About the Master List

The Governors' Office of Strategic Planning and Budgeting compiles *The Master List of State Government Programs and State Agencies' Five Year Strategic Plans* with information provided by state agencies in September of each year. In the interest of faithfully communicating the intentions of the agencies, OSPB only edits content to the extent necessary for clarity and makes no changes to the provided funding or performance data. Funding amounts for current and future years include all monies the agency is requesting, or plans to request, and is not related to the recommendations made in the Executive Budget.

Program Budgeting – About This Publication

The Strategic and Operational Plans of State Government Agencies are Critical Components of Program Budgeting and Transparency

Program budgeting in Arizona provides transparency and understanding of the functions of state agencies. Planning and budgeting is enacted and implemented in a way that allows citizens and policy makers to track the revenues and expenditures of each mandated function of state government as well as its operational goals and performance measures.

To that end, the Governor’s Office of Strategic Planning and Budgeting (OSPB) annually publishes the *Five-Year Strategic Plans* of State agencies and the *Master List of State Government Programs*, which includes each agency’s three-year operational plans.

Five-Year Strategic Plans focus on an agency’s: strategic issues, strategies for dealing with the strategic issues, and resource assumptions for the five-year period. *Five-Year Strategic Plans* are presented here unedited, as they were submitted by each agency.

The *Master List of State Government Programs* includes a detailed look at each mandated function of state government, organized as programs and subprograms. Each program and subprogram contains a mission, description, the main goals and performance measures, funding, and staffing.

This year, in consultation with the Governor’s Transformation Office, cabinet agencies have revised goals and performance measures included in the *Master List of State Government Programs* to align with agency scorecards. An agency scorecard is a performance management tool utilized by the Arizona Management System to track agency performance metrics on a monthly and annual basis.

On the pages that follow for each agency, the *Five-Year Plan* is displayed first, followed by detailed information for each agency’s programs and subprograms. The *Five Year Plan* contains projections through fiscal year 2023. Detailed program information contains information through fiscal year 2020.

State Agencies submitted their Five Year Plan and program information on September 1, 2018, prior to the creation of the Governor’s Executive Budget that was released in January 2019.

When first developed in 1994, each mandated function of state government was isolated within a discrete program or subprogram, to the extent possible. At that time, the Master List contained 1,267 programs. Shortly thereafter, the number of programs was consolidated to 528, the effect being that any single program may now contain several related functions. Currently, *The Master List* is the most complete list of State government programs available.

OSPB is required to publish the *Master List of State Government Programs* and the *Five-Year Strategic Plans* by A.R.S. § 35-122.

BOARD OF ACCOUNTANCY

Monica L. Petersen, Executive Director
Phone: (602) 364-0804
A.R.S. § 32-701

Mission:

To protect the public from unlawful, incompetent, unqualified, or unprofessional certified public accountants through certification, regulation, and rehabilitation.

Description:

The Arizona State Board of Accountancy consists of five certified public accountants (CPAs) and two public members, all of whom are residents of the state and are appointed by the Governor. The Board also has six advisory committees consisting of 46 members appointed by the Board whose work directly supports the Board's mission. The advisory committees are Accounting and Auditing, Tax Practice, Peer Review, Certification, Continuing Professional Education, and Law Review. The Board and its committees qualify candidates for the Uniform CPA Examination, certify individuals to practice as CPAs, register accounting firms owned by CPAs, and biennially renew certificates for CPAs and registered accounting firms. The Board and its committees also receive and investigate complaints, take enforcement action against licensees for violation of statutes and regulations, monitor compliance with continuing education requirements, and review the work product of CPAs to ensure adherence to professional standards through the Board's peer review program.

Issue 1 Office Modernization

Description The Board of Accountancy currently operates a database called the Accountancy Information Management System (AIMS) which is archaic and of limited value. The Board's existing database is not well organized in terms of its use, the data fields are static and do not collect history, it collects a limited and basic amount of information, and is restricted in its ability to query information for decision and policy making or performance measurement reporting due to its lack of content and static fields which are ever changing making it impossible to reproduce the result of a query from a former point in time.

A new database which we'll call the Arizona Regulatory Management System (ARMS) must be designed which will serve as a back office system. In contrast, AIMS is like four separate databases since information related to exam, certification, firms, and compliance must all be searched separately. This makes connecting the dots with individual registrants who might also be registered as a firm and who also might have a disciplinary history difficult and inefficient to ascertain. ARMS will be designed such that each individual receives a unique customer ID so with a search of a single name the Board can see all Board transactions related to the customer. Unlike AIMS, ARMS will build a relationship with our contacts. Contacts will link to our various business functions. ARMS will easily trace an individual from being an exam candidate, to being a certification candidate, to becoming a CPA, to belonging to a firm(s), as well as to having any possible compliance files.

Solutions:

Strategies:

1. Business Requirements/Analysis

- 1.1. Analyze existing AIMS data fields – what they truly represent and possible values
- 1.2. Identify AIMS predefined queries and reports used for the examination, firm and compliance module
- 1.3. Identify AIMS data used for various mail merges and where they're customized
- 1.4. Define aspects of examination, firm and compliance business processes
- 1.5. Define how transactions should be recorded
- 1.6. Identify additional critical data fields that are needed for examination, firm and compliance
- 1.7. Design screen mock-ups for each business processes to track important dates and milestones in the process, that are needed for management reporting

2. Data Development

- 2.1. Design tables/indexes in the database to represent the examination, firm and compliance business functions
- 2.2. Verify the existing data entered in AIMS for accuracy and correct mistakes
- 2.3. Expand the database design to automatically archive/track changes made in the database
- 2.4. Define the required data fields and data validation rules
- 2.5. Map and translate data from AIMS where possible to the new database structure
- 2.6. Merge AIMS data with ARMS

3. Application Development

- 3.1. Activate search for examination, firm and compliance
- 3.2. Create add/edit screens for examination
- 3.3. Create add/edit screens for firms
- 3.4. Create add/edit screens for compliance
- 3.7. Redesign and create new reports that replace the reports and queries in AIMS for examination, firms, and compliance

4. Testing

- 4.1. Write a comprehensive user guide for the examination, firm and compliance module of ARMS
- 4.2. Confirm examination, firm and compliance data was extracted and translated to ARMS correctly
- 4.3. Enter data in new fields that couldn't be converted from AIMS
- 4.4. Test adds, edits, deletes, saves and lookup of information using the various screens
- 4.5. Confirm that the security feature on various examination screens is enforced

-
- 4.6. Confirm that required fields are enforced and data validation rules are followed
 - 4.7. Test the accuracy of reports and user's access to them
 - 4.8. Test search functionality related to examination, firms, and compliance
 - 4.9. Test screen navigation in relation to business processes and workflows
 - 4.10. Confirm the archive tables properly reflect every type of change in data
 - 4.11. System test end-to-end ARMS in parallel with AIMS functions

5. System Deployment

- 5.1. Document the new modules for IT maintenance
- 5.2. Migrate the AIMS examination data to ARMS
- 5.3. Manually enter key data into new fields (embedded in notes in AIMS or kept separately)
- 5.4. Remove rights for users to access the old examination data in AIMS
- 5.5. IT Systems benchmarks and monitors performance
- 5.6. Train staff to use the system and understand the new & translated data
- 5.7. Evaluate the live system for a period of time

Issue 2 Records Retention

Description To simplify the Board's retention schedule and ensure consistent adherence for all public records regardless of medium. The Board's retention schedule is onerous, not properly followed and requires archiving of records longer than they are of administrative value which comes at an unnecessary expense.

The records maintained by the Board as well as other state and local governments are among the most valuable resources in their care. They are essential for the conduct of ongoing operations and the official documentation of legally binding decisions and actions of the government. Records allow the public to understand civic issues and they are the community's memory. Records need to be adequately preserved because:

- Officials use them to administer and monitor government operations
- Records document the conduct of public business
- Records ensure and measure government accountability
- Records contain information that is used by researchers from within and from outside government
- Historians and other researchers use government records for information on individuals, groups and the communication, on the development of the government and its operations, and on the life of the community itself.

Solutions:

1.Perform analysis on existing records retention schedule and determine business need for both onsite and offsite retention and revise retention accordingly and submit to Library and Archives for approval

- 1.1.Exam files
- 1.2.Certification files
- 1.3.Registrant (CPA) files
- 1.4.Registrant (firm) files
- 1.5.Compliance Files
- 1.6.Disciplinary Actions
- 1.7.Board and Committee Meetings

2.Evaluate the following general records retention schedules that apply to all public bodies and determine current compliance/noncompliance.

- 2.1.Administrative records
- 2.2.Audit records
- 2.3.Bond records
- 2.4.Copy center and mail room records
- 2.5.Election records
- 2.6.Electronic Communications, Social Networking and Website Records
- 2.7.Environmental Quality Management and Sustainability Records
- 2.8.Equipment/Vehicle Services Records
- 2.9.Facilities/Grounds Management Records
- 2.10.Financial Records
- 2.11.Human Resources/ Personnel Records
- 2.12.Information Technology (IT) Records
- 2.13.Law Enforcement Records
- 2.14.Library Records
- 2.15.Management Records
- 2.16.Medical Records
- 2.17.Official Records
- 2.18.Public Health Records
- 2.19.Public Information and Marketing Records
- 2.20.Purchasing/Procurement Records
- 2.21.Warehouse/Supply Records
- 2.22.Historic Preservation Records
- 2.23.Civic, Convention, and Cultural Facilities and Visitors' Bureau Records
- 2.24.Parks and Recreation Records

3. Develop records retention policies and procedures

4. Train staff on records retention policies and procedures

5. Archive or dispose of records as necessary to ensure compliance with the following:

5.1. New records retention schedule approved by Library and Archives for Board specific records

5.2. Areas of non-compliance identified in strategy 2.

Agency Summary

ACUPUNCTURE BOARD OF EXAMINERS

David Geriminsky, Executive Director
Phone: (602) 364-0145
A.R.S. § 32-3901

Mission:

To protect the health, safety, and welfare of the public by regulating and maintaining standards of practice in the field of acupuncture.

Description:

The Board licenses and regulates acupuncturists and certifies auricular (ear) acupuncturists for detoxification or substance abuse programs. The Board also oversees the licensing and certification of acupuncture training, continuing education programs, and visiting professors. The Board evaluates professional competency, investigates complaints, and enforces the standards of practice for the acupuncture profession. The Board regulates the educational, clinical, and clean needle technique programs approved to teach the practice of acupuncture in the State.

Issue 1 Technology and operational upgrades.

Description Description: As the Board plans for the future, the need to explore technology advances that will assist the Board in fulfilling its obligations is becoming critically important. The general public and licensed professionals are requesting the Board to update its information delivery systems.

Solutions:

Strategy: The Board has recently taken part in an E-Licensing project with 13 other agencies. While this system is an improvement on what was available to licensees in the past as they are able to file and pay for renewal and initial applications online there are several opportunities for improvement or enhancement. These would include making available to licensees the ability to conduct all business with the Board online including license verifications, payment of Civil Penalties etc.

Issue 2 Health and Safety Challenges.

Description Description: As part of the Board's role in protecting the safety and welfare of the general public, the Board continues to review its statutes and rules to ensure the profession is regulated in concert with the changes taking place at the state and national level.

Solutions:

Strategy:

The Board ran legislation during the last session to resolve several items as identified by the Auditor Generals Office.

On January 01, 2018 the Board will begin requiring all new Auricular Acupuncture license applicants to submit fingerprints to the Board for the purpose of obtaining a state and federal criminal records check and authorize the Department of Public Safety to exchange data with the Federal Bureau of Investigations.

Auricular Acupuncturists may now renew their certificates right up to the expiration date instead of being required to renew 30 days prior.

In addition, the Board now requires an applicant for Auricular Certification to disclose all other active and past professional health care licenses and certificates issued to the applicant in the United States instead of only auricular certifications/licenses.

Lastly, the Board has filed proposed rules with the Secretary of States Office that will resolve many of the audit recommendations, increase opportunity for licensees to obtain Continuing Education, streamline the Complaint Process, and make other changes to reduce the regulatory burden on the licensee.

Issue 3 Health care profession and provider changes.

Description Description:

The Board is aware of and concerned about the growing opioid epidemic and the need to find alternative treatments to successfully help patients find relief from their medical ailments and as well as chemical dependency.

Solutions:

Strategy:

The Board has approved a Substantive Policy Statement which will provide structure for Chemical dependency programs to be approved by the Board as allowed by statute. The Board will seek a rule change to clarify its position and amend the language in the existing rule regarding the requirements for Board-approval of alcoholism, substance abuse, or chemical dependency programs.

The Board will continue to approve any alcoholism, substance abuse, or chemical dependency program that is approved by the State of Arizona (including DHS) or the federal government, pursuant to A.A.C. R4-8-302, and will use the criteria as found in the Substantive Policy Statement to evaluate any other alcoholism, substance abuse, or chemical dependency program that seek approval.

This will have the effect of creating additional avenues for employment for Auricular Acupuncturists while simultaneously making this therapy designed to assist those with Chemical Dependency issues more available.

Issue 1 Develop and Retain a 2020+ Workforce

Description The Arizona State Personnel System has over 33,000 state employees. This workforce is comprised of very broad and diverse career fields such as, information technology, healthcare, law enforcement, social services, legal services, administration, engineering, and finance. Like many employers, Arizona is facing leaner staffing levels and tighter budgets and the needs to have the right expertise is more critical today than ever. Demographic shifts and competition for talent are expected to be the biggest influence on our workforce over the next five years, as increasing numbers of experienced employees leave or retire. We will continue to focus on implementing strategies to mitigate anticipated departures of our valuable employees, implementing recruitment measures to attract top talent, and ensuring our compensation system includes salary ranges consistent with market pricing of jobs.

Solution-

The Arizona Department of Administrations' Human Resources Division's (HRD) priority is to attract and retain a highly qualified 2020+ workforce that supports an efficient accountable government.

Solutions:**Objectives-**

Strengthen Core HR across the state enterprise by:

- ☑ Develop an SPS HR Professional Development Program and Toolkit for full implementation by 6/30/2018.
- ☑ Complete HR Governance Model work to leverage HR efforts across the state by 06/30/2018.
- ☑ Implement and/or upgrade a human capital management modernization solution (HRIS) and incorporate leading-edge technologies to enable faster decisions and better employee performance measurement and accountability.

Reinforce statewide employee engagement by:

- ☑ Design and implement an SPS enterprise wide Employee Onboarding Program by 6/30/2018.
- ☑ Design and implement an SPS enterprise wide Succession Planning Guide/Toolkit by 6/30/2018.
- ☑ Implement a statewide program to build workforce planning into agency strategic planning process, ensuring that each agency has a workforce plan by end of calendar year 2019.
- ☑ Implement at least 1 strategy from the ADOA Employee Engagement Toolkit in each Chief Human Resources Officer (CHRO) led agency by 12/31/2017.
- ☑ Deploy a dual career path in 10 cabinet agencies by 6/30/2018.

Reinforce our competitiveness in the job market by:

- ☑ Develop and implement an SPS enterprise wide Exit Interview/Survey Program by 10/31/2017.
- ☑ Develop and implement an SPS Stay Interview Program by 6/30/2018.
- ☑ Perform a comprehensive analysis of the current salary structures, including salaries governed by statute.
- ☑ Develop recommendations that are consistent with the spirit of an accountable public service.
- ☑ Complete the SPS Classification Reform Project by 6/30/2018.

Issue 2 Make Procurement a Value Center

Description The Arizona Department of Administration (ADOA) State Procurement Office (SPO) is responsible for negotiating rates and terms for more than \$1 billion in statewide contracts. The SPO team will utilize a number of proven tools in order to maximize the value the state receives for every dollar spent. A new negotiation focused strategy launched in November 2015. This method employs private-sector practices and is already generating significant negotiated savings.

Cost control is an important shared responsibility between SPO and the state agencies that utilize these contracts. Many factors impact how the state realizes savings, especially the increase or decrease in demand/volume for goods or services measured on a year-over-year basis. This complexity aside, SPO's goal is to negotiate the lowest total cost on behalf of the contract user that will ultimately translate into a reduction of expenses incurred by the state.

Statewide procurement tools are inadequate to support the new mission and are being review for upgrade.

Solutions:

- Data driven analysis of spend and competitive benchmarks by category/major contracts to define and prioritize saving opportunities
- Develop and deploy a Strategic Sourcing Process (SSP) to set cost reduction goals as well as monitor progress
- Accomplish goals set and proliferate process throughout the State Procurement Network (SPN)
- Automate the processes to facilitate usage as part of operations and continuously improve
- Supply base optimization and segmented procurement decisions aligned with the state budget

Solutions:

Objectives:

- Accomplish annual rate of Year Over Year (YOY) contract cost savings across the SPN
- Increase Co-op usage of statewide contracts annually.
- Develop and proliferate capabilities and tools for Supply Chain Management across the SPN
- Upskill SPN employees through advanced training and define create competency level menus
- Source advanced procurement platform for improved data quality and speed of decision making.

Strategies:

- Develop best in class negotiation tools
- Train other state agency procurement employees to become proficient in negotiation strategies
- Leverage technology to provide better data analysis
- Continuously improve SPN capabilities and reduce the number of suppliers in each category while expanding portfolios
- Develop and maintain healthy partnerships with State Agencies and key external organizations
- Assess and implement improved procurement tools to improve supplier payments and RFQ speed and quality.

Performance Measures:

- Year-Over-Year Negotiated Contract Savings
- Year-Over-Year Co-op Contract Utilization

Issue 3 Optimize Physical Assets

Description ADOA manages or supports operational services for 3.8 million square feet (GSF) in the Governmental Mall, Phoenix Metro, Tucson, and Kingman, including office space, parking garages, mechanical structures, labs, and data centers. The Legislature fully funded the Building System's Building Renewal Formula (for annual major maintenance) in only two of the last 31 fiscal years. Full funding of the Formula is a reference to the cumulative amount of annual appropriation required to sustain a given year's current facilities conditions, assuming all prior annual major maintenance requirements are completed. The 30+ years of funding shortfalls has resulted in an \$531.9M of accumulated deferred capital maintenance of the ADOA Building System. The postponed major maintenance requirements have created expensive utility, repair, maintenance, and replacement expenditures in deteriorating and poorly performing facilities.

In FY 2016, a Facility Condition Assessment (FCA) of 3 million GSF of ADOA owned and/or managed buildings in the Governmental Mall and Tucson indicated that over 36% of the structures assessed were in "below average," "poor," or "replacement" condition. The analysis of the overall conditions shows a higher than normal percentage of buildings in a below average condition. Most, if not all, renewable building system components have exceeded their statistical life cycle of 20-30 years of service. Some buildings are in such poor condition that the FCA recommends total replacement. Arizona is facing the inevitable long-term consequences of under investment in major maintenance requirements.

Solutions:**Objectives:**

- Achieve savings and general GF revenues to offset cost of renovations and new capital
- Reduce ADOA operating costs
- Improve preventative maintenance performance
- Make highest and best use of facilities
- Renovate facilities to improve employee morale and increase retention

Strategies:

- Increase the COSF rental rate to facilitate increased funding for building renewal and large scale capital maintenance and renovations to outdated and aging work spaces;
- Sell underutilized ADOA managed buildings
- Use FCA's to make targeted improvements to salvageable capital infrastructure to improve energy consumption, prolong useful lives of building systems, and improve working environments for state employees.
- Procure and implement unique financing opportunities for new capital outlay with private/public partners; and
- Apply space standards to renovated spaces to improve efficiency of space utilization

Issue 4 Drive Innovative IT Solutions**Description**

Description:
The State of Arizona delivers hundreds of services to citizens each year, but the majority of those services are being requested, processed and completed the same way they were 30 years ago – through paper forms, walk-up windows and postal mail. We want to move many more state’s services online, enabling Arizona to move at the speed of business. The goal of this project is to migrate agency services to an online experience for the citizen where they can request services without a pen, paper or stamp. Instead, the desired citizen experience will be on an internet-connected device of their choice where they can fill out online forms, use electronic signatures and submit directly from their laptop, tablet or smartphone. By giving citizens the ability to request any service, at anytime from anywhere, we will move Arizona’s government to be more in line with what our customers expect in 2016 and beyond. There is potential for Arizona to show \$100M+ savings after the services are modernized and broadly adopted by agency customers.

Solutions:

•ADOA-ASET has previewed a variety of software solutions that can help with this initiative, depending on readiness of the service, complexity and budget. Some services have already been migrated online by agencies themselves, as well as ADOA-ASET, so we will seek to learn from the processes that have already been automated, and use that to inform us about what works and doesn’t work for the future services.

Solutions:**Objectives:**

- 24 New Online Services Statewide in FY18
- Identify agencies with citizen-facing services.
- Work with agencies who are ready and willing to participate.
- Document the process workflow, and make sure it’s been optimized using Lean methods.
- Identify the best software solution(s) to automate the process.
- Determine the cost to modernize the service.
- Identify funding sources to pay for the modernization.
- Identify cost savings by service after implementation.
- Track progress on services automated and deliver regular reports to EAG5 and stakeholders.

Strategies:

•The Business Engineering team, along with members of our Web Portal and Web Design teams will work directly with the agencies who choose to participate, to determine the size and scope of modernizing their processes to an online experience.

Performance Measures:

- Number of services currently online, according to new definition: citizen needs no printer, pen or stamp to request the service.
- Average net cost reduction to take a service from current delivery method to online
- Number of services taken on-line over time
- Adoption rates by agencies

Issue 5 Ensure Fiscal Responsibility

Description The Benefit Services Division manages the Health Insurance Trust Fund and is responsible for the benefits provided to its 130,000+ members. Programs administered include self-funded medical, pharmacy and dental plans; fully insured dental HMO, vision, basic life, supplemental life, dependent life, short-term disability, long term-disability, flex spending accounts, home-owners and auto insurance plans, computer purchase and employee discount programs. In addition, the Division manages the statewide wellness program, as well as, an Employee Assistance Program.

Benefit costs are projected to continue to rise. Application of strong performance guarantees, on-going management of vendors and audit controls have aided efforts to maintain costs. In addition, the introduction of a health incentive program in 2014 and its continuation should assist in managing costs. Also, the purchase of a health care analytics tool will provide additional information to make better decisions regarding expenditures.

Solutions:

- Increase knowledge of employees, agencies and legislature regarding self-insurance.
- Improve health of members.
- Reduce costs through plan design changes.

Solutions:

Objectives:

- Contain per member per month medical/pharmacy costs to \leq 3.5% year over year, based on Plan Year 2015 per member/per month cost.

Strategies:

- Educate employees, agencies and legislature on plan design and self-insurance.
- Increase participation in Health Impact Program (HIP).
- Plan design changes.

Performance Measures:

- Year over year per member/per month costs \leq 3.5% by 2019
- HIP participation increased by 20% by 2019

Issue 6 Manage Risk and Ensure Business Continuity

Description The State of Arizona is experiencing substantial levels of cyber attack attempts to compromise our systems and our data. Many of the agencies, boards and commissions do not have the level of expertise to identify and stop sophisticated attacks. The agencies, boards and commissions also do not have the budget to invest in and maintain separate security systems to ensure the integrity and availability of their data.

Over the course of the past year, ADOA has strengthened cybersecurity and privacy operations to reduce enterprise risk. Employees participated in statewide training sessions and exercises to increase the awareness of cybersecurity threats, as well as to share best practices in preventing security or privacy incidents. ADOA leadership also established and strengthened cyber-relationships with critical infrastructure partners for collaboration regarding the state of cybersecurity at all levels of government.

In addition to education and outreach, ADOA will continue to invest in multiple layers of security to detect potential vulnerabilities in state technology systems and implement solutions to prevent intrusions. Through the adoption of security policies and standards, such as those outlined by the National Institute of Standards and Technology (NIST), ADOA will strive for the highest level of recommended technology security and privacy controls across all systems and drive those standards statewide.

Solutions:

- We are recommending the State of Arizona should standardize on 16 security products that establish a risk profile for the state and help to defend the state from the latest cyber-attack tactics. These 16 controls cover 14 of the top 20 CIS critical security controls for effective cyber defense.
- The CIS Critical Security Controls are a recommended set of actions for cyber defense that provide specific and actionable ways to stop today's most pervasive and dangerous attacks. The Controls are effective because they are derived from the most common attack patterns highlighted in the leading threat reports and vetted across a very broad community of government and industry practitioners.

Solutions:

Objectives:

• Build business requirements and create standardized product contracts for the following 16 security controls: Data Loss Prevention, Distributed Denial of Service, Application Penetration Testing, Vulnerability Assessments, Security Information Event Management, Vulnerability Management, Directory Auditing, Spam Filter, Web Application Firewall, Web Content Filtering, Advanced Endpoint Protection, File Integrity Monitoring, Security Monitoring, Device Hardening, Security Awareness, Multi Factor Authentication

- Save money with economies of scale of implementation.

Strategies:

- Enterprise contracts for 16 security controls, and implement those controls or have a plan to replace those controls into 80% of the state agencies, boards and commissions.

Performance Measures:

- Number of agencies using CSC framework
- Number of attacks identified by CSC framework
- Number of attacks not captured by CSC framework

Issue 7 Execute the Arizona Management System (AMS)

Description The Arizona Management System is a statewide intentional, results-driven system of management that engages employees, focuses on customers and drives continuous improvement in pursuit of desired results. There will be three phases to the journey: Setting the Foundation, Building the Muscle to Improve and Delivering Transformative Results.

Employee responsibilities will include understanding customer needs, identify problems, improve processes and measure results in order to do more good. Three core values held by employees are: Do the Right Thing, Commit to Excellence and Care About One Another. The intention is to demonstrate through measurable results that Arizona is the best state in the nation!

Solutions:**Objectives:**

100% of Work Units Score 3 or Better by FY 19; 65% in FY18

100% of New and Existing Employees Receive Introductory AMS Training in FY18

Strategies:

- Communication Cascading Measures in place to share learning and expectations.
- Problem Solving skill building is provided to all levels of employees
- Standard Work is in place for all levels of employees
- Recognition Plan established for improvement activities
- People Systems designed and in alignment with AMS
- Agency Scorecard established
- Business Reviews launched
- Leader Standard Work Routines established and audited
- Huddle Boards implemented, HB meetings scheduled, held, and audited
- Breakthrough projects completed
- Daily Kaizen activity increased

Performance Measures: By EOY 2018

- Establish OCI standard for each AMS element and create standard work.
- Create plan and deploy system the supports successful AMS rollout; train and deploy through on-the-job training.
- 100% of teams trained in each of the element buckets.
- Maintain 100% compliance with all new hire training through quarterly classes, bootcamps, and/or AMS 101 online training.
- 1.5 % improvement annually in Employee Engagement Survey scores (for the 6 lean related questions) until reach the 9:1 ratio

GOVERNOR'S REGULATORY REVIEW COUNCIL (GRRC)
, ADOA General Counsel Phone: (602) 542-2181 A.R.S. § 41-1001

Mission:

To deliver effective and efficient enterprise support services to agencies allowing them to focus more on their unique missions.

Description:

The Council is composed of seven members and, while tasked with several responsibilities, has two primary functions. First, the Council is the final step in the rulemaking process for most state agencies. The Council staff reviews rules, unless exempted from Council review by statute, to ensure that the rules are necessary and to avoid duplication and adverse impact on the public. The Council assesses whether a rule is clear, concise, and understandable, legal, consistent with legislative intent and within the agency's statutory authority, and whether the benefits of a rule outweigh the cost. If a rule does not meet these criteria, the Council returns it to the agency for further consideration.

Secondly, the Council is responsible for reviewing five-year review reports. Arizona law requires an agency to review its rules every five years to determine whether the rules need to be amended or repealed. After doing this review, the agency is required to submit a report of its findings to the Council, which will approve the report or return it to the agency for additional work. (NOTE: With regards to new rules, the agencies determine whether to complete a rulemaking action, and if not exempt from the rulemaking moratorium, must request an exception from the Governor's Office before beginning the process.)

TRAVEL REDUCTION

Matthew Hanson, Director, GFR
 Phone: (602) 542-3630
 A.R.S. § 49-588

Mission:

To deliver effective and efficient enterprise support services to agencies allowing them to focus more on their unique missions.

Description:

The sub program has moved under Administration. Through promotion, education and incentives, the Travel Reduction Program encourages non-university state employees in Maricopa County to carpool, vanpool, ride transit, bicycle or walk to work. Other forms of travel reduction such as telecommuting and virtual office are also pursued. A.R.S. § 49-588, which mandates this program, is a committed transportation control measure in several EPA-approved air quality plans. Failure to implement these legally binding commitments could lead to federal sanctions. Annual surveys are administered by this program to measure conformance. (NOTE: Customer satisfaction measures, unless otherwise noted, are based on an annual survey using a scale of 1-8 with 8 being the best rating.)

STATE PROCUREMENT

Ed Jimenez, State Procurement Administrator
Phone: (602) 542-1268
A.R.S. §§ 41-2501

Mission:

To deliver results that matter by providing best in class support services.

Description:

The State Procurement Office (SPO) serves as the central procurement authority for the State of Arizona. In doing so, SPO focuses on providing procurement leadership, procurement delegation, policy development, technical assistance, and maximizing strategic sourcing opportunities. The SPO conducts strategic sourcing for statewide non-programmatic specific contracts including: office supplies and equipment, temporary services, information technology equipment, software and telecommunication equipment and services. SPO also conducts specialized procurements for a large number of small agencies with limited procurement authority. Additionally, SPO provides and supports a central e-procurement system for state agencies and cooperative members (ie., counties, cities, schools) to use in conducting their procurements.

Issue 1 Strategic Issue 1

Statement: Stay up-to-date and enhance technological resources available to the OAH

Description Discussion: The OAH is technically sophisticated, and its efficiencies depend on developing, maintaining, and expanding automated technology.

Challenge: Technology is constantly changing with new possibilities being presented. In addition, software must be updated and equipment replaced in regular rotations.

Solutions:

Strategies:

- a. OAH will regularly survey technological advances through relevant literature.
- b. OAH will consult with other central panel directors regarding technological approaches to the delivery of efficient administrative hearing services.
- c. OAH will replace aging equipment and update software.

Expected Outcome: OAH will ensure business continuity.

Issue 2 Strategic Issue 2

Statement: To have all state agencies and superior courts exchange documents with OAH electronically.

Description Discussion: All agencies save one for which OAH provides hearing services currently exchange requests for hearings, final agency actions, agency records, and decisions electronically. In addition, OAH has implemented electronic record exchange with the Maricopa County Superior Court for judicial appeals from final agency decisions.

Challenge: While all agencies save one have now converted to electronic documents, electronic exchange of documents with some of the superior courts in Arizona is still not available to OAH.

Solutions:

Strategies:

- a. OAH will continue to work with the agency that has not yet converted to electronic documentation to accomplish that goal.
- b. OAH will continue to foster relationships among client agencies with differing technological capabilities to ensure that efficient and up to date methodologies are utilized for electronic filing.
- c. OAH will look for ways to implement, increase and enhance electronic filing for matters appealed to superior courts outside of Maricopa County. In the past fiscal year, several superior courts in Arizona have begun electronic filing through the E Courts filing system. OAH will work to obtain the ability to electronically file appeals records with those courts.

Expected Outcome: Both OAH and agencies will experience increased efficiency and lower costs.

Issue 3 Strategic Issue 3

Statement: To provide parties with options for mediation and other means of alternative dispute resolution.

Description Discussion: Within the last ten years, alternative dispute resolution, and in particular, mediation, has become widespread as an alternative to expensive litigation. Mediation has been used not only to resolve judicial matters but administrative matters as well and has seen widespread acceptance among administrative agencies in several states. Mediation offers parties the ability to settle their disputes at a fraction of the cost that administrative litigation would otherwise entail. In addition, mediation offers state agencies the ability to reduce demands on already overburdened state resources which in turn reduces agency expenditures.

Challenge: Until FY 2016, OAH had not looked at utilizing mediation as a means of dispute resolution. In 2016, that focus changed and OAH began to offer mediation services to a limited number of agencies.

Solutions:

Strategies:

- a. OAH has fully implemented mediation for several state agencies which send cases to OAH.
- b. OAH will continue to educate agencies and the public about the benefits of mediation. OAH will continue to encourage agencies and the public to explore mediation and alternative dispute resolution to litigation.
- c. All OAH judges are trained mediators. In total, OAH has 7 trained mediators, thus permitting OAH to expand the availability of mediation to parties seeking mediation. OAH will continue to offer parties and agencies expanded mediation resources.

Expected Outcome: OAH's expanding mediation resources will save parties time, effort, money and anxiety and conserve precious state resources. In turn, this will ultimately reduce state expenditures associated with protracted litigation in administrative proceedings.

Agency Summary

ARIZONA DEPARTMENT OF AGRICULTURE

Mark W. Killian, Director
 Phone: (602) 542-0990
 A.R.S. §§ 3-101 et seq.

Mission:

To support and promote Arizona agriculture in a manner that encourages farming, ranching, and agribusiness; protects the well-being of people, plants, animals, and the environment; and safeguarding commerce, consumers, and natural resources.

Description:

The Arizona Department of Agriculture, often in cooperation with federal entities, regulates facets of the agriculture industry to promote the general welfare of the agricultural community, inform consumers, and protect public health and safety. The Department conducts food quality and safety inspections of meat, dairy, vegetable, citrus, fruit, and egg products; registers, licenses, and samples feed, fertilizer, seed, and pesticide companies or products; regulates agricultural pesticide use; trains and certifies pesticide applicators; protects native plants; guards against the risks associated with the entry, establishment and spread of plant pests, diseases and noxious weeds; licenses produce dealers and shippers; provides education on pesticide safety and air quality; provides forensic, product quality, food safety, and other agricultural laboratory analysis, identification, certification, and training services; provides administrative support for the citrus, lettuce, and grain commodity councils and the Agricultural Employment Relations Board; inspects, tests, and licenses commercial weighing and measuring devices; and regulates pest management and pest management services.

ANIMAL PRODUCTS FOOD SAFETY AND QUALITY INSPECTION

Chris McCormack, Associate Director
Phone: (602) 542-7186
A.R.S. §§ 3-101 et seq.

Mission:

To protect against the distribution of unsafe, unwholesome, and improperly labeled meat, poultry, milk, and eggs.

Description:

This subprogram is designed to help protect the public health and safety from microbiological, chemical, and physical food hazards or substandard quality resulting from the processing and packaging of meat, poultry, milk, and eggs. Slaughtering facilities and processors receive licensing and permitting services, on-site inspections, and testing of samples for microbiological, drug, and chemical residues. State and federal regulations are administered relating to the sale, packing, and movement of eggs and egg products. Inspection activities include egg products control, shell egg grading, dairy farm, dairy plant and milk tanker inspections. Poultry used in school lunch programs also is inspected for quality and safety.

Subprogram Summary

FRESH PRODUCE STANDARDIZATION AND INSPECTION

Ed Foster, Supervisor of Inspection
 Phone: (602) 542-0947
 A.R.S. §§ 3-101 et seq.

Mission:

To inspect the quality of fresh produce in the marketing chain from farm to consumer through established standards of the Arizona or United States Department of Agriculture and applicable marketing orders.

Description:

This subprogram inspects the quality of fresh produce in accordance with standards established by the United States Department of Agriculture (USDA) and provides food safety audits under the Arizona Leafy Green Products Shipper Marketing Agreement (AZ LGMA). Under a cooperative agreement, USDA inspections are given by federal/state inspectors and take place primarily at the shipping point (point of origin), port of entry (Arizona-Mexico border), or the terminal market (point of destination). Inspections encompass several areas, including quality, maturity, processing, labeling, storage, handling, and refrigeration of products. USDA grade inspections are fee-based and given at the request of industry desiring either to market their produce under USDA quality grade standards, or to fulfill requirements for United States imports, exports, marketing orders, or military shipments. Food Safety Audits consist of an official review conducted by an auditor to verify and document that the best practices are adhered to and includes a physical visit to the farm or facility subject to audit while it is in operation, where practical. An audit represents a "snapshot in time" based on documentation review, persons interviewed, and operations observed and is intended to reflect past and ongoing activities. The Standardization Inspection Program has moved toward a food safety program versus a produce quality program. The Standardization Program statutes and rules, which include licensing and labeling requirements, will remain in place to ensure industry uniformity.

NON-FOOD PRODUCT QUALITY ASSURANCE

Jack Peterson, Associate Director
 Phone: (602) 542-3575
 A.R.S. §§ 3-101 et seq.

Mission:

To protect the public's interest by ensuring the quality of feeds, fertilizers, pesticides and seed.

Description:

This program serves to assure public confidence in the quality of feed, fertilizer, pesticide and seed products. All of these products range from the envisioned agricultural products to those used in the urban setting for caring for your pets, tending a garden, cleaning a home, or controlling pests in and around the home. Regulation of the various industries is accomplished through two basic functions. First, regulatory processes are undertaken to register pesticides and fertilizers and to issue licenses to feed, fertilizer, and seed dealers and labelers. Secondly, enforcement activities are conducted by inspectors who confirm product registrations and company licensing, and who regularly sample feed, fertilizer, pesticide, and seed products to ensure that label statements, product guarantees, and applicable laws are adhered to. Inspectors also respond to individual consumer complaints regarding product quality concerns.

ANIMAL DISEASE, OWNERSHIP AND WELFARE PROTECTION

Chris McCormack, Associate Director
 Phone: (602) 542-7186
 A.R.S. §§ 3-101 et seq.

Mission:

To protect livestock from disease, abuse or theft.

Description:

This program regulates the importation of livestock, poultry, and live fish into Arizona to identify, diagnose, and prevent existing and emerging diseases that would threaten those industries and possibly compromise the supply of safe and wholesome animal products to the consuming public. It also monitors livestock ownership and movement, investigates cases of alleged livestock abuse and theft, and assists in containing livestock that endanger the public safety.

PEST EXCLUSION AND EXPORT SERVICES

G. John Caravetta, Associate Director
 Phone: (602) 542-0996
 A.R.S. §§ 3-101 et seq.

Mission:

To ensure the provision of pest-free agricultural products and protect the public from agricultural pests through prevention, control, and eradication, thereby, maximizing domestic and international market access for Arizona produced commodities and maximizing product availability for the public.

Description:

The Pest Exclusion and Export Services program has moved to incorporate new technology, advance inspector training, update quarantine requirements and employ intensive pest trapping methods to meet the challenges of rapid urban development, increased global and domestic trade and expanded export opportunities for Arizona's agricultural commodities and value added products. The mission is executed through the concerted efforts within the division that incorporates a comprehensive survey and detection program. Arizona's "pest free" status for federally regulated pests evidences the synergy of these efforts. Pest detection, management, and eradication are a large part of the division's regulatory function. Division staff perform regular and systematic surveys to prevent the introduction, establishment, and spread of pests which pose a threat to Arizona's residents and plant industries and regulate the movement of commodities and facilitate imposition of in-state quarantines where pest eradication is required, or restricted movement of a commodity is necessary.

AGRICULTURAL CONSULTATION AND TRAINING

Susan Chase, Assistant Director
 Phone: (602) 542-0984
 A.R.S. §§ 3-101 et seq.

Mission:
To guide the agricultural community in a non-enforcement posture on regulatory matters administered by the Arizona Department of Agriculture.

Description:
 The Agricultural Consultation and Training (ACT) Program is an innovative compliance assistance program that guides the agricultural community in a non-enforcement posture on regulatory matters, and administers the Livestock and Crop Conservation and Specialty Crop Block Grant Programs. Through requested on-site visits (OSV), program staff provides non-regulatory advice to the agricultural community on how to comply with State statutes, regulations, policies, and federal mandates that the Arizona Department of Agriculture is responsible for directly administering or indirectly administering through contractual agreements. No regulatory actions may be taken as a result of the OSV, except in cases of imminent danger. This program was first established in FY 1995. The ACT Program oversees administrative support for the Arizona Citrus Research Council, Arizona Grain Research and Promotion Council, Arizona Iceberg Lettuce Research Council, and Agricultural Employment Relations Board.

PEST MANAGEMENT

Vince Craig, Associate Director
 Phone: (602) 255-3663
 A.R.S. §§ 3-101 et seq.

Mission:

To help ensure the safe application of pest control technologies, through education, training and enforcement. This results in the maximization of the health and safety of all Arizonans while at the same time ensuring the protection of property and the environment.

Description:

The Office of Pest Management (OPM) licenses and regulates pest control companies, qualifying parties, and applicators. The OPM provides education and training to applicants and licensees. The Office also provides education and information to the public regarding pest control activities in non-agricultural settings.

AHCCCS

Thomas J. Betlach, Director
 Phone: (602) 417-4711
 A.R.S. §§ 36-2901 et seq.

Mission:

To provide comprehensive, quality health care for those in need.

Description:

The Arizona Health Care Cost Containment System (AHCCCS), the State's Medicaid agency, uses federal, State, and county funds to provide health care coverage to the State's acute and long-term care Medicaid population and low-income groups.

Since 1982, when it became the first statewide Medicaid managed care system in the nation, AHCCCS has operated in accordance with a federal research and demonstration waiver that allows for a total managed care model of service delivery. Unlike other states' Medicaid programs that rely solely on fee-for-service reimbursement, AHCCCS makes prospective capitation payments to contracted health plans responsible for the delivery of care. The result is a managed care system that mainstreams recipients, allows them to select their providers, and encourages quality cost-effective care and preventive services.

AHCCCS administration is responsible for planning, developing, implementing, and administering the health care programs for low-income Arizonans. Specifically, it provides direction and oversight of operations related to eligibility, enrollment, quality of care, contracted health plans and providers, and procurement of contracted services.

Major medical programs include acute care, long-term care, and behavioral health services. AHCCCS administration determines eligibility for the Arizona Long Term Care System (ALTCS), Children's Health Insurance Program (KidsCare), Qualified Medicare Beneficiaries, and other Supplemental Security Income-related Medical Assistance Only programs. Federal funding through Title XIX and Title XXI of the Social Security Act is provided to AHCCCS by the Centers for Medicare and Medicaid Services (CMS), a federal agency within the U.S. Department of Health and Human Services.

Issue 1 AHCCCS must pursue and implement long-term strategies that bend the cost curve while improving member health outcomes.

Description One of the biggest challenges facing health care today is that incentives are often not aligned for providers and payers. Even with significant managed care penetration in Arizona Medicaid, many providers still are reimbursed through fee-for-service mechanisms that reward volume over value.

Payment modernization is a critical policy strategy for moving to a financially sustainable and value-based healthcare delivery system, which rewards high quality care provided at an affordable cost. There are many value based approaches with varying degrees of breadth and depth within Medicaid, Medicare and commercial coverage. Reforms include outcome based care models, risk bearing models, population based payments and episodic payments that can lead to improved health and overall program savings. Many AHCCCS stakeholders are engaged in developing initiatives and arrangements that embrace the key features of alternative payment models.

AHCCCS remains committed to maximizing the efficiencies within its program as demonstrated by the multi-year contractual requirements for Managed Care contractors. AHCCCS has supported a market based approach that incentivizes payers and providers to establish new value based arrangements that align incentives to improve efficiency and member outcomes.

Additionally, AHCCCS has pursued adjustments in the fee-for-service payment schedule to incentivize certain value measures for providers. For example, AHCCCS recently created a program for first responders to provide for treatment and referrals instead of requiring transportation to an emergency room to receive payment. AHCCCS also created a model to incentivize providers to offer integrated care of both physical and behavioral health services.

Finally, as part of the efforts to bend the cost curve and ensure overall fiduciary oversight, AHCCCS continues to dedicate significant agency resources to Program Integrity efforts. The agency develops an annual strategic plan focused entirely on efforts to reduce fraud, waste and abuse along with improving coordination of benefits and other important initiatives.

Solutions:

STRATEGY 1.1

Increase use of alternative payment models for all lines of business

PERFORMANCE MEASURE 1.1.1

47% of Health Plan spend in alternative payment models by 10/1/18

STRATEGY 1.2

Increase use of value based AHCCCS Fee Schedule differentiation

PERFORMANCE MEASURE 1.2.1

Value based differentiations available for 50% of FFS spend exclusive of IHS/638 reimbursement

STRATEGY 1.3

Modernize hospital payments to better align incentives, increase efficiency and improve the quality of care provided to members

PERFORMANCE MEASURE 1.3.1

Begin and implement quality based APR-DRG adjustments by 10/1/18

STRATEGY 1.4

Achieve the Program Integrity Plan goals that improve Third Party Liability (TPL), Coordination of Benefits (COB), and Fraud and Abuse programs

PERFORMANCE MEASURE 1.4.1

Percent of Program Integrity goals met

STRATEGY 1.5

Reduce administrative burden on providers while expanding access to care

PERFORMANCE MEASURE 1.5.1

Implement three strategies to reduce administrative burden on providers

Issue 2 AHCCCS must pursue continuous quality improvement

Description AHCCCS has built its quality structure over time by continual review of applicable national standards and regional trends, collaboration with partners, and its own experiences. The Quality Strategy includes both the Medicaid and CHIP programs and encompasses all AHCCCS contractors. It also incorporates measures to improve the Agency's internal processes involving enrollee information, monitoring and evaluation.

AHCCCS regularly identifies key clinical and non-clinical areas on which to focus future quality improvement efforts. This is done through analyses of state and national trends and in consultation with other entities working to improve health care in Arizona, such as the Medicare Quality Improvement Organization (QIO), community leaders, other state agencies, and AHCCCS Contractors. In addition, AHCCCS utilizes the Consumer Assessment of Healthcare Providers and Systems (CAHPS). It is a survey tool created by the Agency for Healthcare Research and Quality (AHRQ) to support and promote the assessment of members' experiences with health care. The member data collected may be used to identify areas of program success and areas in need of targeted improvement.

AHCCCS also establishes performance measures based on the CMS Core Measure sets and the National Committee for Quality Assurance (NCQA) HEDIS measures, as well as measures unique to Arizona's Medicaid program. Over time, the number and content of CMS measure sets has grown significantly and shifted the focus to align more with outcomes and experiences of care. AHCCCS has adopted measures from these sets that are the most relevant for the AHCCCS population, when reliable data sources exist and where the results of measurement would yield actionable opportunities to improve outcomes and member satisfaction. To support the transition to and implementation of new measures, AHCCCS continues to expand its information technology and business analytics capabilities to support expanded data source opportunities.

AHCCCS also establishes minimum performance standards and goals for each performance measure that are based on national standards, such as the NCQA National Medicaid means, whenever possible. Contractors are expected to achieve the minimum performance standard for performance measures. Performance measure reports may compare the Contractors' results with one another and with national Medicaid and commercial health plan averages. Contractors are expected to develop methods to continuously increase the well-being of their respective populations through the removal of barriers to care and ongoing process improvement. AHCCCS also participates in national efforts focused on developing Medicaid and CHIP Core Measures to allow comparability across States' programs.

Care coordination is an important element of ensuring quality of care and positive outcomes for AHCCCS members. Quality management and quality improvement initiatives focused on communication and coordination for follow-up after discharge, medication management, receipt of chronic disease recommended care and services and data sharing among the care team are anticipated to result in improved outcomes, member satisfaction and more appropriate utilization of health care services. AHCCCS monitors the effectiveness of these activities through the measurement of inpatient, emergency department and re-admission rates.

AHCCCS Contractors are expected to conduct Performance Improvement Projects (PIPs) in clinical care and non-clinical areas that are anticipated to have a favorable impact on health outcomes and member satisfaction. Utilizing financial, population, and disease-specific data and input from the Contractors, AHCCCS selects an indicator of performance improvement to be measured across Contractors. Focused PIPs may also be assigned to individual Contractors when needs are identified. For each mandated PIP, AHCCCS develops a methodology to measure performance in a standardized way across Contractors and manages data collection and analysis. In this way, AHCCCS ensures that the project is implemented by Contractors in a consistent manner and yields results that can be analyzed on the individual Contractor level, as well as by other stratifications and for the program overall. In addition, Contractors are required to review their data and quality measures to determine Contractor-specific PIPs

The health and safety of AHCCCS members receiving covered services remains a focus for the Agency. AHCCCS utilizes a multi-Agency and Contractor approach in implementing oversight health and safety requirements.

Solutions:**STRATEGY 2.1**

Achieve statistically significant improvements on Contractor PIPs

PERFORMANCE MEASURE 2.1.1

Percent of AHCCCS Contractors that complete AHCCCS-mandated PIPs (improve and sustain performance) or demonstrate

statistically significant improvement on re-measurements

STRATEGY 2.2

Achieve and maintain improvements on quality performance measures

PERFORMANCE MEASURE 2.2.1

Percent of measures which exceed the NCQA mean

PERFORMANCE MEASURE 2.2.2

Improve quality measurement infrastructure and systems by 10/1/18

STRATEGY 2.3

Leverage American Indian care coordination initiative to improve health outcomes

PERFORMANCE MEASURE 2.3.1

Number of facilities achieving medical home status

PERFORMANCE MEASURE 2.3.2

Number of members in active care coordination

STRATEGY 2.4

Increase transparency in health plan performance to inform health plan selection

PERFORMANCE MEASURE 2.4.1

Update and improve Health Plan Scorecard

Issue 3 AHCCCS must reduce the systematic fragmentation that exists in healthcare delivery to develop an integrated system of healthcare

Description The definition of a system is an assemblage or combination of things or parts forming a complex or unitary whole. Unfortunately, health care delivery has become increasingly fragmented, leading to coordination and communication challenges for patients and clinicians. Ultimately, this fragmentation degrades the quality of health care due to disrupted relationships, poor coordination of care and communication within and across provider groups. In an effort to address this issue, the structure of the AHCCCS program is transforming. Integrated care delivery systems and the proper alignment of incentives efficiently improve health outcomes. Both are critical for reducing fragmentation.

AHCCCS has been engaged in a multi-year effort to reduce fragmentation at the provider, payer and policy level for AHCCCS members. Starting in 2013 AHCCCS has successfully integrated services for a number of populations. System design matters and AHCCCS has worked with a variety of important stakeholders to develop new delivery systems that are focused on whole person health integrating both physical and behavioral health services. These integration efforts include:

- 1.Children’s Rehabilitative Services – Previously 17,000 children with complex medical needs were served by three different payers. These included an acute plan, RBHA and CRS plan. These members are now served by a single Integrated Contractor.
- 2.Individuals with Serious Mental Illness – In 2014 and 2015 almost 40,000 individuals with Serious Mental Illness went from potentially up to 4 different payers involved in covering select services to a single organization that was responsible for all services for that member.
- 3.General Mental Health and Substance Abuse services for dual eligible members – In 2015, AHCCCS integrated services for 80,000 dual eligible members.
- 4.American Indian members –In 2016, as a result of the DBHS merger, AHCCCS was able to streamline the requirements for TRBHA organizations creating an opportunity to integrate services and work more closely with Tribes on the delivery and coordination of services.
- 5.Dual Eligible members – AHCCCS continues to pursue strategies to better align services for members that are enrolled in both Medicare and Medicaid. In 2016, AHCCCS had approximately 48% of the population aligned which is the highest percentage ever.
- 6.AHCCCS/DBHS merger – In 2016 AHCCCS completed a merger with the Department of Health Services Division of Behavioral Health. This merger brings behavioral health and physical health together at the policy level that will ensure behavioral health and physical health policies and system requirements are established with a focus on whole person health.

Looking ahead the work around transformation through integration and reducing fragmentation will continue. AHCCCS will continue to look at opportunities to support providers that want to integrate services for members. This includes continuing to focus on value based opportunities that align incentives and reducing the administrative burden. In addition there will be further efforts to integrate services for Individuals with Developmental Disabilities and other AHCCCS populations.

Solutions:

STRATEGY 3.1

Establish system of integrated care organizations which serve all AHCCCS members

PERFORMANCE MEASURE 3.1.1

Offer integrated contract for all AHCCCS members by 2019

PERFORMANCE MEASURE 3.1.2

Increase dual members aligned

STRATEGY 3.2

Establish policies and programs to support integrated providers

PERFORMANCE MEASURE 3.2.1

Increase the number of AHCCCS registered integrated clinics by 50% by 10/1/2018

STRATEGY 3.3

Leverage fully functioning integrated Health Information Exchange to create more data flow in healthcare delivery system

PERFORMANCE MEASURE 3.3.1

Number of providers registered in the HIE

PERFORMANCE MEASURE 3.3.2

Total Number of Data Users

STRATEGY 3.4

Develop strategies to strengthen the availability of behavioral health resources within the integrated delivery system

PERFORMANCE MEASURE 3.4.1

Percentage of children in foster care receiving at least one service per month for their first six months in foster care

PERFORMANCE MEASURE 3.4.2

Percentage of individuals with an ASD diagnosis on a claim in the last year who received a behavioral health service during the quarter

STRATEGY 3.5

Develop comprehensive strategies to curb opioid abuse and dependency

PERFORMANCE MEASURE 3.5.1

Quantity of opioids dispensed

STRATEGY 3.6

Improve access for individuals transitioning out of the justice system

PERFORMANCE MEASURE 3.6.1

Establish 2 clinics inside probation and parole offices by 10/1/18

PERFORMANCE MEASURE 3.6.2

Percent of AHCCCS eligible individuals enrolled upon release

Issue 4 AHCCCS must maintain core organizational capacity, infrastructure and workforce planning that effectively serves AHCCCS operations.

Description If the agency is going to be successful in pursuing these important delivery system transformations then there are a number of other important infrastructure capabilities that must be addressed over the next several years.

Workforce

In order for AHCCCS to achieve the established operational and strategic objectives, the organization must have a dedicated, professional staff that is committed to the mission. Based on the most recent state survey AHCCCS had 12 staff engaged for every staff member not engaged. This compares to the state government rate of 2.2 to 1. A few other important metrics include the fact that 97% of the AHCCCS staff believe in the mission, 97% respect and value team members and 94% understand what is expected.

However, there are challenges to sustaining the high level performance of the AHCCCS workforce. AHCCCS continues to operate with approximately twenty five percent less staff than prior to the start of the Great Recession. Turnover rates are, on the average, in the 19% range, while approximately 15% of the current AHCCCS workforce is eligible to retire

AHCCCS is pursuing several strategies to address these challenges.

1. Increasing AHCCCS' presence in the employment marketplace for purposes of enhancing our ability to attract the most qualified applicants;
2. Identifying and implementing relevant compensation strategies;
3. Maintaining an environment conducive to staff engagement;
4. Expanding innovative, low-cost professional development opportunities for existing employees;
5. Retaining critical staff;
6. Workforce and succession planning in order to ensure continuity of services and avoid leaving a significant gap in the Agency's knowledge base; and
7. Continuing to provide flexibility.

Approximately 22% of the AHCCCS workforce is Virtual Office with an even higher percentage on some variation of a flexible work schedule. This type of flexibility has proven essential to retention and assisting employees with striking a work-life balance.

Systems

System resources will continue to be a challenge and maintaining the appropriate infrastructure to manage and analyze the millions of records generated by the AHCCCS system requires appropriate investment.

Security

The AHCCCS Information Systems Division (ISD) must be ever vigilant regarding the security posture of the systems and important information contained within these systems. Proactive mitigation of security risks strengthens the ability to safeguard and protect Personally Identifiable Information (PII) and Protected Health Information (PHI) data entrusted to the Agency by our more than 1.9 million members. In addition to the AHCCCS mainframe system (PMMIS), ISD will continue to keep non-mainframe systems and applications running consistently and efficiently. This includes server based applications, network infrastructure, the data warehouse, and digital communication.

Leveraging Data Analytics

The availability of reliable and valid information and the capacity to make that information actionable is critical to the decision-making process. Data-driven decision-making is the best way for true reform to occur in the healthcare system. However, determining the most effective way to utilize data, and having the time and resources to effectively

review or explore data can produce challenges. As a result, there is an increased value and emphasis being placed on data analytics. The Office of Business Intelligence (OBI) is responsible for the AHCCCS Data Warehouse, which provides the Agency with information that is easily accessible and reliable. The information allows the organization to gain greater insight into its operations. AHCCCS will work with internal and external data analytics experts to develop the organization's capacity as a whole to turn solid information into effective actions.

Solutions:

STRATEGY 4.1

Pursue continued deployment of electronic solutions to reduce healthcare administrative burden

PERFORMANCE MEASURE 4.1.1

Percent of members submitting on-line applications

PERFORMANCE MEASURE 4.1.2

Online provider application and renewal process created by 1/1/19

PERFORMANCE MEASURE 4.1.3

AHCCCS will develop the ability to accept provider appeals online by 2020

STRATEGY 4.2

Continue to manage workforce environment, promoting activities that support employee engagement and retention; and address potential gaps in the organization's knowledge base due to retirements and other staff departures.

PERFORMANCE MEASURE 4.2.1

Rate of employee turnover within the first year of employment

PERFORMANCE MEASURE 4.2.2

AHCCCS Overall Employee Engagement Score

STRATEGY 4.3

Strengthen system-wide security and compliance with privacy regulations related to all information/data by evaluating, analyzing and addressing potential security risks

PERFORMANCE MEASURE 4.3.1

ADMINISTRATION

Thomas J. Betlach, Director
 Phone: (602) 417-4711
 A.R.S. Title 36; Title XIX, SSA

Mission:

To provide comprehensive, quality health care for those in need.

Description:

The Administration contracts with health plans and program contractors that agree to accept a capitated monthly payment for the cost of providing medical care to enrolled members. Responsibilities of Administration that relate to health plans and program contractors include rate negotiations, financial and operational oversight of health plans and program contractors, and quality of care assessments. The Administration also manages a fee-for-service payment system that covers medical bills for IHS enrolled members and emergency services for qualified aliens.

Additional responsibilities of Administration include the development and maintenance of the management information system, coordination of provider or eligibility grievances, policy development and research, agency financing and accounting, agency development and monitoring, third party liability recovery, and eligibility determinations for the Arizona Long-Term Care System and KidsCare. Eligibility for the Acute Care program is conducted by the Department of Economic Security and the Social Security Administration.

 A.R.S. § 36-2901

Mission:

To provide strategic leadership, policy, technology, legal, and financial direction and coordination for AHCCCS.

Description:

Central Administration consists of six operating offices or divisions that provide the following services:

- (1) The Office of the Director provides the overall policy direction for the agency, dedicating specific staff to public information, government relations, medical policy oversight, and strategic plan coordination;
- (2) The Information Services Division develops, acquires, and maintains automation for the agency;
- (3) The Division of Business and Finance oversees internal financial operations, third party liability, contracts, budget development and monitoring, purchasing, and facilities management;
- (4) Human Resources and Development addresses training, personnel assistance, guidance on organizational development, recruitment, retention, and equal opportunity;
- (5) The Office of Administrative Legal Services provides legal counsel for AHCCCS, manages contracted legal services, and offers members, contractors, and providers a fair, expeditious, and cost-effective process for informal grievance adjudication;
- (6) The Office of Inspector General is responsible for the prevention, detection, and investigation of fraud and abuse by providers, health plans, and members in the AHCCCS program.

PASS-THRU TO OTHER STATE AGENCIES

Thomas J. Betlach, Director
 Phone: (602) 417-4711
 A.R.S. Title 36, Title XIX, SSA

Mission:

To partner with other state agencies for administrative services to reach across Arizona to provide comprehensive quality health care for those in need.

Description:

The Department of Economic Security (DES), Department of Health Services (DHS), Office of Administrative Hearings (OAH) and the Department of Administration's Data Center (DOADC) coordinate with AHCCCS by providing administrative support for the program. DES performs eligibility determination for approximately three-fourths of the AHCCCS members, which include 1931(b) Eligibility (TANF), SOBRA pregnant women and children, Proposition 204, and other "medical assistance only" groups for families with minor children. AHCCCS passes through state and federal funds to DES to cover the costs of determining eligibility and automation of the eligibility systems. Preadmission screening and annual resident reviews are conducted by DES and DHS by conducting level II screenings for eligible patients in Title XIX certified nursing facilities. These residents have been identified through a level I screening process as potentially having a mental retardation or mental illness. The DES, Disability Determination Services, determines disability entitlement for the Arizona Long Term Care System's applicants, SSI/MAO, and SSI-related Federal Emergency Services applicants.

In addition, DHS, Nursing Facility Licensure, determines whether institutions and suppliers of service meet the requirements for participation in the Medicaid program as it applies to licensure, certification, or registration. DOA provides computer processing services, operating manuals, documentation services, and back-up support in case of equipment failure. And OAH provides legal hearings for providers and members, ensuring equitable treatment of all participants in the Arizona Health Care Cost Containment System. (Pass-Thru funding includes DES, DHS, OAH, DOADC and Trauma Center.)

DIVISION OF HEALTH CARE MANAGEMENT

Shelli Silver, Assistant Director
 Phone: (602) 417-4647
 A.R.S. Title 36; Title XIX, SSA

Mission:

To enhance the capability of the AHCCCS program to ensure the provision of quality health care services to its members, while obtaining full economic value for monetary resources expended.

Description:

The Division of Healthcare Management (DHCM) is the main contact with AHCCCS health plans and program contractors. It ensures that the health plans and program contractors continue to be viable economic entities while providing quality health care to members. In addition to regular on-site audits, health plans and program contractors have periodic reporting requirements to DHCM such as utilization of service, financial statements, network participants, and grievance and appeals. DHCM, with the assistance of actuaries, is responsible for developing and negotiating contracts with health plans and program contractors as well as rate setting and encounter reporting. DHCM also coordinates oversight of the delivery of behavioral health services through Arizona Long Term Care System (ALTCS) program contractors and through a contract with the Department of Health Services for acute care members. In addition, for purposes of monitoring performance and quality of care, there are sections for clinical research and data management, as well as clinical quality management.

DIVISION OF FEE-FOR-SERVICE MANAGEMENT

Elizabeth Carpio, Assistant Director

Phone: (602) 417-4616

A.R.S. Title 36; Title XIX, SSA

Mission:

To place a greater emphasis on the health care of our fee-for-service members through oversight of provider registration, prior authorization, and claims administration.

Description:

The Division of Fee-for-Service Management (DFSM) consists of prior authorization and claims administration. The prior authorization unit ensures that proposed services are medically necessary, provided in the most appropriate setting, and within the scope of AHCCCS coverage for fee-for-service members. The accuracy of payment for services is carefully monitored.

DIVISION OF MEMBER SERVICES

Joni Shipman, Assistant Director
 Phone: (602) 417-4512
 A.R.S. Title 36; Title XIX, SSA

Mission:

To assist AHCCCS-eligible members in accessing health care.

Description:

The Division of Member Services (DMS) is responsible for the determination of eligibility for the Arizona Long Term Care System (ALTCS) and for other SSI-related Medical Assistance Only (MAO) programs; the state's Children's Health Insurance Title XXI Program (KidsCare) as well as Families with Children Medicaid programs for households that have both KidsCare and Medicaid-eligible members, Freedom to Work (FTW), Breast and Cervical Cancer (BCC), and for three Medicare cost-sharing programs.

In addition, DMS is responsible for enrolling eligible acute care and ALTCS members, and for providing member eligibility and enrollment information. DMS maintains day-to-day liaison with, and oversight of, the Department of Economic Security in performing AHCCCS eligibility determinations.

DMS also conducts quality control targeted and statistically valid sample management evaluation reviews for these specific programs, in addition to predetermination quality control reviews.

AZ LONG TERM CARE SYSTEM (ALTCs)					
Virginia Rountree, Administrator					
Phone: (602) 417-4122					
A.R.S. Title 36; Title XIX, SSA					

Mission:

To provide quality long-term care, acute care, behavioral health, and case management services to eligible Arizona Long Term Care System (ALTCs) members.

Description:

AHCCCS implemented the first phase of ALTCs for persons with developmental disabilities on December 19, 1988, and the second phase for the elderly and physically disabled persons on January 1, 1989. Eligibility is performed by AHCCCS. Available services include care in a nursing facility, Intermediate Care Facility for the Mentally Retarded, Residential Treatment Facility, alternative residential settings, and a wide range of home and community-based services. On October 1, 1992, behavioral health services were added for Early Periodic Screening, Diagnostic and Treatment (EPSDT) ALTCs children, under age 21. The remaining populations were phased in until October 1, 1995, when all Title XIX members became eligible for behavioral health services.

ACUTE CARE

Shelli Silver, Assistant Director
 Phone: (602) 417-4647
 A.R.S. Title 36; Title XIX, SSA

Mission:

To provide quality health care to eligible populations through contracted health plans.

Description:

Health plans receive a monthly capitation payment to cover the full range of approved services for AHCCCS enrollees. In addition to prospective capitation, health plans receive funding to pay for certain services provided to members prior to enrollment in a health plan. AHCCCS also maintains some populations in a fee-for-service environment, the largest segment being the Native American population served by or through Indian Health Services. AHCCCS also pays Medicare premiums for qualified low-income Medicare beneficiaries and special low-income Medicare beneficiaries, so that the federal Medicare program serves as a source of payment for some of AHCCCS' medical services. (Acute funding: county contributions are allocated to capitation programs proportionately, tobacco taxes are allocated between acute program lines proportionately, and third party liability is grouped into fee-for-service programs proportionately.)

TRADITIONAL SERVICES

Penny Ellis, Assistant Director
 Phone: (602) 417-4512
 A.R.S. § 36-2901.4(b)

Mission:

To provide quality health care to families eligible for 1931(b) Medicaid for families with dependent children.

Description:

When the federal Personal Responsibility and Work Opportunity Reconciliation Act was enacted, it unlinked Medicaid benefits from the Aid to Families with Dependent Children (AFDC) cash assistance program. The Medicaid 1931 family coverage group was established to provide medical assistance to families who would have met the AFDC cash assistance eligibility criteria already in place on July 1996, and the requirements in Section 1931 of the Social Security Act. This coverage category includes parents or other adult relatives and their children under age 18; if 18, they must be students in a secondary school with the expectation of completing their education before they reach age 19; applicants who are in the last trimester of pregnancy and have no other children. When these persons become ineligible, due to excess income from employment, they qualify for transitional medical assistance for up to 12 months. If they become ineligible, due to receipt of child or spousal support income, they qualify for continued medical coverage for four consecutive months. (Breast and Cervical Cancer Treatment funding is included in this program.)

PROPOSITION 204 - SENATOR ANDREW NICHOLS COMPREHENSIVE HEALTH INSURANCE COVERAGE ACT

Penny Ellis, Assistant Director
Phone: (602) 417-4512
A.R.S. Title 36, Title XIX, SSA

Mission:

To expand Medicaid coverage for persons with income at or below 100% of the Federal Poverty Level, per a voter mandate.

Description:

Laws 2001, Chapter 344, authorizes AHCCCS to streamline and simplify the expansion of Medicaid. This act expanded eligibility for persons with income at or below 100% of the Federal Poverty Level (FPL). Beginning in January 2001, the federal government has continued to approve Arizona's request to expand eligibility to provide Medicaid coverage to individuals with income at or below 100% of FPL, as well as to individuals who incur medical bills sufficient to reduce their income to a level at or below 40% of FPL.

On July 8, 2011, the program was placed on an enrollment freeze due to the economic downturn. On June 17, 2013, Governor Brewer signed into law the AHCCCS Restoration Plan. As a result, coverage will be restored for childless adults who are eligible for AHCCCS under the voter mandated Proposition 204 and will also include coverage for adults from 100-133% of the federal poverty level, beginning January 1, 2014.

NON-TITLE XIX BEHAVIORAL HEALTH

Virginia Rountree, Assistant Director
 Phone: (602) 417-4122
 A.R.S. § 36-2912

Mission:

To provide behavioral health services to individuals not enrolled in Title XIX Medicaid coverage.

Description:

Effective July 1, 2016 the following Non-Title XIX behavioral health programs will transfer from the Arizona Department of Health Services (ADHS) to the Arizona Health Care Cost Containment System (AHCCCS):

The Seriously Mentally Ill (Non-Title XIX) program provides behavioral health services to adults with Serious Mental Illness (SMI) who are not eligible to received Medicaid Title XIX services. Specific covered services include mental health and substance abuse related treatment, rehabilitation, medical, support, crisis intervention, inpatient, residential, and day program services.

The Supported Housing program provides housing services that will enable individuals to live in the community. These funds may serve the Medicaid and 100% state funded recipients. Medicaid does not, however, provide federal matching funds for housing assistance.

The Crisis Services program provides emergency behavioral health assistance to persons in need, who are not eligible for the Medicaid Title XIX program. Services may include 24-hour crisis telephone lines, mobile crisis response teams, and facility-based crisis services.

CHILDREN'S HEALTH INSURANCE (CHIP)

Penny Ellis, Assistant Director
 Phone: (602) 417-4512
 A.R.S. § 36-2982

Mission:

To provide comprehensive quality health care to individuals eligible for the Children's Health Insurance Program (KidsCare).

Description:

This Title XXI program (KidsCare) was implemented in November 1998, covering uninsured eligible children up to the age of 19 with a gross household income up to 200% of FPL. KidsCare eligibility was streamlined, with the benefit package remaining the same as the Title XIX services package. It is delivered through contracted AHCCCS health plans.

The program has been placed on an enrollment freeze since January 2010 due to lack of funding for the program. Families in this income group will have access to affordable healthcare coverage in the Marketplace beginning October 1, 2013.

DIRECT SERVICE CLAIMING (DSC)

Elizabeth Carpio, Assistant Director
 Phone: (602) 417-4616
 34 CFR Part 300

Mission:

To fund specific medically-necessary Title XIX covered services furnished through public school special education programs with special needs children.

Description:

Through Direct Service Claiming (DSC), Medicaid-covered services are provided in the school setting in order to allow special needs children to obtain a public school education. Services and administration costs are reimbursed through federal Medicaid funds and Local Education Authority (LEA) matching funds. LEAs include participating school districts, charters schools not affiliated with a school district, and the Arizona School for the Deaf and Blind. AHCCCS-initiated school-based claiming began in January 2001 after contracting with a Third Party Administrator (TPA) to administer the program.

Public Consulting Group (PCG), our current TPA, is responsible for training, compliance monitoring, and claims processing. A handbook, website, and training materials are designed to assist the LEAs with program participation, and to ensure the availability of updated information regarding program requirements. Regular Regional Information Sessions have also been established to assist and inform the LEAs. Each LEA has a network of providers that offer services under DSC. Providers include therapists (occupational, physical, and speech), nurses, audiologists, health aides, psychologists and counselors, and transportation providers.

CHILDREN'S REHABILITATIVE SERVICES

Virginia Rountree, Assistant Director
 Phone: (602) 417-4122
 A.R.S. § 36-263

Mission:

To provide health care to children with complex needs who require specialized services coordinated by a multi-disciplinary team.

Description:

Children's Rehabilitative Services (CRS) provides medical care, rehabilitation, and related support services to AHCCCS-enrolled children diagnosed with one or more of the qualifying chronic and disabling conditions defined in state statute. In 2008, following a competitive bid process, ADHS sub-contracted management of the entire CRS program to Arizona Physicians/IPA (AP/IPA). APIPA already served as a contractor for three AHCCCS programs: the Acute Care program, the Arizona Long Term Care System Division of Developmental Disabilities (ALTCS/DDD) program, and the Arizona Long Term Care System Elderly and Physically Disabled (ALTCS/EPD) program. The current APIPA-CRS contract expires in 2012.

Effective January 2011, a process was initiated to integrate CRS into AHCCCS. This offers a way to ensure access to specialty care and the opportunity to consider more efficient coordination of services. AHCCCS is working to create a CRS integrated plan, effective October 1, 2013, that would manage care, not only for CRS conditions, but for ALL other medical and behavioral health conditions as well.

ACA ADULT EXPANSION

Penny Ellis, Assistant Director
 Phone: (602) 417-4512
 ARS 36-2901.07(A)

Mission:

To expand Medicaid coverage for adults age 19-64 with income from 100-133% of the federal poverty level, per the Affordable Care Act

Description:

The Supreme Court ruling on the Affordable Care Act (ACA) provides states multiple and complex opportunities with respect to the future of their Medicaid programs. With these opportunities in mind, Governor Brewer signed into law the AHCCCS Restoration Plan which restores Medicaid coverage to thousands of Childless Adults and provides coverage for adults age 19-64 between 100-133% of the Federal Poverty Level, beginning January 1, 2014.

COMMISSION ON THE ARTS

Jaime Dempsey, Executive Director
Phone: (602) 771-6520
A.R.S. § 41-982

Mission:

To foster and stimulate a statewide environment in which everyone can participate in and experience the arts.

Description:

Through the Commission, the State and the National Endowment for the Arts make strategic investments of public dollars to support the statewide arts and culture sector, helping Arizona communities attract and retain skilled workers and creative businesses. This public investment leverages additional contributions from the private sector, increasing the sustainability of Arizona's arts and culture sector and promoting statewide economic growth.

Issue 1 Arts and culture delivery agents lack capacity to sustain quality service to residents of Arizona and the taxpaying public.

Description PLAN METHODOLOGY:

- This is a 5-year plan, for Fiscal Years 2016–2020.
- Strategic Issues 1-5 briefly outline key challenges facing the arts and culture sector.
- Goals/Desired Outcomes 1-5 are developed as ideal results for the Arizona arts and culture sector.
- Strategies (numbered “a” through “e-g”) are developed as methods of action to address strategic issues.

Each Strategy is "coded" with any of the following which apply:

Leadership and Partnerships – LP

The Arizona Commission on the Arts is best known, statewide and nationally, as a leader in arts administration, a pacesetter in research and analysis, and as a catalyst for innovative partnerships in support of Arizona’s arts and culture sector. Leadership and Partnerships reflects the Arts Commission’s role as a leading arts policy and information source and as a catalyst brokering cross-sector and intra-sector partnerships.

Programs and Services – PS

The Arizona Commission on the Arts continually develops and offers professional development training and learning opportunities meant to enhance the skills of statewide delivery agents of arts and cultural programming, including individuals working in arts organizations, schools, and community service organizations as well as individual artists, educators, and arts patrons. Programs and Services support participation and learning in, through, and about the arts, meet identified needs, and positively impact agency grantmaking activities.

Strategic Funding – SF

The Arizona Commission on the Arts provides funding support to the Arizona arts industry through several established grantmaking processes. Grants are delivered to support applicant learning, promote artistic quality and authenticity, encourage responsible business practices, reach a broad range of Arizona citizens, and increase public participation and public benefit. Strategic Funding is distributed through transparent public processes constructed to ensure efficiency and accountability.

STRATEGIC ISSUE 1:

As stated in the Agency Description, the Arts Commission’s primary functions include providing leadership, programs, services, and grants to support the availability and sustainability of arts/culture and arts education programs. These functions are coincident with the agency’s statutorily required duties which include (ARS §41-982, §41-983):

- Stimulating the arts in Arizona by encouraging the study and presentation of the arts as well as encouraging public interest and participation;
- Working with arts organizations in the State to encourage public participation in and appreciation of the arts; and
- Encouraging public interest in the State’s cultural heritage and expanding the State’s cultural resources.

As a result of the recession, the State of Arizona’s fiscal crisis and reductions to the Arizona Commission on the Arts’ overall budget, available state grant funding in support of these duties diminished greatly.

Arts organizations currently receiving grant support – 300+ nonprofit organizations across the state – now receive 50% to 80% less support than in previous years, when even at its peak level of funding Arizona’s state arts agency funding support was far below the national average. These grant reductions come at a time when the arts and culture sector

continues to struggle mightily against decreased support from local businesses, foundations, and charitable donations. The Arts Commission is focused on meeting the new and tremendous needs of these “delivery agents” of arts and cultural services in non-monetary ways, as reductions in funding have given birth to other acute needs: for technical support, counsel, accountability training, and crisis management guidance, all of which the agency provides as a part of its core charter.

Through this work with and on behalf of Arizona’s arts and culture sector, the Arts Commission seeks to increase the capacity of these delivery agents in service to the primary beneficiary of the whole of these efforts: residents of Arizona, the taxpaying public.

GOAL/DESIRED OUTCOME 1:

Arizonans can access vibrant, quality arts and cultural activities wherever they live, and have opportunities to participate as practitioners, professionals, patrons, donors, and volunteers.

Solutions:

- a. Provide learning opportunities to delivery agents of arts and cultural programming to help them leverage assets, procure funding, develop and maintain audiences, improve the quality of products and services, honor Arizona’s diverse cultural heritage, and deepen and expand their mission-focused service of communities through the arts. Example programs: Arts Learning Field Training, AZ Creative Aging, AZ Creative Communities, Cultural Data Project, annual workshops and convenings. – LP, PS
- b. Continue to deliver grant funding to statewide arts organizations, schools, community service organizations, and individuals which demonstrate quality artistic programming, evidence of public benefit and public participation, and responsible fiscal practices. Example grant programs: Community Investment Grants, Arts Learning Grants, Strengthening Schools Through Arts Partnerships Grants, Festivals Project Grants, Honoring Our Servicemembers Grants, Professional Development Grants, Chamber and Tourism Membership Grants, Artist Research and Development Grants. – SF
- c. Make focused financial and programmatic investments in both geographic and programmatic areas where demonstrable needs exist but where arts and cultural programming is scarce, nonexistent, or vulnerable. Example programs: Arts Learning Grants, Art Tank Grants, AZ Creative Aging, AZ Creative Communities, Strengthening Schools Through Arts Partnerships Grants, Festivals Project Grants, Honoring Our Servicemembers Grants, Community Catalyst Grants. – LP, PS, SF
- d. Serve as Arizona’s chief delivery agent – through technology, communications, publications, and expertise – for research and information related to arts resources, funding, and learning opportunities. Example services: Comprehensive website content and participatory social media efforts, newsletters, searchable website portals, interactive online technical assistance. – LP, PS
- e. Work to maintain existing levels of public funding for the arts in Arizona, while developing more protected private funds sources supported by Arizona foundations, corporations, and individual donors. – LP, SF
- f. Implement and advance “The Choice is Art,” a statewide promotional campaign for the arts in Arizona, to increase awareness of existing statewide programs and services, encourage participation, and cultivate public value and support for the arts. – LP, PS, SF

Issue 2 The contributions of Arizona's arts and culture sector workers are undervalued.

Description STRATEGIC ISSUE 2:

Artists, arts administrators, and arts educators provide substantial value to Arizona communities and are part of a significant labor market growth sector. According to Americans for the Arts' nationwide "Creative Industries Report," creative sector jobs increased in Arizona from 2008 to 2012 – during the recent recession – by 22%. However as a subsector of creative sector jobs, jobs in Arizona's nonprofit arts and culture sector, though increasing in numbers, are chronically undervalued and underpaid according to regional benchmarks.

The Arts Commission seeks to rebuild value for the contributions of Arizona residents working in the arts and culture sector; to demonstrate and showcase best practices; to provide opportunities for innovative, sequential professional development opportunities; and to foster a sector in which Arizonans can more successfully pursue their artistic goals.

GOAL/DESIRED OUTCOME 2:

Arizona residents can make healthy livable wages working in myriad facets of the arts. Their contributions are valued and respected.

Solutions:

- a. Continue to develop and deliver adaptive, sequential skills-building programs to Arizona artists and arts administrators to help them compete for local and national funding, increase professional capacity, promote their creative contributions to Arizona communities, and build support for the arts and arts education. Example programs: Arts Learning Field Training, AZ ArtWorker, AZ Creative Aging, AZ Creative Communities, Cultural Data Project, annual workshops and convenings. – LP, PS
- b. Deliver grant funding and work to develop new funding programs in support of individual artists and administrators. Example grants: Professional Development Grants, Art Tank Grants, Chamber and Tourism Membership Grants, Artist Research and Development Grants.– SF
- c. Introduce incentives within grantmaking processes to challenge Arizona arts organizations to meet regional benchmarks for artist and administrator pay and benefits. – LP, SF
- d. Promote and provide visibility to individuals working in the arts; connect Arizona arts professionals to other professional sectors to encourage partnership, mutual benefit and employment. Example services: providing visibility through AZ ArtWorker, AZ Creative Aging, AZ Creative Communities, and myriad communications vehicles; formal networking opportunities. – LP, PS
- e. Nurture existing arts service organizations based on artistic disciplines and cultural initiatives; support the development of independent arts service organizations in geographic and programmatic areas where service organizations are scarce, nonexistent, or vulnerable. Example services: service organizations can be nurtured and incubated through strategic consulting services delivered by Arts Commission staff; funding required for statewide travel. – LP, PS
- f. Implement and advance "The Choice is Art," a statewide promotional campaign for the arts in Arizona, to foster understanding about the scope of the arts sector and the contributions of Arizona arts professionals. – LP, PS, SF

Issue 3 Statewide investment in arts learning (lifelong learning in, through and about the arts) is inadequate and must be strengthened.

Description STRATEGIC ISSUE 3:

Because of increased financial pressures on education at all levels, access to quality arts education opportunities within Arizona's in-school and out-of-school settings is at considerable risk. In addition, though Arizona students are expected to meet the Department of Education's Academic Standards in the Arts for preK-12 Arizona students, a significant number of Arizona schools are not financially prepared to provide adequate instruction in arts-based learning, and/or instructors are not qualified/prepared to provide satisfactory arts-based learning opportunities to students. Finally, arts and culture organizations (which provide a substantial percentage of arts learning opportunities to both preK-12 students and lifelong learners) face a dearth of funding support for arts-based education programs.

The Arts Commission seeks to rebuild value for investment in lifelong learning in, through, and about the arts; to educate, prepare and deliver critical funding to diverse statewide delivery agents of arts education programs and opportunities; and to incentivize engagement in innovative, current, and sequential arts learning opportunities for all Arizonans.

GOAL/DESIRED OUTCOME 3:

Arizonans of all ages have access to quality, robust arts education opportunities, whether in-school, out-of-school, or in community settings.

Solutions:

- a. Develop and provide innovative, current, and sequential learning opportunities to delivery agents of statewide arts learning programs. Offer practical training to diverse arts education stakeholders and cultivate the next generation of arts educators. Example services: continue to provide training to teaching artists; develop additional formal professional development offerings for classroom teachers and representatives of arts organizations in partnership with the Department of Education and other service groups. – LP, PS
- b. Activate and expand partnerships with local, state, and federal arts education policymakers. Contribute as an expert conduit, providing research and information to policymakers, and then providing context to resources delivered to Arizona arts organizations, parents, classroom educators, art specialists, teaching artists, school administrators, and school boards. Example services: partnerships nurtured through ongoing research and by leadership provided by Arts Commission staff; funding required for statewide travel, investment in research, and related materials. – LP, PS
- c. Pursue opportunities to build a network of Arizona arts organizations, parents, classroom educators, art specialists, teaching artists, school administrators, and school boards to integrate learning in, through, and about the arts in school curricula as well as school district missions, policies, budgets and practices. Offer practical training and support to develop their ability and fluency in building public support for arts education. Example services: potential network(s) nurtured through ongoing research, counsel and leadership provided by Arts Commission staff; funding required for statewide travel, investment in research, and related materials. – LP
- d. Continue to deliver grant funding to quality arts programming which supports lifelong learning in, through, and about the arts, and to quality student-centered arts programming which supports the Arizona Department of Education's Academic Standards in the Arts for preK-12 Arizona students. Example grants and programs: Arts Learning Grants, AZ Creative Aging, Strengthening Schools Through Arts Partnerships Grants. – SF
- e. Introduce incentives within grantmaking processes to challenge Arizona schools, arts organizations, and community organizations to broaden, deepen, and diversify their development and delivery of in school, out-of-school, and community-based arts learning programs. Example initiatives: include the development of funding incentives within primary grants to arts organizations. – LP, SF
- f. Make focused financial and programmatic investments in both geographic and programmatic areas where demonstrable needs exist but where arts education programming is scarce, nonexistent, or vulnerable. Example grants and programs: Arts Learning Grants, AZ Creative Aging, Strengthening Schools Through Arts Partnerships Grants. – LP, PS, SF
- g. Implement and advance "The Choice is Art," a statewide promotional campaign for the arts in Arizona, to build broad public support for programs which engage students in learning in, through, and about the arts, in the pursuit of positive personal,

educational, and community outcomes. – LP, PS, SF

Issue 4 Community-focused arts and cultural partnerships across Arizona must be nurtured and fortified.

Description STRATEGIC ISSUE 4:

Arizona arts and culture organizations have long provided great value to neighborhoods in rural, urban, and suburban communities, through increased civic engagement, improved community vitality, creative and aesthetic benefits, and increased local economic activity. Because of decreased financial investment from the public sector, local businesses, foundations and individuals, arts and culture organizations are seeking new partners, programmatic opportunities, and sources of revenue to allow them to continue co-creating positive outcomes in Arizona communities.

The Arts Commission seeks to rebuild value for community-focused arts and cultural partnerships across Arizona; to demonstrate and showcase best practices; and to provide opportunities for intra- and cross-sector networking, resource-sharing and mutually-beneficial community outcomes.

GOAL/DESIRED OUTCOME 4:

Arts and cultural programs and organizations are considered societal cornerstones and are employed as partners in the revitalization and sustainability of streets, neighborhoods, and communities.

Solutions:

- a. Conduct, aggregate, and provide access to best-practices research related to partnerships between arts delivery agents and community-based initiatives, government agencies, and other-sector local businesses. Counsel arts organizations, community organizations, and artists to utilize resources to fullest advantage. Example programs and services: AZ Creative Aging, AZ Creative Communities, partnerships nurtured through ongoing research and by counsel and leadership provided by Arts Commission staff; funding required for statewide travel, investment in research, related materials; resources aggregated, contextualized, and disseminated through communications vehicles. – LP, PS
- b. Activate and expand agency relationships with existing and nontraditional partners in order to facilitate collaborations between Arizona arts programs and other-sector initiatives. Example programs and services: AZ ArtWorker, AZ Creative Aging, AZ Creative Communities, partnerships nurtured by counsel and leadership provided by Arts Commission staff; funding required for statewide travel, and participation in sector-wide and other-sector initiatives. – LP
- c. Deliver grant funding to collaborative projects which employ quality arts and cultural programming in the pursuit of favorable community outcomes. Deliver funding for this purpose in every Arizona county. Example grants and programs: AZ ArtWorker, AZ Creative Aging, AZ Creative Communities, Arts Learning Grants, Art Tank Grants, Festivals Project Grants, Community Catalyst Grants. – LP, SF
- d. Provide opportunities for arts leaders, in particular next-generation arts leaders, to network with community officials, diverse cultural leaders, faith leaders, and local businesspeople. Example services: networking and integration opportunities provided through participation in other-sector initiatives and existing Arts Commission programs such as community workshops and trainings, partnerships related to Emerging Leaders in the Arts networks; Chamber and Tourism Membership Grants. – PS
- e. Implement and advance “The Choice is Art,” a statewide promotional campaign for the arts in Arizona, to broadly promote the arts industry’s role in community health and livability, as well as the industry’s potential to positively impact the fiscal position and sustainability of Arizona cities and towns. – LP, PS, SF

Issue 5 Statewide private investment in arts and culture is inadequate and must be strengthened.

Description STRATEGIC ISSUE 5:

Arizona arts organizations have long provided great value to Arizona corporate and small-business constituencies through individuals' and families' engagement in arts and cultural activities, improved quality of life indices, and measurable on-the-ground revenue-generating partnerships. However, statewide corporate and small-business support of arts and culture was significantly curtailed as a result of the recent recession, for several reasons:

-- Arizona lacks a critical mass of midsized and large corporate headquarters which might be inclined to support arts and culture sector programs and initiatives.

-- Prior to the recession, Arizona's business sector had become chronically under-diversified and largely dependent on new construction, which, coupled with the challenges within the real estate market, meant that developers and construction companies did not have funds to invest in quality of life ventures.

The Arts Commission seeks to rebuild value for arts and cultural investment among corporate and small-business constituencies; and to provide opportunities for intra- and cross-sector networking, resource-sharing, and mutually-beneficial community and financial outcomes.

GOAL/DESIRED OUTCOME 5:

Recognizing the arts industry's role in economic viability and enhanced quality of life, Arizona's for-profit businesses invest in the arts as partners, supporters, and champions.

Solutions:

a. Serve as leading reliable resource for information and research related to cultural policy, emerging and hybrid business models, economic impact of the arts and culture industry, and public support for arts and culture. Promote opportunities to share research with Arizona's elected officials, small businesses, and corporate leaders. Example services: partnerships nurtured through ongoing research and by counsel and leadership provided by Arts Commission staff; funding required for statewide travel, investment in research, related materials; resources aggregated, contextualized, and disseminated through communications vehicles. – LP, PS

b. Introduce incentives within grantmaking processes to encourage Arizona arts organizations to develop mutually beneficial and mission-supported partnerships with for-profit entities. Example initiatives: include the development of funding incentives within primary grants to arts organizations; AZ ArtWorker, AZ Creative Aging, AZ Creative Communities, Art Tank Grants, Community Catalyst Grants. – LP, SF

c. Facilitate opportunities for arts leaders to participate in other-sector policy forums, convenings, and initiatives. Example services: networking and integration opportunities provided through participation in other-sector initiatives and existing Arts Commission programs such as community workshops and trainings, partnerships related to Emerging Leaders in the Arts networks; AZ Creative Aging, AZ Creative Communities, Chamber and Tourism Membership Grants. – LP, PS

d. Develop communications strategies to focus and adapt agency messaging based on the needs and interests of diverse audiences and authorizers. Example services: Comprehensive website content and participatory social media efforts, newsletters, searchable website portals, interactive online technical assistance. – PS

e. Implement and advance "The Choice is Art," a statewide promotional campaign for the arts in Arizona, to illuminate the for-profit sector's short- and long-term interest in supporting a vibrant, sustainable statewide arts industry. Employ Arizona small businesses and corporations as partners in the effort. – LP, PS, SF

BOARD OF ATHLETIC TRAINERS

Karen Whiteford, Executive Director
Phone: (602) 589-8353
A.R.S. §§ 32-4101 to 32-4161

Mission:

To protect the health, safety, and welfare of the public by licensing and regulating individuals who provide athletic training services.

Description:

The Board of Athletic Training issues licenses for the athletic training profession and monitors closed licenses. The Board requires that licensees meet minimum standards of education, experience, and competence. The Board also investigates complaints and takes appropriate disciplinary action.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	0.0	0.0	0.0
Other Appropriated Funds	148.1	123.5	123.5

5 Year Plan

Issue 1 Evaluate the qualifications of applicants for licensure.

Description The Board has seen a 30% increase in the overall number of athletic trainers renewing active licenses and a 600% increase of athletic trainers applying for new licenses from 2009 to 2018. The increased number of applications has resulted in a lack of storage space for paper applications submitted prior to the implementation of eLicensing. The Board is currently required to store paper applications indefinitely.

Solutions:

A. The Board of Athletic Training implemented eLicensing in May of 2018. This has, and will continue to, alleviate some of the manual data entry done by the Administrative Assistant.

B. The Board of Athletic Training will work with Library and Archives to modify the retention schedule of paper applications received prior to eLicensing.

Issue 2 Provide user-friendly eLicensing portal for initial and renewal application while automating administrative processes.

Description Work with other agencies using the eLicensing system to identify opportunities to improve the eLicensing portal and to automate processes that are currently accomplished manually.

Solutions:

Work with other agencies to identify to identify opportunities to improve the eLicensing portal and to automate processes that are currently accomplished manually.

Work with ASET to contract a vendor to program these changes.

Provide detailed descriptions of requested changes.

Test requested changes to ensure they do not affect current processes.

Agency Summary

ATTORNEY GENERAL - DEPARTMENT OF LAW

Mark Brnovich, Attorney General
 Phone: (602) 542-7000
 A.R.S. § 41-191

Mission:

To provide comprehensive legal protection to the citizens of Arizona and quality legal services to the State agencies by upholding the Constitution and enforcing the law in a fair and just manner.

Description:

The Attorney General (AG) is a constitutionally established, elected position and holds office for a four-year term. The Attorney General is the legal advisor to all State agencies, boards, and commissions, except those few exempted by law. Other primary responsibilities include prosecuting and defending proceedings in which the State has an interest and rendering written opinions upon questions of law.

To fulfill these responsibilities, the Department of Law is divided into legal services and administrative operations. The legal divisions are the Child and Family Protection Division, Civil Litigation Division, Criminal Division, Solicitor General's Office, and the State Government Division. Each division is further organized into sections that specialize in a particular area of practice. Two divisions are primarily responsible for administrative operations: the Operations Division and the Communications Division.

Legal, policy, administrative, and support functions are coordinated and promoted by the Executive Office.

Issue 1 To Defend the State from Criminal Activities

Description To disrupt and dismantle criminal organizations and aggressively prosecute criminals; reducing the financial power of criminal enterprises and continuing to serve as a national leader among the nation's Medicaid Fraud Control Units.

Solutions:

GOAL 1: To disrupt and dismantle criminal organizations and aggressively prosecute criminals.

STRATEGIES:

- Coordinate efforts with federal, state, local, and neighboring countries law enforcement.
- Provide technical assistance to other law enforcement agencies, including the use of financial transaction data, to develop evidence relating to underlying criminal activity.
- Cooperate with and build effective working relationships with federal agencies.
- Provide federal and state law enforcement agencies with training on relevant legal issues and investigative techniques.
- Aid in and conduct wiretap and undercover investigations, including the investigations and prosecutions of multi defendant, highly complex drug trafficking organizations.
- Specialize in fighting drug trafficking and money laundering through court-authorized electronic interception focused against Mexican cartels and United States-based transportation cells involved in the smuggling of drugs, weapons, and bulk currency across Arizona's southern border.
- Assist in the support of a chain of inter-related task forces in the Southwest Border area, concentrating on anti-money laundering enforcement at the highest levels.

GOAL 2: To reduce the financial power of criminal enterprises.

STRATEGIES:

- Dismantle racketeering enterprises through aggressive prosecution and the proper use of civil racketeering remedies.
- Remediate the economic injury caused by individuals and criminal enterprises who engage in profit-motivated felonies, thereby increasing the compensation ultimately provided to victims for their economic loss.
- Deprive criminal enterprises of property and profit that keep them in business.
- Specialize in complex financial prosecutions to reduce the financial power of criminal enterprises.
- Foster multi-jurisdictional collaboration to identify, investigate, and disrupt financial activities that facilitate cross-border violence and money laundering.
- Enhance coordination of the Southwest Border states' anti-money laundering efforts.

GOAL 3: To continue to serve as a national leader among the nation's Medicaid Fraud Control Units.

STRATEGIES:

- Work collaboratively with federal law enforcement partners including the Department of Health & Human Services Office of Inspector General (HHS-OIG), DEA and the FBI to prosecute Medicaid fraud related crimes.
- Combat the enormous problem of health care fraud related to prescription drug crimes.
- Investigate and prosecute cases that involve the falsification of medical records; the filing of false or inflated Medicaid billing claims; thefts and embezzlements from AHCCCS clients and health care institutions; the illegal diversion of prescription drugs by health care providers; and the physical, sexual and emotional abuse of residents being cared for in AHCCCS-funded facilities.

Issue 2 To Protect Vulnerable Citizens Against Crime

Description To promote the safety, economic sufficiency and well-being of children. Combat financial and physical abuse of Arizona's senior population. To promote and facilitate justice, healing and restitution for all of Arizona crime victims

Solutions:

GOAL 1: Promote the safety, economic sufficiency and well-being of children.

STRATEGIES:

- Protect children through effective litigation and efficient case management in dependency, guardianship, severance, and adoption proceedings.
- Provide training to AGO, DCS, and DES staff, DCS caseworkers and supervisors, members of the judiciary, and various child welfare system stakeholders throughout Arizona for effective case management.
- Increase enforcement activity in judicial and administrative establishment of new child support orders.
- Aggressively prosecute child exploitation cases.
- Increase investigative involvement and provide dedicated resources to focus on Internet Crimes Against Children, and to aggressively prosecute individuals found guilty of Internet-related and associated child abuse charges.

GOAL 2: Combat financial and physical abuse of Arizona's senior population.

STRATEGIES:

- Develop cases internally and work collaboratively with outside law enforcement agencies and other state teams in order to pursue and prosecute allegations of abuse and neglect, including those that take place within health care settings.
- Work closely with other law enforcement offices, state and local agencies, and senior-focused groups to assure an aggressive investigative and prosecutorial presence in the State.
- Provide a dedicated telephone number through which the public, other law enforcement agencies, caregivers and family members can report concerns and receive information and referrals.
- Offer educational opportunities around the state in which seniors can participate.
- Offer training and education to groups who have significant interactions with the senior population.
- Use the strengths, skills, and resources across AGO Divisions to ensure the success of the Taskforce Against Senior Abuse (TASA).
- Prosecute telephone solicitation and phone scam crimes initiated by individuals and companies targeting seniors.
- Initiate legislative remedies and provide federal strategies that will help reduce the number of unwanted and illegal phone calls.

GOAL 3: To promote and facilitate justice, healing and restitution for all of Arizona crime victims.

STRATEGIES:

- Improve the treatment of crime victims by exhibiting leadership, promoting public policy reforms where needed, and increase the quality of victim services through the administration of the Victims' Rights Program.
- Provide for efficient and effective delivery of quality services to victims during all stages of criminal prosecutions.
- Serve as a leader statewide on victims' rights issues through participation in networking events, leading the Victims' Rights Advisory Committee and through the provision of statewide victim's rights training.
- Investigate allegations of victims' rights violations statewide.
- Created programs that advance and enforce statewide uniformity and efficiency in following victims' rights in Arizona.
- Take a unique approach by combining state funding, program audits, technical assistance, training, compliance and collaboration in order to increase awareness statewide about victims' rights, as well as increase compliance with victims' rights statutes and the Arizona Victims' Bill of Rights.
- Competently and efficiently defend the State in all capital and non-capital appellate cases.
- Enhance written and oral advocacy skills through participation in training.
- Improve expertise in handling federal habeas litigation through participation in training related to federal appeals under 28 U.S.C. § 2254.

Issue 3 To Protect Consumers

Description To deter fraudulent business practices as a means to protect consumers against fraud and increase the amount of restitution recovered on behalf of Arizona consumers. To reduce the number of unwanted and illegal telephone solicitation calls received by Arizonans.

Solutions:

GOAL 1: To deter fraudulent business practices as a means to protect consumers against fraud and increase the amount of restitution recovered on behalf of Arizona consumers.

STRATEGIES:

- Investigate and prosecute violations of the Arizona Consumer Fraud Act and other state and federal consumer protection laws.
- Increase public awareness through consumer education and alerts, presentations, and the distribution of literature.
- Increase the amount of pre-litigation restitution recovered on behalf of Arizona consumers.
- Prioritize AGO consumer fraud recovery efforts on consumer restitution.
- Reform the multistate consumer fraud recovery process to focus on consumer restitution.
- Aggressively litigate against companies, individuals, and corporations that blatantly defraud or deceive Arizona consumers.

GOAL 2: To reduce the number of unwanted and illegal telephone solicitation calls received by Arizonans.

STRATEGIES:

- Work with and encourage the FTC to develop rules and guidelines allowing carriers and states to take a more proactive approach in blocking unwanted phone calls.
- To test and make available call-blocking technology to Arizona seniors.
- To aggressively prosecute Arizona companies that blatantly violate and disregard the Do Not Call List.
- Educate Arizona consumers on how to reduce the number of unwanted calls and what to do when they receive illegal telephone solicitation calls.
- Work with the Arizona Legislature to pass legislation giving Arizona some of the strongest consumer protection laws in the country.

Issue 4 To Provide Legal Services for State Agencies, Boards and Commissions

Description To provide a superior level of legal services to our client agencies, the public and the State of Arizona.

Solutions:

GOAL 1: To provide a superior level of legal services to our client agencies, the public and the State of Arizona.

STRATEGIES:

- Improve efficiency of legal services delivery through client relations meetings with agencies that frequently require our services.
- Provide advanced client agency training sessions in the areas of public records law, open meeting law, conflict of interest law, contracting and procurement law, and related legal restrictions on the activities of public officials and employees. Ethics training for elected officials and appointed agency heads is now available online for ease of access and updating.
- Maintain and enhance the Continuing Legal Education (CLE) programs currently being offered by the Solicitor General's Office.
- Reduce the need for outside counsel whenever possible, thereby preserving precious taxpayer resources.

LEGAL SERVICES

Leslie Welch, Operations Director
Phone: (602) 542-8046
A.R.S. § 41-191

Mission:

To protect the safety, health, economic and environmental well-being, and civil rights of Arizonans by fairly and aggressively prosecuting criminal activity, safeguarding the rights of crime victims, protecting consumers and providing high quality, innovative legal representation to the State and our client agencies.

Description:

Legal services are provided through the following divisions of the Attorney General's Office: (1) Child and Family Protection Division; (2) Civil Litigation Division; (3) Civil Rights Division; (4) Criminal Division; (5) Solicitor General's Office; (6) State Government Division. The Child and Family Protection Division provides legal services to the Department of Economic Security and Department of Child Safety through the Protective Services Section, the Child Support Services Section, and the Civil & Criminal Litigation and Advice Sections. The Civil Litigation Division enforces the State's consumer protection, and antitrust laws in addition to providing legal advice and litigation services to the executives and judicial branches. The Civil Rights Division enforces state and federal statutes prohibiting discrimination in employment, voting, public accommodations and housing. The Criminal Division prosecutes a broad array of crimes (including border-related crimes and crimes committed by organized criminal syndicates), using experienced criminal prosecutors and highly trained investigators. The Solicitor General's Office represents the State in capital and non-capital criminal appeals and federal habeas actions. The State Government Division focuses on specialty areas of Civil law and provides day-to-day legal services for a myriad of State agencies, departments, boards and commissions, and enforces tobacco and environmental laws.

CIVIL RIGHTS DIVISION

Beau Roysden, Acting Division Chief Counsel

Phone: (602) 542-8958

A.R.S. §§ 41-191 and 41-1401

Mission:

To enforce civil rights laws and eliminate discrimination statewide by increasing public awareness of civil rights through education and enforcement and providing greater access to victims, including offering dispute resolution services to the people of Arizona.

Description:

The section's major duty is to enforce state statutes that prohibit discrimination in employment, voting, public accommodations, and housing by investigating and litigating civil rights complaints. In addition, the section provides conflict resolution services and mediation programs statewide, including many court and agency programs. The section not only is responsive to complaints it receives but is proactive in addressing discriminatory activity by providing education. It also may conduct surveys and inquiries in efforts to eliminate discrimination and publish reports to highlight civil rights issues in Arizona. The section has an internal appellate procedure where new evidence is reviewed and closed investigations are reopened where the new evidence may change the outcome.

The section has administrative, community service, and civil functions. Its staff is comprised of lawyers, compliance officers, program managers, coordinators, support personnel, volunteers, and interns. The section has offices in Phoenix and Tucson.

Subprogram Summary

CRIMINAL DIVISION

Paul Ahler, Division Chief Counsel

Phone: (602) 542-8495

A.R.S. §§ 41-191 and 21-427

Mission:

To protect the citizens of Arizona by successfully investigating, aggressively and fairly prosecuting cases involving sophisticated and complex financial crimes, human trafficking, identity theft-related crimes; technology crimes, gang-related crimes, drug traffickers, trafficking organizations, money launderers, and individuals involved in criminal enterprises within the State of Arizona. To provide high quality investigative support to the Attorney General's Office and to law enforcement agencies throughout the State. To promote and facilitate safety, justice, healing and restitution for Arizona's crime victims, and support statewide criminal and juvenile justice system entities in the administration of victims' rights laws.

Description:

Southern Arizona White Collar & Criminal Enterprise Section (SAWCCE): The Southern Arizona White Collar & Criminal Enterprise Section prosecutes all criminal cases under the Attorney General's statutory jurisdiction. SAWCCE specializes in white collar fraud cases including but not limited to investment and securities fraud, business embezzlement, AHCCCS and DES fraud, social security fraud, identity theft, money laundering, and other economic crimes. SAWCCE also focuses on anti-Cartel prosecutions of criminal enterprises comprised of international drug traffickers and Arizona-based criminal cells involved in the smuggling of drugs, weapons, money and humans across Arizona's southern border. Additionally, SAWCCE prosecutes public corruption cases involving misuse of public funds, obstruction of justice and bribery. SAWCCE also prosecutes crimes involving Internet-based sexual exploitation of children, and dedicates an attorney to prosecute elder financial exploitation and abuse cases. SAWCCE further assists local county attorney offices by taking conflict cases and accepts complex cases referrals from prosecution agencies and law enforcement throughout the State.

Drug & Racketeering Enforcement Section (DRG): The Drug & Racketeering Enforcement Section combats major drug trafficking in Arizona. This includes prosecuting individuals and organizations that traffic in illegal drugs, money launder of illicit proceeds and commit violent crimes. DRG works closely with law enforcement agencies from throughout the State and provides legal counsel and assistance in wiretap and undercover investigations. Additionally, the attorneys in DRG provide legal advice and training on a statewide basis on issues involving search and seizure law, wiretap law, prosecuting cases involving children found at drug-related scenes, and courtroom testimony. Attorneys in DRG will also provide assistance to Arizona County Attorneys on complex, major drug cases.

Fraud & Special Prosecution's Section (FSP): The Fraud & Special Prosecution Section investigates and prosecutes white collar and organized fraudulent criminal activity, including but not limited to, identity theft-related crimes, human smuggling, mortgage fraud, high technology crimes, child exploitation through the use of computers, public corruption, securities fraud, computer fraud, financial exploitation of the elderly, telemarketing fraud, charity fraud, tax fraud, public corruption, insurance fraud, banking fraud, home improvement fraud, real estate fraud, employee embezzlement, gang related crimes and other types of financial crimes involving racketeering offenses. FSP also works closely with the Financial Remedies Section to insure that any ill-gotten moneys are subject to forfeiture. FSP attorneys also prosecute cases referred by other prosecutorial offices throughout the State when those offices have a conflict of interest.

Healthcare Fraud & Abuse Section (HCF): The Healthcare Fraud & Abuse Section, also known as the Arizona Medicaid Fraud Control Unit, investigates and prosecutes health care fraud crimes that impact the State's billion dollar Medicaid program known as AHCCCS. In addition, HCF is charged with investigating allegations of abuse and neglect that take place within health care settings that are at least partially funded by the State's AHCCCS program. HCF investigates and prosecutes cases involving the falsification of medical records and the filing of false or inflated Medicaid billing claims; thefts and embezzlements from AHCCCS clients and health care institutions; the illegal diversion of prescription drugs by health care providers; and the physical, sexual, and emotional abuse of residents being cared for in AHCCCS-funded facilities.

Financial Remedies Section (FRS): The Financial Remedies Section (FRS) disrupts criminal enterprises and dismantles their organizations by prosecuting lawsuits charging them with racketeering offenses that give rise to the remedy of forfeiture. FRS effectively combats the impact of racketeering on Arizona's citizens and on legitimate commerce in Arizona. It does this primarily through forfeiture, which enables FRS to not only deprive organized crime of the property and profit that keep it in business, but to use forfeited property and proceeds to fund future investigations and prosecutions of racketeering crimes. FRS conducts investigations of offenses relating to organized crime and racketeering, primarily money laundering and drug trafficking; facilitates the seizure of property; manages the seized property; prosecutes lawsuits mainly seeking forfeiture of the seized property; and, distributes the proceeds of the sold, forfeited property to victims of

racketeering crime and law enforcement agencies that investigate and prosecute more racketeering offenses committed by other criminal organizations.

Office of Victim Services (OVS): The Office of Victim Services is a service-oriented Section within the Criminal Division of the Attorney General’s Office whose programs are established for directly benefiting both crime victims and the many state-and-local governmental entities in Arizona who serve them. The OVS provides statutorily-mandated services to victims of various crimes being investigated and prosecuted by the AGO as well as those crime victims whose cases are being appealed. OVS staff also provides more than twenty types of non-mandated services to address the needs of crime victims recovering from the personal and social effects of victimization. Additionally, OVS supports state, county, and municipal law enforcement, custodial, prosecutorial, and correctional agencies, and courts, having duties established and defined by Arizona’s victims’ rights laws. These entities benefit from the Victims’ Rights Program administered by OVS which provides funding, training and other forms of assistance that further uniformity, efficiency, and victims’ rights compliance.

Special Investigations Section (SIS): The Special Investigations Section consists of special agents, supervising agents, analysts, auditors and administrative personnel with specialized areas of experience unavailable from other law enforcement agencies. SIS is divided into six investigative units which function primarily within the following AGO Sections: Consumer Protection and Advocacy, Fraud & Special Prosecutions, Healthcare Fraud & Abuse, Border Crimes Enforcement, Financial Remedies and the Arizona Financial Crimes Task Force. SIS personnel provide expertise in the special areas of prosecution upon which the AGO has sole jurisdictional responsibility. Investigative assistance by SIS personnel is provided in the complex areas of white collar crimes, public corruption, consumer fraud, drug trafficking, human smuggling, environmental crimes, gangs and violence, medical fraud, abuse of the vulnerable, money laundering, forfeiture, tobacco violations and prosecution of crimes which occur in Arizona but the perpetrator has fled to the Republic of Mexico.

Criminal Appeals (CAS) & Capital Litigation Section (CLS):- The Section’s primary function is defending the State of Arizona in appeals and federal habeas actions initiated by convicted felons. In non-capital appeals, the Criminal Appeals Section represents the State on direct appeal in the Arizona Court of Appeals and in the Arizona Supreme Court. The Section also represents the State in federal court cases arising from state-court convictions. The Capital Litigation Section defends the State in death penalty proceedings from the time a death sentence is imposed until the sentence is carried out or until the case is otherwise concluded. Those proceedings include the direct appeal, state post-conviction, and federal habeas corpus matters. Both Sections also provide trial and research assistance at the request of county attorneys.

New Forfeiture cases opened	1,665	1,500	1158	1,200	1100

Explanation: Decrease in FY18 is due to fewer number of cases submitted by law enforcement agencies and fewer overall assets submitted, and due to cases declined and property released in consideration of the facts, law and public interest. Decrease in FY19 and FY20 estimates are due to identifying trends in reduced number of case submittals.

Opened cases resolved within the year	1,804	1,800	1562	1,500	1400
---------------------------------------	-------	-------	------	-------	------

Explanation: Decrease in FY18 is due to the reduced number of case submittals. In addition, FY 18, along with the decreased estimates for FY19 and FY20 are due to the reduced case submittals and possible impact of legislation effective in August 2017 that imposed substantial restrictions on forfeiture cases.

Number of defendants (in rem/in personam)	2,395	2,400	2472	2,200	2400
---	-------	-------	------	-------	------

Explanation: Decrease in FY19 Estimate is moderate and is due to identified trend of fewer case submittals, however, case submittals may increase by FY20

Amount forfeited to State (\$ millions)	16.4	15.5	13.9	14	14
---	------	------	------	----	----

Explanation: Decrease in FY18 is due to reduced number of case submittals and corresponding reduction in defendants and assets. FY19 and FY20 estimates for static levels are due to estimated case submittal reductions in the short term, but potential for increased case submittals.

◆ **Goal7** To support statewide prosecution and forfeiture efforts through training, research and property management support.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Law enforcement training seminars	17	20	11	15	15
Financial inquiry assists	4,562	2,500	320	500	500

Explanation: Decrease in FY18 is due to the Transaction Record Analysis Center (TRAC) agency users are now more experienced with the database system and seek less assistance from analysts.

◆ **Goal 8** To improve the treatment of crime victims in Arizona by exhibiting leadership, promoting public policy reforms where needed and increasing the quality of victim services and victims' rights compliance through the administration of the Victims' Rights Program (VRP).

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Number of victim service network events participated in	115	80	134	90	100
Explanation: In FY18 the number of Victim Service Network events participated in had an increase due to: more opportunities for participation in regional/national conferences, increase in OVS staff participation/membership in various local and state victims' related committees/organizations, and more opportunities for learning and growth in the Victims' Rights field in general.					
Total awards disbursed (\$ millions)	3.2	3.0	3.0	2.2	2.2
Explanation: Decrease in FY18 is due to CJEF funding reductions.					
Percent of VRP recipients in compliance with mandates	100	100	100	100	100
Number of trainings and presentations given	84	75	81	75	75
Explanation: Decrease in projected/goal for funding in FY18 is due to decreased revenue in the Criminal Justice Enhancement Fund, which provides most of the funding for the VRP grants.					
Number of attendees at trainings and presentations	1,753	1,500	1,842	1,600	1,700
Explanation: Increase in FY18 was due to staff attendance at an increased number of networking events.					
% of victims' rights violation allegations responded to	100	100	100	100	100
% of Victims' Rights award recipients satisfied with the Victim's Rights Program	95	90	98	90	90
Number of agencies audited	9	10	8	8	8
Explanation: The estimates for FY19 and FY20 have been decreased due to the workload along with the Compliance Administrator changing to part time status.					

- ◆ **Goal9** To foster victims' recovery from the traumatic short and long-term effects of victimization, to prepare victims to cope with the impact of criminal justice system involvement, and to provide for the efficient and effective delivery of quality services to victims during all stages of criminal prosecutions.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Number of victims served	8,360	10,000	8,753	9,000	9,500
Explanation: Decrease in FY19 and FY20 estimates for victims served are dependent on victim-related cases prosecuted by the AGO and opened with OVS.					
Number of mandated services provided	24,045	20,000	33,612	20,000	20,000
Explanation: Increase in FY18 is due to increased training of advocates to ensure mandated services are provided.					
Number of non-mandated services provided	55,913	75,000	74,131	75,000	75,000
Explanation: Increase in FY18 is due to increased training of advocates to ensure non-mandated services are provided.					
Open restitution cases	407	350	431	350	350
Explanation: Open restitution case numbers are dependent on multiple factors than can change from year-to-year (number and type of cases prosecuted, victims opting in for restitution notification, etc.).					
Compliance checks of restitution orders conducted	1,621	1,850	1,706	1,750	1,750
Explanation: Service numbers in this area fluctuate yearly and are dependent on the number of cases in OVS, victim needs and defendant compliance.					

- ◆ **Goal10** To provide competent and timely investigations of criminal conduct.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Open cases	464	500	209	300	350
Explanation: Decrease in FY18 was due to reallocation of resources, including several vacancies from retirements and resignations as well as better vetting of cases through the complaint system, which had over 4000 complaints. There are various complaints pending which have not turned into open cases as of yet.					
Law enforcement assists	177	150	54	50	50
Explanation: Decrease in FY18 is due to more cases being referred to SIS rather than working in conjunction with other agencies.					
Matters reviewed but not opened by Duty Agent	3,265	2,500	4,130	4,500	5,000
Explanation: Increase in FY18 was due having two quarter-time Duty Agents along with the full implementation of the online complaint system.

CHILD AND FAMILY PROTECTION DIVISION

John Johnson, Division Chief Counsel
Phone: (602) 542-9948
A.R.S. § 41-191

Mission:

To provide the Department of Economic Security (DES) and the Department of Child Safety (DCS) with high quality and timely legal advice and representation to promote the safety, economic sufficiency and well-being of children, adults and families.

Description:

The Division is responsible for providing legal services to all programs and business operations of the DES and the DCS. The Division provides these services through three distinct sections.

The Protective Services Section (PSS) provides comprehensive legal representation to the DCS throughout Arizona's 15 counties with offices located in Flagstaff, Gila/Pinal, Kingman, Mesa, Phoenix I, Phoenix II, Prescott, Sierra Vista, Tucson and Yuma. PSS represents the DCS in all dependency, guardianship, termination and appellate proceedings brought for the protection of abused and neglected children. PSS also handles some adoption proceedings on behalf of the DCS, and administers a case processing system established by state and federal law designed to expedite dependency court proceedings and place children in safe, permanent homes.

The Child Support Section (CSS) represents DES' Division of Child Support Services (DCSS). This includes establishing paternity and obtaining, modifying and enforcing child support orders to ensure the economic well-being of children. CSS also represents DCSS in appeals, complex litigation actions and provides comprehensive legal advice and support to DCSS in 14 of the 15 Arizona counties.

The Civil and Criminal Litigation & Advice Section (CLA) provides legal advice and representation in administrative hearings and state and federal courts to DCS on matters other than those handled by PSS and a myriad of programs within DES. Other than Child Support Services, CLA represents all DES programs (approximately 100) some of which include: Developmental Disabilities, Procurement, Unemployment Insurance, Collections, Supplemental Nutrition Assistance, Child Care Assistance and Licensing (developmental homes). CLA also represents DCS and DES in all personnel and operations matters and prosecutes criminal cases relating to various DES program violations, including recipient benefit fraud, employee benefit fraud, employee embezzlement, as well as, all related appeals.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	0.0	350.0	350.0
Other Appropriated Funds	351.7	900.0	900.0
Other Non Appropriated Funds	0.0	0.0	0.0
Total Funding	351.7	1,250.0	1,250.0
FTE Positions	1.0	2.0	2.0

- ◆ **Goal1** To assist the DCS in protecting children from abuse and neglect by providing legal services and representation in compliance with the timeframes established by federal and state law.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Number of dependencies filed by the DCS (including supplemental and in-home petitions)	5,651	5,600	4687	4,700	4,700

Explanation: In FY2018, the reinstatement of full prevention services has become a focus of the Department. Consequently, the Department has implemented more home based safety plans and has removed fewer children under dependency petitions.

Number of preliminary protective hearings within five to seven days of filing initial dependency petition	5,471	5,450	4,731	4700	4700
---	-------	-------	-------	------	------

Explanation: The decrease in preliminary protective hearings is directly tied to the continued decrease in the number of dependency petitions filed.

- ◆ **Goal2** To assist the DCS in establishing permanent living situations for children by providing legal services and representation in all stages of judicial proceedings that comply with federal and state timeframes for new cases.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Number of hearings held to establish a permanent plan within 12 months	8,492	8,400	7,324	7,300	7,300

Explanation: In FY2018 the number of children in dependency matters decreased. As a result, the number of permanency hearings held within 12 months of removal decreased.

Number of reunifications achieved (child back with parents)	3,534	3,500	3163	3,200	3,200
---	-------	-------	------	-------	-------

Explanation: With fewer children in care throughout the state, there was a corresponding higher number of children that were reunified with their parents. The Department's emphasis remains on timely, safe reunification with at least one parent.

Number of guardianships achieved (child placed with guardian)	535	535	623	600	600
---	-----	-----	-----	-----	-----

Number of terminations achieved (child removed from parents)	2,935	2,900	3,554	3,500	3,500
--	-------	-------	-------	-------	-------

Explanation: For children who are unable to reunify with a parent, DCS and PSS have achieved permanency for these children through termination actions.

- ◆ **Goal3** To assist the DCSS in establishing paternity orders for families by providing legal services and representation in all stages of litigation.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Number of children with paternity established	1,062	1,000	1,008	1,000	1,000

Explanation: The number of children for whom a paternity order was established through court action remained stable this year.

◆ **Goal4** To provide legal representation in DES and DCS litigation and to prosecute and deter fraud.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Administrative, Civil and Appellate litigation resolved (cases closed)	753	575	1,082	850	850

Explanation: During FY 2018, CLA experienced an increase in referrals from DES regarding a few of the substantive programs to which CLA provides advice.

Civil Collection litigation resolved (judgments)	432	400	407	400	400
Criminal prosecutions completed successfully (sentenced)	208	190	235	205	205

Explanation: In FY 2017 and FY 2018, CLA experienced a marked increase in criminal prosecution referrals. The increase above estimate is a result of CLA filing more cases to keep pace with the increase in referrals. Also, cases are not necessarily resolved in the year that they are filed because some defendants either cannot be served or they fail to appear and have warrants issued for their arrest. Defendants on warrant status can be arrested or may voluntarily come to court to have a warrant quashed in the years after the case was originally filed, resulting in their cases being resolved in subsequent years. The factors will cause increases or decreases beyond what can be anticipated when calculating estimates for future fiscal years.

◆ **Goal5** To generate funds for the State via criminal restitution and civil judgments.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Civil judgments (\$)	1,599,267	1,000,000	1,203,907	1,000,000	1,000,000

Explanation: This amount increased above estimate due to the fact the client agency referred more cases than CLA anticipated.

Garnishment funds received (\$)	591,657	400,000	699,495	500,000	500,000
---------------------------------	---------	---------	---------	---------	---------

Explanation: This amount increased above estimate due to the fact the client agency referred more cases than CLA anticipated.

Criminal restitution ordered (\$)	810,370	675,000	675,185	625,000	575,000
Criminal restitution received prior to sentencing (\$)	1,033,415	900,000	911,693	825,000	775,000

◆ **Goal6** To provide comprehensive legal advice to the Department of Economic Security and Department of Child Safety.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Hours of counsel and advice	34,075	32,000	38,237	32,000	32,000

Explanation: The hours of counsel and advice is above estimate due to certain projects that required substantial input from CLA attorneys and an increase in referrals in a few substantive areas.

Subprogram Summary

CIVIL DIVISION

Dawn Northup & Beau Roysden, Division Chief Counsel, Acting Division Chief Coun

Phone: (602) 542-8872

A.R.S. § 41-191

Mission:

To provide high-quality, effective, and innovative legal representation to the State of Arizona, its agencies, officers, and employees acting within the scope of their employment and provide legal advice and litigation services to the Executive and Judicial branches of State Government.

Use the discretionary power of the Office of the Attorney General to pursue those who prey upon the public and threaten the economic well-being of all Arizonans and provide legal advice and litigation services to the Executive and Judicial branches of State Government.

Description:

The Division consists of attorneys and staff whose principal assignments focus on specialty areas of civil law. The Division also provides day-to-day legal services to a number of departments, boards, and commissions in the State of Arizona. The Division is divided into the Sections listed below.

Agency Counsel Section (ACS) – ACS provides legal advice and litigation services to the Office and a number of State agencies, boards and commissions including the Executive and Judicial branches of government. Some of the Section’s clients include the Department of Administration, Administrative Offices of the Courts, Department of Corrections, Department of Gaming, Office of the Secretary of State, Arizona State Retirement System, and Arizona State Lottery Commission.

Environmental Enforcement Section (EES) – EES provides advice, enforcement, litigation, and representation services related to state and federal environmental and natural resource laws. The Section represents the Department of Environmental Quality (ADEQ) in matters arising under state and federal laws pertaining to water quality control, air quality control, and waste management and remediation.

Education and Health Section (EHS) – EHS includes the Education and Health Units. The Health Unit provides legal services to the Department of Health Services including the Arizona State Hospital, the Division of Public Health Licensure, the Division of Public Health Preparedness, the Division of Public Health Prevention, and other health programs. The Health Unit also provides legal services to the Commission for the Deaf and the Hard of Hearing. The Health Unit does not represent AHCCCS or any local health department.

The Education Unit provides legal services to the Arizona Department of Education, the Arizona State Board of Education, the Arizona Commission for Postsecondary Education, the School Facilities Board, the Arizona State School for the Deaf and the Blind and the State Board for Charter Schools. The Education Unit does not represent any Colleges, Universities, or School Districts.

Employment Law Section (ELS) – ELS provides employment law advice and litigation support to state agencies and represents the State in employee appeals from personnel actions. Further, ELS defends the State, its agencies and employees in employment lawsuits brought by current, former or prospective employees. ELS also defends the State and Risk Management in contested workers compensation cases.

Licensing and Enforcement Section (LES) – LES provides legal services to more than forty State agencies, boards and commissions, most of which regulate professions, occupations or businesses. The Section provides legal advice to client agencies regarding their statutes and rules as well as open meeting law and public records issues. In addition, the Section provides litigation services by prosecuting administrative hearings against licensees and defending appeals of agency actions in the Superior Court and the Court of Appeals. Moreover, LES has adopted the role of Independent Advisor in addition to Prosecutor. This enables LES to provide a new level of service to its clients. Some of the agencies represented by the Section include the Accountancy Board, the Arizona Medical Board, the Dental Board, the Registrar of Contractors, the Department of Liquor Licenses and Control and the Nursing Board.

Liability Management Section (LMS) – LMS represents the State and its employees in Risk Management covered lawsuits that allege liability for personal injuries, property damage and constitutional law violations.

Natural Resources Section (NRS) - NRS provides agency advice and representation to a variety of State agencies, but primarily the Arizona State Land Department (ASLD). ASLD manages over nine million acres of state trust land, so NRS’ services relate to a myriad of issues, including urban and rural development, sales and long-term leasing, and grazing, mining, agricultural, utility, and transportation uses. Further, NRS represents the State where its agencies claim water rights in the two water adjudications, with water rights claims on state trust lands comprising the majority of those claims. The Section also provides legal counsel to the Arizona State Parks Board, the

Department of Forestry and Fire Management, the State Mine Inspector, the Board of Geographic and Historic Names, and the Prescott Historical Society.

Public Law Section (PLS) - PLS serves the State of Arizona and the Attorney General's Office through its two distinct Units: the Public Law Unit and the Tobacco Enforcement Unit. The Public Law Unit (PLU) provides legal advice and representation to a variety of state agencies, including the Department of Financial Institutions, Department of Veterans' Services, and the Arizona Exposition and State Fair Board. The Tobacco Enforcement Unit (TEU) is responsible for enforcing the Tobacco Master Settlement Agreement, which brings to Arizona approximately \$100 million each year. In partnership with the Arizona Department of Health Services, TEU also runs a robust Youth Tobacco Counter Strike Program.

Tax Section (TAX) – TAX advises the Arizona Department of Revenue on property tax, income tax, transaction privilege (sales) tax and various other tax areas, and represents the Department when taxpayers challenge their taxes in court and before the State Board of Tax Appeals and the State Board of Equalization. Tax also advises and represents the Arizona Department of Transportation on fuel tax and aircraft license matters as well as on all other tax issues that arise at that Department.

Transportation Section (TRN) – TRN represents the Arizona Department of Transportation in a number of areas, including eminent domain litigation, construction contract litigation, highway right of way encroachments, procurement contracts, vehicle license and driver license suspensions / revocations and related appeals. The Section also represents the Arizona Department of Public Safety in a number of areas including criminal history records, fingerprint records and clearance cards, procurement contracts, licensing and permit suspensions and revocations and commercial vehicle enforcement.

Consumer Protection and Advocacy (CPA): CPA enforces the Consumer Fraud Act and other state and federal consumer protection laws. Further, the Section handles all complaints reported to the office by consumers. The Antitrust Unit within the Section enforces laws that protect competition and consumer welfare.

Bankruptcy Collection & Enforcement (BCE): BCE provides debt collection representation for state agencies, boards and commissions. This includes representing the state when debtors file bankruptcy and owe back-taxes or owe the state for other debts.

Government Accountability and Special Litigation & Antitrust Units (GASL & ATU): The Government Accountability and Special Litigation Unit defends state statutes from legal challenges, handles election enforcement matters on behalf of the office, takes civil enforcement action for improper expenditure of public monies, and handles legislator requests for investigation pursuant to recently passed SB 1487. The Antitrust Unit enforces laws that protect competition and consumer welfare.

The Solicitor General's Office's responsibilities include: (1) managing the State's civil appellate matters; (2) handling and advising on significant criminal appeals, capital litigation, and post-conviction relief cases; (3) handling matters to protect the state's sovereignty from federal overreach; (4) supervising the production of formal Attorney General opinions; (5) representing the Governor's Regulatory Review Council and five appellate boards; (6) serving as a clearinghouse for lawyers throughout the Attorney General's Office on a variety of special projects; and (7) providing policy support in the specific areas of ethics and training, specialized litigation, and key programs as prioritized by the Attorney General

Funding:	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	5,282.5	5,793.4	5,793.4
Other Appropriated Funds	40,051.8	40,590.1	40,336.3
Other Non Appropriated Funds	39,428.1	27,457.1	27,457.1
Total Funding	84,762.4	73,840.6	73,586.8
FTE Positions	677.4	655.4	655.4

- ◆ **Goal 1** To provide legal strategy, advice, and advocacy that secures and augments the value of the State Land Trust and contributes to the General Fund.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Amounts recovered, generated, and/or saved (in millions of dollars)	127	90	102	110	110

Explanation: The numbers are an attempted calculation of those revenues received by ASLD from sales for cash or on terms, and long-term leases of state trust lands, where the Attorney General’s Office provided assistance at the original transaction stage or on an ongoing basis. The 2017 figure was much higher than estimated due to difficulty in estimation because of 1) the unique properties and unique values involved in sales and 2) the client’s move to cash sales or one-year financing as the primary structure of transactions means that sales revenues may change markedly from year to year depending upon the market. The 2018 estimate of \$90 million retained a conservative estimate based on market uncertainties. FY 2018 results were lower than FY 2017 because fewer successful bidders chose to pay up-front, and instead paid on terms, which should result in a more steady and certain stream in future years. As a result, the FY 2019 and FY 2020 estimates assume a modest increase from FY 2018.

- ◆ **Goal 2** To provide quality legal services that are more efficient and less costly than outside legal counsel (AGO = Attorney General's Office and OSC = Outside Counsel).

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Average months in suit: per tort lawsuit - AGO	15	20	22	20	20
Explanation: Average for any given year is based only on those cases which closed during that year. The facts of each case are different - as are the witnesses, attorneys, and judges - thereby causing fluctuations in average numbers from one year to the next.					
Average months in suit: per tort lawsuit - OSC	31	35	47	35	35
Explanation: Increase in averages were a result of database system clean-up for cases that were resolved several years ago.					
Average billable hours: per tort lawsuit - AGO	242	225	212	225	225
Average billable hours: per tort lawsuit - OSC	87	100	285	200	200
Explanation: Numerous complex cases were referred to OSC.					
Average billable hourly rate: per tort lawsuit - AGO	101	100	100	100	100
Average billable hourly rate: per tort lawsuit - OSC	227	280	225	230	230
Explanation: In reviewing data from previous years, we believe our estimates for 2018 were erroneously set too high.					
Average months in suit: per employment lawsuit - AGO	14	20	22	20	20
Explanation: ELS closed twice as many lawsuits in 2018, compared to 2017					
Average billable hours: per employment lawsuit - AGO	435	500	265	300	300
Explanation: ELS closed approximately twice as many lawsuits in 2018 compared to 2017. Many of these closures were due to dismissals of cases on early dispositive motions or other early resolutions, resulting on average in fewer billable hours per lawsuit.					
Average billable hourly rate: per employment lawsuit - AGO	170	150	125	150	150
Explanation: For roughly the same expenditure of fees and costs relative to 2017, ELS attorneys carried heavier case loads and therefore generated more billable hours than in 2017.					
Average billable hourly rate: per workers compensation matter: AGO	88	110	130	110	110
Explanation: In 2018, the average billable hourly rate returned to approximately the average billable hourly rate of 2016.					

- ◆ **Goal3** To provide the highest quality legal advice, representation, and training to the various agencies, boards, and commissions including but not limited to: Financial Institutions, Game and Fish, Insurance, Real Estate, Departments of Administration, Corrections, Gaming, Office of the Secretary of State, Arizona State Lottery Commission, Arizona State Retirement System, and Veteran’s Services Commission.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
-----------------------------	---------------------------	-----------------------------	---------------------------	-----------------------------	-----------------------------

Advice matters and files opened	149	225	632	650	700
---------------------------------	-----	-----	-----	-----	-----

Explanation: Increased diligence of importance of formally opening files.

Civil litigation files opened	429	550	349	375	400
-------------------------------	-----	-----	-----	-----	-----

Explanation: Slow down in regulatory activities fo the agencies, improvement in the economy reduced procurement protest. Cases are more complex and require more time.

Cases resolved within the year	824	500	209	250	275
--------------------------------	-----	-----	-----	-----	-----

Explanation: Cases more complex and require more time. Previous year reflects figures from a previously combined two sections

- ◆ **Goal4** To improve client satisfaction and client relations through meetings with client directors and/or commissioners, and to provide training sessions in the areas of public records law, open meetings law, conflict of interest law, and related legal restrictions on the activities of public officials and employees.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
-----------------------------	---------------------------	-----------------------------	---------------------------	-----------------------------	-----------------------------

Meetings with client agency directors and/or commissioners	54	50	75	65	70
--	----	----	----	----	----

Training sessions with clients	26	15	14	15	15

- ◆ **Goal5** To timely issue formal legal opinions.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
-----------------------------	---------------------------	-----------------------------	---------------------------	-----------------------------	-----------------------------

Days to respond to a request for a legal opinion	140	90	194	120	120
--	-----	----	-----	-----	-----

Explanation: As mentioned in FY2017, the AG Opinions Review Process was changed to have a more robust internal review and improve transparency through public comment opportunities. In FY2018 we received a high number of opinion requests which forced us to expand the Opinion Review Committee. The Opinions Attorney position was vacant at the end of the year for a short time and the transition process delayed completion time frames. In the long term we anticipate a return to shorter completion time frames consistent with our stated goal of 120 days for completion.

- ◆ **Goal6** To be responsive to public concerns about consumer fraud.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
-----------------------------	---------------------------	-----------------------------	---------------------------	-----------------------------	-----------------------------

Complaints Opened	14,785	15,000	13,141	15,000	15,000
-------------------	--------	--------	--------	--------	--------

Explanation: CIC has implemented a new database with better tracking and auditing features than the previous CICS database. The old database did not control for a certain amount of duplicate complaints.

Complaints closed	40,218	15,000	13,856	15,000	15,000
-------------------	--------	--------	--------	--------	--------

Telephone calls received from the public	37,531	35,000	46,082	35,000	35,000
--	--------	--------	--------	--------	--------

Explanation: Outreach events and press releases resulted in more phone calls to the office.

- ◆ **Goal7** To deter fraudulent business practices as a means to protect consumers from fraud.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Judgments	26	25	29	25	25
Consumer Restitution Awarded (\$ millions)	0	0	20,808	8,000	8,000

Explanation: Awarding restitution to consumers has always been a top priority for AG Mark Brnovich, which has resulted in a larger portion of settlements and/or consent judgments being allocated toward restitution rather than penalties or costs

- ◆ **Goal8** To enforce the Model Escrow Statute, Directory Statute and Master Settlement Agreement and work to reduce sales of tobacco products to minors.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Youth compliance checks conducted	2,165	2,000	1,576	2,000	2,000

Explanation: Fewer compliance checks were conducted because of staff vacancies, which have now been addressed.

- ◆ **Goal9** To protect and promote competition for the benefit of Arizona consumers through enforcement of the Arizona Uniform Antitrust Act.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Restitution ordered for Arizona consumers and costs recovered in antitrust cases (\$ dollars)	1,063,891	75,000	2,661,573	75,000	75,000

Explanation: The Cephalon settlement payments were received in FY18. As a result, Arizona state agencies and political subdivisions recovered \$1,051,686.61 in damages. Arizona government and not-for profit entities also received \$1,459,886.56 in restitution from the Deutsche Bank LIBOR settlement. The Attorney General's Office also recovered \$150,000 in costs and fees from the resolution of an antitrust investigation into Henry Schein, Inc. This recovery greatly deviated from the Antitrust Unit's estimated recovery of consumer restitution, but the amount and timing of the restitution payments were unknown as they were contingent upon resolutions of two lengthy investigations.

- ◆ **Goal10** To collect debts owed to the State of Arizona efficiently, expeditiously and fairly.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Revenue Increase Over Prior Year. FY18, FY19, FY20 (\$ millions)	6,493,722	7,000,000	8,686.0	10,000	10,000

Explanation: The increase in the amounts collected in FY18 was as a result of Department of Revenue cases been transferred to AG's office. We anticipate an increase in revenue collected for FY19

Program Summary

CENTRAL ADMINISTRATION

Leslie Welch, Director of Operations
 Phone: (602) 542-8046
 A.R.S. § 41-191

Mission:

To provide administrative and policy support in addition to direction for the Department of Law and to collect debts owed to the State, provide budgetary, contract, accounting, financial control services and information technology support, and manage employee relations and process personnel actions, and provide centralized distribution to the Attorney General's Office.

Description:

The program is comprised of three areas: Executive Office, Operations Division, and Communications

The Attorney General and Executive Staff are responsible for providing legal advice to state officials, legislators, county attorneys, and all client state agencies in addition to certifying rules promulgated by state agencies. The Operations Division is committed to providing premier employee services through clear communication, employee training, and centralized processes in Accounting, Budgeting, Human Resources, Procurement, Facilities Management, Information Technology and all logistical services. The Communications division is responsible for Community Outreach, Legislative and Public Affairs.

AUTO THEFT AUTHORITY

Frederick W. Zumbo, Executive Director
Phone: (602) 364-2888
A.R.S. § 41-3451

Mission:

To combat and prevent auto theft crimes in Arizona through a cooperative effort by supporting law enforcement efforts, vertical prosecution, and public awareness programs.

Description:

The Authority administers statewide grants to law enforcement and criminal justice agencies for the most effective and efficient enforcement, prosecution, and prevention strategies to combat auto theft crimes across Arizona.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>

5 Year Plan

Issue 1 Expand AATA's Vertical Prosecution Program to counties across Arizona.

Description Vertical prosecution of auto theft cases does not exist in Arizona absent funding by the AATA. The complex nature of automobile theft and the associated organized crime requires the funding of a sufficient number of well-trained prosecutors to work with the Task Force and other law enforcement to continue the successes achieved and prevent a backward slide in vehicle theft rates.

Solutions:

- Determine which counties (large and small) to be funded
- Provide training and instruction on the Vertical Prosecution Program
- Provide AATA Grant funding for additional support staff if needed
- Ensure that the agencies are following guidelines set forth by the AATA

Issue 2 Increase AATA Public Awareness Programs statewide.

Description AATA's Public Awareness programs are currently underutilized. Public Awareness programs have been an effective tool employed by the AATA and its law enforcement partners in the reduction of vehicle theft on a statewide basis, however, these programs have been less of a funding priority in recent years, because of decreased budget and manpower issues.

Solutions:

- Contact and develop partnerships with state/local law enforcement and prosecution agencies. Assist with the development of grants programs for these agencies to initiate public awareness programs in each Arizona County.
- Identify new, innovative programs and strategies for statewide impact and a re-establish our Agency brand. Continue to provide equipment, literature and promotional items, along with other AATA resources, which provide agencies the ability to target specific needs of their community and to empower vehicle owners to protect their property.
- Maintain and support sustainable auto theft prevention programs, including Watch Your Car, FREE VIN Etching, Youth Theft Deterrent programs, Blockwatch, AARP and Citizens on Patrol programs.
- Empower Arizona vehicle owners to protect and secure their personal property.

Issue 3 Address growing crime trend of vehicular crimes related to border security.

Description As technology improves, criminals often commit carjackings because improved security systems make it very difficult to steal vehicles without a key. These carjacked vehicles are used to commit robberies, shootings and homicides, as well as drug and human smuggling.

Solutions:

- Develop a public awareness program/campaign specific to border related vehicle crimes and carjackings. Share with statewide law enforcement and criminal justice partners along with Blockwatch and community groups.

Agency Summary

BOARD OF BARBER EXAMINERS

Sam J. Barcelona, Executive Director
Phone: (602) 542-4498
A.R.S. §§ 32-301 et seq.

Mission:

To preserve the public welfare and health through the development and enforcement of adequate sanitation procedures, rules, and laws governing barbers and barbering establishments.

Description:

The Board administers barbering examinations, grants and renews licenses, inspects barbering establishments, investigates consumer complaints regarding unlawful activities, and takes measures to resolve complaints, including holding hearings, levying fines, and suspending or revoking licenses.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	0.0	0.0	0.0
Other Appropriated Funds	327.0	401.1	401.1
Other Non Appropriated Funds	0.0	0.0	0.0
Total Funding	327.0	401.1	401.1
FTE Positions	4.0	4.0	4.0

Issue 1 To service licensees in an efficient manner.

Description Provide our licensee's with quick and accurate service, to assist our licensees with the information they need and to keep administrative costs as low as possible.

We wish to render efficient responses to other departments with whom we work (attorney general, general accounting, etc).

Solutions:

We issue or deny an applicant's request for a license within our time-frame. We assist our licensee with questions they may have, thereby allowing them to obey the laws that govern their license. By helping them with their questions with sanitation, we are also helping to protect the public's health. In order to protect the public's health, three-fourths of our staff spends most of their time investigating complaints and inspecting barber shops and barber schools; this also helps keep our administrative costs low.

Issue 2 To enforce legislative requirements concerning the regulation of barbers

Description We try to inspect each barber shop or barber school each year for compliance with Arizona statutes. During this inspection, we are also checking each barber or instructor for compliance with Arizona statutes.

Solutions:

If there is problem with a licensee's failure to comply with Arizona statutes the inspection is brought to the attention of the Governing Board. The Governing Board decides whether to dismiss the case or to proceed to a legal proceedings which might result in a civil penalty, probation, suspension or revocation of a license.

Issue 3 To ensure the proper use of sanitary procedures to prevent the transmission of diseases, parasite, or injury to the public

Description The Board answers questions from the public or licensees regarding proper methods of sanitation. During inspections, barbers have their stations and equipment checked for compliance with Arizona standards.

Solutions:

The Board attends the annual conference of the National Association of Barber Boards of America to stay informed of new standards and techniques. The conference also allows us to learn of legislation other states are considering. The Board also gives demonstrations at the various barber schools and other events.

Issue 4 To ensure that all licenses issued by the Board meet minimum requirements.

Description We check each application for a license to ensure that all of the requirements of Arizona laws are met.

Solutions:

Each application is checked to verify that the paper requirements have been presented. This includes, but is not limited to, the State requirement that the applicant be a citizen of the United States or be a legal resident of the United States. If the applicant is student who has just graduated from a barber school, we give a written and practical examination to ensure the applicant meets the basic knowledge expected from a new graduate.

Issue 5 To update the website.

Description Our new website was designed by ASET and has been launched. The feedback from the public has been favorable. The website was completely restructured bringing many of its sections up to date and new sections added. We feel this will help the public and our licensees.

Solutions:

We also want to make the website more user friendly for our staff by attending sessions hosted by ASET to teach our staff to make corrections directly on the website without going through a third party.

Issue 6 Acceptance of electronic payments

Description In order to comply with Governor Ducey's Executive Order 2015-001 that requires each agency to accept electronic payments, our Agency is working closely with Aset.

Solutions:

Aset has brokered a contract with Deloitte as our vendor to transfer our data to a new format that will allow electronic payments. Aset is also transferring our internet provider to Google Enterprise. These improvements will give enhanced data protection and will result in more responsive customer service.

Issue 7 To update the laws and rules governing the Board.

Description The Board has many issues with its rules which it wishes to update. Many of these issues involve bringing the rules up to date to match other laws which have been modified or enacted. However, several of the rules we wish to implement involve the safety of the public, barber students, barbers, instructors, schools and establishment.

We also have an issue with our laws. There are many new circumstances which to be addressed legislatively.

Solutions:

Changes were made to our rules last year. We also have changed to our rules to eliminate the acceptance of cash. Many changes are on the horizon when we can have electronic payments and submission of applications. We will address them with the help of our legal counsel.

BOARD OF BEHAVIORAL HEALTH EXAMINERS

Tobi Zavala, Executive Director
Phone: (602) 542-1617
A.R.S. §§ 32-3251 to 32-3322

Mission:

To establish and maintain standards of qualifications and performance for licensed behavioral health professionals in the fields of counseling, marriage and family therapy, social work, and substance abuse counseling, and to regulate the practice of licensed behavioral health professionals for the protection of the public.

Description:

The Board licenses and biennially renews licensure for approximately 11,000 behavioral health professionals, requiring these professionals to meet minimum standards of education, experience, and competency, as measured by examination. The Board also receives and investigates complaints, takes necessary disciplinary action, and responds to inquiries from consumers regarding the licensure status and complaint history of individual behavioral health professionals.

5 Year Plan

Issue 1 Continued implementation of statutory and rule changes that became effective on November 1, 2015.
Description Laws 2013, Chapter 242 and Laws 2015, Chapter 154 represented the most sweeping legislative changes to behavioral health licensing since licensure was implemented in 2004.

Ongoing challenges related to the implementation:

1. Development of new processes and procedures for staff, committees, and for Board to align with statutory changes.
2. Increased volume in applications due to change in curriculum requirements.
3. Increased need for ongoing communication to applicants and licensees regarding new statutes/rules.
4. Increased traffic on an already antiquated database.

Solutions:

The Board plans to address these challenges as follows:

1. The Board will continue to provide regular training on new processes and procedures to staff, committees, and Board members.
2. The Board will continue to streamline application processing through increased use of electronic systems and maximizing staff resources.
3. The Board will continue to utilize the website to communicate updates due to statute/rule changes when possible, and also utilize direct mail or email to keep those regulated by the Board up to date.
4. The Board plans to have an updated licensing solution which offers much more online functionality for applicants and licensees as well as being an integrated database for staff use.

Issue 2 Continued reductions to the timeframe to process investigations including complaints.

Description The Board’s only finding in the 08/31/2012 Performance Audit and Sunset Review by the Auditor General’s office was that the Board should resolve complaints within 180 days of receipt. The Board’s average resolution time frame in the report was 248 days.

The average complaint resolution time frame for fiscal year 2018 was 187 days which represents a decrease of 25% from the Auditor General's report.

Solutions:

The Board has made reducing the complaint processing time frame a priority and will continue to follow the recommendations set forth in the 08/12 Audit Report including:

1. Screening out complaints that do not require investigation.
2. Prioritizing complaints on the basis of risk.
3. Determining investigative staffing needs and hiring and retaining appropriate investigative staff.
4. Streamlining investigative processes.
5. Delegating administrative investigative tasks to support staff.

Agency Summary

STATE BOARD FOR CHARTER SCHOOLS

Ashley Berg, Executive Director
Phone: (602) 364-3091
A.R.S. §§ 15-181 to 15-189

Mission:

To improve public education in Arizona by sponsoring charter schools that provide quality educational choices.

Description:

The Arizona State Board for Charter Schools sponsors and regulates charter schools. The Board oversees the academic and operational compliance of charter holders and reviews the fiscal viability of the schools. The Board also continuously reviews applications for new and replication charter schools as well as renewal applications for existing schools.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	1,069.8	1,209.8	1,209.8
Other Appropriated Funds	0.0	0.0	0.0

Total Funding	1,130.9	1,271.3	1,271.3
FTE Positions	14.0	14.0	14.0

Issue 1 Provide effective oversight of a charter’s academic performance and hold charters accountable for high achievement to ensure all schools in its portfolio are providing a quality learning environment that improves pupil achievement.

Description Laws 2012, Ch. 155 required that in implementing its oversight and administrative responsibilities, the Charter Board (“Board”) shall adopt a performance framework that includes “the academic performance expectations of the charter school and the measurement of sufficient progress toward the academic expectations, the operational expectations of the charter school, including adherence to all applicable laws and obligations of the charter contract, and intervention and improvement policies.”

Successful implementation of the Board’s academic framework relies on the State A-F accountability determinations and school improvement designations. The Department of Education has identified schools for school improvement, has assigned letter grades to all traditional public schools in FY 2017, and will assign letter grades in FY 2018. The Board can now calculate ratings for its schools under its academic framework and provide monitoring and oversight for charters that do not meet the academic performance expectations.

Statute requires the Board ground its actions in evidence of a charter holder’s performance in accordance with its adopted performance frameworks.

Solutions:

Resources for four additional FTE and related operating costs to support implementation of the Board’s academic framework.

Note: Additional four FTE are being requested to support implementation of both the academic and operational frameworks.

Resources for the additional responsibilities related to closing poor performing charter schools.

Issue 2 Provide effective oversight of a charter’s operational performance and communicate to the charters and public the Board’s compliance-related expectations that a charter is required to meet through state and federal law, the charter contract, and administrative rule.

Description Laws 2012, Ch. 155 required that in implementing its oversight and administrative responsibilities, the Board shall adopt a performance framework that includes “the operational expectations of the charter school, including adherence to all applicable laws and obligations of the charter contract, and intervention and improvement policies.”

The Board’s Operational Performance Framework was adopted in October of 2014 and in order for the charter holder to meet the operational performance expectations, it must have an overall rating of “Meets Standard” for the most recent two prior years for which an overall rating was calculated and has no measure that receives a “Falls Far Below Standard” rating in the current year, as represented in its dashboard. By the end of FY 2018, 397 charter holders had three years of data on its dashboard to determine if the performance expectations had been met.

Statute requires the Board ground its actions in evidence of a charter holder’s performance in accordance with its adopted performance frameworks.

Solutions:

Resources for four additional FTE and related operating costs to support implementation of the Board’s operational framework.

Note: Additional four FTE are being requested to support implementation of both the academic and operational frameworks.

Resources for the additional responsibilities related to closing poor performing charters.

Issue 3 Provide effective oversight of a charter’s financial performance and communicate the Board’s expectations for ensuring that all charter holders are viable organizations with strong fiscal management practices.

Description During the 53rd Second Regular Legislative Session, the budget was passed with language requiring charters to meet the financial performance expectations set forth in the performance framework. House Bill 2263 amends A.R.S. §15-183 (2018) and gives the Board the authority to take action against a charter it sponsors based on its Financial Performance Framework. The Board therefore must update its current financial framework and adopt rule and policy to which the Board can use for accountability purposes, including intervention and improvement policies.

Senate Bill 1055 amends A.R.S. §§ 15-182 (E)(1) (2018) and 41-1005 (G) (2018) to allow the Board to adopt rules and policies for itself and the schools it sponsors. SB1055 was signed by the Governor on February 13, 2018 and became effective August 3, 2018.

Solutions:

Resources for four additional FTE and related operating costs to support implementation of the Board’s financial framework.

Resources for the additional responsibilities related to closing poor performing charter schools.

The Board has convened its Financial Performance Framework Subcommittee and held several focus group meetings with stakeholders beginning in August 2018 to revise its financial performance framework to address House Bill 2263.

The Board has created a position that supports the creation, development, revision, and communication of policies and rules to ensure they are updated and made available to the public in an on-going basis.

Agency Summary

DEPARTMENT OF CHILD SAFETY

Gregory McKay, Director
 Phone: (602) 255-2500
 A.R.S. § 8-451

Mission:

To engage children and families successfully to ensure child safety, strengthen families, and achieve permanency.

Description:

The Department of Child Safety (DCS) is Arizona’s State-administered child welfare services agency. DCS provides child abuse and neglect investigations; child safety and risk assessments; family support, preservation, and reunification services; family foster care and kinship care services; services to promote the safety, permanence, and well-being of children in foster and adoptive families; adoption promotion and support services; and health care services for children in out-of-home care.

The primary purpose of DCS is to protect children. To achieve this purpose, the Department seeks to accomplish the following in equal priority: (a) investigate reports of child abuse and neglect; (b) assess, promote and support the safety of a child in a safe and stable family or other appropriate placement; (c) work cooperatively with law enforcement regarding reports that include criminal conduct allegations; and (d) without compromising child safety, coordinate services to achieve permanency on behalf of the child, strengthen the family, and provide prevention, intervention, and treatment for abuse and neglected children.

Issue 1 Improve timeliness to permanency

Description It is the Department’s responsibility to provide permanency as timely as possible for children placed in out-of home care. Permanency planning begins the instant a child is placed in care and continues as an ongoing assessment of strengths and needs of the child and family. Improving timely permanency requires a multi-pronged approach of facilitating successful engagement with families, targeted staffings that allow sufficient time to discuss each case, clearly defined roles between the internal case transitions, and collaboration with the local courts and other partners.

The Departments Five-Year Agency Strategic Priorities are as followed:

- Improve objective decision making in investigations and ongoing
- Develop and retain a highly effective workforce that engages the child welfare partners to serve children
- Reduce length of stay for children in out-of-home care
- Provide a quality experience for children while in out-of home care
- Reduce recurrence of maltreatment by providing quality service

The FY 19 Strategic objectives align with the five year priorities.

Solutions:

Objective 1.1: Standardize referral and delivery of in-home case management

- Define statewide organizational structure for in-home case management
- Refine transfer process from investigation to in-home
- Standardize process for in-home case management and service provision, including referral process and authorization

Objective 1.2: Implement a standardized ongoing case management practice

- Deliver a detailed vision of ongoing case management and the role of the DCS Specialist
- Implement standard work for ongoing case management
- Develop fundamental DCS Supervisor and Specialist skills, such as family engagement practice
- Implement tiered accountability and quality assurance structures to maintain practice fidelity

Objective 1.3: Increase successful transition to adulthood of all children 14+ while in foster care

- Increase engagement with youth 14 and older in youth centered case planning that includes transition planning, emphasizing the importance of supportive adults and permanency
- Enhance TDM process and staff training to better support youth’s preparation for adulthood planning

Objective 1.4 Develop and implement a process to monitor performance of court-authorized removals.

- Implement standard work for reporting and follow up

Issue 2 Increase the placement of children in a family-like setting

Description Positive outcomes for children in out-of-home care are more likely when placed in safe, family environments that meet their developmental needs and preserve their connection to values, beliefs and cultural legacies. In many cases, this sense of stability can be achieved by placing children with kin or in foster or adoptive placements. The Department is committed to engaging kin sooner, increasing the capacity of the foster home network, and evaluating ways to improve stability and retention of existing foster placements.

Solutions:

Objective 2.1 Improve supports to kinship families

- Develop a process and infrastructure to provide kinship providers with improved understanding, training, supports, and connectivity to services

Objective 2.2 Improve the system-wide placement array for children in foster care (traditional, medical, DDD, BH, and detention)

- Define standard work and screening tools for all placement types
- Create sustainable systems of supply and demand measurement for placements
- Improve recruiting and daily management for all types of placement

Objective 2.3 Expand Fostering Sustainable Connections IV-E waiver demonstration project

- Increase engagement with youth 14 and older in youth centered case planning that includes transition planning, emphasizing the importance of supportive adults, and permanency
- Enhance TDM process and staff training to better support youth's preparation for adulthood planning

Issue 3 Improve employee retention through improved supervision

Description One of the greatest challenges to the Department's success is the high rate of attrition among staff. This rate of turnover creates significant challenges for both business operations and field operations sides of DCS, and can translate to significant delays and costs. DCS will pursue a variety of strategies to significantly improve staff retention, including addressing the backlog, developing a method to compensate employees for a job well done, and offering more advanced training opportunities.

Solutions:

Objective 3.1 Define and implement quality assurance, tiered accountability structure for supervisory coaching

- Evaluate and improve the organizational design that supports ongoing coaching to supervisors and PMs in the elements of the practice model and problem solving

Objective 3.2 Define and implement supervisor/PM people and practice coaching infrastructure

- Design and implement a standardized protocol, sustained through tiered accountability, which provides a structure for continued development of DCS leaders targeting various stages of supervision, from aspiring leaders to experienced leaders

Objective 3.3 Define and implement training "Day 1 as a New Supervisor"

- Implement a new field supervisor knowledge assessment evaluation and student study guide
- Implement a hiring selection process and interview guide for new field supervisors
- Implement a standardized onboarding and on the job training experience from new field supervisors

Issue 4 Develop and implement the agency IT infrastructure

Description Improvements in technology and data management systems will provide much-needed support to staff, facilitate administrative processes, and generate good data to share with partners and guide DCS policy and work. A modern day IT infrastructure will allow our workforce to be mobile, have real time and applications that are supported and secure.

Solutions:

Objective 4.1 Guardian Implementation

- Implement Guardian deliverables for FY 19 on time and on budget

Objective 4.2 Network Separation Complete

- Implement Separation Project on time and on budget

Issue 5 Implementation of Integrated Health Plan for behavioral health services

Description

Solutions:

Objective 5.1 Develop and process that quantifies delivery of EPSDT services

- Develop and implement mechanisms to quantify the timely delivery of comprehensive wellness exams, preventative dental exams, and other Early Periodic Screening, Diagnostic and Treatment (EPSDT) services
- This includes:
 - Necessary health services when a child enters out of home care
 - Specialty and other referrals
 - Ongoing EPSDT services in accordance with the EPSDT Periodicity Schedule

Objective 5.2 Finalize and launch RFP for BH-ASO model integration

- In an Administrative Services Organization (ASO) model, CMDP retains clinical operations and closely related business operations and leverages/oversees a subcontracted entity’s business such as claims and provider network operations
- An RFI will be released to inform the RFP
- The RFP will be to acquire a private sector vendor to provide a robust statewide physical and behavioral health network tailored to the unique needs of foster children

IN-HOME MITIGATION

Robert Navarro, Assistant Director of Budget and Finance

Phone: (602) 255-2778

A.R.S. § 8-802, 8-481, 8-453

Mission:

To provide services that assist in supporting and improving the family unit with the goal of maintaining children in the home and reunifying the family whenever safely possible.

Description:

In-home children services seek to prevent further dependency or child abuse and neglect through provision of social services to stabilize family life and preserve the family unit. These services, including voluntary services without court involvement and court-ordered in-home intervention, are available statewide. Services include parent aide, parenting skills training, counseling, self-help, and contracted case management. Families may also receive referrals for services provided by other state agencies including behavioral health services and other community resources.

Contracted services provided are available statewide. Services are provided based upon the needs of the child and family through collaborative partnerships between DCS, community social service agencies, family support programs, and other community and faith-based organizations. Cases served include voluntary foster care, in-home court intervention, in-home dependency, integrated services, and other in-home support cases.

A.R.S. § 8-802, 8-453

Mission:

To provide safe and stable placements for children who have been removed from their home.

Description:

Out-of-home support services provide support services for children who have been removed from their homes and their families to assist in reunifying the family and allowing children to safely return to their homes. These primary services provided services include allowances, parent aide, transportation, in-home services, independent living, foster home recruitment, and substance abuse treatment.

The Out-of-Home Support Services subprogram also include the Comprehensive Medical and Dental Program (CMDP) which provides medical and dental care for children in foster care who are under the jurisdiction of the Department, the Arizona Department of Juvenile Corrections, or the Administrative Office of the Courts/Juvenile Probation Offices. CMDP operates as an acute health care plan under the Arizona Health Care Cost Containment System (AHCCCS) for children who are determined Medicaid eligible.

ADOPTION SERVICES

Robert Navarro, Assistant Director of Budget and Finance
Phone: (602) 255-2778
A.R.S. § 8-141 - 8-173

Mission:

To promote timely placements of children into permanent adoptive homes, to provide adoption support services to these children and families to maintain the placement and to provide for the special needs of the children who are adopted.

Description:

The Adoption services program primarily provides adoption subsidy maintenance payments to adoptive parents who adopt a special needs child. A special needs child is defined as A.R.S. § 8-841 as a child with, or at risk of, a physical, mental, or developmental disability, an emotional disturbance; or with characteristics that made adoption more difficult, such as children age six and older, sibling groups, or racial/ethnic factors. The physical, mental, or emotional disorders may be a direct result of the abuse or neglect the children suffered before entering the child welfare system.

In addition to monthly subsidy payments, the Adoption Services program provides special services, non-recurring adoption costs, and adoptive home recruitment. Special services included payments for services not covered by the subsidy, such as specialized therapy, accommodations for a disability or other specialized services needed to maintain the adoptive placement. Non-recurring costs are legal costs associated with the adoption process.

PERMANENT GUARDIANSHIP SUBSIDY

Robert Navarro, Assistant Director of Budget and Finance
Phone: (602) 255-2778
A.R.S. § 8-814

Mission:

To provide permanency for children by strengthening the guardianship placement with a monetary subsidy to persons appointed permanent guardians of a dependent child.

Description:

The permanent guardianship subsidy provides a monthly partial reimbursement to caretakers appointed as permanent guardians of children in the care, custody, and control of the Department. These are children for whom reunification and adoption has been ruled out as unachievable or contrary to the child's best interest. Many of the permanent homes supported by Subsidized Guardianship are kinship placements.

BOARD OF CHIROPRACTIC EXAMINERS

Justin Bohall, Executive Director
Phone: (602) 542-9101
A.R.S. §§ 32-900 et seq.

Mission:

To protect the health, welfare, and safety of Arizona citizens through the enforcement of laws governing chiropractic care.

Description:

The Board conducts examinations and evaluates applications from chiropractors seeking original licensure and renewal of licensure, and from persons seeking participation in Board-approved preceptorship or chiropractic assistant programs. The Board investigates complaints made against chiropractors and conducts administrative hearings as required. The Board provides information to the public concerning applicants, licensees, and regulatory actions.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	0.0	0.0	0.0
Other Appropriated Funds	410.3	429.7	433.2
Other Non Appropriated Funds	0.0	0.0	0.0
Total Funding	410.3	429.7	433.2
FTE Positions	5.0	5.0	5.0

Issue 1 Secure adequate revenues to address the Board's declining fund balance.

Description Current licensure and renewal fees have not been adjusted since 2002. Despite efforts to minimize expenditures; declining numbers of new applicants as well license renewals had made it impossible to collect revenues in excess of expenditures since FY 2007. The Board addressed changes and has worked to increase the licensing base by providing an easier path to licensure here in Arizona. The changes the Board made in FY14 and FY 15 has reflected and increasing trend in the licensing base. Currently, due to the expanded growth of Arizona in FY 15 and FY 16, the Board is seeing an increase in the numbers of Chiropractic Physicains returning to practice in Arizona. The Board has adjusted its fees and the change in fees will provide increased revenue in FY19.

Solutions:

The Board of Chiropractic Examiners has made several savings, both one time and ongoing, to reduce expenditures from the Chiropractic Examiners Board Fund. While the Board continues to make efficiencies everywhere possible there are costs that continue to rise outside of the control of the Board. It is for this reason that the Board submitted an Omnibus Bill in the 2015 Legislative Session which included language authorizing the Board to adjust fees on an annual basis. Through this legislation the Board obtained the ability to adjust some licensure fees in modest amounts to ensure that the Board can begin each fiscal year with a healthy fund balance. The Board is considering the first modification to its fees in nearly 20 years. As previously stated the Fee increase will occur in FY18 and the Board received an increase in revenue as expected.

Issue 2 Improve the timelines to complete investigations, formal interviews and formal hearings.

Description While FY2014 resulted in the Board's ability to increase the percentage of complaints resolved within 180 days of receipt with no hearing required as well as the average number of months to resolve administrative hearings; the Auditor General's Office recommends that cases be concluded within 180 days.

Solutions:

The Board made changes to the personnel structure, separating the duties of the Deputy Director from that of the Investigator, allowing the Investigator to focus his/her full attention to the receipt, analysis, presentation and processing of all complaints through final adjudication.

The Board approved the establishment of an Interagency Service Agreement with the Attorney General's office to provide for the appointment of a dedicated Assistant Attorney General to represent the Board, prevent the risk of interrupted services, and enhance the timely completion of Formal Interviews and Formal Hearings.

The Board is continuing to reduce the amount of time involved in a case by streamlining the complaint process and having a qualified and trained investigator review and process complaints.

The Board has conducted a AZLEAN process on the complaint process and throught the use of new tools like Google Suite has streamline the initial complaints process. FY 19 and FY20 should see a reduced timeframe for complaints processing.

Issue 3 Update information technology to ensure capable tracking of licensure and complaint activities.

Description The Board's previous Access database had been in use for over 10 years and did not possess adequate capabilities for the integration and tracking of all the above-referenced processes. There was concern the system would have begun to disintegrate or lose critical data.

Solutions:

The Board is engaging with Deloitte who is on the statewide contract for providing an online cloud-based database. Deloitte has provided a quote for the migration of the Board's existing database to a cloud-based model. The plan requires ongoing software licensing costs or per user cost. The estimated cost for this software licensing of BasicGov and Salesforce would be \$25,311. The Board is asking for an increase in the 8581 expenditures category of \$25,311 to cover ongoing software licensing costs for this online cloud-based model. (This Salesforce database is a part of the Board's ASET Strategic Plan as well as part of the Governor's Goal Council 5 Online Services Recommendation Plans) The Board plans to onboard and work with other agencies to reduce the cost of data migration by Deloitte.

Issue 4 Provide access to the Board’s jurisprudence examination, completion of which is required for licensure.

Description Previously applicants for licensure in Arizona were required to be physically present at the Board’s office in order to take the required exam. Many applicants do not reside in Arizona and must make travel arrangements in order to complete this step of the licensure process.

Solutions:

Board staff established an online exam for out of state applicants through a secure testing process. In FY 18 the Board has moved to the entirely online jurisprudence examination. Staff has received very positive feedback regarding the online exam. Staff continues to find ways to increase the access to online services for the licensees and applicants.

Issue 5 Establish the capability of accepting licensure and payment for services in electronic formats.

Description The Board previously only accepted hard copy applications for renewal and payments in the form of check or money order.

Solutions:

The Board has worked with ADOA ASET and Dept. of Treasury to implement an online credit card payment portal. The portal opened in August of 2018. The Board has began accepting credit card payments and expects that the number of payments will increase due to increased workflow and time saving.

Issue 1 Legislation/Commission Rules

Description Simplify and improve the Citizens Clean Elections Act while maintaining its effectiveness and purpose.

Solutions:

Work with the Legislature to develop and provide technical assistance with drafting legislation that will further the purpose of the Act.

Promulgate rules to further the purpose of the Act.

Work with other agencies or groups to improve the implementation of the Act.

Issue 2 Public Education and Public Relations

Description Inform citizens about public issues related to the Citizens Clean Elections Act

Solutions:

To provide the public with communications, reports and publications that are clear and informative.

To effectively use all channels of communication, including new technologies, to publicize the Act and its implementation.

To provide leadership for outreach activities, including debates, public participation, candidate awareness and media relations.

To provide visibility to the new rules, policies and procedures promulgated by the Commission.

To evaluate and improve the effectiveness of the educational programs and information that the Commission provides to the public.

To successfully inform voters about the candidates running for statewide and legislative offices through candidate debates, statement pamphlets, and online publications.

Continue to promote understanding of Arizona's political system and constructive participation within the system.

Issue 3 Training, Management Development, and Commission Operations

Description Ensure that the staff is competent to carry out the objectives and mandates of the Act

Solutions:

Ensure that the staff understands the Commission's mission and the expectations of their jobs.

Eliminate or combine jobs as necessary to maintain a lean staff

Utilize contract services or other services of other agencies

Attend management and leadership classes by staff members.

Issue 4 Enforcement

Description To facilitate easier and more universal compliance with the Citizens Clean Elections Act

Solutions:

Provide frequent and effective client education programs and publications.

Simplify and improve reporting forms and procedures.

Provide clarity and consistency in actions taken by the Commission.

Revise candidate training programs to address new issues and to promote compliance.

Assist the Secretary of State to provide and continually improve a campaign finance management software application and encourage its use by the maximum number of political committees and political funds.

Issue 5 Financial, Fiscal Operations, Information Systems and Strategic Planning

Description To abide by the statutory expenditure authority. To plan, develop and implement effective and efficient information systems that will help the Commission carry out its mission.

Solutions:

Monitor the amounts expended from the budget to ensure that expenditures do not exceed funds available.

Ensure that the revenues from other agencies are paid into the fund.

Use technology more effectively to identify compliance problems and to provide clients with resources to avoid problems.

Evaluate and improve the Commission's financial activities on an ongoing basis.

Ensure the Commission's educational obligations are met efficiently and effectively.

Determine when the fund contains insufficient monies or the spending cap would be exceeded were all candidates' accounts to be fully funded as early as possible.

ARIZONA COMMERCE AUTHORITY

Sandra Watson, CEO
Phone: (602) 845-1215
A.R.S. § 41-1501

Mission:

To grow and strengthen Arizona's economy and facilitate the creation of quality jobs for its citizens by supporting and attracting businesses in targeted, high-value base sectors throughout the state.

Description:

The Arizona Commerce Authority (ACA) was established in 2011 as a public-private partnership whose primary objective is advancing and diversifying the state's economy, primarily through high-value job creation. The ACA serves as Arizona's State-level economic development organization, leading and coordinating economic development and marketing efforts throughout the state.

Funding:	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	21,800.0	21,800.0	15,800.0
Other Appropriated Funds	0.0	0.0	0.0
Other Non Appropriated Funds	-226.1	13,952.9	13,003.3
Total Funding	21,573.9	35,752.9	28,803.3
FTE Positions	0.0	0.0	0.0

Issue 1 Job Creation: Lead efforts to create 80,000 projected new jobs with a focus on high-wage target industries.

Description High-wage jobs are the foundation of economic prosperity. They drive the broader economy through higher household incomes and higher discretionary spending. The ACA will continue to focus its attraction, expansion and creation activities on companies offering higher-wage jobs, specifically through the identification and targeting of five established industries (Business Services, Manufacturing, Aerospace & Defense, Bioscience & Health Care and Innovation & Technology). These industries create high-wage jobs, generate exports and encourage capital in-flows, have strong supply chains and multiplier effects, and generate tax revenues that support public services.

Solutions:

Increase business attraction and expansion activities that will achieve key goals in targeted sectors.

Focus a dedicated team on each target industry and consistently support that industry throughout the ACA.

Engage industry stakeholders to maximize awareness and delivery of the Arizona value proposition.

Implement strategies for industry growth identified by the three Arizona Zanjeros subcommittees.

Issue 2 Entrepreneurial Vitality: Facilitate the creation of \$300 million in new capital formation by ACA early-stage clients.

Description Arizona's long-term economic vitality relies on entrepreneurship, the creation of new businesses, and the commercialization of ideas and products. The ACA plays a leading role in Arizona's entrepreneurial ecosystem through a variety of programs that foster growth and technology commercialization in Arizona's early-stage companies.

Solutions:

Leverage the ACA's entrepreneurial programs and startup data into an analytics platform for benchmarking and growing Arizona's startup ecosystem.

Increase venture capital investments made in Arizona companies, both originating in Arizona, and from outside the state.

Launch a new public-private accelerator network to mature early stage ventures that attract follow-on venture capital.

Provide mentorship and growth services to new ventures from a network of accomplished business leaders, serial entrepreneurs, investors and technical experts.

Issue 3 Increased Exports: Expand export revenues across target industries by 25% over 2016 export revenues.

Description Exports drive economic growth through job creation, foreign direct investment and the overall expansion of gross state product. Arizona's superior geographic location, adjacent to some of the world's largest economies, make it an ideal location for companies looking to export their goods and services.

The ACA will attract new target industry employers engaged in producing goods and services for export, help existing Arizona exporters expand their business and provide assistance to existing Arizona companies looking to enter into the export market.

Solutions:

Strengthen Arizona's partnerships throughout Mexico, particularly in our neighboring state of Sonora.

Support the economic diversification and trade capacity of Arizona's border communities through engagement of public and private experts to mobilize Arizona's trade-facilitating assets.

Position Arizona as both a gateway and destination for international trade and investment with Mexico, Canada, Asia, and Europe.

Provide international trade and export assistance programs to increase the number of new exporters, new market exports, and global supply chain penetration.

5 Year Plan

Issue 1 Consumers are not aware hiring unlicensed entities to do construction comes with significant risk.
Description Consumers are not aware hiring unlicensed entities to do construction comes with significant risk. Substandard workmanship, inferior materials, violation of building safety codes and job abandonment are common findings of unlicensed investigations. The hiring person can be held personally liable for damages and injuries caused by the work and can be held in violation of performing unpermitted work and aiding and abetting unlicensed activity.

Solutions:
 Increase awareness of Agency activities where doing so Promotes the Agency's mission.

Issue 2 The expectations of the citizens we serve have fundamentally changed to wanting digital access to services anytime and anywhere.

Description Much of the Agency's work is informational and requires lots of paperwork. Paper-bound processes are increasingly seen as too slow and expensive. The expectations of the citizens we serve have fundamentally changed to wanting digital access to services anytime and anywhere. Self-service ROC isn't just convenient, it's expected.

Solutions:
 Modernize technology/expand self-service options.

Issue 4 Fully implementing and sustaining the gains of the Arizona Management System (AMS)

Description "Government that Works" and keeps on working. Sustaining Arizona Management System (AMS) standardized work is one of the most powerful but least used AMS tools. Improving standardized work is a never-ending process and contributes to increasing the gains already achieved.

Solutions:
 Fully implement and sustain AMS.

Issue 5 The shortage of properly trained Construction Science Professional employees continues to be a factor in the industry's recovery.

Description The shortage of properly trained Construction Science Professional employees continues to be a factor in the industry's recovery. Stakeholder collaboration has increased industry awareness, training and apprenticeship efforts.

Issue 1 Electronic filing for Utilities and Other Parties

Description In FY2018, the Commission's Docket Control Center received approximately 8,800 filings. Due to antiquated software system, the Commission is not able to accept electronic filing of all required documents. Currently, parties must file paper versions of the original document and numerous copies which are then distributed to the Commissioners, the hearing officer, and relevant staff. This is very costly and inconvenient to customers with business before the Commission.

As part of our efforts, electronic filing for D and E Utilities was released on June 6, 2018. We produced an e-filing portal in which users must register an account and are then able to see a dashboard of all items they have filed.

We are working to allow A, B, and C utilities the ability to file electronically by the end of 2018, early 2019. The delay in A, B, and C utility electronic filing capability stems from the large document size associated with these utilities so a different filing system is necessary to accept the documents.

The next phase is to create internal productivity features for staff, giving staff the ability to take notes on documents as an overlay, so as not to have to print them, and keep track of assigned tasks. This feature will move the AZCC closer to its paperless goal.

Solutions:

The Commission has a goal of accepting electronic filing for all required documents, and can do so currently for Class D and E utilities. Electronic filing will reduce the time and expense for companies to file materials. The Commission is also working towards paperless processing and review of documents internally, as well as sending updates on dockets electronically. Paperless processing and review will lead to cost reduction in copies and allow staff to track deadlines with ease. The Commission has been updating its "eCommission" case management system with features to achieve this. The Commission estimates electronic filing and paperless processing will be fully implemented by fourth-quarter of FY2019 for remaining utility classes and for internal staff use.

Issue 2 Succession Planning

Description Like every knowledge-based organization, our personnel are our most valuable resource. The Commission has been very successful in retaining its personnel for relatively long tenures. However, retention success has created two unintended but significant consequences: 1) limited career development/upward mobility, and 2) impending loss of knowledge base through retirement. Nearly 20 percent (19.7 percent) of the Commission's workforce is eligible for retirement today. This will increase to 35.5 percent by 2023.

Solutions:

The Commission is working to identify the skills gaps we expect to face within the next three fiscal years and identify potential internal candidates to fill these gaps. Likewise, we are seeking out new and better recruitment strategies for entry- and mid-level employees. To ensure we have the very best candidates. The Commission has started to utilize national resources, such as the Nation Association of Regulatory Utility Commissioners, for leadership recruitment. The Commission will partner with ADOA to continue to enhance and refine our recruitment process, as well as work to create better career paths for ACC employees.

Issue 3 Fostering a Culture of Continuous Improvement and Customer Service

Description The Corporation Commission's mission of Powering Arizona's Future is accomplished by ensuring safe, affordable, and plentiful power and water; assisting thousands of new businesses to launch every year; fostering the safe operation of railroads and gas pipelines; and protecting Arizona's consumers. Delays in deciding utility rate cases, processing business filings, conducting safety inspections, and investigating fraud allegations cost residents time and money as well as pose a safety risk.

Solutions:

To meet the Commission's broad mission while being good stewards of resources, staff must become a team of problem solvers—finding new ways to deliver ever-improving service to Arizonans. Through the implementation of Lean Management principles, Commission staff will focus on reducing waste in our current operations in order to deliver superlative service to our customers without compromising fairness, quality, or due process.

HEARINGS

Jane Rodda, Chief Administrative Law Judge
 Phone: (520) 628-6552
 A.R.S. § 40-243 to 40-255

Mission:

To preside over administrative hearings and procedural conferences concerning complex utility and securities matters, and to write and submit Proposed Opinion and Orders for the Commissioners' consideration at Open Meeting.

Description:

The Hearing Division exercises the Commission's authority to hold public hearings and arbitrations on matters involving the regulation of public service corporations, the sale of securities, and the registration of non-municipal corporations. Under the direction of the Administrative Law Judges, proceedings are conducted through formal hearings that include taking sworn testimony, cross-examination of witnesses, admission of documentary and other physical evidence, and submission of oral arguments or post-hearing briefs. The Administrative Law Judges process Rate and Certificate of Convenience and Necessity applications under a procedural schedule that complies with the Commission's "timeclock" rules to ensure that Recommended Opinion and Orders are issued in a timely manner. The Hearing Division is also responsible for Commission record-keeping through its Docket Control Center. The Hearing Division is working towards improving efficiency through modernization of electronic processing and enhancing the Division's information technology and infrastructure.

CORPORATIONS

Patricia L. Barfield, Director
Phone: (602) 542-3521
A.R.S. Title 10

Mission:

To approve corporate names and grant corporate or limited liability company status to entities organizing under the laws of the State of Arizona; to approve applications from foreign corporations and limited liability companies to transact business in this State; to collect annual reports from all corporations of record; and to maintain corporate and limited liability company records for the benefit of public record and service of process.

Description:

The Corporations Division is comprised of five sections (Annual Reports, Corporate Filings, Records, Call Center, Initial Processing). The Division also has a few staff members in the Tucson office of the Corporation Commission to provide some services to the residents of Southern Arizona.

The Corporations Division approves for filing all articles of incorporation, amendments to articles, mergers, consolidations, withdrawals, and dissolutions for Arizona corporations; approves corporate and limited liability company (LLC) names; approves all articles of organization, amendments, changes and terminations for LLCs; grants authority to foreign corporations and LLCs transacting business in this State; propounds interrogatories when necessary; and may administratively dissolve or revoke corporations and LLCs that do not comply with specific provisions of Arizona law.

The Division collects from every corporation an annual report reflecting the current statutory agent, corporate address, amount of stock issued (for profits), lists of officers and directors, Certificate of Disclosure and Statement of Bankruptcy. The Division updates the corporation's public record with information provided by the annual report and also when amendments or changes are submitted by the corporation. The Division must maintain all information on corporations and LLCs in a data format conducive to public access; respond to public questions concerning Arizona corporations and LLCs; and respond to the needs of the business sector by disseminating information. The Division has limited investigatory powers and no regulatory authority. Arizona corporations and LLCs, however, may be administratively dissolved if certain statutory requirements are not met. Likewise, the authority of foreign (non-Arizona) corporations or LLCs to transact business in Arizona may be administratively revoked. The Division acts as an agent for Arizona corporations and limited liability companies whenever either entity does not maintain a statutory agent or when the agent cannot be located. In these instances, services of process directed to the entity are accepted by the Records Section on behalf of the entity. The Division is working towards improving efficiency through modernization of electronic processing and enhancing the Division's information technology infrastructure.

SECURITIES

Mark Dinell, Interim Director
 Phone: (602) 542-0626
 A.R.S. §§ 44-1801 to 44-2041

Mission:

To ensure the integrity of the securities marketplace through investigative actions as well as the registration and/or oversight of securities, securities dealers and brokers, investment advisers, and their representatives; to enhance legitimate capital formation; and to minimize the unnecessary burden and expense of regulatory compliance by legitimate businesses.

Description:

The Division reviews prospective offerings of securities to ascertain that full and fair disclosure is made to potential securities investors and that the terms of offerings are not inherently fraudulent. Securities dealers and salespersons are required to register with the Division. Investment advisers and their representatives are required to be licensed by the Division unless exempt. The Division reviews these applications and monitors the conduct of dealers and salespersons, investment advisers, and their representatives and investigates possible violations. Where the evidence warrants, the Division brings administrative, civil, or criminal enforcement actions. The Division is working towards improving efficiency through modernization of electronic processing and enhancing the Division's information technology and infrastructure.

RAILROAD SAFETY

John Mazza, Director
 Phone: (602) 262-5601
 A.R.S. §§ 42-201 et. seq.

Mission:

To ensure that the citizens of Arizona as well as railroad employees throughout the State have a Railroad System that is operated and maintained in as safe a manner as possible.

Description:

The Railroad Safety Section is responsible for inspection activities on both intrastate and interstate railroads operating in Arizona. Inspection activities are carried out under the authority of the federal government by way of an Interagency Agreement between the Commission and the Federal Railroad Administration (FRA). It is through this agreement that the Commission's Rail Safety Staff obtains the authority to fulfill its mission objectives.

Under the terms of the agreement, Commission Inspectors must be FRA certified. Inspectors conduct inspections, informing railroads of any defects that are found. Defects must be corrected and verified by a re-inspection. If an inspector finds that defects were not corrected and no effort was made to address the problem, he/she may submit a federal violation against the company. The Division is working towards improving efficiency through modernization of electronic processing and enhancing the Division's information technology and infrastructure.

PIPELINE SAFETY

John Mazza, Director
 Phone: (602) 262-5601
 A.R.S. §§ 42-201 et. seq.

Mission:

To enforce federal and state pipeline safety regulations and to provide training and guidance to pipeline operators to ensure safe operation of pipeline facilities. To enforce the Arizona Underground Facilities Law and to provide training to facility owners and excavators in an attempt to reduce damage to underground facilities and to eliminate personal injuries and deaths associated with underground facilities.

Description:

The Pipeline Safety Office maintains staff in Phoenix and Tucson. The Office has the responsibility for the inspection of all intrastate pipeline operators within the State of Arizona. The Office also has the responsibility to enforce the Arizona Underground Facilities Law and to provide training to facility owners and excavators. The Office conducts training classes for operators of master meter gas systems and is an active participant in the Arizona 811 program. UTILITIES

Elijah O. Abinah, Director
 Phone: (602) 542-4251
 A.R.S. § 40-201 et. seq.

Mission:

To recommend thoroughly researched, sound regulatory policy and rate recommendations to the Commissioners, which are based on a balanced analysis of the benefits and impacts on all stakeholders and are consistent with the public interest.

Description:

The Utilities Division carries out its responsibilities through six organizational sections: Revenue Requirements & Audits, Policy & Programs, Engineering, Consumer Services, Administrative Services and Directors office. The Utilities Division makes specific recommendations to the Commissioners to assist them in reaching decisions regarding public utility rates, financial condition and quality of service for approximately 560 traditional utilities. The Division implements Commission rules. The Division conducts research, presents evidence in hearings, and contracts with utility rate analysts and expert witnesses in carrying out its responsibilities. The Division also monitors compliance with Commission decisions. The staff conducts public workshops and other public proceedings on various regulatory topics. DEPARTMENT OF CORRECTIONS

Charles L. Ryan, Director
 Phone: (602) 542-5225
 A.R.S. § 41-1601

Mission:

To serve and protect the people of Arizona by securely incarcerating convicted felons, providing structured programming designed to support inmate accountability and successful community reintegration, and providing effective supervision for offenders conditionally released from prison.

Description:

The Department of Corrections (ADC) serves and protects the people of Arizona by incarcerating inmates in correctional facilities and supervising conditionally released offenders in the community. During incarceration, welfare and health care services, including medical, dental, and mental health, are provided to inmates. In addition, structured programming - including work, education, career training, substance abuse treatment, sex offender treatment, spiritual services, and recreation - is provided to inmates to promote employability, literacy, sobriety, and accountability to crime victims and to increase the likelihood that inmates will become law-abiding citizens upon release. In the community, the Department supervises offenders released from prison to serve the remainder of their sentence on community supervision. The Department ensures the accurate release, effective re-entry, transition, and supervision of released offenders, utilizing a continuum of supervision services, strategies, evidence-based programs, and meaningful incentives and sanctions. The Department also facilitates the swift return to custody of those offenders who violate conditions of supervision and who represent a serious threat to the safety of the community.

5 Year Plan

Issue 1 Building an Engaged and Skilled Workforce

Description ADC faces significant vacancies and turnover, particularly among Correctional Officers.

Solutions:

FY 2019 strategies include conducting a major breakthrough project on employee retention, utilizing available compensation strategies, and expanding the Field Training Officer program.

Issue 2 Managing the Inmate Population

Description Incidents of inmate violence result in possible injury and increased security requirements and are detrimental to creation of a prosocial program environment.

Solutions:

FY 2019 strategies include staff training on inmate management and non-violent crisis intervention, enhancing contraband detection, and increasing inmate work and program involvement.

Issue 3 Reducing Recidivism through Reentry Preparation and Support

Description The current recidivism rate for Arizona inmates is 41.4%. Reducing recidivism will help to reduce prison population, decrease spending for prisons, and enhance community safety. In FY 2017, the Department of Corrections established the following 10-year goal: Engaged employees and communities committed to a 25% reduction in recidivism.

Solutions:

FY 2019 strategies include leading the state-level breakthrough project on recidivism reduction; improving inmate programs, to include expanding education, substance abuse program, and Second Chance Center capacity; increasing emphasis on inmate program completions; stabilizing inmates' mental health needs prior to release; increasing community engagement; and improving use of offender interventions and sanctions.

BOARD OF COSMETOLOGY

Donna Aune, Executive Director
Phone: (480) 784-6963
A.R.S § 32-505(A),(B),©

Mission:

To ensure the public's health, welfare, and safety through education and enforcement of cosmetology laws and rules by the efficient regulation of salons, schools, and individuals who practice cosmetology.

Description:

The Board of Cosmetology issues licenses to salons, schools, and individuals who qualify by reciprocity or through the administration of a written and practical examination. The Board performs health and safety inspections of salons and schools, investigates consumer complaints, conducts hearings, and imposes enforcement action when appropriate. The Board also establishes health and safety standards, establishes educational and curriculum standards and oversight, and provides monthly classes on infection control and statutory and regulatory compliance for the licensees.

Issue 1 Other Operating Expenses

Description Other Operating Expenses

Solutions:

The Board of Cosmetology (BOC) must be able to effectively and continually improve and update services rendered to its licensees and consumers. The BOC provides, with great efficiency, services to approximately 96,000 licenses in the BOC's database, a number that had been kept a steady pace of growth yearly. With the situation of employee retirement, health issues, training & replacement has reached its downfall in the productivity of number of inspections that were not met this fiscal year.

The BOC will continue to use "operating expenses" to educate consumers, licensees & Board Members, through newsletters and website updates with our continued endeavors and education we have seen, and will continue to see a reduction in serious injuries to Arizona Consumers.

To allow the Board to fulfill its mandate within constraints of a limited appropriated budget, the Board is seeking to increase our revenue without intervening with Operating demands, due to cost increases for - projecting ISA fee waivers with the Department of Revenue has an impact to our move in December 2017 to the 1740 Adams building, the extra time to scan files, migration on google account (emails), outside & professional & temporary services (Hiring freeze will be a definite impact) Address stamps, Business Cards, Licenses /letterhead & envelope address changes to new location, supplies, facility maintenance and other operating expenses.

Issue 2 Improved Enforcement Efficiency

Description Improved Enforcement Efficiency

Solutions:

The BOC is at a 29% reduction in filling staff positions. Filling the (2) vacant Inspector and Investigators positions is always top priority when permitted. With the 10,733 plus schools & salons in the State of Arizona, the importance in conducting health and safety inspections at least once a year is a priority for the protection of consumers and the education of licensee's through inspections. These goals can not be met, due to the lack of Inspector positions. A hiring of temporary services must be initiated so that a Risk Based Salon Inspection approach can be continued. We are presently working with only 2 inspectors & 3 Investigators where we need at least 2 more Inspectors in the field in order to comply with the 1 year Inspections, these goals can not be met at this time, because of the Hire Freeze and 17 Cap Employees. Our solution is to hire 24.5 FTEs that will allow us to hire more inspectors. Our budget has the money to pay for the extra employees needed to meet our goals or to even just comply.

The implementation for the handheld devices for Inspectors is a goal to be reached by 2019/2020 which will allow Inspectors out in the field to have the capability to retrieve license information that is in our data base to assist in their inspections with up to date information.

The hiring and training Inspectors that is invested has impacted our goal due to Hire Freeze / HR not allowing us to hire or replace staff for at least 8 months of our fiscal year 2017 /2018. Our resolution to request that the Hire Freeze be lifted and our cap changed from 17 > 24.5.

Issue 3 Employee Development

Description Employee Development

Solutions:

The BOC recognizes the value of good employees and must safeguard the professional growth and development of these employees. The BOC must continue to show appreciation to the current employees by providing wage increases, professional development, and implementing the technology necessary for staff to meet the demands for even greater efficiency. As a result the agency will retain personnel longevity and satisfaction. Therefore, BOC would like to project wage increase(s), promotions, and incentives to employees who are recognized with qualified & efficient performance(s). During these past 8 months duration or more, the hire freeze and cap 17 has caused working constraints that impact employee development.

Issue 4 System maintenance Support, Equipment Replacement, Enhancement, & Upgrades.

Description System maintenance Support, Equipment Replacement, Enhancement, & Upgrades.

Solutions:

The BOC must continue to work on the efficiency and accuracy of licensee’s electronic filing. Maintenance and enhancement of the current system or implementation of new system, will allow user friendly use and increase application on-line which must be continued and improved.

By 2020- The BOC also needs to purchase or set in place a hand held device for inspectors and investigators that will enable them to have pictures, and information at the job site, along with the ability to print reports for salons & schools.

Funding Issue

Digitization of records – One-time Request

The Arizona Board of Cosmetology (“Board”) is requesting a one-time additional appropriation for purposes of digitizing all active and closed licensing files that are currently stored in paper form.

The project further aligns with the state’s initiative for agencies to conduct business electronically where possible. To provide access to historical records, digitization is necessary so that staff won’t need to maintain two systems (new information electronically, and historical information in paper form).

Benefits of digitizing include:

- Prepare the historical files for import to the new ICM Viewcenter application
- Eliminate the need for file storage space (currently > 450 square feet)
- Mitigate the risk of having a single point of failure for critical agency records
- Provide added levels of security for access to records
- Provide staff easier searching capabilities

Based on the estimate provided by a document solutions vendor, the Board has 1.1 million pages or more to be digitized. The magnitude of this project dictates that an outside vendor be engaged. With only 17.5 staff members serving almost 110,000 licensees and an average of 2153 new applications in process at any given time, the alternative of handling the project in house is not feasible.

In accordance with Laws 2017, Chapter 78, the Board plans to begin accepting records electronically through the e-Licensing project. To further supplement the effectiveness of the e-Licensing process, digitizing historical data and managing it electronically will greatly improve the experience of the staff who use the data daily and the public who will have more options of viewing and updating data.

Should the funding issue not be approved for FY2020, the Board will need to continue to maintain two separate filing systems and the effectiveness of the e-Licensing project will be limited with no historical records attached.

It is the Board’s understanding that a “blanket” PIJ was completed by ADOA-ASET in conjunction with the RFP for an enterprise digitization solution that would pertain to all agencies, boards and commissions.

Prior to the state’s RFP for digitization, the Board researched document solution vendors, and received quotes for the volume of paper currently being stored. The Board hopes that once a vendor is awarded the state contract, potentially the cost could be lowered, but based on a quote provided in 2016, the Board is requesting the amount below.

Appropriation Request:

\$ 70,000 Total FY 2020 Appropriation Request

Equipment Replacement:

-Continued upgrades and replacement computers, and laptops

System maintenance support, enhancement, and upgrades:
-Network services reviewed and renewal of service contracts.

Funding Issue

Database - Rule Changes– One-time Request – Priority #1

The Arizona Board of Cosmetology ("Board") is requesting a one-time additional appropriation for the revisions of the Arizona Administrative Codes requirements to be implemented to our existing database system (GL Solutions). The project follows the intent of Executive Order 18-02 to repeal overly burdensome, antiquated, contradictory, redundant and nonessential regulations. With this order, the Board's database will require programming changes that will cost the agency funds that have not been appropriated.

Benefits of revisions to the Board's database:

To stay in compliance with the Arizona Administrative Codes
Eliminate obsolete information produced by the system
Update critical programming within the system

Should the funding issue not be approved for FY2020, the Board would be working with an outdated database system that could produce critical issues for licensing. Example: The Arizona Administrative Codes newly revised rules will combine all salon types (Cosmetology, Nail Technology and Aesthetician) into one "Salon" license. This would benefit our licensees. The database system would have to be reprogrammed to reflect this changes.

Issue 5 Budget Contingency Plan

Description Budget Contingency Plan

Solutions:

Establish a fund or insurance plan available for legal issues at a state level for every year, such as, but not limited to, lawsuits, court representation, witnesses, specialists, etc; Re: Case (Fish Pedicure) Vong vs Aune.

Continued services provided by Rule Writing - In process of updating our rule package and eliminating rules. a rule writer continues to be a service needed by our agency.

Funding of Digitization of Records. The Digitization project is a digital government solution designed to provide citizens and businesses with faster, easier and more intuitive access to State services. The project follows the intent of Executive Order 18-02 to identify services not currently available electronically.

Issue 6 A Quality continuity Plan

Description A Quality continuity Plan

Solutions:

To provide continued public protection even in times of disaster, a workable continuity plan for a small agency must be in place. This will require finding a place to set up an office away from the current Board office in case of a local tragedy, perhaps by coordinating with another state office for use of their offices. There must be a provision in law and rule to allow for licensees to provide services outside of a salon setting in a disaster. Our database is hosted at an outside location providing extra security and minimal down time to the public. We are at a continual search for an Offsite storage back up location for a main server & email server.

Due to Agency move (mandatory) to the 1740 Adams Building, the agency will be completing a workable continuity plan.

Issue 7 External Partners**Description** External Partners**Solutions:**

Continuing to maintain its relationship with current partners, the leadership involvement that has proven to assist the board to benchmark and remain current both as a regulatory agency and as a leader in the Cosmetology profession. These partners include The Internal Revenue Service (for small business participation and investigative tax fraud), National Interstate Council of State Boards of Cosmetology, National Accreditation Commission of Cosmetology Arts and Sciences, Council for Licensure, Enforcement and Regulation Federation Association of Regulatory Boards, AACCS American Association of Cosmetology Schools, The Salon Association, ACIA (Arizona Cosmetology Industry Association), PCS (Professional Credential Services, PSI Testing, and others. All require travel to meeting locations or electronic participation at the very least which must continue to be funded. Board members hold office at National levels. Board Chairman, Vice Chair, & Executive Director work & Co- Chair National committee positions.

Issue 8 Public Communication**Description** Public Communication**Solutions:**

Ongoing communication with the Arizona Legislature and State Administration about the importance of the funding necessary to continue responsible regulation, is required. Regulatory pamphlets, health and safety educational classes, and issues of public interest, to answer regulatory questions and issues. Reorganization and the continuing restructuring of the Agency website is needed to improve communication. By 2019 and 2020 printing brochures and/or newsletters for licensees, salons, and schools for distribution, is a goal of the Board. By 2019 – 2020 by continuing services with our state printing vendors and distribution information will bring jobs and information to the public. BOC presently working on campaign for consumer awareness.

Issue 9 Rule Promulgation**Description** Rule Promulgation**Solutions:**

Rule promulgation needs to be on going to promote consumer protection - fighting deregulation in the near future is a possibility. All license renewal applications to be accompanied with current photographs. With an updated system those pictures would be scanned and printed on licenses. At this time the BOC requires pictures to be submitted for all first licenses, but requires rule promulgation for renewals. Continual goal of the BOC is to rewrite and update our infection control and safety standards R4-10-112 so they are easily read and understood by licensees and consumers.

Issue 10 Increase of Fees**Description** Increase of Fees**Solutions:**

A.R.S. 32.507 –A-22 Continual credit card fees as convenient fees effective July of 2018/19, Merchant fees continue to rise. In order to derail these fees without raising the license fee, a convenient fee(s) are in place to be reviewed on a yearly basis. By 2019/2020 fees are calculated to be at a yearly rise, which we estimate will double. Therefore, a continued review is required for recalculation of fees. Total Merchant fees calculated for FY 18 (was \$12,217.32 (4645-jud) , Our Convenient fee is \$3.00 per credit card transaction-FY18 @ 4073 credit cards, total fees collected for FY 18 = \$7237.32 (4645-Other). Difference is \$4,980.00. In order to compensate our losses of \$4980.00 & to continue to offset merchant fees, we must consider raising our convenient fees to \$ 3.05. We may evaluate again end of FY 2019, and reconsider raising or lower convenient fees again at that time.

Issue 1 Criminal Justice Records Integration

Description The Records Improvement Program is an ongoing, long-term effort to coordinate the process of the integration of all criminal justice information systems. This is accomplished through the development and implementation of a comprehensive criminal justice records improvement plan.

Activities in this area include, but are not limited to encouraging and facilitating the development of common data standards among criminal justice agencies, facilitating the development and implementation of automated records systems and processes, encouraging and facilitating interagency cooperation and information sharing, and other activities intended to increase the accuracy, completeness and timeliness of criminal justice and criminal history information.

Solutions:

Objectives

To improve the criminal history records in the State of Arizona as well as manage criminal justice records integration and criminal justice system improvements throughout the state.

Strategies

- To establish and publish technology and data standards for criminal justice agencies of the state annually.
- To improve disposition reporting of each county to the central repository each year.
- To introduce legislation to change/improve criminal history reporting as needed.
- To administer, monitor, and evaluate grant projects on a continual basis.
- To develop a strategic plan and allocation plans for utilization of available funds on an annual basis to assist in the completion of the Arizona Records Improvement Plan.
- To apply for available funds from federal Justice Department agencies.

Performance Measures

- Stakeholder meetings coordinated to discuss record improvement challenges by records coordinator.
- Percentage increase in disposition reporting utilizing the Records Quality Index (RQI) tool for record improvement projects funded through the program annually.
- Bills submitted to Legislature.
- Bills passed by the Legislature for the improvement of criminal history record reporting.
- Site visits to grantee agencies.
- Program progress and financial reports received on a quarterly basis from each grantee agency to monitor progress and ensure funding expenditure occurs prior to grant expiration date.
- Grants awarded to agencies for improvement of criminal justice/history records.
- Updates submitted to the integration strategic plan by the Policy Team annually.
- Development and publication of criminal justice records improvement plan for the criminal justice system in Arizona, including evolutionary revisions to the plan.
- Number of grant applications submitted to proper agencies.
- Number of grant awards provided to the Commission by the various granting agencies.
- Number of applicants requesting funding.

Issue 2 Data Driven Policy Decisions

Description To improve the criminal justice system in Arizona through the use of data obtained from the Statistical Analysis Center for data driven policy decisions.

The Statistical Analysis Center's purpose is to oversee the research, analysis, studies, reports, and publications regarding crime and criminal justice statistics for the benefit of criminal justice agencies across the State. The Statistical Analysis Center also conducts the biennial Arizona Youth Survey (AYS) which provides critical information to the Governor and Legislature regarding various risk and protective factors among students in Arizona. Other statistical and research projects are conducted by the Center with the approval of the Executive Director.

Solutions:**Objectives**

To improve the criminal justice system in Arizona through the efforts of a quality Statistical Analysis Center.

Strategies

- To develop, implement and sustain processes that provide a relevant, reliable source of information on crime and the criminal justice system in Arizona.
- Maintain an effective and relevant criminal justice research program.
- Develop, implement and operate data and information producing programs and processes on crime activity and the criminal justice system in Arizona.

Performance Measures

- Number of studies/research projects proposed by internal and external customers.
- Number of studies/reports completed and published.
- Number of research products mailed via US mail to external customers (paper reduction).
- Number of public and media data requests processed.
- Number of legislative and policy-maker data requests processed.
- Number of public presentations by SAC staff.

Issue 3 Coordination of Legislative Issues Among Criminal Justice Stakeholders

Description To monitor the progress and implementation of new and continuing criminal justice legislation. Develop and deliver recommendations for constitutional, statutory, and administrative revisions that are necessary to develop and maintain a cohesive and effective criminal justice system.

The coordination of legislative issues is a constant endeavor involving all aspects of the criminal justice system. In accordance with ARS 41-2045.A, The Arizona Criminal Justice Commission shall: 1. Monitor the progress and implementation of new and continuing criminal justice legislation. The ACJC continues to work closely with all stakeholders, as well as other entities affected by criminal justice legislation, on new and current legislation. Representatives from criminal justice stakeholder agencies meet throughout the legislative session to discuss legislative issues impacting the criminal justice system. The Commission also makes recommendations to the Governor and the Legislature as well as provides direction to legislative staff on the position of the Commission regarding new legislation.

Solutions:**Objectives**

Monitor the progress and implementation of new and continuing criminal justice legislation. Develop and deliver recommendations for constitutional, statutory, and administrative revisions that are necessary to develop and maintain a cohesive and effective criminal justice system.

Strategies

- To acquire and distribute timely, accurate information regarding relevant criminal justice legislation at both state and federal levels and to provide an effective mechanism for both legislative advocacy and related informational resources.
- To provide a continuous, organized forum for the discussion of the criminal justice system, the identification of changes needed, the development of change mechanisms, including legislative proposals, and the coordination of information regarding these activities.
- To develop, implement and sustain processes that provide a relevant, reliable source of information on crime and the criminal justice system in Arizona.

Performance Measures

- Sustain an effective number of agency legislative events.
- Dissemination of criminal justice related legislative information and materials through meetings, publications, reports, and direct personal contact.
- Organize, support and conduct meetings under the Commission responsibility to produce effective results.
- Liaison with congressional and legislative officials and other officials at all levels of federal, state, county, and municipal governments that produce coordination, cooperation and effective outcomes.

Issue 4 Criminal Justice Coordination

Description The Arizona Criminal Justice Commission is a statutorily authorized entity mandated to carry out various coordinating, monitoring and reporting functions regarding the administration and management of criminal justice programs in Arizona. The ACJC serves as a resource and service organization for Arizona's criminal justice community on issues including; drugs, gangs and violent crime; victim assistance and compensation; and record improvement programs.

As the funding for these programs continues to decline it has become vital that all criminal justice stakeholders continue to work cooperatively to leverage the minimal resources available. The goal of the Arizona Criminal Justice Commission is to facilitate working collectively to fulfill the strategic plan of Arizona while still meeting the needs of those stakeholders with available funds.

Solutions:**Objectives**

To continue to improve criminal justice coordination throughout Arizona and the nation.

Strategies

- Build consensus among criminal justice stakeholders.
- Serve as the forum for identifying issues and their solutions.
- Facilitating cooperation that will improve public safety.
- Draw upon state, local and federal agencies and individuals to develop recommendations and strategies.
- To effectively manage the allocation and administration of state and federal funds to provide a high probability of improving the criminal justice system in Arizona.

Performance Measures

- Percent of programs reviewed reflecting compliance with certified assurances and fiscal management practices.
- Conduct training of county and local agency participants in the administration of the programs.
- Administer, monitor, and evaluate program projects and required reports regarding the program.
- Applicants requesting funds.
- Grants awarded in a timely manner.
- Program audits reflecting no deficiencies.
- Program single audits reflecting compliance with Administrative Rules.
- Develop and implement strategies/plans for federal and state resources allocated to commission authority in Arizona.
- Solicit grant applications and funding requests, evaluate requests, and efficiently allocate available resources to appropriate agencies and activities statewide.
- Facilitate focused discussions on criminal justice topics with supporting research.
- Identify, track and highlight trending national criminal justice topics.
- Recommend and periodically review policies for the coordinated implementation of policies.
- Identify needs and recommend agency allocations and resources to meet these needs when appropriate.
- Identify legal and administrative barriers to effective service delivery.
- Review agency funding criteria and make recommendations when appropriate.
- Review plans and make recommendations for plan format and content.
- Review annual performance data and make recommendations for improved service delivery, operating procedures or funding when appropriate.

Issue 5 Staff Development and Retention

Description Recruit, retain, and develop talented personnel to contribute to the mission of ACJC and Arizona’s criminal justice stakeholders.

Although ACJC has 32 authorized positions, through automation and restructuring of the agency, we have worked very effectively for several years with 27 employees. The overwhelming majority of our 27 staff members are multiple degreed professionals who are also well established in their field of expertise. In the last few years, ACJC has had a 35 percent turnover among our employees. The costs associated with training and acclimating new employees further burdens strained budgets and staffing challenges. The majority of employees leaving ACJC are being hired by other public entities and are being lured by higher salaries.

Solutions:**Objectives**

Recruit, retain, and develop talented personnel to contribute to the mission of ACJC and Arizona’s criminal justice stakeholders.

Strategies

- Work with ADOA on new retention strategies.
- Expanded distribution of employment opportunities.
- Membership in professional associations related to key position expertise.
- Identify entities/industries/organizations with corresponding expertise.
- Survey topics among employees to identify methods of increasing employee satisfaction.
- Seek increased state appropriation to use towards salary increases and training opportunities.

Performance Measures

- Maintaining averages of academic achievement among employees.
- Recruit employees with expertise beyond the minimum requirements.
- Raise average tenure of employees.
- Reduce employee turnover rates.
- Reduce training costs associated with training and acclimating new employees.

Agency Summary

ARIZONA STATE SCHOOLS FOR THE DEAF AND THE BLIND

Annette Reichman, Superintendent
 Phone: (520) 770-3704
 A.R.S. §§ 15-1300 et seq.

Mission:

To empower children and students who are hard of hearing or deaf or have vision loss by providing the educational opportunities necessary to succeed in college, career, and life.

Description:

Arizona State Schools for the Deaf and the Blind (ASDB) was founded in 1912 – the year of Arizona statehood. ASDB provides education and support services to over 2,000 children who are blind, visually impaired, deaf, hard of hearing, or deafblind, from birth to grade 12. ASDB operates two schools for the deaf, one school for the blind, a statewide birth-to-three early childhood and family education program, and five regional cooperatives that provide services to students attending local schools.

ASDB is committed to excellence and innovation in (a) education for all Arizona children who are hard of hearing or deaf or have vision loss; (b) leadership and service; (c) collaboration with families, school districts, communities, and others; and (d) partnership with other agencies that will enable children who are hard of hearing or deaf or have vision loss to succeed now and in the future.

Issue 1 Enhancing curriculum and instructional accountability

Description Instructional accountability continues to be a critical focus area of the Agency.

Solutions:

A large data base has been collected to compare results of standardized testing with fixed factors. Training is provided for teachers to enhance their use of results from standardized assessment in planning the educational program for their students.

Issue 2 Improving recruitment and retention of employee procedures

Description Hiring qualified teachers is critical to the success of ASDB. The competition for teachers and other specialized staff has become very intense with many districts offering bonuses as well as other incentives.

Solutions:

The Agency works with several university programs around the country to recruit talented future professionals to ASDB. Presentations are made by ASDB staff at universities and colleges that have teacher preparation programs to communicate information regarding ASDB. Student teachers and graduate interns are encouraged to come to ASDB to complete their university program.

An extensive staff development program has been implemented to educate staff in strategies and techniques to improve student classroom performance. Regularly scheduled staff meetings, as well as weekly blocks of time, are reserved for more in-depth staff development opportunities.

Compensation issues are currently not being addressed adequately. The Agency continues to compare salaries of staff with other equal positions at other state agencies and at school districts to keep information current.

Issue 3 Incorporating technology into instructional and operational activities of the Agency

Description Educational technology has become an agency wide effort. Representative groups have worked together to develop an Educational Technology Plan, which was submitted and approved by the Arizona Department of Education. Staff benefit state-wide by actively participating in a variety of technology workshops.

Solutions:

The Agency database is in the process of being centralized for use from anywhere in the state to provide the most up-to-date information on students. The database provides demographic information that can be used for accountability reports at the local and state level. The database will be expanded to include additional information on student progress. The infrastructure of the technology system has been enhanced at ASDB to make communication more effective and efficient. New methods of communication are being provided for students who are Hard of Hearing or Deaf through the implementation of an agency-wide video relay system.

In order to facilitate communication, Internet and e-mail access is available to all agency personnel as well as the public. All programs in the Agency are now connected and able to access the Internet for resources. An updated E-mail system has increased the ability of staff to communicate across the state and results in faster services to students.

The current infrastructure is under review to improve functionality, security, and to reduce downtime. Specifics could include the tying together of (1) assistive technology, (2) dormitory wiring/fiber/wireless, (3) Tucson Campus building wiring/fiber/wireless, and (4) upgrade and combination of overall technological capabilities and resources.

Issue 4 Developing and maintaining a proactive work environment within the Agency

Description The ASDB Human Resources Department is implementing a number of changes to be more responsive to employee needs and requests.

Solutions:

ASDB is part of the HRIS system which will better track work schedules, leave, etc. Specialists in HR have developed a schedule for visiting ASDB sites outside of Tucson. They are conducting employee meetings to answer questions about benefits, policies, etc.

The Professional Development Leadership Team conducted a survey of the schools to assess the environment and to provide information to be used as part of a strategic plan to improve the organizational climate in the most effective and efficient manner possible.

Issue 5 Fostering the development of parent and community partnerships

Description The Principals have implemented and coordinated a number of activities to involve more parents with the schools and their child’s educational program.

Solutions:

Parent folders are used to inform parents of learning occurring in the classroom, activities at the school, and events in the community. Parent groups are also active on all three campuses. Parent groups provide support and information to other parents regarding the education of students who are blind or visually impaired and students who are Deaf or Hard of Hearing.

Staff is involved in presenting information to community organizations and parents regarding advocacy and general information for accessing educational programs. Agency staff provide speakers, location, and child care for meetings to occur, and to encourage a larger number of parents. ASDB is developing cooperative arrangements with other community agencies to support provision of service for our students. ASDB participates in local organizational meetings with other professionals in the education field, in the rehabilitation area, and community businesses to foster cooperation and increased success of our students and improve community relations. ASDB works with employers to support students in occupations that will be sustainable after graduation. ASDB works, in conjunction with other agencies serving Hard of Hearing, Deaf, or visually impaired individuals, to increase choices and opportunities for the students.

Mission:

To empower children and students with the educational opportunities necessary to succeed in college, career and life.

We are committed to excellence and innovation in:

- Education for all children, throughout Arizona, who are hard of hearing, deaf or have vision loss
- Leadership and Service
- Collaboration with families, school districts, communities, and others
- Partnership with other agencies that will enable children who are hard of hearing, deaf or have vision loss to succeed now and in the future.

Description:

ASDB's Tucson Campus is the home of Arizona School for the Deaf (ASD), Arizona School for the Blind (ASB) and the Arizona Deafblind Project. The Tucson Campus has boarding facilities for students who live far from the Tucson Campus and need the services that only a special school for the deaf or the blind can provide.

Description:

There are two components to the Preschool/Outreach program offered by ASDB - Early Childhood and Family Education (ECFE) and Preschool. ECFE provides services to children (and to the parents of children) from ages birth to three who are deaf, hard of hearing, blind, visually impaired or deaf-blind. The statewide program serves every county in the state of Arizona. ASDB participates with the Arizona Early Intervention Program (AzEIP) in providing early intervention services to families and their children with sensory impairments under IDEA (The Individuals with Disabilities Education Act) Part C. The AzEIP participating State Agencies are the five state agencies identified in A.R.S. §§ 8-651 and 8-652 as responsible for maintaining and implementing a comprehensive, coordinated, interagency system of early intervention services. The five participating state agencies identified in A.R.S. § 8-652 are: Arizona Department of Economic Security (DES), Arizona State School for the Deaf and the Blind (ASDB), Arizona Department of Health Services (ADHS), the Arizona Health Care Cost Containment System (AHCCCS), and the Arizona Department of Education (ADE). The Preschool program serves children from 3 to 5 in a structured learning environment on the Tucson campus and in Phoenix at several locations throughout the metropolitan area. Services offered to eligible children, their families and school districts include the following: Family education, developmentally appropriate center based preschool education, comprehensive educational assessment, functional vision assessments, audiological assessment, orientation/mobility services, physical therapy, sensory integration therapy, occupational therapy, speech/communication therapy, feeding therapy, transition to kindergarten and transportation.

COMMISSION FOR THE DEAF AND HARD OF HEARING

Sherry L. Collins, Executive Director
 Phone: (602) 542-3336
 A.R.S. §§ 36-1941 to 36-1978

Mission:

To ensure, in partnership with the public and private sectors, accessibility for the deaf, hard of hearing, deafblind, and persons with speech difficulties, to improve their quality of life.

Description:

The Commission for the Deaf and the Hard of Hearing (ACDHH) acts as an information bureau for the deaf, hard of hearing, deafblind, and individuals with speech difficulties. The Commission works with State and local government agencies and other public and private community agencies to educate staff to better provide services to their deaf, hard of hearing, and deafblind consumers. ACDHH administers a telecommunications equipment distribution voucher program that loans equipment to qualified Arizona residents. The Arizona Relay Service (7-1-1), which allows equal accessibility of public telephone service, is also administered by the Commission. The relay service is required by the Federal Communications Commission. ACDHH is also mandated to license American Sign Language interpreters and certify American Sign Language teachers.

To provide information and professional, courteous service to the dental profession and the public, and to protect the oral health, safety, and welfare of Arizona citizens through a fair and impartial system of examination, licensing, complaint adjudication, and enforcement processes.

Description:

The State Board of Dental Examiners examines, licenses, and certifies professionals to practice in the field of dentistry; registers business entities providing dental services; and permits mobile dental facilities. The Board also accepts complaints against licensees, certificate holders, business entities, and mobile dental facilities; investigates allegations; and administratively adjudicates complaints. The Board regulates approximately 9,900 business entities and professionals that are licensed or certified to practice in the state, and serves all Arizona citizens who receive their professional services.

Issue 1 Improve employee efficiencies with technology

Description When employees can be more efficient by having access to relevant and up-to-date technology, it is beneficial to both licensees and the public. The impact of the online renewal application, which allows dentists, dental consultants, dental hygienists and denturists to renew their license online, continues to be a convenience to the licensees using the online renewal application and in reducing the manpower required to move a paper renewal through the process. The Agency will continue to enhance the online renewal application to increase the number of licensees using the application.

With the success of online renewals, the Agency sees opportunity for other online functionality with the same result of convenience to the licensees/applicants, decreasing manpower and real time information available to the public.

As the Dental Practice Act is amended, the Agency is challenged to maintain a database which supports new processes and allows for consistency and increases employee efficiency. Looking to the future, the Agency acknowledges new levels of dental providers are emerging whose regulation will be added to the Dental Practice Act.

Staying current with technology is a priority of Agency leadership. The Agency is challenged to maintain, upgrade and secure the database to prevent frustration and lack of confidence in the Agency's technology by the public using the online directory of licensees, the licensee using an online function and staff maintaining the data.

Using technology to improve employee efficiencies includes the challenge of eliminating the flow of paper through the office.

Solutions:

Strategy 1

The Agency plans to build on the realized efficiencies by developing an online renewal component for business entities, online initial license application submission, and online address changes to include the ability to order and pay for additional licenses.

Strategy 2

The Agency will ensure database enhancements will be ongoing to support the complaint process. Knowing that the Dental Practice Act may be amended at any legislative session, the Agency must be prepared to make database modifications as they are legislated. The Agency has budgeted funds and allocated manpower to continue the relationship with the database vendor.

Strategy 3

The database is web-based which requires the Agency to stay current with technology to include hardware, software and internet services. The Agency plans to consult with state IT professionals for their expertise in what hardware, software and internet services are best practices for the Agency to follow. Replacement equipment will be budgeted for as needed.

Strategy 4

In FY19, the Agency will meet the challenge by utilizing the Enterprise Imaging Solution from the State Procurement Office and funded by a one-time appropriation.

Issue 2 Dissemination of information

Description Disseminating relevant information such as statute changes is important for licensees as well as the public. In the past, the Agency published and mailed a newsletter. In the electronic age, printing and mailing a paper newsletter is not only costly, but not environmentally responsible.

Solutions:

Strategy 1

Although the Agency's website contains relevant information, the Agency plans to publish articles not only about statute changes but specifically to address issues encountered by the Board which the licensee should know and would be of interest to the public. Licensees will be informed of a new article published to the website via email. There will be no additional funds used to implement this strategy and the Agency has the manpower to allocate to implement.

EARLY CHILDHOOD DEVELOPMENT AND HEALTH BOARD

Marilee Dal Pra, Chief Executive Officer

Phone: (602) 771-5100

A.R.S. Title 8, Chapter 13, and A.R.S. § 8-1181

Mission:

To partner in creating a family-centered, comprehensive, collaborative, and high-quality early childhood system that supports the development, health, and early education of all Arizona children from birth through age five.

Description:

The Arizona Early Childhood Development and Health Board seeks to ensure the quality and accessibility of early childhood development and health programs at the community level. A voter-approved initiative, Proposition 203, created the Board, which is commonly known as "First Things First."

First Things First establishes regional partnership councils throughout the state. Each regional council is funded based on the number of children, from birth to age five year, living in the area, as well as the number of young children whose family income does not exceed 100% of the federal poverty level. Programs funded through First Things First may be conducted by grantees in the region or by the regional partnership council. First Things First receives revenues from an additional tax levied on tobacco products.

Issue 1 All children have access to high quality, culturally responsive early care and education that promotes their optimal development.

Description a. Early Care and Education System Development and Implementation-Convene partners and provide leadership in the development and implementation of a comprehensive early care and education system that is aligned both across the spectrum of settings and with the full continuum of the education system.

Goal-Identify and align early care and education programs and services to ensure a comprehensive early childhood system with coordination and efficient use of resources.

b. Quality Early Care and Education Standards, Curriculum and Assessment-Convene partners, provide leadership, and provide funding for the development and implementation of quality standards for early childhood care and education programs and related curricula and assessments.

Goal-Increase use of research/evidence-based curriculum and comprehensive assessment that is aligned with the Arizona State Standards for birth - PreK.

c. Quality, Access and Affordability of Regulated Early Care and Education Settings-Convene partners, provide leadership, and provide funding for increased availability of, and access to, high quality, regulated, culturally responsive and affordable early care and education programs.

Goal-Increase the number of Arizona children, birth through five, with access to, and participation in, quality early care and education.

Solutions:

a.

- Continue coordination, alignment and leveraging of resources of state and federal programs to support alignment of state and federal programs and common intake systems to support families in enrolling their children in early care and education programs.
- With partners establish an integrated data system to provide data that can be used to evaluate and monitor the Early Care and Education System.

b.

- Alignment of curriculum and child assessment components with Federal, State, and tribal requirements.
- Support early care and education programs in the use of research/evidence-based curriculum and comprehensive assessment,
- oSupport early care and education programs in establishing at minimum, an assessment process for: Screening measures; Formative assessment for all children; and Kindergarten entry.

c.

- Make available quality, affordable and culturally responsive early childhood education programs to all children and families across Arizona focusing on access to early care and education programs serving infants and toddlers, children in the child welfare system, children with special needs, and high poverty areas; and bringing Quality First—Arizona’s Quality Improvement and Rating System—to scale.

Issue 2 All children have access to high quality, preventive and continuous health care, including physical, mental, oral and nutritional health.

Description a. Access to Quality Health Care Coverage and Services—Collaborate with partners to increase access to high quality health care services (including oral health and mental health) and affordable health care coverage for young children and their families.

Goals-

i. To increase the number of Arizona children birth through five with access to preventive health services, including oral health, behavioral health, and immunizations. This includes oral health, behavioral health, immunizations, and services for families that address the social determinants of health.

ii. To increase the number of Arizona children birth through five that are receiving care coordination services and healthcare through a medical and dental home.

iii. To increase parents and caregivers knowledge and understanding on how to support their child's optimal health and development.

b. Early Screening and Intervention—Collaborate with partners to increase awareness of and access to a continuum of information, support, and services for families and their children who have or are at risk of having developmental, physical, and/or mental health issues.

Goals-

i. To increase the number of Arizona children birth through five receiving appropriate developmental and health screening.

ii. To create, sustain, and expand the development of coordinated statewide and community based systems to identify and serve children with physical, behavioral, developmental and social needs.

iii. To increase the number of Arizona children birth through five that are receiving appropriate supports and intervention services based on screenings.

iv. To increase the number of Arizona pregnant women receiving early and adequate maternal health services, oral health screening, and immunizations.

Solutions:

a.

- Continue efforts to improve children's oral health and work to make sure that oral health care is unduplicated and coordinated for children with a focus on high risk and vulnerable children.

- Support medical homes (including tribal health partners) providing care coordination services for children with an emphasis on children with complex needs and high risk and vulnerable children.

- Work with system partners serving children birth through five to provide timely, coordinated, and appropriate care to families.

- Support health insurance outreach, enrollment and increase health insurance literacy.

- Collaborate with AHCCCS, managed care plans, and tribal health partners to work on issues affecting children birth through five, including:

- o Analysis of data on utilization of healthcare services, including EPSDT and other children's preventive health services. Use data to support work promoting children's access to early and periodic screening, diagnosis and treatment.

- o Support AHCCCS flexibility to provide children's preventive services through home visitation, screening and interventions, and behavioral health services.

- Explore ways to help rural and tribal children better access services such as community health workers, tele-health, transportation, and workforce capacity building.

- Support efforts to increase referrals to maternal health services, and services that address the social determinants of children's health across health programs and policies.

- Partner to increase the health literacy of families so they can effectively advocate within a complex health system for timely, appropriate, and coordinated care for their children.

b.

- Support standardized developmental, autism, oral health and sensory screening services. Screenings should include social determinants and toxic stress to better support the child and family. Refer mothers to maternal health services and screenings; and connect families to appropriate services and interventions.

- o Partner to ensure children are meeting national standards for appropriate screenings; getting referred for evaluation, and connected to services and treatment.

- o Work with partners to reduce duplication of services, coordinate screenings, help families understand the results, and support the appropriate follow up and referrals needed.

- o Convene partners to address children's access to appropriate and timely interventions

- oContinue to partner with efforts to increase sensory screening including identification of data sources.
- Explore the use of telehealth services to expand capacity, with attention to shortage areas.
- Work with tribal health partners to improve collaboration with state agencies to increase screening and decrease no show rates.
- Partner to identify opportunities to leverage best practices around the integration of screening and referral for social determinants of health.
- Support organizations working with young children to inform families about and increase access to screenings, maternal health services, and immunizations.

Issue 3 All families have the information, services and support they need to help their children achieve to their fullest potential.

Description a. Supports and Services for Families—Convene partners, provide leadership, provide funding, and advocate for development, enhancement, and sustainability of a variety of high quality, culturally responsive, and affordable services, supports, and community resources for young children and their families.

Goals-

- To increase the availability of and access to high quality family support services for families with young children.
- To continuously improve the quality of family support services.
- To increase coordination of planning, development, funding and delivery of family support services to meet the needs of families and leverage available resources.

b. Information and Education for Families - Convene partners, provide leadership, and provide funding for the development and coordinated dissemination of high quality, diverse, and relevant information and education on the importance of the early years, child development, health, early education, and related resources for families, providers, partners, and the public.

Goals-

- To increase families understanding and use of parenting practices that promote positive child development, health and literacy outcomes for their children.

Solutions:

a.

- Continue to support a continuum of quality family support strategies to meet the needs of families including social determinants of health ranging from low intensity and universal reach to all families to high intensity and reach to targeted populations.
- Continue to support the strengthening of Arizona’s Home Visitation System.
- Provide specialized professional development for family support providers to increase knowledge and skills to serve and meet the needs of families:
- Continue to coordinate with state agencies and partners to ensure resources are maximized, avoid duplication, and concentrate on complementary services.
- Provide support and technical assistance to employers to develop family-friendly work policies.

B.

- Increase parent/caregiver awareness with fact-based information and resources that are accessed, and universally, available through web-based, social media, mobile and other technology platforms.
- Partner and work with community partners to ensure parents/caregivers have access to information, activities, and available services.
- Coordinate across system partners to disseminate information and connect parent/caregivers to information, resources and services.
- Support parents/caregivers to be a resource to one another.
- Develop a communication strategy aimed at family, friend and neighbor providers, informing them of available supports.
- Create universal messages and information for all families and targeted messages for various high risk and target populations.

Issue 4 All early childhood education and health professionals are well prepared, highly skilled, and compensated commensurate with their education and experience.

Description a. Professional Development System and Recruitment and Retention of Professionals in the Early Childhood System - Convene partners, provide leadership, and provide funding for the development and enhancement of an early childhood professional development system that addresses availability, accessibility, affordability, quality, and articulation. Convene partners, provide leadership, and provide funding for the recruitment, adequate compensation, and retention of high quality, culturally diverse early childhood professionals.

Goal-

i. To implement, align, and continuously improve Arizona's Professional Development System that supports the education, recruitment, and retention of early childhood professionals.

Solutions:

a.

- Support partners across the early childhood system to promote and utilize the Arizona Early Childhood Career and Professional Development Network, including the Workforce Knowledge and Competencies (WFKC), Workforce Registry, and Instructor and Technical Assistance Provider Standards.
- Collect and maintain accurate and comprehensive early childhood workforce data to inform and support decision making.
- Develop and strengthen a continuum of intentional educational and professional development career pathways for the early childhood workforce, for both pre-service and ongoing in-service, specifically ensuring resources as well as access in rural, tribal, and high poverty areas.
- Design a quality assurance process that supports the delivery of PD based on the Instructor and TA Standards and use of research-based instructional strategies that support behavior change in teachers' implementation of best practices in early care and education.
- Support early childhood workforce compensation, incentives, benefits, work environment, and employee retention efforts through the review of research and use of data from the Registry.

Issue 5 The early childhood System is high quality, child and family centered, coordinated, integrated and comprehensive

Description a. Early Childhood System Leadership - Convene partners, provide leadership, and provide funding for the conceptualization and implementation of a high quality, child and family centered, coordinated, integrated, and comprehensive early childhood system that includes clearly defined roles and responsibilities.

Goals-

- i. To clearly describe Arizona's comprehensive early childhood system and define the roles and responsibilities of those involved in its implementation to increase coordination and leverage resources and services for young children.
- ii. To have a common understanding of the early childhood system among agencies and organizations involved in the system, share ownership in its implementation and agree to shared outcomes for young children.
- iii. To support State, tribal and local jurisdictions in their efforts to conceptualize and design high quality early childhood opportunities.
- iv. Early childhood is recognized as a core component of the P-20 education system.

b. Early Childhood System Funding – Secure, coordinate, and advocate for resources required to develop and sustain the early childhood system.

Goals-

- i. To leverage FTF resources to secure federal and foundation grants to build and sustain the early childhood system.
- ii. To strengthen relationships with Arizona business, individuals, and private sector foundations to secure philanthropic investments and partnerships to enhance and sustain the early childhood system.
- iii. To increase alignment of federal, state, local and tribal funding that supports a comprehensive early childhood system.

c. Early Childhood System Data and Evaluation-Define and carry out roles related to collecting, analyzing, and reporting data; utilize data to design, develop, plan, and evaluate the early childhood system; and provide leadership in the evaluation of the early childhood system and collaborate with partners to utilize the results to foster continuous improvement of the system.

Goals-

- i. To ensure that data needed to inform and guide program and policy decisions is available, coordinated and utilized at the state and local level.
- ii. To conduct a comprehensive evaluation of the early childhood system and use results for continuous improvement of the system.

Solutions:

a.

- Develop and implement a shared agenda across state agency partners that minimally includes:
 - o Prioritizing high risk and vulnerable populations across the health, education and family serving sectors;
 - o Aligning policies and increasing coordination to reduce duplication across health, education and family support; and
 - o Continuing focused efforts in improving quality early care and education, improving early language and literacy outcomes, strengthening and expanding professional development, strengthening the comprehensive early intervention system, and alignment with AHCCCS.
- Continue to align and support the intersection of the early childhood system with k-3 education including emphasis on developmentally effective and appropriate practice; leveraging and alignment of resources; and professional development
- Convene state and system partners to address barriers to availability and access to quality services, particularly in rural and tribal areas.
- Continue to develop and strengthen relationships with local governments and tribes and nations to support new and expand early childhood opportunities

b.

- Identify and establish philanthropic, federal, state and tribal partnership and investment opportunities that support and advance the early childhood system.
- Actively prospect, cultivate and steward strategic relationships with national and state foundations, individual/major donors and corporations to invite and secure private philanthropic investments to support established priorities.
- Continue to develop FTF's system to search, vet and pursue both public and private grant opportunities.
- Continue to cultivate and identify partnerships with federal agencies and programs.

c.

- Continue to enhance data to inform FTF strategy impact/outcomes that will link to the Integrated Data System.

- Plan and conduct studies, based on 2018-2022 FTF Research and Evaluation Plan, which will evaluate the impact of FTF-funded work that will inform Early Childhood System work.
- Coordinate with system partners on the development and implementation of an Integrated Data System by:
 - o Coordinating with system partners to standardize definitions, map, share, and access data indicators to understand impact.
 - o Data should inform child outcomes and system progress.
 - o Focusing on shared accountability among system partners on quality and integrity of data.
 - o Developing interagency agreements that allow for the exchange and sharing of data among state, tribal and other government agencies that are funding or providing services to young children and families.
 - o Executing a small-scale blueprint, to serve as a proof of concept, to demonstrate the feasibility of an integrated data system and how it has practical potential in meeting the Early Childhood System needs and coordinated use.
- Continue coordination with system partners to support implementation of common measure of school readiness.
- o Partner with ADE to work on the implementation of the Kindergarten Developmental Inventory with school districts including outreach, professional development, and analysis of data to understand children’s school readiness.
- Demonstrate success with a small scale project at community level that evaluates how individual and collective work of early childhood system partners is impacting young children’s school readiness.

Issue 6 All Arizonans understand the importance of the early years and the impact of early childhood development and health and education on Arizona’s economy and quality of life and, as a result, substantially support early childhood development, health and education both politically and financially.

Description a. Building Public Awareness and Support—Convene partners, provide leadership, and provide funding for efforts to increase public awareness of and support for early childhood development, health and early education among partners, public officials, policy makers, and the public.

Goals-

- i. To increase the number of diverse constituencies who use consistent, compelling messages to actively raise awareness of and build public support for the importance of early childhood as an issue that impacts all Arizonans.
- ii. To increase families’ understanding of the importance of early childhood and awareness of resources available to help them ensure positive experiences in their child’s first five years.
- iii. To increase policymakers’ recognition of the role early childhood plays in educational and economic outcomes and increase regular engagement of early childhood voices in public policy conversations.

Solutions:

a.

- Increase the engagement of diverse constituents across Arizona who act in support of building an effective early childhood system.
- Ensure consistent public messaging about early childhood and increase the presence of consistent early childhood strategic messaging across broad communications channels throughout the state.
- Engage parents and caregivers of young children with relevant, credible and appealing content through digital communications channels.
- Highlight the impact of FTF funded programs on young children and their families.
- Expand the profile and recognition of First Things First as a leader in early childhood policy and practice.
- Leverage opportunities to increase understanding of early childhood’s impact on a broad range of topics among state, federal, tribal and local policymakers.
- Build recognition of First Things First strategies as synonymous with improving outcomes in early childhood.

Issue 7 FTF is a model for comprehensive planning and program implementation that integrates innovation and a systems thinking approach with an emphasis on data driven decisions and continuous quality improvement.

Description a.FTF staff and volunteers have the resources, structures and processes in place so that continuous learning can occur and be recognized.

b.Establish and maintain internal systems that promote accountability, efficiency and improvement.

Solutions:

a.

i.Develop fluent, adaptive and responsive systems thinkers who know how to apply systems thinking across the organization (staff and volunteers) and externally with system partners.

ii.Establish mechanisms by which Regional Councils can provide local leadership in developing an early childhood systems model.

b.

i.Implement statewide and regional funding plans that are consistent with FTF's indicators, benchmarks to progress, strategic direction, Standards of Practice based on best and evidence based practice, FTF logic model and the Arizona Model System.

li.Advance fiscal policy that is transparent, accountable, a public sector model and that aligns with a systems approach to programmatic implementation.

Issue 8 FTF is a highly sought after place of employment and engagement that attracts and retains exceptional and diverse talent among staff and volunteers.

Description a. Early Care and Education System Development and Implementation—Convene partners and provide leadership in the development and implementation of a comprehensive early care and education system that is aligned both across the spectrum of settings and with the full continuum of the education system.

Goals-

i. Identify and align early care and education programs and services to ensure a comprehensive early childhood system with coordinated and efficient use of resources.

b. Quality Early Care and Education Standards, Curriculum and Assessment—Convene partners, provide leadership and provide funding for the development and implementation of quality standards for early childhood care and education programs and related curricula and assessments.

Goals-

i. Increase use of research/evidence-based curriculum and comprehensive assessment that is aligned with the Arizona State Standards for birth – pre-k.

c. Quality, Access and Affordability of Regulated Early Care and Education Settings—Convene partners, provide leadership, and provide funding for increased availability of and access to high quality, regulated, culturally responsive and affordable early care and education programs.

Goals-

i. Increase the number of Arizona children birth through five with access to and participation in quality early care and education

Solutions:

a.

- Continue coordination, alignment and leveraging of resources of state and federal programs to support alignment of state and federal programs and common intake systems to support families in enrolling their children in early care and education programs.
- With partners establish an integrated data system to provide data that can be used to evaluate and monitor the Early Care and Education System.

b.

- Alignment of curriculum and child assessment components with Federal, State, and tribal requirements.
- Support early care and education programs in the use of research/evidence-based curriculum and comprehensive assessment,
 - o Support early care and education programs in establishing at minimum, an assessment process for: Screening measures; Formative assessment for all children; and Kindergarten entry.

c.

- Make available quality, affordable and culturally responsive early childhood education programs to all children and families across Arizona focusing on access to early care and education programs serving infants and toddlers, children in the child welfare system, children with special needs, and high poverty areas; and bringing Quality First—Arizona’s Quality Improvement and Rating System—to scale.

Agency Summary

DEPARTMENT OF ECONOMIC SECURITY

Michael Traylor, Director
Phone: (602) 542-5678
A.R.S. § 41-1954

Mission:

To make Arizona stronger by helping Arizonans reach their potential through temporary assistance for those in need and through care for the vulnerable.

Description:

The Department of Economic Security (DES) is an integrated human services agency that provides critical opportunity, assistance, and care for approximately two million Arizonans. Across its 40 programs, DES employees seek to serve fellow Arizonans with integrity, humility, and kindness.

More specifically, DES works with job creators to provide employment assistance, including vocational rehabilitation for individuals with physical or mental impairment and job training for economically disadvantaged adults and youth. Eligible working parents receive child care assistance. The Department manages the Unemployment Insurance Program, including collecting taxes and providing benefits.

DES provides temporary assistance and services that support Arizonans' goals of obtaining greater self-sufficiency. DES provides children with food, health care, and parental financial support; services to individuals with disabilities; and protection for the vulnerable by investigating allegations of abuse, neglect, and exploitation. DES operates with fiscal discipline and actively identifies and prosecutes fraudulent receipt of benefits.

The Department provides safety net services to victims of domestic violence; individuals experiencing homelessness and hunger; families needing assistance with utility bills; and vulnerable adults who are victims of abuse, neglect, and exploitation. The Department assists individuals and families by determining eligibility for temporary cash assistance, nutritional assistance, Medicaid, Social Security Disability Insurance (SSDI), and Supplemental Security Income (SSI). In addition, DES provides support to newly arrived refugees.

The Department provides early intervention services for infants and toddlers with developmental delays and home and community-based services for clients with intellectual and developmental disabilities. The Department assists parents in receiving child support payments by locating absent parents, establishing paternity, establishing the legal obligation to pay, and evaluating the absent parent's ability to pay.

5 Year Plan

Issue 1 To improve the quality and timeliness of services, through the development of a high performing workforce

Description The Arizona Department of Economic Security is committed to improving the timeliness and quality of services and supports to Arizonans in need. As part of the implementation of the Arizona Management System, DES underwent a strategy deployment process to identify the areas that impact our customers the most, and where significant improvements are needed

Solutions:

Reduce vacancy and absenteeism to serve Arizonans better

Equip staff to follow and leaders to manage standard work

Work as a team to improve outcomes

Retain committed professionals to serve Arizonans better

Improve safety through objective decision making at the Adult Protective Services (APS) Central Intake

Decrease the Supplemental Nutrition Assistance Program (SNAP) error rate

Decrease the child support debt error rate percentage

Improve the quality of person-centric supports for people with developmental disabilities

Improve the percentage of individuals who retain their employment placement through strengthening the connection between job seekers and employers

Decrease the length of time to complete a comprehensive Adult Protective Services (APS) investigation

Decrease wait times in local benefits and medical eligibility offices

Decrease the number of days from application to payment for child support services

Improve the timeliness of service delivery for people with developmental disabilities

Decrease the average number of days to employment

To provide Medicare clawback funds as required by federal law under the Medicare Modernization Act.

Description:

The Medicare clawback payment budget provides for a payment each year to Medicare, as required by the Medicare Modernization Act (MMA). The health plan medical costs are reconciled on actual claims data rather than on accrued audited financial statements. A data warehouse has been developed to house claims data and to facilitate the production of standard reporting.

Note: The Department has no control over the payment.

 A.R.S. § 41-1954

Mission:

To promote the safety, well-being, and self-sufficiency of children, adults, and families.

Description:

Division of Benefits and Medical Eligibility Operations includes the following areas:

The Family Assistance Administration (FAA) provides support to field staff by providing leadership, oversight, policy and procedures, training, system support, financial and purchasing control, human resources, and management information. FAA programs ensure conformity with federal and state laws in the Nutrition Assistance (formerly Food Stamps), Cash Assistance under Temporary Assistance for Needy Families (TANF), General Assistance, and Tuberculosis Control programs; coordinate eligibility determination for Medical Assistance programs; and provide child passenger restraint seats.

The Office of Program Evaluation (OPE) evaluates and monitors eligibility for the following programs: Cash Assistance, Nutrition Assistance, and specialized areas within the Arizona Health Care Cost Containment System (AHCCCS) through the application of approved quality control and performance measurements. OPE performs a management evaluation function by reviewing local office processes to determine Supplemental Nutrition and Cash Assistance program accuracy and compliance with state and federal mandates.

DISABILITY DETERMINATION SERVICES ADMINISTRATION

Wes Fletcher, Financial Services Administrator
 Phone: (602) 542-3786
 A.R.S. § 41-1954; 46-251

Mission:

To provide timely and accurate disability determinations for applicants

Description:

The Disability Determination Services Administration (DDSA) adjudicates Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI) benefit claims from Social Security offices in Arizona. Federal statutes and regulations require the states to administer the disability documentation and decision-making process for claimants who are residents. DDSA operates under federal statutes and regulations that require states to make SSDI and SSI disability determinations for their residents. The Social Security Administration (SSA) funds 100 percent of the program cost and mandates specific program guidelines and performance standards. In addition, DDSA reviews and determines entitlements for referred initial and continuing Arizona Health Care Cost Containment System acute care claims. The applicant's potential for vocational rehabilitation is considered, with referrals made as appropriate. DDSA measures are reported on federal fiscal year.

CHILD SUPPORT ENFORCEMENT

Wes Fletcher, Financial Services Administrator
 Phone: (602) 542-3786
 A.R.S. § 41-1954: Laws 1994, Ch 374

Mission:
To collect child support from parents who are legally obligated to pay, the Child Support Services program was established in 1975 as part of Title IV-D of the Social Security Act, a federal, state, and local program.
The goals are threefold:

- *To ensure that children are supported by their parents,*
- *To foster family responsibility by offering services and resources to families that will help them become more self-reliant, and*
- *To reduce the costs of welfare to the taxpayer.*

Description:
 This program provides intake services, locates absent parents, establishes paternity, and establishes the legal obligation to pay child support and provide medical support in local and interstate cases. The program enforces child support obligations and medical support through various administrative and judicial remedies. Child support services are provided to custodial persons who receive Cash Assistance, Arizona Health Care Cost Containment System (AHCCCS) medical assistance services, foster care assistance, as well as to any other custodial or non-custodial person who applies. These services are provided pursuant to Title IV-D of the Social Security Act. Services in 12 counties are provided by the Department of Economic Security's Division of Child Support Enforcement (DCSE), in conjunction with the Attorney General's Office. DCSE has an intergovernmental agreement with the County Attorney to provide services in one county. The program also provides payment processing services statewide for all cases, Title IV-D and non-Title IV-D.

This Program Contains the following Subprograms:

- ▶ Child Support Enforcement Operations
- ▶ County Participation

Mission:

To support and enhance the ability of at-risk and older adults to meet their needs to the maximum of their ability, choice, and benefit. To assist refugees in Arizona with attaining social and economic self-sufficiency and well-being. To provide leadership by establishing partnerships and building community networks that deliver premiere human services to vulnerable, at-risk populations.

Description:

The Division of Aging and Adult Services administers a statewide program of advocacy, social services, and programs to serve at-risk and older adults. Emphasis in the delivery of services is placed on at-risk and older adults with the greatest social and economic needs. Aging and adult services include investigative and protective services, case management, home care (housekeeper, home health aide, personal care, and home nursing), home repair/adaptation/renovation, transportation, the State Health Insurance Assistance Program, the Family Caregiver Support Program, the Long-Term Care Ombudsman, legal assistance, congregate meals, home-delivered meals, socialization/recreation, counseling, subsidized employment, volunteer opportunities and training, and adult day care.

Through its community services programs, the Division addresses urgent, short-term basic needs and strategies for long-term solutions by providing direct services and utilizing comprehensive networks and partnerships.

The Arizona Refugee Resettlement Program (RRP) supports and advances successful resettlement of refugees, individuals forced to flee their home countries due to persecution, war, and human rights violations.

Description:

Division of Aging and Adult Services Operations provides administrative oversight and operating support to the programs in the Division. This program also includes the Adult Protective Services (APS) program. APS accepts and evaluates reports of abuse, neglect, and exploitation of vulnerable and incapacitated adults and offers appropriate services. Elder Rights, as part of Title VII of the Older Americans Act, includes four major components under state leadership. These components are Elder Abuse Prevention, Legal Services Assistance, the State Long-Term Care Ombudsman, and the State Health Insurance Assistance Program. Elder Rights is an advocacy program that incorporates all services, support, and protection to assist vulnerable adults in understanding their rights, maintaining and exercising control over decision making, and benefiting from services and benefits promised by law.

ADULT SERVICES

Wes Fletcher, Financial Services Administrator
 Phone: (602) 542-3786
 A.R.S. § 41-1954; 46-191

Mission:

To further develop and provide a continuum of services designed to meet the needs of older or at-risk adults so they may retain independence and autonomy; to provide statewide leadership in the areas of planning, developing, and coordinating a comprehensive system of protection and advocacy programs that assist disabled and vulnerable elders to exercise their rights and choices promised by law; and to empower economically disadvantaged persons aged 55 or older with job opportunities in training programs or stipend volunteer programs to enhance the participants' quality of life.

Description:

The system of home- and community-based services includes services that assist disabled adults and the elderly to live as independently as possible in their homes and community. Services provided include home care, home delivered meals, transportation, adult day health care, respite, home repair, and case management. Services are also available for family caregivers.

The Senior Community Service Employment Program (SCSEP), also known as Title V of the Older Americans Act, provides job training and subsidized employment to workers 55 years of age and older who are at or below 125 percent of the federal poverty levels. The purpose of Title V is to train workers to enable them to move to unsubsidized employment in the public and private sectors.

BOARD OF EDUCATION

Alicia Williams, Executive Director
Phone: (602) 542-0120
A.R.S. §§ Title 15 et seq.

Mission:

To develop successful citizens through robust public education.

Description:

The State Board of Education is constitutionally charged with regulating the conduct of the public school system. Arizona law requires the Board to regulate and exercise general supervision over the conduct of the public school system and adopt rules and policies it deems necessary to accomplish this purpose. Regulation and supervision includes the following:

- (a) prescribe a minimum course of study and competency requirements for promotion of students from third and eighth grade as well as for graduation from high school;
- (b) supervise and control the certification of persons engaged in instructional work in a school district;
- (c) approve alternative teacher and administrator preparation programs;
- (d) adopt proficiency exams and passing scores for those exams;
- (e) adopt rules governing the methods for administering proficiency exams;
- (f) impose disciplinary action on all certificate holders who are found to have engaged in immoral conduct;
- (g) serve as the State Board for Vocational and Technological Education; and
- (h) delegate to the Superintendent of Public Instruction the execution of board policies and rules.

5 Year Plan

Issue 1 School Accountability and School Improvement

Description To review the accountability systems for accuracy and impact, communicate timelines of implementation to the educational field and stakeholders and ensure all Arizona students have access to a high quality education.

Solutions:

To ensure academic achievement of K-12 public school students by supporting and incentivizing the increase of A Schools and decrease of D and F schools. This will be accomplished by working collaboratively with the Department of Education, the field and educational stakeholders to ensure resources are available to those schools who need assistance in school improvement. Furthermore, by utilizing the accountability system to determine need and recognizing success, the field will be able to collaborate with one another of similar demographics to implement best practices.

The State Board of Education and staff will continue to work with stakeholders to collect and analyze accountability trends in Arizona, while following an adopted timeline of change and implementation. From this information, the State Board of Education will continually review and inspect potential revisions to the statewide accountability system for traditional schools. Finally, the State Board of Education will continue to plan and implement the accountability systems for alternative schools, online instruction schools, district and small school/K-2 schools to ensure accurate reporting.

Issue 2 Achieve 60 Initiative for completing credentials

Description To ensure 60% of Arizonans have an industry certificate or college degree by 2030.

Solutions:

To develop and increase career pathways for K-12 students. The State Board of Education will continue to work with stakeholders to develop new pathways for industry certification and recognizing that this may involve statutory language that recognizes student success in Career and Technical Education. Furthermore, the State Board of Education plans to review the collection of information and data from statewide high schools within the College and Career Readiness rubric to drive future policy decisions.

Issue 3 Move on When Reading

Description To review data and current trends with the Move on When Reading requirements in Arizona

Solutions:

The State Board of Education will study assessment and outcome data for the Move on When Reading (MOWR) legislation and implementation. From this data and research, plus feedback from field experts on the K-3 Literacy Ad Hoc, the State Board of Education will engage in discussions and policy recommendations to drive outcomes to meet the statewide literacy expectation of 72% by 2030 for third grade students.

DEPARTMENT OF EDUCATION

Diane Douglas, Superintendent of Public Instruction
 Phone: (602) 542-5460
 A.R.S. Title 15 et seq.

Mission:

To serve Arizona's education community and actively engage parents, to ensure that all Arizona children have the knowledge to determine their future, achieve their goals, and be successful citizens.

Description:

The Department of Education is administered by the Superintendent of Public Instruction, an elected position. The Superintendent, in conjunction with the State Board of Education, leads the State in developing and implementing educational guidelines and standards. The Superintendent supports direct services to 230 locally governed school districts, including 14 vocational districts and nine accommodation districts. The Superintendent, in conjunction with the State Board for Charter Schools, oversees 447 charters (as of August 2018). The Department executes educational guidelines through evaluation, training, school improvement assistance, dissemination of information, and administration and allocation of funds. The Department also serves as the primary source for information on the status and needs of the public school system.

Issue 1 In order to improve student success pre K through age 22, instructional programs must be strengthened and based on student needs.

Description Students are expected to master rigorous statewide academic standards. In order to accomplish this goal, instructional techniques must match the academic needs of students and be evidence-based.

Solutions:

1. Define and maintain rigorous Arizona standards
2. Support students' readiness for post-secondary options (college and career)
3. Provide a rigorous, well-rounded education with comprehensive systems of support for students
4. Improve outcomes for special populations

Issue 2 Inadequate retention and recruitment of teachers has led to a shortage of teachers.

Description Highly effective teachers in the classroom are the biggest predictor of student success. Retaining highly effective teachers will ensure that our students have equal access to high quality classroom instruction and environments.

Solutions:

1. Increase support and training to teachers
2. Strengthen teacher preparation programs
3. Strengthen beginning teacher inductive and mentoring programs
4. Provide teacher leadership opportunities
- A. Provide effective and aligned professional learning and technical assistance

Issue 3 Our cadre of strong, effective leaders must be increased in order to support the needs of students and teachers.

Description After highly effective teachers, effective leaders have the next largest impact on student achievement. Additionally, the effectiveness of the leader directly impacts retention of high quality instructors.

Solutions:

1. Provide oversight and guidance to schools in proper administration of funds
2. Ensure valid and reliable accountability to support student, teacher and school success
3. Strengthen leadership development
4. Strengthen administrative preparation and mentoring programs

Issue 4 Disengagement of families and communities from their schools decreases the supportive structures available for students.

Description Through the implementation of culturally inclusive practices and specific attention to high need communities, we will increase engagement of families and communities thus improving support for our leaders, teachers and students.

Solutions:

1. Engage and support Arizona parents
2. Protect parents' rights
3. Educate stakeholders on innovation, technology, and privacy concerns
4. Support adult basic education
5. Empower school choice through providing access to transparent school and district data
6. Ensure equitable access to high quality educational opportunities and supports

Issue 5 Schools require more supports to maintain strong, effective practices and structures.

Description Through highly effective technical assistance, guidance documents and professional development, schools will be able to maintain and develop practices which will fully support leaders, teachers, students and parents.

Solutions:

1. Provide data literacy professional development
2. Enhance factors affecting student achievement
3. Support comprehensive needs assessments to develop strong school-wide improvement plans
4. Assist with development of strong school climates and comprehensive systems of support

Issue 6 Agency services and supports must be enhanced and streamlined so schools can focus on student needs.

Description As internal agency controls are enhanced, administrative burden on schools will be reduced and communication to the field will be improved.

Solutions:

1. Reduce Administrative burdens
2. Improve efficiency of internal procedures
3. Provide internal leadership and staff development
4. Maintain focus on effective customer service
5. Effectively utilize Agency funding to support students, teachers, leaders, families, and communities
6. Facilitate collection of valid and reliable accountability data

OFFICE OF THE SUPERINTENDENT

Diane Douglas, Superintendent of Public Instruction
Phone: (602) 542-5460
A.R.S. § Title 15 et seq.

Mission:

To serve Arizona’s education community, and actively engage parents, to ensure that all Arizona children have the knowledge to determine their future, achieve their goals, and be successful citizens.

Description:

Policy Development and Government Relations:

The Policy Development and Government Relations Office is focused on representing the Superintendent of Public Instruction and the department to all levels of local, state, and federal government. Policy Development and Government Relations keeps policymakers informed of the Department’s perspective on issues affecting K-12 education, while keeping internal customers informed of what changes are necessary to comply with state or federal policy changes. Policy Development and Government Relations also develops and disseminates guidance and technical assistance to the department’s external customers as necessary.

Office of Communications:

The Communications Office oversees the Department’s communications, marketing, conference planning, and special projects. To accomplish its objectives, the Communications Office emphasizes and facilitates highly effective communication, collaboration and a commitment to excellence in all the Department does.

Homeless:

The Homeless Education program serves children whose cultural or economic situation challenges the educational system by ensuring homeless children and youth have access to a free, appropriate public education, comparable to that provided to the children of any Arizona resident and consistent with Arizona’s mandatory school attendance laws.

Office of Indian Education:

The Office of Indian Education, under the Office of the Superintendent, administers federal and state programs to meet the educational and cultural needs of American Indian students in participating LEAs. The office implements A.R.S. 15-244, Indian Education Act. Outreach is provided to all of Arizona’s local educational agencies on reservations and urban areas with high populations of American Indian students. Technical assistance is provided in collaboration with all units at the department that interface with these LEAs. Conferences and training, as well as parental involvement activities, are also provided on-site and at ADE. The Director of Indian Education serves as a liaison between the tribal education departments and the the department, works via partnerships with outside agencies to provide resources for Native American students, and facilitates the Superintendent of Public Instruction’s initiatives to benefit the academic achievement and cultural awareness of Arizona’s indigenous youth.

Ross Begnoche, Chief Financial Officer
Phone: (602) 542-7883
A.R.S. § 15-251-15-272, P.L. 107-110

Mission:

To provide exceptional customer support in a safe work environment through a commitment to continual process improvements with timely, efficient, and cost-effective financial, procurement, grants management, building operations, human resources, payroll, audit and organizational development services to the Arizona Department of Education and its customers, ensuring compliance with Federal, State and Agency laws, regulations and policies.

Description:

The Business and Finance subprogram is responsible for providing financial, procurement, audit, building operations and distribution, human resources, and organizational development support services to the Agency. Financial services include budgeting, accounting, grants management, and audit functions. The Grants Management Unit facilitates the pass-through of assistance funds to District and Charter schools. The Audit Unit administers external ADM audits and internal audits. Procurement services include contracts management and purchasing. Building Operations and Distribution include facilities, print shop, and central mail distribution functions. Human Resource services include personnel functions. Organizational Development services include Agency Strategic Plan development and implementation, internal/external surveys, process improvement functions, and staff/leadership development. These administrative functions are centralized to ensure efficient and effective operational support to the Agency, and consistent application of state, federal and agency rules, regulations, guidelines, and procedures.

Explanation: * FY18 – There was a lot of turnover during this year, and for a large portion of it the Audit unit was significantly understaffed so the goal for that year was reduced down to 34 audits from the initial 36.

Perform at least 175 federal fiscal monitoring reviews of school districts and charter schools by June 30th of each year.	175	150*	229	100	100
---	-----	------	-----	-----	-----

Explanation: *The number of federal fiscal monitoring reviews is planned to decrease from 175 to 150 for FY18 since the ADE Grants Unit is in the process of developing a risk-based school selection model as called for by the Federal Uniform Grant Guidance requirements. Because this model will focus additional staff effort to more thoroughly perform reviews of those schools with the highest potential risk, the number of reviews performed by staff will temporarily decrease.

FY19 and 20 – Changes from 175 to 100 are due to additional grants being monitored by the department for each school scheduled. Previously only one grant was monitored by the department.

Mission:

To provide information technology application development, as well as consulting services for integration of off-the-shelf services or custom development, while ensuring network and operations capability in order to exceed the expectations of both internal and external education stakeholders

Description:

Information Technology (IT) is a subprogram of the Arizona Department of Education that manages the agency’s overall technology management initiatives. Through working with other business units’ data stewards, the agency focuses on internal and external education stakeholder demands and service level agreements. This subprogram implements established guidelines to ensure data quality and maximize technology resource utilization. The primary activities that IT supports include assisting stakeholders with data collection, data use, data security, data storage, data integration and reporting. IT offers technical assistance and training to enable all of Arizona’s educational stakeholders to effectively utilize ADE’s offered technology services and information and recommends policy changes and additions based on best-in-class technology. Staff collaborate with strategic partners to provide timely technology tools needed to support reporting and decision-making by all education stakeholders (educators, the Arizona legislature, the state government, the federal government, business groups, researchers, parents, students, etc.), while also providing development and support for the implementation of the Arizona Education Learning and Accountability System (AELAS).

RESEARCH AND EVALUATION

Jennifer Fletcher, Ph.D., Chief Accountability Officer
 Phone: (602) 364-1983
 A.R.S. § 15-743, 15-746, P.L. 107-110

Mission:

To serve the Arizona Department of Education and Arizona’s education system by providing reliable and valid research, evaluation of various education initiatives, and implementation of state and federal accountability of Arizona’s students, public schools and LEAs.

Description:

Research and Evaluation with Accountability for two years and is called Accountability and Research. The ADE Accountability and Research team is responsible for measuring the growth in quality of Arizona schools and districts by producing timely and reliable accountability determinations as required by state and federal law and providing support services to the Agency in the areas of research, data reporting, and evaluation to/of programs that are aligned with the strategic objectives and mission of ADE divisions and the Agency. The section works closely with Assessments and the State Board of Education in order to accurately label schools in a fair and systematic manner. Staff support schools, districts, and other stakeholders to refine the system as well as utilize data in an appropriate and effective manner. Staff also represent the Agency with research and evaluation entities and activities throughout Arizona and nationally.

Accountability services are provided primarily to the State Board of Education who oversees the state accountability system. Accountability staff responds to data questions and provides impact data to the Board. They work closely with the field and IT to ensure data quality and accuracy. This subprogram is also responsible for implementing the state and federal accountability system delivering data, letter grades, and federal determinations to Districts and schools through secure web-based applications and reports. Accountability subprogram additionally creates and produces data for state and school report cards.

Research services are provided at the request of other Agency programs and include project design, strategies and technical aspects of data collection, primary and secondary data analyses, literature and policy reviews, interpretation of findings, and implementation of findings into practice. This subprogram is also primarily responsible for producing publicly available data sets that meet state and Federal privacy laws. Staff provide services in program or process evaluations, including developing evaluation plans, coordinating and monitoring of program evaluation RFPs, designing evaluation instruments, collecting quantitative and qualitative data, analyzing results, and evaluation reports.

◆ **Goal 1** To issue on time, valid and reliable evaluations of school and student performance as required by State and Federal statutes.

HEALTH AND NUTRITION SERVICES

Melissa Conner, Associate Superintendent

Phone: (602) 542-8709

Nat. School Lunch and Child Nutrition Acts, P.L. 108-265

Mission:

To provide Arizonans with health and nutrition knowledge and identify available resources to positively impact the academic success and wellbeing of Arizonans.

Description:

The Health and Nutrition subprogram provides technical assistance to support and improve the health environment of schools, daycare centers and homes, cash assistance and donated foods to serve nutritionally adequate meals to children in schools, preschools, daycare centers and homes. Over two-thirds of the children served are low income, based on free and reduced-income eligibility status. The free and reduced status is based on the federal poverty guidelines and is an indicator of a child's at risk status. Training, technical assistance, and compliance reviews are conducted to ensure health and nutrition integrity and fiscal accountability as prescribed by the United States Department of Agriculture.

The Health and Nutrition subprogram includes various health programs and the meals served in these programs are planned to meet the U.S. Dietary Guidelines for Americans. These guidelines provide advice about food choices that promote health and prevent disease, encouraging an increased intake of fruits, vegetables and grains, while limiting fat, salt and sugar. These programs include: the National School Lunch Program, the After School Snack Program, the School Breakfast Program, the Child and Adult Care Food Program, the Summer Food Service Program, the Food Distribution Program, the Special Milk Program, the Fresh Fruit and Vegetable Program, School Health Programs, and Clinical School Health.

School Safety and Prevention:

The Office of School Safety and Prevention (SS&P) provides funding, training, and technical assistance for safe and supportive learning environments that meet the continuum of school safety, prevention, intervention and response. Through collaboration with diverse local, state and federal partners, the Office supports Arizona schools so that students are safe, healthy, and ready to learn. Strategies utilized by SS&P are grounded in evidence of effectiveness, and the Office contributes to the knowledge base through its own data collection, program evaluation, and research efforts.

SCHOOL FINANCE

Lyle Friesen, Deputy Associate Superintendent

Phone: (602) 542-8250

A.R.S. § 15-185, 15-901-917, 15-941-15-1033, 37-521

Mission:

To distribute state aid for the education of students in preschool (with disability), kindergarten, and grades one through twelve, monitor compliance with statutory expenditure limitations, and provide prompt customer service while collecting and analyzing data required for the distribution of state aid.

Description:

School Finance disburses equalization assistance (Basic State Aid) to school districts and charter schools pursuant to a statutory formula, which requires the first portions of school district funding to be generated by a local property tax levy and a state equalization assistance property tax levy (levied by the counties). The equalization formula is designed to provide equitable per-pupil funding among school districts and charter schools for maintenance and operation and certain capital needs. Equalization assistance is based on the school district’s or charter school’s student count (Average Daily Membership) and funding levels set in statute.

School Finance collects student level data, which becomes the basis for payment of state aid and other monies. This data is also used by numerous other areas within the Department of Education. In addition to student data, transportation and employee data is collected. Assistance is provided to districts and charters to ensure accurate data is available for payment and budget analysis purposes.

School Finance also disburses other special formula funding for the following programs: (1) Additional State Aid (Homeowner's Rebate Program); (2) Assistance to School Districts (education of children whose parents or legal guardians are employed by certain state institutions); (3) Certificate of Educational Convenience (education of children who reside in areas of the state which are not included within an organized school district); (4) Residential and Institutional Vouchers; (5) County Jails and Detention Centers; (6) Juvenile Corrections and Adult Corrections; (7) Classroom Site Fund (additional funds for teacher compensation and other specified purposes); (8) Instructional Improvement Fund (also additional funds for teacher compensation and other specified purposes); and (9) County Small Schools Service Program.

School district compliance with statutory expenditure limitations is determined for each school district based on each district’s adopted budget. Monthly updates are provided throughout the year. Final compliance testing is performed after the close of the fiscal year, upon the submission of school districts’ Annual Financial Reports.

Further, School Finance collects data to meet the reporting requirements for the National Public Education Finance Survey (NPEFS) and the federal Common Core of Data, fiscal (revenues and expenditure) and non-fiscal (student counts). Data submitted is the basis for determining Arizona’s Title I monies, and is used in numerous studies and reports. In addition, School Finance provides education related data to other governmental agencies and taxpayers as requested and/or required.

A.R.S. § 15-531-15-551, 15-704, 15-919-15-920, P.L. 107-110

Mission:

To promote the development and the implementation of quality education for all learners by providing quality services and resources to schools, parent groups, government agencies, and community groups to enable them to achieve their goals.

Description:

The Highly Effective Schools Division, consisting of Exceptional Student Services (ESS), Adult Education Services (AES), and 21st Century Community Learning Centers (21CCLC), provides funding, technical assistance, and resource coordination to local education agencies and public/private organizations in their administration of preschool through adult programs including before and after school programming and summer programming. It also provides development opportunities to teachers and administrative professionals and supports local efforts focused on parental and community involvement. This Division includes efforts aimed at:

1. Serving children with disabilities between the ages of 3 years and 22 years; ensures that public education agencies in Arizona have special education programs, policies, and procedures that comply with the federal Individuals with Disabilities Education Act (IDEA) and its implementing regulations, and that eligible children and youth with disabilities receive a free appropriate public education (FAPE).
providing professional learning opportunities, providing technical assistance to schools, supporting the needs of families of students with disabilities, monitoring schools for compliance with the regulations that implement the IDEA, and administers the IDEA Entitlement grant.
2. Serving children whose economic, cultural, or intellectual situations create the need for additional school extension opportunities offered through school day extension programs that support academic achievement, family engagement and social/emotional growth;
3. Serving Arizona's education community by ensuring adult learners, 16 years of age and older who are not enrolled in a K-12 school, have quality educational opportunities to support employment, job training and higher education aspirations. These services help adult learners to acquire the knowledge and skills necessary for effective participation in society, helping citizens realize their potential, businesses benefit and communities thrive.

CAREER AND TECHNICAL EDUCATION

Cathie Raymond, Deputy Associate Superintendent/State Director

Phone: (602) 364-2211

A.R.S. § 15-781-15-790, P.L. 109-270

Mission:

To prepare Arizona students for workforce success and continuous learning.

Description:

The Career and Technical Education (CTE) subprogram at the Arizona Department of Education oversees all State and Federal funding specifically earmarked for all secondary and postsecondary CTE programs designed to prepare individuals for postsecondary education and transition to employment in current or emerging careers. This subprogram directs and is responsible for the quality of all CTE programs under secondary and postsecondary districts and all CTE programs under Joint Technical Education Districts (JTED). This includes oversight of over \$25.8 million of Federal Carl Perkins funds and \$11.6 million of State Block Grant funding. The subprogram is responsible for assuring quality and compliance with all associated Federal and State legislation for CTE funding, including budgeting and directing funds to specific programs, providing reports to Federal and State entities, collecting, analyzing and reporting related data, including performance measures, and establishing fiscal accountability for funds.

The CTE subprogram is also responsible for directing the development and approval of quality CTE programs in 62 program career areas leading to placement of students in postsecondary education and/or into employment. The subprogram directs development of industry validated technical standards which not only meets occupational needs and employability skills but also focuses on related academic skills and standards. The subprogram oversees the development of end-of-program assessments and maintains the assessment management system. Leadership is provided for curriculum, assessment development, dissemination of materials and professional development opportunities, including pedagogy, and articulation of secondary to postsecondary education.

The CTE subprogram directs CTE research and assessment, which supports the need for specific programs, based on Arizona labor market information identifying occupations with high wage, high skill and high demand, and collects, reports and analyzes data for districts and other entities in order to provide accurate information and industry evaluation for continuous improvement of CTE programs. The CTE subprogram also supports implementation of new and emerging programs such as those in the Science, Technology, Engineering and Math (STEM) cluster, Home Health Care and the Bioscience areas, based on research in Arizona services workforce strategy by Battelle. The subprogram works with stakeholder groups to establish partnerships with business and industry and workforce development agencies to ensure the CTE programs are preparing students to be college and career ready by having the workplace employability skills, technical skills and industry recognized certifications needed for careers leading to economic independence. The subprogram gives direction to identification of priorities, such as specific occupations or work-based learning, to align with labor market and business and industry needs into the future.

The subprogram oversees and conducts all Federal compliance reviews for CTE programs through Office for Civil Rights. The seven co-curricular CTE student organizations, FFA, FCCLA, Educators Rising Arizona, FBLA, DECA, HOSA and SkillsUSA, also function under this subprogram to provide students with leadership development and community service skills. Technical assistance in implementation and continuous improvement of quality CTE programs including the previously described initiatives is provided to all secondary and postsecondary districts offering approved CTE programs

A.R.S. § 15-1241, P.L. 89-329, P.L. 101-610, P. L. 107-110

Mission:

To serve Local Educational Agencies (LEAs) in accessing quality educational programs on reservations and urban areas with high populations of American Indian students through technical assistance, timely allocation and distribution of program funds, monitoring state and federal grants, and providing data collection related to school safety to ensure that every child has access to a safe school environment and an excellent education.

Description:

The Special Projects sub-program (formerly Emergent Student Services, now part of the Office of the Superintendent) serves Arizona's indigenous school populations through targeted initiatives.

Office of Indian Education:

The Office of Indian Education, under Policy Development and Government Relations, administers federal and state programs to meet the educational and cultural needs of American Indian students in participating LEAs. The office implements A.R.S. 15-244, Indian Education Act. Outreach is provided to all of Arizona's local educational agencies on reservations and urban areas with high populations of American Indian students. Technical assistance is provided in collaboration with all units at ADE that interface with these LEAs. Conferences and training, as well as parental involvement activities, are also provided on-site and at ADE. The Director of Indian Education serves as a liaison between the tribal education departments and the ADE, works via partnerships with outside agencies to provide resources for Native American students, and facilitates the Superintendent of Public Instruction's initiatives to benefit the academic achievement and cultural awareness of Arizona's indigenous youth

HIGHLY EFFECTIVE TEACHERS AND LEADERS

Kelly Koenig, Associate Superintendent

Phone: (602) 364-2811

A.R.S. § 15-531-15-551, 15-919-15-920, P.L. 107-110

Mission:

To promote attainment of high academic achievement for all students through implementation of valid and reliable assessments and accurate measurement of school and student performance.

To increase student academic achievement through strategies to: improve the quality and effectiveness of teachers, principals, and other school leaders in addition to providing services to educators to assist them in obtaining and maintaining their Arizona Educator Certification.

To measure, support, and seek to improve LEA and school systems in order to significantly increase and sustain quality outcomes for Arizona students.

Description:

The Accountability and Assessment program focuses on improving student achievement through development and administration of valid and reliable assessments and report academic outcomes in order to make informed decisions about students, classroom practice, schools, and districts in Arizona. Support and Innovation provides support and intervention services to schools seeking to improve student achievement and academic outcomes as required by State and Federal Accountability Systems.

The Accountability Section measures performance and quality of Arizona schools, as required by State and/or Federal laws. The section works closely with School Finance, IT, Assessments, and the State Board of Education, in order to accurately label schools in a fair, transparent, and systematic manner. Accountability staff support schools, districts, and other stakeholders through appropriate and effectively reporting student outcome data for over 1 million students enrolled in almost 2000 charter and district schools throughout Arizona.

The purpose of Title I-Improving the Academic Achievement of the Disadvantaged of the Every Student Succeeds Act (ESSA) is to “provide all children significant opportunity to receive a fair, equitable, and high-quality education and to close educational achievement gaps”. Title I provides technical assistance, service and support to local educational agencies (LEAs) and schools to help ensure every child has access to an excellent education.

The Certification Unit at the Arizona Department of Education provides services to educators to assist them in obtaining and maintaining their Arizona Educator Certification. Educators are certified in a myriad of areas which include Early Childhood, Elementary, Secondary, CTE, STEM, Arts, Physical Education, Administration, Special Education, Adult Education and others as well as adding approved content areas and endorsements. The unit also assists out-of-state educators in obtaining Arizona Certification as well as supports Human Resource departments through staff training and facilitating on-site certification events to meet the needs of their educators.

Effective Teachers and Leaders (Title II-A) is responsible for increasing student academic achievement through strategies to: improve the quality and effectiveness of teachers, principals, and other school leaders; increase the number of teachers, principals, and other school leaders who are effective in improving student academic achievement in schools; and provide low-income and minority students greater access to effective teachers, principals, and other school leaders. Effective Teachers and Leaders staff work closely with Local Educational Agencies (LEAs) to provide guidance, strategies, and resources to:

- Improve the effectiveness of teachers and leaders
- Achieve equitable access to effective teachers
- Support targeted professional development based on identified needs
- Assist with the implementation of the Arizona Framework for Measuring Educator Effectiveness

Support and Innovation seeks to improve LEA and school systems in order to significantly increase and sustain quality outcomes for Arizona students. The unit drives academic reform, promoting systemic change through on-site visits and desktop supports to LEAs and schools as well as a variety of professional learning opportunities. Support and Innovation actualizes systemic change in LEAs and schools by supporting the creation and sustaining of a culture of learning; planning and implementing of evidence-based Integrated Action Plans based on a comprehensive needs assessment and root cause analysis; growth of bold, turnaround leaders who significantly influence student learning, as well as, other aspects of school conditions; an instructional focus with processes and supports for teacher collaboration to constantly improve and refine standards-based, evidence based instructional and assessment practices; and data driven

decision making with consistent processes for using data in all decisions as well as to measure both program implementation and student outcomes.

The purpose of the Title IV-A Student Support and Academic Enrichment (SSAE) grant is to improve students’ academic achievement by increasing the capacity of States, local educational agencies, schools, and local communities to provide all students with access to a well-rounded education, improve school conditions for student learning, and improve the use of technology in order to improve the academic achievement and digital literacy of all students.

The Gifted Education program provides leadership and assistance to Arizona public schools in providing appropriate gifted education services K-12 for their gifted and advanced learners (approximately 8% of Arizona’s public school population), so they may develop and achieve according to their abilities and potential. The Advanced Placement Program provides leadership and assistance to Arizona public schools in expanding access to, and success within, advanced placement programs for all learners, so they may develop and achieve according to their abilities and potential, and to ensure that all Arizona learners graduate college and career ready.

The mission of the Arts Education program is to provide support to Arts educators, classroom teachers, school and district administrators, and Arts stakeholders – including Arts and education organizations, community groups, and service organizations – so that every student has the opportunity to experience the power and beauty of the Arts, and the joy, creativity, and intellectual stimulation that instruction in the Arts provides.

A.R.S. § 15-531-15-551, 15-919-15-920, P.L. 107-110	

Mission:

To improve student achievement in public education through high quality professional learning, educator certification, credentialing, and evaluation systems that support effective teachers and administrators.

Description:

The Educator Excellence Section, within the Student Achievement and Educator Excellence Division consists of the following units: Effective Teachers and Leaders and Certification.

The Effective Teachers and Leaders unit is responsible for overseeing the implementation of ESSA federal legislation for achieving the goal of having an effective teacher in every classroom, achieving equitable access to effective teachers, working collaboratively with stakeholders and Institutions of Higher Education to design and implement a rigorous professional preparation program approval process and rigorous educator assessments based on the AZ professional educator standards, providing guidance/technical assistance to LEAs while reviewing and approving Title II-A grant applications and revisions, assisting LEAs with meeting federal and state requirements for principal and teacher evaluation, and overseeing pay for performance initiatives.

Additionally, the unit oversees and administers the Teacher Professional Development Scholarship to certified teachers in the state to be utilized to gain additional credentials and certifications to teach in math, science, technology, engineering and career and technical education. Each \$2000 scholarship is designed to increase the teaching pool for these high-need content areas.

The Certification unit certifies teachers, administrators, speech language pathologists, speech language technicians, school psychologists and guidance counselors. The unit provides technical assistance regarding certification statutes and state board rules to the field in the form of on-site visits, phone calls, counter service and emails. The Certification unit also implements new certification rules that have been created through legislation and State Board rule.

K-12 ACADEMIC STANDARDS

Jonathan Moore, Deputy Associate Superintendent
 Phone: (602) 364-2810
 A.R.S. § 15-704, P.L. 107-110

Mission:

To provide Arizona’s educators with professional learning opportunities and resources that support best practices for standards-based teaching and learning for all students.

Description:

The K-12 Academic Standards section provides leadership in the development of the state’s academic standards as well as support and provide assistance to schools in implementing the standards as adopted by the Arizona State Board of Education. We currently provide support for the following academic standards:

- Mathematics
- English Language Arts
- Science
- Social Studies
- World and Native Languages
- Health Education
- Physical Education
- Educational Technology
- The Arts
- Computer Science

ADE-sponsored professional development and technical assistance in implementing Arizona’s content standards are offered regularly for school/district teams, curriculum consortiums, and various stakeholder groups throughout the state to ensure that all teachers and administrators have the necessary skills and knowledge to teach Arizona’s standards effectively. In addition to academic standards, our section also provides leadership in the implementation of the following programs and initiatives:

- Move on When Reading (MOWR)
- The Early Literacy Grant
- The Excellence in Civic Engagement Program
- The Seal of Biliteracy
- The Rural STEM Grant Program Fund
- The Balanced Assessment Framework
- Formative Assessment and Instruction
- Multi-Tiered Systems of Support (MTSS)
- Presidential Awards for Excellence in Mathematics and Science Teaching
- Student-Teacher Course Catalog Assistance
- The Seal of Personal Finance
- The Seal of Civic Literacy
- The American Civics Education Pilot Program
- The Computer Science Professional Development Program Fund
- USDOE Mathematics and Science Partnership grant (ends 2018)

The K-12 Academic Standards section also administers the State Tutoring fund, which represents the program available to all pupils in a school assigned a letter grade of D or F.

A.R.S. § 15-715, 15-771, 15-901.02, 15-1251, P.L. 107-110

Mission:

To provide leadership and support to schools, organizations, educators, families, and communities in implementing programs that assist all children from birth through age 8 years to become successful lifelong learners.

Description:

The Early Childhood Education section provides professional support to Arizona’s early childhood educators and also participates in multiple partnerships designed to create quality learning environments and opportunities for young children. Specifically, this section focuses on programs that include Preschool Special Education programs for children ages 3 to 5 years old with disabilities, Head Start programs, Preschool Development Grant funded classrooms, and Title I preschools. Content specialists in this section also provide professional development support to LEAs with kindergarten through grade three programs. The Early Childhood Education section supports school readiness and early learning success by encouraging the implementation of high quality program guidelines and educational standards. Local community programs are provided access to resources, on-site support, funding, and opportunities for professional development to promote developmentally appropriate learning environments.

TITLE III - OELAS

Kate Wright, Deputy Associate Superintendent

Phone: (602) 542-9689

A.R.S. § 15-241, 15-751-756.01-.13, 15-910, 41-1279.03, P.L. 107-110

Mission:

To be a critical partner invested in EL and MEP student success, using expertise and the cumulative experience of the practitioners in Arizona to guide LEAs, teachers, and families in compliant and effective ways to support the high achievement of EL and MEP students.

Description:

The Office of English Language Acquisition Services (OELAS) was formally established on September 21, 2006, pursuant to A.R.S 15-756.07. This subprogram is authorized under the federal Every Student Succeeds Act of 2015 (ESSA) and the federal Civil Rights Act to provide technical assistance to local educational agencies for their English Language Learner (ELL) students. In addition, pursuant to A.R.S. § 15-751 through A.R.S. § 15-756.01, each school with enrolled ELL students must provide programs that allow these students to develop their skills in the English language and to give them the opportunity to meet Arizona Academic Standards.

The assistance the subprogram provides to LEAs consists of the following: (1) Providing notification to local educational agencies of their requirements/responsibilities for compliance under federal and state statutes; (2) Providing notification to local educational agencies of their requirements/responsibilities in regards to Arizona Department of Education policy and as described under the Flores lawsuit; (3) Providing methods/technical assistance to local education agencies for identifying, assessing, reassessing, reclassifying, and reporting on ELL students; (4) Providing information, materials, resources, and strategies for Structured English Language Immersion models; and (5) Providing professional development opportunities for teachers and administrators to ensure ELL student attainment of English language proficiency and academic achievement through the use of Structured English Language Immersion (SEI) models, the state Compensatory Instruction Fund, Title III funding, and providing technical assistance for SEI budget calculation and submission; (6) Review and approve continuous improvement plans in ALEAT to ensure required Title III components have been addressed; (7) Review and recommend for Arizona State Board approval of SEI Endorsement Coursework.

Migrant Education:

The Migrant Education Program is a federally funded, state-operated program under the Elementary and secondary Education Act (ESEA) that provides supplemental program services to the children, ages 3 through 21, of seasonal or temporary agricultural workers. In Arizona, the program delivers services primarily through local educational agencies (LEAS) that design programs to meet the unserved needs of children residing in their area. To facilitate broader services, some provisions are delivered through statewide models which, in particular, are designed to meet the credit accrual and informational needs for students.

ACCOUNTABILITY AND ASSESSMENT

Kelly Koenig, Associate Superintendent

Phone: (602) 364-2811

A.R.S. § 15-241, 15-741-15-747, 15-809, P.L. 107-110

Mission:

To promote attainment of high academic achievement for all students through implementation of valid and reliable assessments and accurate measurement of school and student performance.

To increase student academic achievement through strategies to: improve the quality and effectiveness of teachers, principals, and other school leaders in addition to providing services to educators to assist them in obtaining and maintaining their Arizona Educator Certification.

To measure, support, and seek to improve LEA and school systems in order to significantly increase and sustain quality outcomes for Arizona students.

Description:

The Accountability and Assessment program focuses on improving student achievement through development and administration of valid and reliable assessments and report academic outcomes in order to make informed decisions about students, classroom practice, schools, and districts in Arizona. Support and Innovation provides support and intervention services to schools seeking to improve student achievement and academic outcomes as required by State and Federal Accountability Systems.

The Accountability Section measures performance and quality of Arizona schools, as required by State and/or Federal laws. The section works closely with School Finance, IT, Assessments, and the State Board of Education, in order to accurately label schools in a fair, transparent, and systematic manner. Accountability staff support schools, districts, and other stakeholders through appropriate and effectively reporting student outcome data for over 1 million students enrolled in almost 2000 charter and district schools throughout Arizona.

The purpose of Title I-Improving the Academic Achievement of the Disadvantaged of the Every Student Succeeds Act (ESSA) is to “provide all children significant opportunity to receive a fair, equitable, and high-quality education and to close educational achievement gaps”. Title I provides technical assistance, service and support to local educational agencies (LEAs) and schools to help ensure every child has access to an excellent education.

The Certification Unit at the Arizona Department of Education provides services to educators to assist them in obtaining and maintaining their Arizona Educator Certification. Educators are certified in a myriad of areas which include Early Childhood, Elementary, Secondary, CTE, STEM, Arts, Physical Education, Administration, Special Education, Adult Education and others as well as adding approved content areas and endorsements. The unit also assists out-of-state educators in obtaining Arizona Certification as well as supports Human Resource departments through staff training and facilitating on-site certification events to meet the needs of their educators.

Effective Teachers and Leaders (Title II-A) is responsible for increasing student academic achievement through strategies to: improve the quality and effectiveness of teachers, principals, and other school leaders; increase the number of teachers, principals, and other school leaders who are effective in improving student academic achievement in schools; and provide low-income and minority students greater access to effective teachers, principals, and other school leaders. Effective Teachers and Leaders staff work closely with Local Educational Agencies (LEAs) to provide guidance, strategies, and resources to:

- Improve the effectiveness of teachers and leaders
- Achieve equitable access to effective teachers
- Support targeted professional development based on identified needs
- Assist with the implementation of the Arizona Framework for Measuring Educator Effectiveness

Support and Innovation seeks to improve LEA and school systems in order to significantly increase and sustain quality outcomes for Arizona students. The unit drives academic reform, promoting systemic change through on-site visits and desktop supports to LEAs and schools as well as a variety of professional learning opportunities. Support and Innovation actualizes systemic change in LEAs and schools by supporting the creation and sustaining of a culture of learning; planning and implementing of evidence-based Integrated Action Plans based on a comprehensive needs assessment and root cause analysis; growth of bold, turnaround leaders who significantly influence student learning, as well as, other aspects of school conditions; an instructional focus with processes and supports for teacher

collaboration to constantly improve and refine standards-based, evidence based instructional and assessment practices; and data driven decision making with consistent processes for using data in all decisions as well as to measure both program implementation and student outcomes.

Audra Ahumada, Deputy Associate Superintendent
 Phone: (602) 542-5450
 A.R.S. § 15-741 - 15-742, P. L. 107-110

Mission:

To develop and administer valid and reliable student assessments aligned to adopted State standards.

Description:

The Assessment Section develops, administers, and provides score reports for statewide assessments that meet both state and federal statutory requirements for student assessment. The assessments are developed in collaboration with Arizona educators, following nationally accepted scientific-based methods to produce valid and reliable assessments. The Assessment Section also creates support materials to help educators, parents, and students understand and prepare for these statewide assessments. The Assessment Section is responsible for:

- AzMERIT and AIMS Science which are statewide academic assessments that measure student proficiency of the Arizona content standards.
- MSAA and AIMS A Science which are statewide academic assessments for students with significant cognitive disabilities.
- AZELLA which measures English language proficiency of students identified as second language learners and determines placement for appropriate instruction.

In addition, the Assessment Section supports the administration of National Assessment of Educational Progress (NAEP) and the international assessments PIRLS, PISA, and TIMSS. These assessments are given to small samples of Arizona students.

The Assessment Section collaborates closely with numerous other sections within ADE: Accountability, K-12 Standards, Office of English Language Acquisition Services (OELAS), Exceptional Student Services (ESS), and Informational Technology (IT).

ADULT EDUCATION
Sheryl Hart, Deputy Associate Superintendent Phone: (602) 364-2707 A.R.S. § 15-234, 15-702, P.L. 105-220

Mission:

To serve Arizona’s education community by ensuring adult learners have access to education that prepares them for success in college, career, and life.

Description:

The Adult Education subprogram provides adult learners who are at least 16 years of age, legally present in the United States and not currently enrolled in the public K-12 school system, access to quality educational opportunities that will support them in their employment, job training, and higher education aspirations. This subprogram also assists adult learners in acquiring the knowledge and skills necessary for effective participation in society.

Adult Education, one of four core programs authorized under the Workforce Innovation & Opportunity Act (WIOA), coordinates with Workforce Development, Employment Services and Vocational Rehabilitation Services to provide learner-centered instruction below post-secondary levels to adult learners in one or more of the following areas: 1) English Language Acquisition, 2) Adult Basic Education, 3) Adult Secondary Education, including preparation for testing to obtain a High School Equivalency diploma, 4) Civics engagement, 5) Workforce preparation skills, and 6) Digital literacy skills.

To provide military and emergency management capabilities to the citizens of Arizona and the nation.

Description:

The Department of Emergency and Military Affairs (DEMA) is commanded by the Adjutant General of Arizona and consists of the Army National Guard, Air National Guard, Joint Task Force-AZ, Division of Emergency Management, and Division of Administrative Services. Collectively, these components provide military and emergency management capabilities and services to the citizens of Arizona at three distinct levels: community, state, and federal.

These components utilize State and federal resources to perform homeland defense and emergency management activities to protect the citizens of Arizona, provide trained military units in support of civil authorities for domestic emergencies, and support federal combatant commanders for national defense and homeland security missions.

EMERGENCY MANAGEMENT

Wendy Smith-Reeve, Director
Phone: (602) 464-6379
A.R.S. § 26-301 et seq.

Mission:

To coordinate emergency services and the efforts of governmental agencies to reduce the impact of disasters on persons and property in Arizona.

Description:

The Division of Emergency Management directs and coordinates a statewide Comprehensive Emergency Management program to minimize personal and property losses from natural and human-caused disasters. This is accomplished through numerous preparedness, response, recovery, and mitigation activities and programs. The Division has been organized along functional and statutory lines into three sections: Preparedness, Operations and Coordination, and Grant Administration.

This Program Contains the following Subprograms:

- ▶ Mitigation and Preparedness
- ▶ Response and Recovery

MITIGATION AND PREPAREDNESS

Wes Dison, Assistant Director
Phone: (602) 464-6262
A.R.S. § 26-305

Mission:

To reduce or eliminate the loss of life and loss of property due to disaster and to prepare state agencies and local emergency management organizations to respond to, recover from, and mitigate disasters through planning, training, and exercise activities.

Description:

The Preparedness element is managed by the Preparedness Section and serves three main functions; technical assistance for the development of state and local emergency operations plans; training for emergency managers, elected officials, and first responders; and exercising the capabilities of state and local government. These activities will increase the overall capability to respond to, recover from, and mitigate disasters and thereby reduce the impact of disasters.

The Mitigation element integrates several funding programs managed by the Grant Administration Section that reduce repetitive losses caused by disaster by managing structural and non-structural projects that eliminate losses. The mitigation group provides technical assistance to political subdivisions to develop mitigation plans, analyze vulnerabilities, and to assess risks to support land use decisions.

RESPONSE AND RECOVERY

Anthony Cox, Assistant Director
 Phone: (602) 464-6224
 A.R.S. § 26-306

Mission:

To coordinate the actions of federal, state and local jurisdictions to respond to and recover from disasters.

Description:

The Operations and Coordination Section, divided into Response, Recovery, and Field Operations, is responsible for the timely analysis of natural and man-made hazards, recovery operations and regional coordinator support during emergency events. Operations and Coordination Section provides real-time awareness and monitoring of incidents and response activities within the State of Arizona and FEMA Region IX, coordinates activities related to recovery operations and provides regional liaisons to our County partners.

The Grant Administration Section oversees the administration of several state and federal grants the Division receives to enhance emergency management capabilities throughout the state. The grants cover a wide range of activities, including training, exercises, planning, mitigation projects, infrastructure repairs, and emergency response and recovery efforts. As part of the administration of these grants, we offer information, technical assistance, and guidance on the grant processes, as well as develop policy for State-specific application, reporting, and reimbursement policies.

OIL & GAS

Timothy Franquist, Air Quality Division Director
 Phone: (602) 771-2300
 A.R.S. § 27,515, § 49-104, § 49-455

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

This subprogram supports the regulatory functions of the Oil and Gas Conservation Commission by administering permits for the drilling for and production of oil, gas, helium, carbon dioxide, and geothermal resources. The subprogram will also be responsible for the inspection of these well fields, compilation of oil, gas, geothermal, and helium production statistics, and to provide information to the exploration and development communities and the public.

VEHICLE EMISSIONS CONTROL

Timothy Franquist, Air Quality Division Director
 Phone: (602) 771-2308
 A.R.S. §§ 49-541 to 49-585

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

This subprogram supports ADEQ's mission by overseeing a contract with a private employer that implements a basic and enhanced emissions inspection program in the Tucson and Phoenix areas respectively to reduce emissions of air pollution from vehicles, thereby reducing concentrations of air pollution in these planning areas. This subprogram also issues permits to companies to inspect their own fleets of vehicles, and performs inspections to ensure compliance with all air pollution plans, statutes, rules, permits and the contract; and takes timely and appropriate action to remedy and prevent noncompliance.

Program Summary

WASTE PROGRAMS

Laura Malone, Waste Programs Division Director
Phone: (602) 771-2300
A.R.S. Title 49, Chapters 1, 2, 4, 5 & 6

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

The Waste Program carries out its mission by regulating solid and hazardous waste management and facilities, hazardous waste generators, waste tire management and facilities and underground storage tanks. The program issues permits; conducts inspections; approves closure activities; investigating and remediating soil and groundwater contamination with regulated and hazardous substances; administers funds; provides grants; and encourages recycling, reuse and other forms of pollution prevention; and administers the emergency response program.

This Program Contains the following Subprograms:

- ▶ Solid Waste
- ▶ Hazardous Waste
- ▶ Emergency Response
- ▶ UST and Leaking UST
- ▶ WQARF
- ▶ Voluntary Remediation
- ▶ Brownfields
- ▶ Federal Projects

EMERGENCY RESPONSE

Laura Malone, Waste Programs Division Director
 Phone: (602) 771-2300
 A.R.S. § 49-108; Title 49, Chapter 1, Article 2

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

The subprogram provides scientific support to ensure that the health, safety, and the environmental elements of the hazardous materials emergency management program are met. The Emergency Response Team (ERT) responds to environmental emergencies (e.g., highway crashes, oil and gas releases, facility malfunctions, etc.) to minimize and abate the impact these releases can cause to the public and environment. The ERT manages removal actions to protect human health and the environment. This is completed by either funding response actions directly or overseeing actions conducted by potentially responsible parties. Additionally, the ERT performs appropriate sampling for toxic and other harmful effects in areas that have been impacted by a chemical release or toxic fire.

UST AND LEAKING UST

Laura Malone, Waste Programs Division Director
 Phone: (602) 771-2300
 A.R.S. Title 49, Chapter 6

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

The subprogram assures the proper operation and maintenance of underground storage tank (UST) systems in the state of Arizona and maintains an inventory of these systems. This program is also responsible for overseeing the cleanup of soil and groundwater contamination from leaking underground storage tanks. The program conducts inspections, collects and maintains compliance data and pursues enforcement actions for significant non-compliance. In addition, the subprogram provides outreach and compliance assistance to owners and operators of USTs to keep them aware of current compliance requirements. The subprogram responds to complaints regarding UST sites and fully investigates any potential violations of Arizona's underground storage tank laws.

WATER QUALITY

Trevor Baggione, Water Quality Division Director
Phone: (602) 771-2303
A.R.S. Title 49, Chapter 2

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

The Water Quality Program ensures that regulated water systems deliver safe drinking water to customers; develops surface and groundwater quality standards; monitors and assesses the quality of surface and groundwater throughout the state; identifies water pollution problems and prepares plans to address them; regulates discharges to surface water and groundwater from wastewater treatment plants, mining operations, industrial facilities and stormwater through issuance of permits; investigates complaints and violations of Arizona's water quality laws, rules and permits; and works with federal, state and local partnerships within the state's watersheds to maintain and improve water quality.

This Program Contains the following Subprograms:

- ▶ Groundwater Protection
- ▶ Surface Water Protection
- ▶ Surface Water Quality Improvement Planning
- ▶ Safe Drinking Water
- ▶ Water Re-Use

GROUNDWATER PROTECTION

Trevor Baggione, Water Quality Division Director
Phone: (602) 771-2300
A.R.S. §§ 49-201 to 49-391

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

The Groundwater Protection Subprogram protects groundwater which is essential to Arizona's safe drinking water supplies. The Aquifer Protection Permit program is designed to protect groundwater quality in Arizona's aquifers by issuing permits to discharging facilities, conducting compliance inspections of permitted facilities and enforcing permit conditions. This program also registers drywells, reviews engineering design plans and issues construction approvals for on-site wastewater treatment facilities and sewage collections systems; and reviews subdivision plans to ensure adequate provision of water, wastewater and refuse services. The Groundwater Protection Subprogram also manages the pesticide contamination prevention program for agricultural use pesticides, monitors groundwater basins throughout the state and provides technical assistance to industry and the public.

SURFACE WATER PROTECTION
Trevor Baggiore, Water Quality Division Director Phone: (602) 771-2300 A.R.S. §§ 49-201 to 49-391

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

The Surface Water Protection subprogram protects water quality in Arizona's streams, rivers, lakes and wetlands from point source pollution. Point source discharges include wastewater treatment plants, concentrated animal feeding operations, mining operations, industrial and commercial facilities, and stormwater discharges from construction and industrial sites. The Arizona Pollutant Discharge Elimination System (AZPDES) program issues permits to point source discharging facilities, conducts compliance inspections of permitted facilities and enforces permit conditions.

SURFACE WATER QUALITY IMPROVEMENT PLANNING

Trevor Baggione, Water Quality Division Director
 Phone: (602) 771-2300
 A.R.S. §§ 49-201 to 49-391

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

The Surface Water Improvement subprogram develops surface water quality standards; monitors and assesses surface water quality; identifies water pollution problems and sources; develops Total Maximum Daily Load (TMDL) "pollutant budgets" and works with permitted facilities, local stakeholder groups and land management agencies to develop implementation plans to help waters meet their beneficial uses and attain water quality standards; provides funding to support projects to reduce nonpoint source pollution from activities including agriculture, forestry, mining and recreation; conducts effectiveness monitoring to measure the effectiveness of implementation projects.

SAFE DRINKING WATER	
Trevor Baggione, Water Quality Division Director	
Phone: (602) 771-2321	
A.R.S. §§ 49-351 to 49-360	

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

The Drinking Water Regulation program is federally mandated to ensure regulated public water systems provide safe drinking water to their customers. The program regulates public water systems based on state drinking water rules that are continually updated to conform to federally promulgated regulations. Staff reviews water system construction plans, conducts compliance inspections on drinking water systems, reviews water quality monitoring data, initiates enforcement actions in response to continued or significant noncompliance, and conducts outreach to educate stakeholders on regulatory requirements. The program also evaluates source waters to ascertain their susceptibility to contamination, promotes voluntary community programs aimed at protecting aquifers for drinking water use, and administers the monitoring assistance program to assist public water systems in complying with monitoring requirements under the federal safe drinking water act.

WATER RE-USE

Trevor Baggione, Water Quality Division Director
 Phone: (602) 771-2300
 A.R.S. § 49-203 (A) (6)

Mission:

To protect and enhance public health and the environment in Arizona.

Description:

The Reuse Water Regulation Program permits the beneficial use of treated wastewater from wastewater treatment plants. Use of this reclaimed water allows Arizona to conserve potable water sources for human consumption and domestic uses. The program regulates reclaimed water conveyances, issues general and individual permits to end users of reclaimed water, conducts compliance inspections of permitted facilities, and enforces permit conditions. Reclaimed Water Quality Standards are specified for five classes of reclaimed water. Standards are expressed as a combination of minimum treatment technology requirements and a limited set of numeric reclaimed water quality criteria.

Agency Summary

ECONOMIC OPPORTUNITY

Sandra Watson, Interim Director
Phone: (602) 845-1215
A.R.S. § 41-5301

Mission:

To improve Arizona's workforce and business climate through data-driven policy-making and effective workforce and economic development initiatives.

The Arizona Finance Authority is a one-stop resource for financing, supporting, expanding, and relocating businesses, communities' infrastructure needs, and first-time homebuyers. The AFA is committed to providing a streamlined, predictable process to help homebuyers receive affordable financing.

Description:

Laws 2016, Chapter 372 created three new governmental entities: The Office of Economic Opportunity (OEO), the Arizona Finance Authority (AFA), and the Arizona Industrial Development Authority (AZIDA). AFA is established in OEO and the AFA board serves as the board of AZIDA. The following agency budget includes all three entities' funding, though each is an operationally unique unit.

The Office of Economic Opportunity coordinates Arizona's workforce planning with economic development, supports the Workforce Arizona Council, and provides economic, demographic, regulatory, and tax research and analysis, at both the state and local level.

OEO's responsibilities will be to:

Pursue a strategy of engaging the business community to determine their immediate and future needs, and coordinate with the economic development community and workforce system to address gaps.

Systematically review and analyze the State's tax and regulatory provisions to ensure Arizona has the least burdensome government possible.

Produce the authoritative source of economic and demographic data in Arizona.

Apply data analytics to create new data products that inform outreach, education, and collaboration with our partners and stakeholders.

AFA is established in OEO and includes the Water Infrastructure Finance Authority (WIFA) and the Greater Arizona Development Authority (GADA), in addition to being the State recipient of private activity bonding authority. AFA oversees the Arizona Industrial Development Authority which is the State issuer of private activity bonds. AFA also offers homebuyer assistance programs to help first-time homebuyers.

WIFA finances the acquisition, construction, rehabilitation, and improvement of drinking water, wastewater, wastewater reclamation, and other water projects.

GADA helps lower the costs of financing for local governments and tribal entities on debt incurred for infrastructure development and construction.

AZIDA is a non-profit corporation designated as a political subdivision of the State that issues both taxable and tax-exempt bonds for commercial activities.

5 Year Plan

Issue 1 Arizona compares unfavorably to the rest of the nation in unemployment and labor force participation, while paradoxically, the business community complains of a shortage of trained workers with relevant skills. The Office will pursue a strategy of engaging the business community to determine their needs then engaging in constant coordination of the many partners in system to address gaps.

Description

Solutions:

Issue 2 The State has a taxation and regulatory environment that lacks systematic review and analysis that facilitates the least burdensome government possible. The Office will establish the relevant processes and data products to enable policy maker's high quality decision needs.

Description

Solutions:

Issue 3 There is a scarcity of relevant workforce data that can be used to drive the decision making processes of the business community, policy makers, workforce professionals, and job seekers. OEO will create new data products, provide more effective outreach to our partners, and make data driven policy analysis and recommendations that address our stakeholders' immediate and future needs.

Mission:

Description:

The Arizona Finance Authority (AFA) is a one-stop finance shop established in the Office of Economic Opportunity that includes the Water Infrastructure Finance Authority (WIFA) and the Greater Arizona Development Authority (GADA). WIFA is an independent entity authorized to finance the construction, rehabilitation and/or improvement of drinking water, waste water, waste water reclamation, and other water quality facilities/projects. As a "Bond Bank", WIFA is authorized to issue water quality bonds on behalf of communities for basic water infrastructure. Generally, WIFA offers borrowers below market interest rates on loans for 100% of eligible project costs. GADA assists local communities and tribal governments in developing and financing public infrastructure projects. The AFA also authorized the creation of the Arizona Industrial Development Authority (AZIDA), in accordance with Laws 2016, Chapter 372.

Agency Summary

STATE BOARD OF EQUALIZATION

George Shook, Acting Chairman
Phone: (602) 364-1601
A.R.S. §§ 42-16151 et al.

Mission:

To provide an independent appeal process for taxpayers, county assessors, and the Department of Revenue in disputes relating to the valuation and classification of property for ad valorem tax purposes. Consistent with this responsibility, the Board provides a venue of non-judicial hearings in which taxpayers are afforded due process of law in matters concerning the valuation and classification of their respective properties.

Description:

The State Board of Equalization is comprised of 41 members: 21 (including the chairman) appointed by the Governor and 10 each from Maricopa and Pima counties (appointed by the boards of supervisors of those counties). The Board of Equalization's jurisdiction is primarily over locally assessed real and personal property in Maricopa and Pima counties. Under A.R.S. § 42-14001 et al., the Board's authority extends to centrally assessed property statewide. By statute, the Board also can provide hearing officer services for outlying counties; currently, the Board provides services to Mohave, Pinal, Santa Cruz, and Yavapai counties. The Board, formerly Division I of the State Board of Tax Appeals, was created on August 1, 1995, through a consolidation of the property valuation and classification appeals process.

5 Year Plan

Issue 1 Modernize the Board's Information Technology system for efficiency, accuracy, simplification for ease of use, security compliance and compatibility with stakeholder systems.

Description The Board is currently using a custom application utilizing software that is no longer supported by Microsoft. A newer application has been written in a .NET web based format which is currently supported by Microsoft. The newer application requires enhancements for ease of use and security compliance. The older application, FoxPro, has many user interface features which lend to more efficient operations than the web based application. Enhancements to the .NET application are ongoing and much progress has been made to achieve a high level of confidence that will be a future cost saving operation. The .NET application will meet current IT security compliance.

Solutions:

1.1 Funding for the enhancements to the .NET application is not an issue at this phase of the project. The Board is currently having reduced expenditures due to the reduced amount of appeals. Board resources will be redirected to absorb initial costs of analysis, exploratories and initial enhancements.

Issue 2 Information Security must be upgraded.

Description This agency will upgrade and update all hardware and software to the latest technology required to implement the State's Information Security plans.

Solutions:

1.1 The Board will utilize all state ASET available assets and resources to become compliant with all information security requirements.

Issue 3 Create and maintain a permanent hearing room in the capital Annex building at 400 W. Congress, Tucson, AZ. This project is 95% complete for FY 2019.

Description This project resulted from the opportunity to obtain space at the location where all appeals in Pima County take place. Prior to having a permanent room the Board was only able to obtain hearing rooms from other agencies at the times those rooms were not being used by the that agency. This was a logistics burden and created a dependency for use of personnel from a gratuitous agency to set up the rooms for hearings and returning files back to Phoenix.

Solutions:

Use of vacancy savings and operational savings allows for the funding of this project without requiring a request for supplementing funds. The project will be enhanced over a two-year period. The room will be furnished, over time, with items obtained from Arizona's Surplus Property.

Agency Summary

BOARD OF EXECUTIVE CLEMENCY

Ellen Kirschbaum, Executive Director
Phone: (602) 542-5646
A.R.S. §§ 31-401 et seq.

Mission:

To protect public safety and contribute to a fair and effective justice system by ensuring that persons who remain a threat to society remain incarcerated and persons who no longer present a risk are released to become productive citizens.

Description:

The Board of Executive Clemency is a five-member board appointed by the Governor and is statutorily empowered to make decisions regarding:

- (a) discretionary release of those inmates who are eligible for parole and/or home arrest (inmates whose crimes were committed on or before December 31, 1993);
- (b) revocation of parole (or community supervision for crimes committed on or after January 1, 1994) for offenders found to be in violation of the terms and conditions of their release;
- (c) absolute discharge from parole; and
- (d) modification of release conditions and release rescissions.

The Board also makes clemency recommendations to the Governor on requests for commutation of sentence, including death penalty sentences; reprieves in matters related to death penalty cases; and pardons.

Funding:	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>

Total Funding	893.4	1,167.1	1,167.1
FTE Positions	14.5	14.5	14.5

5 Year Plan

Issue 1 The agency's inability to meet hearing time-frames in a timely manner.

Description Case law establishes a goal of holding revocation hearings within 60 days after a parolee or individual on community supervision has been arrested and returned to the Arizona Department of Corrections's custody. Court Case: "Morrissey Vs. Brewer, No. 71-5103 in 1972.

Solutions:

The Board is now meeting this issue by conducting revocation hearings within the 60 day timeframe.

Issue 2 Maintaining on-going staff training and development in efforts to conduct daily operations seamlessly.

Description AZBOEC is considered a very small sized agency. The volume of daily work in preparation of hearings conducted Monday through Thursday creates difficulty at times when employees are out for annual and/or sick leave. Cross-training is essential.

Solutions:

Procedural Manuals have been created for each areas job functions - manuals can be accessed at anytime for reference and training processes.

- 1) Frontline staff will shadow each respective area function - this shadowing/training is throughout the year.
- 2) Hold regular weekly staff meetings in which updates are shared and experienced.
- 3) Staff are encouraged to participate in state organized training sessions to help enhance and/or develop professional skill levels.

Issue 3 Establish continuous board member training and development

Description Board members are appointed by the Governor for a 5-year term; one board member from within the panel of five is also appointed as Chairman for a 2-year term. The panel of board members changes as each term is up and/or the Chairman is switched out. The need to train members that are on-boarding is critical in their decision-making process. Members must know and understand the relevant statutes that pertain to clemency and revocation hearings. Policies and statutes change over time which necessitates regular training in order to appropriately address these changes and updates.

Solutions:

- 1) Refer to and utilize the board member policies and procedures manual. In addition, new member's receive a training manual that contains sample case law, current statutes, and other training documents.
- 2) At first appointment to the Board, there will be a comprehensive study and training period of four weeks prior to the board member to fully participate in hearing procedures.
- 3) At first appointment to the Board, the new appointee will meet with the agency counsel specific to getting familiar with State law and relevant case law pertaining to Board hearings.
- 4) Board members will participate in formal national trainings specific for parole boards.
- 5) The Board will participate in at least one training per quarter for continuing education.

Issue 4 Enhance the Board's decision-making process.

Description Establish a structured decision-making process, which will provide a solid base for board members to form independent thoughts, opinions, and ultimately prudent decisions for each hearing. Moving toward a more structured decision-making process will help the Board meet its mission to ensure public safety.

Solutions:

- 1) Develop/enhance best practices utilizing a Structured Decision-Making Model (Arizona specific) as a guide to provide a basic framework for making decisions that more accurately predict outcomes.
- 2) The created standard will be incorporated into the Board's training manual for reference, routine and consistent board training sessions.

EXPOSITION AND STATE FAIR BOARD

Wanell Costello, Executive Director
Phone: (602) 252-6771
A.R.S. § 3-1001

Mission:

To provide opportunities for all Arizonans to celebrate the state's heritage, industry, traditions, and future.

Description:

The Arizona Exposition and State Fair (AESF) is a 96-acre entertainment facility that showcases a variety of events, including one of the preeminent state fairs in the country. The AESF, which owns the property and buildings it occupies, rents its facilities to a variety of tenants and promoters, such as the Arizona National Livestock Show and the Maricopa County Fair. The AESF provides a location to showcase industry, agriculture, education, and entertainment for the enjoyment of Arizona citizens.

5 Year Plan

Issue 1 Funding facility improvements

Description Given a large, aging facility, the Arizona Exposition and State Fair (AESF) must constantly perform building renewal and capital improvement projects on the Fairgrounds in order to maintain functionality, keep it viable for rental, and ensure the safety of the visiting public. AESF has 26 structures and approximately 80 acres of parking lot/grounds to maintain, covering a total of 96 acres.

Solutions:

AESF plans to tackle large projects in a multi-phase method, as it can afford over the next five years. Projects will be prioritized by health, safety and welfare of guests, stakeholders and employees, then by business operational needs. AESF contracts with ADOA’s General Services Division for large project management. Projects will then be broken into phases based on financial resources available and the greatest priority within each project on a case-by-case basis. AESF’s capital maintenance and improvement plan’s execution is contingent upon available funds and sufficient appropriation.

Issue 2 Improve the Fair’s product

Description Given a land-locked location at 19th Avenue between Grand, McDowell, Encanto and 19th Avenue, the Arizona State Fair (ASF) is limited in ways it can expand its current operations to offer more entertainment and better entertainment to our customers. As a self-funded state agency, and to ensure future operation, the Fair must continue to innovate to maintain the existing customer base, as well as appeal to a new generation of Arizonans to add them as new customers. Innovation at the current location requires investment in the Fair product.

Solutions:

The most effective way to currently grow the Fair’s offerings is to increase revenues so ASF can afford better quality entertainment and more entertainment overall. The strategy to increase Fair revenues involves increasing overall attendance, which has a positive effect on parking, gate admissions, food percentage, and ride revenue streams. AESF intends to increase attendance by attracting new visitors, increasing repeat visits with current guests, creating attractive promotions, and offering exciting entertainment options. In addition, ASF plans to continue to identify new revenue streams and partner with local businesses in sponsorship and vendor opportunities.

STATE DEPARTMENT OF FINANCIAL INSTITUTIONS

Robert D. Charlton, Superintendent of Financial Institutions
 Phone: (602) 771-2770
 A.R.S. § 6-110

Mission:

To license, examine, and supervise financial institutions, in compliance with State law, to ensure safety for the Arizona consumer and soundness for Arizona businesses.

Description:

The Department of Financial Institutions (DFI) licenses, supervises, and regulates State-chartered financial institutions and enterprises to ensure the safety and soundness of these financial entities, and verifies compliance with State and federal laws. DFI also serves Arizona citizens by investigating complaints that are filed by consumers against licensed individuals and entities and applies appropriate remedial action when the violations are substantiated.

5 Year Plan

Issue 1 Modernize the Department's Information Technology system for efficiency and accuracy, while providing the confidentiality required in the Financial Industry.

Description The Department is currently dependent on a licensing system that has been in use since 1996. The system is slow, antiquated and generally behind the technology used by all licensed industries for DFI. Due to the system weaknesses, current work practices involve many undocumented "shadow" systems for tracking work items and creating reports. A project to implement an integrated electronic content management system is currently underway.

Solutions:

1.1 Complete remaining phases of project to establish an integrated and secure electronic content management system that will support more efficient processes and allow for web based applications

1.2 Eliminate roadblocks that prevent services from being offered electronically

1.3 Integrate Real Estate Appraisal licensing systems into the new e-licensing system

1.4 Commence and complete project to scan all Department back-files into the new e-licensing system

Issue 2 Meeting the requirements to conduct statutory examinations of Banks, Credit Unions, and Non-Depository Licensees.

Description The Department continues to face appropriated funding shortfalls, based on the resources required to perform the number of examinations and other regulatory activities required by Arizona statutes. DFI's revenue streams come exclusively from Arizona financial industry sources (i.e., licensing, examination, and annual assessments). The revenue generated from banks, credit unions, and licensees' fees and assessments should be used to underwrite the Department's operations. The intensifying complexities of the licensed industries and the increasing number of licensees have significantly out-paced the funds provided to perform the number of examinations and other regulatory responsibilities required by statute.

Solutions:

In combination with seeking additional funding, the Department will continue its efforts to build a more efficient organization that achieves both regulatory requirements and citizen and businesses expectations. Specifically, the Department will:

2.1 Continue to pursue establishing a more self-sustaining and efficient funding model to optimize the utilization of resources

2.2 Define and implement a plan to reduce regulatory red-tape and burden on the regulated community

2.3 Continue to establish efficiencies through the full deployment of the Arizona Management System (AMS)

Issue 3 Retaining, attracting, educating and retaining qualified and key Agency personnel.

Description The Department has been unsuccessful in its past efforts to obtain additional funding to provide examiners and other key personnel, promotional opportunities and more competitive salaries. In addition, although ongoing professional development is necessary for DFI staff to support the financial industry, lack of funding for affordable training has prevented DFI staff from timely and effective training programs to advance their knowledge base and career path. Excessive examiner turnover causes inefficiencies and can reduce DFI effectiveness; experienced examiners are easily recruited elsewhere with higher salaries. Retention of trained and experienced examiners is essential to the overall effectiveness of the Department's examination and supervisory responsibilities. With properly trained personnel, efficiencies can be met, employee satisfaction improves, and attracting replacement staff is more successful.

Solutions:

3.1. Develop and implement an agency-wide plan for employee development and succession

3.2 Continue to drive for an increase in the Department's budget to fund all promotional opportunities when earned by staff

3.3 Develop and implement an employee communication and recognition plan

3.4 Pursue all appropriate training strategies within budget confines

OFFICE OF REGULATORY AFFAIRS

Robert D. Charlton, Superintendent
Phone: (602) 771-2770
A.R.S. §§ 6-101 et. seq.

Mission:

To ensure qualified entities are licensed in accordance with statute and to promote high standards of compliance, quality, and ethical behavior among entities licensed by the Department.

Description:

The primary function of this area is to license entities to conduct business in this State based on statutory requirements. In addition, the program receives and investigates complaints against licensees and issues administrative orders to those found who have violated statutes or administrative code. Regulatory Affairs is also charged with educating consumers, licensees, and other government agencies on statutory provisions relating to state-regulated financial entities.

Effective July 3, 2015, the State Board of Appraisal was merged into the Department. Since then, Real Estate Appraisal operations have been reported as a sub-program of the Office of Regulatory Affairs. Effective Law 2017, Chapter 334 made conforming changes to various statutes regarding the department's real estate appraisal duties as a result of the agency consolidation. Among these changes was the elimination of the Board of Appraisal Fund. Licensing fee revenues will now be deposited in the General Fund rather than in the Board of Appraisal Fund. These new General Fund deposits will offset the new General Fund appropriation for the Real Estate Appraisal Division.

BOARD OF APPRAISAL

Robert D. Charlton, Superintendent
 Phone: (602) 771-2770
 A.R.S. §§ 32-3601 et seq. Articles 1-5

Mission:

To promote quality real estate appraisal in Arizona that protects the health, safety, and welfare of the public.

Description:

Real Estate Appraisal staff process the applications of those applying for real estate Trainee Appraiser registrations, Appraiser licenses, certifications, or designations for Supervisor Appraisers. In addition to these classifications, they also process the applications for Property Tax Agent registration and Appraisal Management Companies (AMCs). The staff assures that all candidates for appraisers and AMCs meet the requirements as set forth by the Appraisal Qualification Board of the Appraisal Foundation and are in compliance with Title XI, FIRREA and its revision in 2010 known as the Dodd-Frank Act. The Superintendent and staff act as a regulatory body to ensure conformity to the statutes, rules, and regulations governing the agency. In addition to protecting the interests of the general public, the staff provide services for Appraisers, appraisal course providers, Property Tax Agents, other state appraisal boards, and lending institutions.

Law 2017, Chapter 334 made conforming changes to various statutes regarding the department's real estate appraisal duties as a result of the agency consolidation. Among these changes was the elimination of the Board of Appraisal Fund. Licensing fee revenues will now be deposited in the General Fund rather than in the Board of Appraisal Fund. These new General Fund deposits will offset the new General Fund appropriation for the Real Estate Appraisal Division.

BOARD OF FINGERPRINTING

Matthew A. Scheller, Executive Director
Phone: (602) 265-3747
A.R.S. § 41-619.52

Mission:

To fairly, expeditiously, and responsibly consider applications for good-cause exceptions and central registry exceptions and determine whether applicants are rehabilitated from their history of criminal behavior or acts of child abuse or neglect.

Description:

The Arizona Board of Fingerprinting evaluates good-cause exceptions for people who require a fingerprint clearance card and whose fingerprint clearance cards have been denied or suspended by the Department of Public Safety. The Board also determines central registry exceptions for individuals who fail to clear a background check.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	0.0	0.0	0.0
Other Appropriated Funds	0.0	0.0	0.0
Other Non Appropriated Funds	589.1	618.7	643.6
Total Funding	589.1	618.7	643.6
FTE Positions	5.8	6.0	6.5

Issue 1 Timeliness and statutory time frames

Description The Board’s statutes require portions of the application process to be completed within specific time frames. A.R.S. § 41–619.55 requires the Board to comply with the following time frames.

- 20 days from receipt of application (which is defined in A.A.C. R13-11-104) to expedited review (which is the initial review by the Board of the application without the applicant being present)
- 45 days from expedited review to administrative hearing
- 80 days from administrative hearing to Board decision

In FY 2018, The Board Investigator exceeded the Board’s goal for the percentage of recommendations accepted. This very high acceptance rate makes Board meetings more efficient. The Board processes applications very efficiently even with the high number of applications received this Fiscal Year. Overall wait times for applicants continues to decline. The Board is nearing 100% compliance with all statutory time frames. The Board communicates with applicants effectively and efficiently based on the high level of applications completed on initial submission.

In upcoming fiscal years, the Board will continue to take steps to reduce the time for processing applications and achieve full statutory compliance in all areas. Reducing processing time will help return eligible applicants to work more quickly.

Solutions:

- Database and technology improvements to reduce the amount of time spent entering data
- Cross-training hearing officers to help cover the investigator's caseload during high-caseload periods
- Scheduling hearings more frequently to decrease applicant wait time

Issue 2 Improve e-government services

Description Government agencies have increasingly used new technology to improve the accessibility and ease of use of government services. Although there are some obstacles unique to the Board—for example, it receives documents from numerous agencies, especially in rural areas, that still rely on paper—the Board nonetheless believes that opportunities exist for electronic services. The Board is working on having its application processes available for submission online.

The Board believes that improving e-government services is necessary not just for the purpose of keeping up with dominant business-process trends but also to increase accessibility to applicants. The Board does not have the resources to establish field offices or to travel extensively, but some applicants live far from Phoenix and would benefit from the ability to attend meetings and hearings by videoconference. Expanding these services would limit the disproportionate impact on applicants who live far from Phoenix.

Solutions:

- Identify security and legal issues and, as necessary, receive ASET approval
- Work with ASET on a plan to migrate the Board application process to a web based interface
- Approve funding in budgets for future fiscal years

Issue 3 Review of statutes

Description A.R.S. §§ 41–1758.03 and 41–1758.07 identify the crimes that require the Department of Public Safety to deny or suspend a fingerprint clearance card. These lists of crimes were developed and modified primarily through collaboration among several state agencies: the Board, the Department of Public Safety, and the agencies that require fingerprint clearance cards. On occasion, these agencies have reviewed the lists to identify new needs and changes to the criminal code and have requested legislative changes and to identify areas where the statutes are not working well.

In 2012, the Legislature established a new function at the Board — central-registry exceptions. Since the establishment of the central registry exception, the Legislature has added new programs to the system of using Central Registry background checks. The statutes for the central-registry exception application process require periodic review and appropriate modification. The Board should review of the process and have a discussion with appropriate stakeholders.

Solutions:

- Hold regular meetings of stakeholders to discuss appropriate modification or clarification of statutes.

FORESTRY AND FIRE MANAGEMENT

Jeffery C. Whitney, State Forester
 Phone: (602) 771-1400
 A.R.S. §§ 37-1301 to 37-1426

Mission:

To manage and reduce fire risk to protect Arizona's people, communities, and wildland areas and to champion the health of Arizona's natural resources.

Description:

The Department of Forestry and Fire Management provides grants and other resources for the prevention and suppression of wildland fire on State Trust Land and on private property located outside incorporated communities. The Department also provides services through strategic implementation of cooperative natural resource and fire assistance programs; development and support of statewide fire policies; and coordination of resources across all lands and jurisdictions for fire prevention, urban and community forestry, forest stewardship, forest health, utilization and marketing, life safety, and property conservation.

5 Year Plan

Issue 1 To increase the acres treated under plan.

Description Increasing the effectiveness of its fuels mitigation and prevention programs to help reduce the impact of wildfires on communities.

Solutions:

- Increase the number of communities at risk with Firewise recognition.
- Increase the tons of forest products delivered to industry.
- Increase the acres treated in high risk areas.

Issue 2 To decrease the percentage of residences threatened by State jurisdiction wildfire that are destroyed by that wildfire.

Description Increasing the effectiveness of its fire response program to help reduce the numbers of primary residences impacted by wildland fire.

Solutions:

- Increase the percentage of wildland firefighting vehicles (engines and buggies) owned by the Department which didn't require major repairs during the month.
- Decrease the number of firefighter lost time injuries on Department jurisdiction fires.
- Decrease the number of unfilled wildfire firefighting personnel requests per month.

Issue 3 To decrease the average months between Fire Marshal inspections for jurisdictional facilities.

Description Increase the pass rates of facilities inspected by State Fire Marshals, which will lower the number of re-inspections and allow more buildings to be inspected more frequently, increasing safety in public buildings.

Solutions:

- Increase the percentage of facilities passing their regularly scheduled Fire Marshal inspection.

Issue 4 To increase the acres treated under plan.

Description Targeting its fuels and forest health program grants to high priority areas which will result in more impactful treatments that support the Department's fire prevention program.

Solutions:

- Increase the percentage of invasive species treatments conducted in high priority areas to support fire prevention efforts and improve natural resource health.
- Increase the millions of dollars allocated to grants to high priority areas to minimize fire risks and improve natural resource health.

Issue 5 To increase AMS Assessment Score and administrative program success.

Description Increasing agency efficiency and customer service through Arizona Management System implementation and projects.

Solutions:

- Reduce number of Cooperator bills that are unpaid by the target date.
- Deploy AMS throughout the Department.
- Identify and implement process improvements for core Department processes.

BOARD OF FUNERAL DIRECTORS AND EMBALMERS

Judith R. Stapley, Executive Director
Phone: (602) 542-8152
A.R.S. §§ 32-1301 et seq.

Mission:

To maintain and enforce a set of standards that provide protection for the health, safety, and welfare of Arizona citizens by educating consumers and actively and impartially regulating licensees that provide funeral goods and services.

Description:

The Board of Funeral Directors and Embalmers examines and licenses individuals that provide funeral goods and services. The Board also receives complaints against licensees, investigates allegations, and administratively adjudicates complaints. The Board oversees approximately 1,700 licensees practicing in the state and serves all Arizona citizens who receive funeral goods and services.

5 Year Plan

Issue 1 Seek rule moratorium exemption to amend several items directly related to going paperless and moving all processes online.

Description There are several rules that need to be changed in accommodating the Board's new E-Licensing process. There are many requirements for a notarized signature that could easily be replaced with online signatures or attestation.

Solutions:

The Executive Director will seek to have all rules amended that impede the online, paperless initiative.

Issue 2 Seek rule moratorium exemption to amend the current requirement for Continuing Education for licensed Funeral Directors and Embalmers.

Description Currently, licensed Funeral Directors and Embalmers are required to complete twelve hours of Continuing Education annually. This is not in line with national standards and should be reduced to six hours annually.

Solutions:

The Executive Director will seek to have rules amended to reduce the requirement for Continuing Education hours from twelve to six annually for licensed Funeral Directors and Embalmers.

Issue 3 Seek to fix the new E-Licensing database so that it is fully operational and secure.

Description In May of 2018, the Board of Funeral Directors and Embalmers went live with a new E-Licensing database. The database has not been fully functional since the initiation of the project. The Board continues to have issues with the database processing applications for licensure which are impeding the overall process. Additionally, the connections between the new database and the ability to pay for application online has been further frustrated, causing the licensed community to question whether or not their application or renewal was entirely complete. The way the database was implemented leaves Board staff unable to correct many of the problems that arise in the system as staff could not be granted administrator privileges. This results in the need for a ticket to be created and sent to ASET every time a problem needs to be addressed.

Solutions:

The Board will continue to work with ADOA ASET, the vendor, and all other Boards involved in this new online process in an effort to identify how to continue implementation of a working E-Licensing process that will benefit all users in the state. ASET is handling all negotiations with the vendor, utilizing their expertise in technology in an effort to correct the current inefficiencies, resolve problems, and assist the Boards.

Issue 4 Seek to provide better, more efficient communication with the licensed community.

Description Prior to the implementation of the new online process, the Board has not had the ability to utilize emails with the licensed community. This resulted in physical letters being mailed out each time a communication needed to occur with nearly 2000 licensees.

Solutions:

The Executive Director will work with the Engagement Manager at ASET, to set up the ability for mass communication in electronic form. The cost should be minimal and not require any budget appropriation to accomplish this.

Issue 5 Consideration of implementation of Alkaline Hydrolysis as another method of disposition.

Description Currently, there are nineteen states that recognize Alkaline Hydrolysis as a legal method of disposition. This issue is gaining momentum throughout the nation as the rate of cremation continues to increase. Arizona currently has a rate of 69% cremation that has had a steady increase over the last many years.

Solutions:

The Executive Director will continue to research the topic and work with local authorities to explore the possibility of implementing this method of disposition in Arizona. The Executive Director will attend a conference and inspect various equipment that is used in the Alkaline Hydrolysis process.

GAME AND FISH DEPARTMENT

Ty Gray, Director

Phone: (623) 236-7279

A.R.S. §§ 17-201 et seq.; 5-311 et seq.; 28-1176 et seq.

Mission:

To conserve and manage Arizona's diverse wildlife resources for safe, compatible, outdoor recreation opportunities for current and future generations.

Description:

The Department carries out its mandates under the policy direction of the Arizona Game and Fish Commission. State law mandates that the Department manage Arizona's wildlife resources, regulate watercraft use, and enforce off-highway vehicle laws. The Department enforces laws that protect wildlife, public health, and safety, and it provides safety education programs and information.

Issue 1 Active Wildlife Conservation in a state that is diverse, culturally and in wildlife-related interests

Description The ability of the Department to adequately represent current public interests is being tested by an ongoing societal shift in the way people value and interact with wildlife. The Department conserves game, sport fish and nongame wildlife species, primarily using revenues from discretionary spending of customers relating to hunting and fishing license sales. Increasingly, fewer people are participating in hunting and fishing, yet there has been growth in other forms of wildlife-related recreation, such as wildlife viewing. Although valuable and contributory to local economies, these activities (e.g. wildlife viewing) provide little direct revenue for the Department. Tied to these trends is the increasing interest in providing input in how wildlife is managed. People have many different preferences for wildlife-related programs and services. Greater diversity in viewpoints has contributed to increased conflict, as well as contradictory social values among stakeholders. Because of these challenges, the Department will continue to endure challenges to its authority through mechanisms such as legislation, ballot initiatives and public referenda.

Adding to the challenges are demographic changes that have led to greater ethnic diversity and a more urbanized society. Given the growing influence of minorities, engaging those communities in the Department's management is important to the Department's future. The long-term success of the Department is contingent upon its ability to reach and provide services for audiences that are diverse, both in terms of their cultural heritage as well as their wildlife-related interests.

Solutions:

- Maintain State's authority to conserve wildlife
- Encourage partner-hosted wildlife recreation events.
- Pursue funding to enhance wildlife viewing opportunities.
- Identify and reduce the barriers to participation in wildlife-related recreation.
- Encourage greater participation in commission meetings by holding them in various regions of the state and offer electronic means to participate for those that cannot attend.
- Perform social science research to achieve a greater understanding of the Department's constituency.
- Execute programs designed to engage ethnically diverse audiences.
- Ensure broad-based public input into hunt guidelines and recommendations, and Commission Orders.
- Provide law-enforcement to enhance wildlife conservation and public safety.
- Collaborate with other Arizona state agencies to address public resource issues.

Issue 2 Maintain and improve wildlife habitats

Description There are extensive demands on natural resources. The State is not out of its long-term drought yet, and severe wildfires over the past decade have significantly impacted wildlife habitats. Arizona is also still one of the fastest growing states, and urban sprawl, leap frog development, and associated infrastructure is negatively impacting wildlife. This trend is expected to continue. Invasive species are increasingly causing problems (quagga mussels in the Colorado River Lakes and Lake Pleasant; bufflegrass; and other invasive species). Habitat loss, fragmentation, and continued threats to the health and diversity of these habitats create challenges for the Department's wildlife management efforts. The Department must use its limited resources efficiently to maintain and improve habitats for Arizona's wildlife through habitat enhancements, sustainable land-use, water catchment development, wildlife translocations, and other means. Partnerships and cooperation with federal, state, tribal and local governments, conservation and recreational organizations, private landowners, and individual citizens will be crucial to future success.

Solutions:

- Secure and manage land and water for wildlife conservation and recreation.
- Seek to avoid, minimize or mitigate impacts to wildlife resources.
- Actively conserve statewide wildlife corridors and habitats through partnerships, policy, and direct conservation actions.
- Collaborate with private, federal, state, municipal, and other land and water management interests to ensure that the needs of wildlife and wildlife habitats are considered during long and short range planning processes.
- Develop plans, recommendations, and guidelines for mitigating losses or for enhancement of fish and wildlife populations and their habitats.
- Develop wildlife water sources to alleviate this limiting factor of wildlife in arid portions of Arizona.
- Reduce the impacts of introduced invasive species.
- Encourage landowners to utilize their land that is compatible with wildlife.
- Limit the impacts of off-highway vehicles on habitat.
- Reduce the transference of aquatic invasive species between water bodies.

Issue 3 Long-term, stable funding for the future

Description Funding received by the Department to support wildlife management and recreation, and shooting sports, watercraft and OHV management is linked to expenditures of the public's discretionary funds. Revenues, whether from the purchase of licenses, tags or stamps, lottery tickets, gaming, watercraft registrations or off-highway vehicle decals are a result of discretionary purchases by the public. As a result, many revenue sources have decreased, yet overall operational costs have increased (e.g. health care benefits, fuel, trout production, etc). Because the Department must manage operations consistent with revenue, a reduction in management, educational programs, or enforcement may cause a decline in public satisfaction with ongoing work efforts.

Solutions:

- Develop entrepreneurial business models to secure adequate funding to support wildlife conservation and manage recreation.
- Maintain authority to set license structure by rule.
- Leverage partnerships with business, industry and nonprofit organizations to increase wildlife conservation capacity, funding and recreational opportunities.
- Foster a culture of individual fiscal responsibility and accountability.
- Improve systems to enhance monitoring of budget and expenditures, and to ensure transparency.
- Enforce the public use of off-highway vehicle decals.

Issue 4 Customer Service and Engagement

Description To retain existing customers and recruit new ones, the Department is focused on continuous improvement. Setting targets, tracking performance and employing necessary counter measures to close gaps are tools that allow the Department to protect public trust assets, ensure fiscal accountability, improve compliance with appropriate laws and regulations, all while protecting employees and customer health and safety to effectively maximizes value to customers while minimizing waste.

The Department must also be responsive to sometimes conflicting constituent desires, and must balance those desires with science-based management decisions and available financial resources. Arizona has the highest wildlife diversity of any inland state (over 800 are native). Conserving and restoring wildlife diversity, on a landscape shared with humans, is fraught with controversy, legal implications and social barriers. Some Department wildlife management programs focus on identifying threats and stressors and reducing their effects. Ultimately, the Department aims to keep common species common and to conserve and restore imperiled species in the public trust

Solutions:

- Communicate to local and state entities, the economic value of hunting, fishing, wildlife and other outdoor- related recreation.
- Expand alliance with business and industry to support wildlife conservation and recreation.
- Provide information and education regarding wildlife and recreation.

Issue 5 Effective Workforce

Description Implementation of the Department's Mission, values and competencies demand a professional and well-trained work force that reflects the diversity of Arizona.

To manage operations consistent with revenue, full-time employees, temporary workforce (part-time employees, interns and volunteers) play an important role in helping the Department meet the goals and objectives to manage wildlife and provide wildlife recreational opportunity for current and future generations.

Solutions:

- Cultivate an engage, highly productive workforce (employees and volunteers) to accomplish Agency objectives.
- Develop future leaders.

WILDLIFE CONSERVATION

Jim DeVos, Assistant Director
Phone: (623) 236-7302
A.R.S. §§ 17-101 et seq;

Mission:

To conserve Arizona's diverse wildlife resources for current and future generations.

Description:

The Wildlife Conservation Program conserves wild mammals, birds, fish, reptiles, amphibians, mollusks and crustaceans. The Department organizes these types of wildlife into game, nongame and sportfish, each represented in its own subprogram. Additionally, this program houses the wildlife conservation subprogram that provides essential functions to enable other wildlife conservation subprograms. These support services include: enforcing of laws meant to conserve wildlife, providing governance, conserving habitat, conducting research, and providing public education.

GAME WILDLIFE PROGRAM

Josh Avey, Terrestrial Wildlife Branch Chief
 Phone: (623) 236-7385
 A.R.S. §§ 17-101 et seq;

Mission:

To manage game wildlife populations and their habitats to maintain the natural diversity of Arizona, and to manage for game wildlife oriented recreation opportunities.

Description:

Arizona is host to many species of wildlife. Those mammals and birds which are actively hunted are considered game animals. Hunting can be a management tool for the Department and is an important recreational past-time and valued heritage for those who participate. Management of game includes inventory of game populations and regulation of harvest to provide sustained recreational opportunities. Management also includes assessing habitat conditions, evaluating formerly occupied habitat for potential re-introduction of species, enforcing regulations, and providing input on land management actions that potentially impact game habitats. The program also emphasizes the need to recruit and retain hunters so that the Department has managed hunts available as a management tool.

Issue 1 Strategic Issue 1: Ensure integrity of gaming in Arizona

Description The state and tribes are in the midst of Compact renegotiations, which will likely affect the Department's funding and regulatory scope within the next 8 years (Compact expiration). As the State subject matter experts, we support all negotiations and participate, as requested, with the goal of furthering the success and integrity of gaming in AZ. The Department will continue to monitor and enforce all gaming activity within the state, while implementing process improvement efficiencies under the Arizona Management System.

Solutions:

STRATEGIES TO ACHIEVE STRATEGIC ISSUE 1:

GOAL: Ensure integrity of gaming in Arizona.

PERFORMANCE MEASURES:

1. Response time to Criminal Inquiries.
2. Compliance Rate.
3. Compact Negotiation Sessions.

OBJECTIVES:

- a) Develop charitable gambling education training on the ADG website by June, 2019.
- b) Reduce the response time to verify validity of criminal inquiries from 17.5 days to 10 days by June, 2019.
- c) Attend 100% of compact negotiation sessions in FY2019.
- d) Consolidate the internal data regarding non compliance issues into one database by January, 2019.

Issue 2 Strategic Issue 2: Improve services to stakeholders.

Description During the next 2 years the Department will focus on modernizing services offered to our customers/stakeholders by converting those processes from paper-based to online. Customers and stakeholders will benefit from the creation of an online portal, which will give them access to services such as certification applications, certification renewals, payment of fees, self exclusion requests, etc. This will result in a faster and more secure experience for our stakeholders.

Solutions:

STRATEGIES TO ACHIEVE STRATEGIC ISSUE 2:

GOAL: Improve services to stakeholders.

PERFORMANCE MEASURES:

1. % of online services.
2. Licensing processing time.
3. # of Statewide Problem Gambling Treatment Providers.

OBJECTIVES:

- a) Implement online payment options for 100% of fees by January, 2019.
- b) Increase the percentage of eligible Agency online services from 23.5% to 53% (17 total) by June 30, 2019.
- c) Increase number of in person problem gambling treatment providers from 12 to 16 by June 2019.
- d) Develop & launch new Problem Gambling Prevention Grant Program by June 2019.

Issue 3 Strategic Issue 3: Improve the regulation of Racing and Boxing/MMA Divisions.

Description The Department continues to adapt to the appropriation in the Racing Division, while improving the overall regulation. In FY19, the Department will propose improvements to Racing's administrative rules, and will implement measures to continually ensure proper staff coverage for all sporting events during the year. The Department will continue to benchmark other jurisdictions for best practices and work towards reducing the number of horse fatalities to be on par with or better than the national average.

Solutions:

STRATEGIES TO ACHIEVE STRATEGIC ISSUE 3:

GOAL: Improve the regulation of Racing and Boxing/MMA Divisions.

PERFORMANCE MEASURES:

1. Racing & Boxing Division annual revenue & expenditures.
2. Coverage for all boxing & racing events.
3. Number of Horse Fatalities.
4. Number of Racing Administrative Rules.

OBJECTIVES:

- a) Develop administrative rule improvements including administrative rule changes pursuant to HB2589 by end of FY2019.
- b) Reduce the number of race related horse fatalities from 3.0/1000 starts to the national average of 1.62/1000.
- c) Engage an additional state veterinarian by September 2018 to ensure 100% of horses scheduled to race receive a pre-race horse exam.
- d) Decrease the % of Violations Missed by Officials at each Boxing/MMA event from % (June '18) to 10%??.
- e) Create a framework for Boxing/MMA state championship tournaments by June 2019.
- f) Increase Boxing/MMA revenues from xx (FY18) to xx for FY19.
- g) Ensure Racing expenditures for FY19 do not exceed the racing appropriation.

Issue 4 Strategic Issue 4: Foster Employee Engagement & Workplace Excellence

Description The Department received an outstanding employee engagement score of 11.1:1 in FY18. According to the survey results, recognition of employee ideas was an area identified for improvement. As such, in FY19 the Department will establish a process for submission, review, and implementation of employee ideas, in addition to developing a policy concerning employee recognition awards.

Solutions:

STRATEGIES TO ACHIEVE STRATEGIC ISSUE 4:

GOAL: Foster Employee Engagement & Workplace Excellence.

PERFORMANCE MEASURES:

1. Retention Rate.
2. Training & education hours.
3. Engagement Survey.
4. # of employee ideas implemented.

OBJECTIVES:

- a) Maintain an employee engagement score of 9:1 or higher through May 2019.
- b) Develop and deploy a policy regarding employee recognition awards by June 2019.
- c) Have 100 % of employees complete a professional development training or education by June 30, 2019.
- d) Implement a process that allows employees to submit process improvement ideas, and have 35 of those ideas fully implemented by June 2019.

CERTIFICATION

Rudy J. Casillas, Deputy Director
 Phone: (602) 771-4263
 A.R.S. § 5-602

Mission:

To investigate, evaluate, and determine suitability of gaming employees, financiers, management contractors and providers of gaming services applicants for the issuance or denial of state certification.

Description:

The Department of Gaming receives applications from individuals and entities seeking state certification or recommendations for a Tribal license. The Department will issue a temporary state certification by the close of the next business day following its receipt of a complete application, unless the Department has a good faith basis to believe that the person may not qualify for state certification under Compact Section 5(f). Following the completion of a background investigation, if the applicant is found suitable, state certification is granted. At the conclusion of the background investigation of a tribal member, a recommendation is made to the Tribe as to whether the person should receive a tribal license. The Department also conducts background investigations and audits to certify corporations or other entities that provide gaming services to tribal gaming facilities in an amount that exceeds \$10,000 per month. Individuals or entities whom are denied, revoked or suspended may exercise administrative procedures pursuant to A.R.S. §§ 41-1092. This program is funded through certification fees and investigative costs established in Section 5(l) of the Tribal-State compacts.

ARIZONA POISON CONTROL

Don Herrington, Assistant Director

Phone: (602) 364-3855

A.R.S. § 36-1163

Mission:

To provide a 24-hour, seven-days-a-week state-wide poison and drug information system for doctors, medical institutions, and citizens

Description:

The subprogram, made up of the Arizona Poison and Drug Information Center at the University of Arizona (UA) and the Banner Poison Control Center, is a statewide system of poison information, education and treatment services. The call centers provide general information about poisons or specific information when there is a certain or suspected exposure to poison to callers throughout the state. Both centers follow-up on human exposures and track medical outcomes.

EPIDEMIOLOGY AND DISEASE CONTROL

Don Herrington, Assistant Director

Phone: (602) 364-3855

A.R.S. §§ 36-132, 36-136

Mission:

To monitor, investigate, prevent, and control diseases in Arizona through programs in infectious disease control, environmental health, HIV/AIDS prevention, and immunizations

Description:

Provides epidemiological and medical support, guidance, and evaluation to program areas within the Bureau and to other State and local agencies and the general public. Collects, maintains, and analyzes data to monitor and assess the impact of diseases in Arizona; conducts routine and epidemic disease investigations; coordinates disease prevention and control activities within the State; and maintains a state-wide epidemic detection and response capability. Programs reduce morbidity, disability and premature death due to communicable diseases; prevent and control adverse health effects due to environmental factors including sun, lead exposure, pesticide poisoning, infectious agents in food and water, and exposure to unsanitary conditions; monitor and reduce HIV/AIDS; and prevent and control the occurrence of human disease and disability due to infectious agents by the administration of vaccines.

GOVERNOR'S OFFICE OF HIGHWAY SAFETY

Alberto C. Gutier, Director
Phone: (602) 255-3216
A.R.S. § 28-602

Mission:

To be the focal point for highway safety issues in Arizona; developing, promoting funding for, and coordinating programs relating to highway safety; influencing public and private policy regarding highway safety; and increasing public awareness of highway safety.

Description:

The Governor's Office of Highway Safety develops the Arizona Highway Safety Plan through annual problem identification and analysis of traffic records, citations, judicial outcomes, incarcerations, assessments, screening, treatment, prevention, and surveys. The Office seeks to reduce traffic crashes and resulting deaths, injuries, and property damage by developing, promoting, and implementing effective education and enforcement programs geared toward ending preventable crashes and reducing economic costs associated with vehicle use and highway travel.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	0.0	0.0	0.0
Other Appropriated Funds	0.0	0.0	0.0

5 Year Plan

Issue 1 To decrease the number of traffic fatalities from a high of 1,001 in calendar year 2017 to 935 in calendar year 2018.

Description In 2017 GOHS set a fatality goal of 950. Based on the trends in fatalities in 2017, a goal for 2018 is set at 935 fatalities.

Solutions:

GOHS will analyze statewide/local traffic data and develop our yearly Highway Safety Plan (HSP), which serves as a means for the reduction of traffic crashes, deaths, injuries, and property damage resulting from the crashes on public roads.

GOHS develops, promotes, and implements effective education and enforcement programs geared towards ending preventable crashes and reducing economic costs associated with vehicle use and highway travel. This includes requesting grant proposals from jurisdictions for highway safety projects. These proposals will be reviewed by GOHS staff to determine performance during enforcement periods, past grant award expenditures and crash data provided from the jurisdiction that indicates a serious problem.

The HSP also promotes safety belt and child safety seat use through strong, cohesive statewide enforcement and education campaigns under the banner of "Buckle Up Arizona...It's the Law!" Arizona is a secondary safety belt violation state, but the law enforcement agencies implement a zero-tolerance policy when they encounter safety belts not being used when they stop for another traffic infraction.

Issue 2 Reduce the impaired driving involvement in crashes.

Description To combat the prevalence of impaired driving from alcohol and drugs, GOHS devotes significant resources to overtime enforcement, equipment, and training for law enforcement officers statewide.

Arizona's impaired driving program utilizes enforcement, education, training, and public awareness to reduce the number of crashes, fatalities, and injuries resulting from alcohol- and drug-impaired collisions.

Solutions:

To combat the prevalence of impaired driving, GOHS devotes significant resources for overtime enforcement, equipment, and training for law enforcement officers statewide. GOHS will pursue the following strategies to reduce impaired driving on our roadways:

1. DUI enforcement program;
2. Funding for equipment and supplies (Portable Breath Testing Devices (PBT), phlebotomy supplies, drug testing kits, urine and blood kits, and gas cylinders used to calibrate PBTs, Intoxilyzers, and Livescan Instruments);
3. Officers training (Standardized Field Sobriety Test (SFST) Drug Recognition Expert (DRE) Horizontal Gaze Nystagmus (HGN) DUI report writing and testimony, law enforcement phlebotomy, Advanced Roadside Impaired Driving Enforcement (ARIDE), and Drug Impairment Training for Educational Professionals (DITEP);
4. Traffic Safety Resource Prosecutor and electronic search warrant program with the courts by officers;
5. Public awareness activities including media releases.

GOHS will continue to fund these proven effective strategies to reduce the number of alcohol and drug driving-related fatalities by increasing the number of DUI arrests, training law enforcement on effective tools and techniques, and regularly informing the public about the danger associated impaired driving and the threat of arrest for those who break the laws.

Issue 3 Decrease serious traffic injuries due to speed and aggressive driving.

Description Speeding is the number one contributing factor in the State's fatal crashes. Countless tragedies are caused by excessive speed crashes, which injure and kill innocent people. Arizona's wide thoroughfares are conducive to driving far in excess of the posted speed limit, changing lanes, tailgating, and passing dangerously on the daily commute. Some drivers ignore the most important rules of safe driving, which are common sense and courtesy.

Solutions:

GOHS supports several strategies to reduce speeding, aggressive driving, and red light running. They include:

1. Law enforcement (overtime for sustained statewide traffic enforcement campaigns conducted throughout the year);
2. Equipment purchases (vehicles, speed trailers, Laser and Radar guns);
3. Materials and support for public information and media campaigns;
4. Training for project and program managers;
5. Annual public opinion surveys

Issue 1 Administrative Planning

Description AHS strives to develop and strengthen its human resources and organizational management knowing that the most important part of keeping the Society operational is the people and their collective energy, knowledge and enthusiasm.

Solutions:

Strategic Goal 1.1: Create a healthy climate and culture, efficient operations, and performance targets to increase the effectiveness of our mandate delivery.

Objective 1.1.1: Establish and use effective communication among staff and administration.

Objective 1.1.2: Involve staff in identifying and implementing strategies to create and maintain a climate and culture that will make working at AHS satisfying, meaningful, and effective in providing public value.

Objective 1.1.3: Develop a culture and incentive system that promotes effective internal and external customer service and teamwork.

Strategic Goal 1.2: Provide for continuous improvement and efficient allocation of resources.

Objective 1.2.1: Assess human resource skill/ allocation needs based upon external environmental factors and develop human resource recruitment and succession plan to optimize agency long-term performance.

Objective 1.2.2: Assess and recruit for specific skills sets for staff, and boards.

Objective 1.2.3: Organize the Divisions as needed to take advantage of skills and opportunities and effectively provide mandated functions.

Objective 1.2.4: Identify needed training and development and ensure staff is adequately trained for present and future needs.

Objective 1.2.5: Ensure that policies and procedures meet current and future needs.

Objective 1.2.6: Recruit and develop a diverse workforce so that we can better serve a diverse public.

Strategic Goal 1.3: Help staff reach full potential and meet stakeholder expectations.

Objective 1.3.1: Create and implement new hire orientations.

Objective 1.3.2: Implement professional development for AHS Board, agency leadership and department staff.

Objective 1.3.3: Provide strategic training opportunities for individuals based on annual plan, agency need, individual goals and work group resources.

Objective 1.3.4: Ensure that staff have the skills, competencies, training, and tools they need to support their customers in a changing environment.

Issue 2 Financial Planning

Description Define and develop financially responsible fiscal management

Solutions:

Strategic Goal 2.1: Identify and Secure Additional Funding Sources.

Objective 2.1.1: Develop and strengthen every avenue of public support to secure future public funding.

Objective 2.1.2: Plan and mount major capital and endowment campaigns.

Objective 2.1.3: Increase earned income from fees and services in accordance with revenue enhancement tactics.

Objective 2.1.4: Develop private sector partnerships to leverage rental potential of agency sites and commercial use of collections.

Issue 3 Capital Planning

Description Maintain and improve the care of the interior and exterior of its museums. The integrity of museum buildings directly impacts the visitor experience and public safety, as well as the collections housed within their walls.

Solutions:

Strategic Goal 3.1: Create a plan for realizing the usage potential of AHS real estate holdings that anticipates needs and opportunities in using space to achieve organizational goals.

Objective 3.1.1: Evaluate properties and plan for optimal financial productivity and strategic applications.

Strategic Goal 3.2: Address deferred maintenance needs and create a schedule of necessary maintenance.

Objective 3.2.1: Develop plan to prioritize and subsequently mitigate deferred maintenance issues in museum buildings.

Objective 3.2.2: Engage in open dialog with State pertaining to fund allocations and maintenance of state owned facilities.

Strategic Goal 3.3: Develop, fund, and implement a capital improvement plan that takes into account AHS's needs up to the next 25 years.

Issue 4 I.T. Infrastructure

Description AHS is a 21st century information agency. AHS will be instrumental in shaping Arizona's identity for the next 100 years. How the world will understand Arizona, will largely be determined by historical documents and objects we keep. That, in turn, will be determined by technology and technology informs all aspects of what we do. We now seek, identify, capture, store, transmit and deliver information in all formats. We will support an information technology infrastructure that is flexible, robust, secure and scalable, and that serves AHS' customers, both internal and external. Having the ability to manage, use, find, share and appropriately dispose of electronic records is vital for the effective functioning of AHS and it is central to an agency that strives to be transparent, participatory and collaborative.

Solutions:

Strategic Goal 4.1: Maintain a high-quality technological infrastructure that is capable of supporting all of our internal operations and the website.

Information Technology Trends

1. Migration to cloud-based software and storage
2. Faster obsolescence of computer hardware and software
3. Rapidly accelerating digital and file-based acquisition of collections
4. Increasing volume of born-digital agency records
5. Decreasing reliance on local devices
6. Increased use of technology by users to interact with cultural content
7. Increased demand for digital content
8. Push to increase item-level metadata and curation of digital records

Information Technology Issues

1. Providing ample electronic storage that is cost effective and sustainable
2. Obtaining funding to refresh hardware and software in a planful manner
3. Obtaining funding for IT system support (internal and external)
4. Determining which developing technologies best meets future needs of organization

Agency Business Goals

1. Collect, preserve, interpret and provide access to materials documenting the history of Arizona
2. Engage the public in discovering and preserving the history of Arizona
3. Expand access to the AHS historical collections and resources
4. Provide educational tools and programming to students, teachers and the general public

Information Technology Plan

IT Vision

A robust Information technology infrastructure to provide a foundation for the delivery of content and services across multiple, changing platforms and devices. An IT infrastructure that is flexible, secure, and scaleable - enabling innovative uses of technology for educational and customer service excellence.

IT Mission

Working without an IT department or staff, the AHS staff works to develop IT plans and projects to strengthen IT infrastructure in order to improve and enhance digital and online information resources; adopt new technology before the existing systems become antiquated; and provide all AHS customers with fast and courteous service in an ever changing technology environment.

Goal #1 – Implement cost-effective solution to meet the storage, access and collaboration needs of the agency.

Objective #1 – Replace on-site file servers with cloud-based storage.

Current Situation – AHS has approximately 1.5 TB of agency records stored across two on-site servers and 7TB of historical records stored on multiple external hard drives. Mainstream support for the two Windows 2008 servers ended on January 13, 2015; with extended support ending on January 14, 2020. In 2015 the AHS joined the state domain allowing the staff at the four AHS locations (Flagstaff, Tempe, Tucson, Yuma) to access files on the servers. Combined the two servers have less than 1TB of available storage space. The 7TB of historical records relate to the museum and archival holdings – primarily digital surrogates of physical collections, but also includes born-digital collection material. Stored on external hard drives, access to the files is limited.

Objective #2 – Move to web-based applications to allow access from multiple devices and locations.

Current Situation - AHS has three mission critical applications on an on-site server. The application server is also a Windows 2008 server. As stated above mainstream support by Microsoft ended on January 13, 2015; with extended support ending on January 14, 2020. Access to the applications is limited to on-site use.

Related Project: Phased migration to cloud storage beginning in FY2017. The rapidly increasing volume of digital agency and historical records requires investment in easily scalable file storage. With agency staff at multiple locations around the state file access and sharing using mobile devices is crucial. Equally important is the ability to conduct work in various locations. By increasing reliance on mobile devices and reducing reliance on location based devices, agency staff can accomplish work no matter the location. Estimated cost for storage per year: \$30,000

Goal #2 – Develop information technology procedures, practices and budget to efficiently and effectively manage IT assets.

Objective #1 - Develop and implement budget for agency wide technology support

Objective: #2 - Implement 3 year computer refresh cycle to insure secure and accessible system

Objectives #3 - Reevaluate existing and identify new critical technology policies for the agency

Current Situation – The computer refresh completed in 2015 provided uniform computer technology across the agency and removed all computers running Windows XP or Windows Vista. All computers are now running the Windows 7 operating system. As with the servers, mainstream support by Microsoft ended on January 13, 2015; with extended support ending on January 14, 2020 – requiring an upgrade of all computers in the agency. The Windows 10 operating system was released in July 2015 making Windows 7 a version behind.

Related Project: Computer refresh in FY2018-19. Upgrade all computers, monitors and software to avoid system obsolescence. Refresh will allow agency to continue to perform mission services in timely and effective manner. Estimated cost: \$120,000 divided over two or three years.

Goal #3 – Improve and enhance the use of information technology to enable innovation in teaching, learning, research and scholarship

Objective: Investigate and establish a strategy that employs web and media platforms to share collections, teach students and general public, increase visibility, and augment exhibits and publications.

Objective: Develop Digital Initiatives Manager position to manage information technology initiatives planning, implementation, and monitoring of digital projects to enhance user experience and improve workflows within the agency. This includes, but is not limited to, digital initiatives such as digital curation and preservation, digital exhibits, the website, and search and discovery of library resources.

Related Project: Hire Digital Initiatives Manager to build capacity for use of information technology within the museums and archives and educational programming. The manager can seek grants and increase revenue through coordinated AHS projects. Estimated cost of the position is \$66,000 - \$90,000 (salary+ERE).

Issue 5 Online Presence

Description Develop and Implement a plan for strategic web development that makes arizonahistoricalsociety.org the primary online resource for people to connect with Arizona's history.

Solutions:

Strategic Goal 5.1: Develop and implement a plan for strategic web development that makes arizonahistoricalsociety.org the primary online resource for people to connect with Arizona's history.

Objective 5.1.1: Develop a team-based approach to improving our technological infrastructure to include our web properties.

Objective 5.1.2: Develop an educator's portal on AHS's website that utilizes new media to create accurate, engaging, and standards-based materials to disseminate AHS's resources.

Objective 5.1.3: Develop and implement a social network plan that makes it easy for individuals and organizations to more easily access AHS resources.

Strategic Goal 5.2: Facilitate online purchase of retail items and payment for AHS services and programs.

Issue 6 Collection Stewardship

Description The asset that distinguishes AHS from its peers is its rich and irreplaceable collection of historical artifacts, natural history specimens, manuscripts and printed material.

Solutions:

Strategic Goal 6.1: Develop strategies for storage, preservation, and collections security.

Objective 6.1.1: Prioritize and address the preservation needs of all AHS collections, regardless of format.

Objective 6.1.2: Proactively adapt our security measures for our staff, collections and infrastructure to meet changing threats and vulnerabilities.

Objective 6.1.3: Develop and implement a comprehensive Collections Management Manual including Collections Development plans for each collecting Division and development of a comprehensive collections management plan.

Objective 6.1.4: Adopt and implement a collections disaster plan.

Objective 6.1.5: Establish effective physical control over all collections: launch inventory process and develop target for data entry.

Objective 6.1.6: Create a plan for cataloging and processing backlog and incorporate the plan into division level manuals.

Strategic Goal 6.2: Manage the Collections using appropriate technological tools for more complete understanding, greater public access, and enhanced public programming

Objective 6.2.1: Develop integrated plan for gathering collections info, identify data to share with public, create front-end searchable database.

Objective 6.2.2: Develop plan for exponential database growth and access.

Strategic Goal 6.3: Assist customers in surveying, preserving, developing, interpreting, and utilizing heritage resources to facilitate economic development, community improvement, heritage tourism, and quality of life.

Objective 6.3.1: Provide individuals and groups with ease of access through a variety of channels – including online catalogs and finding aids, on-site databases, school tours, educational programs, exhibitions, and off-site programs, exhibitions, and partnerships.

Strategic Goal 6.4: Maximize AHS's existing collections storage capacity to meet its current needs and expected growth.

Objective 6.4.1: Evaluate all of AHS's existing properties for space use and environmental appropriateness for collections storage purposes.

Objective 6.4.2: Identify criteria of appropriate collections storage spaces.

Objective 6.4.3: Develop plans for reclaiming or re-purposing spaces for additional collections storage.

Objective 6.4.4: Deaccession materials inappropriate to the mission and remove those items from AHS collections storage spaces.

Objective 6.4.5: Strategic Goal: Improve curatorial workspace for accessioning and preservation.

Issue 7 Collections Access

Description In decades to come, the expectation of easy online access to AHS holdings will grow. The breadth of information available on the internet has increased public demand for faster access to more information.

Solutions:

Strategic Goal 7.1: Provide convenient access to collections for customers and public.

Objective 7.1.1: Develop a comprehensive integrated and automated collections records system.

Strategic Goal 7.2: Equip these facilities and staff with the tools to help researchers locate records at any AHS facility.

Strategic Goal 7.3: Provide statewide leadership through leveraging partnerships to preserve and provide access to the evidence of Arizona's past.

Strategic Goal 7.4: Address the challenges of electronic records to ensure success in fulfilling AHS's mission in the digital era.

Objective 7.4.1: Identify permanently valuable electronic records wherever they are, capture them, and make them available in usable form as quickly as practical.

Objective 7.4.2: Partner with agencies, research institutions, and private industry to develop, implement, manage, and promote our electronic records program both within AHS and for the public at large.

Issue 8 Education and Public Programming

Description Improve the quality of interpretive services statewide.

Solutions:

Objective 8.1.1: Assess all interpreters (Amazing Arizonans, guides, docents, suitcase presenters, speakers bureau, etc.).

Objective 8.1.2: Evaluate, reorganize, eliminate, and/or rename current programs.

Objective 8.1.3: Design and implement school tours with thematic approach.

Objective 8.1.4: Recruit and train guides for AHS museums and programs.

Objective 8.1.5: Implement Arizona History Forum guide training program.

Objective 8.1.6: Continue development of interpretive products to be used in all AHS museums.

Objective 8.1.7: Work with regional Division Directors in planning of programs, exhibits, and fundraisers.

Objective 8.1.8: Extend reach into local schools with targeted outreach and improved onsite and in school programming.

Objective 8.1.9: Develop onsite programming that is focused on enhancing the museum visitor experience.

Objective 8.1.10: Plan for the next generation of exhibits and programming.

Strategic Goal 8.2: Engage and educate the public in Arizona history by creating high-quality programs that demonstrate the relevance of the past, reach across the state, and rely on strong partnerships.

Objective 8.2.1: Foster skills in historical inquiry, analysis, critical thinking and information literacy to explore ideas, respect the diversity of human experience and make informed judgments about issues that affect our lives.

Objective 8.2.2: Create statewide teaching programs using current national models in the ways they use historic resources and the ways they form partnerships with other groups.

Objective 8.2.3: Develop and implement an overall strategy for reaching key educational target markets that includes leveraging partnerships.

Objective 8.2.4: Create relevant, vibrant exhibits and public programs that educate, entertain and engage the public in meaningful conversations about Arizona's past and how it shaped the present, and serves as inspiration for the future.

Objective 8.2.5: Expand market awareness of exhibits, programs, and educational opportunities through partnerships and co-marketing.

Objective 8.2.6: Investigate and establish a strategy that employs web-based platforms to share collections, educate students and the public, increase visibility, augment publications and exhibits, and grow meaningful collaborations.

Objective 8.2.7: Establish working relationships with area historical societies and heritage organizations, educational institutions, cultural organizations, and groups representing ethnic communities.

Objective 8.2.8: Improve upon the quality of current location-based education programs by conveying unique messages and stories about Arizona History not currently told in other museums.

Strategic Goal 8.3: Expand science education programming statewide.

Objective 8.3.1: Design and implement science education programs.

Objective 8.3.2: Use current and future exhibits to connect science education programs to exhibition themes and content.

Strategic Goal 8.4: Expand National History Day in Arizona program.

Objective 8.4.1: Increase awareness and participation in National History Day by increasing teachers, students, and regional museums participation.

Objective 8.4.2: Increase fundraising efforts around the state.

Objective 8.4.3: Work with regional coordinators in planning of programs, competitions, materials, and fundraisers.

Strategic Goal 8.5: Coordinate to provide meaningful, effective opportunities for lifelong learning.

Objective 8.5.1: Use resources effectively by establishing a institution-wide philosophy/policy on our role in lifelong learning.

Objective 8.5.2: Identify training needs of our mandated customers and create a plan to more effectively provide this training.

Objective 8.5.3: Work toward putting staff presentations and trainings online.

Objective 8.5.4: Utilize a variety of delivery mechanisms: Individuals learn in different ways.

Objective 8.5.5: Organize an experience-based approach, overseeing planning and assuring excellent quality, facilities, and customer service.

Objective 8.5.6: Create a better understanding of target market needs and interests as a foundation for better relationships and realignment of activities that will foster greater participation in AHS programs.

Objective 8.5.7: Develop and implement an interpretive plan for the entire organization that focuses on programs and exhibits that incorporate empowering intergenerational audiences with personally and culturally relevant history experiences.

Strategic Goal 8.6: Strengthen web and other media delivery of content for an education audience. (See Strategic Priority 4)

Issue 9 Audience Reach

Description AHS's future success depends on our ability to identify, please, serve, cultivate, and build our audiences. These include our members and donors, volunteers, school groups and teachers, researchers and learners of all ages (scholars, professionals, collectors, media writers and staff), family historians and genealogists, history buffs, heritage visitors, and the interested public.

Solutions:

Strategic Goal 9.1: Expand the audience for AHS publications through electronic publication and distribution

Objective 9.1.1: Digital publication of books and The Journal of Arizona History.

Objective 9.1.2: Increase accessibility of existing publications through digital conversion.

Strategic Goal 9.2: Assist customers in surveying, preserving, developing, interpreting, and utilizing heritage resources to facilitate economic development, community improvement, energy and other projects, heritage tourism, and quality of life.

Objective 9.2.1: Through services and relationships with partners and customers, strengthen all parties, create synergy, multiply outcomes, and further economic development.

Objective 9.2.2: Enable communities to develop and use their heritage resources to strengthen their economies.

Strategic Goal 9.3: Strengthen partnerships to more efficiently provide outreach to the general public.

Objective 9.3.1: Work with partners to identify ways to provide outreach and learning opportunities through partnerships and cooperation.

Objective 9.3.2: Strengthen and form partnerships to make events more effective, using fewer staff resources.

Objective 9.3.3: Expand our partnerships with the professional communities and state agencies that share our goals and mission.

Objective 9.3.4: Foster strategic alliances to increase access to collections, expand digital assets and research tools, and generate new revenues.

Objective 9.3.5: Develop strong brand identity and messaging for changing exhibits and their accompanying programs for Arizona Historical Society.

Strategic Goal 9.4: Create an organization that innovates naturally and frequently, adapts to the need for change, and is responsive to the community it serves.

Objective 9.4.1: Reorganize membership classifications to reflect new perceptions of membership. Include youth membership and teacher membership, for example.

Strategic Goal 9.5: Increase public awareness and support for historical records preservation and access.

Objective 9.5.1: Personalize the history experience and connect in new ways to the communities it serves.

Objective 9.5.2: Engage state and local legislative stakeholders, learning more about their goals and increasing public awareness of, and investment in, the Society's operations.

Strategic Goal 9.6: Promote AHS as a leader in the community for historical events of significant, statewide importance, teaching the lessons and legacies from these events.

Strategic Goal 9.7: Communicate effectively with our audiences both in person and virtually to provide educational, relevant, and engaging experiences in a variety of formats (lectures, family programs, special events, virtual and long- and short-term exhibitions, shopping opportunities, off-site statewide outreach, and dedicated staff and volunteers assisting researchers).

Objective 9.7.1: Target those experiences to specific audiences, focusing our resources on maximizing the value we provide to win

support for our future.

Objective 9.7.2: Use targeted statewide marketing to reach our audiences, cultivate those supportive of our mission, and invite them to invest in AHS' future.

Objective 9.7.3: Optimize public awareness and participation in agency services through enhanced brand identity, web-site, marketing and outreach.

Strategic Goal 9.8: Raise AHS profile in the community.

Objective 9.8.1: Develop products/programs to be used in all AHS museums.

Objective 9.8.2: Continue regular updates of AHS Webpage with new design/structure.

Objective 9.8.3: Administer AHS Social Media networks.

Objective 9.8.4: Provide support and collaborations in the community.

Objective 9.8.5: Continue production of educational publications.

Objective 9.8.6: Create teacher curricular resources.

Objective 9.8.7: Provide workshop supplements.

Objective 9.8.8: Create textbooks and children's books.

Objective 9.8.9: Continually monitor and evaluate programs and change accordingly.

Objective 9.8.10: Develop new programs.

Objective 9.8.11: Continue professional presentations at conferences.

Objective 9.8.12: Encourage staff to attend professional development opportunities.

Objective 9.8.13: Continue presence in university classes at ASU, UA, and NAU.

Objective 9.8.14: Develop partnerships and collaborations with professional organizations and businesses.

Objective 9.8.15: Participate in professional organizations such as the American Association for State and Local History, Museum Association of Arizona, Central Arizona Museum Association, Tucson Association of Museums, Arizona Council for the Social Studies, Western Museum Association, etc.

Objective 9.8.16: Increase grant applications through professional partnerships.

Objective 9.8.17: Recruit and mentor college interns.

PRESCOTT HISTORICAL SOCIETY

Fred Veil, Executive Director
Phone: (928) 277-2002
A.R.S. § 41- 831

Mission:

To serve as an educational and cultural center, which fosters public and community understanding and appreciation of historical, social, cultural, and natural aspects of Arizona, with emphasis on the Central Highlands, and which promotes involvement in and support for research, collections, conservation, exhibits, and related programs.

Description:

The Prescott Historical Society operates the Sharlot Hall Museum, which was founded in 1928 and is located on the grounds of the first territorial governor's residence and offices. The nearly four-acre landscaped campus features 11 exhibit buildings, including four restored historic structures: the territorial Governor's Mansion (1864), Fort Misery (1864), the Fremont House (1875), and the Victorian-era Bashford House (1877). The Lawler Exhibit Center (1977) hosts both permanent and changing exhibits, an historic theater, and storage of extensive historic and prehistoric objects. A large Archive Library (1993) houses several hundred thousand images and documents.

In March 2013, a new facility constructed with non-State funds was completed. In April 2014, a new admissions building, also privately financed, was added. The Bob Stump VA Medical Center hosts a branch museum that interprets the history of Fort Whipple. Public programs include the annual Folk Arts Fair, Prescott Indian Art Market, Folk Music Festival, Frontier Christmas, Western History Symposium, musical and theatrical historical productions, living history interpretations in both indoor and outdoor settings, heritage gardens, lecture series, education tours, and outreach opportunities for children and adults.

Issue 1 Excellence in Education

Description Sharlot Hall Museum is dedicated to excellence in exhibitions, programs, and preservation of its collections for public benefit. As the top priority of the institution, comprehensive plans for both internal and traveling exhibits and programs, and wide use of websites and other means will offer patrons opportunities that excite, enrich, and educate a broad range of ages and a diverse public. As an overarching goal, efforts in this area will be based on appropriate Arizona curriculum standards where possible.

Solutions:

☑ Fund and continue implementation of the Museum's long-range exhibit plan

. Fund and construct an education facility to be used for presentation, festivals, lectures, training, demonstrations, and related educational and cultural activities.

☑ Continue to implement and improve the Museum's education plan, with increased emphasis on school tours and youth oriented activities.

. Explore opportunities to expand the Museum's collections, including its archival materials

. Develop a plan designed to increase public awareness of the research opportunities offered by the Museum's Library & Archives.

. Evaluate and implement, as appropriate, opportunities to utilize technology in new and existing exhibits.

Issue 2 Long-Range Financial Planning

Description Sharlot Hall Museum is committed to sound and responsible stewardship of the public resources to ensure that we can continue to provide our members and visitors with an educational and cultural experience consistent with our mission.

Solutions:

☑ Provide a solid development plan to obtain funds for both short term and long term needs

☑ Continually evaluate the Museum's investment strategies to ensure maximum return within fiscally prudent guidelines

☑ Employ cost effective management principles in administering operational funds

☑ Develop resource focused upon these sectors:

1. Endowments/planned giving/major gifts/naming opportunities;

2. Annual giving and membership base expansion;

3. Corporate and institutional connections/support opportunities;

4. Governmental relations; and

5. Fund raising events with a focus on those which maximize revenues and minimize impact on the Museum staff.

Issue 3 Long-Range Facilities Planning

Description The Sharlot Hall Museum's exhibit, facilities and space utilization plans describe the facilities changes, renovations, and required upkeep to accommodate the present physical plant and future growth. This initiative ensures that facilities will meet the needs of the Museum campus and community.

Solutions:

☑ Review and revise, as appropriate, these plans to reflect current needs and projected resources/sustainability to include proper space utilization

. Fund and construct a facility for education and cultural development.

☑ Produce a Five-Year Capital Improvement Plan

Issue 4 Economic and Political Support

Description This initiative is designed to assist Sharlot Hall Museum in its dual efforts to provide quality of life experiences for the community and to serve as a regional economic generator through civic tourism

Solutions:

- ☑ Maintain a high profile with state, county, and local government to assure tax base funding
- ☑ Develop partnerships with community businesses, leaders, and others
- ☑ Develop partnerships with complementary institutions/entities which offer learning and coalition building opportunities, facilities and event production sharing, etc.:
 1. Indigenous tribal entities
 2. Arizona Historical Society
 3. Local historical museums/entities/events (Phippen, Smoki, Westerners Corral, etc.)
 4. Service clubs
 5. Educational institutions

Issue 5 Public and Media Relations

Description Wide ranging efforts to publicize the unique nature and extensive quality offerings of the Sharlot Hall Museum is the foundation of sustainability. The Museum can only fulfill its mission if the public is aware of existence, and the many rewards it offers.

Solutions:

- ☑ Develop solid public relations, marketing and promotion plan;
- .Continue to foster strong relationships with local media;
- ☑ Develop progressive membership plan, with increased emphasis on corporate memberships;
- ☑ Develop visitor surveys and other means to obtain audience input

DEPARTMENT OF HOMELAND SECURITY

Gilbert M Orrantia, Director
Phone: (602) 542-7013
A.R.S. § 41-4252

Mission:

To protect Arizona by providing strategic direction and access to federal grants and other resources for the state's homeland security stakeholders in preventing terrorist attacks; enhancing border security; heightening cybersecurity efforts; reducing Arizona's vulnerability to critical hazards; and enhancing the capacity and expertise to plan for, mitigate, respond to and recover from critical hazards that affect the safety, well-being, and economic security of Arizona.

Description:

The Department administers federal grants to State and local agencies to protect our border and prevent or reduce Arizona's vulnerability to terrorist attacks.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	0.0	0.0	0.0
Other Appropriated Funds	0.0	0.0	0.0

Total Funding	19,363.5	23,114.8	23,114.8
FTE Positions	16.0	16.0	16.0

Issue 1 MAINTAINING THE SAFETY AND SECURITY OF ARIZONA'S RESIDENTS WITH REDUCED FUNDING**Description** POTENTIAL IMPACT TO ARIZONA'S ENHANCEMENT OF BORDER SECURITY AND THE CAPABILITY AND CAPACITY TO PREVENT, PROTECT, MITIGATE, RESPOND TO AND RECOVER FROM TERRORIST ATTACKS AND ALL HAZARDS.

In today's current environment, there is a persistent threat of terrorist attacks. It's not a matter of if, but when these attacks will occur worldwide. It is more important than ever to provide as many resources as possible to homeland security initiatives to ensure the safety and security of Arizona's residents.

There is an ongoing challenge to maintain and sustain the capabilities and capacity levels achieved over the past several years with the continuous looming potential reductions in federal funding. One of the major elements that is key to the capability and capacity to prevent, protect, mitigate, respond to and recover from terrorist attacks and all hazards is the collaborative partnerships that have been developed and fostered through the homeland security grant program.

As is the case with many federal grant programs, AZDOHS leadership is aware of the potential in reduced homeland security grant funding and continues to work with stakeholders to maximize the use of current grant funds. The FFY 2018 grant funds are 21.1% lower than the FFY 2011 funding level. Yet, there will be an ongoing requirement and expectation that Arizona will continue to assure border security operations are enhanced and sustained; and that the capabilities and capacity (built with homeland security grant funds) to address the ever-present and ongoing threats of terrorism, illegal border crossings, human and drug trafficking along the Arizona/Mexico border, and information-sharing among law enforcement entities (local, state, tribal, federal) to prevent adversarial attacks are sustained. To provide safety and security to Arizona's residents; the capability and capacity to conduct border security operations, maintain emergency response plans, and interoperable communications, and equipment to respond to acts of terrorism or other critical hazards is a priority for the well-being of all residents. It is also imperative that training and exercise continue to maintain and sustain a capable response force.

Reduced funding impacts Arizona's border security operations by decreasing state, local and tribal high-visibility uniformed patrols along the Arizona/Mexico border and also affects the ability to prevent and protect Arizona's residents from terrorism and other critical hazards. It is essential to maintain the strategic direction, capabilities and capacity to prevent, protect, mitigate, respond to and recover from an incident for the safety, well-being and economic security of Arizona.

The challenge is sustaining or enhancing the capacity levels in accordance with increasing threats/hazards in the current homeland security environment.

Solutions:

MAINTAINING THE SAFETY AND SECURITY OF ARIZONA'S RESIDENTS WITH POTENTIAL REDUCED FEDERAL FUNDING - POTENTIAL IMPACT TO ARIZONA'S ENHANCEMENT OF BORDER SECURITY AND THE CAPABILITY AND CAPACITY TO PREVENT, PROTECT, MITIGATE, RESPOND TO AND RECOVER FROM TERRORIST ATTACKS AND ALL HAZARDS.

The AZDOHS will continue to focus on border security, maintaining and sustaining the capabilities and capacities to prevent, protect, mitigate, respond to and recover from threats or acts of terrorism and all critical hazards with the grant funds awarded to Arizona through the FFY 2018 funding cycle. To address this issue, the AZDOHS will focus on the furtherance of enhancing regional partnerships and collaborative information-sharing activities.

It is the goal of the AZDOHS to manage and administer the available funds while maintaining compliance with the USDHS National Preparedness Goal and the National Preparedness System to sustain capabilities that can be regionally and federally deployed.

Although deployment is coordinated through the mutual aid compacts at the local, state and regional level, the SAA is the designated entity eligible to apply for and receive homeland security grant funds.

If federal funds are reduced, stakeholders would be encouraged to seek maintenance and sustainment support through their local governing body.

Issue 2 SUSTAINING THE VIABILITY OF AZDOHS SECURITY WITH DRASTICALLY REDUCED FUNDING

Description IMPACT TO AZDOHS TO EFFECTIVELY PROVIDE HOMELAND SECURITY STRATEGIC DIRECTION, ENHANCE COLLABORATIVE EFFORTS AND ADMINISTER AND MANAGE GRANT FUNDS AWARDED TO THE STATE OF ARIZONA. The AZDOHS is the State Administrative Agency (SAA) responsible for the management and administration of the suite of grant programs available from the USDHS. As the SAA, there is a myriad of roles, responsibilities and reporting requirements to maintain eligibility to receive and maintain compliance with all of the grant guidance and award conditions.

Since 2011, Arizona’s homeland security grant funds have decreased by more than 21.1%. Regardless of any potential reductions of the grant programs, the SAA must still maintain compliance and meet all reporting requirements well after the end of a grant performance period.

While the AZDOHS has made every effort to be exemplary stewards of the funds awarded to the State, the department would be impacted by a reduction of funds.

A substantial reduction in funds will directly result in a reduction of current AZDOHS staffing levels. A reduction in current staffing levels will affect the department’s ability to sustain the collaborative efforts that have brought together and built working relationships across the various disciplines. The collaborative relationships built have served as a cornerstone involving collective efforts to share information, leverage resources, and increase the level of prevention and response capabilities.

Reduced staffing would impede the ability to efficiently and effectively manage and administer the grant programs as well as meet all of the state and federal reporting requirements. Failure to maintain compliance with the reporting requirements could result in Arizona being ineligible to receive homeland security grant funds or a reimbursement being held until such time compliance is achieved.

Reimbursement requests to stakeholders would be delayed thus imposing unintended budgetary consequences on local jurisdictions to be able to accept and utilize any potential grant funds that may have been awarded. Accordingly, stakeholder relationships and collaborative efforts would be affected.

Should federal homeland security grant funding be reduced, the overarching impact to the State of Arizona will negatively affect border security and counter-terrorism efforts. In addition, emergency management, preparedness and response efforts will also be impacted. Reduced funding could affect the sustainment of Arizona’s current levels of security, preparedness and emergency response.

Solutions:

SUSTAINING THE VIABILITY OF THE AZDOHS WITH POTENTIALLY REDUCED FEDERAL FUNDING - IMPACT TO AZDOHS TO EFFECTIVELY PROVIDE HOMELAND SECURITY STRATEGIC DIRECTION, ENHANCE COLLABORATIVE EFFORTS AND ADMINISTER AND MANAGE GRANT FUNDS AWARDED TO THE STATE OF ARIZONA.

To address reduction of funding to maintain and sustain the AZDOHS, the department will continue to use the Arizona Management System to analyze and assess our internal budget and internal processes.

Annual reviews and assessments will be conducted to determine viability of staff levels to maintain ongoing department responsibility requirements. If reduction in funds is experienced, reduction in force recommendations will be made to the director accordingly.

With limited resource options, it will be difficult to sustain the standards of excellence the AZDOHS has attained to be good stewards of the homeland security funds awarded to Arizona.

ADHOHS will continue to use the Arizona Management System to analyze and assess our internal budget and internal processes.

BOARD OF HOMEOPATHIC AND INTEGRATED MEDICINE EXAMINERS

Eric Borg, Executive Director
Phone: (602) 542-8154
A.R.S. 32-2901

Mission:

To protect the public health, safety, and welfare of Arizona citizens by examining, licensing, and regulating homeopathic physicians and medical assistants.

Description:

The Board of Homeopathic and Integrated Medicine Examiners regulates the practice of homeopathic medicine in Arizona. The Board reviews and examines the education, experience, and background of applicants to determine whether they possess the qualifications required by law to practice homeopathic medicine and any of the subspecialties within the scope of practice. The Board conducts investigations into complaints against physicians and holds hearings, taking disciplinary action as necessary to protect the public safety. The Board also registers homeopathic medical assistants that work under the direct supervision of licensed homeopathic physicians.

5 Year Plan

Issue 1 Complete rulemaking for doctor of homeopathy rules. Prepare written examination.

Description Proposed rules have been drafted to provide a framework for interested and qualified individuals seeking to obtain license a a Doctor of Homeopathy (D.H.).

Solutions:

An exemption to rulemaking moratorium was granted in January 2016.

The Board must complete rulemaking process with particular emphasis on procedures relative to foreign trained applicants and delineating the amount of science credits that will be accepted to meet this particular educational criteria.

Issue 2 Seek Legislative Approval to Revise Fees to Support Board Operations

Description Fees remain capped by statute and have not been changed since 1995. The Board unsuccessfully sought legislative changes in 2013 to raise some of its fee caps and to add new fees to support the cost of reviewing continuing education, providing re-examinations, and re-couping the true cost of holding an annual license. Staff hours were reduced to support operations at a base level. The rising cost of rental space, the new mandate to train board members, and ongoing costs relating to rulemaking for the new homeopathic doctor licensing necessitate another effort to request legislative approval to adjust fees.

Solutions:

Continue Cost saving measures with reduced staff time

Enlist help from a legislative sponsor familiar with the cost of running a board and commission

Issue 3 In concert with the expressed goals of the Arizona Department of Administrations Strategic Enterprise Technology (ADOA-/SET) office the Board would explore alignment with other boards and commissions to implement E-licensing

Description The Governor has expressed a data systems initiative designed to automate and create paperless, on-line solutions to assist applicants, customers and stakeholders to access information more quickly. The Board is supportive of such efforts although significant hurdles exist.

Solutions:

Several key components would have to merge for the Board to be part of this initiative:

- 1) sufficient and ongoing additional funding and actual revenue;
- 2) an updated computer to enable the programming changes that would affect the database programming;
- 3) an innovative method by which the Board would be allowed to participate in the initiative given the small number of current and prospective licensees that would benefit.

The Board with the approval of the legislature may wish to consider a method to pay back the initial costs of implementing the system. This may include an ongoing agreement to reimburse the general fund for any loan that may be provided to implement the system. In addition, the Board (in alignment with issue 2) may seek to raise fees sufficient to support board operations.

Agency Summary

ARIZONA DEPARTMENT OF HOUSING

Carol Ditmore, Director
Phone: (602) 771-1007
A.R.S. §§ 41-3951 to 41-4065

Mission:

To provide housing and community revitalization to benefit the people of Arizona.

Description:

The Department of Housing is a cabinet-level agency, created in 2002 by the Legislature to serve as the State's primary agency to address housing issues. Primarily funded through federal resources and fees, the Department administers housing and community development resources, serves as the State's public housing authority, and regulates Arizona's manufactured housing industry.

Issue 1 Creating better living environments for Arizona's citizens and communities

Description The Department will focus on creating the best living environments for Arizona's citizens and communities by targeting its resources to encourage the development of sustainable, energy-efficient, accessible affordable housing in areas of opportunity with private and community partners; working with rural cities and counties to make good and timely investments in community development and revitalization through federal resources; and operating at the speed of business to regulate the manufactured housing and modular building industry in order to protect consumers.

While the Department has always taken a conservative approach to the utilization of its resources, it has had to increase its efforts to target its resources in order to demonstrate the greatest impact in Arizona with fewer resources. With an end goal of aiding in the creation of conditions that create and promote more productive living amongst all Arizonans, the Department is narrowing its focus, increasing efforts to maximize the number of new rental units it can produce throughout the state in order to address an ever growing deficit in available affordable housing.

Activities that are financed through Department resources that create better living environments include: the development of affordable rental housing units through new construction or acquisition and rehabilitation; rehabilitation and weatherization improvements of dilapidated owner-occupied housing stock with a priority for seniors, individuals living with disabilities, and families with children; monthly rental subsidy assistance for Arizona's lowest income households who otherwise would be homeless; development and support of transitional housing opportunities for Arizona's most vulnerable special needs populations, including those transitioning out of homelessness, victims of domestic violence, recovering substance abusers, and others; improved infrastructure and community facilities in Arizona's 13 rural counties; regulating the activities of the manufactured housing industry; and other community development and revitalization activities.

Solutions:

The Department's strategies to create better living environments includes: (1) targeting resources that promote development of affordable housing opportunities along public transportation hubs to increase transportation to jobs, education, and after school programs for family units and senior centers when properties focus on providing senior housing, in order to provide location efficient housing for low-income households; (2) tying financial assistance through the Department to projects that will create the highest economic impact in the shortest term; (3) requiring the incorporation of energy efficiency and green building practices for long-term energy savings and sustainability for Department-financed projects; (4) continuing to limit Department investments to only those projects that require a public subsidy to achieve viability – encouraging the use of limited resources for the creation of new units and the use of non-limited (e.g., 4% federal tax credit) resources for the rehabilitation and retention of existing rental stock; (5) collaborating with community partners to end homelessness by providing permanent supportive rental housing; (6) working with the Department's rural communities to make good and timely investments of federal resources; and (7) operating at the speed of business to provide timely inspection services to manufactured housing plants and installation sites.

Issue 2 Coordinating efforts to end homelessness throughout the state

Description The Department will coordinate efforts to end homelessness by providing a safety net for struggling homeowners by providing timely assistance to avoid foreclosures; and reduce homelessness by working with other public and private partners and making resources available to avoid evictions and re-house the homeless. Since the State began addressing the issue of homelessness, decades ago, there had not been a collective conscience fighting this issue until recently. In order for Arizona to make progress it will take a coordinated effort. Despite numerous challenges and obstacles, such as inadequate resources, significant progress has been made towards achieving our ongoing objective to end homelessness in Arizona.

While the foreclosure crisis has abated, with foreclosure levels falling to pre-recession levels, close to 18 percent of Arizona mortgage holders are still underwater and thousands of homeowners are still unable to afford their mortgages, as they are unable to find employment opportunities that match their pre-recession incomes, or have experience difficulties due to job loss or illness. Fortunately, through at least 2020, the Department will have resources to help such households avoid foreclosure. While the Department currently has no dedicated funding to aid renters in avoiding eviction, it will be looking for resources to address a growing need for this type of assistance to avoid homelessness.

By utilizing strategies like the “Housing First” concept, we are working to remove the instability that comes with being homeless by offering Rapid Re-housing resources. We have seen firsthand how people’s lives have been transformed once they are stabilized in housing that is supported with services that assist people to become self-sufficient.

The Department will continue to work with the Maricopa County, the City of Phoenix, and other community partners to address chronic homelessness in Maricopa County. The Men’s Overflow Shelter (MOS), operated by Central Arizona Shelter Services (CASS), in Phoenix, began in 2007 as a temporary, short term shelter in response to unusually high temperatures and heat related deaths of individuals experiencing street homelessness. However, the facility was not intended to remain open on a permanent basis despite housing an average of 500 people a night. In January 2014, the state fire marshal cited the MOS with five code violations. Various structural issues and upgrades to basic living conditions were cost prohibitive necessitating the need to close the facility. Working with our collaborative partners, Valley of the Sun United Way, Maricopa County, and the city of Phoenix we found short-term, mid-term, and long-term solutions to housing the individuals who depended heavily on the MOS facility. This coming together to work out a solution for the MOS has led to a renewed effort to look at the totality of all of these public and private efforts to end homelessness and a concerted effort to end homelessness together within the next five years.

Solutions:

The Department is taking a multi-pronged approach, by continuing to offer foreclosure assistance and looking for ways to avoid evictions to avoid homelessness in the first place; and then working with innovative approaches to re-house those persons and households who fall into homeless.

To assist still struggling homeowners, the Save Our Home AZ (SOHAZ) program continues to successfully assist Arizona homeowners who are either facing a potential foreclosure or are significantly underwater with their mortgage payments. Moving forward, the Department will: (1) continue to offer principal reduction assistance to homeowners who are living with the negative effects of paying against underwater mortgages; (2) continue to provide principal reduction assistance, when feasible, to buy down mortgages to an affordable payment for underemployed Arizonans; and (3) the Program will also continue to provide monthly mortgage assistance to homeowners who are completely unemployed or for whom a principal reduction is not a feasible solution. Such financial assistance is given as a loan so that as the housing market improves, homeowners who sell an assisted property may be repaying a portion of the assistance back to the State to recycle for future use.

People experiencing homelessness will continue to be identified through various outreach efforts and referred to the access points either for singles or families. Individuals generally access emergency shelters first and then are assessed for the appropriate housing interventions. Outreach teams identify individuals and families experiencing homelessness. The common assessment tool known as the Service Prioritization Decision Assessment Tool (SPDAT) is now being utilized to assess the needs of the individuals or families and match them to the most appropriate intervention. Often this can entail diversion, rapid-re-housing, or permanent supportive housing. The SPDAT has undergone rigorous testing. It has been reviewed by experts in healthcare, mental healthcare, housing and homelessness. It is effective in a range of population from an age, gender, and cultural perspective. The core premise is to get the right household to the right program at the right time to end homelessness, based upon evidence of strengths, understanding of needs and housing status.

The SPDAT has enhanced the homeless assistance providers’ ability to better serve in that it has reduced subjectivity and increased

objectivity in referring and working with people to see that they obtain the best service and housing for their needs. With agreement on using the same assessment tool, there is now consistency in the evaluation process. The use of SPDAT will greatly improve the screening processes, better serving homeless populations to get to the type of assistance they individually need.

The Department is focused and committed to finding permanent supportive housing options which are more effective and less costly than traditional shelter services. It does this by providing funding to build rental facilities that are designed to address the needs of formerly homeless individuals and families, and by providing Rapid Re-housing rental assistance, to assist those homeless individuals and families to simply need a stabilized living situation to recover. Working with our housing partners, we will continue to work on permanent supportive housing solutions, and other ways to reduce Arizona’s homeless population.

Beginning in FY2018, the Department will be working with the Arizona Department of Corrections and other state agencies, to address housing issues of individuals exiting Corrections facilities in order to avoid homelessness and to provide more stable housing situations in order to aid in the reduction of recidivism.

Issue 3 Practicing Fiscal Responsibility

Description The Department will practice fiscal responsibility by providing efficient and effective financial services; wisely investing available resources; and addressing the challenging lack of resources in Arizona to improve the state’s most critical housing problems by finding innovative ways to finance the Department’s mission without general fund support.

Solutions:

Utilizing the Arizona Management System (AMS), the Department will continue to implement lean management practices that will assist with the most efficient and effective financial services and will lead to the wisest investing of the Department’s available resources.

The Department will continue to focus on addressing the challenging lack of resources in Arizona to improve the State’s most critical housing problems by finding innovative ways to finance the Department’s mission without general fund support. Prior to the economic and ensuing state budget crises, the Department was the beneficiary of excess funding from the State’s Unclaimed Property Fund, through a legislated formula of 55 percent of the fund, which was annually deposited into the State Housing Trust Fund. This resource amounted to approximately \$30 million a year that the state was dedicating to helping address affordable housing needs throughout the state. This was an important resource, in that it allowed the Department to address housing problems that no federal funding resource addresses. These types of activities included the development and support of homeless shelters, tribal housing issues, disaster-related housing assistance, emergency repairs for low-income homeowners such as roof and heat and air conditioning repairs, emergency eviction prevention programs, and other desirable activities for which no other resources exist. In FY2017, the Department began to be the beneficiary of excess fees earned through the State’s mortgage programs, now operated by the Arizona Industrial Development Authority, which will be deposited into the State Housing Trust Fund. The Department will be looking for other such ways to finance its activities without putting a burden on the Arizona taxpayer.

INDEPENDENT REDISTRICTING COMMISSION

Raymond Bladine, Executive Director

Phone: (602) 542-5221

Arizona Constitution, Article IV, Part 2, Section 1

Mission:

To administer the fair and balanced redistricting of congressional and legislative districts for the State of Arizona.

Description:

The Independent Redistricting Commission was established with the approval of Proposition 106 by voters in November 2000. The Commission has five members, four of whom are selected by the House and Senate majority and minority leadership. The final member is selected by the other four members and cannot be registered with a political party already represented on the Commission. The five-member Commission is responsible for redrawing Arizona's congressional and legislative district boundaries based on the decennial census.

Issue 1 STRATEGIC ISSUE: CONTINUOUS IMPROVEMENT AND WORKPLACE SAFETY

Description VISION

The best state in the proactive, collaborative, and steadfast protection of the life, health, safety, and welfare of the workforce.

MISSION

To efficiently administer and effectively oversee all applicable laws related to the protection of life, health, safety, and welfare of employees within the state.

AGENCY DESCRIPTION

The Industrial Commission of Arizona (ICA) was established to oversee laws protecting the life, health, safety and welfare of Arizona workers. The ICA administers the state's workers' compensation act and other employee protections such as laws related to occupational safety and health, minimum wage, unpaid wage claims, and youth employment. The ICA also provides workers' compensation benefits to claimants of uninsured employers and bankrupt self-insured employers.

EXECUTIVE SUMMARY

The Industrial Commission's 2019 strategic plan is being driven by proactive, collaborative workplace safety and continually enhanced online customer service. Many objectives towards these goals which were in the development stage last year now move to the implementation, sustainment, and expansion phases.

With a burning platform to protect and assist workers both before and after a workplace injury occurs, and to work with employers in the promotion of workplace safety, we will continue to focus on assisting high hazard industries and increasing the rate of risks eliminated in the state's workplaces before injuries occur. The challenge of limited external awareness of the safety partnerships we can form with employers in the community is being addressed with enhanced outreach.

A solid foundation has been established to provide extensive online customer service through online forms and portals serving functions throughout the agency saving stakeholders time and money. Continual improvements and expansion of the online experience will continue through internal insight and customer input.

Solutions:

Goal 1: Model state for workplace safety and health

Measure: Number of workplace injuries among benchmarked states; Percentage of opioid prescriptions in Arizona's workers' compensation system

Objectives:

- a. Increase high-hazard industry consultation visits by 10% to improve workplace safety
- b. Increase Safety and Health Achievement Recognition Program (SHARP), Voluntary Protection Program (VPP), and Public Entity Partnership Program (PEPP) program participation by 10% to enhance safety awareness and collaboration
- c. Achieve agency Voluntary Protection Program (VPP) certification to serve as role model for other agencies and employers
- d. Reduce percentage of opioid prescriptions in the workers' compensation system by 5%

Goal 2: Operational excellence through continuous improvement

Measure: Number of breakthrough goals achieved annually

Objectives:

- a. Implement electronic file management system for agency standard work
- b. Document standard work for 100% of program core processes on agency scorecard

c. Achieve two breakthrough goals

Goal 3: Modern and efficient customer service

Measure: Percentage of agency programs with online customer service

Objectives:

- a. Deploy new agency Claims Division and Administrative Law Judge Division computer systems with integrated customer document management and workflow automation
- b. Create new customer-focused website pages for all agency divisions

Goal 4: High performing workforce focusing on continuous improvement

Measure: Percentage of employee's who take part in professional development and cross training opportunities.

Objectives:

- a. Develop skill matrices for all agency positions with defined career paths
- b. Increase agency employee professional development training by 50%

WORKERS COMPENSATION CLAIMS ASSURANCE					
Ruby Tate, Manager					
Phone: (602) 542-4661					
A.R.S. § 23-901, et seq.					

Mission:

To ensure that all workers' compensation claims are processed in accordance with the laws and rules of Arizona.

Description:

This program oversees activities of insurance carriers, self-insured employers, and third-party administrators to ensure the proper processing and payment of workers' compensation claims, which includes assessing penalties for bad faith or unfair claims processes and ensuring that claims are accepted or denied within 21 days of receipt of notices of claim. The Claims Division oversees the administration of medical and indemnity benefits for workers' compensation claims. ADJUDICATION OF DISPUTES

Michael A. Mosesso, Chief Judge
 Phone: (602) 542-5241
 A.R.S. § 23-941

Mission:

To resolve disputed matters in workers' compensation, youth employment, and wages efficiently, impartially and equitably as the administrative tribunal of the ICA in matters that arise under the jurisdiction of the ICA.

Description:

The vast majority of matters that are brought before the ALJ Division involve resolution of disputes in workers' compensation cases arising out of and during the administration of claims by insurance carriers, self-insured employers or the ICA as well as decisions made by the ICA. In addition, the ALJ Division hears matters arising under A.R.S. Title 23, youth employment, wage disputes, minimum wage cases, and earned paid sick time cases. Binding arbitration cases under A.R.S. § 38-961 (Public Safety Employees) are also heard by the ALJ Division.

LEGAL COUNSEL

Gaetano Testini, Chief Counsel
 Phone: (602) 542-5781
 A.R.S. § 41-192 (G)

Mission:

To further the strategic goals of the Industrial Commission of Arizona by: (1) skillfully managing the Commission's legal affairs; (2) providing timely and reliable legal advice and services that foster sound decision-making in all areas of operation; (3) proactively pursuing collection efforts; (4) promoting business compliance with workers' compensation coverage laws; and (5) recommending appropriate policies, practices, and procedures that minimize risk.

Description:

The Legal Division represents the Special Fund, ADOSH, and the Labor Department in all legal matters affecting or involving these Divisions. The program promulgates rules for the Agency, provides legal advice as requested by Commission and agency staff, represents the Agency in personnel matters, initiates collection of no-insurance accounts receivables and third party liens, and operates a program for processing and collecting of other delinquent accounts. The program also operates a compliance program that identifies Arizona employers who are operating without workers' compensation insurance.

Issue 1 NAIC Reaccreditation

Description The NAIC Accreditation Program maintains standards that promote sound oversight of insurer solvency. State insurance departments must meet baseline standards, must undergo annual interim reviews, and every five years must undergo a full on-site accreditation review. During the latter part of Fiscal Year 2013, the NAIC performed its full accreditation review and reaccredited the ADOI. The ADOI is undergoing a full accreditation review again during FY 2019. The ADOI will continue to propose legislation or rulemaking, as necessary, to ensure Arizona's laws meet all NAIC accreditation standards.

Solutions:

STRATEGY 1.1: Administer solvency oversight responsibilities with resources and practices that meet NAIC accreditation standards. NAIC accreditation is vital to preserving state-based regulation because it means that state regulators have the laws, personnel, funding, procedures, and practices needed to effectively regulate the insurance industry's financial solvency. If the ADOI lost its NAIC accreditation, Arizona-domiciled insurers would be subject to increased direct regulation and oversight by other states, in turn, leading insurers to potentially move their domicile and operations to other states.

STRATEGY 1.2: Continue to be involved in NAIC working groups charged with developing and improving standards for insurer financial solvency and promote standards that are consistent with ADOI's vision (effective insurance consumer protection with minimal regulatory and taxpayer burden).

STRATEGY 1.3: Continue to employ Arizona Management System principles and tools to continuously improve ADOI's solvency oversight activities.

Issue 2 Federal and State Legislation

Description Certain federal legislation may expand or limit the state's powers to regulate insurance; and other states' laws may impact standards promoting uniformity among state insurance departments; both federal and state laws may increase or reduce bureaucracy in Arizona on customers and stakeholders, and may prove to have undesirable consequences.

Solutions:

STRATEGY 2.1: Continue to collaborate with industry and consumer groups, and other state, federal and international insurance regulators to continuously improve the efficiency and effectiveness of the state-based regulatory system to foster a sound, competitive, and market-responsive insurance industry within Arizona, nationally and globally. The expanding global focus of many major insurers requires state regulators to work to strengthen the international insurance regulatory system. ADOI will continue to communicate and coordinate with industry, other state regulators, federal entities and international supervisors to facilitate effective, efficient and cooperative oversight of the insurance industry.

STRATEGY 2.2: Work with Arizona policymakers and insurance industry representatives to propose and enact legislation that continues to promote efficiencies created by multi-state uniformity while enabling innovation in the types of insurance businesses that can be formed, and in the types of insurance products and the ways insurance can be made available to Arizona insurance consumers. One of the most critical issues facing Arizona and all other states is the modernization and preservation of state-based insurance regulation in order to prevent the insurance industry from being subjected to a morass of disparate requirements imposed by individual states and to minimize the potential for federal usurpation of insurance regulation, which would vastly reduce service levels to insurance consumers and insurance industry constituencies. The ADOI shall continue to render assistance to policymakers, industry and consumers to identify and propose ways to make Arizona laws as responsive as possible to the needs and expectations of its customers and stakeholders. We will continue to find ways to accomplish this that minimize costs to the insurance industry, which are ultimately borne by insurance consumers.

STRATEGY 2.3: Enforce Arizona insurance laws in a reasonable and consistent manner that promotes fair and strong competition among industry participants, and that minimizes red tape.

STRATEGY 2.4: Continue to apply Arizona Management System principles and practices to implement efficient solutions in response to changes in laws.

STRATEGY 2.5: Develop and promote information resources to help insurance consumers understand how to obtain help for insurance coverage for which state regulation is preempted by federal law. The ADOI has already developed and is improving and expanding a resource on its web site to help guide insurance consumers on how best to resolve insurance complaints that are outside the ADOI's jurisdiction.

Issue 3 Health Insurance Marketplace Dynamics

Description Arizona citizens need access to affordable health insurance, and Arizona businesses need to be able to offer health benefits to their employees in order to remain competitive and to promote employee wellness and productivity. The ability of Arizonans to be insured through individual or group health plans reduces the burdens on Arizona’s public (Medicaid/AHCCCS) system and on Arizona hospitals and emergency care providers who must administer emergency care regardless of whether the patient has insurance or is able to pay for the care.

Solutions:

STRATEGY 3.1: Work collaboratively and proactively with Arizona’s health insurance industry to help make health insurance available and affordable to Arizona citizens and businesses. This includes finding ways to best respond to evolving and uncertain federal health insurance policy so that insurers can remain financially sound and interested in offering products in Arizona’s health insurance market.

Issue 4 Technology Opportunities

Description Technology has played major roles in how ADOL administers its responsibilities, in the types of insurance products that are emerging, and in the focus of insurance industry oversight.

Technology that the NAIC and its affiliates make available to state insurance departments allows the ADOL to annually process 70,000 license and renewal applications for insurance professionals with only five employees; perform in-depth analysis of the financial conditions of insurance companies doing business in Arizona; receive and efficiently correspond with insurers concerning insurance policy forms, rates, rules and advertising they propose to use; collect, track and maintain information concerning complaints received from insurance consumers; and, collect over \$500 million in tax revenue plus tax-report-related data from insurance-entity taxpayers.

Advances in technology have led to new “insure-tech” companies seeking to enter Arizona’s insurance market, which could lead to easier to obtain, more focused and less expensive insurance solutions for citizens.

Insurers have been employing technology-based strategies to develop complex algorithms to improve the preciseness with which they can price insurance in order to maximize competitiveness while helping ensure their solvency.

Solutions:

STRATEGY 4.1: Iteratively improve processes, technology systems and information resources to allow ADOL to manage a growing workload while minimizing resource requirements. This includes continuing to initiate and iterate on Arizona Management System improvements to make ADOL operations increasingly efficient; creating interfaces with, and otherwise exploit capabilities of, resources made available to state insurance departments (through the NAIC) and Arizona state agencies (through ADOA); and continuing to use tools and information to minimize data and system cybersecurity vulnerabilities.

STRATEGY 4.2: Promote a welcoming, open-minded, and efficient environment that encourages insurers to offer innovative products in Arizona’s insurance market. The ADOL maintains a customer-centric approach to requests to help reach best alternatives where requests appear to conflict with laws.

STRATEGY 4.3: Enforce Arizona insurance laws in a reasonable and consistent manner that promotes fair and strong competition among industry participants, and that minimizes red tape.

STRATEGY 4.4: Work with Arizona policymakers and insurance industry representatives to modernize Arizona laws to accommodate emerging insurance product needs while keeping Arizona policyholders and taxpayers safe.

STRATEGY 4.5: Partner with other Arizona state agencies to make formation, entry and participation in the Arizona market fast, easy and cost effective.

Issue 5 Consumer Education

Description The evolution of new insurance products, federal and state legislation, and advances in technology, present challenges to Arizona citizens and businesses, both in terms of their obtaining insurance that provides coverage that will best meet their needs, and in understanding their rights under their policies and Arizona law.

Solutions:

STRATEGY 5.1: Implement ways to facilitate and accelerate resolutions to problems Arizonans encounter in receiving the benefits to which they are entitled under insurance contracts. ADOL employs both proactive and reactive mechanisms to protect insurance consumers. Proactive measures include reviewing insurance rates and policy forms for certain types of insurance to make sure rates are not excessive, not insufficient (which could impair an insurer's ability to pay claims and other contracted obligations) and not unfairly discriminatory. Reactive measures include promptly responding to consumer complaints, as well as evaluating the most frequently raised questions and problems and creating ways to help citizens receive information and assistance as quickly as possible.

STRATEGY 5.2: Improve ADOL's web site, publications, and other resources to inform and educate Arizona's insurance industry and insurance consumers. Continue to link to unbiased information produced by the NAIC and by other organizations, and highlight information of contemporaneous importance.

JUDICIAL SYSTEM

Hon. Scott Bales, Chief Justice
 Phone: (602) 452-3307
 See Individual Programs

Mission:

To provide Arizona citizens with an independent, accessible, and integrated judicial system that maintains a high degree of public trust and confidence; serves as an asset by dispensing justice, resolving human disputes, and conducting its administrative functions in a fair, equitable, and just manner; and operates efficiently and expeditiously.

Description:

The Arizona Judicial Branch is an integrated, decentralized judicial system implementing its constitutional and statutory responsibilities throughout all levels of government - State, county, and city. The Judicial Branch consists of the Supreme Court, Court of Appeals, Superior Court, and limited jurisdiction (municipal and justice of peace) courts. The Arizona Constitution provides that the administrative supervision over all courts rests with the Chief Justice of the Supreme Court. The Administrative Office of the Courts is charged with assisting the Chief Justice in discharging his or her administrative duties. The Arizona Judicial Council, created in 1990, assists the Supreme Court and the Chief Justice in developing and implementing policies and procedures designed to accomplish the integration of the court system pursuant to the Court's constitutional mandate.

Issue 1 Goal 1 Promoting Access to Justice

Description Arizonans look to our courts to protect their rights and to resolve disputes fairly and efficiently. To serve these ends, Arizona’s judicial branch must work to ensure that all individuals have effective access to justice. This goal is advanced not only by examining legal representation for moderate and low-income persons, but also by helping self-represented litigants and others navigate the judicial process and by using technology to make courts more accessible to all.

Arizonans look to our courts to protect their rights and to resolve disputes fairly and efficiently. To serve these ends, Arizona’s judicial branch must work to ensure that all individuals have effective access to justice. This goal is advanced not only by examining legal representation for moderate and low-income persons, but also by helping self-represented litigants and others navigate the judicial process and by using technology to make courts more accessible to all.

Solutions:

1-A Access to Justice

Our courts should work with others in government and our communities to assess the legal needs of modest to low-income individuals and to develop strategies to better serve those needs.

- Create a statewide commission, including members of the public, to study and recommend ways to promote access to justice.
- Identify ways to promote participation by lawyers in access to justice initiatives and recognize them for their professional and financial contributions.
- Identify ways to improve funding for the judicial branch and the courts’ ongoing ability to provide access to court services.

1-B Services for self-represented litigants

Many people cannot afford or choose not to obtain legal representation in court proceedings. Consequently, the courts must be prepared to assist self-represented individuals in understanding court processes and legal procedures.

- Expand access to web-based forms, e-filing, and information describing legal terms and court procedures.
- Ensure court forms and information, whether in electronic or paper form, are easily understandable.
- Collaborate with legal services agencies and the Arizona Foundation for Legal services and education to develop strategies to expand legal and other self-help services for modest- to low- income litigants.
 - Provide front-end triage and referral services to assist self-represented litigants in identifying and obtaining appropriate services.
- Explore programs to recruit and train college students and other volunteers to work in legal self-help centers to:
 - o Assist with legal workshops,
 - o Help complete legal forms, and
 - o Provide information and referrals.
- Explore the use of technology-based access to justice solutions being developed in other courts.

1-C Services for limited English proficient litigants, defendants, and other court participants

Limited English language skills should not be a barrier to accessing justice. Arizona’s courts have significantly expanded access to interpreter services and translated forms, instructions, and court information. Work remains to be done, however, particularly given our evolving and diverse population and changing technology.

- Develop strategies for increasing the availability and quality of court interpreters and interpreter services, including:
 - o Expanding the remote video interpreting project, and
 - o Identifying other opportunities to use technology in providing language assistance services to litigants, witnesses, and others.
- Develop strategies to expand the use of alternative language court forms, instructions, and information both at courthouses and online.

1-D Access to courts and court information using technology

Technological change provides ongoing opportunities for the court system to enhance and increase access to courts, court proceedings and court information. Previous strategic agendas have set Arizona courts on a path to increased electronic access for

the public and court community alike. This agenda continues those efforts and seeks to further advance the ability for court users to locate information, file documents and receive court notifications electronically, and remotely participate in court proceedings.

- Expand electronic access to court documents and data with appropriate protections for security and privacy.
- Extend e-filing to courts statewide.
- Establish a web-based online payment system for drivers wanting to plead responsible and pay civil traffic tickets and minor misdemeanor charges.
- Create an electronic noticing system to remind parties, probationers, and other court participants of upcoming court dates.
- Identify other opportunities for video hearings and other remote electronic court appearances.

Issue 2 Goal 2 Protecting Children, Families, and Communities

Description The Arizona Judiciary has long made it a priority to protect our state’s most vulnerable populations. We have reformed our juvenile courts to provide timely hearings and due process in child neglect and dependency cases. We have reformed our probate rules and laws to ensure our elderly have adequate protections against exploitation and abuse. Every day, we protect our communities by holding juvenile and adult probationers accountable and providing the treatment and rehabilitative services they need to once again become productive and law-abiding members of the community.

While continuing our commitment to protecting the young and elderly, we also should expand the use of problem solving courts to better serve individuals who may have specialized needs. Our communities look to courts not only to decide cases, but also to solve problems.

Solutions:**2-A Center for evidence-based practices**

“Evidence-based practices” are identified by rigorously studying the effects of different policies and processes. Important research regarding evidence-based practices in the legal system is underway throughout the nation. Although the Arizona judiciary has successfully incorporated evidence-based practices in probation services, Arizona’s courts must stay current with this research and remain a leader in implementing successful approaches. The Arizona Center for evidence-Based Practices will support these efforts. The Center will bring together judicial leaders, researchers, and practitioners to design the best programs to promote juvenile and adult offender accountability, rehabilitation, crime reduction, and community protection.

- Improve and expand the use of evidence-based practices to determine pre-trial release conditions for low-risk offenders.
- Evaluate and, as appropriate, implement new or expanded evidence- based programs for Arizona’s Adult and Juvenile Probation services. Programs to evaluate include:
 - o Supervision of the seriously mentally ill,
 - o Positive adult mentoring of juvenile probationers,
 - o Effective practices to reduce the risk of violence, especially gun violence involving probationers,
 - o Effective community re-entry for adults and youth after incarceration or detention,
 - o Family inclusive probation supervision and services, and
 - o Effective community supervision programs to reduce adult and juvenile recidivism.
- Encourage and support the use of evidence-based services and interventions for children and families for reunification and permanency in dependency cases.
- Encourage and support the educational needs of all youth under court supervision as a critical factor in future well-being.

2-B Problem-solving courts

Problem-solving courts must also follow evidence-based practices to succeed. Although some Arizona courts have implemented problem-solving courts, there is a continuing need to create courts designed to serve the distinct needs of certain individuals, such as homeless courts, drug courts, veterans courts, and mental health courts.

- Collaborate with justice partners, treatment providers, and other community service entities to expand problem-solving courts including drug, homeless, veterans, mental health, and domestic violence courts.
- Develop evidence-based practices bench books, training, and other information for judges assigned to problem-solving courts.
- Identify strategies, including statutory changes, allowing multi-court collaboration and use of technology to establish and expand problem-solving courts across jurisdictional boundaries.

2-C Regulating the practice of law to protect the public

The Supreme Court regulates the practice of law in order to protect the public. Litigants and other represented parties expect competency and professionalism from their lawyers. The Supreme Court promotes these goals by establishing and enforcing standards of competency and ethical conduct and by taking disciplinary action against those who violate these standards.

- Review attorney admission requirements and protocols to determine if changes are needed to promote higher standards of lawyer competency and professionalism.
- Review the current Supreme Court Rules establishing the State Bar to assess how well the current governance structure allows the State Bar to fulfill its mission of protecting the public and improving the legal profession.

-
- Review rule changes proposed by the American Bar Association’s “Commission on Ethics 20/20” to determine if changes to the ethical rules for Arizona attorneys are desirable.
 - Continue to evaluate the Arizona Bar examination requirements to ensure that the exam is evidence-based, tests lawyer competency, protects the public, and improves the legal profession.
 - Develop best practices training for parents’ counsel in juvenile dependency cases.
 - Explore ways to enhance mentoring for new attorneys.

2-D Human trafficking

Human trafficking, often referred to as modern-day slavery, is commanding increased attention from courts and communities across the nation. Trafficking threatens some of our most vulnerable individuals, including young people who have been involved in the foster care system or juvenile courts. Human trafficking raises many challenges for state courts, which need to better identify human trafficking crimes and victims, develop strategies to handle such cases, assist persons who are victimized, and protect those at particular risk of becoming victims.

- Collect and analyze information on the scope and impact of human trafficking-related cases in Arizona courts and develop recommendations on the appropriate role of the state court system in addressing this issue.

Issue 3 Goal 3 Improving Court Processes to Better Serve the Public

Description Providing access to justice requires our courts to continually strive to maintain and improve upon existing processes and systems which ensure effective and efficient case management and use of information and resources. Judges and court staff need the appropriate resources and training to ensure all cases are heard in a timely manner and processed efficiently. Also, our justice system partners and the public should be able to access courts and court information in the most efficient ways possible. While implementing planned technology improvements, we must also find ways to improve existing practices and policies to further ensure that public resources are used effectively, efficiently, and accountably.

Solutions:**3-A Judicial system process improvement**

As case filings increase and more people interact with the courts each day, the court system must continue to identify ways to improve judicial system processes. This effort requires that judges, clerks, court administrators, and staff have the tools needed to timely and efficiently process cases.

- Improve timeliness and efficiency of civil, criminal, juvenile, family, and probate case processing in Arizona courts by:
 - Adopting case processing time standards,
 - Revitalizing caseload management efforts statewide, including principles of differentiated case management, court control over the pace of litigation, and compliance with rules governing case processing time requirements,
 - Providing case management system enhancements, including reporting capabilities,
 - Implementing e-bench tools that allow judges to more efficiently manage and resolve cases,
 - Providing judicial workload tools to assist presiding judges when making case assignments, and
 - Implementing relevant performance, customer service, and case management measures.
- Identify and implement ways to improve the process of jury selection and service.
- Review certain Arizona Rules of Court to restyle, simplify, and clarify the rules.
- Identify and implement case management and judicial officer assignment practices for commercial litigation to timely resolve cases and reduce costs to litigants and the court.

3-B Courthouse facilities and security

Arizona's courts are forums for resolving difficult issues that affect people in vital aspects of their lives, including cases involving domestic relations, parental rights, and individual liberty. Emotions can run high in court proceedings. Our courthouses must be a safe place for all who enter their doors.

- Establish courthouse and courtroom security standards.
- Conduct a needs assessment for courthouse security infrastructure.
- Develop training standards and skill development opportunities for court security officers.

3-C Next generation case management systems

Case management systems support the work of the courts and probation services. Many of these systems have been in place for more than a decade and require updating or replacement. This effort will take time and considerable investment of human and financial capital.

- Implement Arizona Judicial Automated Case System (AJACS) in limited jurisdiction courts.
- Fully implement Juvenile On-Line Tracking System (JOLTSaz) in juvenile courts.
- Integrate Adult Probation Enterprise Tracking System (APETS) with AJACS.
- Enhance or replace appellate case management systems.

3-D Court data repositories and justice system data exchanges

Technology has enabled the court system to vastly improve court processes and provide quick access to court information. New technologies and data exchange protocols create new opportunities for data sharing among justice system entities. The judicial branch must continue initiatives to provide criminal justice system participants access to accurate and complete data needed to perform their duties.

- Implement the Central Case Index system to enable the flow of critical court data to and from federal, state, and local justice

system entities.

- Collaborate with other justice system entities to develop and implement data collection and exchange strategies that leverage technology, including:
 - o Expanding e-warrants project to other justice system entities,
 - o Modernizing the state's warrant repository system,
 - o Making mental health court orders available to appropriate criminal justice and treatment officials,
 - o Making condition of release information available to appropriate criminal justice officials, and
 - o Improving accuracy and completeness of the state's criminal history repository and National Instant Criminal Background Check System (NICS).

Issue 4 Goal 4 Enhancing Professionalism within Arizona's Courts

Description Judicial excellence, staff competency, and professionalism are critical to maintaining Arizona's national reputation for innovation and leadership within its judiciary. Court personnel at every level must maintain the high level of service and professionalism exhibited daily in courts across the state.

Solutions:

4-A Judicial excellence

A highly respected judiciary is at the core of judicial excellence. The judicial branch must continue the professional development of new and veteran judges to ensure they adhere to the highest standards of competence, conduct, integrity, professionalism, and accountability.

- Examine current systems for ensuring new and veteran judges are well-prepared for the courtroom, including but not limited to:
 - o Assessing new judge training and orientation,
 - o Establishing a skill enhancement program for experienced judges based on mentoring and education services, and
 - o Ensuring an efficient and effective judicial oversight process exists to monitor judges' performance and to address public concerns.
- Expand educational opportunities for appellate judges.
- Collaborate with the State Bar on educational programs of mutual interest to judges and lawyers.
- Conduct a judicial education needs assessment to identify new or enhanced training for judges including, but not limited to:
 - o Cultural competency and implicit bias,
 - o Procedural fairness,
 - o Forensic science,
 - o Delinquency case processing, and
 - o Effective use of technology on the bench, in chambers, and remotely.
- Develop web-based training on best judicial practices for protective order procedures and criminal case proceedings involving child victims.

4-B Judicial branch leadership

Developing effective court leadership is essential to maintaining a high level of professionalism and competency within the judicial branch.

- Develop judicial leadership and leadership team programs.
- Prepare court leadership for next generation case management systems and technology.
- Provide resources for presiding judges and other court leaders to effectively plan for succession in court management.

4-C Workforce development

Judicial branch employees who are not judges must possess the tools and skills needed to properly and timely process cases, accurately maintain court records, and properly supervise juvenile and adult offenders in the community. Our workforce development plans must include training methods that are convenient, timely, and relevant.

- Enhance the use of web-based video/audio conference capability to train court employees.
- Develop guidelines on the use of social media by court employees in the workplace.
- Continue efforts to recruit and retain a culturally diverse workforce at all levels within the judicial branch.
- Evaluate the need for wellness initiatives for judicial and other court staff.

Issue 5 Goal 5 Improving Communications and Community Participation

Description Public awareness of the role of the judicial branch and what courts do on a daily basis is essential to ensuring trust and confidence in a judicial system that seeks to provide fair and impartial access to all. With so many media and social networking choices available today, courts can improve how they inform the public about court events and opportunities to serve as volunteers.

Solutions:

5-A Volunteerism

Arizona’s courts at all levels depend on volunteers to assist in fulfilling the judiciary’s many functions and responsibilities—from judicial selection and performance review, to foster care review boards and CASA volunteers, to providing community outreach. While each component of the judiciary continually seeks out a talented and diverse volunteer base, the judicial branch as a whole can do more to enhance the importance and reward of serving as a volunteer in court programs.

- Establish public service recruitment and recognition programs to further engage community participation in our judicial system.
- Identify ways to enlist the help of retired judges and lawyers to provide community outreach and to act as ambassadors for the judiciary.
- Continue efforts to recruit volunteers who reflect the diversity of our communities.

5-B Communications with the public and education communities

In a world of nearly instantaneous access to information, Arizona courts must be proactive in communicating with the general public, elected officials, and other government entities.

- Communicate effectively with the public about the role of courts in a free society, how courts serve our communities, and progress in achieving this agenda’s goals.
- Promote civic education by supporting programs such as “We the People,” mock trial, and iCivics; partnering with teachers and others in the education community; and conducting appellate arguments in local schools and other community locations.
- Use juror “downtime” to provide prospective jurors with information about the role of courts and public involvement in the justice system.
- Update speaker’s toolkit for judges and other court leadership to use when making presentations.
- Increase use of social media to improve communications with the public.

5-C Communications within the branch and with other branches of state and local government

The judicial branch has many components. Although increased integration and technology have improved communications, Arizona courts should strive to further enhance communications across programs, jurisdictions, and branches of government.

- Reinststitute the “View from the Bench” program for the Superior Court and limited jurisdiction courts and invite local and state policy makers to participate.
- Publish an electronic newsletter and identify other ways to improve communication within the branch regarding projects and important events.
- Identify ways to improve communication among the branches of county and city governments.

COURT REPORTERS

Mark Wilson, Division Director
 Phone: (602) 452-3362
 A.R.S. §§ 32-4001 et. seq.

Mission:

To certify individuals in the state who engage in the stenographic or voice writing reporting of proceedings in any Court and who take depositions for use in any Arizona court.

Description:

A.R.S. Title 32, Chapter 40, requires individuals who engage in stenographic or voice writing reporting of proceedings for use in any court in this state be certified by the Board of Certified Reporters. The Board administers examinations for the certification of reporters and recommends to the Arizona Supreme Court rules to implement and enforce the provisions of the law. The Board also has authority to investigate alleged violations of certified reporters and to take appropriate disciplinary action. The program began during FY 2000; effective January 1, 2007, voice writer reporters must be certified, in addition to stenographic reporters.

CONFIDENTIAL INTERMEDIARY

Mark Wilson, Division Director
 Phone: (602) 452-3362
 A.R.S. § 8-134

Mission:

To train, certify and monitor Confidential Intermediaries to facilitate contact between adoptees or adoptive parents and birth parents and biological siblings while protecting court and agency records and anonymity of those who desire it.

Description:

The Board certifies Confidential Intermediaries (CIs), as specified by the court, to act as a liaison between an adoptive parent, guardian or an adoptee or a birth parent or birth sibling in establishing contact. The CI has statutory authority to access confidential court and agency adoption records to facilitate the search. The program facilitates voluntary contact, while protecting the confidentiality of those who desire their adoption records to remain sealed. The Arizona Supreme Court has adopted rules and procedures to implement and operate the program, and established fees, training, and standards of conduct for CIs with appropriate disciplinary action as necessary. Effective January 1, 2008, CIs have the statutory authority to facilitate contact between siblings who have been separated as the result of dependency/foster care.

PRIVATE FIDUCIARY

Mark Wilson, Division Director
Phone: (602) 452-3362
A.R.S. § 14-5651

Mission:

To certify, audit and discipline licensed fiduciaries and fiduciary businesses who are court appointed to serve as guardians for incapacitated persons, conservators for persons in need of protection and personal representatives for decedent estates.

Description:

A.R.S. § 14-5651 requires persons, who serve for a fee and are unrelated to a person or not nominated by will, and are appointed by the Superior Court, to be licensed by the Arizona Supreme Court. The program licenses individuals who meet the statutory requirements and serve by court appointment as guardians, conservators, and personal representatives. The program develops and enforces the rules and policies necessary to implement A.R.S. § 14-5651. The program provides initial and renewal licensure for public and private fiduciaries. The program investigates alleged misconduct by fiduciaries and takes appropriate disciplinary action as necessary. The program conducts random compliance audits of licensed fiduciaries.

DEFENSIVE DRIVING SCHOOL REGULATION

Mark Wilson, Division Director

Phone: (602) 452-3362

A.R.S. §§ 28-3391 to 28-3399

Mission:

To train, certify and monitor the use of defensive driving schools and defensive driving instructors by the Arizona courts.

Description:

The program certifies and monitors defensive driving schools and instructors that may be used by the Arizona courts for diversion of traffic offenses and provides information to courts on the operation of the program. A statewide database is maintained to record defensive driving course completion and to verify eligibility for participation in the diversion program.

JUDICIAL EDUCATION

Jeffrey Schrade, Division Director
Phone: (602) 452-3000
ACJA 1-302, 1-108

Mission:

To improve the service the judiciary provides to the public and internal customers by increasing the expertise, skills and abilities of all judicial personnel through a comprehensive, relevant, accessible and high-quality system of judicial education.

Description:

In support of the division's mission, staff have an obligation to provide mandated training for certain categories of court personnel. This includes orientation for new limited and general jurisdiction judges; a certification academy and testing component for new probation officers; and offerings in required programs for judicial staff, including programs on the court system, communication skills, dealing with the public and current issues in the court. In these and other programs, the division strives to involve individuals in the court system in the planning and implementation of programs for their respective positions; to fairly provide programs for all categories of judicial personnel; and to utilize a variety of delivery mechanisms to assure the availability of programs for individuals of all job categories and geographic locations.

This program supports and maintains a statewide system of judicial education and manages oversight of personnel compliance with judicial education standards; maintains, staffs and facilitates a comprehensive system of curriculum and program development committees; maintains a statewide system of local training coordinators to sponsor and monitor local training; conducts and/or facilitates curriculum, program and faculty development programs/processes for statewide judicial education; coordinates and produces conferences, workshops, seminars, videos and broadcasts for judges and non-judge staff; and implements directives of the Committee on Judicial Education and Training and its subcommittees: the Judicial College of Arizona, the Committee on Probation Education, and the Judicial Staff Education Committee and the Court Leadership Institute of Arizona.

POST CONVICTION RELIEF

Kevin Kluge, Division Director/CFO
 Phone: (602) 452-3395
 A.R.S. § 13-4041

Mission:

To provide reimbursement to counties for state-funded representation of indigent defendants in first-time capital post conviction relief proceedings.

Description:

Laws 1996, Chapter 7, 7th Special Session provides that all indigent prisoners under a capital sentence are entitled to the appointment of counsel to represent them in the state PCR proceeding and requires the Supreme Court to appoint this counsel after the mandate affirming the defendant's conviction and sentence is issued. This legislation establishes a flat fee of \$7,500 to be paid to appointed counsel in a first state PCR proceeding unless the counsel is employed by a publicly funded office. The Supreme Court is required to reimburse the county, upon certification by the county that the amount is owed.

FAMILY SERVICES

Caroline Lutt-Owens, Director
Phone: (602) 452-3408
A.R.S. § 8-515.01

Mission:

To administer programs that are designed to ensure that the best interests of dependent children are served by providing a system of information, advocacy and review.

Description:

The Dependent Children's Services Division interacts with the courts, a variety of non-court agencies and organizations and the public throughout Arizona. The division administers three major programs: Foster Care Review Board, Court-Appointed Special Advocate and the Court Improvement Program. Other services include operating a parent assistance hotline program that provides court and other related information to parents and guardians whose children have been removed from the home by Child Protective Services.

This Program Contains the following Subprograms:

- ▶ Foster Care Review Board
- ▶ Court Appointed Special Advocate
- ▶ Model Court - Court Improvement Project

FOSTER CARE REVIEW BOARD

Lori Dennison, Program Manager
Phone: (602) 452-3408
A.R.S. § 8-515.01

Mission:

To ensure, through local volunteer review boards and a state advisory board, that children involved in dependency proceedings have a permanent placement plan consistent with their best interest.

Description:

The Foster Care Review Board is designed to assist the juvenile court judges. The boards are comprised of volunteer members who receive initial as well as on going training. The boards are responsible for reviewing, within six months of placement and every six months thereafter, the case of each child who remains in out-of-home placement and who is the subject of a dependent action. The case review determines what efforts have been made by the social services agency with whom the child has been placed, to carry out the plan for the permanent placement of the child. Review boards submit recommendations to the presiding juvenile court judge in each county to assist their court review and decision making process. The State Foster Care Board is statutorily required to review and coordinate the activities of the local boards. In addition, the State Board is mandated to make annual recommendations to the Supreme Court, the Governor, and the Legislature on the state's foster care statutes, policies, and procedures. Also included in this subprogram is the Parent Assistance Hotline. The hotline provides accurate information, education and referrals when children are involved with Child Protective Services (CPS), enabling parents and guardians to work more effectively with CPS and the juvenile court.

COURT APPOINTED SPECIAL ADVOCATE

Deidre Calcoate, Program Manager
 Phone: (602) 452-3583
 A.R.S. § 8-522

Mission:

To administer and monitor a community-based volunteer advocacy program in the Juvenile Court System for abused and neglected children.

Description:

The Arizona CASA Program is comprised of the state office, county programs, and volunteers who serve abused and neglected children. The state office administers the program by monitoring county programs to ensure compliance with all relevant statutes, orders, policies and procedures, and funding agreements. In addition, the state office provides services, including recruiting tools, training opportunities, and technical assistance and support to county programs and volunteers. County programs educate communities in order to recruit, maintain, and supervise qualified volunteers to advocate for children involved in juvenile court proceedings as required by A.R.S. §§ 8-522 to 8-523, and Arizona Rules of Court, Rules 22 and 22.1.

CASA volunteers are specially trained citizens who are appointed to an individual dependency case by presiding juvenile judges and function as independent advocates for children who are wards of the court. Volunteers help ensure that a child's right to a safe, permanent home is actively pursued. The CASA volunteer has three main roles: 1) to conduct an independent assessment of the case and advocate for needed services for the child and family; 2) to provide written reports and testimony to the juvenile court judge to enable the judge to make the best decision possible; and 3) to be a consistent presence in the child's life, acting as an advocate throughout the court proceedings.

The Court Appointed Special Advocate Fund receives 30 percent of unclaimed state lottery prize money pursuant to A.R.S. § 5-518 and 8-524.

MODEL COURT - COURT IMPROVEMENT PROJECT	
Rob Shelley, Program Coordinator	
Phone: (602) 452-3416	
A.R.S. § 8-824	

Mission:

To evaluate and improve Arizona's dependency case management in order to reduce the amount of time children spend in out of home placement.

Description:

In 1998, based upon a federal dependency court improvement initiative and the Pima County Model Court pilot, new laws governing dependency case time lines and processing were passed. The Court Improvement Program oversees the implementation of this re-engineering of the dependency court process. Program responsibilities include providing technical assistance, training and funding to juvenile courts as they implement the new and revised statutes and improve their handling of dependency petitions. This also includes the implementation of dependency operational reviews and expanding dependency data collection through the use of the Arizona Juvenile On-Line Tracking System, JOLTS.

JUDICIAL NOMINATIONS AND PERFORMANCE REVIEW

Kevin Kluge, Division Director/CFO

Phone: (602) 452-3395

AZ Constitution, Article VI, Sections 36, 42

Mission:

To nominate highly qualified individuals for appointment to the Supreme Court, the Court of Appeals, and the Superior Court in Maricopa, Pima and Pinal counties and to evaluate the performance of all justices and judges who stand for retention and provide the results of those evaluations to the voters before each retention election.

Description:

Vacancies on the Supreme Court or the Court of Appeals are filled by appointment by the Governor from a list of not less than three nominees for each vacancy submitted by the 16-member Commission of Appellate Court appointments. Vacancies on the Superior Court for Maricopa, Pima and Pinal Counties are filled by appointment by the Governor from a list of not less than three nominees for each vacancy as submitted by the 16-member Commission on Trial Court Appointments for Maricopa, Pima and Pinal Counties. The four commissions operate under Rules of Procedure adopted by the Supreme Court.

Judicial Performance Review provides a mechanism for surveying attorneys, litigants/witnesses, jurors, peers, court staff, and administrative contacts about the performance of all merit retention justices and judges. The surveys are conducted twice during each term of office. The "pre-election" includes public hearings and the opportunity to comment on a specific judge in writing. Information is disseminated to the public before each general election as part of the Secretary of State's "Voter Information Guide." This program complies with the Americans with Disabilities Act and Federal Minority Rights Voting Act requirements. The information is also reviewed with the judge as a tool for professional growth and improvement. The Commission operates under Rules of Procedure adopted by the Supreme Court.

COMMISSION ON JUDICIAL CONDUCT

Margaret Downie, Executive Director
 Phone: (602) 452-3200
 AZ Constitution, Article VI.I

Mission:

To investigate and resolve all complaints of judicial misconduct.

Description:

The Commission, comprised of 11 members, is an independent agency that has jurisdiction over all judges in the state, including Supreme Court justices, Court of Appeals judges, Superior Court judges, Justices of the Peace and municipal judges. It also has jurisdiction over commissioners, hearing officers, judges pro tempore, retired judges with temporary assignments, and all other judicial officers serving within the judicial branch of government. When all are taken into account, the Commission's jurisdiction extends to more than 570 judges and judicial officers throughout the state.

The Commission is required to investigate all complaints of judicial misconduct and may resolve them in one of several ways. Complaints that are frivolous or unfounded may be dismissed for lack of jurisdiction, insufficient grounds to justify investigation or no evidence of judicial misconduct. Cases involving serious misconduct are decided in formal hearings, similar to trials, that are open to the public. At the conclusion of a hearing, the Commission can formally recommend to the Supreme Court that a judge be publicly censured, suspended, removed or retired. Discipline in less serious cases may be handled informally.

JUDICIAL COMPENSATION

Kevin Kluge, Division Director/CFO

Phone: (602) 452-3395

AZ Constitution, Article VI, Section 9, A.R.S. § 12-120

Mission:

To fund the state portion of the salary and employee related expenses of Superior Court judges.

Description:

The Arizona Superior Court, which has at least one judge in every county, is the state's only general jurisdiction court. Additional Superior Court judges may be authorized in each county having a census greater than 30,000 inhabitants and upon petition by the Board of Supervisors to the Governor. A Superior Court judge may be authorized for each 30,000 inhabitants or majority fraction thereof. Superior Court judges hear all types of cases except small claims, minor offenses or violations of city codes and ordinances. One-half of the Superior Court judges' salaries are provided by the state as required by A.R.S. § 12-128.

ADULT PROBATION SERVICES

Kathy Waters, Division Director
Phone: (602) 452-3468
A.R.S. § 13-901

Mission:

To foster the continued development and effective implementation of a balanced approach to Adult Community Corrections, including protection of the public through offender accountability and rehabilitation, and restoration of the community primarily through the collection of restitution and completion of community service.

Description:

Arizona's adult probation system is decentralized, with each of the fifteen county probation departments reporting directly to either the presiding judge of the Superior Court in their respective county or the Court Administrator. The Adult Services Division of the Administrative Office of the Courts administers and oversees nine major state programs/funds which help support the adult probation system: Intensive Probation Supervision (IPS); Adult Standard Probation; Community Punishment Program (CPP); Criminal Justice Enhancement Fund (CJEF); Drug Enforcement Account (DEA); Interstate Compact (ISC); the Drug Treatment and Education Fund (DTEF); Transferred Youth (TY); and the Judicial Collection Enhancement Fund (JCEF). The Division works with the county probation departments to ensure adequate resources are available for them to meet required operational standards based upon applicable statutes, administrative orders and funding requirements. The Division also coordinates approximately 300 state vehicles provided for adult and juvenile probation and surveillance officers, facilitates training events, conducts research and statistical compilation, and provides technical assistance on a variety of probation related matters.

* Beginning with FY 2004, Maricopa County is not included in the statewide result.

STANDARD PROBATION

Kathy Waters, Division Director
 Phone: (602) 452-3468
 A.R.S. § 12-261

Mission:

To provide financial assistance to probation departments to promote public safety by the responsible supervision of probationers in the community.

Description:

The program provides funding in an effort to maintain the statutory caseload average of 60 adult probationers per probation officer (60:1) and creates the availability of state funding to supplement county funds in order to achieve or maintain that 60:1 ratio. The funding must be used primarily for the payment of probation officer salaries to attain the caseload average.

INTENSIVE PROBATION

Kathy Waters, Division Director
 Phone: (602) 452-3468
 A.R.S. § 13-913 et. seq.

Mission:

To provide a highly structured and closely supervised probation alternative which emphasizes the payment of restitution.

Description:

The program provides intensive supervision, through the use of probation officer/surveillance officer teams, to offenders who would otherwise have been incarcerated in the Department of Corrections at initial sentencing or as a result of a technical violation of standard probation. Pursuant to statute, supervision teams of one probation officer and one surveillance officer can supervise a maximum of 25 intensive probationers and a team consisting of one probation officer and two surveillance officers can supervise no more than 40 probationers. In small counties, one probation officer is authorized to supervise up to 15 intensive probationers. Intensive probationers are required to: maintain employment or full-time student status or perform community service at least six days per week; pay restitution and monthly probation fees; establish residency at a place approved by the probation team; remain at their place of residence except when attending approved activities; allow the administration of drug and alcohol tests; perform at least forty hours (with good cause the court can reduce to twenty hours) of community service work each month except for full-time students, who may be exempted or required to perform fewer hours; and meet any other conditions set by the court.

INTERSTATE COMPACT

Dori Littler, Program Manager
 Phone: (602) 452-3324
 A.R.S. § 31-461

Mission:

To provide supervision to probationers transferring to Arizona and monitor the supervision of probationers transferred to other states from Arizona.

Description:

The program provides for the supervision of probationers transferring to Arizona from other states, and probationers transferring from Arizona to other states. County probation departments investigate requests of probationers sentenced in other states who wish to transfer their probation supervision to Arizona. After investigation, these requests are either denied or accepted. If accepted, county probation departments provide supervision for transferred probationers. Arizona probation officers monitor compliance with probation conditions and initiate corrective action, if deemed necessary, through the state Compact Office. Arizona probation departments also maintain contact with probationers transferred from Arizona to other states and collect court-ordered monetary assessments, including restitution and fines.

* Beginning with FY04, Maricopa County is not included in the statewide result. Beginning in FY 2007, Maricopa and Graham Counties are not included

GLOBAL POSITIONING SYSTEMS (GPS)

Shanda Breed, Program Manager
 Phone: (602) 452-3814
 A.R.S. § 13-902(G)

Mission:

To provide global positioning system monitoring for probationers sentenced under ARS 13-902(G).

Description:

A.R.S. §13-902(G) provides that beginning November 1, 2006 after conviction of a dangerous crime against children as defined in A.R.S. §13-604.01, if a term of probation is imposed, the court shall require global position system monitoring for the duration of the term of probation. Many probationers sentenced under A.R.S. §13-902(G) are placed on probation for long terms extending up to life-time probation supervision.

The GPS program offers the highest level of community-based supervision available for those probationers convicted of Dangerous Crimes Against Children. Further, the GPS program allows probationers to receive treatment while in the community or continuing their treatment once released from incarceration. This balanced approach results in short-term public safety through monitoring and potential long-term public safety by offering the probationer the opportunity to change their behavior through treatment.

◆ **Goal1** To monitor all GPS offenders on probation as prescribed by statute

INTENSIVE PROBATION

David Redpath, Program Manager
 Phone: (602) 452-3456
 A.R.S. § 8-351

Mission:

To effect positive change in a high risk juvenile population through a highly structured community based probation program committed to the prevention of further juvenile offenses and the protection of the community.

Description:

The program provides probation teams that deliver intensive supervision, which emphasizes surveillance, treatment, work, education and home detention, to juvenile offenders. The program seeks to reduce commitments to the Arizona Department of Juvenile Corrections and other institutional or costly out-of-home placements, thus reserving space for more serious youth offenders. Probationers are required to participate in one or more of the following for 32 hours per week: school, court-ordered treatment, employment or community service; if able, to pay required court-ordered fees; to remain at a place of residence, except as allowed and approved by the supervising probation officer; to allow administration of drug and alcohol tests; and to meet other conditions set by the court.

FAMILY COUNSELING

Steve Tyrrell, Program Manager
 Phone: (602) 452-3451
 A.R.S. §§ 8-261 et seq.

Mission:

To oversee the development of programs for families in crisis which strengthen family relationships and reduce juvenile delinquency.

Description:

The program provides the basic crisis and supportive counseling services to children and their families. Funds are used to provide counseling not only to children who have already come to the attention of the court, but also to their families and siblings, in an effort to address family problems that may be contributing to unlawful behavior and to prevent escalation into more serious activity. For incorrigible children who would otherwise be unable to obtain counseling services, these funds provide the courts with the critical resources needed to improve the family's ability to deal with conflicts and exercise proper control.

JUVENILE CRIME REDUCTION

Teasie Colla, Program Manager
 Phone: (602) 452-3456
 A.R.S. § 41-2401D.5

Mission:

To support the development and replication of specific initiatives and community-based prevention, early identification and intervention, and recidivism reduction strategies which promote crime free lifestyles for Arizona youth.

Description:

Funding is provided through the Criminal Justice Enhancement Fund. JCRF is used as seed monies for the development and initial implementation of community-based programs targeted at preventing a juvenile from becoming involved in illegal activity or providing an array of intervention services and sanctions to deter a juvenile from becoming further involved in the juvenile justice system. Grants may be administered by local courts, schools, local units of government, tribal agencies, state agencies, and the AOC. Program categories considered for funding are based on national research that supports promising strategies, such as academic achievement, after-school activities, mentoring, immediate consequences, and graduated sanctions. Programs are awarded funds through an annual application process; funding recommendations are submitted to the Chief Justice for final approval. Funds may also be used to implement legislative mandates and to support special projects and statewide strategic initiatives administered by the AOC, such as the Juvenile On-Line Tracking System (JOLTS), LEARN labs (Literacy, Education, and Resource Network computer-assisted learn centers), operational reviews of local probation departments, juvenile detention centers, and special projects.

JCRF is also used to provide technical assistance and to oversee the distribution of federal education dollars, which the division receives from the Department of Education and passes through to counties to provide educational services to detained youth. Twelve counties maintain juvenile detention centers; two counties share a regional facility and one county contracts with a neighboring county for detention services.

ADULT AND JUVENILE DRUG COURT

Susan Alameda, Treatment Manager
 Phone: (602) 452-3558
 A.R.S. § 13-3422

Mission:

To fund and manage a coordinated system of adult and juvenile drug courts that help reduce recidivism.

Description:

The Administrative Office of the Courts (AOC) provides funding and statewide oversight of Adult and Juvenile Drug Courts. Arizona’s Drug Courts are special, problem-solving courts with the responsibility to intervene with medium to high-risk probationers at risk for failure on probation and in the community because of continued drug or alcohol use. Each drug court is comprised of a local Drug Court Team responsible for the effective implementation and operation of the drug court. All of Arizona’s drug courts have judicial leadership combined with probation supervision and community-based treatment services. Each drug court incorporates best practices and is guided by a Certificate of Assurance.

The drug court program includes Memorandum of Understanding (MOU) between participating parties, judicial management, probation supervision, screening and assessment of participants, random and scheduled drug testing, individual, group and family counseling services, incentives and sanctions, community work service and parental/family involvement.

SECURE CARE TREATMENT

Jeff Hood, Director
 Phone: (602) 364-4051
 A.R.S. § 41-2802

Mission:
To provide specialized treatment, programming, and transition planning based upon the individual needs of the committed juveniles.

Description:
 The Secure Care Treatment Subprogram provides individualized developmental programming and supervision services to committed juveniles requiring placement in a secure facility. Rehabilitative treatment is determined based upon a comprehensive behavioral health assessment, including a criminogenic and protective risk and needs assessment, which determines the presence, nature, and severity of behavioral health problems or strengths. ADJC provides all secure care juveniles with core behavior therapy treatment that addresses dysfunctional thinking as it contributes to problematic and delinquent behaviors and that uses Cognitive Behavior Therapy, Motivational Enhancement Therapy, social learning, risk factors management, and relapse prevention approaches. In addition to this core treatment, ADJC provides specialty treatment for severe conduct disorder, substance dependency, mental health issues, and sexual behavior disorder to youth as needed. The main treatment program modality is group, with individual sessions occurring on a regular basis to address identified needs. Psychology staff provides individual and group psychotherapy, while psycho-educational groups are conducted by youth program staff, whose work is aligned with and supports the psychotherapy groups. In addition, transition services are available to each youth based upon his/her Continuous Case Plan.

OMBUDSMAN CITIZENS AIDE OFFICE

Dennis Wells, Ombudsman-Citizens' Aide

Phone: (602) 277-7292

A.R.S. § 41-1371 et. seq.

Mission:

To improve the effectiveness, efficiency and responsiveness of government by receiving public complaints, investigating the administrative acts of state agencies, recommending fair and appropriate remedies and investigating matters relating to public access to government records and meetings throughout Arizona.

Description:

The Office of the Ombudsman-Citizens' Aide is a nine person independent agency in the legislative branch of Arizona State Government. The Office receives citizen complaints about the administrative acts of state agencies. The Office investigates citizen complaints and, when they are justified, works with the complainant and agency to help them resolve the problem in a mutually agreeable manner. Although the Office cannot change an agency's decision nor direct it to take action, it can make findings and offer recommendations to the agency. The Office also helps citizens by coaching them on how they can best resolve their problem on their own and providing other forms of assistance when the problem can be resolved without going through the time and expense of an investigation. In addition, the office investigates complaints about public access to records and meetings at all levels of government throughout Arizona. The Office provides reports of its activities to the legislature, governor and public.

◆ **Goal1** To help more citizens redress their legitimate grievances with state agencies.

BOARD OF MASSAGE THERAPY

Ryan P. Edmonson, Executive Director
Phone: (602) 542-8217
A.R.S. § 32-4201

Mission:

To protect the health, safety, and welfare of the citizens of Arizona by regulating and maintaining standards of practice in the practice of massage therapy.

Description:

The Board of Massage Therapy licenses and regulates massage therapists who are entrusted to increase wellness, relaxation, stress reduction, pain relief, or postural improvement or provide general or specific therapeutic benefits. The Board evaluates the professional competency of massage therapists seeking to be licensed Arizona. Further, the Board promotes continued competence and fitness by investigating complaints against massage therapists, holding hearings, monitoring the activities of its licensees, and enforcing the standards of practice for the massage therapy profession as set forth by law.

5 Year Plan

Issue 1 Seek opportunities to update/amend the Board's statutes and rules through either legislation or rule-making.

Description The current statutes and rules are dated and there are several areas where improvement is needed.

Solutions:

Executive Director to form an informal committee and facilitate meetings with current stake holders seeking input, draft new statutes to run a bill through legislation and seek an exemption from rule-making moratorium to amend rules.

Issue 2 Seek a new licensing database that is functional, secure and efficient.

Description The Board currently uses a database that is outdated and offers very little efficiency to the Board and very little to the public. The Board's existing database has consistent data fields that collect current information, but does not easily allow board staff the ability to create reports or query data collected, nor does it allow for manipulation of the fields based on changes. An example of a change would be through legislation passed.

A new database will allow for more user efficiencies, plus it will offer better public integration, such as online renewals and online payment.

Solutions:

To work alongside ProcureAZ and to identify a vendor who will meet the goals of the Board. Collaborate with ADOA ASET with their knowledge and expertise in the information and technology environment, and eventually award the contract to the most deserving vendor. The vendor would then migrate all data into the new database and the database would interface with the Board's website to offer user friendly online tools, applications, submittals and requests.

ARIZONA MEDICAL BOARD

Patricia E. McSorley, Executive Director

Phone: (480) 551-2791

A.R.S. §§ 32-1401 et seq. and A.R.S. §§ 32-2501 et seq.

Mission:

To protect public safety through the judicious licensing, regulation, and education of physicians and physician assistants.

Description:

Agency staff supports two boards, the Arizona Medical Board and the Arizona Regulatory Board of Physician Assistants. The agency processes license applications, handles public complaints against licensees, and disseminates information pertaining to licensees and the regulatory process. The two boards determine and administer disciplinary action in the event of proven violations of their respective practice acts. Together, the boards regulate over 27,000 licensees.

5 Year Plan

Issue 1 Consolidation of essential agency functions focused on public protection through the examination of regulatory issues, ongoing education of staff and Board members, active dissemination of public information, and public outreach.

Description The Arizona Medical Board and the Arizona Regulatory Board of Physician Assistants continually strive to proactively explore areas influencing healthcare delivery and public safety. The Boards focus on essential agency functions and concentrate on those matters that directly affect the health and well-being of the people of Arizona. The Boards continue their advances toward providing clear direction through policy and statutory initiative, participating in ongoing educational opportunities and streamlining regulation, and staying on the forefront of providing public information that affects healthcare decision making.

Solutions:

Devote activities to public safety, healthcare and regulatory issues.

Increasing time spent addressing public safety, healthcare or regulatory issues through subcommittee discussion and adoption of relevant substantive policy statements and rules.

Increasing the availability of educational and regulatory information to licensees, stakeholders, and the general public.

Issue 2 Stabilization of database infrastructure to support e-licensing, regulatory, and information dissemination processes, as well as, increased capacity for performance measurement, through enhanced information technology applications

Description The Agency has had a successful electronic licensing (e-licensing) and renewal process for over nine years. The Agency continues to stabilize the system, ensuring Internet security for applicants and licensees who share confidential information with the Boards during the licensing and renewal processes as well as during financial transactions.

The Agency's IT infrastructure continues to evolve as other electronic functions are made available to licensees and the public. The Agency's implementation of an online portal for MD initial applications was launched in December 2015 with great success. This online process also provides a modern method for physicians to track the status of their application. The database utilized by the Agency tracks staff progress during the investigative and post adjudication processes, allowing for a more robust statistical data analysis and identification of potential process opportunities.

Both Board websites underwent a complete makeover making searching it easier and more user friendly for the public and physicians to obtain information.

The Agency is utilizing email alerts to disseminate information from the Agency as well as to provide licensees with important practice related information from the Department of Health Services. The Agency also implemented a quarterly newsletter which is sent out to all physicians and is a useful vehicle to keep physicians informed about board activities, legislation, and any license-related updates. To continue dissemination for all physicians in the current electronic environment, the Agency began utilizing Twitter providing physicians with immediate updates on the Agency.

Maintaining or improving upon prior year performance levels in license processing,

Maintaining or improving upon prior year performance levels in complaint investigation and case resolution, and

STATE MINE INSPECTOR

Joseph E. Hart, State Mine Inspector
 Phone: (602) 542-5971
 A.R.S. §§ 27-121 et seq.

Mission:

To administer and enforce the Mining Code of the State of Arizona for the protection of the life, health, and safety of mine employees and the public in Arizona's active, inactive and abandoned mines.

Description:

The State Mine Inspector is a statewide elected constitutional officer and director of the Office of the State Mine Inspector. The Office enforces laws and regulations applicable to mine safety, health, explosives, and land reclamation. The Office inspects the health and safety conditions and practices at active mining operations; investigates mine accidents and employee and public complaints; and conducts federally certified miner and instructor safety training.

The Office administers reclamation financial assurance and enforces the mined land reclamation laws and regulations for the restoration of disturbed lands to a safe and stable environmental condition. The Office promotes public safety regarding abandoned mines. The Office conducts complaint investigations; issues mine-owner compliance notifications; and identifies, assesses, and secures mine safety hazards. The Office also issues permits, licenses, and certificates for elevators and electrical connections and monitors the manufacturing, storing, selling, transferring, and disposal of all explosives or blasting agents.

Issue 1 Inspection Division

Description The Arizona State Mine Inspectors Office is a constitutional office that has been charged with the Health and Safety of the Miner, it is a Life Safety Agency with legally mandated requirements.

The Arizona State Mine Inspector / ASMI, is required to inspect at least once a year every mine in the state for compliance to the Arizona Revised Statutes and the Rules and Regulations. In ARS 27-124 the inspector is further required to inspect the mining operation for conditions, safety appliances, machinery, equipment, sanitation and ventilation, the means of ingress and egress, the means taken to protect the lives, health and safety of the miners. Arizona Revised Statute 27-309, ASMI must investigate the cause of fatal accidents resulting in a death occurring at the mine and file written report. Arizona Revised Statute 27-308, ASMI is required to investigate written safety complaints and will accept verbal complaints that are reasonably likely to be fatal.

Inspections has been reduced by two Inspectors, from five to three Inspectors, this is a 20% drop in our abilities. During the late 1990's and the early 2000's ASMI had to defend itself against liability lawsuits in which a lack of required inspections and the quality of the Health & Safety Inspections were a factor. ASMI paid large settlements in several cases. With a reduction of inspectors, the remaining inspectors are pressed to do more with less resulting in less time and quality spent performing the actual required Health and Safety inspection at each mine in an attempt to keep up. Currently three of the four Inspectors are eligible for retirement. Mine Inspectors are very specialized, requiring knowledge in mine safety, mine processes and regulatory requirements.

It is imperative that ASMI prepare for succession by recruiting an additional inspector and to have a minimum of 3 years to develop the knowledge, skills and abilities to inspect mine sites for health and safety inspections on the regulatory side. If the Agency is not funded for this mandatory obligation it will leave the Agency and the state of Arizona open to multiple liabilities for subsequent administrations.

Arizona Revised Statute 27-303 requires the operator to notify ASMI when a mine will be temporarily or permanently closed. In the case of temporary suspension of operations excluding labor disputes, exceeding six months or in the case of permanent termination of mining operations, the operator shall notify the inspector, in writing, before the suspension or termination date. All shafts, portals, adits or other openings shall be secured to prevent unauthorized entry and to protect public health and safety pursuant to ARS 27-318. With a reduction of inspectors, mines that have closed do not get inspected for compliance resulting in potential exposure to legal action.

The Arizona State Mine Inspector's office in order to comply with ARS 27-318 after receiving notification of ARS 27-303 inspects the closed, abandoned or inactive mining shafts, portals, pits or other excavations which are dangerous to persons legally on the premises. ASMI inspects and issues notices of violations to mine operators who fail to cover, fence, fill or otherwise secure the mine hazards and post warning signs. A reduction in inspections would result in non-compliance to 27-318 and promote abandoned mine hazards at a later time when the mine operator cannot be found or is no longer in business, leaving the problem for the land owner and the State of Arizona with potential exposure to legal action. Mine closures in the aggregate industry has increased in the last four years with decline of the economy.

Inspections Training, Continuing Education and Certifications:

To reduce legal liability and stay current in inspections, codes and equipment, continuing education for 2018 budget would include:

- MSHA Conferences & Inspections Training in Beckley WV.
- Tailings and Impoundment Dam Safety
- Industrial Hygiene
- Elevators
- Hoist & Lifting Gear
- Boilers & Pressure Vessels
- NFPA, UFC, UBC Codes

Solutions:

Request additional funding for one additional Inspector, equipment and continued education for inspectors.

Issue 2 Abandoned Mine Division

Description Challenges faced in reducing or preventing further fatalities and serious accidents at mines sites include limited funding, lack of administrative and field staff. As documented in past budget submittals, at least three (3) more positions are needed to operate an effective abandoned mines inventory and closure program. Two abandoned mines supervisors would coordinate and partner with the mine industry, private sector, and other government groups to determine how a needed closure can be most effectively and efficiently completed. Additional duties are: visit abandoned mine sites to locate and survey, inventory, classify and eliminate public safety hazards and participate in the actual implementation of mine closures. An administrative assistant to assist with data entry, issuing and tracking of Notice of Violations and corrective actions as a result of issuing Notice of Violations.

Solutions:

Request additional appropriations for abandoned mine staff and closures.

Issue 3 Education and Training Division**Description**

The FY2019 Congressional Budget Justification calls for the \$10.5 million to be fully funded for the State Grant Program.

Arizona's mining incident and injury rate has been below the national average rate for many years, due to the training materials and mandatory MSHA training courses conducted by the Arizona State Mine Inspector's Education and Training Program. At a time when the mining industry continues to expand to meet an increased demand for natural resources the state grants program will be an important program to assist mine operators in maintaining safe and healthful workplaces, and ensure that miners are provided adequate health and safety training. ASMI believes that the recognition and understanding of workplace hazards are the most critical building block for a safe and healthful workplace. This building block is constructed and supported through effective training.

The majority of metal and nonmetal mines are small business operations, and many have no formal safety program. However, smaller mines do not mean fewer risks; mine hazards are inherent in the work of moving and processing extremely large volumes of materials. Just as mining is vital to the American economy, a safe and healthy workforce is critical to the continued successful operation of the mining industry.

Solutions:

Continue with class registration fees.

Issue 4 Mined Land Reclamation**Description**

It is important to note, that all approved sites must continue to submit annual status reports in accordance with A.R.S. §27-1277, along with financial assurance mechanisms for annual review (reclamation bonding etc.), which is generally a yearly process submittal. Some aggregate mine site owners and operators have been cancelling leases, closing down operations, and/or transferring mine sites from 2010 through 2017 which is creating an ownership and reclamation responsibility tracking problem. Therefore, continual tracking of mining site facility transfers and financial assurance is extremely vital, especially in the state of Arizona's current economic environment. If the reclamation bonds and tracking of the aggregate mine sites does not continue to occur, it will be difficult to track the mining companies who are currently responsible for the reclamation of the mining disturbances. This is a timely process of reviews and site compliance inspections. This includes issues of any safety or surface disturbance damages caused by the mining, especially when the properties are abandoned or left in disrepair temporarily or permanently. The state and local municipalities (or flood control districts) could then be left with the responsibility for a remedial or rehabilitation of the property for safety and surface reclamation damages, which would impact the State Mine Inspector's office.

Solutions:

Project complete.

Issue 5 Vehicle Replacement**Description**

The Arizona State Mine Inspector's office (ASMI) will have 2 vehicles that will exceed the criteria set through legislative action for replacement policy. The policy states "that the department not replace vehicles until an average or 120,000 miles or later". ASMI currently has two (2) vehicles that will meet these criteria in fiscal year 2020.

Solutions:

Notify the Governor's office that a minimum of two vehicles will need to be replaced by FY2020

MINING SAFETY ENFORCEMENT

Tim Evans, Assistant State Mine Inspector
 Phone: (602) 542-5971
 A.R.S. § 27-124

Mission:

To enforce the Mining Code of the State of Arizona for the protection of the life, health and safety of the employees in Arizona's active mining operations.

Description:

The Mine Safety Enforcement Program performs quarterly and annual health and safety inspections at active underground and surface mines and related facilities; conducts investigations of mine accidents, employee and citizen complaints; and provides certification classes in mine rescue and first aid. The program issues violations, cessation orders, mine elevator operating, electrical connection permits and underground diesel equipment operating permits as tools to promote safe and healthful work conditions. Operations under this program's jurisdiction include asphalt hot plants, concrete batch plants, aggregate pits, quarries and processing plants; underground and open pit mines, quarries, mills, SX-EW Plants, smelters, refineries, and rod plants. Jurisdiction also covers contractor employees working at mine sites and the administration of Sand and Gravel Districts. Deputy Mine Inspectors also perform complaint investigations and land owner compliance inspections at abandoned mines to support the Abandoned Mines Program.

ABANDONED MINES

Laurie Swartzbaugh, Deputy Director

Phone: (602) 542-5971

A.R.S. § 27-318

Mission:

To promote public safety by field identification, hazard assessment, mine owner compliance notification and administration of the securing of dangerous abandoned mines in compliance with the endangered species and plant acts, historical acts and environmental acts.

Description:

The Abandoned Mines program’s efforts fall into two categories: the inventory of abandoned mine sites and the administration of the securing, remediation and closure of abandoned mines. Field surveys are prioritized to primarily locate mines on State lands, secondly on other public lands, and then thirdly on private lands within the 73 million acres that comprise the State of Arizona. The survey records the exact location of abandoned mines using a global positioning satellite system. The inventory’s objective is to produce an accurate count of abandoned mines and describe the significant safety hazards and potential environmental hazards occurring with them. The database of surveyed abandoned mines is used to prioritize the significant public and environmental hazards for remediation and reclamation planning. The inventory also allows the Office to accurately investigate public complaints about abandoned mines in a timely manner. An abandoned mine may be used for criminal activities, such as a cache for stolen explosives or a body disposal site. The program assists law enforcement criminal and missing persons investigations and body recoveries. The administration of securing abandoned mines first prioritizes sites on State owned lands listed in the inventory based on the severity of the threat posed to public and environmental safety. Through this prioritization, structures are designated as necessary for abandoned mine closures on State lands. The cost of field construction work to secure these mines is provided by the Abandoned Mine Safety Fund through mining industry donations, private citizen donations and a matching appropriation from the Legislature. The program performs regular monitoring to assure mine closures remain in good condition. The program coordinates the identification and securing of abandoned mines with local, state, and federal agencies as well as other states and volunteer groups. Groups include the Yuma County Sheriff’s Search and Rescue Group, the Maricopa County Sheriff’s Office Mountain Search and Rescue Group, Arizona Department of Mines and Mineral Resources, Maricopa County Parks, Arizona State Land Department, Arizona Game and Fish, Arizona State Historic Preservation Office, Arizona Department of Environmental Quality, Department of Labor Mine Safety and Health Administration, Bureau of Land Management, Forest Service, Environmental Protection Agency, and the National Association of Abandoned Mined Land Programs, which is comprised of 27 states and three Indian Tribes.

EDUCATION AND TRAINING - FEDERAL GRANT

Frank Rabago, Education & Training Program Manager
 Phone: (602) 542-5971
 A.R.S. § 27-124, Title 30 CFR

Mission:

To educate and train inexperienced and experienced mine employees in safe work practices and compliance with state and federal mine safety regulations.

Description:

The Mandatory Safety and Health Standards for all mines in the United States are subject to the Federal Mine Safety and Health Act of 1977. The purpose of these standards is the protection of life, the promotion of health and safety, and the prevention of accidents.

The Office of the Arizona State Mine Inspector holds true to the same concerns, values and goals of protecting current and future miners and the public. The Arizona State Mine Inspector and staff regulate and follow the Mining Code of the State of Arizona which contains the guidelines of the Arizona Revised Statutes and Rules and Regulations. Our goal is the protection of miners and the public through regulation, enforcement rules, education and training.

Mine safety and health education and training is very important to Arizona’s mine operators, their employees, contractors and the public. The Education and Training department provides the mandatory federal mine safety training classes to the Arizona mining community. Requests for safety training from Arizona’s mine operators, contractors and workers is in great demand.

The Education and Training Program certifies instructors, develops lesson plans, conducts classes and organizes safety conferences for mine safety education and training. The emphasis is placed on miners' rights and current health and safety regulations in compliance with the Mining Code of the State of Arizona, A.R.S. § Title 27, and the Federal Mine Safety and Health Act of 1977, Title 30 CFR, Parts 46, 48, 49, 56, 57,58, and 62. In addition to mining company employees, all contractors, vendors, rescue teams, and others regularly exposed to mine hazards at a mine property are required to have various levels of training furnished by the Education and Training Program.

 A.R.S. §27-921 & A.R.S. §27-1221

Mission:

To promote the restoration of lands disturbed by mining to a safe and stable environmental condition through enforcement of the Mined Land Reclamation laws, rules and regulations as applicable to new mineral exploration, new mines and the expansion or closure of existing active mines.

Description:

The Mined Land Reclamation Program, working in cooperation with mining companies, consultants and other state and federal governmental agencies, approves or rejects mine reclamation plans and financial assurance mechanisms submitted by all metalliferous mining units, aggregate mining pits, quarries and exploration operations with surface disturbances greater than five acres. Annual reviews of financial assurances and on-site inspections for on-going reclamation projects and of the regulated mines are parts of the continual monitoring process to establish compliance to the Mined Land Reclamation laws.

◆ **Goal 1** To promote the restoration of lands disturbed by mining to a safe and stable environmental condition. The Arizona Revised Statutes Title 27, Chapter 1, Article 2 identifies the need for a State Mine Inspector Agency. Chapter 5 & 6 were established for Mined Land Reclamation and Aggregate Mined Land Reclamation, and provides for a Division within the State Mine Inspector Agency, to administer the reclamation plans within the state.

Tracking of the percentage of mined acreage disturbed and reclaimed;

Tracking of mandated required financial assurance from an aggregate mining operation to ensure funds are available to reclaim the land;

Tracking of industry reclamation plan goals, which are tracked by release of financial assurance mechanisms;

Complete administrative and technical reviews of reclamation plans; and

Adequate management to enhance public benefit, responsible development and economic value.

Note: The Reclamation Plans Review program is still needing resources (or manpower) necessary to manage a Division for this Plan review process, and for field verification compliance inspections (Especially in Aggregate transfers of properties, and renewal of Financial Assurances). Hardrock plans and site expansions, as well as tracking, has not been considered in this report, but still remains a considerable duty of the Reclamation Division. A compliance tracking database is strongly needed to assist with due dates for annual update reporting dates.

5 Year Plan

Issue 1 Review of all Statutes and Rules

Description The Board has completed a 5 year review which covered Articles 2, 4, 5, 7, and 8 of Title 4, Chapter 18.

Solutions:

The Board will seek approval from the Governor's office to open a rules package in order to address any areas of concern identified during the review.

The Board has received authority from the Governor's Office to open a rules package. This rules package will address any areas of concern identified during the review. Additionally, the rules package will address changes required to conform to statutes implemented in the 2018 legislative session (53rd Legislature, 1st Special Session).

Issue 2 Complaint Resolution, automate complaint tracking.

Description The Office of the Auditor General has found that Arizona regulatory boards should resolve complaints within 180 days of receiving them. While this is not mandated by statute, the Board does work to complete a full and comprehensive investigation with in this recommendation. The Board has developed an automated tracking system within the confines of the current IT system.

Solutions:

To update the IT system to support current technology.

NAVIGABLE STREAM ADJUDICATION COMMISSION

George Mehnert, Director
Phone: (602) 542-9214
A.R.S. §§ 37-1101 to 37-1156

Mission:

To determine navigability of watercourses, determine which of Arizona's rivers and streams were navigable at the time of statehood, determine the public trust values of those rivers and streams that are determined to have been navigable.

Description:

The Arizona Navigable Stream Adjudication Commission (ANSAC) is a single-program agency. The Commission is charged with gathering evidence, holding hearings, and making determinations regarding navigability of the 39,039 streams and rivers in Arizona as of February 14, 1912. Part of this responsibility is to respond to issues raised by the Arizona Court of Appeals and returned to the Commission for additional hearings regarding specific topics. The Commission must litigate cases in court, including defending appeals and other legal actions that are filed in State Court against the Commission, and must complete Commission reports to be recorded in each appropriate county following the appeals processes.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	127.4	127.4	127.4

Other Non Appropriated Funds	0.0	0.0	0.0
Total Funding	327.4	327.4	327.4
FTE Positions	1.0	1.0	1.0

5 Year Plan

Issue 1 The future of ANSAC depends on one thing; whether appeals are filed regarding any of the five river reports the Commission ratified on June 28, 2018. The deadline for filing appeals in Superior Court is approximately March 29, 2019.

Description The five cases presently at issue may be appealed to Superior Court.

Solutions:

To defend any appeals and to file any necessary legal actions.

Issue 2 ANSAC may consider requesting an additional four years beyond the current Sunset date if any appeals are filed, because of the time necessary for going through the court process.

Description Court actions relating to appeals of ANSAC determinations have lasted approximately 3-4 years.

Solutions:

To defend appeals and file any necessary court actions on behalf of ANSAC

Issue 3 The Commission ratified all five remaining reports for the Gila, Salt, San Pedro, Santa Cruz, and Verde Rivers on June 28, 2018, including determinations that each river was non-navigable at time of Statehood, February 14, 1912.

Description Ratifying Commission reports begins the clock for time during which parties and others may file appeals in Superior court

Solutions:

To defend appeals and file court actions on behalf of ANSAC.

Issue 4 Sunset June 30, 2020

Description ANSAC hopes to complete all of its designated work and be able to Sunset by June 30, 2020.

Solutions:

If no appeals are filed in Superior Court by March 29, 2019, then ANSAC expects to begin the Sunset process.

Issue 5 Relating to appeals, ANSAC may file its own legal actions if necessary.

Description It may become necessary for ANSAC to file its own court actions relating to appeals or during the appeals process.

Solutions:

ANSAC will instruct its attorney to file legal actions ANSAC determines to be appropriate.

Issue 6 Public Trust Value Hearings

Description In the event courts rule specific watercourses or portions of watercourses were navigable at time of statehood; there is a statutory requirement that ANSAC hold proceedings to determine the Public Trust Value of such watercourses or portions of watercourses.

Solutions:

ANSAC will schedule and hold public trust value hearings.

Issue 7 Recording of Final Reports

Description Recording in appropriate counties all of commission final reports following completion of hearings and appeals regarding the now five pending cases. (six pending cases were reduced to five when two rivers were consolidated).

Solutions:

ANSAC, through its attorney, will record the five remaining reports in each county through which each river travels.

- ◆ **Goal1** To determine navigability of Arizona's 39,039 rivers and streams as of statehood for title purposes. This has been completed but for three water courses for which appeal times are still running and six cases that were appealed and that have been returned by the Arizona Court of Appeals determination of October 21, 2011. These cases are being handled presently partly by the Commission requesting five separate legal memorandums totaling some 70 actual memorandums submitted by parties.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Number of hearings remaining following implementation of 2001/current statutes	2	3	0	5	0
It appears likely the five remaining cases (there were six but two cases were consolidated into a single case) will be filed on appeal during either 2017 or 2018 and the Commission will need to defend these appeals and potentially file legal actions of its own.	0	5	0	5	0
Five total cases are pending with the likelihood of completing all five in 2019. NOTE: These five cases were six cases but two were consolidated into a single case.	0	5	0	5	0
Continued legal work and report writing based on court cases and related reports that may require changes pursuant to court instructions. As of October 21, 2011 six cases have been remanded to the Commission, one case was remanded by the Arizona Court of Appeals and the other five cases which were already on hold/stayed pending the outcome of the case that was in the Court of Appeals were remanded by stipulation of the parties. Therefore, all six cases on appeal are currently back in the hands of the Commission to deal with, and since two cases have been consolidated, five cases remain at issue.	0	0	5	5	5

- ◆ **Goal2** To defend in State and Federal Court all Appeals of Commission determinations. The Arizona Court of Appeals returned six cases to the Commission in 2012 for additional work/hearings. Two of those cases have been consolidated into a single case, therefore five case remain and are in various stages of the hearing process which including writintg Commission final reports.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
To defend any actions filed against the Commission regarding the six remand cases returned to the Commission on October 21, 2011 for the Commissions consideration. NOTE: While six cases were returned to the Commission for additional work two of those cases were consolidated into a single case so five, not six, cases remain and are presently in various hearing stages.	0	0	0	0	0

- ◆ **Goal3** To defend all other legal actions filed against the Commission, and to file legal actions by the Commission deemed appropriate. Presently five cases are in various stages of hearings following return to the Commission by the Arizona Court of Appeals.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
As a result of the return/remand of six court cases following return of the Lower Salt River case by the Arizona Court of Appeals.	0	0	0	0	0

Explanation: There are no numbers included as there are no actions pending other than actual appeals and legal actions related to those.

- ◆ **Goal4** To record each Commission report in the appropriate county seat either following expiration of appeal times or completion of Court mandated work and completion of appeals and court actions.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Recording Commission reports in the appropriate county seat as they are completed and appeal times have expired with no appeals filed, or as they are completed through court actions or other actions by the Commission.	0	0	0	5	5
To insure all reports that have been finalized and that have gone through the court legal process are recorded in all of the appropriate counties. For example the Gila River travels into or through six Arizona counties.	0	0	0	5	5
To record each report in the appropriate counties, in some instances as many as six counties.	0	0	0	5	5

- ◆ **Goal5** To insure all legal proceedings are held correctly and thoroughly to comply with court directives.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
Default performance measure	0	0	0	5	5

- ◆ **Goal6** To respond to court directives. Superior Courts as well as the Arizona Court of Appeals have given directions to the Commission regarding six specific cases. This number was reduced to five following consolidation of two cases. The Commission is presently in the process of holding hearings on these five cases.

Performance Measures	FY 2017 Actual	FY 2018 Estimate	FY 2018 Actual	FY 2019 Estimate	FY 2020 Estimate
To take actions that will comport with court instructions and determinations, beginning with the Arizona Court of Appeals instructions on October 21, 2011 and including future instructions and determinations from any of the Superior Courts appeals are filed in.	0	0	0	5	5
Directives by Commission are met regarding court cases.	0	0	5	0	0
To insure hearings and court cases are litigated in a manner so the Commission prevails.	0	0	5	0	0

BOARD OF NURSING

Jo Elizabeth Ridenour, Executive Director
 Phone: (602) 771-7801
 A.R.S. §§ 32-1601 to 32-1669

Mission:

To protect and promote the welfare of public by ensuring that each person holding a nursing license or certificate is competent to practice safely. The Board fulfills its mission through the regulation of the practice of nursing and the approval of nursing education programs. The mission, derived from the Nursing Practice Act, supersedes the interest of any individual, the nursing profession, or any special interest group.

Description:

The State Board of Nursing protects the public by assuring that standards of practice are defined and that persons engaged in the practice of nursing are competent. It approves individuals for licensure, registration, and certification; approves educational programs for nurses and nursing assistants; investigates complaints concerning licensee and certificate holder compliance with the law; and determines and administers disciplinary actions in the event of proven violations of the Nurse Practice Act.

5 Year Plan

Issue 1 Assure governance framework supports the Board's mission and vision

Description Processes for defining and delivering good decisions and leadership for the good of the public as a whole through the regulation of the practice of nursing and the approval of nursing education programs.

Solutions:

- a). Ensure board members are educated on principles of governance;
- b). Improve evidenced based decision making by integrating data driven processes;
- c). Enhance communication between the Board and consumers, key stakeholders and Advisory Committees to support change and innovation for improved public protection;
- d). Develop educational outreach activities related to nursing regulation

Issue 2 License/certify only qualified nurses and nursing assistants that assures public safety

Description Assuring only qualified individuals are licensed or certified and have the basic educational preparation to practice safely.

Solutions:

- a). Improve processes for licensure/certification;
- b). Implement "promising practices" from the National Council State Boards of Nursing (NCSBN) Commitment to Ongoing Excellence research;
- c). Maximize use of technology for licensing applications/verifications;
- d). Implement electronic finger printing process;
- e). Implement legislation in 2019 for the Advanced Practice Registered Nurse (APRN) Compact

Issue 3 Investigate unsafe or incompetent nurses and licensed/certified nursing assistants; remediate or remove from practice

Description Regulation-Enforcement, Discipline & CANDO Program.

Enforcing scope and standards of practice of licensed nurses and licensed/certified nursing assistants.

Solutions:

- a). Provide for an effective alternative to discipline under the program for nurses who have substance abuse disorders (CANDO) and other psychiatric/medical issues;
- b). Update disciplinary guidelines for consistent sanctions utilizing evidence based regulation and precedents;
- c). Improve processes for investigations and compliance;
- d). Provide for an effective probationary period for those that need monitoring due to licensing conditions;
- e). Promote evidenced based regulation and practice breakdown research that provides for public protection.

Issue 4 Review and approve or sanction nursing education programs consistent with Board rules

Description Nursing Education Program Initial & Continuing Program Approval.
Enforcing standards to promote the preparation of qualified candidates for licensure & certification.

Solutions:

- a). Review and improve educational rules that guides quality education regardless of educational delivery method;
- b). Review and approve or sanction nursing educational programs consistent with Board rules;
- c). Support statewide conferences to enhance competencies of nursing program faculty;
- d). Review and investigate nursing program complaints and, evaluate for trends; report to nursing programs as is appropriate;
- e). Obtain program admission and completion data and partner with programs/facilities to address issues;
- f). Identify research topics related to nursing regulation and develop strategies to conduct research.

Issue 5 Ensure nursing regulations are up-to-date and reflect state of the art & science of practice.

Description The current trends in public policy, the nursing practice, and education.

Solutions:

Monitor trends in public policy, nursing practice, and education and make amendments to the Nurse Practice Act, ensuring that the State's nursing statutes and rules reflect contemporary practice.

LICENSING AND REGULATION - RN/LPN

Jo Elizabeth Ridenour, Executive Director
 Phone: (602) 771-7801
 A.R.S. §§ 32-1601 to 32-1669

Mission:

To establish standards and requirements for initial licensure of new nursing graduates and nurses moving into the State; to protect the public by investigating complaints against licensees ensuring that due process is upheld; to assist nurses with problems of chemical dependency to obtain treatment; to monitor such activity, all with the intent to protect the public from nurses who are unsafe to practice.

Description:

The Board of Nursing (ASBN) licenses all nurses practicing in the State except those practicing in federal facilities. In order to license nurses, the Board administers the National Council Licensure Examination (NCLEX) to new graduates and verifies licensure status in other states for nurses moving into Arizona. The Board investigates licensees who have been reported for possible violations of the Nurse Practice Act. Through a comprehensive investigation process, the agency ensures the public safety from incompetent, unsafe, or unprofessional nurses. The Chemically Addicted Nurses Diversion Option (CANDO) Program of the Board consists of three year contracts with licensees which include and are monitored for: initial intensive treatment, aftercare, participation in Alcoholics Anonymous or Narcotics Anonymous, random biological-fluid screens, nurses support groups and quarterly employer evaluations. Licensees are also monitored when the Board determines probational discipline is needed to ensure that public risk is reduced. The Hearing Department schedules hearings for licensees/certificate holders who have been denied licensure/certificates and for those who request their disciplinary procedure be heard by an Administrative Law Judge whose recommendation is forwarded to the Board for approval of the final order.

A.R.S. § 36-446.02

Mission:

To protect the health, welfare, and safety of Arizona citizens who seek and use the services of nursing care institution administrators and assisted living facility managers.

Description:

The Board of Nursing Care Institution Administrators and Assisted Living Facilities Managers evaluates and processes initial applications and renewals from individuals seeking nursing home administrator licenses and assisted living facility manager certificates. As administrators and managers are required by law to meet continuing education requirements, the Board also approves continuing education programs. In addition, the Board approves, renews, and regulates assisted living facility manager and caregiver training programs, and investigates complaints received from the public or the Department of Health Services and imposes disciplinary action on licensees or certificate holders when necessary. All Board functions are accomplished through a fee-financed program of examination, licensure, and regulation.

5 Year Plan

Issue 1 Electronic licensing and payment systems.

Description The Board would like to implement electronic licensing and payment systems to ensure efficient and quality customer service.

Solutions:

1. Secure ongoing appropriation funding in FY 2019 to implement an electronic licensing renewal system which incorporates electronic payments. (Complete)
2. By January 2018, have the basic service operating which includes electronic renewals and payments. (Complete)
3. In FY 2019 through FY 2021, enhance the electronic licensing service to include initial applications and payments for all services, track investigations through the process (In process)

Issue 2 Qualifying administrators from other states.

Description The Board would like to make it easier for qualified administrators from other states to become licensed in Arizona to eliminate redundant regulations and ensure great customer service.

Solutions:

1. By January 2018, amend the rule on reciprocity for nursing care institution administrators. (In Process)
2. In FY 2018 through FY 2020, amend statutes and rules as needed which includes a health care executive credential and portability. (In Process)

Issue 3 Desktop and Laptop Computer Refresh in FY19

Description The Board purchased the computer equipment in FY12 and FY13 of which the HP warranty has ended. The refresh would bring with it up to date technology, new hardware, warranty, software and conversion install.

Solutions:

In FY19 secure one time funding of and estimated cost of \$9,000.00 for updating desktop and laptop computers.

BOARD OF OCCUPATIONAL THERAPY EXAMINERS

Karen Whiteford, Executive Director
 Phone: (602) 589-8353
 A.R.S. §§ 32-3401 to 32-3446

Mission:

To protect the health, safety, and welfare of the public by licensing and regulating individuals who provide occupational therapy services.

Description:

The Board of Occupational Therapy Examiners issues licenses for occupational therapists and occupational therapy assistants. The Board requires that each applicant meet minimum standards of education, experience, and competence. The Board also investigates complaints and takes appropriate disciplinary action.

5 Year Plan

Issue 1 Evaluate the qualifications of applicants for licensure.

Description The Board has seen an increase in the overall number of initial applications from 415 in FY08 to 454 in FY18. In addition, the number of occupational therapists and occupational therapy assistants renewing active licenses increased from 1,198 in 2012 to 1,633 in 2018. In fiscal year 2018, the Board received 2,0871 applications in total, which is an increase of over 29% in ten years.

Solutions:

A. The Board of Occupational Therapy is pursuing changes to statutes and rules to increase the efficiency of application processing, while still ensuring qualified applicants receive a license.

Issue 2 Establish the mechanisms for assessing continuing professional competence of occupational therapists and occupational therapy assistants.

Description The Board of Occupational Therapy currently reviews 100% of continuing education certificates submitted by renewal applicants. This is a time-consuming task for Board staff.

Solutions:

A. Board staff is working with outside vendors (free services) that provide programs for licensees to submit and track continuing education. Ideally, this program would scan and evaluate whether the submitted certificates meeting the continuing education requirements of the Board.

B. Board staff is pursuing changes to statutes and rules to allow random audits of continuing education. Reducing the percentage of audited application from 100% to 50% would greatly improve application processing times.

Issue 1 5 yr Strategic Plan**Description** ARIZONA STATE BOARD OF DISPENSING OPTICIANS

FIVE-YEAR STRATEGIC PLAN

8/27/2018

Mission:

To protect the visual health of the citizens of Arizona by regulating and maintaining the standard of practice in the field of opticianry.

To this end, the Board regulates the opticianry profession through administering examinations, issuing licenses to qualified opticians and optical establishments, proposing legislation, enacting rules and regulations and investigating complaints brought to the Board against licensed opticians and optical establishments

Description:

The Board of Dispensing Opticians examines and licenses professionals to practice in the field of opticianry and licenses optical establishments. This Board is distinguished from the Board of Optometry, which regulates optometrists, whereas dispensing opticians fill orders for and fit persons with corrective eyewear. The Board of Dispensing Opticians accepts complaints against licensees, investigates allegations, and administratively adjudicates complaints.

Goals and Objectives

Goal #1: To ensure high standards of professional and ethical conduct in the field of opticianry through efficient processing of examination, establishment and optician license applications and administration of the State Board Practical Examination.

Objective #1: By December 2018, the Board will review National Organizations' Practical Examinations. The Board will bring any recommendations for a full Board vote.

Objective #2: By December 2019, the Board will meet with other states who are utilizing the National Practical Examinations and verify results.

Objective #3: Update database to allow for on-line application and renewal.

The Board has available resources to accomplish objective #1: however, an increase in out-of state travel funds will be necessary to accomplish objective #2. Objective #3 has been funded for initialization, however, an increase will be required to cover maintenance and ongoing costs. The Board has the available resources in the Dispensing Opticians Fund to accommodate an increase in appropriations.

Goal #2: To investigate and adjudicate consumer and Board initiated complaints in accordance with statutes and rules in order to protect the public from incompetent services and unprofessional and unethical conduct.

Objective #1: By the end of fiscal year 2019, the Executive Director will increase the number of optical establishments visited and inspected.

Objective #2: By the end of fiscal year 2019, the Board will actively recruit more retired licensed opticians to serve as investigators.

The Board will request another increase in travel funds to accommodate the establishment inspections. The Board has the available resources in the Dispensing Opticians Fund to accommodate an increase in appropriations.

Goal #3: To better protect the public through the administration of the continuing education requirement in order to maintain the integrity of the profession of opticianry in accordance with the Board's mandate.

Objective #1: The Board is in process of implementing a Rule package. And, when allowed by Governor's office and GRRC, to Amend/Repeal number of Rules to allow the Board more flexibility in accepting national practical examination results versus the Board proctoring a practical every six months.

Existing funds will be used to initiate action to attain goals and accomplish objective.

Goal #4: To maintain consistency in opticianry licensure and regulation with other states through membership in governmental and industry associations (FARB, CLEAR, AADO, OAA, NCSORB and ABO-NCLE) and to interact with the optical industry on a statewide basis.

Objective #1: At least one Board member or the Executive Director will attend no less than one governmental or industry related seminar each fiscal year.

Objective #2: Development of an annual newsletter and mailing list or email list, containing an update on changes in regulation, etc., to be mass mailed to licensees and other members of the ophthalmic industry within Arizona and in other states.

An increase in appropriations will be necessary to implement these goals and accomplish objectives. The Board has the available resources to accommodate an increase in appropriations.

BOARD OF OSTEOPATHIC EXAMINERS

Amber Brake, Executive Director
Phone: (602) 771-2522
A.R.S. §§ 32-1800 et seq.

Mission:

To protect the public health and safety of people in Arizona through the regulation of physicians licensed to practice osteopathic medicine and surgery in the state.

Description:

The Board of Osteopathic Examiners regulates osteopathic physicians in Arizona. The Board is responsible for the licensure of osteopathic physicians and residents, the enforcement of standards of practice, and the review and adjudication of complaints. The Board protects the public by setting educational and training standards for licensure and by reviewing complaints made against osteopathic physicians, interns, and residents to ensure that their conduct meets the standards of the profession, as defined by A.R.S. § 32-1854.

Issue 1 Identifying and resolving pending complaints on a more timely basis. Complete the investigation so they can be resolved more timely by the Board.

Description This is a critical issue to our Board and to a number of parties (stakeholders) that we are current with our complaint caseload. Given that we lost half our staff in January 2018, the focus has been on hiring and redistributing work on a priority basis. Given that we lost half our staff in January 2018, the focus has been on hiring and redistributing work on a priority basis. The Executive Director has only been here three months. She and the staff have been focused on triaging the most urgent matters.

Solutions:

To overcome a backlog of complaints, the Board has utilized several methods to reduce the backlog. We will continue to pursue other options to assist us. With the increase in newly reported complaints, we will need to continue to identify methods to stay current with the complaint caseload to reach the state's goal of completing investigations or resolving complaints within 180 days.

We have also increased the number of cases that are being referred for outside medical review. We are seeking methods to identify these more quickly and receive our reports on a more timely basis, within 30 days. As more and more doctors are becoming board certified, it is necessary to utilize the appropriate peers to review the cases. The increase in case referrals for outside medical review has worked well and we will continue utilizing this option. Many of the outside consultants are requiring high fees for their services. This is understandable and should be expected to continue or increase in the future. To receive accurate medical opinions, cases involving a high degree of specialty medicine must be sent to outside reviewers for review. As such, more cases will be referred to our investigator for review and investigation completion.

We plan to file an amendment that will better outline each issue and strategy.

Issue 2 Complaints are taking more than 180 days to resolve and the Auditor General has set a guideline of 180 days or less to resolve complaints. We need to complete our complaint process within 180 days.

Description Our goal is to reduce the average number of days to investigate and resolve a complaint to an average of 180 days or less. We recognize that some complaints, due to the difficulty of the case, require further investigation, evaluation or chart review after the Board reviews the matter initially. We are trying to identify these cases before they go to the Board in anticipation of their request. Other factors such as continuances at the request of the licensee can also extend the timeframes for resolving these cases. With the consolidation of many medical offices, plans and hospitals, we are finding it is more difficult to get timely responses to requests for records and subpoenas. This outside delay is affecting our internal process and slowing down our resolution timeframes.

On average, we should meet the timeframes. Cases that go for an Investigative Hearing or that are sent to the Office of Administrative Hearings can take a longer period of time to resolve as these cases may result in a revocation or a suspension of greater than 12 months of a license. However, we will continue to strive to timely resolve such cases as quickly as possible. We are offering more Consent Agreements for surrender versus taking the matters to hearing.

Again, this is a critical item to our Board as it affects the public and our licensees. When we identify a serious case involving possible immediate danger to the public, the Board addresses these matters on an immediate basis and with possible summary suspensions.

Given that we lost half our staff in January 2018, the focus has been on hiring and redistributing work on a priority basis. The Executive Director has only been here three months. She and the staff have been focused on triaging the most urgent matters.

Solutions:

This issue is tied with our first strategic issue. We continue to reduce the outstanding number of complaints and we are receiving a large number of new complaints.

We continue to evaluate our processes to determine if there are methods or processes available to us to increase our complaint resolution rate. We may seek to offer more Consent Agreements to the licensees rather than going thru the entire hearing process.

Issue 3 Our agency efficiently processes applications while continuing to meet with statute, rule and timeframe requirements. We will evaluate and determine if online applications would be effective and cost efficient for our agency in response to a customer service driven model.

Description There are pressures on the national level to reduce the licensing timeframes to issue new licenses. We continue to identify methods to streamline the processing time while continuing to provide a quality driven product or evaluation to protect the public. We are always looking for ways to improve our processes.

Currently, the medical profession is encountering pressures from outside groups to pursue national licensure using as an example, the doctor who wants to provide telehealth must be licensed in the state that he provides care. The argument is that it takes too long for many of the jurisdictions to process the applications and that every state has different requirements. The response has been to consider a state licensing compact for physicians. Arizona passed legislation in 2016 to become part of the Interstate Medical Licensure Compact.

Many agencies are utilizing more online processes in response to demands from the public and applicants. We must continually evaluate what forms we provide on the internet and what information is provided on our website. We strive to be proactive in this area and we are open to customer suggestions or requests. Currently, applicants for licensure and dispensing registrations must send the forms into our office.

We, as well as other medical boards, are striving to find ways to process applications and issue licenses as expediently as possible. We are continuing to pursue the most efficient license process possible while continuing our mission to protect the public. Cases where a license application raises issues or questions will take longer because the matter would go before the Board.

We recently revised our statutes and rules but we will continue to look at revising our statutes and rules to assist with making our application process more streamlined, efficient and understandable. The rules process requires funding and considerable time by the staff as well as the Board. The vast majority of the extra expense is due to the need of the expertise from a rules writer to assist us with the process.

It is critical that we provide the most efficient model possible. Those applicants that are qualified to be licensed should move through the process as quickly as possible and the public demands licensed professionals to provide medical care on a timely basis. With the approaching shortage of doctors we do not want to be viewed as a barrier to entry into the practice for those qualified applicants who wish to practice in Arizona.

Given that we lost half our staff in January 2018, the focus has been on hiring and redistributing work on a priority basis. The Executive Director has only been here three months. She and the staff have been focused on triaging the most urgent matters.

Solutions:

Our plan includes reviewing and updating the statutes and rules regarding licensing requirements and pursuing updates or revisions for changes, if necessary. This is a long, difficult process that assures all provisions are covered and the process is in compliance with the statutes and rules. Rules changes require the assistance of a rules writer and therefore additional expense. Staff time devoted to these changes is significant. Our number of license applications continues to increase, however; With a small staff, this is sometimes extremely difficult.

We have made significant reductions in the days it takes to process an application and we will continue to evaluate our processes to make sure we are utilizing the most efficient model possible.

We will be looking at online application processing; however, much of the verification process will still require and compose much of the time required to process applications. There are external factors which are beyond our control. We are working to identify these and establish methods to improve the response time for receiving these materials.

We continue to evaluate other boards' processing procedures to see where or how we may enhance our current policies and procedures. We will also continue to benchmark and gain input and feedback from other licensing organizations to determine what they have done to improve their processes.

The Interstate Compact is operating and licenses through the compact are issued in much less time.

5 Year Plan

Issue 1 In the next 5 years, Parents Commission funding will continue to support programs where the focus will be on increasing substance abuse education and increasing parental involvement, the overarching goal will be to work diligently at educating, while outreaching to all Arizona families.

Issue 1: To assess prevention funding needs around the state in relation to substance use amongst Arizona's school-age youth. The Parents Commission will increase and enhance parental involvement and increase substance abuse education about the serious risks and public health problems caused by the abuse of alcohol, tobacco, and other drugs. Substance Abuse Education addresses: Prevention of Prescription Drug Abuse, Prevention of Underage Drinking (alcohol), and Prevention of Marijuana/Synthetic Marijuana Abuse.

Description The Arizona Parents Commission on Drug Education and Prevention, also known as the Parents Commission, was created by voter initiative in 1996. The Parents Commission's mandate is to increase and enhance parental involvement, and increase education about the serious risks and public health problems caused by the abuse of alcohol and controlled substances. The grant program will support programs that align with this purpose.

Its nine commissioners are appointed by the Governor and consist of five parents of children currently enrolled in Arizona schools and one representative each from the education, probation, treatment and prevention and law enforcement professions.

The Parents Commission works jointly with the Governor's Office of Youth, Faith and Family (GOYFF), which performs the administrative and professional services for the commission.

Solutions:

The Parents Commission will continue to award grants through a competitive Request for Grant Application process. The plan is to award in all 15 counties if possible on a 3 year grant cycle. In State Fiscal Year, 2017 the Parents Commission awarded 23 programs through a competitive request for Grant Application. The programs are located in 12 counties and is awarded on a 3 year grant cycle, this is the final year of the grant cycle. These programs collectively address the strategic issues identified above. The GOYFF will monitor progress and compliance of the subgrantees through fiscal reports, program reports, site visits and utilizing the cross site evaluation process through our third party evaluator. The Parents Commission will also utilize the Arizona Youth Survey to assess prevention funding needs based on data trends.

The Parents Commission awarded programs address substance abuse education and prevention efforts that focus on the needs of communities and address four priority areas:

- (1) Engagement of youth and parents together/family drug prevention planning.
- (2) Implementation of youth engagement activities (active engagement of youth in coalition activities, youth leadership components, etc.).
- (3) Inclusion of one or more strategies from Arizona's Prescription Drug Misuse and Abuse Initiative. The Arizona Prescription Drug Misuse and Abuse Initiative Toolkit provides the roadmap to move communities beyond that initial awareness concerning prescription drug misuse and abuse into action and then to outcomes.
- (4) Utilization of peer to peer program components, to further engage youth and adults attending parenting programs.

Programs are considered in the following categories; Rural-rural is defined as a target area with a population of 75,000 or fewer; Tribal-eligible applicants include Federally recognized Indian Tribes; consortia of Indian Tribes; incorporated non-Federally recognized Tribes; incorporated non-profit multi-purpose community-based Indian organizations; urban Indian centers; National or regional incorporated non-profit Native American organizations with Native American community-specific objectives and Urban/County/Statewide-Urban is defined as a target area with population of more than 75,000. County is defined as a target area of a consortium of municipalities and/or a county-wide target area with a population of more than 75,000. Statewide is defined as a target area with a population of more than 75,000 in more than one county.

The Governor's Office of Youth, Faith and Family will be responsible for the overall management of the Parents Commission grant and will work to create a safe, healthy and bright future for all Arizona.

STATE PARKS BOARD

Ted Vogt, Interim Executive Director
Phone: (602) 542-6931
A.R.S. §§ 41-511 et seq.

Mission:

To manage and conserve Arizona's natural, cultural, and recreational resources for the benefit of the residents and visitors.

Description:

The Arizona State Parks and Trails was created in 1957 by the Legislature to enhance the economies of rural Arizona while protecting Arizona's most precious historic and natural resources, which attracted more than 3.1 million visitors in FY 2018, one-half of which are typically visitors to the state. Arizona State Parks develops, and in collaboration with partners, manages 35 State parks and natural areas and provides safe and enjoyable facilities and programs throughout the state. The agency manages over 64,000 acres, much of which is open for the public to enjoy.

Other agency programs include the State Historic Preservation Office, which is responsible for the identification, evaluation, and protection of Arizona's prehistoric and historic heritage resources and compliance with federal and State laws. The agency also coordinates outdoor recreation grant programs and statewide recreation resource planning, public involvement and educational opportunities through partnerships for public purposes. Arizona State Parks is comprised of the Director's Office and three divisions: Park Development and Operations; Partnerships and Grants; and Administrative Services.

Issue 1 Optimizing System Vitality

Description The implementation of the Arizona Management System, a statewide initiative, requires the application of best business practices and lean management principles to make government processes more efficient, reduce waste and enhance customer satisfaction. In order to include these efforts in agency priorities, and to be consistent with priorities identified in the 2018 SCORP, Arizona State Parks and Trails has identified a pillar around which the agency Strategic Plan is organized - Optimizing System Vitality. Optimizing the vitality of a system encompasses the responsible use of existing resources to maximize opportunities for constituents and visitors, in addition to seeking additional funding sources and innovative means of optimizing long term sustainability and vitality to adapt to changing economic times.

Securing sustainable funding for the stewardship of our state's recreation areas is an ongoing issue. In an age of user-generated funding cycles, organizations and agencies are routinely required to seek creative ways to do more with less, and use existing resources efficiently. Seeking innovative collaborations, private/public partnerships, and grants opportunities is required to keep up with ongoing maintenance of facilities and existing infrastructure and to add new amenities to public lands. It is important to take into account demand and supply when allocating alternative funding.

Solutions:

In order to optimize system vitality, the agency will 1) strive for the strategic and responsible investment in resources to promote growth, and 2) foster a culture of continuous improvement.

Issue 2 Conservation of Natural and Cultural Resources.

Description The National Recreation and Parks Association (NRPA) has identified conservation, social equity and health and wellness as the three key impacts of Parks and Recreation agencies across the nation, regardless of size or jurisdiction. These impacts are the pillars of the profession around which all of the organization's efforts revolve. Parks and recreation agencies contribute to conservation by "protecting open space, connecting children to nature, and engaging communities in conservation practices" (NRPA, 2017).

Protection, conservation, and stewardship of Arizona's natural and cultural resources, public lands, recreation areas, and scenic landscapes to ensure that current and future generations have access to outdoor recreation areas is a top priority in the 2018 SCORP. Population growth and urbanization increase the demand for recreation areas and place more pressure on resources. Additionally, naturally occurring events exacerbated by human activities, such as wildfire, flooding, erosion, and the spread of invasive species, increase the need for stewardship of resources. Conservation efforts should include consulting with tribes on public land projects early and often to identify potential issues and mitigation measures that may be needed.

In addition, today's youth are spending less time outdoors in part due to dependence on technology. Although this lack of early exposure to nature can lead to reduced environmental ethics and outdoor recreation experience, technology is here to stay. Opportunities to engage youth in outdoor activities need to integrate these two areas in order to grow the next generation of outdoor recreation enthusiasts. Outdoor recreation providers need to assess their marketing, education, and communication efforts to ensure that their messaging is reaching the intended audiences.

Solutions:

Arizona State Parks and Trails will conserve cultural and natural resources by 1) improving the user experience and economic development without compromising resources, and 2) fostering stewardship through education, awareness and engagement.

Issue 3 Social Equity

Description The National Recreation and Parks Association (NRPA) has identified conservation, social equity and health and wellness as the three key impacts of Parks and Recreation agencies across the nation, regardless of size or jurisdiction.

By providing parks and recreation opportunities that are accessible to all community members regardless of race, ethnicity, age, income level or ability, agencies contribute to social equity in communities, which leads to community cohesion, and reductions in crime.

Arizona's growing population is changing, becoming older and ethnically and culturally diversifying. These demographic trends may require changes in how outdoor recreation opportunities are provided and what facilities are necessary to meet the needs of changing populations. Further research needs to be completed to better understand the needs, barriers, and preferences pertaining to outdoor recreation. In addition, available funds need to be funneled to underserved communities to ensure fair & equitable access to recreation resources.

Solutions:

Arizona State Parks and Trails will address issues of social equity by: 1) seeking to understand the needs of diverse user groups and 2) attempting to increase diversity in the workforce.

Issue 4 Thriving Individuals and Communities

Description The National Recreation and Parks Association (NRPA) has identified conservation, social equity and health and wellness as the three key impacts of Parks and Recreation agencies across the nation, regardless of size or jurisdiction.

Through affordable and accessible programs, and the operation and maintenance of spaces to engage in outdoor recreation, these agencies contribute to the health and wellness of citizens and visitors.

Because these health benefits extend beyond the individual and also contribute to healthy, integrated, engaged, economically vital communities, this pillar was changed to "Thriving Individuals and Communities".

Solutions:

Arizona State Parks and Trails will promote thriving individuals and communities by developing and nurturing connections between individuals, parks, and communities.

PARK DEVELOPMENT AND OPERATION

Lauren Cook, Deputy Director
 Phone: (602) 542-7153
 A.R.S. §§ 41-511 et. seq.

Mission:

To manage and conserve Arizona's natural, cultural and recreational resources for the benefit of the people, both in our parks and through our partners.

Description:

The Operations Section is responsible for the operation and maintenance of Arizona's State Parks and Natural Areas. The agency utilizes a staffing model with both full-time and part-time employees. There are also 15 Arizona State Parks Friends Groups. The Operation Section is also responsible for overseeing the daily activities of park volunteers, park store merchandise sales, safety and training, interpretation and environmental education programs, park partnerships, maintenance, and reservations.

The Planning and Development Section is responsible for the planning, design, and construction of Arizona State Parks and Trails, Arizona State Historic Parks, and Arizona State Natural Areas. Major responsibilities of the Section include: creating and updating park master plans, the selection and management of consultants for project design and construction, and management, budgeting, and permitting of projects from conception to completion. Staff is also responsible for the preparation of the agency's capital improvement plan and the management of funding allocations to each project over time.

PARTNERSHIPS AND GRANTS

James Keegan, Deputy Director
 Phone: (602) 542-6920
 A.R.S. §§ 41-511 et. seq.

Mission:

To manage and conserve Arizona's natural, cultural and recreational resources for the benefit of the people, both in our parks and through our partners.

Description:

The Partnerships and Grants Division consists of the Resources & Public Programs section, the Grants and Trails section, the State Historic Preservation Office, and the Marketing and Public Information section.

The Resources & Public Programs (R&PP) Section manages the following programs: statutorily mandated statewide and system research and planning; natural and water resources; and collections management. This Grants and Trails section is responsible for managing approximately \$4.3 million in grants available to Arizona communities and coordination of outdoor recreation advisory groups. Also, the coordination of cultural and archaeological resource management. Funded programs include federal Recreation Trails Program, both motorized and non-motorized, federal Land and Water Conservation Fund projects, and Off-Highway Vehicle (OHV) Recreation Fund. The Statewide OHV Program Coordinator interacts with the Off-Highway Vehicle Advisory Group and OHV stakeholders statewide to promote safe and responsible OHV use and see that the funds available for motorized projects are used in the best manner.

The Arizona State Historic Preservation Office: SHPO, a division of Arizona State Parks, assists private citizens and institutions, local, state and federal agencies and tribes in the identification, evaluation, protection, and enhancement of historic and archaeological properties that have significance for local communities, the State of Arizona, or the Nation. The role and function of the SHPO is defined in both state law (Arizona Historic Preservation Act) and federal law (National Historic Preservation Act, as amended). Activities of the SHPO include:

- 1) Statewide survey to identify and evaluate historic structures and archaeological sites;
- 2) Nomination of eligible historic and archaeological properties to the National Register of Historic Places;
- 3) Review of federal and state actions that may affect historic and archaeological properties;
- 4) Technical assistance to state and federal agencies, and Tribes;
- 5) Technical assistance to owners of historic properties;
- 6) Technical assistance to Certified Local Governments/local preservation commissions;
- 7) Public education and awareness programs;
- 8) Administration of the Main Street program;
- 9) Assistance through matching grants; and assistance to property owners seeking tax credits and incentives.

The Marketing and Public Information Office coordinates marketing and public information through traditional mediums and emerging channels. The section also coordinates agency printing, (including annual passes, park maps, banners, and Junior Ranger Program materials) and digital delivery of public information including managing the agency website and social media channels (e.g., Facebook & Twitter). They also create content for and manage video distribution through online channels such as YouTube.

STATE PERSONNEL BOARD

Robin Van Staeyen, Executive Director

Phone: (602) 542-3888

A.R.S. §§ 41-781, 41-782, 41-783 and 38-531 et seq.

Mission:

To provide an efficient and impartial hearing process while carrying out the Board's statutory mandate to hear and review disciplinary appeals and whistleblower complaints filed by covered State employees, former State employees, and other individuals referenced in statute.

Description:

The State Personnel Board is responsible for hearing and reviewing, via an administrative hearing process, appeals filed by covered State employees who have been dismissed from State service, suspended for more than 80 working hours, or involuntarily demoted resulting from disciplinary action. The Board also hears and reviews complaints filed under the whistleblower statute. Under the direction of the presiding hearing officer, the proceedings are conducted on an informal basis through the taking of direct testimony, the cross examination of witnesses, and the admission of evidence. A record of the proceedings is taken and made available, upon request, to hearing officers, board members, and parties to the appeal. The hearing officer determines the facts based on the evidence presented and makes a recommendation regarding discipline to the Board. Board members are subsequently provided with case information so they may determine whether proper discipline has been imposed.

5 Year Plan

Issue 1 Fair, impartial, and expeditious hearing process

Description The State Personnel Board is responsible for hearing and reviewing, via an administrative hearing process, appeals filed by covered state employees who have been dismissed from covered state service, suspended for more than 80 working hours, or involuntarily demoted resulting from disciplinary action. The Board also hears and reviews complaints filed under the whistleblower statute. Under the direction of the presiding hearing officer, the proceedings are conducted on an informal basis through the taking of direct testimony, the cross examination of witnesses, and the admission of evidence.

Solutions:

The Board finds that the statutory timeframe of thirty (30) days for holding a hearing for an appeal or complaint from the date it is filed is unrealistic. Therefore, in an attempt to limit continuances so appeals and complaints are completed as expeditiously as possible, the Board is considering changing the statute to add additional time to allow for the parties to prepare for the hearing and to also consider the parties' input for scheduling the date of the hearing. Once statute is changed it is more likely that the Board will meet the objective of expediting the process with less continuances.

Currently, the stakeholders are only provided a survey after a case has gone to hearing in order to ascertain deficiencies in the hearing process and make improvements. However, many cases are dismissed and never reach the hearing process; therefore, there is valuable input lost as to the services that were or perhaps were not provided to the stakeholders even without a hearing. The Board is in the process of posting a survey on their website that can be prepared and submitted to the Board at any phase of the process so all aspects of service provided to stakeholders can be collected and evaluated for potential improvements.

Issue 2 Personnel reform

Description The Board recognizes that personnel reform has impacted the number of appealable actions that have been taken against covered state employees. Approximately 25% of the workforce are still covered employees and have appeal rights. In FY16, 26 disciplinary action appeals were filed and 0 whistleblower complaints. In FY17, 5 disciplinary action appeals were filed and 3 whistleblower complaints were filed. In FY18, 5 disciplinary action appeals were filed and 5 whistleblower complaints were filed.

Solutions:

While it is recognized that fewer appeals are being filed, due process must still be provided to those that are filed. The Board's website is being revitalized to provide more information to stakeholders with regards to the appeal and complaint process; adding fillable forms to the website to make the process easier for Public Records Requests, request for subpoena(s), changing contact information, etc.

BOARD OF PHARMACY

Kam Gandhi, Executive Director

Phone: (602) 771-2740

A.R.S. §§ 32-1902 and 32-1904 et seq.

Mission:

To protect the health, safety, and welfare of the citizens of Arizona by regulating the practice of pharmacy and the distribution, sale, and storage of prescription medications and devices and non-prescription medications.

Description:

The Board of Pharmacy has four primary functions. The first is to issue licenses to pharmacists, pharmacy interns, and pharmacy technicians. Additionally, it is responsible for issuing permits to pharmacies, stores selling over-the-counter (OTC) products, manufacturers, wholesalers, and distributors. The Board also conducts compliance inspections of permitted facilities and investigates complaints and adjudicates violations of applicable State and federal laws and rules. The Board promulgates and reviews State rules and regulations in regard to the industry. The Board oversees the Controlled Substance Prescription Monitoring Program (CSPMP), which is a tool that enables practitioners to prescribe appropriately.

Issue 1 Drug Supply Chain Securities Act (DSCSA)

Description All product via prescription grade or OTC should be trackable and traceable. This process will require ASBP to revisit existing language to mirror federal guidelines. The ultimate goal is to eliminate counterfeit drugs from entering the supply chain.

Solutions:

More detailed inspections monitoring accurate records.

Authority to visit and inspect location that are not currently permitted through ASBP

Ensure permitted locations are only doing business with permitted locations.

Issue 2 Growth and modernization of sterile drug compounding pharmacies without oversight from the U.S. Food and Drug Administration. Epidemic situation with Controlled Substance Abuse. Making the CSPMP database the best in the industry to help with the opioid over use situation.

Description Operated by licensed pharmacists, compounding pharmacies are regulated by State Boards of Pharmacy and are not regulated by the U.S. Food and Drug Administration (FDA) as they are not viewed as drug manufacturers under federal law. Compounding pharmacies have modernized since most compliance officers graduated. Specialized training is required to fulfill the mission of the Board and protect the health, safety and welfare of Arizona consumers. Compounding pharmacies produce and distribute sterile drugs including injectable steroids, eye drops, etc. If compounding is performed incorrectly, contamination can occur which can lead to serious health risks for consumers. Disease outbreaks due to contamination have made headlines in recent years across the country, including a fungal meningitis outbreak in 2012 that sickened 680 people and was linked to injectable steroid medication produced by a compounding pharmacy in Massachusetts.

Prescription controlled substance abuse has become a national epidemic. Ninety % plus of the controlled substances prescribed and use takes place in the United States.

Solutions:

1. Provide compliance officers with specialized training in modern compounding practices in order to effectively monitor and regulate sterile drug compounding.

2. Engage with the National Association of Boards of Pharmacy to support federal legislation requiring compounding permits for compounders who wish to practice outside the scope of traditional pharmacy practice.

3. Educate prescribers on utilization of the controlled substance prescription monitoring program (CSPMP)

4. Encourage utilization of the CSPMP for better patient care.

5. Market/Educate/Train practitioners on the Mandate of using the CSPMP and the benefits to the patients.

6. Expand the ease of use of CSPMP by putting together a task force to have constant feedback on improvements to the CSPMP.

Issue 3 Continue the efforts on the Opioid Crisis

Description Opioid prescribing and dispensing has been identified to be the cause of many overdoses. The CSPMP database is designed to help make smarter decisions when prescribing and dispensing.

Solutions:

1. Add to the inspection process, utilization of the CSPMP by pharmacists.

2. Cooperate with law enforcement on investigations.

3. Cooperate with professional agencies on investigations.

4. Continue to educate and create awareness on the benefits of using the CSPMP

Agency Summary

BOARD OF PHYSICAL THERAPY EXAMINERS

Charles D. Brown, Executive Director
Phone: (602) 274-1088
A.R.S. § 32-2001

Mission:

To process applications for licensure as a physical therapist and certification as a physical therapist assistant, and to enforce the statutory provisions of the Arizona Physical Therapy Practice Act for purposes of protecting the health, safety, and welfare of the public from the incompetent, unethical, and/or illegal practice of physical therapy.

Description:

The Board licenses physical therapists, certifies physical therapist assistants, registers physical therapy business entities, investigates and adjudicates complaints, assesses continuing competence, and enforces the standards of practice for the physical therapy profession. The Board also regulates business entities that provide physical therapy services.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	0.0	0.0	0.0
Other Appropriated Funds	412.2	499.6	516.5
Other Non Appropriated Funds	0.0	0.0	0.0
Total Funding	412.2	499.6	516.5
FTE Positions	4.0	4.0	4.0

Issue 1 1.Establish the mechanisms for assessing continuing professional competence of physical therapists to engage in the practice of physical therapy and the competence of physical therapist assistants to work in the field of physical therapy.

Description a.The Board of physical therapy currently requires licensed physical therapist to complete 20 contact hours of continuing competence activities during each compliance period. The compliance period is two years in length, beginning September 1 of an even numbered year and ending August 31 of the next even numbered year.
b.Certified physical therapist assistants currently have no minimum continuing competence activity requirement. In 2016 Arizona passed legislation to join the Physical Therapy Licensure Compact a requirement to impliment the Compact will be adding physical therapist assistants to the continuing professional competence program. A request to allow the rulmaking changes to impliment this change will be made to the Governor's Office in September 2017.

Solutions:

- 1.The Board is currently working with the Arizona Physical Therapy Association to update current requirements for continuing competence activities for licensed physical therapists and certified physical therapist assistants.
 - a.The taskforce working on the matter expects to approach the Board in 2014 with recommended changes to include, a minimum requirement of 10 hours of continuing competence activities.
 - b.The taskforce also plans the Board require completion of an Arizona Jurisprudence exercise hosted on the agency website as a mandatory condition for completing the renewal process.
 - C.The earliest implementation of any changes to continuing competence activities requirements would be in the 2020 renewal cycle.
 - D.The Board has announced its intention to change rules to require continuing competence activities for Physical Therapist Assistants. The response to EO 15-01 Rules requiring amendments reflects the need for the change. With the requirements in the Physical Therapy Licensure Compact we anticipate this change will be ready for the 2018 or 2020 renewal cycles.
 - E. The rules are drafted and awaiting Board approval in September 2018. Following Board approval the rule package will be opened with the Secretary of State. The final rules are estimated to be in effect January 2019.

Issue 2 2.Regulate the practice of physical therapy by interpreting and enforcing this chapter.

Description a.The Board received between 50 and 70 complaints per year.
b.The Board currently maintains a 1 FTE to investigate all complaints received against physical therapists, physical therapist assistants, and business entities.
C.The Board has seen an increase in the number of complaints filed beginning in 2009 as well as an increase in the complexity of the cases. However, in 2016 we saw a decrease in the number of complaints filed. We will be tracking these figures and monitoring the numbers. The Board believes its efforts at education of students, licensees and certificate holders is contributing to a reduction of cases being forwarded to the Board.

Solutions:

- 2.The Board has evaluated its current investigative resources and identified a lack of time and manpower as the greatest contributor to recent back logs in adjudicating complaints.

The Board has seen marked improvement in investigations completeness time frames. However, a backlog of formal hearings remains. The Board has increased its ISA for a half time AAG designated to the Board of Physical Therapy. The backlog of cases has been reduced and was anticipated to be resolved in 2017. However, the Board's transition to an eLicensing solution has consumed much more staff time than anticipated. In addition, the Board experienced an unexpected vacancy in the Executive Director position, which has impacted the Formal Hearing backlog. The Board has coordinated a response with the Attorney General's Office and believes the backlog can be resolved by end of FY 2019.

Issue 3 3.Evaluate the qualifications of applicants for licensure and certification; and provide for national examinations for physical therapists and physical therapist assistants and adopt passing scores for these examinations.

Description a.The Board has seen an increase in the number of application filed in any calendar year from 500 in 2009 to 900+ in 2016. In addition, the number of physical therapists renewing active licenses increased by over 600 from 2012 to 2016. Physical therapist assistant renewals increased by over 500. The space available in the agency office to house the increased number of applications has been reached maximum capacity. In calendar year 2016 the Board received 900 applications in total, which is an increase of 64% in five years.
b.The national examinations for physical therapist and physical therapist assistants have been changed from tests given on a continuous basis on almost every day of the year to tests provided only four times each per year.

Solutions:

3.The Board physical therapy is currently addressing the need for improved processes for the increased number of applicants and the change in their availability of national tests.

A. On March 15, 2012, changes in the timing of allowing applicants to attempt passage of their national examinations were signed into law. A.R.S. §32-204 was modified to allow applicants to test for their national examinations before completing their full educational programs, which allows increased options in taking one or more of the four tests allowed per year. The average time awaiting licensure from the time it is administratively complete dropped to 1 days in FY 2017.

B.The Board has implemented a new preapproval process for all applicants. The process allows most applicants to receive approve for licensure or certification once the application is complete with the exception of test scores and receipt of transcripts. The process allows licensure or certification to be issued upon receipt of these final applicant requirements.

C. The Board received approval in FY 2017 for an appropriation increase to acquire e-Licensing software solution to better increase consumer access to Board services online, receive payments online, and process services such as applications online. The Board is participating in the Statewide Enterprise eLicensing project to identify a system that works for the Board and other state agencies. In FY 2016, the Board completed a process to document all agency functions and system operations, which was one of the contributing documents for the Statewide Enterprise eLicensing project.

D. In May of 2018, the Board launched its new eLicensing with promising results, initially. In July 2018, the system experienced multiple performance problems and coding issues. The vendor has reengaged in an effort to stabilize the system and fix the coding problems. However, the impact on the 2018 renewal cycle from July 1, 2018 to August 31, 2018 has been extremely damaging to Board operations and is forcing the Board to extend the renewal process past the deadline. The Board believes once the system is stable and has the coding corrected it will be a viable solution for the foreseeable future. However, future funding requests to enhance the system will be delayed until at least FY 2021 to ensure additional funds are not spent on an unstable system.

ARIZONA PIONEERS' HOME

Philip Schlotter, Superintendent
 Phone: (928) 445-2181
 A.R.S. § 41-921

Mission:

To provide a home for Arizona pioneers and disabled miners that delivers the optimal physical, emotional, and spiritual care in a homelike and compassionate environment. Quality of care is provided in a professional manner, protecting dignity and honoring the personal directives of each resident in life as well as death while considering the uniqueness of each individual.

Description:

The Arizona Pioneers' Home was established in 1909 by the territorial government of Arizona as a home for the aged and infirm to repay the faithful and longtime Arizona residents who helped pioneer and build the state. It opened its doors in 1911. In 1929, the scope of the home was broadened to serve also as Arizona's hospital for disabled miners. The Arizona Pioneers' Home is a continuing care retirement home that serves 105 Arizona pioneers and disabled miners. Pioneers' Home employees provide direct nursing care, food service, activities, social services, housekeeping, laundry, maintenance, and business and administrative services and support to the residents, and strive to meet Department of Health Services residential facilities licensing standards through modeling best practices. The Home is surveyed periodically by the Department of Health Services.

5 Year Plan

Issue 1 To provide care and resident services that meet or exceed the highest standards and best-practice standards for residential care facilities.

Description The Home is dedicated to providing the highest level of health care to its residents.

Solutions:

The Pioneers' Home will hire and retain only the best staff available ensuring that a minimum standard in in line with the Arizona Department of Health regulations. and provide on-going training and counseling to obtain the highest level outcomes. The Pioneers' Home leadership team have implemented an improved QAPI program focusing on resident and staff safety and will continue to improve the program taking input from every department. During FY2020 we are introducing continuous improvement initiatives to reduce agency costs and improve resident outcomes.

Issue 2 To enhance the internal and external restoration and décor of the Home to maintain its historic presence and functional lifetime.

Description Much of the Home's historic building is over 101 years old requiring continuous maintenance.

Solutions:

Beginning in FY2019 and continuing through FY2021 the Pioneers' Home will improve the physical structure and plant operations by upgrading exterior windows and doors, remodeling resident restrooms, upgrading emergency monitoring systems and improving drainage systems at the cemetery.

Issue 3 Challenges in increasing the proportion of resident admissions from counties other than Maricopa and Yavapai counties.

Description The Arizona Pioneers' Home has, over the years, had a disproportionate number of residents from Yavapai County applying for and being admitted to the Home. This is partially due to many Arizona residents retiring to Yavapai County prior to admission as well as the many active mines in the county. The Home actively seeks opportunities to increase awareness of and admissions to the Home to residents of the state residing in counties other than Maricopa and Yavapai.

Solutions:

The Pioneers Home will increase our community outreach to include additional residents from outside Yavapai and Maricopa Counties. Specifically, we will partner with the Area Agency on Aging and Councils of Government to provide information on the benefits and admission process for the Arizona Pioneers' Home.

BOARD OF PODIATRY EXAMINERS

Kristina C. Gomez, Executive Director
Phone: (602) 542-8151
A.R.S. § 32-801 et seq.

Mission:

To protect the health, safety, and welfare of the citizens of Arizona by regulating and maintaining standards of practice in the field of podiatric medicine.

Description:

The State Board of Podiatry Examiners licenses and regulates doctors of podiatric medicine who practice in the diagnosis and treatment of the foot, ankle, and lower leg. The Board evaluates the professional competence of podiatrists seeking to be licensed in the State of Arizona. Further, the Board investigates complaints made against practitioners, holds hearings, monitors the activities of its licensees, and enforces the standards of practice for the podiatric profession as set forth by law.

5 Year Plan

Issue 1 Seek rule moratorium exemption to amend fees to better support board operations.

Description Fees are set by statute and promulgated in rule. The Board has room under their statutory caps to increase the fees for licensing.

Solutions:

Executive Director will research other jurisdictions and their fee structure(s) for issuing licenses and seek approval from the Board to grant a rule revision for increasing its fees.

Issue 2 Seek opportunities to update/amend the Board's statutes and rules through either legislation or rule making.

Description The current statutes and rules are dated and there are several areas where improvement is needed.

Solutions:

Hold meetings with current Board members to seek input, draft new statutes to run a bill through legislation and seek an exemption of rule-making moratorium to amend rules.

Issue 3 Seek to fix the new eLicensing database making it both functional and secure.

Description The Board of Podiatry Examiners currently has a new eLicensing database (established May 2018). The database has not worked properly since the inception of the project. The Board continues to have issues with the system which are impacting the constituency and therefore the public as a whole.

A new system should have allowed for more user efficiencies, better public integration, including online renewals and online payment. At this point in time, these efficiencies have not been realized.

Solutions:

The Board will continue to work alongside ADOA ASET, the vendor, and the other impacted Boards to identify how to implement a working eLicensing system that is a benefit to the state. ASET is taking the lead with the vendor, using their knowledge and expertise in the information and technology environment to help assist the Boards.

COMMISSION FOR POSTSECONDARY EDUCATION

Dr. April Osborn, Executive Director
Phone: (602) 258-2435
A.R.S. § 15-1851

Mission:

To expand access to and increase success in postsecondary education for Arizonans.

Description:

The Arizona Commission for Postsecondary Education (ACPE) is composed of 16 commissioners, 14 of whom are appointed by the Governor. Commissioners represent public and private postsecondary education and its constituencies. Core responsibilities of the ACPE are related to student financial assistance programs, including administration of State grants, scholarships, forgivable loans, and the Arizona Family College Savings (529) Program. The Commission provides timely and effective communication and programs to help students and their families plan, transition, and succeed in postsecondary education. The Commission offers the single forum where all sectors of postsecondary education dialogue, collaborate, and problem-solve issues of common interest.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	1,848.9	1,646.8	1,646.8
Other Appropriated Funds	1,295.4	1,537.2	1,537.2
Other Non Appropriated Funds	1,696.0	1,852.3	1,852.3
Total Funding	4,840.3	5,036.3	5,036.3
FTE Positions	7.3	7.3	7.3

Issue 1 Student financial assistance dollars have been reduced and the scarcity of funding is impeding access and completion of postsecondary education for Arizonans.

Description The Commission comprises 16 Commissioners, fourteen of whom are Governor appointed. Commissioners represent both public and private postsecondary education and its constituencies. Core responsibilities of the ACPE are related to student financial assistance programs including administration of state grants, scholarships, forgivable loans, and the Arizona Family College Savings (529) Program.

In addition, A.R.S. Title 15, Chapter 14, Article 5, § 15-1851 B1a charges the Commission to focus on the postsecondary needs of the unserved and underserved individuals in Arizona. It is this call to equity that caused the Commission to develop, implement, and build the College and Career Goal Arizona programs, which are designed to support Arizona's high schools. Additionally, these programs assist low-income students and their families plan, transition, and succeed in postsecondary education and the workforce.

Moreover, the Commission has spawned interest and participation from all sectors of postsecondary education to join together to find sustainable solutions to erase the well-documented education and career achievement gap for low-income students and their families. This persistent gap is seen in the educational performance of low-income and minority students in comparison to other groups. This educational gap drives the limited participation in workforce success, as well. The elimination of this gap will propel Arizona forward with the engine of an ever-growing K-12 student talent pool ready to take on the projected 61% of jobs requiring a postsecondary credential or degree in the next decade.

Solutions:

Goal 1: Maximize student financial assistance available and support efforts to restore and increase student aid.

Strategy 1.1: Provide effective and efficient administration of the Arizona Leveraging Educational Assistance Partnership (AzLEAP).

1. Maintain administration similar to state and federal guidelines to provide consistency for both institutions and students.
2. Survey postsecondary institutions regarding effectiveness of administration.
3. Annually assess opportunities for continuous improvement of administrative processes.
4. Develop, test, and implement streamlined processes, as needed.
5. Prepare and distribute reports on students served by program to policy makers.

Performance Measures:

- Achieve 90% satisfaction with administration of program as evaluated by institutional constituencies annually.
- Document annually any opportunities for continuous improvement.
- Document the process improvements implemented and describe administrative benefits.
- Complete and distribute an annual report to policy leaders informing them about participants and the benefits to the State.

Strategy 1.2: Ensure that the Arizona Teacher Student Loan Program, (formerly known as the Arizona Math, Science, Special Education Teacher Loan Forgiveness program or MSSE) is bringing about equity by attracting quality students into teaching preparation programs and alternative teaching certificate programs who will take on a mission of service in order to repay their loans in one of four ways: by teaching at a low-income school (60% Free and Reduced Lunch schools); by teaching math, science, or special education; by teaching in a rural school; or by teaching in a school located on an Indian Reservation.

1. Increase and improve the promotion of the Arizona Teacher Student Loan Program to better meet the State's needs for equity and elimination of the achievement gap for Arizona's low-income and minority children.
2. Seek to increase the appropriated funds for this program by \$250,000 in order to begin to increase the teacher pipeline for math, science, special education subjects for low-income, rural, and schools on tribal lands. Raise the number of pre-service teachers served to 30-40 individuals.
3. Identify ways to recruit and financially support individuals who are seeking teacher certification and who fit the profile of someone motivated to achieve equity and will take steps in the school and the classroom to close the achievement gap for low-income and minority K-12 students.
4. Integrate the Arizona Teacher Student Loan Program (ATSLP) into the AzGrants website providing a simple application for student aid.
5. Market and promote to all Arizona students already enrolled in public and private teacher education programs for maximum

exposure of these opportunities to eligible students.

6. Prepare an annual report describing student and institutional participants as well as teacher retention, loan forgiveness, and loan repayments.

Performance Measures:

-ATSL Program represents a cohesive forgivable loan program with achievable and measurable goals, which will increase equity and begin to reduce the attainment gap for low-income and minority Arizona K-12 students.

-Application process is simple for students and integrated into the AzGrants web portal to enable students to apply quickly and easily.

-Students apply, colleges certify eligibility, and funds are received in a timely manner contributing to the success of the program and its goals.

-Adequate numbers of eligible students apply and receive funds.

-An annual report to policy leaders is compiled and distributed including data regarding pre-service student participation, institutions participating, data on teacher service in shortage areas, and teacher retention data.

Strategy 1.3: Ensure the sustainability of the AzGrants.gov website and a secure web portal which supports access to state student grants, scholarships, forgivable loans, and additionally serves as the web portal for the exchange of sensitive data and reports for high schools for FAFSA Finish Line, College Application Campaign, and College Goal FAFSA Student Progress Reports.

1. Maintain AZGrants.gov, a public facing website providing links to financial aid options and resources.

2. Maintain a single secure web portal which accepts state student aid applications and is programmed to complete the back end administrative processes necessary to award student financial aid.

3. Portal also provides high school staff and designated entities secure access to Student Progress Reports and individual FAFSA completion status data.

4. Portal provides financial aid professionals from postsecondary institutions across the state secure and user-friendly access for verification and certification of student eligibility for state financial aid.

5. Portal allows students to track the progress of their application.

6. Data is collected through website regarding students and institutions to be used for reports and data-rich policy decisions.

Performance Measures:

-Inform decision-makers of the return on investment and the need to financially support the maintenance and hosting expenses necessary to maintain this web portal:

- Number of grants, scholarships, loans issued annually.

- To achieve the transfer of sensitive data in a secure manner e.g. individual FAFSA Finish Line reports and Student Progress Reports.

-Website allows the Commission to support high schools with up to the minute data on applications (both college and FAFSA); thereby providing the means to securely transmit reports for high school staff to target needs and aid the student in the completion of an application.

-Gather information from postsecondary institutions regarding their assessment of the portal use and the functions it provides.

-Survey high school personnel campaigns regarding the effectiveness of the web portal for their needs.

-Assessment of enhanced security provided through the portal.

-Determine the value of annual reports to policy leaders describing characteristics of students, the institutions participating, as well as data from students regarding barriers and incentives to persistence to degree.

Strategy 1.4: Provide effective and efficient administration and oversight for the Arizona Family College Savings (529) Program (AFCSP).

1. Strategic use of a national-level investment consultant delivers program-specific data and analysis grounded in a national perspective to staff, Oversight Committee members, and Trustees (Commissioners) which enables them to guide the AFCSP and its products to a high level of quality with broad appeal.

2. Through on-going research and participation in professional development venues, Commission staff apprise Commissioners and Oversight Committee members of SEC, MSRB, federal regulations, and national 529 plan issues and trends

3. Commission staff, Trustees, and Oversight Committee members use knowledge of best practices and other successful state models to improve Arizona 529 plan administration and offerings.

4. Processes to ensure the interest of the state and the needs of Arizona residents are being met are in place.

5. Continuously improve processes and procedures with appropriate documentation, development, and testing throughout the

year.

6. Staff, in tandem with a public relations firm, develop and implement an on-going public awareness/marketing plan to inform and encourage Arizona families to prepare for the expenses of postsecondary education through a tax-advantaged 529 plan.

7. Commission staff provides measures of the success of the 529 plan, using various sources of data and program mission and goals.

Performance Measures:

- Program administration, operating procedures, and offering materials comply with regulatory and College Savings Plan Network standards, reflecting best practices of the industry.
- Director and Executive Director attend national meetings, participate in professional organizations, and bring research, trend analysis, and best practices to the trustees, Oversight Committee, and administration of the AFCSP.
- AFCSP investment consultant, Capital Cities, provides ongoing industry expertise for issues of product and trend analysis, evaluation of program manager service, as well as advice on matters of legal and regulatory import.
- Director, along with investment consultant, holds monthly meetings with program manager, representatives, reviewing account growth, product offerings, marketing plans, the interests of the state, and ensuring program participant needs are being considered as well as compliance with contract obligations.
- Quarterly management reports and investment consultant evaluations of each provider's benchmark performance are prepared and distributed among constituencies.
- Improved number or impact of outreach opportunities to improve the general public's knowledge of 529 plan benefits through public awareness efforts.
- Increased number of Arizona families participating in the AFCSP annually by a predetermined goal.
- Increased number of publications (digital or print) distributed, unique web visits, and social media engagement.

Strategy 1.5: Offer a quality college savings (529) program by maximizing the contribution of the AFCSP Oversight Committee.

1. ACPE Commissioners, as Trustees, determine approval of Oversight Committee created mission statement and goals.
2. Oversight Committee member expertise is maximized in areas of evaluation of program, knowledge of investment offerings, operations, and marketing.
3. Staff supports the Oversight Committee with requested research, highlights of operational changes or improvements, and measurements of activities against goals.
4. Oversight Committee is continually advised on industry regulations, trends and best practices by investment consulting firm at regular meetings and receives advice from investment consulting firm at decision points.
5. Effective Oversight Committee meetings take place five times per year to make recommendations to the Trustees; Trustees meet 4 times a year to make decisions.
6. Oversight Committee members continuously review program enhancements, evaluate investment offerings and performance results, and assess each program provider's efforts throughout the year in preparation for the annual provider review scoring process which informs the Trustees' decision-making regarding program manager contracts and AFCSP investment options.

Performance Measures:

- Mission, goals, and investment policies are developed, modified as needed, and used to direct program administration.
- Oversight Committee and Trustee meetings are held as scheduled, recorded minutes publicly posted, and periodically evaluated by participants for effectiveness.
- Outputs from the Oversight Committee meetings include recommendations to Trustees regarding:
 - approval of mission statement and goals for the AFSCP Oversight Committee,
 - decisions related to program product offerings that provide high quality, affordable investment options for Arizona families,
 - decisions to renew or negotiate new program manager contracts with recommended financial institutions
 - decisions to amend or terminate current contracts, and
 - decisions to hire, replace or terminate an investment consultant for the AFCSP.

Issue 2 Forty-eight percent of Arizona K-12 students live at 200% of poverty or below and these students and families will benefit from information and support to take the necessary steps to enroll, finance, and complete a postsecondary education.

Description As compared to other states across the nation Arizona has:

- (1) one of the lowest college-going rates with only 52.5% of the 2016 seniors enrolling in a postsecondary education experience leaving 33,134 students with no further education options, likewise
- (2) one of the lowest college attainment rates with only 27.1% of a senior class (2010) graduating from a 2-year or 4-year postsecondary institution 6 years following high school graduation; and only
- (3) 28.8% of all Arizonans over the age of 25 holding a bachelor's degree or higher.

These outcomes coexist with the prediction from Anthony Carnevale's "Help Wanted: Projections of Jobs and Educational Requirements through 2018" published by Georgetown Public Policy Institute's Center on Education and the Workforce that 3 out of five jobs in Arizona, or 61%, will require some training beyond high school by 2018. No longer is high school graduation the finish line. Arizona must improve the education outcomes of our K-12 and postsecondary education systems in order to meet projected workforce and social capital needs.

College and Career Goal Arizona (C2GA) is a statewide initiative coordinated by the Arizona Commission for Postsecondary Education. It promotes partnerships with Title 1 high schools statewide to implement strategies designed to (1) increase the number of students making an application to a postsecondary education institution and (2) increase the number of seniors applying for and securing student financial aid, and (3) builds a sustainable college-going community to support future students' college dreams.

College and Career Goal Arizona (C2GA) includes the Arizona College Application and College Goal FAFSA Campaigns, along with FAFSA Finish Line Reports. The College and Career Goal Arizona Campaign promotes equity by providing a supported, cohort approach where high school staff and peer support together, take on the role played in middle class families by an experienced, college knowledgeable adult. The role of this family member includes informing, motivating, and even prodding students toward submitting, on time, a college application. In order to participate in the Arizona College Application Campaign (CAC), high school principals and counselors sign a pledge to dedicate time and space, generally over 1-3 days, when every student is provided computer time to complete at least one application for postsecondary education. High schools also agree to a goal of 100% participation

More than 836,427 applications were filed in 50 states following this format last fall through the American College Application Campaign organized by the American Council on Education with financial support from Lumina. Arizona mounted a very successful fifth year campaign with 67 high schools representing 20,109 seniors who participated in the 2017 CAC events.

College Goal FAFSA also provides cohort support for seniors to file the Free Application for Federal Student Aid (FAFSA). All high schools participating in the College Application Campaign were invited to join the College Goal FAFSA Campaign in 2017. Seventy-one high schools chose to put on 102 workshops and 52 chose to receive FAFSA Finish Line Reports. The College Goal FAFSA effort of the Arizona Commission has relied heavily over the past 21 years on the strength of a valuable partnership and lots of manpower from the Arizona Association of Student Financial Aid Administrators (AASFAA) and volunteer members of the Arizona College Access Network. An additional challenge present for College Goal FAFSA is the application requirement of collecting parental income information and one parent's signature on each student's FAFSA application. Successful FAFSA completion must be a family affair. Implementing College and Career Goal Arizona programs in Title I high schools statewide is expected to increase the number of Arizona seniors who complete a college application and successfully file the FAFSA, which will result in an increased college-going rate in participating high schools. Moreover, the environment in these high schools and their communities will develop into a persistent college-going culture, supporting postsecondary education options for all graduates into the future.

Solutions:

Goal 2: Provide support from knowledgeable professionals and accurate and timely information to help students and families take the steps to enroll, finance, and succeed in postsecondary education.

Strategy 2.1: Establish College and Career Goal Arizona to develop and support a college-going community within Arizona high schools and communities where every high school senior is encouraged and expected to apply and seek financial assistance to support a postsecondary education

experience.

- 1.Promote the C²GA senior year initiative statewide.
- 2.Establish and develop relationships with key decision-makers and pertinent staff at Arizona postsecondary education institutions and high schools.
- 3.Encourage Community “buy-in” via three groups 1) ACPE Commissioners, 2) the 38 member College & Career Goal Arizona Advisory Committee, 3) and Achieve60AZ Alliance.
- 4.Groups will assist in establishing partnerships and collaborations, identifying and securing funding, and recruiting volunteers.
- 5.Develop a Fundraising/ Partnership Plan inclusive of a case statement, goals, strategies, outcomes, and indicators for success.
- 6.Execute the College and Career Goal Arizona Fundraising/Partnership plan.
- 7.Adjust activities and outcomes to meet the budget.

Performance Measures:

- Key leadership supports the statewide initiative.
- Funding, collaborations, partnerships provide desired assistance in specific areas of need for FY 2018, FY 2019, FY 2020, and FY2021.
- Increase the number and proportion of Arizona high school graduates going on to college over a four-year period of time.
- Increase the number and proportion of college-going high schools and communities in Arizona. Evidence demonstrates movement toward expectations that ALL students can benefit from and progress toward a postsecondary education experience.

Strategy 2.2: Coordinate the statewide College Application Campaign.

- 1.Secure external funding sources to implement program elements.
- 2.Develop marketing and public relations materials to invite high school administrators and counselors to participate in building a college-going community.
- 3.Identify and develop relevant web-based content rich materials for AzCAC website to support high schools, volunteers, and postsecondary institution personnel.
- 4.Recruit high schools with a focus on Title 1 and rural.
- 5.Connect with non-profit volunteer organizations and college access organizations to share resources and collaborate.
- 6.Develop partnerships and collaborations with postsecondary institutions from all three sectors to ensure adequate support is provided for each of the participating high schools and staff.
- 7.Annually evaluate all aspects of the AzCAC program and make program changes accordingly.

Performance Measures:

- Program is adequately funded to support data analysis, high school giveaways, promotional materials, and evaluation.
- Increased number of high schools and seniors participating while retaining the focus on Title 1 and rural.
- Volunteer groups provide manpower for events at high schools.
- Postsecondary institutions’ admissions professionals (all 3 sectors) attend high school events and provide expert advice for program success.
- Media and newspaper coverage promotes AzCAC and touts the outcomes.
- Data on program success is gathered through evaluations from all stakeholders and analyzed for program improvements to be implemented.
- Promote program success at all levels.
- Participating high schools will be invited to participate as a College Goal FAFSA high school.
- Increase the number and proportion of Arizona high school seniors who apply to a postsecondary education institution in the fall of their senior year.

Strategy 2.3: Coordinate the statewide College Goal FAFSA events.

- 1.Secure external funding sources to implement program elements.
- 2.Promote College Goal FAFSA events.
- 3.Curate and develop relevant, web-based, content rich materials which support the needs of high school personnel, volunteers, student, their families, as well as participating postsecondary institutions.
- 4.Coordinate and execute the on-going statewide College Goal FAFSA community events along with high school-based events to assist college-bound seniors, their families, and returning adults in filing the Free Application for Federal Student Aid (FAFSA).

-
5. Mentor site coordinators via email, phone calls, digital resources and visits as needed.
 6. Recruit more than 200 financial aid professionals from all sectors of postsecondary education to participate in College Goal FAFSA events.
 7. Provide webinar-based College Goal FAFSA volunteer training for community members, alumni, neighborhood organizations and local businesses interested in supporting the high schools in their community.
 8. Host an online calendar and registration site where community volunteers and financial aid experts can sign up to assist at high school and community FAFSA completion workshops.
 9. Evaluate and analyze data from survey responses of site coordinators, volunteers and workshop experts, as well as family/student participants, to make improvements.

Performance Measures:

- Programs adequately funded to support high school giveaways, promotional materials, and program evaluation.
- Increased number of College Goal FAFSA events held and well attendance figures over prior year.
- Financial aid professionals and AASFAA and AzCAN members support the program with their expert advice at both postsecondary sites and high school events.
- College and Career Goal Arizona Student Progress Reports indicate target audience is served and benefits are realized.
- Increased number of FAFSA's completed at participating high schools and community sites over prior year.
- Track growth and usage of online registration tool for FAFSA workshop volunteers and FAFSA experts.
- Increased number of digital resources distributed, webinar registration and attendance, and unique website visits over prior year.

Strategy 2.4: Provide student level FAFSA Completion data in the form of FAFSA Finish Line reports to participating secondary schools, Local Education Agencies, and designated entities for the purpose of increasing student FAFSA completion.

1. Commission secures written agreements with high schools, Local Education Agencies (LEAs), and designated agencies, following the U.S. Department of Education requirements.
2. Commission secures state appropriation for technology, web portal, upkeep and maintenance, and 1 FTE to work with high schools to access, utilize, and analyze FAFSA Finish Line reports.
3. Professional development and web-based support materials are provided for counselors and advisors to understand data and how they can assist seniors.
4. A secure portal is established and maintained by the Commission so that high schools, LEAs, and designated entities can upload requests for informational reports every week with the goal of providing targeted assistance to students allowing them to complete their FAFSA.
5. Statewide high school FAFSA completion data to be displayed in Arizona FAFSA Challenge dashboard.

Performance Measures:

- Number of contracted schools, LEAs, and designated entities receive both a manual and instruction about the use of the portal and reports.
- High schools act on information and specific knowledge to assist students to complete their FAFSA.
- High school personnel statewide become aware of the value of the FAFSA Finish Line Completion reports and identify strategies to assist students in completion of individual FAFSA's.
- High schools and designated entities statewide see an increase in students FAFSA completions; thereby students obtain more funds for college attendance.

Strategy 2.5: Develop and promote the Arizona FAFSA Challenge among Arizona high schools in order to increase the FAFSA completion rate for the state and support a state-wide college-going initiative that will result in an educated workforce.

1. Secure funding for statewide marketing and promotion, website development, and on-going technology support.
2. Achieve a 50% FAFSA completion rate for the state gradually increasing the goal to 78% by year 2030
3. High schools increase their senior cohort FAFSA completion rate by 5% over the year prior
4. Market and promote the AZ FAFSA completion dashboard and website statewide
5. Encourage High schools to participate in AZ FAFSA challenges and promote friendly statewide competition through recognition for FAFSA completion rate growth and improvement
6. Collaborate with partner organizations to promote the program and support the utilization of FAFSA completion data to improve statewide rates

Performance Measures:

- Track the number of FAFSA Finish Line agreements signed in order to measure the increase in program participation from the prior year
- Number of participants enrolled in formal AZ FAFSA trainings- evaluate post webinar trainings for effectiveness and content covered
- Track the number of completed FAFSA's for each year as a percentage of the statewide senior cohort
- Website traffic for FAFSACHALLENGE.AZ.GOV- number of website visits, number of times forms and website content has been downloaded, pages viewed, time spent on individual web pages/content
- Track social media activity promoting the AZ FAFSA Challenge and engagement – Followers, retweets, posts etc.

Strategy 2.6: Provide current and relevant web, social media, and print-based information on college-going and financial assistance for families and students.

1. Secure external funding sources.
2. Develop content/program elements.
3. Identify outreach/distribution methods using partnerships and collaborations.
4. Implement, maintain, and evaluate the publications and websites including the Arizona College and Career Guide (print and online) and ACPE websites: highered.az.gov, collegegoal.az.gov, azgrants.az.gov, az529.gov, and fafsachallenge.az.gov.
5. Implement, maintain, and evaluate social media activity and engagement of College and Career Goal Arizona and the Arizona Family College Savings (529) programs.

Performance Measures:

- Funds are adequate to support each project.
- Number of visits per website, numbers of publication requests
- Constituency feedback regarding value of communication and information.
- Staffing is adequate to plan, maintain, and evaluate a quality product.
- Track social media activity and engagement of College and Career Goal Arizona and the Arizona Family College Savings (529) programs (followers, retweets, posts etc.)

Issue 3 Private and public postsecondary education sectors can enhance student success and leverage resources by working together.

Description The postsecondary education system in Arizona comprises 3 public universities, 10 community college districts, and more than 250 private universities, colleges, technical, and vocational schools. The membership of the Arizona Commission for Postsecondary Education has representation from these three sectors and additionally two K-12 superintendents and one individual from commerce and industry, all at the senior management level.

The composition of the Commission provides a unique opportunity for discussion, identification of problems and opportunities, and consideration of solutions from many perspectives. Commissioners benefit from the diverse perspectives among the group and gain a depth of knowledge about all sectors of postsecondary education. Through its work described previously in this report in the areas of equity in postsecondary opportunity and efforts to assist in closing the gap in postsecondary education attainment for low-income and minority students. The Commission, through its work in these areas, seeks to strengthen relationships among all sectors of higher education, as well as encourage cooperation between levels of education.

Solutions:

Goal 3: Provide a forum where all sectors of postsecondary education dialogue, partner, and problem solve issues of mutual interest.

Strategy 3.1: Use the ACPE meetings, statewide programs, and conferences both to problem solve and identify opportunities that cross sectors of postsecondary education

1. Hold effective meetings at least four times per year; conference every other year.
2. Use expertise of Commissioners and constituents to identify areas of opportunity and problems.
3. Use a sub-committee or collaborative task force structures to achieve the identified goals.
4. Promote work of these groups to capitalize on opportunities and solve problems.
5. Executive Director and staff participate in collaborative efforts whenever possible and contribute to the joint effort for improvement.
5. Evaluate outcomes of meetings, conferences, and revise plan annually.

Performance Measures:

- Commissioners rate meetings as effective in achieving goals.
- Areas of opportunity and problems are identified through conversation and interaction.
- Collaborative work groups are established with Commissioner participation and leadership to achieve solutions or engage opportunities.
- Plans are revised and adapted to meet changing needs.

Strategy 3.2: Encourage, lead, and participate in collaboration/partnerships to promote college access and success.

1. Seek avenues to encourage collaboration/partnerships that contribute to the ACPE mission, such as College and Career Goal Arizona Advisory Committee and the Arizona Family College Savings Program Oversight Committee, and lead these groups in a manner that maximizes community input and buy-in.
2. Participate and contribute to collaborative initiatives such as the Arizona College Access Network, the Arizona Career Leadership Network, Expect More Arizona, Achieve60AZ, and the State's Office of Education.
3. Review the effectiveness of existing initiative investments.
4. Share resources to assist in sustaining or initiating appropriate efforts.
5. Complete an annual review of these efforts and re-allocate personnel and resources as necessary.

Performance Measures:

- Number of collaboration/partnership investments.
- Assessment of contributions received and new contributors gained.
- Reallocation of resources based on evaluation.

Strategy 3.3: Initiate research through the Arizona Minority Education Policy Analysis Center that promotes equity and supports the closing of the achievement gap in order to accomplish the mission of ACPE.

1. Develop and support policy analysis center(s).
2. Use research to identify necessary initiatives and goals.
3. Identify research and infrastructure partners.
4. Disseminate and use research to promote policy change.

Performance Measures:

- Maintain every two year publication of the Arizona Minority Student Progress report to serve as a benchmark for progress and to analyze Arizona's success in closing the achievement gap over time.
- Take on issue or policy studies in between regular 2-year schedule.
- Number of studies produced that forward opportunity and best practices.
- Sustain AMEPAC through leadership, infrastructure, and fundraising support.
- Research and its findings are promoted among the community.
- Identify the impact of the studies.

POWER AUTHORITY

Ed Gerak, Executive Director
 Phone: (602) 368-4265
 A.R.S. §§ 30-101 et seq.

Mission:

To responsibly administrate the Hoover Power allocation to the State of Arizona. In fulfilling this responsibility, the Power Authority strives to be an active leader in managing electric resources in a safe and environmentally prudent manner, and to provide active representation on behalf of the State of Arizona at federal, state, and local forums on issues that impact the public power community as a whole and that specifically involve Arizona and the Authority's power resources.

Description:

The Arizona Power Authority (APA) manages Arizona's allocation of hydroelectric power from the Hoover Dam for the overall benefit of the State. The APA cooperates with federal, state, and non-governmental agencies to address regulatory, environmental, and other matters that impact electric power and water uses of the Colorado River. In addition, the APA serves as an information resource for its customers on topics that impact their electric resources and the utilization of these resources. The Authority may also pursue generation and/or transmission projects that are within the APA's legislative mandate and are in the best interest of the State.

STATE BOARD FOR PRIVATE POST-SECONDARY EDUCATION

Teri Stanfill, Executive Director
Phone: (602) 542-2399
A.R.S. §§ 32-3001 et seq.

Mission:

To protect the health, safety, and welfare of the public by regulating private postsecondary educational institutions and providing services to their students.

Description:

The Board licenses and regulates 215 private postsecondary educational institutions that serve approximately 264,000 students annually. The Board determines compliance, investigates complaints and violations, and takes disciplinary action. The Board also administers the Student Tuition Recovery Fund, which provides financial restitution to students injured by private postsecondary institutional closures and provides students access to their educational records.

5 Year Plan

Issue 1 Maintaining effective and efficient regulation of the private postsecondary education sector.

Description The PPSE Board was established by the State Legislature in 1970 to license and regulate private institutions offering vocational and degree-granting programs. The programs offered by the private postsecondary educational institutions range from dog grooming to a Ph.D. in many fields, including Juris Doctorate and a Doctor of Dental Medicine. The programs are offered campus-based, online or a combination of both.

Solutions:

Strategies:

1. Improve and enhance the e-Licensing platform to streamline the licensing processes (renewals and all supplemental license applications for new programs, change of locations, change of owners or change of name) for both licensees and Board staff.
2. Pursue legislative changes to increase fees. The fund balance will continue to decline if action is not taken
3. Improve knowledge and breadth of understanding in the increasing complex federal regulations and accrediting standards.
4. Work with licensed institutions to improve policies and procedures to improve the operation of the institution and to the benefit of the students.
5. Continue to serve with the Community Colleges and the State University on the AZ-SARA Council.

Issue 2 Improve Regulatory Rules and Processes

Description

The PPSE Board acts on new institutional applications, license renewals, new programs, changes/new locations and change of ownerships to determine compliance with statutes and rules.

The PPSE Board is a partner in the federal "Triad" in terms of oversight for the federal student loan program. The other partners include the U.S. Department of Education and the regional, national accrediting agencies.

Solutions:

Strategies:

1. Regular review of policies and procedures for improvement and efficiency.
2. Recurring assessment of regulatory knowledge for licensing and licensing of professionals.
3. Increase knowledge and breadth of understanding of increasing complex federal regulations and accrediting standards.
4. Keeping abreast of emerging trends in the postsecondary sector.

Issue 3 To improve the Student Complaint Process

Description The PPSE Board is responsible to protect consumers/students and to assist institutions through regulatory enforcement and processes that are reasonable, consistent, firm, fair and timely.

Solutions:

Strategies:

1. Require the institutions to respond to requests within a 10-day time period.
2. Encourage the students and licensed institutions to resolve the complaint amicably and fairly.
3. Continue to work with the licensed institutions to take corrective action to inequitable policies or to improve consumer protection.

Issue 4 Enhance the internal personnel structure and leadership capacity to respond to the growing complexity of the private postsecondary sector.

Description The PPSE Board demonstrates its commitment to the private postsecondary sector by supporting the success of students and licensed institutions. The PPSE Board also supports the evolving innovation for improving effectiveness and performance.

Solutions:

Strategies:

- 1.Improvement and enhancement to the e-Licensing platform.
2. Improved training and development of current staff.
3. Continue to provide prompt, courteous and professional services to all stakeholders and partners.

Performance Measures:

1. Number of new institutions, renewals and supplemental license applications licensed with the established timeframes.
2. Number of new institutions, renewals and supplemental license applicants.

Licensed outside of the established timeframes.

3. Number of students enrolled.
4. Number of adverse actions taken (remedial action required, additional reporting requirements and monitoring, higher surety bond).
5. Customer service satisfaction is above 90%.
6. Number of student complaints resolved/dismissed.
7. Number of student complaints resulting in disciplinary action.
8. Number of non-student complaints resolved/dismissed.
9. Number of non-student complaints resulting in disciplinary action.
10. Average number of days in investigating and adjudicating student complaints.
11. Average number of days in investigating and adjudicating non-student complaints.

Issue 5 To assist a closing institution in conducting a orderly closing and possible teach-out.

Description The PPSE Board administers the Student Tuition Recovery Fund. Through this program, the Board works with the closing institution to provide alternative options for students to continue their education at another institution. The PPSE Board provides assistance to the students who are currently enrolled and attended the closing/closed school.

Solutions:

Strategies:

1. Work with the closing institution to open communications with the currently enrolled students to inform the students of the available options.
2. Work with currently licensed institutions to provide available teach-out opportunities for the students in the closing institution.
3. Process Student Tuition Recovery Fund claims in a timely manner.

Issue 6 To collect and secure monies sufficient to provide for student financial restitution.

Description Through the Student Tuition Recovery Fund, the PPS Board provides financial restituion to students who were currently enrolled at the time of a school closure and unable to transfer to another institution.

Solutions:

Strategies:

1. An assessment will continue for FY19 through FY2022 in order to maintain the \$500,000 minimum STRF Requirements.
- 2.Require at-risk institutions to provide the State Board with electronic copies of student records.
- 3.Discuss legislative changes to increase the STRF to \$1,000,000, revise the assessment calculation and require all institutions to pay the assessment.

Issue 7 To continue to provide students copies of their educational records in a timely manner

Description The PPSE Board takes possession of student educational records to further their education or for verification of employment.

Solutions:

Strategies:

1. Secure student educational records from institutions that may be at risk.
2. Work with RMC in digitizing the currently housed student records.
3. Update the internal record keeping of the location of the student's educational records.
4. Require licensed institutions to maintain student records digitally to improve efficiency in retrieving student records information.

Performance Measures:

1. Student records are processed within 10 days of receipt.
2. Student tuition recovery claims are processed/approved within 90 days.
3. Responsible fiscal management.

BOARD OF PSYCHOLOGIST EXAMINERS

Jenna Jones, Executive Director
Phone: (602) 542-3018
A.R.S. §§ 32-2061 et seq.

Mission:

To protect the health, safety, and welfare, of Arizona citizens by regulating the professions of psychology and behavior analysis.

Description:

The State Board of Psychologist Examiners licenses and regulates professionals to practice in the fields of psychology and behavior analysis. The Board accepts complaints against licensees, investigates allegations, and administratively adjudicates complaints.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	0.0	0.0	0.0
Other Appropriated Funds	541.9	495.0	542.4

Total Funding	541.9	495.0	542.4
FTE Positions	4.0	4.0	4.0

Issue 1 The agency is unable to offer online initial applications for licensure.

Description Effective February, 2017, the agency implemented an online application for license renewal. In June 2018, the agency implemented a new elicensing system which allows for initial online applications for psychologists and behavior analysts as well as licensure renewals. The initial application is available also available for downloading on the agency website.

Solutions:

In the FY2018 budget, the agency was authorized an increase in appropriation to participate in the State's e-Licensing system, which will include development of online applications for licensure. System development is scheduled to begin in September, 2017, and is anticipated to be complete within six months. It is anticipated that additional improvements and enhancements will be necessary over approximately the following two years in order to ensure compliance with statutory requirements.

The elicensing system was impletmented in June 2018. There are a significant number of enhancements and improvements that will be necessary over the next two years to allow the system to work properly and provide accurate reporting, information, and data collection. We will work through this process and implement the changes as they are avaiable.

Issue 2 Arizona does not currently participate in the Psychology Licensure Universal System (PLUS) offered through the Association of State and Provincial Psychology Boards (ASPPB).

Description The ASPPB PLUS system allows applicants to submit one electronic application for licensure as a psychologist across multiple states. ASPPB provides each state their respective application materials and the state maintains the authority to determine whether the applicant meets licensure requirements. Currently, 14 jurisdictions participate in the PLUS system. Some jurisdictions require individuals to apply through the PLUS while other jurisdictions make application through the PLUS an option.

Solutions:

The agency is currently working with ASPPB to offer the PLUS as an option for applicants. It is anticipated that the PLUS may be available to applicants during FY 18. Once implemented, the effectiveness and efficiency of the PLUS will be studied to determine whether it may be more beneficial to use the PLUS system for all psychology licensing applications.

With the roll out of the elicensing system, the implementation of the PLUS has been delayed. At this time, we are making steps to move forward with the PLUS system option but must determine how and if it will interface with the new elicensing system.

Issue 3 The agency currently maintains paper files for licensure, complaints, and administrative matters.

Description Paper files require substantial office space and physical maintenance.

Solutions:

The Arizona Department of Administration is seeking a vendor to provide an electronic document maintenance system. We understand a vendor or vendors have been identified but that they have a long delay due to the number of agencies that are seeking to digitize records. The agency will explore the cost to participate and may request a future appropriation.

Issue 4 The agency has statutory authority to establish a confidential reporting program for impaired psychologists. An appropriation was authorized for FY 17 for purposes of monitoring the program.

Description In FY 17, the agency began reviewing various options for establishing the confidential reporting program.

Solutions:

It is anticipated a proposal will be presented to the Arizona Board of Psychologist Examiners during FY 19 for direction and approval. Implementation of the program would follow.

Issue 5 Over the next few years, the agency will implement the Psychology Interjurisdictional Compact (PSYPACT).

Description During the 2016 Legislative Session, the Arizona Legislature enacted the Psychology Interjurisdictional Compact (PSYPACT), which was signed into law by Governor Ducey. The PSYPACT will allow qualified psychologists to provide psychological services across state lines into other compact states. The agency will begin implementation once seven states enact the PSYPACT. To date, Arizona, Nevada, and Utah have enacted the PSYPACT. It is anticipated that the seventh state will pass legislation in early to mid FY19.

Solutions:

The agency will participate in implementation once seven states enact the PSYPACT. Participation in the PSYPACT will cost the agency an estimated \$6,000 per year, which has been included in the FY 19 budget request.

Issue 1 Strategic Issue #1: Increase Protection to the Public

Description The real estate industry, the Department, the State of Arizona, and, most importantly, the public are experiencing a period of growth in the Arizona real estate market. With stabilizing economic prosperity in the state it is important to retain consumer confidence in real estate professionals. The Department treats real estate licensees as a profession and always encourages policies that "raise the bar" in the industry. Education, knowledge sharing, and raising the bar has addressed many of the historic areas that may reduce consumer confidence. Some of the areas which the Department receives consumer complaints are as follows:

- Property management mishandling and/or depletion of trust accounts by licensed individuals;
- Fraudulent real estate and subdivision schemes – i.e. lack of public report, distressed properties;
- Mortgage and real estate documents fraud involving licensed individuals;
- Property management schemes/violations conducted by unlicensed individuals;
- Unlicensed entities in Arizona, as well as, out-of-state companies, conducting real estate activities;
- Advertising violations, where misleading false and deceptive marketing is used; and
- Auctions, where unlicensed individuals facilitate the sale of properties; without real estate professional representation for the consumer.

Solutions:

The Arizona Department of Real Estate will utilize the Arizona Management System (AMS) to continue fulfilling its principles, values and mission.

As a regulatory agency charged with protecting the public, and facilitating service for the real estate industry, the Arizona Department of Real Estate's continued emphasis will be on building partnerships within the industry and with other state agencies, in serving and protecting Arizona's constituents through an attitude of supporting a TEAM (Together Everyone Achieves More) concept.

This partnership will continue to focus on "raising the bar" of the real estate industry, thus minimizing the actions that cause harm to the public and educating the public on what to be aware of in their real estate transactions. This task will be achieved through the commitment of open communication, transparency and the sharing of information and knowledge. The Department will create a synergistic approach to problem solving by gathering feedback from all, then implementing changes and improvements as needed.

Through proactive education and information broadcasting, the Department will seek to ensure public and industry awareness of fundamental laws pertaining to real estate transactions in Arizona. The Department's focus will continue to consist of balanced regulation, ensuring that licensees and/or repeat offenders who are proven to have violated the law and harmed the public are dealt with quickly and stringently, while addressing the more minor infractions that do not effect and/or harm the public, and will work from a more educational perspective. Additionally, the Department will continue to streamline processes, implement the Arizona Management System and allow staff to work through cases thoroughly, yet efficiently.

Issue 2 Strategic Issue #2: Enhance Quality of Licensee Real Estate Education

Description Real estate education is a fundamental element of enhancing the highest level of knowledge and professionalism within the real estate industry, benefiting Arizona's constituents. Included in the real estate industry's contribution to a thriving Arizona economy are the Real Estate Educators, which are a growing industry in Arizona.

Pursuant to ARS §32-2135, in addition to being responsible for issuing real estate school licenses, approving the credential of instructors and the subject matter content of courses to be taught, the Department is tasked with ensuring that, once the aforementioned has been done, all schools and instructors are complying with applicable statutes and rules thereafter. This is performed by conducting audits to ensure the information and materials being taught and distributed have been approved by the Commissioner and that certification of student attendance, and/or performance is properly documented.

Solutions:

The Volunteer Monitor Program utilizes volunteers from the real estate industry who review the delivery of courses, to confirm compliance with the stated application specifics and approval guidelines from the Department. Volunteer monitors allow the Department to save personnel costs, while also allowing industry professionals to remain active in participation and compliance. The volunteer monitor program has maintained a high level of class monitor assignments each year since it was implemented.

Issue 3 Strategic Issue #3: Streamline Delivery of Service

Description The Arizona Department of Real Estate strives to be a provider of responsive and reliable services to Arizona's real estate industry and the public served by this industry. The Department's efforts focus on ensuring that the delivery of quality, timely and cost-effective core services. The day-to-day activities of the Department rely on efficient internal business systems. The Department has implemented the Arizona Management System with all agency staff, and has identified measurable breakthrough and sustainability metrics to achieve in FY 2019. These Performance Metrics will be followed on the FY 2019 agency scorecard which addresses each division of the Department, and is designed to drive improvement in all areas.

Solutions:

The Department recognizes that it has an obligation to the citizens of Arizona to ensure that Department resources are being used as efficiently and effectively as possible. To this end, the Department continues to explore and implement efficiency and cost-saving strategies wherever possible, and to look for better ways to deliver services. The Department also remains committed to cross training staff and sharing knowledge of positions across divisions. Agency leadership has seen that knowledge sharing has had an effect on streamlining services as processes are known by all individuals that may influence an outcome.

Issue 4 Strategic Issue #4: Maximize Technology Platform

Description The Arizona Department of Real Estate's Information Technology infrastructure must continue to advance in order to facilitate more efficient internal processes, and to keep pace with the technologically-savvy real estate industry and public the Department serves. Keeping pace with technology and creating the ability to transact nearly all business Online is the way that the ADRE can continue to deliver a high level of service to the steadily increasing number of real estate licensees over the past four fiscal years.

Based on the Department's business technology assessment and the review of the State of Arizona IT Strategic Plan, the Department has developed an IT Strategic Plan to update communication systems, providing opportunities for re-engineering appropriate business processes throughout all areas of the agency. Implementation and integration of these systems will provide faster, more efficient customer service to the public, as well as enhance staff efficiencies by reducing duplication of effort and shortening time spent on various data-gathering and verification tasks.

Solutions:

The Department will continue to develop an enhanced internal database system called REALM II which will build upon the current database system known as Realm. Phases to project completion have been identified and added to the FY 2020 Information Technology Plan.

Issue 5 Strategic Issue #5: Promote Committed, Skilled and Accountable ADRE Team

Description As of August 31, 2018, the Arizona Department of Real Estate employs 31.25 FTE, while appropriated 37 FTE for FY 2019. The Department may under the hiring freeze, if critical, hire up to 34 FTE. Leaner staffing levels, a stable lower budget, and greater efficiencies than the previous year, is what the public and industry has come to expect from the ADRE. Over the past year, the ADRE has had several new hires which are contributing to the success of the Department. To achieve greater efficiencies and success the agency must continue to promote knowledge sharing among experienced and newer staffing and to increase crosstraining among positions and divisions.

Solutions:

Demographic shifts will continue to be the largest single influence on the Department workforce over the next five years, as increasing numbers of experienced employees may retire, or choose to pursue other career opportunities. The Department's continued focus moving forward will be on the ability to implement strategies to mitigate anticipated departures of valuable employees, to preserve and transfer the historical institutional knowledge of retiring staff, and to implement recruitment measures to attract top talent and improve on staff job satisfaction.

The labor market has improved, and will continue as Arizona prospers economically.

Issue 6 Strategic Issue #6: Adhere to Fiscal Guidelines

Description Over the last six budget cycles the ADRE's appropriation has remained approximately \$3 million, while maintaining the number of appropriated FTE's. As of August 31, 2017 the ADRE has 31.25 FTE.

Solutions:

The Department will continue adherence to strict fiscal responsibility to utilize available resources, while focusing on continuing to improve on the excellent delivery of services to the real estate industry, as well as the regulation of that industry, while striving always to protect the public. The entire Department "TEAM" will always be apprised of the budget that the Department is committed to operating within, and will receive a consistent status update on how the Department is performing.

Agency Summary

RESIDENTIAL UTILITY CONSUMER OFFICE

David P. Tenney, Director
Phone: (602) 364-4838
A.R.S. §§ 40-461 et seq.

Mission:

To represent the interests of residential ratepayers before the Arizona Corporation Commission and advocate for reasonable utility rates and reliable, safe utility service.

Description:

The Residential Utility Consumer Office (RUCO) is an agency comprised mainly of attorneys and financial analysts. RUCO participates in matters before the Corporation Commission regarding utility rate increases, renewable energy standards, and Commission rulemaking. RUCO reviews utility financial records, conducts discovery, offers testimony and presents witnesses at evidentiary hearings to argue positions in favor of residential utility ratepayers.

5 Year Plan

Issue 1 Handling the increasing number of utility cases being filed with the Arizona Corporation Commission.

Description Over the past year the number of rate applications has increased substantially for several reasons. First, Energy and Water Efficiency programs have been initiated by regulated companies at the direction of the Arizona Corporation Commission, with the objective of reducing energy consumption and water usage. Second, with the economic problems that the country has experienced during the past several years customer counts have reduced which also has reduced company revenues, creating a necessity to apply for increases in rates. Third, from RUCO's perspective the makeup of the current Commission appears to be more responsive to the utilities requests.

Solutions:

Try to settle more cases early on in the regulatory process by interacting more with utilities and Commission Staff. Strategically choose which cases and issues to litigate fully.

Issue 2 Understanding and analyzing the complexity of new issues contained in rate case filings.

Description The regulatory environment is in a constant mode of change. Due to the reasons stated above, new issues are constantly arising and RUCO is in a position to respond to the utilities' concerns and protect residential ratepayers.

Solutions:

Contact other states commissions, consumer advocacy groups and publications to see how they have handled any common new issues. Fill any vacancies with individuals that have backgrounds and experience in areas where we have little or no expertise. Examples to meet this objective would be the current explosion of solar deployment and how it affects the average residential ratepayer. RUCO hired an expert in the solar field. We are becoming active in the National Association of State Utility Consumer Advocates ("NASUCA") and we are sending a representative to their annual meetings.

Issue 3 Planning ahead so that we are prepared for the ever changing regulatory horizon.

Description In today's changing world it is critical that RUCO recruit and retain qualified personnel to get the job done. The regulatory area is highly specialized and obtaining and retaining competent and knowledgeable personnel is challenging. It is imperative that we keep these individuals, provide proper training, reward individuals accordingly and provide a good work environment.

Solutions:

Ensure that staff has the proper mix of disciplines to meet these changing times. This is an ongoing process and we have nearly completed this exercise by making changes to our key personnel and hiring more consultants with specific areas of expertise. Provide the proper internal and external training and equipment so that our staff is prepared efficiently to deal with the changing regulatory environment.

Issue 4 Ensuring that we are providing the best possible advocacy for the residential ratepayer that we represent.

Description RUCO's charter and primary objective is to guard and protect the residential ratepayer.

Solutions:

Execute solutions defined in Issues 1, 2 and 3 above.

BOARD OF RESPIRATORY CARE EXAMINERS

Jack Confer, Executive Director
Phone: (602) 542-5995
A.R.S. §§ 32-3521 to 32-3558

Mission:

To exercise State regulatory authority over respiratory care practitioners by granting licenses; maintaining public records for all practitioners within Arizona; and enforcing rules and statutes to ensure the public health, welfare, and safety.

Description:

Respiratory care practitioners work in therapeutic, surgical, and/or clinical settings to monitor respiration and lung health, as well as to diagnose and treat disorders. The Board of Respiratory Care Examiners regulates the practice of respiratory care in Arizona. The Board examines and licenses respiratory care practitioners based on minimum competence standards set by the Legislature. Additionally, the Board enforces State laws, rules, and regulations set forth to ensure public safety and investigates complaints filed against members of the respiratory care community.

Issue 1 ARIZONA BOARD OF RESPIRATORY CARE EXAMINERS
STRATEGIC PLAN
Fiscal Years 2016-2021

Description The Arizona Board of Respiratory Care Examiners (“Board”) is a quasi-judicial state government Agency that licenses and regulates the respiratory care profession in the State of Arizona. The Board consists of seven (7) members who are appointed for three year terms by the Governor. The Board consists of two (2) public members, three (3) licensed respiratory therapists, one (1) physician and one (1) hospital administrator.

Respiratory Therapist care for patients who have trouble breathing—for example, from a chronic respiratory disease, such as asthma or emphysema. Their patients range from premature infants with undeveloped lungs to elderly patients who have diseased lungs. They also provide emergency care to patients suffering from heart attacks, drowning, or shock.

Nationally, respiratory therapists held about 119,300 jobs in 2012. Arizona currently approximately 4,100 licensed therapists. Most respiratory therapists work in hospitals. Others may work in nursing care facilities or travel to patients’ homes.

Employment of respiratory therapists is projected to grow 19 percent from 2012 to 2022, faster than the average for all occupations. Growth in the middle-aged and elderly population will lead to an increased incidence of respiratory conditions such as emphysema, chronic bronchitis, and pneumonia. These respiratory disorders can permanently damage the lungs or restrict lung function.

Laws 1990, Chapter 256 § 1, state that:

The Legislature also recognizes that the practice of respiratory care is a dynamic and changing art and science which is continually evolving to include new developments and more sophisticated techniques in patient care, thus creating a need for continuing education and maintenance of minimum standards of competence for those who practice in this area.

The intent of the legislature in this act is to provide clear legal authority for functions and procedures which have common acceptance and usage. In this act, the legislature also intends to recognize the existence of overlapping functions between physicians, registered nurses, physical and occupational therapists, respiratory care practitioners and other licensed health care personnel and to continue to allow appropriate sharing of functions among the various health care professions.

The Board ratifies every new license and renewal application and conducts random audits of required continuing education.

The Board has a well-structured process for investigating complaints made against its’ licensees. The investigation process is clearly separated from the adjudication process. Written procedures were developed to outline the complaint process and the order in which things occur, so the complaint is investigated properly and to ensure the due process of the licensee or certificate

MISSION

The mission of the Arizona Board of Respiratory Care Examiners is to benefit, educate and protect the public through regulation of licensure; enforcement of the rules, regulations and statutes governing the safe practice of respiratory care.

VISION

The Arizona Board of Respiratory Care Examiners is committed to the enhancement of the health and safety of the people of Arizona by ensuring:

- Protection for and confidence by the consumer through enforcement of laws governing the practice of respiratory care.

- Highly qualified therapists work as health care professionals.
- Fair and ethical standards of professional conduct.
- Excellence in therapist training and education.

Solutions:

STRATEGIC ISSUES

Goal 1: Complete investigations with 180 days.

Strategy: By January 2019, the Board will complete and resolve complaints within 180 days from receipt.

Goal 2: By December 2019, the Board will implement a new database solution (E Licensing) that accurately tracks licensing timeframes and provides realtime application updates online.

Strategy: By December 2019 add all service to the Web Portal so that all transactions may be paid with a credit card or electronic funds transfer.

STATE RETIREMENT SYSTEM

Paul Matson, Director
 Phone: (602) 240-2031
 A.R.S. § 38-712

Mission:

To benefit our members, the Arizona State Retirement System (ASRS) is a leading state benefit plan administrator in the areas of core member services, funded status, investment performance, and operational effectiveness, while keeping program benefits and associated costs relatively aligned and maintaining actuarial and fiscal integrity.

Description:

The Arizona State Retirement System (ASRS) provides pension, retiree health insurance, and long-term disability benefits to most public sector employers in Arizona, including State universities and community colleges, public school districts, and State and local governments.

5 Year Plan

Issue 1 Work to ensure the sustainability of the ASRS Defined Benefit Pension Plan and Long-term Disability Program

Description Sustainability refers to the ability of employees and employers to afford the cost and volatility of the programs with relative cost and benefit equity. The agency will perform regular analysis of the ASRS benefit programs and make recommendations when necessary to ensure sustainability.

Solutions:

Issue 2 Analyze ways to achieve long-term affordability, accessibility, and sustainability for the retiree health insurance program.

Description The ASRS health insurance program is entering an unsettled time as a result of new federal legislation, possible local consolidation of effort, and uncertainty regarding costs and benefits. The ASRS will need to evaluate, assimilate and make necessary changes over the next several years to ensure consistent high quality and affordable health care for retirees.

Solutions:

Issue 3 Successfully determine and implement additional value-added investment strategies.

Description The ongoing volatility in the worldwide investment markets will necessitate that the ASRS continue to examine its investment strategies and asset allocation and make any adjustments it deems necessary to ensure the long-term health of the ASRS investment portfolios.

Solutions:

Issue 4 Continue to provide members with cost-effective, high levels of service during a period of increasing demand.

Description Customer demand for service has increased significantly over the past fiscal years. To continue providing members with high levels of service while remaining cost-effective, the ASRS must have a budget that will allow the agency to continue investing in contemporary technology, while also adding the staff necessary to address the increased demand for service.

COLLECTIONS

Tom Johnson, Assistant Director of Education & Compliance
Phone: (602) 716-6090
A.R.S., Title 42

Mission:

To serve taxpayers!

Description:

The Collections subprogram secures the payment of receivables, delinquent taxes and filing of delinquent returns through correspondence, telephone, and field contacts with taxpayers and performs activities to identify and license previously unlicensed businesses.

All collection activity is performed under the overview of the Taxpayer Bill of Rights to promote fairness, confidentiality, and consistency of application of the tax laws. Arizona was the first state to have a Taxpayer Bill of Rights in 1986, and the 1994 updated version again put Arizona in the leadership role of protecting taxpayer rights, while ensuring that all taxpayers pay their fair share of the tax burden.

The subprogram also works with delinquent taxpayers by entering into payment arrangements and educating them in compliance (filing obligations) issues. Upon the taxpayer's action to void the agreement, enforcement collections activity is pursued including filing liens, levies, and seizures of assets.

SCHOOL FACILITIES BOARD

Paul Bakalis, Executive Director
Phone: (602) 542-6143
A.R.S. §§ 15-2001 et seq.

Mission:

To collaborate with Arizona stakeholders in a way that ensures universally safe, secure, healthy, and engaging learning environments.

Description:

The School Facilities Board (SFB) is a capital management agency. The SFB maintains a facilities database consisting of information reported by each school district that aids in determining the eligibility for State funding from the New School Facilities and Building Renewal Grant funds. Through periodic inspections, the SFB is mandated to ensure compliance with building adequacy standards and routine preventative maintenance guidelines with respect to the construction of new buildings and maintenance of existing buildings. The SFB also administers an Emergency Deficiencies Correction program and validates Adjacent Ways expenditures.

5 Year Plan

Issue 1 Assessments and PM inspections

Description Assessments and PM inspections were consistently red on the FY 2017 Scorecard. Staff was unable to perform complete, formal assessments and inspections due to the volume of BRG requests.

Solutions:

For the FY 2019 Scorecard, the target numbers for assessments and inspections have been lowered to more attainable numbers.

Issue 2 SFB Rules

Description SFB Rules need to be updated. The SFB has obtained an exception to the Rulemaking moratorium, and has begun to identify interested parties who will be invited to participate in the process of updating the Rules.

Solutions:

These are our FY 2019 objectives:

1. Establish a detailed timeline for the process of implementing the amendments/revisions.
2. Establish a comprehensive list of interested parties who will be invited to participate in informal or formal meetings and/or solicited for public comment, suggested language or other input.
3. Establish a communication strategy outlining how notice will be given to the public on proposed rule making through a variety of methods including website posts, social media, and email.
4. Create public comment email address.

SECRETARY OF STATE - DEPARTMENT OF STATE

Michele Reagan, Secretary of State

Phone: (602) 542-0681

A.R.S. §§ 41-121 et seq.; 29-301 et seq.; 44-1271 et seq.; 44-1441

Mission:

To help all Arizonans enjoy a better quality of life through electoral participation and confidence in State government by providing fair, honest, and accurate elections; keeping complete and accurate records that are accessible to the public; and providing excellent service to enhance business formation, protect business property, and enable business transactions.

As a division of the Department of State, the mission of the Arizona State Library, Archives and Public Records is to serve Arizona government and Arizonans by providing access to public information, fostering historical/cultural collaborative research and information projects, and ensuring that Arizona's history is documented and preserved.

Description:

The Department of State is headed by a publicly elected Secretary of State, who serves as Acting Governor in the absence of the Governor and succeeds the Governor should a vacancy occur. The Secretary of State is the keeper of the Great Seal of the State of Arizona and is also the Chief State Election Officer who administers election functions, including canvass and certification of statewide elections, and coordinates statewide voter registration. The Secretary of State's office receives and records various filings, including Uniform Commercial Code transactions, trademark and trade name registrations, and limited partnership and limited liability partnership filings. The Office also registers lobbyists and accepts periodic lobbyist and campaign finance filings; publishes all official acts of the State of Arizona including laws, the Arizona Administrative Code, and the Arizona Administrative Register; files the notices of the Governor's appointments to State boards and commissions; appoints notaries public; and applies apostilles to all international transactions.

The Arizona State Library, Archives and Public Records division provides general information services as well as research and reference services in the subject areas of law, government, public policy, genealogy, and Arizona. The division administers state and federal grants for public libraries and offers consultant services to both public libraries and government agencies. The division also offers special library and information services for anyone who is unable to read or use standard printed materials as a result of temporary or permanent visual or physical limitations, manages public record archival retention programs, and creates exhibits to educate the public regarding governmental and Arizona history and the legislative process.

STATE BOARD OF TAX APPEALS

Alisha L. Woodring, Executive Director
 Phone: (602) 364-1102
 A.R.S. § 42-1252

Mission:

To provide an independent appeals process for taxpayers with adverse decisions from the Department of Revenue and/or the Office of Administrative Hearings, and to resolve jurisdictional disputes between municipalities regarding the imposition of transaction privilege and use taxes.

Description:

The State Board of Tax Appeals hears and decides appeals filed by taxpayers and Arizona municipalities concerning income, transaction privilege, use, luxury, and estate taxes.

Funding:	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>

5 Year Plan

Issue 1 To strive to expedite tax appeals in a manner that minimizes delays in the appeals process.

Description The State Board of Tax Appeals hears and decides appeals filed by taxpayers and Arizona municipalities concerning income, transaction privilege, use, luxury, and estate taxes.

Solutions:

Maintaining a current appeals process continues to be the Board's chief priority. The timely issuance and publication of decisions not only benefits the parties involved in the appeals, but also provides much-needed guidance to tax attorneys, CPAs and tax partitioners, as well as others involved in the field of State taxation. Budget constraints over the past several years have forced the Board to compress the number of appeals heard into fewer scheduled hearing dates. This translates into a significant increase in the number of months to complete the appeals process because of the additional time between proposed decisions rendered by the Board and the final approval of the formal decisions. Over the past years the Department of Revenue has added a significant number of new auditors to its staff. Because the Board's caseload is directly related to the number of appeals generated at the Department of Revenue, more audits will certainly increase the number of appeals filed with the Board, and with no corresponding increase to the Board's budget, this will directly impact the Board's caseload. In the future, the Board may be compelled to request additional funding.

BOARD OF TECHNICAL REGISTRATION

Melissa Cornelius, Executive Director
Phone: (602) 364-4933
A.R.S. §§ 32-101, 32-106, 32-107

Mission:

To protect the health, safety, and welfare of the public by establishing appropriate registration qualifications and efficiently and fairly enforcing the statutes and rules governing the practice of the professions and occupations under the Board's jurisdiction.

Description:

The Board of Technical Registration regulates the firms and individual practice of alarms services, architects, engineers, geologists, home inspectors, landscape architects, and land surveyors. The Board also has jurisdiction to investigate and discipline the unregistered practice of professions and occupations under A.R.S. § 32-106.01 and A.R.S. § 32-106.02.

Funding:

	<u>FY 2018 Actual</u>	<u>FY 2019 Estimate</u>	<u>FY 2020 Estimate</u>
General Funds	0.0	0.0	0.0
Other Appropriated Funds	1,920.1	2,291.7	2,297.9
Other Non Appropriated Funds	16.6	0.0	0.0
Total Funding	1,936.8	2,291.7	2,297.9
FTE Positions	25.0	25.0	25.0

5 Year Plan

Issue 1 Applicants for professional registration who hold an equal license in another US jurisdiction must complete a full application and undergo a full file review to obtain professional registration in Arizona.

Description Applicants for professional registration must submit documentation demonstrating 8 years of education/experience, passing exams, certificates of experience submitted by supervisors over the 8 years, college transcripts and verification of license in good standing. These requirements also apply to applicants who have already demonstrated education, experience and exams in order to obtain registration in another jurisdiction. Professional registration requirements in other jurisdictions generally meet or exceed Arizona requirements. It would serve the interests of public safety and professional mobility to change to a system that would allow individuals registered in other jurisdictions to obtain registration in AZ in an expedited manner.

Solutions:

The Board has received confirmation from a sponsor for legislation in the coming session that will allow registration by endorsement. Registration by endorsement will facilitate faster processing of applications for individuals who are already registered in another jurisdiction by limiting the documentation that must be provided with an application to the application itself and verification of registration in other jurisdictions with the same or greater registration requirements than AZ.

Issue 2 The Agency initiative to begin use of an e-licensing program has been delayed due to vendor failure to deliver a functioning system. The agency is pursuing a new avenue to establish e-licensing capabilities.

Description The agency terminated its contract with a prior vendor and has focused on migrating and mapping data under a State contracted vendor. It is the intent of the agency to stabilize the data and agency website as a first priority. Once that goal has been met, the agency will continue the program development for a web portal for e-licensing

Solutions:

The agency has successfully reclaimed data and will complete the process of mapping data and restoring website functionality as a first priority. Upon completion of the first priority, the agency will seek the ability to establish a web portal that allows for on-line renewals and payments as its second priority. As the first two priorities are completed, the agency will expand e-licensing capabilities to all applications and began digitizing registrant records.

Issue 3 The Board's records are maintained solely in paper form, creating storage retrieval obstacle.

Description Prior Board administration did little to centralize and maintain registrant records for easy access. All records are stored in paper form in multiple locations. The Board intends to organize the records and digitize them for storage and retrieval purposes

Solutions:

The Board is currently updating its database system. Part of the system upgrade will include the ability to upload records. The Board is also centralizing current records in preparation for the transfer to digital files. The Board will seek a future appropriation to engage the services of a company on contract with the State to digitize and organize the records for registrants.

MARICOPA COUNTY TOURISM PROMOTION

Debbie Johnson, Director
 Phone: (602) 364-3717
 A.R.S. § 41.2306

Mission:

To provide quality assistance, management and financial incentives to Destination Marketing Organizations (DMOs) within Maricopa County to promote tourism.

Description:

This program provides funding to AOT, as well as to eligible Destination Marketing Organizations (DMOs) within Maricopa County, strictly for tourism marketing activities. The purpose of this funding is to promote a variety of tourism-related products and activities in specific individual destinations as well as Maricopa County as a whole. The funds are restricted from use for administrative or operational expenses. Under the guidance of the Prop 302 Maricopa County Program Committee, AOT oversees the guidelines, application process, level of individual fund allocations and the monthly distribution to each eligible participant in the Maricopa County Prop 302 program annually.

Kristine M. FireThunder, Executive Director
 Phone: (602) 542-4421
 A.R.S. §§ 41-2051 to 41-2054

Mission:

To assist agencies in implementing tribal consultation and outreach activities.

Description:

The Governor's Office on Tribal Relations has a Legislative mandate to assist each State agency in providing equitable programs and services and establishing intergovernmental agreements with tribal nations and communities. The Office reports annually on the implementation of tribal consultations policies; hosts an annual state-tribal summit; requests information to advance intergovernmental cooperation; facilitates Indian Nations and Tribes Legislative Day; implements town hall forums for American Indian people to impart their knowledge on statewide issues; serves as an informational clearinghouse and provides training on cross-cultural situations; promotes increased participation of American Indians in state affairs; and designs and initiates programs to stimulate economic growth of the American Indian population. The office may establish executive committees as needed.

5 Year Plan

Issue 1 The Office aims to engage 30 agencies a year in active tribal outreach methods

Description Assist in the design and implementation of tribal consultation policies

Solutions:

Maintain regular contact with tribal liaisons to ensure timely and accurate report on interactions with tribal nations

Issue 2 The Office will offer an AZ Indian Town Hall annually

Description A plenary session to address issues of mutual concern and includes the distribute a recorded document detailing the event proceedings and recommendations for tribes to consider.

Solutions:

Consolidate the event into a one-day format with an invite-only to key players within key agency function areas to participate.

Issue 3 Educate state employees on cross cultural situations

Description Provide a training focused on educating participants on cultural differences in working with the tribal community at large

Solutions:

Require agencies to send department and division directors to participate in training at least once.

ARIZONA STATE UNIVERSITY

Dr. Michael Crow, President
 Phone: (480) 965-8972
 A.R.S. § 15-1601

Mission:

To demonstrate leadership in academic excellence and accessibility; establish national standing in academic quality and impact of colleges and schools in every field; establish ASU as a leading global center for interdisciplinary research, discovery and development by 2025; and enhance our local impact and social embeddedness.

ASU is a comprehensive public research university measured not by whom it excludes, but by whom it includes and how they succeed; advancing research and discovery of public value; and assuming fundamental responsibility for the economic, social, cultural, and overall health of the communities it serves.

ASU has become the foundational model for the New American University, a new paradigm for the public research university that transforms higher education. ASU is committed to excellence, access, and impact in everything it does.

Description:

Arizona State University is “one university in many places” - four distinctive campuses throughout metropolitan Phoenix that create a federation of unique colleges and schools. They are all ASU, providing access to all the university’s strength and innovation, yet each offers attributes and focuses to meet the needs of any learner. ASU at the Tempe Campus, which includes the Downtown Phoenix campus, is a major public research university offering programs from the baccalaureate through the doctorate. ASU at the West Campus is a comprehensive campus that balances the traditions of liberal arts education with responsiveness to the dynamics of workforce requirements. ASU at the Polytechnic Campus is a nexus for studies in interdisciplinary sciences, engineering, management, technology, and education. Industry partnerships are key to the campus' distinctive course offerings, which provide opportunities for project-based learning within advanced laboratory spaces.

Issue 1 Increase participation in postsecondary education and ultimately increase baccalaureate degree production

Description To broaden access to a quality education for all segments of the population, ASU must be positioned to accommodate the expected growth in high school graduates, particularly minority populations and a growing pool of older students requiring new job skills. Never in the history of Arizona has a university education been more important. Our knowledge-based economy and an ever-increasing trend toward globalization are changing the skills needed for success in the labor force. Yet, rising costs, need for financial aid, and years of underfunding of public investments in higher education place the idea of access at risk. Tuition rates approved by the Board of Regents in recent years and future changes consistent with Board policy will help to meet some of the increasing need for financial aid and improve affordability for a greater number of students.

ASU is strongly committed to providing access to college for all qualified students, and to providing them with the services, resources, and tools necessary to help them succeed through to graduation. Furtherance of these goals requires bold and sustained planning to provide the educational resources and services to meet the needs of the projected increases in students. Continued investment will be necessary to provide the infrastructure for the enrollment growth envisioned at each of the campuses.

Solutions:

Strategy 1: Increase efforts to enroll more Arizona high school graduates.

Strategy 2: Increase the diversity of the student population.

Strategy 3: Enhance services and resources to students that will lead to increased retention and graduation rates.

Strategy 4: Enhance partnerships with the community colleges to facilitate more effective transfer processes.

Strategy 5: Increase ASU Online program offerings to increase access for students seeking ASU degrees.

Strategy 6: Provide flexibility in course offerings and educational modalities.

Strategy 7: Increase financial assistance available to needy students.

Strategy 8: Establish Colleges@ASU sites that will provide an opportunity for students to complete baccalaureate degrees at lower costs.

Issue 2 Improve the quality of undergraduate and graduate education

Description Undergraduate and graduate education are the cornerstones of the university enterprise. Students seek a high quality education that prepares them to be successful in their careers, to contribute to society, and to become lifelong learners. Today's graduates must have strong communication, team building, and critical thinking skills as well as a global perspective to be successful.

A continued emphasis on providing a quality educational experience requires examining and evolving how the university designs and delivers its instructional programs to maximize the impact of education. Improvements can be accomplished through new pedagogical techniques, such as adaptive learning, collaborative learning, service learning, and other learner-centered approaches; through the appropriate use of technology to enhance the learning environment; through undergraduate education that focuses on the student as an individual; by providing seamless access to the services and resources required for learning and creative and intellectual inquiry; and by providing an environment that fosters student scholarship. ASU continues to conceptualize and create a wide range of new interdisciplinary schools, institutes, centers, and programs that will foster the development of new knowledge. In addition, ASU is enhancing learning environments that facilitate learner-centered delivery with improved instructional technologies and flexible room design. Necessary public investments will provide the resources needed to improve the learning environments, to accommodate the increased student population, and to hire the faculty necessary to establish national standing for colleges and schools in every field.

Solutions:

Strategy 1: Increase the number of tenured and tenure-track faculty.

Strategy 2: Enhance the technologies and tools that provide students with information to assist with their academic planning and progress.

Strategy 3: Emphasize learning experiences that are outcomes-focused.

Strategy 4: Expand the use of alternative instructional methodologies and delivery methods that improve the learning outcomes and success of students.

Issue 3 Recruit and retain faculty and staff in highly competitive national and local markets during a period of limited resources

Description Quality faculty members are fundamental to a quality university education. Without the best faculty members, providing Arizona citizens the superior quality higher education they deserve and the output of research innovations they expect is impossible, and Arizona will not be able to achieve the necessary cultural and economic vitality required for the state to thrive. At ASU, hiring and retaining outstanding faculty members continues to be a concern. Like the other Arizona universities, ASU struggles to consistently compete in the demanding marketplace of top institutions. With the public investment for salaries between FY05 and FY08, ASU made some progress in improving faculty salaries, enabling the University to recruit and retain highly recognized and respected academics in a variety of fields. But the average salary for faculty members continues to fall below most of its peer institutions. Staff salaries also continue to fall further behind comparable jobs in the relevant markets. Turnover among staff continues to be a significant problem, in part due to salaries that are not competitive with the local market.

Solutions:

Strategy 1: Close the gap on salaries as defined in the ABOR Annual Personnel Report through an ongoing commitment of performance salary adjustments. Public investment in faculty salaries is critical at this time to retain key faculty members as well as enabling ASU to continue attracting and successfully competing for the highest qualified new faculty members.

Strategy 2: Adopt and implement an ongoing commitment of salary improvement to address the significantly negative market position of staff (non-academic) salaries by targeting budgetary funds at a level anticipating salary movement of 3 - 4% per year, with allocations tied directly to outcome driven performance measures.

Strategy 3: Develop and maintain the laboratory facilities and the network and computational resources required by the research community. Maintaining competitiveness in research, faculty and student recruitment and retention requires well-equipped modern facilities as well as secure access to high capacity network connectivity; computational, data, and analytic resources required to support researchers; and the systems and application support staffing required by individual researchers, clusters, and research teams.

Strategy 4: Maintain the program to improve salary and benefits for graduate research and teaching assistants. Other universities with whom ASU competes for top-quality graduate students have better salary and benefits packages. Excellent graduate students are essential for improving the quality of both graduate programs and the broader research enterprise.

Issue 4 Expand research capabilities

Description ASU continues to vigorously pursue long-term initiatives in such areas as health and biosciences, advanced materials, global security, renewable energy and sustainability, learning sciences, informatics and communications. Over the last decade, ASU is one of the fastest growing research enterprise among U.S. universities with research portfolios exceeding \$100M in research expenditures [NSF Surveys]. ASU's goal is to establish itself as a global center for interdisciplinary research, discovery and development by growing its research expenditures to more than \$700M annually by 2020. To support our aspirations, ASU has defined seven strategies and four key focus areas that will allow us to continue our exceptional growth, serve the surrounding community and increase the impact of the research and scholarly work of our faculty.

Solutions:

Strategy 1: Differentiate ASU from the competition through the procurement of large projects (> \$10 million) in several key target areas; health and biosciences, sustainability, flexible electronic systems, light-inspired energy, personalized learning, global security, and complex adaptive systems.

Strategy 2: Pursue a University Affiliated Research Center (UARC)-like entity (a research laboratory) on the scale of \$50-\$100 million per year, in energy, sustainability, advanced materials, national security, or biosciences in collaboration with corporate and clinical partners.

Strategy 3: Continue to promote and support ASU's projects from across the university through the improvement of the Office for Research and Sponsored Project Administration infrastructure, reduction of faculty burden and providing assistance to the academic units for opportunity identification and development.

Strategy 4: Continue to expand philanthropic funding for our research programs by working closely with the Foundation to support its activities.

Strategy 5: Expand our collaborative research activities with industry to take advantage of their desire to shift basic and applied research requirements to university labs.

Strategy 6: Continue to pursue angel and venture investment in emerging companies. Activities will include developing a best-in-class intellectual property team and extension of Sky Song's entrepreneurship agenda.

Strategy 7: Develop and implement plans to provide the research facilities and infrastructure that are required to meet the research goals of the University.

Key Focus Area #1: Incorporate new approaches, including continued focus on interdisciplinary research

In keeping with the spirit of the New American University vision, we will continue to expand our research capabilities through an interdisciplinary approach. Interdisciplinary research involves not only drawing upon the expertise across the University but also includes partners such as industry, national laboratories, academia and clinical entities. We are focusing our efforts in bringing together researchers from disparate disciplines to tackle complex questions central to the areas of strategic interest. The Biodesign Institute and its research centers exemplify this approach. We are working on new industry-university consortium models that bring together industry and University researchers working collaboratively to address national challenges and result in significant educational and economic impact. We are increasingly focusing our research on global problems with local relevancy. We are also creating the ecosystems for promotion of innovation and entrepreneurship activities.

Key Focus Area #2: Increase participation in multi-institutional grants and consortiums

It is a strategic goal of ASU to be successful in securing several multi-institution, multi-disciplinary, multi-year, multi-million dollar(4M) research projects. A specific goal is to secure a national research laboratory or its equivalent by 2020. To achieve this objective, we will cultivate, identify, target and develop 4M research opportunities leveraging ASU strengths in strategic research areas. Competitive teams and consortia will be constructed by bringing in complementary strengths through partnerships with national laboratories, academia, industry and government partners to successfully secure these grants.

Key Focus Area #3: Accelerate technology transfer initiatives

As ASU's research enterprise has expanded over the past several years, AzTE has undertaken a variety of activities in furtherance of its mission to facilitate advancement of University technology into the marketplace.

- Closely align AzTE functions and support with established and new research initiatives
- Continue focus and support of existing initiatives and programs

-
- Increase connectivity with investors and industry through conferences and other outreach activities
 - Form a seed stage venture capital fund led by ASU to accelerate the number of faculty related spin-outs
 - Increase technology exposure through cross marketing activities with other universities
 - Increase faculty interaction and outreach, including the establishment of an AzTE office on campus to foster faculty relationships and commercialization activities

Key Focus Area #4: Improve infrastructure to support research

Achieving our research expenditure goals will require additional research space. The University must develop plans to repurpose existing space and construct new facilities. To develop these plans the University has undertaken an effort to survey unused and underused space, determine return on investment of allocated space and consistently revisit space allocation to respond to the dynamic research needs. Results will be shared with all stakeholders and plans to refurbish and repurpose will be developed to meet current and future needs. Funds for construction of new buildings will involve State, Federal and Philanthropic entities. The University will work with the State to clearly define research priorities and communicate current and future space requirements. Federal and Philanthropic funding opportunities will also be explored where appropriate to address the current and future space requirements.

The University's information technology infrastructure is continuously challenged to keep pace with the rapid increase in externally funded research. To meet the demands of research growth and to plan for future growth, new tools must be designed and implemented across the Research Enterprise in a way that leverages existing IT infrastructure and increases functionality for the entire Research community. Implementation of an end-to-end research administration system will allow for immediate process improvements and continued research expenditure growth. The improvement of the information technology infrastructure will be executed concurrently with the reorganization of research administration personnel and business processes.

Issue 5 Enhance our local impact and social embeddedness

Description Central to ASU's charter is a commitment to be fundamentally responsible for the economic, social, cultural and overall health of the communities we serve. To achieve this bold mission, ASU partners with the community in mutually beneficial ways – deeply rooted in our place as a vital anchor institution in the local community and beyond.

By leveraging ASU's vast range of intellectual and institutional resources and valuing the profound knowledge and expertise of our community partners, we can create powerful impact sufficient to drive change in the most complex of social challenges.

To achieve this, ASU empowers all faculty, staff, students and alumni to engage with the community. The six models of engagement -- community-based teaching and learning, civic engagement, community-engage research, knowledge mobilization, capacity building, and place-based partnerships – highlight some of the ways that ASU is socially embedded and striving to fulfill our role as an anchor institution.

Solutions:

Strategy 1: Strengthen Arizona's interactive network of teaching, learning and discovery resources that reflects the scope of ASU's comprehensive knowledge enterprise.

Strategy 2: Co-develop solutions to the critical social, technical, cultural and environmental issues facing 21st century Arizona.

Strategy 3: Meet the needs of 21st century learners by empowering families in the education of their children, increasing student success through personalized learning pathways, and promoting a college-going culture in Arizona's K-12 schools.

Strategy 4: Establish, with Mayo Clinic, innovative health solutions pathways capable of educating 200 million people about health care, engaging 20 million people in online health care delivery, and enhancing treatment for 2 million patients.

Issue 6 Maintain quality and breadth of baccalaureate degree programs in an environment of diminished and uncertain public investment and plans for cost constraints

Description Beginning in FY 2017, the Arizona Board of Regents adopted a new funding model to define public investment in support of Arizona’s public universities. The new model, developed in response to Governor Ducey’s request of the Board to “develop a sustainable enterprise financial model that counts on the state as one of many investors”, identifies the state’s investment as providing access and affordability for Arizona resident students. The model calls for half of each resident student’s educational cost to be funded by public investment with the remaining half to be funded by the students and other investors.

At present, the state’s public investment covers just under 34 percent of the E&G cost for resident students across the university system. That figure is less than half the level of support provided by the state at the time of the great recession. ASU’s reduction in support per resident student FTE is even greater than the system average, with the loss, when adjusted for inflation, is over 56 percent.

ASU’s FY 2018 operating budget request primarily focused on increasing the level of public investment to the 50 percent of the cost of a resident student education level over a next three years. The total annual cost to the state to reach the 50 percent funding level was \$41.5 million.

The Executive recommendation included no funding in direct support of the \$41.5 million request. It did, however, include \$7.6 million in one-time discretionary funding.

ASU’s FY 2019 operating budget request of \$52.4 million was comprised of three components, progress toward the goal of the state’s commitment to fund 50 percent of the estimated cost of educating an Arizona resident student, resident student FTE growth funding to maintain annual progress toward the 50 percent funding goal and an appropriation to offset the FY 2018 12.6 percent health insurance premium increase. The total annual cost to the state to fund progress toward the goal of the state’s commitment to fund 50 percent of the cost of educating an Arizona resident student over the next four years was \$33.6 million.

The Executive recommendation for FY 2019 again included no funding in direct support of the \$33.6 million request. It did, however, again include \$4.245 million in one-time discretionary funding.

ASU’s FY 2020 operating budget request consists of the same three priorities that were forwarded to the Governor last year. The three components total \$61.7 million, with the largest component consisting of a \$47 million public investment request to reach the 50 percent of the estimated cost of educating an Arizona resident student. Since the ASU request includes the return of \$5,495,000 in one-time FY 2019 public investment, full funding of the FY 2020 request equates to net new public investment of approximately \$56.2 million.

Solutions:

Strategy 1: Restructure current funding mechanisms to create a sustainable enterprise financial model that relies on the State as one of many investors.

Strategy 2: Continue to introduce innovative curricular structures and student advising programs to improve outcomes within an efficient cost structure.

 A.R.S. § 15-1601

Mission:

To offer high quality academic degrees, general studies, and honors programs that prepare graduates for personal growth, fulfilling careers, and lifelong contributions to the quality of intellectual life in the community, state, region, and nation.

Description:

Instruction is comprised of activities carried out during the academic year, summer sessions, and other periods outside the regular term and associated with degree credit and non-credit academic courses. This program also includes faculty departmental research and public service activities that are not separately budgeted and academic administration where instruction plays an important role, such as at the dean and department chair levels.

Agency Summary

NORTHERN ARIZONA UNIVERSITY

Dr. Rita Cheng, President
 Phone: (928) 523-3232
 A.R.S. §§ 15-1601 et seq.

Mission:

To lead the way to a better Arizona and a sustainable world through personalized attention to student success and scholarly excellence.

Description:

Founded in 1899, Northern Arizona University is a vibrant university committed to teaching as learning, research as innovation, and service as shared leadership.

With an estimated enrollment in fall 2018 of approximately 31,000 students, Northern Arizona University reaches out to students regionally with statewide campuses and opportunities for distance learning. From its inception, NAU has implemented innovative and accountable teaching practices, including the effective use of technology

Accredited by the Higher Learning Commission, the university embraces diversity and promotes inclusion across the university community as a means to prepare graduates to contribute to the social, economic, and environmental needs of a culturally rich society. It inspires students to become active citizens, leaders, visionaries, and problem solvers with an understanding of global issues. The reaffirmation of the university's accreditation occurred in 2017-2018, and the university celebrated its successful reaccreditation extension through 2027-2028.

In addition to integrating sustainability themes across curriculum, Northern Arizona University's beautiful 683-acre campus models sustainable operations through multi-modal transportation, environmentally responsible waste disposal, energy-efficient green construction, and sustainability in food procurement. In March 2017, the University maintained a gold rating from the Sustainability, Tracking, Assessment and Rating System (STARS) of the Association for the Advancement of Sustainability in Higher Education, a rating initially achieved in 2014.

Issue 1 Education Excellence

Description The core of the university mission is to provide outstanding education through high-engagement, high-impact instruction that provides the foundation for transformational student opportunities. Northern Arizona University serves a wide range of students reflecting the population of Arizona. With a high research activity residential campus, statewide campuses and online programs, NAU offers a variety of delivery models and tuition levels to meet student needs.

Solutions:

- Improve retention and student success and persistence to graduation through impactful practices and data driven analysis in alignment with ABOR Enterprise 2025 Metrics
- Invest in distinctive, high demand programs in healthcare fields, STEM and education
- Leverage technology to promote student success, degree quality and cost containment
- Serve and graduate an increasing number of Arizona students
- Offer and cultivate student use of effective academic resources, student services and co-curricular activities

Issue 2 Access

Description To help drive towards Arizona's educational attainment goals, students with competing priorities, or who are time-or-place-bound, find access to high quality degrees and credentials through NAU's partnerships with community colleges, including NAU Yuma and NAU Yavapai, as well as online programs.

Solutions:

- Expand transfer student pipeline through renewed relationships with community colleges, tribal colleges and universities, and streamlined university processes that support attainment of ABOR Enterprise 2025 Metrics
- Build out Personalized Learning, competency based education, with additional degree programs
- Maintain lower cost options for baccalaureate degrees
- Leverage and optimize merit and need based financial aid
- Provide services that resonate with students' background and experiences
- Increase number of certificate and credential offerings

Issue 3 Research Capabilities

Description The university's research, funded mostly through federal and state grants and contracts, is nationally recognized in targeted areas of excellence. Both research and public service activities have deep regional roots and global impact ranging in areas from astronomy and health sciences to land management and environmental sciences. The university will build on these areas while developing additional strategic strengths in emerging technologies and big data, bioengineering, informatics and cybersystems.

Solutions:

- Increase research and scholarly activity in alignment with ABOR Enterprise 2025 Metrics
- Cultivate interdisciplinary collaboration among principal investigators
- Increase number of research-active faculty and post-doctoral scholars
- Incentivize participation in technology transfer and increase technology marketing efforts
- Foster biomedical research partnerships
- Support research centers and institutes focusing on regionally-relevant public service
- Provide sufficient research infrastructure
- Improve salary and benefits for research and teaching assistants
- Enhance opportunities for undergraduate research

Issue 4 Financial Stability

Description With a relatively young Foundation and lower overall endowment levels, the university is primarily dependent on tuition revenue and state funding to serve Arizona's higher education and workforce needs. With increasing enrollments and lower state funding to support each student, the university must carefully manage its resources to support the pursuit of the 2025 Enterprise metric targets.

Solutions:

- Promote a stable state investment funding model that is based on the state funding 50% of resident student education costs
- Balance tuition rates, financial aid and enrollment strategies in conjunction with the state investment model
- Develop and maintain an agile and efficient organizational structure with focus on continuous improvement
- Address priorities for capital projects and aging infrastructure through Arizona university infrastructure bonding initiative and annual allocations for deferred maintenance, while leveraging 3rd party partnerships
- Optimize revenue streams through grants and contracts, philanthropy and auxiliary services revenue
- Recruit, develop and retain a diverse, high quality, and motivated workforce
- Increase the percentage of engaged alumni

Mission:

To increase the educational attainment of Arizona citizens by producing enough high-quality university degrees for the state to be nationally competitive by the year 2025.

Description:

Northern Arizona University, a public, higher research activity university, serves over 22,600 (fall 2018, preliminary) students at its main campus in Flagstaff and at more than 24 sites across the state and online.

With its solid reputation as a university with all the features of a large institution, but with a personalized touch, NAU carefully balances teaching, scholarship and service with a faculty and staff dedicated to each student's success.

NAU combines outstanding undergraduate education with a wide range of graduate programs and research opportunities that are offered that extend to such national concerns as forest health and bioterrorism. NAU has carefully integrated on-campus education with educational opportunities online and at campuses and sites throughout Arizona, forming seamless avenues for students to earn degrees.

A.R.S. § 15-1601

Mission:

To increase the educational attainment of Arizona citizens by producing enough high-quality university degrees for the state to be nationally competitive by the year 2025.

Description:

Improving student learning environment and college experience, focusing on student success, involving students in research opportunities, and promoting interdisciplinary pedagogy are key initiatives supporting the university's strategic goal of being a learning-centered university. Additionally, enhancing technology-enabled learning environment, accelerating graduation time, and providing new access initiatives are important toward achieving student access, learning, persistence, and affordability.

NAU was among only five universities across the nation designated in the 2018 Class of Excellence in Assessment. This national program recognizes universities conducting a comprehensive assessment of student learning outcomes as a means to drive internal improvement and advance student success. Designated institutions have successfully integrated assessment practices across campus, provided evidence of student learning, and used assessment results to guide institutional decision-making and improve student performance.

 A.R.S. § 15-1601

Mission:

To serve the higher educational learning needs of Yuma and the lower Colorado River Region.

Description:

NAU-Yuma offers a variety of degrees and programs. Areas of study include biological and ecological sciences, business and administration, education, environmental sciences, human relations, justice studies, industrial leadership, logistics and supply chain management, nursing, psychology, social work, sociology, Spanish, and technology management. Select NAU-Yuma degrees and programs are also available online and at NAU statewide sites.

NAU-Yuma was designated as a regional branch campus of Northern Arizona University in 2006 and as a Hispanic Serving Institution (HSI) by the U. S. Department of Education in 2007. NAU-Yuma provides NAU faculty in Flagstaff and across the state with applied research opportunities in areas such as trans-border studies, economic development, public safety and health, multicultural education, and environmental sustainability. With a Hispanic population of 31% in Arizona, this ties to our effort to meet the goal of increasing the number of Arizona residents with a bachelor's degree.

Co-located on the beautiful campus with Arizona Western College, NAU-Yuma is a student-oriented educational community, offering schedules designed for working students, smaller classes and individualized academic advising. NAU-Yuma has a free Writing Center available to students, and services include: consultation on writing issues, classroom visits, writing workshops, writing materials, and online resources.

Mission:

To advance knowledge and economic development through integrated, intentional research and scholarship on the Flagstaff campus and throughout Arizona communities.

Description:

Northern Arizona University's research and creative activities result in new knowledge and innovation that:

- strengthens the outstanding education provided by the university;
- fosters the continued learning of faculty, staff and students;
- and benefits the environmental, economic, and cultural vitality of our region and society.

Research and graduate education at NAU are tightly linked. NAU offers over 65 Master's and doctoral degree programs that provide students outstanding opportunities to work with, and be mentored by, top scholars in the disciplines. NAU offers strong master's degree programming with a clear professional and applied focus and select doctoral programs in NAU's foundational research strengths: land management, environmental sciences, forest restoration, water quality and supply, biological science, and Native American programs. NAU has also grown important new research areas that connect and build outward from these strengths, in applied linguistics, cyber systems and informatics, health equity research, and astronomy and planetary sciences, and in emerging areas including bioengineering and material science. In all of these areas, graduate programs have been established or are being developed.

Mission:

To develop structures and practices that promote ties between NAU-Yuma and local business, industry, and cultural connections.

Description:

NAU-Yuma is highly engaged in the community. The campus is continually developing undergraduate research projects that address issues relative to the region, as well as internships and service learning opportunities with local companies and agencies. NAU-Yuma works in collaboration with other institutions of higher education and the community to ensure that workforce and civic educational needs of the community are met.

NAU is a sponsor of the One Book Yuma program, a community effort that began in November 2006. The One Book Yuma program chose "Mythical River: Chasing the Mirage of New Water in the American Southwest", written by Melissa L. Sevigny, for 2017-2018. The author lead two community discussions for the community at large.

ACADEMIC SUPPORT

Bjorn Flugstad, Vice President
Phone: (928) 523-4240
A.R.S. § 15-1601

Mission:

To support quality student learning and to foster excellence in educational practices that promote persistence to graduation.

Description:

The primary goals of academic support services are to ensure a commitment to student success and high expectations for student learning by all faculty, staff, and students. Academic support services support instruction through functions such as:

- (1) effective instructional design and pedagogy;
- (2) coordinating, assessing, and supporting academic programs to ensure close articulation of the offerings from various colleges and departments to ensure students fulfill general education and program learning expectations;
- (3) providing access to scholarly materials and other learning tools developed by the library; and
- (4) providing for technology enhanced learning.

NAU has several grant-funded initiatives in place to enhance academic support services for students.

In 2015, NAU was awarded the Integrated Planning and Advising Services (iPASS) grant funded by Educause/Gates Foundation. As a result, NAU transformed student advising and mentoring via unification of student information streams into a single system that informs and coordinates faculty and staff interactions with students.

Historically, NAU has had several independent student information systems including academic advising notes, student affairs records, faculty alerts, a curriculum planner and student risk scores. The university implemented Salesforce, a customer relations management software, to host all of this information in a single system. The transformational aims of this project will be reinforced by project leadership, modeling a team approach to student support.

Additionally, this student success initiative facilitated the development of an improved "early alert" faculty-to-student communication system and supported the adoption of predictive tools for student support units.

Further, in 2016, NAU was awarded two additional grants to focus on: 1) continual improvements to the new approach to advising and degree planning, along with new technologies and 2) implementing adaptive courseware in targeted courses to eliminate achievement gaps. These grants are sponsored by leading national higher education organizations, specifically the American Association of State Colleges and Universities and the Association of Public and Land-Grant Universities, respectively.

Finally, beginning in 2017, the university is participating in grant-funded efforts sponsored by the American Association of State Colleges and Universities to integrate and extend existing student success initiatives and to build a case study and model of success for other institutions throughout the nation.

YUMA ACADEMIC SUPPORT

Bjorn Flugstad, Vice President
Phone: (928) 523-4240
A.R.S. § 15-1601

Mission:

To provide leadership in the development, use, and assessment of technologies in administrative systems and educational programs.

Description:

NAU – Yuma maintains partnerships with Arizona Western College (Yuma and La Paz Counties) and Imperial Valley College (Imperial County) to provide students an innovative, direct path to complete four-year programs. Under the Good Neighbor Policy of the Arizona Board of Regents, students may be eligible for the resident tuition rate for a maximum of 6 credit hours if they are enrolled in courses offered at an approved NAU statewide location (NAU Mohave or NAU Yuma) and live within 75 miles of the Arizona border in certain border counties in California, Nevada, Utah and New Mexico.

In 2011, the Accreditation Council for Business Schools and Programs Baccalaureate/Graduate Degree board of commissioners awarded the Yuma Branch Campus of Northern Arizona accreditation of its Bachelor of Business Administration (BBA) program.

The accreditation certifies that the teaching and learning processes within the business program meet the rigorous educational standards established by the council.

FLAGSTAFF AND STATEWIDE STUDENT SERVICES

Bjorn Flugstad, Vice President
 Phone: (928) 523-4240
 A.R.S. § 15-1601

Mission:

To recruit and retain students and provide services leading to student success and higher persistence to degree.

Description:

A variety of innovative programs have been designed to attract students and help them persist to degree at NAU. Housing and Residence Life collaborated to streamline business processes by combining housing and dining contracts. Undergraduate Admissions and Orientation provides orientation sessions for new students and, for prospective students, hosts daily campus visits as well as represents NAU at thousands of high school events, college fairs, and open houses throughout the year.

Union and Student Activities strive to offer the finest services, conveniences, and amenities for the students of NAU while providing cultural, social, leisure and recreational opportunities as part of a well-considered plan for the campus community. In addition the unit provides valuable experiential learning opportunities and leadership development. Career Development and Student Employment offer a wide array of online resources for students to support their career and professional development. Services also include internships and employer engagement programs.

Students studying at statewide campus sites or online have access to a broad array of student services, such as online orientation, tutoring and study skills, tools for exploring degree programs, tracking degree progress, and planning a career in addition to one-on-one support from professional staff on site or remotely to meet a variety of other student needs.

INSTITUTIONAL SUPPORT

Bjorn Flugstad, Vice President
 Phone: (928) 523-4240
 A.R.S. § 15-1601

Mission:

To continuously improve institutional effectiveness and organizational performance in support of the universities mission and strategic goals.

Description:

NAU-Yuma was designated as a regional branch campus of Northern Arizona University in 2006 and as a Hispanic Serving Institution (HSI) by the U.S. Department of Education in 2007. NAU-Yuma provides NAU faculty in Flagstaff and across the state with applied research opportunities in areas such as trans-border studies, economic development, public safety and health, multicultural education, and environmental sustainability. With a Hispanic population of 31% in Arizona, NAU-Yuma is important in our effort to meet the goal of increasing the number of Arizona residents with a bachelor degree.

AUXILARY PROGRAM

Bjorn Flugstad, Vice President
Phone: (928) 523-4240
A.R.S. §§ 15-1601 et seq.

Mission:

To promote operations of substantially self-supporting activities such as student housing, student unions, and intercollegiate athletics.

Description:

Between the two Academic Success Centers-north and south, the ASC supplies various forms of tutoring: One on One, Drop-In tutoring and Subject-Based tutoring in numerous academic areas. The ASC also offers Supplemental Instruction in various areas and Academic Success Workshops covering nine topics. In addition, the ASC offers Academic Mentoring, test taking strategies and other academic resources for students.

In August 2011, the 270,603 square foot Health and Learning Center (HLC) opened its doors to engage students in holistic learning by integrating recreation, health services, athletics, and academics into one central location.

NAU, a member of the Big Sky Conference, sponsors 15 NCAA Division I level athletic programs. The Northern Arizona University athletics department recorded a cumulative grade point average of 3.00 among its approximately 350 student-athletes during the 2017-2018 academic year. In addition, 137 student athletes earned Big Sky All-Academic honors achieving a minimum of 3.20 cumulative grade point average or higher.

FLAGSTAFF AND STATEWIDE AUXILIARY PROGRAM

Bjorn Flugstad, Vice President
Phone: (928) 523-4240
A.R.S. §§ 15-1601 et seq.

Mission:

To promote operations of substantially self-supporting activities such as student housing, student unions, and intercollegiate athletics.

Description:

Auxiliary Programs includes expenses of organizational units that furnish services to students, faculty and staff, and the general public for a fee directly related to the cost of the service and are managed as essentially self-supporting activities.

Campus Services and Activities updated the duBois South Union through a major renovation project to increase the space dedicated to student services and to modernize the look and feel of this university center. The space is able to host a wide range of campus events and support academic and social initiatives throughout the year. Campus Recreation Services strengthened partnerships with academic departments to add new programs, enhance existing programs, and increase opportunities for student participation. University Union Fieldhouse was retrofitted to become a multi-use activity space able to host a wide range of campus events and support academic and social initiatives throughout the year. Campus Recreation Services strengthened partnerships with academic departments to add new programs, enhance existing programs, and increase opportunities for student participation. In addition, Campus Dining now supports a total of 28 restaurants throughout campus, including two all-you-care-to-eat establishments, a food truck, and fine dining. Food waste from these dining locations is being converted into compost for use across campus, which in turn significantly reduced materials sent to the landfill in favor of providing premier growing medium for campus gardens and turf.

In addition, NAU hosts several options for housing facilities including Freshman Connections Halls (12), Upper Division Suites (2), Upper Division Apartments (8), Family Housing (1), partner housing by American Campus Communities and one new living/learning community building for the Honors College built in partnership with American Campus Communities, which opened in Fall 2018.

NAU offers a wide variety of housing options for both freshmen and upper division students, including some limited family housing. More specifically, options include Freshman Connections Halls (12), Upper Division Suites (2), Upper Division Apartments (8), Family Housing (1), partner housing by American Campus Communities and one new living/learning community building for the Honors College. All freshmen students are assigned housing according to their academic college. The newly constructed Honors College opened Fall 2018 and will house 630 Honors students along with all college faculty, advisors, and other administrative staff. Each residential college is supported by college faculty, peer college ambassadors and academically related programming designed to promote persistence and connections to the faculty and the college.

The University of Arizona in Tucson, including branch campuses in Sierra Vista and downtown Phoenix, is a land-grant, doctoral research university. Its research and development expenditures place it among the nation's top public universities and it is a member of the Association of American Universities. It offers a broad array of programs leading to degrees from baccalaureate through the doctorate. It has a total student body enrollment of over 42,000 full-time and part-time students. As a land-grant university, it maintains programs in production agriculture, mining, and engineering and serves the State through its cooperative extension services, technology transfer, economic development assistance, distributed education, and cultural programming. The University provides distinguished undergraduate, graduate, and professional education; excels in basic and applied research and creative achievement; and promotes the integration of these activities and outcomes into advancement of Arizona's economy.

Issue 1 Engaging

Description Design the Arizona experience so that 100 percent of our students have the opportunity to engage in integrating and applying their knowledge through real-world experiential learning.

Goal: Through a learning experience tailored to individual students’ needs, the UA will graduate future leaders who have the skills to apply their knowledge and solve the world’s grand challenges.

Solutions:

Strategies, Actions, and Initiatives:

E1. Recruit and retain a diverse student body of undergraduate, transfer, and graduate degree-seeking students who represent the state, national and global demographic landscape.

E1.1 Leverage merit- and need-based aid.

E2. Optimize student access and success.

E2.1 Enhance partnerships with high schools and community colleges nationally and internationally.

E2.2 Identify students early in their careers who can benefit from programmatic intervention and increase opportunities for academic recovery.

E2.3 Improve retention with greater support in advising, learning specialists, coordination, hardware, and software.

E2.4 Decrease graduate-level time to degree.

E3. Provide students with a dynamic educational experience.

E3.1 Promote actions that help us ensure 100 percent student engagement, including the addition of targeted program coordinators, evaluations, and operational support.

E3.2 Expand study-abroad options to contribute to the 100 percent student engagement goal.

E3.3 Support online course and program development.

E4. Graduate individuals who will be sought out by the best employers and postgraduate programs.

E4.1 Redesign courses incorporating workshops, new uses of information technology, specialized equipment, and facilities.

E4.2 Update classroom facilities to better support an active learning environment.

E4.3 Emphasize graduate workforce development in selected master’s programs.

E5. Graduate individuals ready to engage in productive lives and personally satisfying work.

E5.1 Establish engagement credits in the areas of global, civic, and research activities.

Issue 2 Innovating

Description Expand our research and creative inquire to not only discover new knowledge and create new ideas, but also to innovate new ways of knowing and seeing that will ensure our continued leadership in interdisciplinary scholarship.
Goal: While supporting our values, invite new resources into the University in support of innovative scholarship and research. Prioritize our scholarly and research activities to reflect both the grand challenges we face, and the expectations of our partners for integration and application.

Solutions:

Strategies, Actions, and Initiatives

I1. Promote core strengths to address grand challenges.

I1.1 Capitalize on existing and growing research and clinical strengths in the UA's health sciences colleges in Tucson and Phoenix, other clinical entities

across the state, and relevant UA colleges.

I2. Expand opportunities for interdisciplinary collaboration.

I2.1 Increase institutional capacity for interdisciplinary and interprofessional community-engaged scholarship addressing the most urgent needs of

Arizona's diverse citizenry and generating solutions for the public good with global applications.

I2.2 Increase large multi-investigator, multi-site proposal submissions and awards.

I3. Hire, nurture, and retain a diverse, outstanding faculty.

I3.1 Create diverse new faculty candidate pools that approximate the national availability of talent.

I3.2 Improve faculty retention rates, with a particular emphasis on reducing retention disparities among assistant professors from underrepresented

groups.

I4. Attract, educate, and engage first-rate doctoral students.

I5. Diversity external sources of research support.

I5.1 Develop industry expertise to expand public-private partnerships.

I5.2 Increase research expenditures.

I6. Improve support for the development of major proposals and new initiatives.

I6.1 Provide optimum shared research instrumentation infrastructure to advance our capabilities and competitiveness for external research support.

I6.2 Create a world-class informatics infrastructure and research program that will revolutionize the capability to extract useful information from

massively large sets of data.

I6.3 Stabilize and increase the number of research-active faculty in key focus areas.

I6.4 Ensure that the capacity of central and college-based research support functions keeps pace with the growing volume and complexity of research,

thereby ensuring high-quality grants support as well as critically important compliance with federal and other regulations.

I7. Expand strategic external partnerships.

I7.1 Attract funding for and investment in start-up companies in Arizona, including University start-ups.

I8. Decrease pre-award preparation time and speed post-award access to funds.

I9. Improve recognition for interdisciplinary research in promotion and tenure process.

I9.1 Enhance our institutional infrastructure base to support research advancement.

Issue 3 Partnering

Description Create novel, substantive, and entrepreneurial partnerships with businesses, community groups, and governments to support and enhance our impact on the local and global community.
Goal: The University will share our knowledge, research, and creativity and become a more active partner in creative enterprises and innovation to enhance the quality of life for the people of Arizona and the world.

Solutions:

Strategies, Actions, and Initiatives:

P1. Better adapt our land-grant mission for the 21st century, including a global strategy.

P1.1 Modify promotion and tenure guidelines and criteria to recognize engagement and community-based research and knowledge application to align University, College and Departmental criteria.

P1.2 Develop more and better service-learning and applied-research opportunities for students in Arizona and abroad.

P1.3 Position the UA to serve as a preferred consultant in innovating, developing, executing, and assessing critical knowledge-based and capacity development projects worldwide.

P2. Expand, develop, and sustain community and industry partnerships, locally and globally, via innovative programs.

P2.1 Improve internal business processes to facilitate and leverage community and industry relationships with the University.

P2.2 Expand the roles of community and business partners in Academic Program Reviews.

P2.3 Provide more opportunities for employers, educators, and families to become more deeply engaged with the University through events, roundtables, and boards.

P2.4 Encourage and support more partnerships among internal academic programs and with key external partners.

P3. Increase capacity in critical and emerging fields such as education, health sciences, STEM, and cultural competence.

P3.1 Better engage business and community partners to expand internship opportunities.

P3.2 Define and develop appropriate pathways for competency-based evaluation and credit.

P3.3 Determine the best use of technology and other modes of delivering educational and informational content to best engage with learners and communities locally and abroad.

P3.4 Significantly grow our educational offerings face-to-face, online, and hybrid, to better address growing needs in crucial and emerging fields and to better define the UA's role in connecting learners to knowledge and to each other.

P4. Align output with workforce and knowledge needs, in our region and around the world.

P4.1 Expand opportunities to collaborate with schools, agencies, and industry on professional development and certificate programs statewide, nationally, and abroad.

P4.2 Coordinate with K-12 school districts to ensure that a curriculum adequately prepares students for postsecondary work and that students have clear and preferred pathways to the UA.

P4.3 Work with business and community leaders to develop integrated workforce and economic development plans.

Issue 4 Synergy

Description Build an infrastructure for change that cuts across all elements of our mission and all aspects of our plan, advancing our distinctiveness in interdisciplinarity, diversity, and sense of place while implementing business practices that are effective, efficient, and entrepreneurial.
Goal: Embedded in the University’s fundamental commitment to knowledge, culture, art, and diverse disciplinary work, we will:

- Redesign the University to avoid isolation and specialization in ever-narrowing disciplines.
- Optimize our campus resources and virtual reach to engage students more fully.
- Create engaged University citizens who can apply our resources in pursuit of collective goals.
- Emphasize diversity as part of our institutional culture, at all levels.
- Adopt transparent practices that reward productivity, effectiveness, and entrepreneurship.

Solutions:

Strategies, Actions, and Initiatives:

- S1. Elevate interdisciplinary collaborations.
 - S1.1 Develop promotion and tenure guidelines that ensure that collaborative efforts are identified and valued.
- S2. Build on and strengthen the diversity of our community.
 - S2.1 Improve campus infrastructure for diversity at all levels, focusing on accountability.
- S3. Expand global connections and deepen regional roots.
 - S3.1 Invest in interdisciplinary centers that address local issues with global applications.
- S4. Optimize our physical resources and virtual reach.
 - S4.1 Expand and align IT capacity to meet instructional, research, outreach, and administrative requirements.
 - S4.2 Enhance the UA’s reach through improved and cohesive branding and marketing.
 - S4.3 Develop programs for improving online teaching and course-building skills.
- S5. Implement a business model that rewards productivity, effectiveness, and entrepreneurship.
 - S5.1 Align priorities with opportunities.
 - S5.2 Integrate RCM into the university’s budgeting model to enhance research and instructional performance.
 - S5.3 Align the administrative structure to better support undergraduate and master’s level programs.

Mission:

To provide effective and transparent promotion and support for the research and graduate-education efforts of University of Arizona faculty and staff and to encourage practices that minimize risks to our investigator-scholars, to human and animal research subjects, and to the University.

Description:

The University of Arizona through its organized research unit provides critical world-class research and discovery, intensive and relevant graduate education, and connects its activities with the community's needs especially as we aspire to become one of the ten best public research universities. The University's organized research unit also fosters technology transfer and connection to the business community, with a particular emphasis on promoting a thriving economy and high quality of life for Arizona. The organized research unit also serves as the administrative home for most of the University's public museums.

PUBLIC SERVICE

Ravneet Chadha, Director
 Phone: (520) 621-3030
 A.R.S. § 15-1601

Mission:

To make knowledge generated at the University of Arizona more accessible and more relevant to Arizona’s citizens, to the nation at large and to the global community, and to inspire in each of these connections the parallel desires to learn and to create beneficial change, both in partnership with the University of Arizona.

Description:

Global Initiatives and the College of Agriculture and Life Sciences through their extensive Cooperative Extension programs and Experiment Stations facilitate the efforts of University of Arizona faculty in integrating their teaching, research, and service missions, and in translating and advancing those efforts to broader audiences. Our outreach efforts facilitate programs and services that meet the academic access, economic, and regional development needs for communities throughout Arizona—a major tenet of the land grant mission. In addition to offering youth and senior programs, incubating programs and facilitating UA credit courses and continuing education, outreach collaborates with academic initiatives and student success and academic departments to aid and promote collaborations with partners around the world.

STUDENT SERVICES

Ravneet Chadha, Director
 Phone: (520) 621-3030
 A.R.S. § 15-1601

Mission:

To recruit and retain a diverse and talented student body; to assist students in their efforts to achieve access, academic success, and efficient degree completion in conformance with prevailing regulation; to promote student development in a safe environment in which diversity is valued and embedded in daily operations; and to provide opportunities for personal and educational enrichment through the development of student, faculty, staff, and community partnerships.

Description:

This program includes enrollment services and other student related programs and services designed to promote student success, by supporting students' personal, intellectual, cultural, and social development outside the context of the formal instructional program. Programming extends to the entire campus community to meet disability needs and to promote a healthy, diverse, engaged, and civil community. The activities include: early outreach, admissions, orientation, financial aid, registration, campus recreation, and health services, cultural events, student programs/organizations, bookstore, newspaper, housing and food service, academic support, career services, programs designed to promote faculty/student interaction outside the classroom, and programs dedicated to special needs, such as disability related services and the cultural resource centers.

AUXILIARY PROGRAM

Ravneet Chadha, Director
 Phone: (520) 621-3030
 A.R.S. § 15-1601

Mission:

To provide quality goods and services at the least possible cost to faculty, staff, students and University departments.

Description:

Auxiliary units are most closely related to "real world" businesses in that they are expected to be self-supporting and charge fees that are related to the costs of providing goods or services. Major retail and service activities include the U of A Bookstore, Student Union food services, Residence Life student dormitories and family housing, Parking and Transportation parking permits and Sun Tran passes, UA Presents performances, U of A Press publications, and Intercollegiate Athletics events. Internal service departments that provide wholesale services to other departments on campus include Facilities Management's repair, maintenance, and custodial services; Printing and Publishing Support Services; Telecommunication's telephone services; and the University Research and Instrumentation Center's design and fabrication service.

COLLEGE OF AGRICULTURE AND LIFE SCIENCES

Ravneet Chadha, Director
 Phone: (520) 621-3030
 A.R.S. § 15-1601

Mission:

To educate students and communities in ways that enable their future success in the regional and global economies and to develop new knowledge and new technologies to benefit society

Description:

The College of Agriculture and Life Sciences coordinates undergraduate and professional education for a wide range of career opportunities within six general subject areas: animal systems; environment and natural resources; family, youth, and community; human nutrition; food safety and health; marketing, trade, and economics; and plant systems. Education in the professional knowledge area is combined with foundation courses in the natural and social sciences, communications, and the humanities to develop a well-rounded academic experience offering majors leading to careers associated with the college subject areas. Programs include on-campus instruction and distance education in cooperation with other institutions. The college awards B.S., M.S., and Ph.D. degrees. Though separate entities by Federal statute, the Arizona Cooperative Extension System and the Arizona Experiment Station are affiliated with and share senior administration with the college.

Issue 1 Engaging

Description Design the Arizona experience so that 100 percent of our students have the opportunity to engage in integrating and applying their knowledge through real-world experiential learning.

Goal: Through a learning experience tailored to individual students' needs, the UA will graduate future leaders who have the skills to apply their knowledge and solve the world's grand challenges.

Solutions:

Strategies, Actions, and Initiatives:

E1. Recruit and retain a diverse student body of undergraduate, transfer, and graduate degree-seeking students who represent the state, national and global demographic landscape.

E1.1 Leverage merit- and need-based aid.

E2. Optimize student access and success.

E2.1 Enhance partnerships with high schools and community colleges nationally and internationally.

E2.2 Identify students early in their careers who can benefit from programmatic intervention and increase opportunities for academic recovery.

E2.3 Improve retention with greater support in advising, learning specialists, coordination, hardware, and software.

E2.4 Decrease graduate-level time to degree.

E3. Provide students with a dynamic educational experience.

E3.1 Promote actions that help us ensure 100 percent student engagement, including the addition of targeted program coordinators, evaluations, and operational support.

E3.2 Expand study-abroad options to contribute to the 100 percent student engagement goal.

E3.3 Support online course and program development.

E4. Graduate individuals who will be sought out by the best employers and postgraduate programs.

E4.1 Redesign courses incorporating workshops, new uses of information technology, specialized equipment, and facilities.

E4.2 Update classroom facilities to better support an active learning environment.

E4.3 Emphasize graduate workforce development in selected master's programs.

E5. Graduate individuals ready to engage in productive lives and personally satisfying work.

E5.1 Establish engagement credits in the areas of global, civic, and research activities.

Issue 2 Innovating

Description Expand our research and creative inquire to not only discover new knowledge and create new ideas, but also to innovate new ways of knowing and seeing that will ensure our continued leadership in interdisciplinary scholarship.
Goal: While supporting our values, invite new resources into the University in support of innovative scholarship and research. Prioritize our scholarly and research activities to reflect both the grand challenges we face, and the expectations of our partners for integration and application.

Solutions:

Strategies, Actions, and Initiatives

I1. Promote core strengths to address grand challenges.

I1.1 Capitalize on existing and growing research and clinical strengths in the UA's health sciences colleges in Tucson and Phoenix, other clinical entities

across the state, and relevant UA colleges.

I2. Expand opportunities for interdisciplinary collaboration.

I2.1 Increase institutional capacity for interdisciplinary and interprofessional community-engaged scholarship addressing the most urgent needs of

Arizona's diverse citizenry and generating solutions for the public good with global applications.

I2.2 Increase large multi-investigator, multi-site proposal submissions and awards.

I3. Hire, nurture, and retain a diverse, outstanding faculty.

I3.1 Create diverse new faculty candidate pools that approximate the national availability of talent.

I3.2 Improve faculty retention rates, with a particular emphasis on reducing retention disparities among assistant professors from underrepresented

groups.

I4. Attract, educate, and engage first-rate doctoral students.

I5. Diversity external sources of research support.

I5.1 Develop industry expertise to expand public-private partnerships.

I5.2 Increase research expenditures.

I6. Improve support for the development of major proposals and new initiatives.

I6.1 Provide optimum shared research instrumentation infrastructure to advance our capabilities and competitiveness for external research support.

I6.2 Create a world-class informatics infrastructure and research program that will revolutionize the capability to extract useful information from massively large sets of data.

I6.3 Stabilize and increase the number of research-active faculty in key focus areas.

I6.4 Ensure that the capacity of central and college-based research support functions keeps pace with the growing volume and complexity of research,

thereby ensuring high-quality grants support as well as critically important compliance with federal and other regulations.

I7. Expand strategic external partnerships.

I7.1 Attract funding for and investment in start-up companies in Arizona, including University start-ups.

I8. Decrease pre-award preparation time and speed post-award access to funds.

I9. Improve recognition for interdisciplinary research in promotion and tenure process.

I9.1 Enhance our institutional infrastructure base to support research advancement.

Issue 3 Partnering

Description Create novel, substantive, and entrepreneurial partnerships with businesses, community groups, and governments to support and enhance our impact on the local and global community.
Goal: The University will share our knowledge, research, and creativity and become a more active partner in creative enterprises and innovation to enhance the quality of life for the people of Arizona and the world.

Solutions:

Strategies, Actions, and Initiatives:

P1. Better adapt our land-grant mission for the 21st century, including a global strategy.

P1.1 Modify promotion and tenure guidelines and criteria to recognize engagement and community-based research and knowledge application to align University, College and Departmental criteria.

P1.2 Develop more and better service-learning and applied-research opportunities for students in Arizona and abroad.

P1.3 Position the UA to serve as a preferred consultant in innovating, developing, executing, and assessing critical knowledge-based and capacity development projects worldwide.

P2. Expand, develop, and sustain community and industry partnerships, locally and globally, via innovative programs.

P2.1 Improve internal business processes to facilitate and leverage community and industry relationships with the University.

P2.2 Expand the roles of community and business partners in Academic Program Reviews.

P2.3 Provide more opportunities for employers, educators, and families to become more deeply engaged with the University through events, roundtables, and boards.

P2.4 Encourage and support more partnerships among internal academic programs and with key external partners.

P3. Increase capacity in critical and emerging fields such as education, health sciences, STEM, and cultural competence.

P3.1 Better engage business and community partners to expand internship opportunities.

P3.2 Define and develop appropriate pathways for competency-based evaluation and credit.

P3.3 Determine the best use of technology and other modes of delivering educational and informational content to best engage with learners and communities locally and abroad.

P3.4 Significantly grow our educational offerings face-to-face, online, and hybrid, to better address growing needs in crucial and emerging fields and to better define the UA's role in connecting learners to knowledge and to each other.

P4. Align output with workforce and knowledge needs, in our region and around the world.

P4.1 Expand opportunities to collaborate with schools, agencies, and industry on professional development and certificate programs statewide, nationally, and abroad.

P4.2 Coordinate with K-12 school districts to ensure that a curriculum adequately prepares students for postsecondary work and that students have clear and preferred pathways to the UA.

P4.3 Work with business and community leaders to develop integrated workforce and economic development plans.

Issue 4 Synergy

Description Build an infrastructure for change that cuts across all elements of our mission and all aspects of our plan, advancing our distinctiveness in interdisciplinarity, diversity, and sense of place while implementing business practices that are effective, efficient, and entrepreneurial.

Goal: Embedded in the University's fundamental commitment to knowledge, culture, art, and diverse disciplinary work, we will:

- Redesign the University to avoid isolation and specialization in ever-narrowing disciplines.
- Optimize our campus resources and virtual reach to engage students more fully.
- Create engaged University citizens who can apply our resources in pursuit of collective goals.
- Emphasize diversity as part of our institutional culture, at all levels.
- Adopt transparent practices that reward productivity, effectiveness, and entrepreneurship.

Solutions:

Strategies, Actions, and Initiatives:

S1. Elevate interdisciplinary collaborations.

S1.1 Develop promotion and tenure guidelines that ensure that collaborative efforts are identified and valued.

S2. Build on and strengthen the diversity of our community.

S2.1 Improve campus infrastructure for diversity at all levels, focusing on accountability.

S3. Expand global connections and deepen regional roots.

S3.1 Invest in interdisciplinary centers that address local issues with global applications.

S4. Optimize our physical resources and virtual reach.

S4.1 Expand and align IT capacity to meet instructional, research, outreach, and administrative requirements.

S4.2 Enhance the UA's reach through improved and cohesive branding and marketing.

S4.3 Develop programs for improving online teaching and course-building skills.

S5. Implement a business model that rewards productivity, effectiveness, and entrepreneurship.

S5.1 Align priorities with opportunities.

S5.2 Integrate RCM into the university's budgeting model to enhance research and instructional performance.

S5.3 Align the administrative structure to better support undergraduate and master's level programs.

ORGANIZED RESEARCH

Ravneet Chadha, Director
 Phone: (520) 621-3030
 A.R.S. § 15-1601

Mission:

To provide high quality multidisciplinary biomedical research in areas important to the health care community and public; to promote the application of economics and socio-behavioral sciences to pharmaceutical research, education and service; to make available to trainees leading edge knowledge and the most modern technology; to promote healthier lifestyles through education of the public; and to provide service to state and federal agencies and the private sector.

Description:

The organized research centers are specifically organized to produce interdisciplinary clinical and basic biomedical research and to provide support for the undergraduate, graduate, and outreach educational programs. They are supported almost entirely by external federal and private sector funding. Their major areas of emphasis include: interdisciplinary research; education of the public, training of health professionals and scientists; patient services; provision of regional resources for research, disease diagnosis, patient care, education, and disease prevention and control; and technology development.

 A.R.S. § 15-1601

Mission:

To provide the citizens of the State of Arizona access to poison and medication-related emergency treatment assistance and to develop a rural telemedicine network that can improve rural health care.

Description:

The Arizona Poison and Drug Information Center serves as a repository of comprehensive information, knowledge and expertise regarding poisons and toxic exposures. A high priority is to provide access for rural and medically underserved Arizona residents and health care professionals who are without ready access to medical facilities. Telemedicine is the use of computers, video imaging, and telecommunications for diagnosis and treatment of persons in rural, geographically isolated communities and State institutions.

STUDENT SERVICES

Ravneet Chadha, Director
 Phone: (520) 621-3030
 A.R.S. § 15-601

Mission:

To recruit and retain a diverse and talented student body; to assist students in their efforts to achieve access, academic success, and efficient degree completion in conformance with prevailing regulation; to promote student development in a safe environment in which diversity is valued and embedded in daily operations; and to provide opportunities for personal and educational enrichment through the development of student, faculty, staff, and community partnerships.

Description:

This program includes enrollment services and other student related programs and services designed to promote student success, by supporting students' personal, intellectual, cultural, and social development outside the context of the formal instructional program. Programming extends to the entire campus community to meet disability needs and to promote a healthy, diverse, engaged, and civil community. The activities include: early outreach, admissions, orientation, financial aid, registration, campus recreation, and health services, cultural events, student programs/organizations, bookstore, newspaper, housing and food service, academic support, career services, programs designed to promote faculty/student interaction outside the classroom, and programs dedicated to special needs, such as disability related services and the cultural resource centers.

INSTITUTIONAL SUPPORT

Ravneet Chadha, Director
 Phone: (520) 621-3030
 A.R.S. § 15-601

Mission:

To provide the University of Arizona with the support services necessary to enable it to effectively pursue the institutional mission of teaching, research, and outreach.

Description:

Institutional support includes central executive-level activities concerned with management and long-range planning for the entire University, and the operation and maintenance of the physical plant. Administrative activities include planning and programming, legal services, fiscal operations, administrative data processing, telecommunications, space management, human resources including employee personnel and records, purchasing, stores, safety, security, printing, transportation services, community and alumni relations, and development and fund-raising.

AUXILIARY PROGRAM

Ravneet Chadha, Director
 Phone: (520) 621-3030
 A.R.S. § 15-1601

Mission:

To provide quality goods and services at the least possible cost to faculty, staff, students and University departments.

Description:

Auxiliary units are most closely related to "real world" businesses in that they are expected to be self-supporting and charge fees that are related to the costs of providing goods or services. Major retail and service activities include the U of A Bookstore, Student Union food services, Residence Life student dormitories and family housing, Parking and Transportation parking permits and Sun Tran passes, UA Presents performances, U of A Press publications, and Intercollegiate Athletics events. Internal service departments that provide wholesale services to other departments on campus include Facilities Management's repair, maintenance, and custodial services; Printing and Publishing Support Services; Telecommunication's telephone services; and the University Research and Instrumentation Center's design and fabrication service. While many of the retail and service activity centers are located on Main Campus, they service AHSC as well. The College of Medicine has auxiliary units including Arizona Telemedicine and Biomedical Communications as well.

COLLEGE OF MEDICINE, PHOENIX CAMPUS

Ravneet Chadha, Director
 Phone: (520) 621-3030
 A.R.S. § 15-1601

Mission:

To provide medical students with the knowledge, skills, and attitudes basic to the practices of medicine; to provide education and training programs for residents, graduate students, fellows, and other health professionals and practicing physicians; to work with clinical affiliates to teach and model interprofessional health care delivery; to make contributions to biomedical research; to model and promote innovations in patient care and disease prevention and cure, including utilization of the multidiscipline health care team approach; and to use biomedical informatics and work with industry to address quality and cost of health care.

Description:

The College of Medicine-Phoenix offers a professional program leading to the M.D. degree and graduate degree programs. The COM-PHX also supports the education of other health professionals and the public. The educational program leading to the M.D. degree is conducted at the Phoenix Biomedical Campus and at clinical sites located in Phoenix, Tucson, and throughout the State. The faculty members conduct research programs in molecular biology, clinical translational science, medical education, therapeutics, prevention, and clinical outcomes. It is a rapidly evolving leader in biomedical informatics and health care education and this will translate into a high quality education program regarding health care issues for all in the State and critically enhancing and improving on delivery of care to our citizens.

ARIZONA DEPARTMENT OF VETERANS' SERVICES

Wanda A. Wright, Director
 Phone: (602) 255-3373
 A.R.S. § 41-601 et seq.

Mission:

To be the catalyst in response to the evolving needs of Arizona's veterans and their families.

Description:

The Arizona Department of Veterans' Services assists veterans and their dependents obtain state and federal entitlements. The Department operates the State Veteran Homes in Phoenix and Tucson. Both homes are self-funded, skilled nursing facilities that provide short and long term care services to veterans and their spouses. The Department operates three state veterans cemeteries which are located in Sierra Vista, Marana, and Camp Navajo. The Department is the State Approving Agency that qualifies schools to offer curriculum to veterans under the GI Bill. The Department also administers the Military Family Relief Fund, coordinates statewide services to eliminate homelessness, decrease veteran suicides and increase employment opportunities for Arizona veterans.

Issue 1 Veterans Suicide Prevention

Description Arizona is home to approximately 600,000 veterans and their families. Arizona's overall general population risk of suicide is higher than the national average to begin with. We know from the Arizona Violent Death Reporting System that the risk of suicide is 3x higher for veterans and 4x higher for older veterans. The impacts of suicide and suicide attempts are far reaching on the individual, the family, our workplaces, our schools and our communities. Nationally, suicide and suicide attempts cost society \$70 billion per year in combined medical and work loss costs (<https://www.cdc.gov/violenceprevention/suicide/consequences.html>).

According to the 2017 Arizona Veteran Survey of almost 5,000 individuals, conducted by the Arizona Department of Veterans' Services and the Arizona Coalition for Military Families:

- 5% of service members and veterans had experienced moderate to severe stress in the week prior to the survey.
- 41% of veterans have had thoughts of suicide.
- 1 in 3 respondents know a service member or veteran who needs mental health care but is not getting it.
- Arizona's rural counties have a significantly larger percentage of veterans experiencing mental health conditions.
- 1 in 3 veterans have had traumatic experiences that put them at risk for elevated chronic physical and mental health conditions.
- 1 in 10 veterans are using substances to cope with trauma, depression and anxiety.

Solutions:

While the increased risk is alarming, Arizona has strengths as a state that we can build upon to address this important issue.

1. Veterans are a specific sub-population of the state that can be targeted for prevention, intervention and postvention strategies to address suicide risk.
2. Arizona has a strong military and veteran public/private partnership that has been actively working to connect people, organizations, systems and communities across the state since 2010 when the first Governor-appointed team started convening to focus on how we can best support all those who serve and their families. This provides a strong foundation upon which we can implement strategies.
3. Arizona partners have a track record of successfully decreasing suicide risk in the military community. In 2010, the Arizona National Guard experienced the highest rate of suicide ever within the organization. The "Be Resilient" program was implemented. The program focused on culture change, training and equipping, 24/7 support and increased access to resources. Throughout the three years the "Be Resilient" program was in operation at the Arizona National Guard, there were zero suicides and an increased utilization of the available resources.
4. Over the past two years, the key stakeholders in Arizona have developed the "Be Connected" program, a statewide suicide prevention effort focused on service members, veterans and their families. "Be Connected" builds upon the successful "Be Resilient" model and expands the reach to the entire military and veteran community statewide. "Be Connected" includes three components: Call - a 24/7 support line for everyone; Match - navigation to the right resources at the right time; Learn - in-person and online training to equip everyone in our community to help. "Be Connected" is being implemented in alignment with principles from the Arizona Management System.
5. "Be Connected" is being looked at as a best practice model for state-level suicide prevention with the military and veteran community. The key stakeholders continue to strengthen and evolve the program to benefit our community and for potential replication in other states.

This is a critical time and opportunity to address this issue. The public and private sector partners have aligned efforts. The infrastructure to grow and expand "Be Connected" is in place. It is key to fully resource this effort now in order to reach and impact the hundreds of thousands of Arizonans who have served and now need support to fulfill their potential and continue to be thriving members of our community.

This proposal is directly related to the Department's Goal to "Advance the Quality of Life for Arizona Veterans" and to the Department's Objective to "Increase call volume at Be Connected from 300 to 800 calls per month."

Issue 2 Replacement of the State Home for Veterans in Phoenix

Description The United States Department of Veterans Affairs (VA) formula for determining State long-term care needs indicates that Arizona will require 1,520 long-term care beds in order to serve its veteran population in the year 2020 (38 CFR 59.40).

The Arizona Department of Veterans' Services (ADVS) currently operates two State Homes for Veterans; a 200-bed facility in Phoenix and a 120-bed facility in Tucson. The phoenix facility began operation in 1995 and the Tucson facility began operations in 2012. Since the Phoenix facility is over 23 years old and is requiring continued and expensive repairs and maintenance, ADVS is proposing replacement of the facility to ensure continued safe and secure services to its residents, their visitors and ADVS employees. ADVS completed a feasibility study in FY17 to determine how best to replace the facility and ensure continued operations of the current building.

Solutions:

The United States Department of Veterans Affairs (VA), State Veteran Home Grant Program offers 65% funding for the construction, renovation or replacement of State Homes for Veterans, with a required 35% contribution by the State. The feasibility study and ADVS experience designing two new 80-bed facilities in Yuma and Flagstaff show that the total cost to establish/construct replacement 200 beds will be between \$90 million and \$120 million, depending on the State's approach. The State may establish a two-story, 200-bed facility at an approximate total cost of \$120 million or two one-story, 100-bed facilities at an approximate total cost of \$90 million. Each approach will require at least 15 acres of usable land for each facility. The first option (one 200-bed facility) will probably become the only viable option because the land to build two 100-bed facilities is not likely available for donation to the State. ADVS requests \$42 million from the State General Fund to apply for grant funding from the VA. Expenditure of State funds will be contingent upon the successful acquisition of the land and the award of Federal VA grant funds for this purpose. ADVS will work with local governments in the Phoenix Metropolitan area to coordinate donation of land for the facility at no cost to the State.

Once funding for the State's share (35% or \$42 million) has been appropriated, ADVS will be able to apply for grant funding from the VA. Since this is a beds replacement project to protect the safety and health of residents in a State Home for Veterans, the VA assigns higher priority, which increases the likelihood that the VA will fund the project quickly.

This proposal is directly related to the Department's Goals to "Provide Best in Class Service at Veterans Homes" and "Advance the Quality of Life for Arizona Veterans." ADVS believes that by expanding the number of long-term care beds in the State, it will impact the following performance measures: "Veterans and families provided direct service from ADVS," "Combined State Veteran Homes Census," "State Veteran Home(s) Customer Service Quality" and "State Veteran Home(s) Quality Care."

Issue 3 North Western Region State Home for Veterans

Description The United States Department of Veterans Affairs (VA) formula for determining State long-term care needs indicates that Arizona will require 1,520 long-term care beds in order to serve its veteran population in the year 2020 (38 CFR 59.40).

If the State does not fund its share of development and construction costs for new facilities, it will have a 1,080-bed deficiency in 2020. Arizona currently has two State Homes for Veterans; a 200-bed facility in Phoenix and a 120-bed facility in Tucson. Additionally, the State has funded its share of cost to construct and establish two additional facilities; an 80-bed facility in Yuma (\$13.2 million from the State) and an 80-bed facility in Flagstaff (\$14 million from the State). Based on the number of veteran residents and long-term care services currently available, ADVS proposes development and construction of an 80 to 96-bed facility in the North-Western region of the State.

Solutions:

The State requests \$15 million for the State's 35% share of the cost to establish/construct a new facility. The VA State Veteran Home Grant Program offers 65% for the development cost, if the State identifies and secures the 35% share of its cost. Expenditure of State funds will be contingent upon the successful acquisition of the land and the award of Federal VA grant funds for this purpose. The Department's request and cost estimates are based on the recently approved State Homes for Veterans in Flagstaff and Yuma (\$14 million and \$13.2 million, respectively). ADVS will work with local governments in the area to coordinate donation of land for the facility at no cost to the State.

This proposal is directly related to the Department's goals to "Provide Best in Class service at Veterans Homes" and "Advance the quality of life for Arizona Veterans." ADVS believes that by expanding the number of long-term care beds in the State, it will impact the following performance measures: "Veterans and families provided direct service from ADVS," "Combined State Veteran Homes Census," "State Veteran Home(s) Customer Service Quality" and "State Veteran Home(s) Quality Care."

Issue 4 Enterprise Compensation Strategy

Description The Arizona Department of Veterans' Services (ADVS) has identified positions within the Department where compensation adjustments are warranted. Therefore, ADVS is currently working with the Governor's Office to address this issue for key positions in FY 2020. A well-designed pay increase plan will reduce high turnover and vacancy rates, resulting in a more efficient government that saves resources on constantly hiring and training new staff.

Solutions:

ADVS and the Governor's Office are considering a variety of pay package options that could potentially include: across-the-board pay raises; merit-based increases; and/or leveling to market rates.

ADVS recognizes that the Governor is particularly focused on compensation adjustments for vital public safety agencies. State public safety agencies often compete with local and federal operators that currently pay higher salaries than state positions, hindering the State's ability to recruit and retain highly qualified individuals. Working to create a safe and secure environment for Arizona citizens and visitors is one of our State's greatest responsibilities and challenges.

Further, the Governor is uniquely positioned to collaborate across public safety and non-public safety departments, identifying critical compensation challenges and crafting the best solution that is appropriate for each.

ADVS looks forward to working with the Governor's Office on these solutions during the development of the FY 2020 Executive Budget.

VETERANS' SERVICES

R. Scott Fincher, Asst. Deputy Director
 Phone: (602) 234-8432
 A.R.S. §§ 41-603 et. seq.

Mission:

To serve Arizona veterans and their families with information and assistance in securing their rightful benefits provided by state and federal law.

Description:

The Veterans' Services Division provides a network of Veterans Benefits Counselors (VBCs) who give information, counsel, and assistance to veterans, their dependents, and survivors. There are 16 offices in Arizona providing information on federal and state benefits, which have been earned by honorable service in the armed forces of the United States. VBCs develop and file claims for federal and state benefits in areas of disability, pension, insurance, burial, education, home loan, social security, and other social services.

STATE VETERANS' HOMES

John F. Scott, II, Deputy Director
 Phone: (602) 234-8416
 A.R.S. § 41-608.01

Mission:

To serve America's heroes by providing compassionate, professional care in a comfortable home-like environment.

Description:

The first Arizona State Veteran Home (ASVH) was opened in 1995 in Phoenix. The mission is to provide integrated health services that maximize the quality of life for each resident and allow residents to function at their highest level. That facility has designated 150 beds as skilled nursing care and 50 beds for a specialized wandering/dementia unit. The Tucson Home was opened in 2012 and provides 120 additional skilled nursing care beds to veterans in southern Arizona. The final critically needed approval by the U.S. Department of Veterans Affairs (VA) for the Tucson Home was received June 12, 2012. The State has appropriated its share of the cost (35%) for construction and development of two additional State Homes for Veterans in Yuma and Flagstaff.

STATE VETERANS' CEMETERIES	
John Scott, Asst. Deputy Director	
Phone: (602) 234-8416	
A.R.S. § 41-601.D	

Mission:

To provide a final resting place that honors the memory of Arizona veterans and their dependents.

Description:

The Southern Arizona Veterans Memorial Cemetery (SAVMC) in Sierra Vista opened in December 2002 and was designed to meet the needs of southern Arizona veterans for the next 40 years. The Arizona Department of Veterans' Services (ADVS) received approval and completed construction of two additional cemeteries; one in Camp Navajo near Flagstaff and one in Marana. Both cemeteries were completed and began operations in the later part of FY16. ADVS continues to actively work with the U.S. Department of Veterans Affairs (VA) to determine the most beneficial placements of future state veterans cemeteries.

VETERINARY MEDICAL EXAMINING BOARD

Victoria Whitmore, Executive Director
Phone: (602) 542-8150
A.R.S. § 32-2201

Mission:

To protect the health, safety, and welfare of Arizona citizens as well as the welfare of animals by the regulation of veterinarians, veterinary technicians, veterinary premises, and animal crematories.

Description:

The Board is responsible for licensing veterinarians, certifying veterinary technicians, licensing veterinary medical premises, and licensing animal crematories. The Board administers examinations for veterinarians and veterinary technicians, inspects all fixed locations for veterinary medical premises and animal crematories, investigates complaints and violations, and takes appropriate regulatory disciplinary action to ensure the public's protection.

Issue 1 Licensees need more online tools and information to manage their license requirements.

Description One of the agency's goals is to offer more online opportunities for licensees to manage their license requirements.

Adding web-based capabilities for licensees to track their continuing education credits, notify the Board of address and employment changes, request license verifications, etc. would significantly improve customer satisfaction and save funds and staff resources. As more of our licensees embrace online activities, the Board wants to be able to address their needs with the most time-efficient and cost effective methods available.

Licensees are required to submit written address/employment changes within 20 days of the change. Staff receives those changes and must manually input the information into our database. Enhancements to our website/database would allow licensees to create an account online and make those changes themselves, thus ensuring that it is done in the required timeframe and saving staff resources to complete the task.

Many licensees who are in the process of obtaining licenses in other states need the Board to provide an official license verification. While the Arizona Board has an average 1-day turnaround time on such requests, most other states' processes are much slower; some states take up to 3 months.

Solutions:

In FY17 the agency acquired the capability for licensees to update address/employment information through the new online license renewal system when that system is active during the renewal period. An IT project to add the ability for licensees to change address/employment information online at any time, which will link to the agency's database, saving staff time/resources to input by hand, is expected in FY19-20.

While the Board had planned to create an online license verification ordering/payment option, the Board is now exploring other options partnering with the American Association of Veterinary State Boards (AAVSB) that would provide more economical options. As well, the Board is working with other states' boards to develop a more uniform nationwide system of providing license verifications, to speed the process for licensees wishing to work across state lines.

The agency is working with the American Association of Veterinary State Boards to develop methods for licensees to easily track and maintain records of continuing education completed that is necessary for license renewal.

Issue 2 Few resources exist for licensees to seek support and treatment when challenged with substance abuse issues. Currently, Board staff implements and monitors Board Orders for individuals who have been ordered into treatment/monitoring.

Description As part of the Board's mission to ensure that veterinary professionals provide competent care to animals, taking action to assist a professional struggling with substance abuse issues is sometimes necessary. The Board has the statutory authority to develop a monitored treatment program specifically for the agency's licensees and certificate holders, in which they may confidentially enter if no other Board action is pending.

Solutions:

Efforts have been underway to research best practices in regulatory board diversion programs and consider partnerships with other boards to develop a treatment/monitoring program. Upon review, the agency determined that a program specific to each profession was more desirable to licensees. Efforts are underway to launch the new program by early FY20. While costs for treatment, testing, and monitoring will be paid by the licensee, the agency will have expenses related to assistance needed from the program's medical director and staff for expert witness duties and other consultations.

Once implemented, the Board's resources to direct treatment and monitor licensees will be decreased, as the treatment/monitoring program's administrator will take on the majority of that role.

Issue 3 To operate more efficiently and cost-effectively, while improving customer service, the transition away from paper documents is critical.

Description The agency has limited space for storing paper documents that must be kept for long timeframes. Keeping those documents safe from fire, flood, etc. is also a concern. The public and licensees increasingly expect instant access to public records via the website and other methods. Electronic management and easy retrieval of documents by staff will increase productivity, allowing more time for direct program-related activities. A project to procure and implement a document imaging/storage system is proposed.

Obtaining a high-quality document imaging/management system would provide many solutions. Retrieving and organizing records would be simplified, creating more efficient internal operations as well as enhanced customer satisfaction, as it is expected that more public records could be provided electronically or posted on the agency's website. Currently, most public records requests involve staff manually pulling a record file, photocopying needed pages, then mailing to the requestor.

Depending on the system obtained, it is possible that record retention management could also be automated by use of an electronic system with storage/destruction capabilities.

Solutions:

Procuring and implementing a document imaging/management system is planned to solve the issues noted and enhance the agency's capability to more quickly respond to public record and Board requests. As most organizations move to electronic documents as the norm, we expect that additional uses would follow in the next few years as well.

The document imaging/management system planning is expected to be developed in FY19-21. Part of the research prior to procuring a vendor involves study of state laws and best practices pertaining to digital records and how such a system could synchronize with an E-licensing system. An enterprise solution offered by the State, if available, will also be considered.

Issue 4 Veterinary license applicants are required to appear in person to take the required State Veterinary Exam.

Description All veterinary license applicants must pass the State Veterinary Exam, which focuses on jurisprudence and diseases/hazards to animals in Arizona, prior to licensure. The exams are held once per month in Phoenix; many states offer their state exams only quarterly, or less. Many applicants do not reside in Arizona at the time of application; thus, they are required to travel to Phoenix for the exam, creating additional time and financial requirements on the applicant.

Solutions:

In FY17, the Board completed a research project focused on offering State exams at testing centers across the country. This was rejected as being too expensive; thus, other options have been being explored.

The Board recently adopted the plan to partner with the American Association of Veterinary State Boards (AAVSB) where the AAVSB will administer an online exam to applicants. In FY19, Board staff will be developing the process and documentation for use of the new testing system. This new exam method may require Administrative Rule changes. The online examinations are projected to be available in FY20.

Issue 5 License applications and supporting documents are mostly submitted via paper form. Staff must organize documents as they arrive in the office and manually input applicant information into database.

Description The agency continually strives to increase efficiency, cost-effectiveness, and customer satisfaction. By providing an online solution for license applications, all these are expected to be enhanced.

Applications include not only the application form submitted by the applicant, but other documents that must be sent from other organizations (e.g. transcripts), individuals (e.g. references), and other state boards (e.g. license verifications). This means that documents are arriving from several different sources for each applicant; this is important to verify the authenticity of the documents. Because of the multi-source document procurement, the applicant cannot simply apply and pay online and be done.

Solutions:

Research on e-licensing systems began in FY16. There are various possibilities open to the agency, including partnering with the American Association of Veterinary State Boards, expanding on the online license renewal system currently under development, and/or procuring e-licensing software. Depending on progress and success of the E-licensing solution initiated by a group of other 90/10 Boards, the agency will study and consider procuring that system as needed after thoroughly analyzing costs/benefits of all options available.

DEPARTMENT OF WATER RESOURCES

Thomas Buschatzke, Director
 Phone: (602) 771-8500
 A.R.S. §§ 45-101 et seq.

Mission:

To be the steward of Arizona's water future and ensure long-term, reliable water supplies to support the continued economic prosperity of the State.

Description:

ADWR administers the State's water laws through the compilation and analysis of water supply and demand data, coordination of research to augment water supplies for future demand and development of policies that promote conservation and water availability.

ADWR defends the integrity of the state water supply by overseeing surface water, groundwater, and Colorado River water supplies. As the technical experts for the state, ADWR represents and supports the General Stream Adjudication proceedings and negotiates with national and international partners.

ADWR protects Arizona against the loss of life and property through the implementation of the dam safety, flood warning, and floodplain management programs.

STATEWIDE PLANNING

Gerry Walker, Deputy Assistant Director
 Phone: (602) 771-8500
 A.R.S. §§ 45-104, 45-105

Mission:

To propose water management strategies to preserve and enhance water supplies of the state on behalf of, and in partnership with, the citizens of Arizona.

Description:

This subprogram includes data collection and analysis to describe water supply and demand conditions throughout Arizona. Planning investigations performed in this subprogram help to develop, protect and preserve the water supplies for the state.

HYDROLOGY

Jeffrey Inwood, Assistant Director
 Phone: (602) 771-8500
 A.R.S. §§ 45-104, 45-105

Mission:

To provide the Agency and citizens with timely and accurate hydrologic data collection and data analysis. The Division serves as the Agency's technical advisor on hydrologic and water resource issues to ensure that public policy is based on sound technical analysis.

Description:

This subdivision collects groundwater, surface water, microgravity and land subsidence data from thousands of wells and monitoring locations throughout the state. This subdivision develops, maintains and updates numerical groundwater flow models for the Active Management Areas and other areas of significant groundwater use. The collected hydrologic data and models are used by the agency to study past and present groundwater conditions: and to project future conditions in many of the major aquifers in the state. The hydrologic data and models assist water managers and other water information-users with both complex and everyday water resource planning and decision making. Hydrologic data, groundwater models and reports are published and available on the agency's website to the general public and water industry professionals.

Glossary

Part 1: Budget Terms

90/10 Professional and occupational regulatory agencies funded through the collection of fees and the issuance of licenses. These agencies retain 90% of the fees collected annually in separate agency fund accounts and deposit 10% of the fees collected into the *General Fund*.¹

A

accountability Monitoring, measuring, and evaluating the performance and progress of policies, plans and programs to ensure that results are achieved.

actual expenditure An expenditure made in the prior *fiscal year* as reported in the State of Arizona Annual Financial Report, including *Personal Services, Employee-Related Expenditures, All Other Operating Expenditures* and all *below-the-line items* as authorized by the Legislature.

administrative adjustment Adjustments made to reflect expenditures made by an agency after the close of the *fiscal year*. Administrative adjustments include the time period from the close of the 13th month to June 30 of the next fiscal year.

administrative cost An expense associated with the support, management and oversight of services delivered pursuant to the agency or program *mission*. Typical administrative costs include those associated with accounting, human resources, budgeting, strategic planning, public information, auditing, executive management, etc.

AFIS The Arizona Financial Information System is the statewide accounting system maintained by the Department of Administration.

AHCCCS The Arizona Health Care Cost Containment System is the State's Medicaid program designed to deliver quality managed healthcare to qualifying individuals.

All Other Operating Expenditures (AOOE) Category of expenditure accounts that include Professional and Outside Services, In-State Travel, Out-of-State Travel, Food, *Other Operating Expenditures*, and *Equipment*.

ALTCS The Arizona Long Term Care System is a single federally defined program providing services through two State agencies: AHCCCS, which serves the elderly and physically disabled, and the Department of Economic Security (DES), which serves the developmentally disabled.

annualization An adjustment, made to the current year funding base, that will allow a partially-funded program to operate for a full year or accounts for a full-year of budget savings due to mid-year reductions.

appropriated fund The Legislatively mandated segregation of funds. It is used and monitored by the *General Accounting Office* as a separate self-balancing set of accounts.

Arizona Administrative Code (AAC) State agency rules of practice setting forth the nature and requirements of all formal procedures available to the public.

Arizona Revised Statutes (A.R.S.) The laws governing the State of Arizona.

B

base budget An adjusted budget base that reflects the current year appropriation, amended to include changes for *standard operating adjustments*.

below-the-line item A specific expenditure or budgetary account that has been singled out through the appropriation process to provide high visibility of expenditure. Also known as "special line item."

biennial budgeting A process that estimates revenues and appropriates funding for a two-year period.

block grant Allocations of federal money to a state or its subdivisions in accordance with a distribution formula prescribed by law or administrative regulation, for activities of a continuing nature within a restricted subject area (e.g., social services, maternal and child health, and childcare).

budget A financial plan that estimates the revenues and expenditures for a given period of time. (SEE ALSO: *capital outlay* and *operating budget*).

budget program Functions and activities of a *budget unit* or within a budget unit that are pre-planned to fulfill a distinct *mission*.

budget reform legislation Refers to the provisions contained in Laws 1993, Chapter 252; Laws 1994, Chapter 218; Laws 1995, Chapter 283; Laws 1996, Chapter 339; Laws 1997, Chapter 210, and Laws 2002, Chapter 210.

budget unit A department, commission, board, institution or other State organization receiving, expending, disbursing or incurring obligations against State funds.

¹ Italicized terms are defined in this Glossary.

C

capital outlay Expenditures for upkeep, preservation, development, improvement or acquisition of lands, buildings or certain associated equipment.

Capital Outlay Stabilization Fund (COSF) A fund into which rent monies collected from agencies occupying State-owned rental space are deposited. The monies partially offset building operating and maintenance costs.

Career and Technical Education Districts (CTEDs) Formerly known as "Joint Technical Education Districts (JTEDs)", are school districts that offer high school career and technical education programs to partner school districts.

categorical eligibility Automatic eligibility for certain federal-State matched public assistance programs, based on criteria established in federal law. Admission to a program (e.g., Medicaid) is mandatory to certain groups of beneficiaries who meet the legal criteria for eligibility to the specified program.

categorical program A broad category of joint federal-State public assistance programs that provide financial assistance to individuals or that may subsidize a particular activity (e.g., Medicaid pays for medical services on behalf of certain groups of low-income persons).

certificate of participation (COP) A financing tool used by the State for the acquisition and construction of State facilities.

comptroller object An obsolete identifier that was formerly used in the statewide accounting system to identify the detailed revenue or expenditure account affected by a transaction; replaced in the new accounting system by *object*.

continuing appropriation An appropriation that is automatically renewed without further Legislative action, period after period, until altered, revoked or liquidated by expenditure.

current services budget A financial plan that incorporates the *base budget* needs of an agency and the addition of funding to support demographic growth in client caseloads and workload functions.

D

decision package A funding request made by State agencies.

defined contribution A predetermined contribution amount set aside for an employee's future retirement.

defined benefit plan A retirement plan in which contributions over time will provide a retiree with a predetermined amount of retirement income.

detail fund A fund designation used in the statewide accounting system to segregate agency-specific activity. The balance of an *appropriated fund* is comprised of the sum of all of its detail funds.

Disproportionate Share Hospital (DSH) A hospital that serves a disproportionate share of low-income and Medicaid patients,

thereby qualifying for federal aid pursuant to Section 1923 of the Social Security Act. The federal basis for payments is either a reflection of a hospital's number of Title XIX in-patient days or a "low-income" utilization rate. States may also establish optional payment categories. Arizona has established optional groups that include county, State and private hospitals.

E

Employee-Related Expenditures (ERE) The State's contribution to an employee's benefit package. ERE include FICA; retirement; Worker's Compensation; health, dental, and life insurance; unemployment insurance; Personnel Division charges; Government Information Technology Agency charges; and uniforms for certain classes of employees.

entitlement program A broad category of *categorical* public assistance programs that provide services (e.g., cash assistance, medical services, etc.) to certain population groups (e.g., low-income families with minor children). Admission is often mandatory for qualified individuals who meet the legal eligibility criteria (e.g., individuals who are low-income and aged, blind or disabled), hence the reference "entitlement."

Equipment In the operating budget, a specific item of expenditure divided into capitalized equipment (purchased for \$5,000 or more) and non-capitalized equipment (usually between \$300 and \$4,999).

ERE rate The quotient of *Employee-Related Expenditures* and *Personal Services* expressed as a percentage.

Executive Issue An adjustment to the prior-year appropriation to change the scope of current programs or service levels.

expenditures See actual expenditures.

F

federal funds Amounts collected and made available to the State by the federal government, usually in the form of *categorical* or *block grants* and *entitlement programs*.

Federal Insurance Contribution Act (FICA) Requires employees and employers to make matching contributions into the Social Security fund.

Federal Waiver Program Experimental, pilot or demonstration projects that, in the judgment of the Secretary of the U.S. Department of Health and Human Services, are likely to assist in promoting the objectives of the Medicaid Statute. Projects approved under this authority are referred to as "waiver" programs.

fiscal year The State's yearly accounting period beginning July 1 and ending June 30. (The federal fiscal year begins October 1 and ends September 30.)

FPL (Federal Poverty Level) Refers to the poverty guidelines, in relation to income standards, as updated annually in the FEDERAL REGISTER by the U.S. Department of Health and Human Services.

free and reduced lunch (FRL) Meals provided at no cost or low-cost to public and nonprofit private schools and residential child care institutions through the federal meal assistance program known as the National School Lunch Program.

full-time equivalent (FTE) position A position budgeted at 2,080 hours per year.

fund An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources together with all related liabilities, obligations, reserves and equities, which are segregated for the purpose of carrying on specific activities in accordance with limitations, restrictions or regulations.

fund balance The excess of the assets of a fund over its liabilities and reserves.

G

General Accounting Office (GAO) A division of the Department of Administration that provides diverse statewide financial services and ensures compliance with related *statutes* and rules.

General Fund The primary State account into which monies are collected for the general purposes of government. The primary sources of revenues for the General Fund include sales taxes, income taxes and other taxes and transfers. The General Fund is also the major expenditure source from which agencies make payments for specified purposes.

I

inflation An allowance made for an increase in price levels of operating expenditures from one *fiscal year* to the next.

input A *performance measure* that identifies the amount of resources needed to provide particular products or services.

J

JLBC Staff The Legislative counterpart to the Governor's *Office of Strategic Planning and Budgeting (OSP)*. The Joint Legislative Budget Committee Staff is often referred to as the JLBC but should not be confused with the Legislative committee of the same name. The JLBC Staff prepares an analysis of the Executive Budget as soon as it is presented to the Legislature. The analysis includes the JLBC Staff's recommendations for revisions in expenditures.

Joint Committee on Capital Review (JCCR) A Legislative committee created by Laws 1986, Chapter 85, to establish the Building Renewal Formula, approve the creation of Building Systems, and review the State Capital Improvement Plan. The JCCR is also responsible for reviewing all construction projects before commencement of the project. The JCCR consists of the following 14 members of the Legislature: Chairs of the House and Senate Appropriations Committees, majority and minority leaders from the House and

Senate, four members of the House Appropriations Committee, and four members of the Senate Appropriations Committee.

Joint Legislative Budget Committee (JLBC) A Legislative committee consisting of the following 16 members of the Legislature: Majority Leaders of both the House and Senate; Chairs of both the House and Senate Appropriations Committees; Chair of the Senate Finance Committee; Chair of the House Ways and Means Committee; five members of the House Appropriations Committee; and five members of the Senate Appropriations Committee. The JLBC meets as often as is necessary to transact business related to fiscal management of the State's resources.

Joint Substance Abuse Treatment Program (JSAT) Also known as "Arizona Families First," JSAT is a substance abuse program jointly administered by the Department of Child Safety and the Department of Health Services. The program pays for services to parents, guardians or custodians whose substance abuse is a significant barrier to preserving the family. Services can also be provided to federal Temporary Assistance for Needy Families (TANF) Block Grant recipients whose substance abuse is a significant barrier to obtaining or maintaining employment.

L

lapsing appropriation An appropriation that terminates automatically. Except for a *continuing appropriation*, an appropriation is made for a certain period of time, generally one year. At the end of this period (including an *administrative adjustment* period), unexpended or unencumbered balances revert to the fund from which the appropriation was made. Also known as a "reverting appropriation."

line item appropriation A method of appropriation that separates the budget into specific objects of expenditure. The specific items include *Personal Services*, *ERE*, Professional and Outside Services, In-State Travel, Out-of-State Travel, Food, *Other Operating Expenditures*, and *Equipment*.

lump-sum appropriation An appropriation made for a stated purpose, or for a named department, without specifying further the amounts that may be spent for specific activities or for particular objects of expenditure.

M

Master List of State Government Programs *Budget reform legislation* requires *OSP* to publish a "Master List" of programs run by or overseen by State government. Laws 2002, Chapter 210 slightly changed the format of the Master List and designated this annual submittal as the operational plan for State agencies and conformed to the budget cycles. Required information for each agency, program and subprogram includes the agency description, *mission*

statement, strategic issues, and financial and *FTE* position information, as well as the description, *mission* statements, goals, and *performance measures* for all programs and subprograms.

means-tested program Eligibility to a public assistance program restricted by an applicant's income or other resources specified by law. Resources include bank accounts and similar liquid assets as well as real estate, automobiles and other personal property whose value exceeds specified financial limits.

mission A brief, comprehensive statement of purpose of an agency, program, or subprogram.

modified lump-sum appropriation A method of appropriation in which *Personal Services*, *Employee-Related Expenditures*, *All Other Operating Expenditures* and *below-the-line items* are specified in the appropriations bill.

modified standard adjustment The difference, as calculated by the agency, between the actual *Personal Services* base and the amount allocated for *Personal Services* by the agency in its expenditure plan. Any amount identified as a modified standard adjustment must be explained by the agency requesting the adjustment.

N

non-appropriated funds Generally, funds set up as Enterprise or revolving funds. These funds are considered statutorily appropriated and are not subject to the annual or biennial appropriation process.

non-lapsing appropriation An appropriation that does not revert to the fund from which it was appropriated at the end of the *fiscal year*, as provided by law. (SEE *continuing appropriation*).

O

object The unit used in the State accounting system to identify, categorize and group governmental expenditures.

object category The aggregation of similar objects of expenditure or revenue in the State accounting system.

objective A specific and measurable target for accomplishing goals.

one-time adjustment A budget adjustment that must be made because of a one-time circumstance that is not continued through the next *fiscal year*. The end of a project would bring about a one-time decrease the following year.

operating budget A plan of all proposed expenditures other than capital expenditures (SEE *capital outlay*). An operating budget is composed of various objects of expenditure, such as *Personal Services*, *Employee-Related Expenditures*, *In-State Travel*, etc.

operational plan A practical, action-oriented guide that directs goal-setting to achieve meaningful results with the existing resources through the shorter budget cycle period. The operational plan

should provide incremental steps towards achieving the strategic long-range plan. SEE ALSO: *Master List*

OSPB (Office of Strategic Planning and Budgeting) A State agency charged with preparing the Governor's budget guidelines and the Executive Budget recommendation for review by the Governor. The Office also facilitates a strategic planning process for State government and is responsible for implementing many of the provisions of *budget reform legislation*. The OSPB staff is the Executive counterpart to the *JLBC Staff*.

other appropriated funds All amounts, excluding *General Fund* amounts, appropriated by the Legislature for predetermined uses. These include Special Revenue Funds, revolving funds, etc.

other operating expenditure According to the ARIZONA ACCOUNTING MANUAL, everything using an object code of 7000. This refers to operating expenditures necessary to operate a budget unit, e.g., office supplies, utilities, communication, etc.

outcome A *performance measure* that reflects the actual results achieved, as well as the impact or benefit, of a program.

output A *performance measure* that focuses on the level of activity in a particular program or subprogram.

P

per diem compensation Compensation paid to board or commission members for their work. Per diem compensation is a daily rate set statutorily.

per diem travel Cost of meals and incidentals reimbursed to employees and board or commission members.

performance accountability A means of judging policies and programs by measuring their progress toward achieving agreed-on *performance targets*. Performance accountability systems are composed of three components: defining performance measures (including outcomes), measuring performance and reporting results.

performance measure Used to measure results and ensure accountability. (SEE ALSO: *input*, *output*, *outcome*, and *quality*).

performance target Quantifiable estimate of results expected for a given period of time.

personal services Line item of expenditure for salaries and wages paid to employees, elected officials and board or commission members. Payments for leave categories, overtime and other miscellaneous earnings are also recorded in this line item.

privately owned vehicle (POV) Those miles to be used in calculating reimbursement of staff for use of private vehicles on State business.

privatization The opening of government markets allowing for equitable competition between the private and public sectors for the privilege of delivering services to the public.

program budgeting A budget system that focuses on program *missions*, program achievements, and program cost effectiveness. Pursuant to *statute*, the *program structure* for program budgeting is governed by the *Master List* structure. Program budgeting is linked to planning and *accountability* through alignment of the structures and merging of the planning and budget information.

program enhancement An upward revision in the funding level of a specific program in order to enhance the level of services being provided by that program.

program structure An orderly, logical arrangement of an organization's programs and subprograms. This structure provides the framework for planning, budgeting and strategic program authorization review.

Proposition 105 Voter Protection Act A 1998 voter-approved constitutional amendment that prohibits the Legislature from amending or repealing voter-approved referendums except under certain circumstances. Amendments to voter-approved language may only be passed by a three-fourths vote of the Legislature and must further the original intent of the voter-approved measure.

Proposition 108 A 1992 voter-approved constitutional amendment that requires a two-thirds vote of the Legislature to increase state revenues through taxation.

Proposition 123 Arizona Education Finance Amendment A 2016 voter-approved constitutional amendment that increased the total state land trust distribution contribution to the Permanent State School Fund from 2.5% to 6.9% to pay for new school construction debt service, school maintenance and operations, and Classroom Site Fund distributions.

Proposition 204 Medical Program A 2000 voter-approved AHCCCS program that expands eligibility to include individuals whose annual incomes are at or below 100% of the *FPL*. The program is funded through monies received by the State from the tobacco litigation settlement, tobacco tax funds, and the Hospital Assessment Fund.

Proposition 206 A 2016 voter-approved initiative that provides a series of increases in the Arizona minimum wage for private-sector employees and entitles most Arizona wage earners and salaried employees to paid sick leave.

Proposition 301 A 2000 voter-approved initiative that dedicates a six-tenths of a cent sales tax to Arizona education programs. The original Proposition 301 was set to expire in 2021; it was renewed legislatively until June 30, 2041 by Laws 2018, Chapter 74.

Q

quality A *performance measure* that reflects the effectiveness in meeting the expectations of customers and stakeholders.

R

receipt Unless otherwise defined, cash received. There are five general categories of receipts: taxes, licenses and permits, charges for services, fines and forfeitures, and other receipts that do not fall into another category.

resource allocation Determination and allotment of resources or assets necessary to carry out strategies within the priority framework established in the goal-setting process.

results-based funding An incentive program that rewards top performing public schools with funding for teacher salary increases, teacher professional development, and replication.

revenue Additions to assets that do not increase any liability, do not represent the recovery of an expenditure, do not represent the cancellation of certain liabilities without a corresponding increase in other liabilities or a decrease in assets, or do not represent contributions of fund capital in Enterprise and Intergovernmental Service Funds.

revenue source The tax, fee or fine that generates income to a fund.

risk management The charges assessed by the Department of Administration to guard against the risk of loss by an employee or agency acting on behalf of the State of Arizona.

S

special line item See *below-the-line item*

standard adjustment Change to the current year's appropriation to arrive at the new year's *base budget*. Examples include *annualization* of programs partially funded during the current year, annualization of the pay package, restoration of *vacancy savings*, and one-time increases and decreases.

standard operating adjustment An adjustment to the *base budget* that includes *annualization* of programs partially funded by the Legislative appropriation during the current year; a one-time increase or decrease to the *operating budget*.

State service All offices and positions of employment in State government except offices and positions specifically exempted by law from the State personnel system.

statute A written law, either new or revised, enacted by the Legislature and signed by the Governor.

strategic management Process of positioning an organization so it can prosper in the future. The overall framework within which policy development, strategic, operational, *quality* planning, budgeting, *capital outlay* planning, information technology planning, program implementation, and evaluation and *accountability* take place.

strategic plan A visionary guide, based on an examination of internal and external environmental and political factors, that directs goal-setting and future resource requirements to achieve meaningful

results over time. Strategic projections are long-range and usually cover a five-year period.

subprogram An integral component of a program that can be separately analyzed to gain a better understanding of the larger program.

subtask In AFIS, the element used to represent each of the subprograms of an agency as established by the Governor's Office and Legislature.

supplemental appropriation An appropriation granted for the current fiscal year. Agencies request a supplemental appropriation when the need for funding is urgent and cannot wait for the passage of the next regular appropriations act.

T

task In AFIS, the element used to represent each of the programs of an agency as established by the Governor's Office and Legislature.

tracking system A system that monitors progress, compiles management information and keeps goals on track.

U

uniform allowance An amount budgeted for specific agencies for the cost of uniforms required by the agency.

V

vacancy savings Savings generated by not filling vacant positions, by not filling newly authorized positions, or by filling a vacant position at a lower grade or step.
