needed to assign social security numbers for newborns. The SSA processes this data and then sends a card to the child's parents, reducing the number of requests received at the local SSA field offices. The data files of Arizona births are electronically transmitted to the SSA. This service payment funding is calculated at a price per record rate.

There is no match or Maintenance of Effort requirement for the grant funds.

Environmental Public Health Tracking	00.000	New Mexico Department of Health Services	N/A	0.0	(1.0)	(0.5)	2, 4, 10, 11, 12

Twelve states in the western United States have formed a partnership titled the Western Tracking and Biomonitoring Collaborative (WTBC).

The vision is to fully integrate a process that fulfills the common goals of Environmental Public Health Tracking (EPHT) and Biomonitoring (RMBC).

The goal of the WTBC is to conduct a planning and capacity building activity to explore the feasibility of integrating existing EPHT and RMBC programs.

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
Epi and Lab Capacity for Infectious Diseases	93.283	DHHS/CDC	N/A	1,188.5	1,132.3	1,158.4	⁶

The Epidemiology and Laboratory Capacity for Infectious Diseases Cooperative Agreement enhances the public health infrastructure to recognize and promptly address growing threats posed by emerging infectious agents that States were not adequately prepared to handle. The range of activities has expanded from a focus on food borne diseases (surveillance and control) in the first year of the grant to surveillance and response to West Nile Virus (WNV). Activities also include surveillance and control of antimicrobial resistant infections, expansion of the surveillance for influenza, surveillance and prevention of chronic Hepatitis C and Hepatitis B, surveillance of selected diseases along the border with Mexico, and development of a data system to participate in National Electronic Disease Surveillance.

Application for the grant must be made every year. The funds are made available through a competitive application process every five years and a non-competitive process the other four years of the five-year budget cycle. The amount requested is based upon the grant guidance document and the program's needs assessment, both at the program level and at the local departments' level. The grant award is based on total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant.

Funded activities to date have emphasized the State's public health infrastructure with some funds available to agencies that provide unique services not normally rendered by health departments, i.e., animal testing for WNV and public service announcements for WNV prevention. There is no match or Maintenance of Effort requirement for the grant funds; however, funding is dependent upon minimum existing infrastructures and performance towards pre-set objectives. The grant does not allow for supplanting of State funds.

This is the same grant that was previously under AFIS Grant Number 098060.

Family Violence Prevention	93.671	DHHS/ACF	N/A	1,652.9	1,810.9	1,731.9	⁶

The Family Violence Prevention and Services Act (FVPSA) grant is used for prevention of domestic violence and domestic violence education. In Arizona, these funds are used primarily to provide services to the rural areas of the State utilizing Rural Safe Home Networks and to support the Arizona Coalition Against Domestic Violence (AzCADV). Currently, the Department of Health Services funds five Safe Homes, Verde Valley Sanctuary (children's services), the Never Again Foundation, and the AzCADV. The Rural Safe Home Networks operate domestic violence hot lines and provide domestic violence victims and their children with temporary, emergency safe shelter, peer counseling, case management, and advocacy.

FVPSA funds are distributed via a formula grant to States including Territories and Insular Areas. The States then provide local grants that must meet matching requirements of not less than 20% of the total funds provided for a project under this Act with respect to an existing program, and with respect to an entity intending to operate a new program under this Act, not less than 35%. The local share can be cash or in kind contributions.

The grant funds made available under the FVPSA program by the State cannot be used as direct payment to any victim or dependent of a victim of family violence. No income eligibility standard can be imposed on individuals receiving assistance or services supported with FVPSA funds.

Use of the grant funds for administrative cost by the Department of Health Services is capped at 5 percent. There is no Maintenance of Effort requirement for this grant. However, the grant monies cannot be used to supplant other Federal, State, and local funds expended to provide services and activities that promote the purposes of the grant.

Farmers' Market - Administration	10.572	USDA	N/A	12.3	9.8	13.5

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
Farmers' Market Food Program	10.572	USDA	N/A	119.2	117.1	117.5	^{2, 6}

The Arizona Farmers' Market Nutrition Program serves women and children participating in the Women, Infants and Children (WIC) Special Supplemental Food Program and senior clients in the Commodity Supplemental Food Program. The OBJECTIVES - of the Arizona Farmers' Market Nutrition Program are to increase fruit and vegetable consumption among low-income women, children, and seniors and to provide support to local farmers' markets. Participants are given booklets of checks that allow them to purchase \$20 of fresh, locally grown fruits and vegetables at Approved Farmers' Markets each year.

The grant funds are received and then distributed on a cost reimbursement basis to the local providers. State agencies seeking federal funding to operate a WIC Farmers' Market Nutrition Program must submit an annual plan for approval and provide a minimum match of 30 percent in state/local funds of the total program costs. The program allows up to 2 percent of the budget to be requested for market development activities and includes a 17 percent limit on administrative expenses. There is no Maintenance of Effort requirement for the grant.

Beginning in October 2004, the above mentioned 30% match requirement changes. It then is only applicable to administrative costs. The federal government also is increasing from \$20 to \$30 the vouchers that may be given for food. Each state can chose whether they want to make this voucher amount change.

Food Safety and Security Monitoring (FERN)	93.448	FDA	N/A	402.1	265.3	333.7	
---	---------------	------------	-----	-------	-------	-------	--

This effort is part of the overall effort of the nation to be prepared for a chemical terrorism attack. State Public Health Laboratories are charged by the Federal Government with the responsibilities of analyzing clinical, environmental and food samples resulting from such an attack.

This grant is the food protection complement to the current clinical specimen focus of the CDC Public Health Emergency Preparedness Co-operative Agreement that the State PH Laboratory participates in. Activities include the analyses of foods and food products to support the Food and Drug Administration's response to a chemical terrorism attack. This will strengthen Arizona's food safety and security efforts by implementing a surveillance program of high-risk (potential, terrorist target) foods.

This will not supplant current security or surveillance programs but is designed to enhance the efforts.

			Available	Received	Est. Rev.	Est. Rev.	
HIV Prevention Cooperative Agreement	93.940	DHHS/CDC	N/A	3,485.7	3,460.5	3,471.5	⁶

The Human Immunodeficiency Virus (HIV) Prevention Cooperative Agreement is used to assist public health departments in decreasing the transmission of HIV by: (1) decreasing the risk of acquiring or transmitting HIV infection by delivering targeted, sustained, and evidence-based HIV prevention interventions, including prevention of perinatal HIV transmission; (2) identifying persons infected with HIV through voluntary counseling and testing, focusing particularly on populations with high rates of undiagnosed HIV infection; (3) increasing the proportion of HIV-infected people who are receiving appropriate care and treatment services; and (4) strengthening the capacity and evaluation of health department and community-based organizations that implement effective HIV prevention programs.

Application for the grant must be done yearly and funds are currently made available through a non-competitive process during the five-year budget cycle. The amount requested is based upon the grant guidance and previous funding levels that have been tied to reported AIDS cases in the State. The grant award is based on the total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant.

There is no match or Maintenance of Effort requirement for the grant funds; however, funding is contingent upon successful implementation of required activities, achievement of performance targets for program indicators, and submission of required reports. Funds may not be used to supplant State or local health department funds that are available for HIV prevention.

This is the same grant that was previously under AFIS Grant Number 099024.

Immunization and Vaccines for Children	93.268	DHHS/CDC	N/A	5,380.2	6,346.7	5,860.6	⁶

The purpose of the Immunization and Vaccines for Children (VFC) grant is to support efforts in planning, developing, and maintaining a public health infrastructure for immunizations. The infrastructure addresses the Healthy People 2010 priority area under the Immunization and Infectious Diseases section and assures an effective national immunization system for all ages. Federal funding for immunization activities is provided through Section 317 funds for all age groups. The overall objective of the program is to reduce vaccine-preventable diseases (VPD) morbidity among persons of all ages and to support activities that focus on increasing immunization levels against VPD's.

Federal 317 and VFC operation funds are received to support activities that focus on increasing immunization levels and reducing VPD morbidity among persons of all ages. The federal operation funds are awarded as financial assistance funds on a complex formula distribution to each State. Portions of these funds are distributed to county health departments and other entities to provide direct immunization services or other key activities.

The Immunization Program also receives 317 and VFC direct assistance funds for vaccines. Vaccines are received in lieu of cash and are distributed to approximately 750 provider sites. The VFC program specifically increases access to vaccines for eligible children by supplying Federal government-purchased pediatric vaccines to public and private health care providers registered with the program. Eligible children include those 0 through 18 years of age who are not insured, Medicaid-eligible, American Indian, or Alaska Native. Children from 0 through 18 years of age also are eligible if they are underinsured with respect to reimbursement for vaccines and served by federally qualified health centers or rural health clinics.

There is no match or Maintenance of Effort requirement for this grant. The grant prohibits the use of Federal funds to supplant State and local dollars.

This is the same grant that was previously under AFIS Grant Number 099004.

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
MCH Block Grant	93.994	DHHS/HRSA	N/A	7,602.4	7,554.3	7,636.9	

The Maternal and Child Health (MCH) Services Block Grant (Title V of the Social Security Act) has operated as a Federal-State partnership since 1935 when the Social Security Act was passed. Funds are allocated to individual States to improve the health of all mothers and children. The amount a State is allocated is determined by first using the respective State's 1981 award amount for the pre-block programs that were later consolidated into this Block grant. Any grant funds that are available after this initial allocation are distributed based on the proportion of low-income children that a State bears to the total number of such children for all the States.

The major grant requirements are: (1) A statewide needs assessment conducted every five years that reviews data items to be used in the needs assessment and identifies the need for preventive and primary care services for pregnant women, mothers, infants and children and the need for family-centered care for children with special health care needs. (2) An annual plan for meeting the needs identified by the needs assessment. (3) The maintenance of a State toll-free number for parents.

Each State's health agency is responsible for administering its programs carried out with the allotments made to the State under Title V. Funds allocated to States are available for obligation and expenditure over a two-year period. States must provide \$3 for every \$4 of grant funds allocated. There are specific prohibitions, which restrict use of the grant monies from certain inpatient services, cash payments to recipients, purchase or improvement of land, or construction on land. In addition, the funds cannot be used for research or training unless these activities are done by a public or a nonprofit organization. Use of the grant for administrative cost is capped at 10 percent.

States are required to use: (1) At least 30 percent of Federal MCH Block Grant funds received for preventive and primary care services for children; and (2) At least 30 percent of Federal MCH Block Grant funds received for services for children with special health care needs. Also, States are required to maintain their level of funding for Maternal and Child Health programs from State resources at an amount at least equal to the level provided in FY 1989. The last compiled Maintenance of Effort (MOE) report was in April 2004 and the MOE was \$12,056,360. Funding sources for the MOE were from the General Fund, the EMS Operating Fund, the Newborn Screening Fund, and the Child Fatality Review Fund.

National Cancer Prevention and Control Program	93.283	DHHS/CDC	N/A	3,324.5	3,228.7	3,257.1	⁶

The National Cancer Prevention and Control Program consist of three programs, including the National Breast and Cervical Cancer Control and Early Detection Program; the National Program of Cancer Registries; and the National Cancer Control Program. Each of the three programs is described below:

1. National Breast and Cervical Cancer Control and Early Detection Program

This program referred to as the Well Women Healthcheck Program provides mammograms and pap smears to uninsured or underinsured women. The objective of the program is to increase Arizona women's use of quality screenings and diagnostic assessments for follow-up, referral, and case management services. The goal is to reduce the disparities of breast and cervical morbidity and mortality in at risk women due to age, medical conditions, income, or inadequate access to medical care.

The grant monies are received and distributed on a cost reimbursement basis to the service providers. There is a match requirement of \$1 State to \$3 of Federal funds. There is no longer a Maintenance of Effort requirement for this grant. The last compiled Maintenance of Effort (MOE) report was in April 2004 and the MOE for this component was \$128,001 from the IGA/ISA Fund.

2. National Program of Cancer Registries

The Arizona Cancer Registry must be able to provide for the complete and timely reporting of incidence cases in Arizona, monitor the cancer burden, respond to public concern, improve planning for future health care needs, and evaluate and assist cancer prevention and control activities in providing information, such as demographics of cancer and stage of disease. The grant provides enhancement funds to assist the registry in meeting minimum standards and in improving data completeness. The monies assist in improving reporting timeliness, quality of the data reported, data usage, and electronic reporting capabilities. The expected outcome is a complete, quality cancer surveillance system that provides timely information on the incidence of cancer. The reporting facilities for the data system include physicians, hospitals, and clinics. Researchers, universities, the American Cancer Society, and the public use the data system.

The payment is automatic drawn down for this component of the grant, which requires both a matching participation and a Maintenance of Effort (MOE). The match requirement is \$1 State to \$3 of Federal funds. The MOE is whatever expenditures occurred in the first year of the grant, which was FY 1994.

National Cancer Prevention and Control Program

(Continued)

N/A

The required MOE is \$292,133, which comes from the General Fund. The federal funds under this program may not be used to supplant State funds for the cancer registry.

3. National Comprehensive Cancer Control Program

The National Comprehensive Cancer Control Program is a cooperative agreement serving the residents in Arizona by developing a statewide comprehensive cancer control plan. The objective is to develop the Comprehensive Cancer Control Plan, which will describe the State's cancer burden, outline priorities, identify and address the needs of the community in fighting cancer, identify and address gaps in education and services, and set goals for the State of Arizona to reduce the burden of cancer.

Funding is received and then distributed on a cost reimbursement basis to the contract providers. There is no match or Maintenance of Effort requirement for this component of the grant.

* (The different components of this grant were reported under different AFIS Grant Numbers during a portion of FY 2004. Those AFIS Grant Numbers were 099085 and 099096.)

National Death Index

00.000

DHHS/CDC

N/A

21.9

0.1

27.3 ^{2, 10}

The National Death Index provides the cause of death information to scientific researchers. The National Center for Health Statistics (NCHS) collects selected information from records of death about decedents for its use in establishing a National Index file. The National Index file is used to determine the fact of death of specific individuals included in medical and health research projects. The records of Arizona deaths are sent to the NCHS electronically or by microfilm. This service payment funding is calculated at a price per record rate.

There is no match or Maintenance of Effort requirement for the grant funds.

National Death Reporting - Social Security	00.000	DHHS/SSA	N/A	32.6	(49.4)	14.2	^{2, 10}

The Death Reporting - Social Security Administration (SSA) program reduces erroneous social security benefit payments made to deceased persons. Specific information items are required to be collected and maintained on each death of an individual in Arizona. The information is captured in data files, which are electronically transmitted to the SSA. This service payment funding is calculated at a price per record rate.

There is no match or Maintenance of Effort requirement for the grant funds.

Olmstead	93.958	DHHS/SAMHSA	N/A	20.0	0.0	20.0	²
-----------------	---------------	--------------------	-----	------	-----	------	--------------

The Olmstead Grant funds are provided through a revenue agreement with the Advocates for Human Potential, Incorporated, to expand resources and opportunities that allow adults with serious mental illnesses and children with serious emotional disturbances to live in their home communities. These Federal funds facilitate the implementation of activities identified in the Arizona Olmstead Plan to improve treatment for individuals who are difficult to discharge from the Arizona State Hospital.

There is no match or Maintenance of Effort requirement for these grant monies.

Oral Health Integrated Systems Development	93.110	DHHS/HRSA	N/A	18.3	18.3	18.3	
---	---------------	------------------	-----	------	------	------	--

The Oral Health Integrated Systems Development Grant serves dentally underserved Arizona communities and individuals. The objective of this grant is to increase the proportion of children who receive dental care each year. The goal is to ensure annual dental visits for at least 55 percent of children 3 to 21 years of age, who are enrolled in the Arizona Health Care Cost Containment System. In addition, by September 2004, a State oral health plan will be developed. By December 2004, at least three Arizona Department of Health Services' sponsored child health programs will have instituted oral health education components.

There is no match or Maintenance of Effort requirement for this grant.

			Available	Received	Est. Rev.	Est. Rev.	
Preventive Health Block Grant	93.991	DHHS/CDC	N/A	1,246.6	1,216.1	1,221.2	⁶

The Preventive Health and Health Services Block Grant serves a variety of populations and any program receiving these Block Grant funds must address health status outcome OBJECTIVES - from the National Healthy People 2010. The health problems funded are determined through a priority setting process done by an Advisory Committee formed in response to this Federal Block Grant. The Department of Health Services makes the final decision, taking the committee's recommendations into account. Examples of some health problems that have received funding are sedentary lifestyles, dental caries, cardiovascular disease, and sun exposure.

Each program that is funded must have a plan that describes the health problem, the target population, the disparate population, the health status objective, the risk reduction objectives, and the annual activity objectives. All programs must have an evaluation plan and must report annually on the progress made.

The amount of Federal grant money Arizona receives is determined by a formula developed by the Centers for Disease Control in the early 1980's. It is based on the percent of Federal public health funds that Arizona received at that time. The majority of the funds are passed through the State to county health departments and community-based organizations. Use of the grant funds for administrative cost is capped at 10 percent.

There is a Maintenance of Effort (MOE) requirement for these federal Block Grant dollars. The last compiled MOE report was in April 2004 and the MOE was \$310,404. Funding sources for the MOE were the General Fund, the Tobacco Tax monies, and the Oral Health Fund.

Project Match (Multi-Agency Team for Children)	93.104	DHHS/SAMHSA	N/A	486.5	486.5	486.5	²

The Project Match Grant is used to provide a coordinated, community-based system of care for children with serious emotional disturbances (SED), adolescents, and their families in Pima County. The care must be provided in a manner consistent with the 12 Arizona Principles under the Jason K. Settlement Agreement.

Funds are allocated to the Regional Behavioral Health Authority in Pima County (CPSA) to manage service delivery on behalf of the State of Arizona. The funds also are allocated to the University of Arizona to provide data collection and evaluation activities required under Project Match.

The grant initially required a non-Federal match of \$1 in-kind or cash contributions for each \$3 of Federal funds in years one through three and then \$1 for \$1 of Federal funds in year four. The grant now requires \$2 for each \$1 of Federal funds in years five and six. The CPSA and the University of Arizona provide approximately 90% of the matching funds for this grant. The Department of Health Services matches the remaining 10%. Amounts provided by the Federal government, or services subsidized to any significant extent by the Federal government, may not be included as match. There is no Maintenance of Effort requirement for these grant monies.

Public Health Injury Surveillance and Prevention	93.136	DHHS/CDC	N/A	131.8	76.2	90.3	⁶
---	---------------	-----------------	-----	-------	------	------	--------------

The Core States Injury Surveillance and Prevention Cooperative Agreement provides funding to establish a surveillance system for guiding interventions and strategies to reduce injuries in Arizona. The surveillance system is a database for tracking injury mortality and morbidity relevant to Arizona. The grant monies are used for a State Injury Surveillance and Prevention Plan in the Arizona Department of Health Services/Division of Public Health for injury prevention efforts in Arizona.

There is no match or Maintenance of Effort requirement for this grant.

This Grant was previously none as Core State Injury Surveillance and Program Development, 98063.

Public Health Preparedness and Response for Bioterrorism	93.283	DHHS/CDC	N/A	21,993.0	21,153.6	21,569.8	⁶

The Public Health Preparedness and Response for Bioterrorism Grant is used to upgrade the Arizona Department of Health Services and local health departments preparedness and response capabilities relative to bioterrorism. County and tribal jurisdictions are specific targets for the funding. The grant objective is to establish a process for strategic leadership direction and coordination of activities to ensure State and local readiness for outbreaks of infectious disease and other public health threats and emergencies.

The grant money is received on the basis of population and distributed by the State on the same basis. There are no match or Maintenance of Effort requirements for the grant monies.

Public Health Preparedness and Response for Bioterrorism received a supplemental for Pandemic Influenza Planning AFIS Grant 099089. Expenditures and Revenue have been rolled into 098029.

Includes Old AFIS Grant 098055

Public Lab Biomonitoring Plan	93.283	DHHS/CDC	N/A	54.0	(60.0)	72.7	

The Public Lab Biomonitoring Plan in the State of Arizona receives funding through an Intergovernmental Agreement with the State of New Mexico. The State of New Mexico is charged with allocating the federal grant monies, which also go to four other Rocky Mountain region States (Colorado, Utah, Wyoming, and Montana). The States collaborate to plan a long-term biomonitoring initiative for assessing human exposure to environmental hazards. They also collaborate to evaluate the success of initiatives to reduce human exposure to such hazards.

The first step in this process involved the gathering of public health partners within each State to assess the priority areas of environmental risk in their State. From this prioritized list, areas were identified in which biomonitoring could be an effective tool to aid in characterizing the human exposure and assessing the effectiveness and progress of remedial measures.

The second step will be to develop a plan for implementing a regional biomonitoring project to address the prioritized list developed in step one. An inventory of existing biomonitoring capacity in each of the State's public health laboratories will be compiled, as well as, an inventory of the capacity that is needed to address the regional priority list. The consortium will seek to centralize and coordinate future laboratory components of the project so as to maximize efficiency and eliminate redundancy. In addition, selected biomonitoring projects will be conducted and laboratory testing equipment will be purchased for use.

There is no match or Maintenance of Effort requirement for the grant monies.

Pulse for Life	93.243	DHHS/SAMHSA	N/A	201.8	201.8	201.8	²

Pulse for Life is an ecstasy and other club drug prevention and harm reduction project for men who have sex with men (MSM) in Tucson, Arizona. The project will use the science-based Popular Opinion Leader (POL) model to change social norms in Tucson's MSM club/circuit/rave scene, in conjunction with Motivational Interviewing Stages of Change foundation, which will support behavior change in individuals with sustained ecstasy/club drug abuse problems.

The Arizona Department of Health will work with the Southern Arizona AIDS Foundation to expand and strengthen Pulse over the next five years. Pulse will be implemented through four components: 1) Community Awareness - Pulse will produce print materials and educational forums that publicize the intervention and create a dialogue on the use of ecstasy and other club drugs; 2) Outreach and Recruitment - staff will cultivate relationships with community members through active outreach, events, and targeted one-on-one discussions, and recruit individuals who are well respected within the target population to be Popular Opinion Leaders; 3) POL Activities - staff will train POLs, and POLs will engage community members in conversations on harm reduction; and 4) Motivational Interviewing (MI) - staff will employ individual harm reduction using MI to support individuals in need of substance abuse treatment options.

There is no match or Maintenance of Effort requirement for this grant. (This grant was previously listed under the following title: Pulse for Life-An Ecstasy and Other Club Drugs Harm Reduction Project for Gay Men and Their Social Networks in Tucson and Southern Arizona.)

Rape Prevention and Education Program	93.136	DHHS/CDC	N/A	340.9	258.0	300.1	

The Rape Prevention and Education Program Grant is awarded to each State and territory using a population based-formula. The primary target group in Arizona is all populations from 12 to 25 years of age. However, special attention is paid to underserved populations, such as Latino/Latina, Lesbian/Bi-Sexual/Gay/Transsexual, and Native Americans.

The grant OBJECTIVES - include: (1) reducing the incidence of sexual violence and attempted violence by providing prevention education throughout Arizona; (2) increasing public awareness on the prevention and the occurrence of sexual violence; (3) increasing the proportion of victims, perpetrators, and bystanders who utilize available services and resources; (4) providing information, resources, and technical assistance that contribute to the heightening awareness and the prevention of sexual coercion and violence; and (5) improving communication, coordination, and collaboration among the recipients of this grant money and other organizations involved in rape prevention and sexual assault services. The Arizona Department of Health Services uses a competitive bidding process to fund the community-based organizations that provide the prevention and education services.

The grant has no match or Maintenance of Effort requirements. The grant funds cannot be used to supplant State or local public funds used for the same purpose. In addition, not more than 5 percent can be used for administrative purposes and not more than 2 percent can be used for surveillance or prevalence studies.

Ryan White HIV Care Grant	93.917	DHHS/HRSA	N/A	13,082.3	15,393.4	14,239.2	⁶

The Ryan White Comprehensive Acquired Immunodeficiency Syndrome (AIDS) Resources Emergency (CARE) Act Title II Human Immunodeficiency Virus (HIV) Emergency Relief Grant is used to support a comprehensive continuum of community-based care for low-income individuals and families with HIV disease. A comprehensive continuum of care includes: primary medical care, access to drug therapies through the statewide AIDS Drug Assistance Program (ADAP) and local medication assistance programs, substance abuse treatment, supportive services that enable individuals to access and remain in primary care, and other health or support services that promote health and enhance quality of life.

Title II of the CARE Act provides formula based financial assistance to States and Territories to improve the quality, availability, and organization of health care and support services for individuals and families with HIV infection. Funds spent for care and treatment of HIV disease enable individuals to maintain their health and productivity for a longer period of time. Use of the grant funds for administrative cost is capped at 10 percent.

The grant requires Maintenance of Effort (MOE) and a \$1 State to \$2 Federal Match. Funds may only be used to provide items or services when either no other payment has been made or no other payment is reasonably expected by third party payers, including Medicaid, Medicare, other State or local entitlement programs, prepaid health plans, or private insurance. The last compiled Maintenance of Effort (MOE) report was in July 2004 and the MOE was \$16,044,720. Funding sources for the MOE were the General Fund, non-Federal and non-matched dollars from other state agencies (Arizona Health Care Cost Containment System, Department of Education, and Department of Corrections), Maricopa County funds, and private resources.

Sexual Violence Prevention and Education	93.136	DHHS/CDC	N/A	283.0	490.0	386.5	⁶

The Sexual Violence Prevention and Education Grant is in support of strengthening violence against women prevention efforts. Sexual Violence Prevention and Education is such an effort and a benefit to the state, as it allows Arizona to approach rape/sexual assault as a public health issue. The Department is in a leadership role as it is linked to HP 2010 goal of Violence Prevention; therefore the state can help guide communities using a public health approach. Additionally, it supports the Department's strategic issue of reducing the rate of injury and the Office of Women's and Children's Health goal of preventing violence against women.

States may not use more than 5% of the total grant award received each fiscal year for administrative expenses. This five per cent limitation is in lieu of, and replaces, the indirect cost rate.

There is no Match or Maintenance of Effort requirement for the grant funds.

Sexually Transmitted Disease Control	93.977	DHHS/CDC	N/A	1,255.1	1,163.9	1,209.3	⁶

The Sexually Transmitted Disease (STD) Prevention Systems/Infertility Cooperative Agreement is used to assess and enhance the control of sexually transmitted diseases. These funds supplement the State's and some local jurisdictions allocations to support and enhance STD control efforts statewide. The efforts include: (1) monitoring the extent of the disease burden and its distribution through disease surveillance; (2) monitoring disease trends and effectiveness of interventions; (3) enhancing high-risk populations screening; (4) finding and evaluating cases; (5) working with community based organizations for local STD control; and (6) conducting investigations to identify persons who may have been exposed to the disease and who may benefit from evaluation and treatment.

Application for the grant must be made every year. The funds are made available through a competitive application process every five years and a non-competitive process the other four years of the five-year budget cycle. The amount requested is based upon the grant guidance document and the program's needs assessment, both at the program level and at the local departments' level. The grant award is based on total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant.

There is no match or Maintenance of Effort requirement for the grant funds; however, funding is dependent upon minimum existing infrastructures and performance towards pre-set objectives. The grant does not allow for supplanting of State funds.

State Adolescent Substance Abuse Treatment Coordination	93.243	SAMHSA	N/A	376.1	385.5	380.8	⁶

The State Adolescent Substance Abuse Treatment Coordination Grant provides funding to build capacity in Arizona to provide effective, accessible, and affordable substance abuse treatment for youth and their families. The purpose of this project is to create a sustainable system of care that effectively breaks the cycle of addiction in Arizona's families through early identification, intervention and treatment for substance use disorders among youth and young adults. Arizona's Youth Substance Abuse Treatment Coordination project will establish a single focus of responsibility within the state for expanding access and the quality and delivery of substance abuse services for the state's high-risk population of young people age 12-24 years old and their family members.

The project will include a focus on local implementation of best and evidence-based practices in early intervention and treatment, as well as education and training of families, state agencies, provider staff and family support organizations. All infrastructure and network initiatives will be developed in consultation with family members and stakeholder systems with a emphasis on addressing the unique needs of young people within the context of their family and culture.

State Implementation Grant for Integrated Community Systems for CSHCN	93.110	HRSA	N/A	260.9	279.7	270.3	^{2, 6}
--	---------------	-------------	-----	-------	-------	-------	-----------------

The State Implementation Grant for Integrated Community Systems for Children with Special Health Care Needs plans, implements, and evaluates statewide community-based services for Children and Youth with Special Health Care (CSHCN) as defined by the Maternal and Child Health Bureau. The components are: early and continuous screening of children and adolescents; the development of family/professional partnerships with an emphasis on family-centered care; the development, monitoring, and evaluation of medical homes; the measurement and improvement of children with adequate health care coverage; the development and monitoring of systems to improve the ease of use of service systems; and the development of comprehensive systems of care for adolescents transitioning into adult systems.

This plan will be integrated into the Title V Block Grant and other public/private programs serving C/YSHCN. Significant attention must be directed to culturally competent systems and to the integration of services across multiple systems and agencies.

			Available	Received	Est. Rev.	Est. Rev.	
State Mental Health Data Infrastructure Grant for Quality Improvement	93.243	DHHS/SAMHSA	N/A	148.3	146.0	147.2	

The grant is a collaborative effort between the Bureau of Quality Management and Evaluation and the Clinical Director's Office within the Division of Behavioral Health Services. The grant supports the ongoing improvements in the State data infrastructure to help promote comprehensive, community-based systems of care for all children and adults who have mental illness or who are at risk of developing mental illness. The grant provides technical assistance, financial support, and technical know-how, in building internal capacity for future data compilation of performance indicators required under the Uniform Data Reporting System (URS) of the Block Grant program. The expected outcome is the increased capacity for the State to participate and comply with the Government Performance and Reporting Act and to the requirement of the Community Mental Health Block Grant program.

This grant has a dollar for dollar matching requirement of total costs provided either in cash or in-kind. Amounts provided by the Federal government, or services subsidized to any significant extent by the Federal government, may not be included as a match. There is not Maintenance of Effort requirement for these grant monies.

State Partnership Grant Program to Improve Minority Health	00.000	HHS-PHS	N/A	89.4	68.0	78.7	¹⁰

Funds are being requested to enhance the infrastructure capacity of the Arizona Center for Minority Health, and to engage in a Strategic Planning process involving internal, external stakeholders as well as community organizations.

The newly re-established Center for Minority Health intends to act as a link between the community and ADHS in the developing and implementation of program services and policies with particular regard to vulnerable populations and cultural awareness. The newly re-established office will continue and expand on this mission. Our definition of “minority” (target population) will include not only racial and ethnic minority groups in the state of Arizona, but also the medically underserved, the uninsured and any other group vulnerable to suffer unequal treatment, health outcomes and/or disparities in access and health status because of a particular cultural, behavioral, racial, ethnic, religious or any other distinctive characteristic.

One of the main functions of the Center will be to act as a central repository for information, data, best practices, projects, and on going initiatives around minority health within the different departments and divisions of ADHS. It will also serve as a liaison between ADHS and minority communities. For this, the CMH will create a specific website and a network directory. The CMH will link minority advocacy groups and communities with these resources, support in conducting their Needs Assessments, and aid in the identification of grants.

The CMH will also support other ADHS department efforts to provide prevention and chronic disease management, reproductive health, and substance abuse/behavioral health services for minorities; provide culturally appropriate services; and include minorities in the emergency preparedness and response programs, etc.

			Available	Received	Est. Rev.	Est. Rev.	
Steps to a Healthier U.S. (Arizona)	93.283	DHHS/CDC	N/A	3,043.5	3,009.5	3,027.0	

The Steps to a Healthier Arizona Initiative is a community-based program designed to reduce the burden of diabetes, obesity, and asthma, and to address three related risk factors - inadequate dietary intake, physical inactivity, and tobacco use. The target area for this program encompasses Cochise, Santa Cruz and Yuma Counties and the Tohono O'odham Nation. Program community partners are the Cochise County Health Department, Mariposa Community Health Center, Yuma County Cooperative Extension, and Tohono O'odham Nation Department of Human Services in Sells, Arizona. Other program partners are the Arizona Department of Education and the Arizona College of Public Health.

The program OBJECTIVES - are: (1) to build upon a successful diabetes project model to incorporate obesity and asthma interventions for all populations; (2) to strengthen existing, and develop new Special Action Groups to implement relevant policy and environmental changes; (3) to provide cross-topic training and technical assistance for healthcare professionals and lay health workers at the local level; (4) to mobilize schools to implement the School Health Index for policy, environmental and curriculum changes; (5) to pilot-test the Arizona Model Healthy School Environment Policy to promote nutrition and physical activity; (6) to conduct a social marketing campaign to disseminate culturally and linguistically appropriate educational messages; (7) to coordinate State agency diabetes, obesity, and asthma programs to integrate efforts at the State and community level; and (8) to establish data surveillance and analysis systems to monitor and evaluate program outcomes and to identify health disparities.

Steps to a Healthier Arizona is a five-year project funded since Fall 2003. At least 75 percent of the funds must be distributed directly to the contractual program partners for delivering services and monitoring at the local level. This money is received and distributed on a cost reimbursement basis to the contracted partners. There is no match or Maintenance of Effort requirement for these grant monies.

Substance Abuse Block Grant (SAPT)	93.959	DHHS/SAMHSA	N/A	31,141.6	31,176.8	31,210.9	⁶

The Substance Abuse Prevention and Treatment Block Grant is used to provide services for alcohol and drug abuse treatment and prevention services in Arizona. Grant funds are acquired through an annual application process that details how the State of Arizona will expend Federal funds to support and expand capacity for treatment and prevention of substance abuse. Five Regional Behavioral Health Authorities and the Gila River Indian Community Tribal Regional Behavioral Health Authority manage service delivery on behalf of the State of Arizona through a contract with the Department of Health Services.

The Block grant funds support a variety of covered substance abuse services in both specialized addiction treatment and more generalized behavioral health settings. Special target groups mandated by the grant include: (1) priority access to treatment for pregnant women using substances and for individuals who use drugs by injection; (2) family-centered programs for women with young children, including funds specifically prioritized for services to parents of children with Child Protective Services involvement; (3) HIV early intervention services for homeless drug abusers; and (4) primary prevention services for children and families who do not require treatment. Use of the grant for administration is capped at 5 percent.

There is no dollar for dollar match requirement for these federal dollars. However, this grant requires Maintenance of Effort (MOE) documenting that the State of Arizona has maintained expenditures for substance abuse services. The expenditures cannot be less than the average level of such expenditures maintained by the State for the two-year period preceding the fiscal year for which the State is applying for the grant. The last compiled Maintenance of Effort (MOE) report was in April 2004 and the MOE was \$29,916,833. Funding sources for the MOE were the General Fund, the Substance Abuse Services Fund, the IGA/ISA Fund, and the Indirect Cost Fund.

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
System - Based Diabetes Prevention and Control Program	93.988	DHHS/CDC	N/A	299.5	242.1	285.9	

The System - Based Diabetes Prevention and Control Program is designed to serve the entire State of Arizona in reducing the burden of diabetes. The objective of the program is to establish capacity building efforts concerning diabetes prevention and control for the general public and in communities and populations who are at high risk for the disease. Along with these programs, a surveillance system is maintained for data to determine the prevalence and the incidence of diabetes in Arizona. The charge of the program also is to provide educational training for health care professionals in an effort to improve best practices and standards of care.

The grant monies are distributed through contracts and require match at \$1 State for \$5 of Federal funds. There is no Maintenance of Effort requirement for this grant. (Previously, this was the Diabetes Grant - AFIS Grant Number 099084.)

Targeted Grants to Reduce Child Lead Poisoning	66.716	US EPA	N/A	(21.8)	1.3	1.3	²
---	---------------	---------------	-----	--------	-----	-----	--------------

The purpose of this grant proposal is to conduct activities to reduce the incidences of childhood lead poisoning in vulnerable populations. Activities funded will include purchasing Medtox blood lead screening kits and distributing the kits to counties, tribes, cities, Promotora groups, and community organizations to assist the Childhood Lead Poisoning Prevention Program in screening children that may not otherwise be tested. All test results are reported to the program, therefore if children with elevated levels of lead are found, they will be enrolled into the program.

The State will benefit by this focused screening by increasing the number of children screened, to screen populations that may not otherwise be tested, and assisting communities and areas that may not have the funds to provide blood lead testing. This could lead to a short-term impact of fewer lead poisoned children. The long-term impact will be lower health care and education costs. Agency benefits will include strengthening the relationship with the city and county health departments, tribes, community organizations and local Promotora groups

This grant will support the Governor's priorities with Children's Environmental Health and the CARE program as well as the Healthy Arizona 2010 plan to reduce childhood lead poisoning statewide.

			Available	Received	Est. Rev.	Est. Rev.	
Trauma EMS	93.952	DHHS/HRSA	N/A	(0.3)	0.0	0.0	^{2, 8}

The Trauma Emergency Medical Services (EMS) Grant is for EMS and Trauma System development, implementation, and evaluation. Year One of the Trauma EMS Grant provided for input from various stakeholders, who provided the necessary information to create informational materials and identification of critical steps needed to enhance the EMS knowledge base of stakeholders, legislators, and the community as a whole. As a result, an Arizona EMS/Trauma Systems Marketing Plan was completed.

During Year Two, there will be duplication and distribution of all materials (brochures, presentation packets, education packets, media materials, etc) designed in Year One to support a full implementation of the marketing plan. There is an identified need for the public to perceive the Trauma /Prevention Program as a broadly based service to the community and to the State as a whole in taking care of the residents and visitors of Arizona. For this reason, there are plans to design a stand-alone web site that is not hidden in the depths of the regulatory structure, but is easily accessible and user-friendly to the public.

The plan is to have the EMS/Trauma and Prevention Systems demonstrate support for all prevention programs by listing them in a resource database. This will allow individuals who are searching for a particular activity for their community, school, facility, etc, to easily obtain information about any prevention program.

There will be a series of meetings and site visits by the core Resource Assessment Work Group. The meetings and site visits will be used to evaluate each EMS Region in depth. Additional stakeholder and partnership meetings will be held for the purpose of confirming and acquiring additional information and other related data. The resource data will be culminated into a final document that will serve as an adjunct for the next objective of an external trauma systems consultative assessment.

This grant requires a \$1 match for \$1 of Federal funds. There is no Maintenance of Effort requirement for the grant monies.

This grant includes the old AFIS grant 99068

Traumatic Brain Injury	93.136	DHHS/CDC	N/A	0.3	0.3	0.3	²

The primary goal of the Traumatic Brain Injury (TBI) Surveillance Program is to systematically collect and analyze population-based hospitalization and mortality data, and disseminate reports about the incidence of traumatic brain injury to Arizona residents. The TBI program provides data to support development, implementation, and evaluation of primary prevention programs. These data also enable communities to identify persons who require ongoing medical care and rehabilitation, and to address the availability of services in those communities. The outcome of the TBI Surveillance Program is timely, accurate, and complete population based data in the form of annual reports describing incidence, risk factors, and causes of traumatic brain injury in Arizona.

There is no match or Maintenance of Effort requirement for this grant. These federal grant monies may not be used to supplant State funds available for the surveillance activities.

Tuberculosis Cooperative Agreement	93.116	DHHS/CDC	N/A	990.3	1,027.7	1,010.6	⁶

The Tuberculosis (TB) Elimination and Laboratory Services Cooperative Agreement is used to strengthen the existing public health infrastructure to assess, combat, and eliminate tuberculosis nationwide. These funds supplement the State's and some local jurisdictions allocations to control tuberculosis statewide. Statewide tuberculosis control includes: (1) monitoring the extent of the disease burden and its distribution through disease surveillance; (2) finding and evaluating cases for treatment; (3) promoting directly observed therapy to enhance its completion; (4) monitoring disease trends and effectiveness of interventions; (5) providing technical assistance to local health departments and to private providers on case management and infection control; and (6) ensuring that persons exposed to TB disease are identified and evaluated for possible prophylaxis.

Application for the grant must be made every year. The funds are made available through a competitive application process every five years and a non-competitive process the other four years of the five-year budget cycle. The amount requested is based upon the grant guidance document and the program's needs assessment, both at the program level and at the local departments' level. The grant award is based on total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant.

There is no match or Maintenance of Effort requirement for the grant funds; however, funding is dependent upon minimum existing infrastructures and performance towards pre-set objectives. The grant does not allow for use of funds to purchase anti-TB drugs or to supplant State funds.

This is the same grant that was previously under AFIS Grant Number 099017.

Universal Newborn Hearing Screening & Intervention	93.251	DHHS/HRSA	N/A	134.0	134.0	133.5	^{2, 6}

Universal Newborn Hearing Screening (UNHS) has voluntarily become the standard of care in Arizona hospitals over the past four years. The grant monies serve a variety of entities and individuals, ranging from the Arizona Department of Health Services, hospitals, primary care physicians, audiologists, children with hearing loss, and babies born in Arizona.

The goal is to have all birthing hospitals offer UNHS, using Arizona guidelines. Reaching the goal will ensure all babies receive inpatient hearing screening and return for outpatient screening if necessary. It also will ensure that children receive the appropriate diagnostic assessment by three months of age.

Almost all of the monies received are distributed through contracts. The monies are used to provide technical assistance to hospitals; support a data system to track screenings; provide follow-up services; and educate parents, audiologists and other health care providers, and the general public on hearing screening diagnosis, treatment, and other interventions.

There is no match or Maintenance of Effort requirement for this grant.

US-Mexico Border Grant-Childhood Lead	66.931	USEPA	N/A	45.4	41.2	43.3	²
--	---------------	--------------	-----	------	------	------	--------------

The purpose of this cooperative agreement is to educate people living in the Arizona/Sonora region that lead-containing pottery and folk-remedies are dangerous and should be avoided.

This cooperative agreement is unique in that it will allow for funds to be spent in both Arizona and Mexico (62 miles on either side of the border), thus maximizing the educational component to include the fluid immigration population as well as residents on both sides of the border. educational materials.

Agency: Department of Health Services

Grant/Project and Description	CFDA	Grantor	FY 2007 Amount		FY 2008	FY 2009	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
WIC - Special Supplemental Nutrition Program (Food)	10.557	USDA	N/A	69,394.2	67,737.6	68,565.9	²

The Women, Infants and Children (WIC) Special Supplemental Nutrition Program helps to improve the health and the nutritional intake of pregnant, breast-feeding, and postpartum women, infants, and children up to their fifth birthday. WIC participants get supplemental nutritious foods and nutrition education and counseling at WIC clinics. They also get screenings and then referrals to other health, welfare, and social service agencies. To be eligible for services, the family income must be no greater than 185 percent of the Federal Poverty Level.

The federal WIC program is administered by 88 WIC State agencies, through approximately 46,000 authorized retailers. WIC operates through 2,000 local agencies in 10,000 clinic sites, in 50 State health departments, 33 Indian Tribal Organizations, American Samoa, District of Columbia, Guam, Puerto Rico, and the Virgin Islands. County health departments, hospitals, mobile clinics (vans), community centers, schools, public housing sites, migrant health centers and camps, and Indian Health Services facilities are examples of where WIC services are provided.

The grant monies are distributed based on a national funding formula from an amount determined by the Federal government each year. Arizona receives its share based upon its percentage of potentially eligible participants. As a discretionary nutrition program, if the funding is not sufficient to meet the caseload needs, eligible WIC clients are placed on a waiting list. There is no match or Maintenance of Effort requirement.

In addition to this Food component (AFIS Grant Number, 099076), see the Administration component (AFIS Grant Number 099007) and the Rebate component (AFIS Grant Number 099037) for further information on this grant program.

WIC - Special Supplemental Nutrition Program (Rebate Account)	10.557	USDA	N/A	40,837.7	35,745.9	37,090.3	^{2, 6}

This is the rebate component of the Women, Infants and Children (WIC) Special Supplemental Nutrition Program where a manufacturer of baby formulas pays on average 32 percent in rebates. The Women, Infants and Children (WIC) Special Supplemental Nutrition Program distributes food vouchers for specific healthy foods and infant formulas. When a WIC participant redeems a voucher for the infant formula, the contracted infant formula manufacturer pays a rebate and the monies go back to the WIC Special Supplemental Nutrition Program to be used for purchasing food for additional eligible participants. See the WIC Special Supplemental Nutrition Program (Food) description (AFIS Number 099076) for further information.

There is no start or end date for this WIC Special Supplemental Nutrition Program rebate component.

Buffer Zone Protection Program	(Continued)		N/A				
Provides funding for enhanced security of select critical infrastructures and assets. The intent of the program is to establish Buffer Zone Plans which are intended to help local law enforcement and emergency responders develop preventive measures around high priority infrastructure targets. Sites are determined by the U.S. Department of Homeland Security.							
Emergency Management Program Grant	97.042	U.S. Department of Homeland Security	N/A	2,714.0	2,714.0	2,714.0	²
Gives states the opportunity to structure individual emergency management programs based on needs and priorities for strengthening their emergency management capabilities, while addressing issues of national concern. AZDOHS must pass through 100% of funds to the state emergency management agency (ADEM).							
Homeland Security Grant Program	97.067	U.S. Department of Homeland Security	N/A	3,905.7	8,000.0	8,000.0	
The FY 2006 Homeland Security Grant Program (HSGP) provides funding for planning, organization, equipment, training, exercises and management and administration to prevent, protect against, respond to, and recover from terrorist attacks, major disasters, and other emergencies in all 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and the U.S. Territories.							
Operation Stonegarden Supplemental Grant Program	97.067	U.S. Department of Homeland Security	N/A	462.0	2,500.0	2,500.0	²
Provides funding for local law enforcement agencies for direct operational support of U.S. Customs and Border Protection, Office of Border Patrol, Tucson and Yuma Sectors.							
Border Patrol prepares operational plans that are coordinated with local law enforcement agencies. The Arizona Department of Homeland Security provides reimbursement to the participating jurisdictions for overtime and selected equipment to the participating agencies.							
Operation Stonegarden efforts are designed to combat the flow of criminal activity across the border and to secure the border. Participating agencies are eligible for reimbursement of overtime costs for increased patrols and purchase of authorized equipment to aid in increased patrols and investigations.

			Available	Received	Est. Rev.	Est. Rev.	
Community Development Block Grant (CDBG)	14.228	HUD	N/A	13,653.6	13,959.0	14,402.4	
Provides administrative and operating, technical assistance and pass through grant funding for community development activities in rural communities statewide. These grants are entitlement grants that are awarded by HUD each fiscal year. Currently grant years 1999, 2000, 2001, 2002, 2003, 2004 and 2005 are open with remaining funds.							
HOME Investment Partnerships Program	14.239	HUD	N/A	6,988.0	6,842.5	7,228.3	
This program provides administrative and pass through aid to others for affordable housing programs for low-income households, including: rental development, homeownership development, and owner-occupied housing rehabilitation programs.							
Grant 633097- pass through aid to others Grant 633004- administration							
HOPWA (Housing Opportunities for People With AIDS)	14.241	HUD	N/A	163.9	168.3	173.5	²
This program provides pass through aid to others and administrative funding for a program to assist with the housing needs of individuals or households affected with AIDS.							
RHED-Rural Housing and Economic Development	14.250	HUD	N/A	314.3	0.0	0.0	^{2, 8}
Pass thru funds provided to the City of Casa Grande for housing and economic development							
Section 8 - Housing Choice Voucher Program	14.871	HUD	N/A	496.7	522.7	548.9	
Provides rental subsidy payments to low-income renters in Yavapai County, as well as administrative fees. Time period on-going, renews every year.							
Section 8- Contract Administration	14.195	HUD	N/A	33,716.1	34,731.9	35,773.9	²
Provides rental subsidy payments to units with low-income renters. Note that HUD has clarified that all fees earned for the operation of this program should be considered "fees" and should not be classified as federal funds once earned. Thus all operating fees earned for this program, and operating costs associated with this program, are to be reported under the Housing Program Fund, which is the depository of all fees collected by the agency. Future revenues and expenditures reported for this fund will include pass through dollars only. Each dollar that passes through this fund remains in the State Treasury less than 24 hours before being transferred directly into property owners' accounts. This is a fee for service contract.

Election Systems Improvement Fund (HAVA)	90.401	Various	N/A	43.9	0.0	0.0	²

The Help America Vote Act of 2002 (HAVA) is civil rights legislation to ensure voters are treated equally across the United States of America. HAVA will significantly change Arizona's state election process by replacing punch card voting systems in nine counties; adding new digital recording (touch screen) style equipment to every precinct in the state; and implementing new statewide systems to address voter registration, grievance process, and provisional balloting. The State's HAVA plan was developed in conjunction with the State HAVA Planning Committee and was adopted unanimously from the group of state officials, legislative representatives, local officials, party representatives and individuals with special interests in improving access to the disabled. Within the State Plan, Arizona encourages election accessibility for individuals with disabilities and those with alternative language considerations.

Appendix

FOOTNOTES

- 1 Amount Available and/or Received includes pass-through monies from other State agencies.
- 2 FTE information not provided at all or not consistently provided.
- 3 Program commences in FY 2007.
- 4 No new revenue reported, expenditures were funded by carry-over balances from the previous fiscal year.
- 5 Program commences in FY 2008.
- 6 Negative amount represents revertment or transfer of carry-over monies from the previous fiscal year.
- 7 Amount Available and/or Received is projected to be spent in the ensuing fiscal year(s).
- 8 Program ends in FY 2007.
- 9 A CFDA number was not provided by the agency. The CFDA number shown (84.999) was inserted by OSPB in order to identify the Federal function of the grant for use in the tables located in the Appendix.
- 10 A valid CFDA number was not provided by the agency. The CFDA number 00.000 shown was inserted in order to identify the Federal function of the grant as "Other" in the tables located in the Appendix.
- 11 Federal Funds for FY 2007 expenditures are projected to be received in FY 2008.
- 12 Amount contains monies returned to the agency.
- 13 This DEQ grant is funded on a reimbursable basis. Some reimbursements for FY 2006 expenditures were received in FY 2007. Additionally, some reimbursements for FY 2007 expenditures will be received during FY 2008.
- 14 FY 2007 Expenditures includes \$1,069,504,100 of pass-through funds to other state agencies. These pass-through funds have not been reported as revenues in the recipient agencies Federal fund reports.

FOOTNOTES (Continued)

- 15 Agencies were instructed to incorporate the amount listed on the Federal SF-424 form as the amount Available. This represents the grant amount for its entire term. Therefore, the amounts shown as Available and Received may not agree for the following reasons: 1) Federal funds for many programs are available for more than one year and are used on a First In - First Out basis; 2) the Federal fiscal year, which is the period that most funds are available, is different from the State fiscal year; 3) agencies are required to draw Federal monies only as needed; and/or 4) the project did not require the entire amount of the Federal grant to complete its mission.
- 16 FY 2007 Total Uses of Funds exceeded Amount Received due to Federal Funds retained from previous years.
